[Lemon Reg. 529]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.636 *Lemon Regulation 529*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on March 17, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., March 21, 1954, and ending at 12:01 a. m., P. s. t., March 28, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 275 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is set forth below and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 18th day of March 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 18]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

[Supp. 21]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

OPERATIONAL USE OF WEATHER REPORTS FOR INSTRUMENT APPROACH, LANDING, OR TAKE-OFF

These rules prescribe the operational use of hourly sequence weather reports, including end-of-runway weather reports, in executing an instrument approach, landing, or take-off. The proposed rules were published on October 13, 1953, in 18 F. R. 6509; interested persons were afforded an opportunity to submit data, views, or arguments; and consideration has been given to all relevant matter presented. The following rules are hereby adopted:

§ 41.119–2 *Take-off and landing weather minimums (CAA rules which apply to §§ 41.96 and 41.119).* (a) Whenever the latest weather report, furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau contains a visibility value specified as a runway visibility for a particular runway of an airport, such visibility shall be used for straight-in instrument approach and landing or take-off for that runway only. The terminal visibility as reported in the main body of such weather report shall be used for instrument approach and landing or take-off for all other runways.

(b) The ceiling value reported in the main body of such weather report shall constitute the ceiling for both circling and straight-in instrument approach and landing or take-off for all runways.

§ 42.56–2 *Take-off and landing weather minimums (CAA rules which apply to §§ 42.55 and 42.56).* See § 41.119–2 of this subchapter.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This supplement shall become effective April 1, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 72]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

OPERATIONAL USE OF WEATHER REPORTS FOR INSTRUMENT APPROACH, LANDING, OR TAKE-OFF

These rules prescribe the operational use of hourly sequence weather reports, including end-of-runway weather reports, in executing an instrument approach, landing, or take-off. The proposed rules were published on October 13, 1953, in 18 F. R. 6509, interested persons were afforded an opportunity to submit data, views, or arguments; and consideration has been given to all relevant matter presented. The following rules are hereby adopted:

§ 609.3 *Introduction.* • • •

(j) *Take-off and landing weather minimums.* (1) Whenever the latest weather report, furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau, contains a visibility value specified as a runway visibility for a particular runway of an airport, such visibility shall be used for straight-in instrument approach and landing or take-off for that runway only. The terminal visibility as reported in the main body of such weather report shall be used for instrument approach and landing or take-off for all other runways.

(2) The ceiling value reported in the main body of such weather report shall constitute the ceiling for both circling and straight-in instrument approach and landing or take-off for all runways.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective April 1, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6096]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HAIR & SCALP CLINIC, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages, or connections:* Personnel or staff; qualifications and abilities; § 3.90 *History of product or offering;* § 3.170 *Qualities or properties of product or service.* In connection with the offering for sale or sale of treatments of the hair and scalp in which certain cosmetic and medicinal preparations are used, namely, preparations referred to and designated by respondents as "Dioxynol", by various numbers and otherwise, such as "#26", "#57", "Spec. #99", "A-1", etc., and as "Special Formula Shampoo", "Hydrosol" (a detergent), and "Sebol" (a hair dressing oil), or in connection with the offering for sale, sale, or distribution of such cosmetic and medicinal preparations, for use in the treatment of conditions of the hair and scalp, or any other preparations of substantially similar composition or possessing substantially similar properties, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase of said preparations in commerce, which advertisements represent, directly or by implication: (a) That treatments of the hair or scalp by respondents or their employees, in which such various cosmetic and medicinal preparations are used, or in which any other preparations of substantially similar composition or possessing substantially similar properties are used, or that the use of said preparations by purchasers in their homes, will: (1) Have any effect in preventing or overcoming baldness or loss of hair; (2) cause the hair to take on new life; (3) induce the growth of new hair or stunted hair; (4) cause the permanent elimination of itching of the scalp, dandruff, dryness, or oiliness of the scalp, or prevent or cure other scalp disorders; (b) that respondents' formulas or preparations or any of them are new or the result of new discoveries; (c) that respondents or any of their employees have had competent training in dermatology or other branches of medicine pertaining to diagnosis or treatment of scalp disorders affecting the hair, or that respondents or any of their employees are trichologists; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Hair & Scalp Clinic, Inc., Washington, D. C., Docket 6096, Feb. 21, 1954]

In the Matter of Hair & Scalp Clinic, Inc., a Corporation, Ray W. Plasterer and Virginia E. Plasterer, Individually and as Officers of Said Corporation

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission, respondents' answer, and a stipulation whereby it was stipulated and agreed that a statement of facts executed by counsel supporting the complaint and counsel for respondents might be taken as the facts in the proceeding and in lieu of evidence in support of and in opposition to the charges stated in the complaint, and that the examiner might proceed upon such statement of facts to make his initial decision, stating his findings as to the facts, including inferences which he might draw from the stipulated facts, and his conclusion based thereon and enter his order disposing of the proceedings without the filing of proposed findings and conclusions, respondents, however, reserving the right to present oral argument.

It was further stipulated that if the proceeding should come before the Commission upon appeal from the initial decision of the examiner or by review upon the Commission's own motion, the Commission might, if it so desires, set aside the stipulation and remand the case to the hearing examiner for further hearings under the complaint, and thereafter a hearing was held before said examiner, theretofore duly designated by the Commission, at which counsel were heard in oral argument and certain documentary evidence was made a part of the record.

Subsequently the proceeding regularly came on for final consideration by said examiner upon the complaint, answer, stipulation, which had been approved by said examiner, documentary evidence and oral argument of counsel, and the examiner, having duly considered the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on February 21, 1954.

Said order to cease and desist is as follows:

It is ordered, That the respondents, Hair & Scalp Clinic, Inc., a corporation, and its officers, and Ray W. Plasterer and Virginia E. Plasterer, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale or sale of treatments of the hair and scalp in which the various cosmetic and medicinal preparations set out in the findings herein are used; or in connection with the offering for sale, sale or distribution of the various cosmetic and medicinal preparations set out in the findings herein, for use in the treatment of conditions of the hair and scalp, or any other preparations of substantially similar composition or possessing substantially similar properties, do forthwith cease and desist from:

I. Disseminating or causing to be disseminated by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

(a) That treatments of the hair or scalp by respondents or their employees, in which the various cosmetic and medicinal preparations set forth in the findings are used, or in which any other preparations of substantially similar composition or possessing substantially similar properties are used, or that the use of said preparations by purchasers in their homes, will:

(1) Have any effect in preventing or overcoming baldness or loss of hair.

(2) Cause the hair to take on new life.

(3) Induce the growth of new hair or stunted hair.

(4) Cause the permanent elimination of itching of the scalp, dandruff, dryness, or oiliness of the scalp, or prevent or cure other scalp disorders.

(b) That respondent's formulas or preparations or any of them are new or the result of new discoveries.

(c) That respondents or any of their employees have had competent training in dermatology or other branches of medicine pertaining to diagnosis or treatment of scalp disorders affecting the

[1] Filed as part of the original document.

hair, or that respondents or any of their employees are trichologists.

II. Disseminating or causing to be disseminated by any means any advertisement for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of said preparations in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representation prohibited in Paragraph I hereof.

By "Decision of the Commission and Order to File Report of Compliance," Docket 6096, February 19, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: February 19, 1954.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

[F. R. Doc. 54-2021; Filed, Mar. 19, 1954; 8:52 a. m.]

[Docket 6131]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

LACY'S, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages, or connections:* Organization and operation; § 3.55 *Demand, business or other opportunities;* § 3.200 *Sample, offer or order conformance;* § 3.205 *Scientific or other relevant facts.* **Subpart—*Offering unfair, improper, and deceptive inducements to purchase or deal:*** § 3.2015 *Opportunities in product or service;* § 3.2060 *Sample, offer, or order conformance;* § 3.2063 *Scientific or other relevant facts.* In connection with the offering for sale, or distribution in commerce, of electrical appliances, including home freezers and television sets: (1) Representing, through the use of such terms as "Lacy's Family Food Plan" or in any other manner, that respondents are engaged in the operation of a plan for the purchasing of food; (2) representing, directly or by implication, that participants in such plan can eliminate the retailer or buy at wholesale prices or from a wholesaler; (3) representing, directly or by implication, that over-all monetary savings may be effected through the general use of frozen foods in place of corresponding foods in other forms; (4) representing, directly or by implication, that any stated over-all monetary saving can be effected through participation in such plan unless, in immediate connection therewith, the amount of the expenditure for foods available through such plan which is necessary to effect such saving is disclosed; (5) misrepresenting the difference between the price of foods available under the plan and the price of such foods in usual retail channels, or the percentage of food costs which can be saved by participation in such plan; (6) representing that net monetary savings, however expressed, can be effected by the use of freezers purchased from respondents, unless the costs of operation, maintenance and depreciation and, in the event that the freezer is purchased on credit, the costs of such credit, are taken into account; and (7) representing, directly or by implication, that television sets or other appliances are being offered for sale, when such offer is not a genuine and bona fide offer to sell the television sets or other appliances so offered; prohibited.

(Sec. 6, 38 Stat. 722, 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Lacy's, Inc., et al., Washington, D. C., Docket 6131, Feb. 26, 1954]

In the Matter of Lacy's, Inc., a Corporation, and William Warsaw, Eugene H. Rietzke (Referred to in the Complaint as Eugene Rietcky), Hyman Goodbinder, and Hyman M. Goldstein (Referred to in the Complaint as Herman Goldstein), Individually

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission, the answer of respondents Rietzke and Goldstein, and the default of respondents, Lacy's, Inc., and respondents Warsaw and Goodbinder, who filed no answers to the complaint and entered no appearance at a hearing held by said examiner, theretofore duly designated by the Commission, in accordance with notice given in the complaint.

Thereafter the proceeding regularly came on for consideration by said examiner upon the complaint, the answers of respondents Rietzke and Goldstein, and the default of the other respondents, and said examiner, having duly considered the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order, including order to cease and desist as to respondents, Lacy's, Inc., and respondents Warsaw and Goodbinder, and order of dismissal as to respondents Goldstein and Rietzke.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on February 26, 1954.

Said order is as follows:

It is ordered, That respondents, Lacy's, Inc., a corporation, and its officers, and William Warsaw and Hyman Goodbinder, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of electrical appliances, including home freezers and television sets, do forthwith cease and desist from:

1. Representing, through the use of such terms as "Lacy's Family Food Plan" or in any other manner, that they are engaged in the operation of a plan for the purchasing of food.

2. Representing, directly or by implication, that participants in such a plan can eliminate the retailer or buy at wholesale prices or from a wholesaler.

3. Representing, directly or by implication, that over-all monetary savings may be effected through the general use of frozen foods in place of corresponding foods in other forms.

4. Representing, directly or by implication, that any stated over-all monetary saving can be effected through participation in such plan unless, in immediate connection therewith, the amount of the expenditure for foods available through such plan which is necessary to effect such saving is disclosed.

5. Misrepresenting the difference between the price of foods available under the plan and the price of such foods in usual retail channels, or the percentage of food costs which can be saved by participation in such plan.

6. Representing that net monetary savings, however expressed, can be effected by the use of freezers purchased from respondents, unless the costs of operation, maintenance and depreciation and, in the event that the freezer is purchased on credit, the costs of such credit, are taken into account.

7. Representing, directly or by implication, that television sets or other appliances are being offered for sale, when such offer is not a genuine and bona fide offer to sell the television sets or other appliances so offered.

It is further ordered, That the complaint be, and it hereby is, dismissed as to respondents Hyman M. Goldstein and Eugene H. Rietzke.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6131, February 26, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents, Lacy's Inc., a corporation, William Warsaw and Hyman Goodbinder, individually, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: February 26, 1954.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141a—PENICILLIN AND PENICILLIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 141b—STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR Parts 141a, 141b; 19 F. R. 1141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR Parts 146a, 146b, 146e; 18 F. R. 7673; 19 F. R. 672, 674, 1141, 1421) are amended as indicated below:

1a. In § 141a.48, the headnote and paragraph (b) are amended to read:

§ 141a.48 *Dibenzylethylenediamine dipenicillin G oral suspension, dibenzylethylenediamine dipenicillin G for oral suspension.* • • •

(b) *pH.* Proceed as directed in § 141a.5 (b), using the undiluted aqueous suspension or the suspension prepared as directed in the labeling of the drug.

b. Section 141a.48 is further amended by adding the following new paragraph (c):

(c) *Moisture (if it is a dry mixture of the drug).* Proceed as directed in § 141a.26 (e).

2. Part 141a is amended by adding the following new sections:

§ 141a.72 *Dibenzylamine penicillin G (dibenzylamine penicillin G salt)*—(a) *Potency.* Proceed as directed in § 141a.26 (a).

(b) *Sterility.* Proceed as directed in § 141a.2.

(c) *Pyrogens.* Proceed as directed in § 141a.3, except use physiological salt solution as the diluent.

(d) *Toxicity.* Proceed as directed in § 141a.4, except use physiological salt solution as the diluent, and inject 0.25 milliliter of a solution containing 4,000 units per milliliter.

(e) *Moisture.* Proceed as directed in § 141a.26 (e).

(f) *pH.* Proceed as directed in § 141a.5 (b), using a saturated aqueous solution prepared by adding 300 milligrams per milliliter.

(g) *Microscopical test for crystallinity.* Proceed as directed in § 141a.5 (c).

(h) *Penicillin G content.* Proceed as directed in § 141a.26 (h), using the following formula for calculating the percent of dibenzylamine penicillin G:

$$\text{Percent of dibenzylamine penicillin G} = \frac{\text{N-ethyl piperidine penicillin precipitate} \times 245.5}{\text{Weight of sample in milligrams}}$$

§ 141a.73 *Dibenzylamine penicillin and potassium penicillin powder, buffered*—(a) *Total potency.* Proceed as directed in § 141a.1, using 5 milliliters of the preparation, reconstituted as directed in the labeling.

(b) *Potassium penicillin content.* Centrifuge approximately 10 milliliters of the reconstituted preparation to obtain a clear solution and proceed as directed in § 141a.1, using 5 milliliters of the clear solution. The potency of the clear solution is regarded as the potassium penicillin content. The content of potassium penicillin is satisfactory if it is not less than 85 percent of that which it is represented to contain.

(c) *Dibenzylamine penicillin content.* The difference between the total potency as determined by paragraph (a) of this section and the potassium penicillin as determined by paragraph (b) of this section represents the amount of dibenzylamine penicillin present. The content of dibenzylamine penicillin is satisfactory if it is not less than 85 percent of that which it is represented to contain.

(d) *Moisture.* Proceed as directed in § 141a.26 (e).

§ 141a.74 *Dibenzylamine penicillin and streptomycin in oil, dibenzylamine penicillin and dihydrostreptomycin in oil*—(a) *Potency*—(1) *Penicillin content.* Proceed as directed in § 141a.27 (a), except the last sentence thereof. Its content of penicillin is satisfactory if it contains not less than 85 percent of the number of units per milliliter that it is represented to contain.

(2) *Streptomycin content.* Using 1.0 milliliter as the test sample, proceed as directed in § 141a.35 (a) (2). Its content of streptomycin is satisfactory if it contains not less than 85 percent of the number of milligrams per milliliter that it is represented to contain.

(3) *Dihydrostreptomycin content.* Using 1.0 milliliter as the test sample, proceed as directed in § 141a.35 (a) (3). Its content of dihydrostreptomycin is satisfactory if it contains not less than 85 percent of the number of milligrams per milliliter that it is represented to contain.

(b) *Moisture.* Using 1.0 milliliter as the test sample, proceed as directed in § 141a.7 (c).

3. Part 141b is amended by adding the following new section:

§ 141b.125 *Dihydrostreptomycin-streptomycin sulfates with isonicotinic acid hydrazide*—(a) *Total potency*—(1) *Preparation of sample*—(i) *Reagents*—(a) *Benzaldehyde.* Boiling point 75–76° C./16 mm.;

(b) *Acetone.* Reagent grade.

(ii) *Apparatus.* An extraction funnel is prepared by fusing a ground-glass stopper to the top of a medium porosity sintered-glass filter funnel (30-millimeter diameter).

(iii) *Procedure.* The entire sample is quantitatively transferred to the funnel as follows: Pour the dry sample into the funnel. Wash any material remaining in the bottle with three 5.0-milliliter portions of benzaldehyde, placing the washings into the funnel. Stopper the funnel and shake occasionally for 3 minutes. Filter off the benzaldehyde by vacuum. Repeat the shaking with two more 15-milliliter portions of benzaldehyde, discarding all benzaldehyde filtrates. Wash the residue in the funnel with about 10 milliliters of acetone, discarding the acetone filtrate. Dissolve the streptomycin and dihydrostreptomycin in the funnel with about 25 milliliters of water and transfer the solution to a 500-milliliter volumetric flask. Wash the funnel with water and transfer the washings to the volumetric flask. Finally, wash the funnel with water by filtering the water by vacuum and add the filtrate to the volumetric flask. Dilute the sample to 500 milliliters with distilled water, then proceed as directed in § 141b.101 (j), using the dihydrostreptomycin working standard as the standard of comparison. The total potency is satisfactory if it contains not less than 90 percent of the combined number of milligrams of dihydrostreptomycin and streptomycin that it is represented to contain.

(b) *Content of streptomycin sulfate.* Using an aliquot of the solution prepared as directed in paragraph (a) of this section, proceed as directed in § 141b.108 (b), making appropriate dilutions so that the aliquot ultimately used for the colorimetric measurement contains 5.0 milligrams of streptomycin (estimated), and modify the calculations in accordance with the dilutions made. Its content of streptomycin is satisfactory if it contains not less than 45 percent and not more than 55 percent of the total potency as determined under paragraph (a) of this section.

(c) *Isonicotinic acid hydrazide content.* Proceed as directed under § 141b.121 (a) (2).

(d) *Sterility, pyrogens, histamine, moisture, pH.* Using the total potency of the sample for preparing dilutions and weighings, proceed as directed in §§ 141b.102, 141b.104, 141b.105, and 141b.106.

(e) *Toxicity.* Proceed as directed under § 141a.4 of this chapter, using as a test dose 0.5 milliliter of a solution containing 1,000 micrograms of total activity per milliliter.

4a. In § 146a.69, the headnote and paragraph (a) are amended to read:

§ 146a.69 *Dibenzylethylenediamine dipenicillin G oral suspension, dibenzylethylenediamine dipenicillin G for oral suspension*—(a) *Standards of identity,*

strength, quality, and purity. Dibenzylethylenediamine dipenicillin G oral suspension is an aqueous suspension of dibenzylethylenediamine dipenicillin G, and dibenzylethylenediamine dipenicillin G for oral suspension is a dry mixture of dibenzylethylenediamine dipenicillin G; each drug may contain one or more suitable and harmless dispersing agents, buffer substances, and preservatives, with or without one or more suitable sulfonamides and suitable and harmless colorings and flavorings. The potency of the oral suspension and of the suspension prepared as directed in its labeling is not less than 20,000 units per milliliter. Its pH is not less than 6.0 and not more than 7.0. If it is a dry mixture of the drug, its moisture content is not more than 6.0 percent. The dibenzylethylenediamine dipenicillin G used conforms to the requirements of § 146a.68 (a), except subparagraphs (2), (4), and, if it is the oral suspension, (5) of that paragraph. Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

b. Paragraph (c) (1) (ii) is amended to read:

(c) *Labeling.* • • •

(1) • • •

(ii) The number of units in each milliliter of the batch, if it is the oral suspension, and the number of units in each immediate container, if it is a dry mixture.

c. Paragraph (c) (3) is amended by changing the words " 'Dibenzylethylenediamine dipenicillin G oral suspension,' " to read " 'dibenzylethylenediamine dipenicillin G oral suspension or dibenzylethylenediamine dipenicillin G for oral suspension,' ".

d. In paragraph (d) *Request for certification; samples*, subparagraph (1) is amended by changing the words "the potency per milliliter of the batch," to read "the potency per milliliter if it is a suspension of the drug and the number of units in each immediate container if it is a dry mixture,".

e. Paragraph (d) (2) (i) is amended to read:

(i) The batch; average potency per milliliter if it is the oral suspension, average potency per immediate container if it is a dry mixture, pH, and moisture if it is a dry mixture of the drug.

f. Paragraph (d) (2) (ii) is amended by inserting the words "moisture (if it is used in the preparation of a dry mixture)," between the words "pH" and "crystallinity".

5. Part 146a is amended by adding the following new sections:

§ 146a.94 *Dibenzylamine penicillin G (dibenzylamine penicillin G salt)*—(a) *Standards of identity, strength, quality, and purity.* Dibenzylamine penicillin G is the crystalline dibenzylamine salt of penicillin G. It contains not less than 85 percent by weight of the dibenzylamine salt of penicillin G. Each such drug is so purified and dried that:

(1) Its potency is not less than 975 units per milligram.

(2) It is sterile.

(3) It is nontoxic.

(4) It is nonpyrogenic.

(5) Its moisture content is not more than 4.0 percent.

(6) Its pH in saturated aqueous solution is not less than 5.0 and not more than 7.5.

(b) *Packaging.* In all cases the immediate containers shall be tight containers as defined by the U. S. P., shall be sterile at the time of filling and closing, shall be so sealed that the contents cannot be used without destroying the seal, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused that are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear on its outside wrapper or container and the immediate container, as hereinafter indicated, the following:

(1 The batch mark.

(2) The weight of the drug and the number of units in the immediate container.

(3) The statement "Expiration date _____," the blank being filled in with the date which is 18 months after the month during which the batch was certified: *Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

(4) The statement "For manufacturing use only."

(5) The statement "Caution: Federal law prohibits dispensing without prescription."

(d) *Request for certification, check tests and assays; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in the batch, the weight of the drug and the number of units in each package, and (unless it was previously submitted) the date on which the latest assay of the drug comprising such batch was completed. Such request shall be accompanied or followed by the results of tests and assays made by him on the batch for potency, sterility, toxicity, pyrogens, moisture, pH, crystallinity, and the penicillin G content.

(2) Such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; 10 packages.

(ii) For sterility test; 10 packages.

Each such package shall contain approximately 300 milligrams taken from different parts of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

(3) In connection with contemplated requests for certification of batches of another drug in the manufacture of which dibenzylamine penicillin G is to be used, the manufacturer of a batch that is to be so used may request the Commissioner to make check tests and assays on a sample of such batch, taken as prescribed by subparagraph (2) of this paragraph. From the information required by subparagraph (1) of this paragraph may be omitted results of tests and assays not required for the batch when used in such other drug. The Commissioner shall report to such manufacturer results of such check tests and assays as are so requested.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section.

(2) If the Commissioner considers that investigations other than the examination of such batch complies with the requirements of § 146.3 of this chapter for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d) of this chapter.

§ 146a.95 *Dibenzylamine penicillin and potassium penicillin powder, buffered*—(a) *Standards of identity, strength, quality, and purity.* Dibenzylamine penicillin and potassium penicillin powder, buffered, is a dry mixture of dibenzylamine penicillin G and potassium penicillin G, with or without one or more suitable sulfonamides, and with one or more suitable and harmless buffer substances, colorings, and flavorings. It shall contain not less than 100,000 units of potassium penicillin G for each 200,000 units of dibenzylamine penicillin G. Its moisture content is not more than 1 percent. Its pH is not less than 5.5 and not more than 7.5. The dibenzylamine penicillin G used conforms to the requirements of § 146a.94 (a), except subparagraphs (2) and (4) of that paragraph. The potassium penicillin used conforms to the requirements of § 146a.24 (a) for potassium penicillin, except subparagraphs (2) and (4) of that paragraph. Each other ingredient used, if its name is recognized in the U. S. P. or N. F. conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate container shall be a tight container as defined by the U. S. P. The composition of the immediate container shall be such as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused that are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of units of dibenzylamine penicillin and the number of units of potassium penicillin in the immediate container.

(iii) If it contains sulfonamides, the name and quantity of each in the immediate container.

(iv) The name of each buffer substance used in making the batch.

(v) The statement "Expiration date _____," the blank being filled in with the date which is 12 months after the month during which the batch was certified: *Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

(vi) The statement "Warning—Not for injection."

(2) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(3) On the label and labeling, if it contains sulfonamides, after the name "dibenzylamine penicillin and potassium penicillin powder, buffered," wherever it appears, the words "with sulfonamides," in juxtaposition with such name.

(4) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless they were previously submitted) the dates on which the latest assays of the dibenzylamine penicillin G and the potassium penicillin G used in making the batch were completed, the number of units of dibenzylamine penicillin G and the number of units of potassium penicillin G in each container of the batch, the date on which the latest assay comprising such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided in subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; potency and moisture.

(ii) The dibenzylamine penicillin G used in making the batch; potency, toxicity, moisture, pH, crystallinity, and penicillin G content.

(iii) The potassium penicillin G used in making the batch; potency, toxicity, moisture, pH, penicillin G content, crystallinity, and heat stability.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch; 1 immediate container for each 5,000 immediate containers in the batch, but in no case less than 6 or more than 12 immediate containers, collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The dibenzylamine penicillin G used in making the batch; 3 packages, each containing approximately equal portions of not less than 500 milligrams packaged in accordance with the requirements of § 146a.94 (b).

(iii) The potassium penicillin G used in making the batch; 3 packages, each containing approximately equal portions of not less than 250 milligrams packaged in accordance with the requirements of § 146a.24 (b).

(iv) In case of an initial request for certification, each other ingredient used in making the batch; 1 package of each containing approximately 5 grams.

(4) No result referred to in subparagraph (2) (ii) and (iii) of this paragraph, and no sample referred to in subparagraph (3) (ii) and (iii) of this paragraph, is required if such results or samples have been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i), (ii), (iii), and (iv) of this section.

(2) If the Commissioner considers that investigations other than the examination of such immediate containers are necessary to determine whether or not such batch complies with the requirements of § 146.3 of this chapter for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d) of this chapter.

§ 146a.96 *Dibenzylamine penicillin and streptomycin in oil, dibenzylamine penicillin and dihydrostreptomycin in oil.* Dibenzylamine penicillin and streptomycin in oil and dibenzylamine penicillin and dihydrostreptomycin in oil conform to all the requirements prescribed by § 146a.57 for procaine penicillin and streptomycin in oil and procaine penicillin and dihydrostreptomycin in oil and are subject to all procedures prescribed by § 146a.57 for procaine penicillin and streptomycin in oil and procaine penicillin and dihydrostreptomycin in oil, except that dibenzylamine penicillin is used in lieu of procaine penicillin. The dibenzylamine penicillin used conforms to the requirements of § 146a.94 (a), except subparagraphs (2) and (4) of that paragraph.

6. Part 146b is amended by adding the following new section:

§ 146b.120 *Dihydrostreptomycin-streptomycin sulfates with isonicotinic acid hydrazide.* Dihydrostreptomycin-streptomycin sulfates with isonicotinic acid hydrazide conforms to all requirements and is subject to all procedures prescribed by § 146b.113 for dihydrostreptomycin-streptomycin sulfates, except that:

(a) It contains not less than 100 milligrams of isonicotinic acid hydrazide for each 0.5 gram of dihydrostreptomycin-streptomycin sulfates. The isonicotinic acid hydrazide used has a purity of not less than 98 percent and has a melting point of not less than 169° C. and not more than 172° C.

(b) In lieu of the directions prescribed by § 146b.113 (c), it shall be labeled in accordance with the requirements prescribed by § 146b.101 (c), except that each package shall bear on the outside wrapper or container and the immediate container the number of grams of dihydrostreptomycin, the number of grams of streptomycin and the number of grams of isonicotinic acid hydrazide, and the expiration date shall be 18 months after the month during which the batch was certified: *Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

(c) In addition to complying with the requirements of § 146b.113 (d), a person who requests certification of a batch shall submit with his request a statement showing the number of grams of isonicotinic acid hydrazide in each package, and in case of an initial request for certification, a sample consisting of approximately 5.0 grams of the isonicotinic acid hydrazide used in making the batch.

(d) The fee for the services rendered with respect to the sample of isonicotinic acid hydrazide submitted in accordance with the requirements prescribed therefor by this section shall be $4.00.

7. In § 146e.411 *Bacitracin-neomycin ointment* • • •, subparagraph (2) of paragraph (a) is amended by changing the period at the end thereof to a comma and adding the following new clause:

", except that the blank may be filled in with the date which is 24 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that such drug as prepared by him is stable for such period of time."

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: March 15, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

[F. R. Doc. 54-2018; Filed, Mar. 19, 1954; 8:51 a. m.]

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

ANIMAL FEED CONTAINING ANTIBIOTICS

Under authority provided in the Federal Food, Drug, and Cosmetic Act (secs. 502 (1), 507 (c), 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 352 (1), 357 (c); 67 Stat. 18), I find that the requirements of sections 502 (1) and 507 of the act with respect to animal feed containing chlortetracycline and certain other designated drugs, when used for the prevention or treatment of diseases of poultry, and conspicuously so labeled, are no longer necessary to insure safety and efficacy of such drugs when used for such purposes, and hereby promulgate the following amendments exempting such drugs from the requirements:

Section 146.26 *Animal feed containing penicillin* • • • is amended in the following respects:

1. Paragraph (h) is amended by changing the last sentence to read: "If it is intended for use solely in poultry, it may contain 0.1 percent of para-aminobenzoic acid or the sodium or potassium salt of para-aminobenzoic acid, or if it is intended for continuation of coccidiosis prevention it shall contain, in the amount specified, one of the ingredients prescribed by paragraph (b) of this section."

2. Paragraph (m) is amended by changing the words "and it contains 0.0056 percent nitrofurazone" to read "and it contains, in the amount specified, one of the ingredients prescribed by paragraph (b) of this section".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it would be against public interest to delay providing for the aforesaid amendments, and since it conditionally releases existing requirements.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 502, 52 Stat. 1050, as amended, sec. 507, 59 Stat. 463, as amended, 67 Stat. 389; 21 U. S. C. 352, 357)

Dated: March 15, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order VII-6, Amdt. 2]

DMO VII-6—EXPANSION GOALS

MISCELLANEOUS AMENDMENTS

Defense Mobilization Order VII-6 dated December 3, 1953, (18 F. R. 7876) and Amendment 1 dated January 29, 1954, (19 F. R. 855) are further amended as follows:

Expansion Goal No. 25, Hydrofluoric Acid is hereby transferred from List II, Suspended to List I, Closed.

Expansion Goal No. 215, Titanium Melting Facilities, delegate agency changed from GSA to Commerce.

This amendment shall take effect on March 20, 1954.

OFFICE OF DEFENSE MOBILIZATION, ARTHUR S. FLEMMING, *Director.*

Chapter XVI—Agricultural Marketing Service, Department of Agriculture

[Defense Food Order 2, Sub-Order 3: Termination]

DFO 2—PROCESSED FRUITS AND VEGETABLES: SET-ASIDE REQUIREMENTS

SO 3—CANNED FRUITS AND CANNED VEGETABLES: SET-ASIDE REQUIREMENTS

TERMINATION

It is hereby found and determined that the provisions of Sub-Order 3 (18 F. R. 2409), issued pursuant to Defense Food Order 2, as amended (16 F. R. 3345, 4981), with respect to the canned fruits and canned vegetables of the 1953 production required to be set aside and reserved for procurement by Government agencies pursuant to Defense Food Order 2, do not now appear necessary or appropriate to promote the national defense; and this termination order is, therefore, hereby made effective. During the administration of Defense Food Order 2, Sub-Order 3, there were frequent consultations with industry representatives relative to its operations. To the extent practicable in the formulation of this order, there has been informal consultation with industry representatives, and consideration has been given to their recommendations.

Summary of termination order. The effect of this action is to terminate the requirement that processors continue to set aside designated canned foods for procurement by Government agencies. In addition, all canned foods that are currently set aside and reserved under Sub-Order 3 are released by this order.

Regulatory provisions. Defense Food Order 2, Sub-Order 3 (18 F. R. 2409) is hereby terminated effective 12:01 a. m., e. s. t., April 1, 1954. With respect to violations, rights accrued, liabilities incurred, or appeals taken with respect to said Defense Food Order 2, Sub-Order 3 prior to the effective time of the provisions hereof, all provisions of said Defense Food Order 2, Sub-Order 3 shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal: *Provided*, That any canned food set aside pursuant to said Defense Food Order 2, Sub-Order 3 is hereby released.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Done at Washington, D. C., this 17th day of March 1954.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 1—GENERAL RULES AND REGULATIONS

PART 20—SPECIAL REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Paragraph (i) of § 1.4 *Fishing* is amended to read as follows:

(i) The canning or curing of fish for the purpose of transporting them out of a park or monument is prohibited except in Isle Royale National Park, where a fisherman is permitted to salt down one day's catch and remove them from the Park.

2. Section 20.38 *Isle Royale National Park* is amended to read as follows:

§ 20.38 *Isle Royale National Park*—(a) *Sport fishing, inland lakes and streams.* (1) The open season for fishing shall be as follows:

Brook trout, rainbow trout, brown trout, steelheads, and lake trout (Mackinaw trout), last Saturday in April to Labor Day, inclusive.

Muskellunge, northern pike, walleyed pike, and yellow perch, 1st of May to November 1st, inclusive.

(2) *Catch limits.* The maximum catch per person per day shall be as follows:

Brook trout, rainbow trout, brown trout, and steelheads, a combined total of 10 fish, but not more than 10 pounds of fish and 1 fish.

Lake trout (Mackinaw trout), 5 fish, but not more than 25 pounds of fish and 1 fish.

Northern pike, walleyed pike, and muskellunge, 5 fish of either species.

(3) *Minimum size limits.* Fish of the following sizes shall not be retained but shall be carefully handled with moist hands and returned at once to the water:

Brook trout, rainbow trout, brown trout, and steelheads, under 7 inches in length.

Northern pike and walleyed pike, under 14 inches in length.

Lake trout (Mackinaw trout), under 15 inches in length.

Yellow perch, under 6 inches in length.

Muskellunge, under 30 inches in length.

(4) *Number of fish in possession.* The number of fish in possession shall not exceed the maximum catch per person per day, as indicated herein.

3. Paragraph (a) of § 20.22 *Grand Teton National Park* is amended to read as follows:

(a) *Speed.* Speed of automobiles and other vehicles, except ambulances and Government cars on emergency trips, shall not exceed 35 miles per hour on any of the Park roads unless different speed limits are indicated by posted signs or markers.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 15th day of March 1954.

DOUGLAS MCKAY, *Secretary of the Interior.*

MARCH 15, 1954.

[F. R. Doc. 54-1991; Filed, Mar. 19, 1954; 8:46 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 944]

UTAH

WITHDRAWING PUBLIC LANDS FOR USE OF ATOMIC ENERGY COMMISSION

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described lands in Utah are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Atomic Energy Commission:

SALT LAKE MERIDIAN

T. 25 S., R. 21 E.,
Sec. 28, That part of the NE¼ lying southwest of U. S. Highway No. 160, and NE¼SE¼;
Sec. 27, That part of W½NW¼ lying south of U. S. Highway No. 160, and SW¼.

The areas described aggregate approximately 380 acres.

This order shall take precedence over but shall not otherwise modify the departmental order of September 15, 1939, establishing Utah Grazing District No. 9, and shall be subject to exisitng withdrawals for powersite purposes so far as they affect any of the above-described lands.

It is intended that the lands above described shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

ORME LEWIS, *Assistant Secretary of the Interior.*

MARCH 16, 1954.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10444]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICE

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

MARITIME MOBILE RADIOTELEPHONE SERVICE IN BAND 2000–2850 KC

The report and order in the above-entitled proceeding, dated February 10, 1954, should be corrected by making the following change: Under § 8.351 (d), the new subparagraph (14) should be designated as new subparagraph (15).

Released: March 17, 1954.

FEDERAL COMMUNICATIONS COMMISSION, [SEAL] MARY JANE MORRIS, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 29]

TOBACCO INSPECTION

ANNOUNCEMENT OF REFERENDUM IN CONNECTION WITH PROPOSED DESIGNATION UNDER TOBACCO INSPECTION ACT OF TOBACCO AUCTION MARKET OF HIGH SPRINGS, FLORIDA

Pursuant to the provisions of The Tobacco Inspection Act (7 U. S. C. 511 et seq.) and in accordance with the applicable regulations (7 CFR 29.74) issued thereunder by the Secretary, notice is given that a referendum of tobacco growers will be conducted from April 15 through April 17, 1954, to determine whether growers favor the designation of the High Springs, Florida, tobacco auction market for free and mandatory inspection of tobacco sold thereon.

Growers who sold tobacco on the aforesaid market during the 1953 marketing season shall be eligible to vote in said referendum. Ballots for use in said referendum will be mailed to all eligible voters insofar as their names and addresses are known. Eligible voters who do not receive ballots by mail may obtain them from (1) the county agent at Gainesville, Florida; (2) the office of the county Agricultural Stabilization and Conservation committee at Gainesville, Florida; or (3) the office of the Chamber of Commerce, City Hall, High Springs, Florida.

All completed ballots shall be mailed to the Tobacco Division, Agricultural Marketing Service, United States Department of Agriculture, P. O. Box 549, Raleigh, North Carolina, and, in order to be counted in said referendum, must be postmarked not later than midnight, April 17, 1954.

Done at Washington, D. C., this 17th day of March 1954.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 8333]

STANDARD BROADCAST STATIONS

STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING DAYTIME SKYWAVE TRANSMISSIONS

In the matter of promulgation of rules and regulations and Standards of Good Engineering Practice Concerning Daytime Skywave Transmissions of Standard Broadcast Stations; Docket No. 8333.

1. The above-entitled proceeding was instituted May 8, 1947, to determine the existence and extent of skywave transmissions of standard broadcast stations during daylight hours and to formulate necessary changes in the Commission's rules and regulations and Standards of Good Engineering Practice in light of the evidence adduced.

2. The ultimate question here presented is whether the data compiled in the record in this proceeding with respect to skywave transmissions during daytime hours on standard broadcast radio frequencies established that stations receive an adequate or sufficient

degree of protection from interference from such sources in the light of our basic allocation[1] objectives (see paragraphs 5–6, infra); and in the event that they do not, whether the Commission's rules and standards should be revised to accord such a degree of protection. A brief discussion of basic allocation and interference problems, and of the Commission's approach to them in the standard broadcast field is necessary to an understanding of the specific considerations raised by the instant proceeding.

BACKGROUND

3. There is no rule of law or section of the Communications Act which affords broadcast stations protection against "interference", as that term may be defined in the abstract without reference to the Commission rules, regulations and standards. Section 303 (f) of the act provides in pertinent part that the Commission shall "make such regulations not inconsistent with law as it may deem necessary to prevent interference between stations." In this section Congress has delegated to the Commission the authority to determine the extent to which broadcast and other radio stations shall be protected against interference and, necessarily, the concomitant authority to determine the extent to which interference between broadcast and other radio stations shall be permitted to exist. The delegation is broad and leaves within the Commission's discretion, subject to the criterion of the public interest, convenience and necessity, not only the determination of what degree of interference between stations shall be considered excessive but also the methods by which such excessive interference shall be avoided.

4. Whenever two or more radio stations operate simultaneously on the same or closely adjacent frequencies, each will interfere to some extent with reception of the other. Depending upon many factors, but principally the distance between the stations, the power radiated, and the time of operation, the interference may be so slight as to be undetectable within any area where any station produces a usable signal or may be so severe as virtually to destroy the entire service area of all of the stations. The importance of the last factor listed—time of operation—results from the two fundamental modes of propagation of radio signals at standard broadcast frequencies. At these frequencies propagation of radio signals consists of groundwave and skywave. As is generally known, groundwave transmission is more restricted in its coverage but of a steadier nature than skywave transmission, which, being a reflected signal from the ionosphere (an imperfectly reflecting medium) reaches far wider areas. To provide a good grade of skywave service over large areas requires a high power station with a tall antenna, and most important from the viewpoint of this proceeding, operation at night. For at standard broadcast frequencies there is a significant difference between the propagation of radio signals during daytime and nighttime hours. This difference is so consistent and so marked that it is possible to assign a great many more stations to a single frequency daytime than nighttime without excessive interference resulting between stations. At night, however, skywave signals, though continuously varying in intensity, are very much stronger and are capable of providing a useful service, particularly in thinly populated areas, and also of causing severe interference to other services. Thus, an optimum utilization of a frequency daytime might not be optimum at night, and vice versa.

5. In the formulation of basic rules and standards governing the assignment of stations the Commission must determine the point at which on an over-all basis the resulting interference may become so severe as to outweigh the advantages to be gained by assigning additional stations to the available frequencies. But sound rules effectuating such an optimum balance can only be achieved on the basis of postulated objectives and means for its implementation.[2]

6. Following are the general objectives sought to be achieved by the Commission's rules and Standards Governing the Assignment of Standard Broadcast Stations:[3]

(a) To provide some service to all listeners or, what amounts to the same thing, to provide some service to all areas;

(b) To provide as many services or program choices to as many listeners as possible;

(c) To provide service of local origin to as many listeners as possible.

7. With these objectives in view the Commission classified the standard broadcast band of frequencies into classes of channels. Since 1938 this classification has comprised clear channels on which there are assigned relatively few stations, protected from interference to such an extent that their nighttime skywave renders valuable service over wide areas; and two other classes, regional channels, and local channels, on which there are assigned numerous stations that are necessarily protected from interference to a degree insufficient to permit satisfactory wide-area service at night by means of skywave. The clear channels thus are designed primarily to provide service to all areas; the regional and local channels are designed to achieve the other two aims, i. e., provision of the maximum number of facilities and local outlets.

8. As a further step in the realization of the assignment objectives the Commission designated the following main or primary classes of stations for operation on these channels:

(a) Class I–A and I–B stations to operate on clear channels in order to provide service to very extensive areas in furtherance of the objective of rendering some service to all listeners or all areas.[4]

(b) Class III stations to operate on regional channels primarily in order to provide service to large urban areas.

(c) Class IV stations to operate on local channels primarily in order to provide multiple services to small communities.

9. In addition to these main or primary classes of stations the Commission has provided another group of stations, designated as Class II, for operation on clear channels where such operation can be conducted without undue prejudice to the objectives sought to be achieved by operation of Class I stations on these channels. Such stations are in this sense secondary stations. The ability to assign Class II stations is derived from the weakness of daytime skywave transmissions (see paragraph 4, supra). On the clear channels, daytime only,[5] limited-time stations[6] or unlimited-time Class II stations may be assigned which must either cease operation at sunset to protect the I–A station or in the case of the I–B clear channels, employ directional arrays or reduce power or cease operation for the protection of I–B or other Class II stations.

10. In order to effectuate the objectives of the standard broadcast service within the framework of the channel and station structure erected, it is essential to decide the degree or amount of protection from interference to be accorded stations and also the means for determining whether interference, as defined, exists or would exist by a contemplated assignment at any given time and place. The Commission therefore specified the authorized powers for the several classes of stations and with one exception[7] specified the service contour to which stations will normally be protected against "objectionable interference." The Commission did not leave the determination of the existence or absence of objectionable interference within such normally protected contours to an ad hoc application on a case-to-case basis of current engineering theory and subjective value judgments. Rather, it defined exactly what was meant by the term "objectionable interference" and, further, specified methods of determining by calculation or measurement whether, in any particular case, objectionable interference as defined would, for purposes of determining whether a particular station assignment should be made, be considered to exist. Such definition and specification are essential in the interests of orderly and effective allocation and require the exercise of expert judgment based on experience and technical "know-how." For the ability of an individual listener to tolerate without annoyance unwanted and extraneous sounds in reproduced music or speech is subjective and varies not only with the listener but also with the circumstances under which the listening is being done and the nature of the program material listened to. Also, in many instances, the ability of radio receivers to reject unwanted signals is not a constant but varies markedly with the design of the particular receiver. In addition, the strength and quality of transmitted signals, both desired and undesired, vary with the time of day, time of the year, ionospheric conditions, soil conductivity, atmospheric and man-made electrical noise, and many other factors, some of which are not even yet fully understood or susceptible to evaluation. Station assignments cannot be changing constantly to adjust to these changes in transmission. Accordingly, in making station assignments, the determination of what signal is produced by a certain transmitter at any given point is one which can only be approached on an at least partially statistical basis. We must deal with averages and norms rather than actualities, because the actualities are constantly changing and are, moreover, not susceptible to exact prediction.

11. In the 1938 allocation hearings the Commission defined what is meant by interference and its prescribed the specific means for determining whether it exists. First, it conducted certain tests to determine appropriate ratios of desired to undesired signals. Upon the basis of these tests, a ratio of 20 to 1 desired to undesired signal was adopted as the co-channel standard ratio interference. The Commission determined that the service area of a Class I station should be protected during the day to the 100 uv/m contour and designated this contour as the "normally protected contour."[8] At night the usually vastly larger secondary or skywave service is to be protected. Since it is the skywave transmission which is involved, there was the question of what is meant by "protection" of the skywave service. Since skywave propagation results in widely and rapidly fluctuating values, it is apparent that it is practical to "protect" the service areas of stations from skywave interference only from signals which achieve a specified intensity for certain percentages of time; the Commission decided to afford protection against signals which exceed the specified interference ratio 10 percent or more of the time. Study of the basic skywave measurements demonstrated lesser values of transmitted fields prior to the second hour after sunset and somewhat greater values after this hour.[9] The Commission determined upon transmission conditions at the second hour after sunset as best representing nighttime conditions for allocation purposes. As a result, the present skywave curves show average field intensities at varying distances which can be expected to be exceeded for certain percentages of time by skywave transmission at the second hour after sunset at the receiving point. These curves, used for nighttime allocation, are drawn for a radiated field of 100 mv/m at one mile on the horizontal plane from a 0.311 wavelength antenna which was the average electrical height of the stations measured.

12. We come now to the most important decision from the viewpoint of the present proceeding, namely, the point in time at which nighttime protection to the Class I station's service area begins. Since it appeared that high power stations utilizing relatively tall antennas could provide a good grade of skywave service over large areas at night but because of much poorer skywave propagation could not serve such large areas in the day, a proper utilization of clear channels required the Commission to permit assignment of many, generally lower powered, Class II or secondary stations on these channels during the day. But simultaneous operation of these stations at night would have resulted in such interference as to render the service of all virtually worthless. Therefore, in order to preserve the very purpose for which Class I stations were allocated, the Commission required Class II stations to take such measures at night as are necessary for the protection of the secondary service area of the Class I station. Thus, the time when such protection commences is of great importance. For nightfall is not an instantaneous phenomenon. This is particularly true when there is under consideration not a point on the earth's surface, but the path between two radio stations which may be separated by a number of degrees of longitude. Further, and of critical importance, the change in ionospheric conditions that results in the marked change in the behavior of radio waves propagated over long distances is also not instantaneous. To the contrary, there is a period starting approximately two hours before sunset and continuing for two hours after sunset during which skywave transmission gradually builds up. A similar gradual deterioration of skywave transmission takes place during the transitional hours of the sunrise period. Faced with this situation, the Commission determined that daytime allocation policy should be followed until sunset[9] and that nighttime allocation policy should be followed from sunset until sunrise.

13. As a result of this determination, Class II stations were required to refrain from operation after sunset[9] on Class I–A frequencies and required to cease operation or to utilize lower power or directional antennas or both on I–B frequencies. Similarly, stations on regional channels were required to cease operation, reduce power or utilize directional antennas at local sunset to protect other co-channel stations. All computations of interference regardless of the hour with respect to sunset are computed in accordance with the second hour after sunset curves. This decision was reached only after thorough study of available data which showed the gradual build up or deterioration of skywave transmissions in the transitional periods of sunset and sunrise. The selection of sunset and sunrise as the delineation points between daytime and nighttime allocation policy was made in the light of that data and the objectives sought to be achieved. (See paragraphs 5 and 6, supra; paragraph 33, infra.)

HISTORY OF SUBJECT PROCEEDING

14. In the years following 1939, the Commission granted applications for standard broadcast facilities in accordance with the foregoing policy on skywave transmission during transitional daylight hours. During the same period, considerable progress was made in the development of transmitter antennas and associated equipment; and the number of stations operating on the standard broadcast band increased enormously. The effect of this increased utilization of the band on the Commission's daytime skywave policy was called to the Commission's attention in 1947. In that year, affidavits were filed with the Commission alleging that serious interference was being caused to the service areas of clear channel stations from the operation of Class II stations during daylight hours by the ionospheric propagation of their signals.[10] The Commission, in the light of those complaints and its increased knowledge concerning skywave propagation, recognized the need for a re-evaluation of the problems arising during

[1] The term "allocation" as used herein means generally the determination of how a frequency or group of frequencies are to be utilized. More specifically, it involves the determination of the frequency, power, location, and hours of operation of radio stations.

[2] It must be noted that the limitations on possible assignments resulting from the scarcity of frequencies render the full realization of these objectives inconsistent with each other.

[3] We believe it appropriate here to point out that the data utilized by the Commission to establish rules and standards is constantly under review and where new data become available, the rules and standards are revised accordingly. For example, soil conductivity is one of the most important parameters in groundwave propagation. Since it was believed impractical if not impossible to make a prior determination by measurements of the precise values of soil conductivity through the United States, a conductivity map was prepared which was based upon the best information available. While certain provisions were made in the Standards for the taking of groundwave measurements in allocations and calling attention to frailties of the map, a large segment of our assignments have been upon the basis of this map. After having reviewed field intensity data filed with the Commission since the map was prepared, we have noted many inadvertent errors in values shown thereon which we have now corrected (see Docket 10604).

[4] As defined by § 3.25 of the rules and section 1 of the Standards, a Class I station "is a dominant station operating on a clear channel and designed to render primary and secondary service over an extended area and at relatively long distances"; interference protection and power requirements are also spelled out here. Class I–A stations operate on frequencies on which no other nighttime operation is permitted.

[5] A daytime-only authorization "permits operation of the secondary station during the hours between average monthly local sunrise and average monthly local sunset" (§ 3.23 (a)).

[6] A limited-time authorization "permits operation of the secondary station during daytime and until local sunset if located west of the dominant station on the channel, or if located east thereof, until sunset at the dominant station, and in addition during night hours, if any, not used by the dominant station or stations on the channel" (§ 3.23 (b)).

[7] Class IV stations operating on local channels receive no specified protection but only that which results from application of the daytime allocation rule.

[8] Depending on the particular type of Class II station (that is, limited time or daytime only), the reference point of "sunset" may be either local sunset or sunset at the dominant station on the channel (see notes 4 and 5, supra).

[9] See footnote 8.

[10] Appeals alleging injury through such interference were taken to the United States Court of Appeals for the District of Columbia; in one such case an order was issued by that Court staying the effectiveness of a construction permit issued by the Commission.

transitional hours. Accordingly, on May 9, 1947, the Commission adopted the subject notice of proposed rule making.

15. In accordance with the Commission's notice, a hearing was duly held on June 4, 5, and 6, 1947, before a Board of Commissioners.[11] There was submitted in evidence certain technical data and testimony relating to ionospheric propagation of signals in the standard broadcast band during an extended period which included daylight and transitional hours. Various suggestions as to rules and standards relative to this matter were submitted by parties to the proceeding.

16. On December 4, 1947, the Commission consolidated the subject proceeding with the Clear Channel proceeding (Docket 6741) because "the problems involved in Docket 8333 are also involved in Docket 6741" and "the evidence in Docket 8333 has already been incorporated by reference in Docket 6741." Oral argument was heard by the Commission in these proceedings.

17. With the institution of the clear channel proceeding, the Commission imposed a partial "freeze" on daytime only and limited time applications (see 1946 Public Notices 89273, 95034, and 96934). Following the issuance of the Notice of Proposed Rule Making in Docket 8333, the Commission stated that as a matter of policy it would withhold action, pending the decision in Docket 8333, on all applications proposing new or increased daytime-only facilities on the clear channels. By Commission Order of December 4, 1950, this policy was codified as footnote 10a to § 1.371 of the Commission's rules and regulations. This policy allowed the processing of, and the Commission did in fact continue to process, applications proposing new full-time stations or changes in existing full-time stations on the clear channels. It was thought at the time this policy was adopted that a valid ground for distinguishing between applications involving full-time stations and applications involving daytime-only facilities existed. It was believed that the making of daytime-only assignments, which might not conform to new rules which might later be adopted as a result of the proceeding in Docket 8333, could well render such new rules nugatory or necessitate extensive reassignments or deletions of stations. However, since the Commission believed that full-time stations were required to afford other stations a higher degree of nighttime protection than could reasonably be expected to be required by a decision in Docket 8333, it felt that authorizations for full-time operation might readily be conformed to whatever new rules might be adopted. This, it believed, could be accomplished by modifying these authorizations to require the use during some or all of the daytime hours of the antenna and power specified for use during nighttime hours.

18. The Commission, on August 11, 1953, revised footnote 10a so as to "freeze" the processing of applications by existing full-time Class II stations proposing certain types of operations (see paragraph 38, infra) and those for new unlimited-time stations on clear channels which would operate differently in the daytime from the operation proposed to be used nighttime. The Commission's Order pointed out that "further authorization of such stations may render difficult the proper formulation and effectuation of any new rules which might be adopted as the result of this proceeding, because such stations may incur financial and contractual commitments in reliance on their extended daytime coverage * * * and may develop a listening audience in the extended area * * * which might be discommoded by an future withdrawal of that service * * *"

19. At the same time, the Commission severed the subject proceeding from the clear channel proceeding, stating that a separate decision in the former is feasible and could be obtained more quickly than if left consolidated; the Commission's Order referred to the procedural freeze in footnote 10a as demonstrating the necessity for an early decision and stated that it would "proceed to decide the daytime skywave proceeding with as much dispatch as is practicable."

RESOLUTION OF PROCEEDING

20. Since the adoption of our standard broadcast allocation standards in 1939, there has been considerable progress in the field of radio, including, of course, the intense utilization of the standard broadcast band. Concomitant with this progress has been the advancement in measurement and evaluation techniques, the accumulation of additional technical data, and as a result, better understanding of propagation phenomena. The record in the subject proceeding, and on an even broader basis in the clear channel proceeding, reflects this increased knowledge.

21. With respect to skywave transmission, a Commission witness introduced the tabulated results of 6 years of recordings made at its monitoring stations on certain clear channel stations over 17 transmission paths from which certain families of curves were developed. These curves show, for the extremes and the center of the broadcast band, 10 percent field intensities versus distance, at various hours before and after local sunset for east-west and north-south paths. According to the record, the curves are also appropriate for use with respect to hours before and after sunrise where, for example, the curve for one hour after sunset (SS+1) could also be used for one hour prior to sunrise (SR—1). By use of these or similarly developed curves based on the same data, various parties to the proceeding demonstrated the degree of interference experienced by certain Class I stations within their normally protected contours from the operation of Class II stations in the transitional periods between daylight and dark.[12]

22. The record reveals that certain Class II daytime assignments, made in accordance with our groundwave allocation rules, cause interference during particular periods at the beginning and end of the day. The interference depicted was to the operation of several of the Class I stations and was given in terms of 10 percent of the days in a transmission year like 1944.[13] An example of the most severe interference was that caused by an operation formerly authorized on 1530 kc at Philadelphia, Pennsylvania, to the operation of WCKY, Cincinnati, Ohio. WCKY is a Class I–B station and one of the two dominant stations on the frequency. The station is therefore normally protected during the day to its 0.1 mv/m groundwave contour by cochannel stations. The record reveals that at sunrise at Philadelphia, at which time the Class II station commenced operation, WCKY was limited to its 6.95 mv/m groundwave contour and thus suffered interference to about 96 percent of its normally protected service area, an hour later to its 1.68 mv/m contour or 87 percent of this area, 2 hours later to its 0.45 mv/m contour or 64 percent of the service area, and that in the third hour interference within the 0.1 mv/m contour ceased until the approach of sunset.[14] At about 2 hours prior to sunset at Philadelphia, interference again invaded WCKY's normally protected contour: an hour later it extended to the 0.51 mv/m contour, thus interfering with 66 percent of its normally protected service area, and 2 hours later—sunset at Philadelphia and therefore, sign-off time for the Philadelphia station—to the 2.55 mv/m contour or in 90 percent of the area. The skywave service which WCKY was otherwise capable of rendering was substantially impaired in these periods. Another example demonstrating the seriousness of transitional period interference involves Station KOA, Denver, and KFUO, a limited-time station in Clayton, Missouri. Beginning at 2½ hours prior to sunset at Denver, interference to the groundwave service of KOA grows until at sign-off at Clayton, KOA is limited to its 2.8 mv/m groundwave contour or to approximately 80 percent of the area within its normally protected contour. The record contains other similar examples of interference to Class I stations.[15]

23. We have examined the interference shown and have concluded that Class I stations are not, in fact, receiving an adequate degree of protection from interference during the early morning and late afternoon hours in the light of our existing standard broadcast allocation theory. Here we wish to emphasize again that that theory condoned a certain degree of interference during the transitional period as necessary if the secondary Class II service was to be effectively promoted. But as demonstrated by the WCKY-Philadelphia case, the subject record does reveal that the interference during the transitional hours may reach such a point as to undermine seriously the operation of the Class I station during a fairly substantial and important segment of the broadcast period. As shown earlier, that type of operation is critical to the fulfillment of a major allocation objective, that of providing some service to all areas of the country. We therefore believe that the record supports a readjustment of the conflicting interests of the Class I and Class II services with respect to daytime skywave transmission so that the original and still applicable purpose of our allocation plan may be carried out.

24. It is to be stressed that it is that original purpose which controls here. For it would be obviously inappropriate in this proceeding to make any basic change in fundamental allocation policy. Changes as to the purpose and consequently the overall protection to be given the various classes of stations depends on the policy judgment to be made in the clear channel proceeding and, therefore, can only be effected in that proceeding. Here we should point out that we recognize any revision of our present rules and standards to effectuate more fully our present allocation plan by taking into account new data available may need further revision either of a slight or radical nature—depending on the extent of the basic changes made in the clear channel proceeding. In view of the present status of that proceeding and the pertinent policy considerations previously described, we believe that revision of the rules and standards with respect to daytime skywave transmission is clearly called for at this time, in spite of this possibility of further revision.

25. The question is presented whether we should amend the rules so as to afford greater protection from daytime skywave interference to all classes of stations. For it is clear that the ionosphere supports propagation regardless of the type of channel or the class of station operating thereon. We believe, however, that such protection should be accorded Class I stations only. We are persuaded to this limitation by several reasons: First, the record dealt to a large extent with interference to Class I stations; while it is clear that other stations suffer daytime skywave interference, there is no evidence in this record as to the seriousness of such interference. Further, the factor compelling the subject revision is the necessity of providing some service to all areas or people. The transmissions of Class I stations are not intended to be substantially or drastically limited by interference from other stations. On the other hand, it is intended by your present standards that Class II, III, and IV stations be limited by interference in order to accommodate the many assignments needed to afford multiple services and outlets for local expression.

26. We come now to the form of the revision which should govern the disposition of applications for new and changed facilities. Clearly, a great number of alternative revisions of the rules and standards looking toward the implementation of our basic allocation objectives are possible. In the light of these objectives we have determined upon standards based upon the propagation conditions at the second hour after sunrise and the second hour before sunset, designed to reduce the interference which may be caused to Class I stations; these standards restrict radiation in the direction of Class I stations in the two-hour time segments after sunrise and before sunset. We decided to utilize the propagation conditions proposed herein after considering and rejecting possible alternative bases. For example, we considered a rule based on propagation conditions at sunset and also a rule based on propagation conditions at one hour before sunset. Applying these limitations to the WCKY-Philadelphia situation where the problem has been raised most seriously, we find that the former standard would permit a radiation of 8 mv/m in the direction of WCKY, while the latter would restrict radiation towards WCKY to 25 mv/m. Both these limitations would thus appear to be too severe in view of our over-all objectives and have therefore been rejected. It is our view that the revisions of our rules which are here proposed strike a reasonable balance between the diverse and sometimes conflicting objectives of a radio service in the public interest.

27. Applying the proposed rule to the WCKY-Philadelphia situation, we find that it would permit a radiation of 125 mv/m. This is in contrast with 840 mv/m permitted by the present groundwave rule and thus authorized by the Commission. We are of the opinion that the second hour rule meets our objective—that it will provide considerable assurance against skywave interference in the frequency range where such interference is most effective and yet will not unduly handicap the Class II station. We are aware that such a rule condones a considerable amount of interference in the transitional periods but believe that this interference should be tolerated in view of the over-all objectives.

28. We have also considered the possibility of applying the second hour curve to the entire period from local sunrise to local sunset: And we have rejected this possibility since it would be severely restrictive to the Class II station without affording corresponding benefits to the Class I station. For it would supply greater than the standard degree of protection for the period between two hours after sunrise and two hours prior to sunset. Indeed, the protection rendered in the center of the day would be to signal levels of approximately 15 uv/m, which generally do not constitute an acceptable grade of service. The service thus protected would be virtually useless to the listener: Protection of such low intensity signals contravenes the underlying principles of the Standards of Good Engineering Practice of protecting only listenable signals. Accordingly, we have determined to restrict the second hour curves applicability to 4 daylight hours, from sunrise until 2 hours thereafter and from 2 hours prior to sunset until sunset. For practical purposes the decay of skywave in the morning is symmetrical with the growth of skywave in the evening. Thus, the same radiation restrictions should apply at equal azimuths to the east of north and to the west of north. Further, it appears that the effect of geographic latitude is of minor importance and, therefore, the same radiation values should be permissible at equal azimuths taken from north and from south. We recognize that the same radiation restrictions in morning and evening hours results in a somewhat different degree of protection in these periods. Whether the greater interference occurs in the morning or the evening depends upon whether the interfering station is east or west of the Class I station. For simplicity we have averaged the restrictions necessary to render protection at the second hour after sunrise and the second hour before sunset.

29. The current rule, which is in terms only of groundwave propagation, permits Class I and Class II stations to be assigned at closer spacings at higher frequencies. It now appears on the basis of the record that at higher frequencies skywave interference is greater for a given daytime hour than at lower frequencies. This would require a more restrictive rule at higher frequencies if we are to tend in the direction of equalizing this type of interference across the standard broadcast band. This we believe desirable since higher frequency stations are at some disadvantage in providing groundwave service because of poorer groundwave propagation. Using the propagation curves developed by our staff and introduced in evidence in this

[11] Commissioner Rosel H. Hyde and former Commissioners Ray C. Wakefield and Clifford J. Durr.

[12] With respect to the statistical treatment given certain data submitted in the processing, some question was raised regarding the median field intensity for the hour in which sunset occurs. Data for this hour was taken beginning one-half hour before and ending one-half hour after sunset, on the theory that the instantaneous field at the moment of sunset is fairly given by the field intensity which is exceeded during one-half of the time of this hour interval. The objection made is not that this technique is inexact but that it is inappropriate to employ values taken after sunset, which increase the median value, in view of the fact that daytime stations cease operation at sunset. But the method used is clearly appropriate since the situation is one involving widely varying instantaneous field and thus, the taking of a single measurement at the moment of sunset cannot supply a representative value. The lower fields in the portion of the interval prior to sunset tend to compensate the higher fields after sunset. Finally, we note that the challenge to this statistical technique is unsupported by any expert evidence.

[13] The data introduced was related to Figure I–A of Commission Standards which in turn is representative of a transmission year like 1944, a year of minimum activity which is favorable to skywave transmission.

[14] The limitation figures employed here are estimates set out in evidence submitted by WCKY. Showings based upon the Commission's analysis of the data set forth in FCC Exhibit No. 1 reveal the limitations to be somewhat more severe than indicated by WCKY's analysis of skywave data taken on a path between Cincinnati and Baltimore in the years 1942–1944, inclusive. We have used the lower figures because of the absence of any map exhibits showing the effects of the higher limitations from which percentages can be estimated.

[15] We do not believe any useful purpose would be served by further illustration of the seriousness of the interference suffered during the transitional hours by some Class I stations from the operation of Class II stations. There was also some testimony that interference of a similar nature is caused on other than clear channels. However, the degree, duration and significance of such interference among the stations operating upon these other channels was not adduced since the proceeding primarily centered about clear channel stations.

proceeding, we have prepared permissible radiation curves at each of three frequencies for the second hour before sunset or after sunrise at the station for all azimuthal bearings by determining the radiation necessary to produce 5 uv/m at the 100 uv/m contours at Class I stations at various frequencies, distances and azimuths.[16] In addition, we have prepared a table of interpolation factors to be used for frequencies other than those shown. If adopted, the curves and the table will be incorporated in the Standards of Good Engineering Practice as Appendix II.

30. Our proposed allocation standards would permit radiation towards 0.1mv/m groundwave contours of co-channel Class I stations at or below the values given by these curves in the vertical angles below the pertinent angles[17] in the periods from local sunrise to two hours thereafter and from two hours prior to local sunset to local sunset. These radiation values, however, would be authorized only if they are equal to or less than the values necessary to give protection under our present groundwave rules. The radiation values permitted for other daytime hours would be governed solely by present groundwave rules. Radiation values for all other hours would be governed by the second hour after sunset curves; other related provisions of our Standards would remain unchanged. We have considered the question of daytime protection of Class I stations from skywave propagation emanating from adjacent channel stations and have concluded that likelihood of occurrence at the second hour is so slight as to require no protection rule regulating this source of interference.

31. It will be observed that the proposed revision would permit unlimited-time stations to utilize three modes of operation during their broadcast activities: daytime, nighttime, and a transitional period mode of operation. If during the transitional period the 100 uv/m contour of the Class I station eligible for protection shifts as a result of a change in power or mode of operation, the permissible radiation of the Class II station in the direction of the Class I throughout both transitional periods will be limited to the lowest value obtained by use of the curves in Appendix II of the Standards of Good Engineering Practice. We would permit power reduction to accommodate the restrictions when the power is consistent with the power requirements for the class of station and coverage requirements of the Standards.

32. A proposed change is also made with respect to the time of operation of limited-time Class II stations. We propose to authorize such stations to operate until local sunset no matter where located.[18] This proposal affects only authorizations for limited-time stations located east of the dominant station on the channel, since such stations were previously authorized to operate until sunset at the dominant station.[19] Such operation involves transmission by the "eastern" station over a path substantially of a nighttime nature and thus extremely conducive to skywave transmission. In view of the proposed action with respect to skywave transmission during transitional daytime hours, the propagation of such signals for periods up to 3 hours after sunset represents an a fortiori case requiring protection from skywave interference. The KOA–KFUO example, described in paragraph 22, supra, illustrates the seriousness of this problem. We recognize that in many instances, a similar argument can be made with respect to the limited-time or daytime-only station located west of the dominant station. But as to such stations there are countervailing considerations which are noted in paragraph 37, infra. The authority to broadcast until local sunset was bestowed under the allocation scheme in order to accord the daytime-only station an adequate period of operation and is thus a compromise of conflicting allocation aims. But no such underlying policy considerations are applicable to the operation of the limited-time station located east of the dominant station until sunset at the dominant station. The skywave interference caused by such a station during its "bonus" hours of operation is not counterbalanced by the consideration that if such operation be withdrawn, the station's daily period of operation will be unduly restricted. Therefore, in keeping with the proposed revision with respect to the transitional hours, it is proposed that limited-time stations located east of the dominant station be required to cease operation at local sunset.

33. It is also proposed to continue the "freeze" on processing daytime-only and limited-time applications on the frequencies specified in § 3.25 (a) and (b) in order not to prejudice the outcome of the clear channel proceeding.

34. Next, there is a question of the revisions' applicability to requests by existing daytime-only and limited-time stations to change their operation or facilities. Footnote 10a to Section 1.371 imposed a freeze upon applications from existing daytime-only and limited-time stations proposing either a change in operation which would result in an increase in radiation towards the normally protected contour of a United States Class I station on the channel or proposing a change in transmitter location which would result in a material reduction in the distances from the station to the normally protected contour of a United States Class I station on the channel. In view of the revisions of our Rules and Standards proposed herein, a freeze of this nature would no longer be necessary and accordingly, this provision of the footnote would be deleted. But again, so as not to prejudice the outcome of the clear channel proceeding, we have decided to freeze all applications from existing daytime-only or limited-time stations on Class I–A channels which seek a major improvement in facilities such as an increase in power or a substantial change in the radiation pattern. We have made this distinction between stations operating on Class I–A channels and those on I–B frequencies because of the far greater involvement of the former channels in the clear channel proceeding. Class II stations on I–B frequencies, which seek a change in facilities are cautioned, however, against extensive changes in antenna systems to meet the criteria here proposed since the decisions made in the clear channel proceeding may render useless antennas so designed.

35. Thus far we have set out our views on the changes which we deem necessary in our rules and standards and the applicability of these changes to applications for new or changed facilities. We are advancing our views in the form of a proposed, rather than a final, Report and Order in view of the lengthy time period which has elapsed since the institution of this proceeding. We believe that the Commission will benefit from the views of interested parties directed to the specific proposals made below and the supporting reasons set out in the foregoing proposed Report.[20] The holding of an oral argument is best suited to effect these purposes, and accordingly, we shall designate an appropriate date in the near future for such an argument. We wish to emphasize that the issues to be considered in that argument will encompass the merits of the proposed report set out in the prior paragraphs and the proposed rules set out in the attached appendix. It will not include the question of applying such revisions to existing Class I or to Class II stations. The procedure with respect to that matter will be taken up in the succeeding paragraphs.

NOTICE OF FURTHER RULE MAKING

36. There remains for our consideration the applicability of the foregoing proposals to existing stations (including both permits and licenses). There are four categories of existing stations to which the proposed revisions may be applicable: (1) Class II daytime only stations; (2) Class II limited time stations; (3) Class II unlimited time stations; and (4) Class I–B stations located east of the other I–B station on the channel and commencing nighttime operation at sunset at the other I–B station.

37. With respect to existing Class II daytime only stations and Class II limited time stations (excluding the "bonus" hour operation of such stations), we do not propose at this time that these stations be required to comply with the proposed standards. Such stations have no directional arrays designed to afford nighttime protection and it would appear to be impracticable to require such arrays at this time in view of the pendency of the clear channel proceeding. The alternative is either reduced power or cessation of operation during the transitional hours. But efficient operation during this period represents a substantial and important segment of the daytime-only broadcaster's activities. Authority to broadcast during the transitional hours was bestowed, under the original allocation scheme, in order to accord the daytime-only station an adequate daily period of operation. Revision of that allocation determination involves policy judgments which we believe can be appropriately made only in the clear channel hearing. In view of that consideration, the disruption of broadcast service which would otherwise result, and the fact that the clear channel proceeding could have a marked effect on the status of the daytime-only and limited-time stations through possible changes in the Class I station allocation, we believe it is undesirable to make the permissible radiation standards here proposed applicable at this time to existing daytime-only and limited-time stations.

38. The Commission believes that the comments of interested parties will be of considerable aid in reaching the proper determination with respect to the applicability of the proposed revisions to the categories of existing stations listed above (See par. 36). We believe written comments will afford the most appropriate procedure for the showings and arguments the parties may desire to make in this connection. As stated above, the determination whether to finalize the proposed revisions will be made following the oral argument on the merits of these revisions. The comments on the further rule making should deal only with the propriety of applying those proposals to existing stations.

39. Any interested party who desires to comment on the question of the applicability of the proposed revisions to existing stations may file with the Commission on or before May 3, 1954, written data, views or arguments setting forth his comments. Comments in reply to the original comments may be filed within 15 days from the last day for filing said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of time and place of such oral argument will be given.

ORDER

40. We believe it appropriate to consider here the two petitions filed February 26, 1954, by the Daytime Broadcasters Association, Inc. In one petition the Association petitions to dismiss the subject proceeding (Docket 8333) or in the alternative, to "require clear channel stations to be so placed in the United States that a good and sufficient use may be made of the channels so reserved." In support thereof, petitioner alleges the following: (1) Conditions with respect to the number of daytime stations, the basis of programming of all stations, and listening habits, have changed since the initiation of the proceedings; (2) there is now a need for more daytime stations and not for reduction of the service of such stations "by lessening hours or reducing power"; (3) the record made in 1947 covers mainly technical matters without reference to programs rendered; this omission becomes serious in view of the larger number of daytime stations; and (4) the clear channel stations should be relocated so as to actually cover white areas, thus effecting "an efficient use of the necessary channels and [opening up others] for efficient use."[21]

41. We are not persuaded by these arguments to grant the drastic relief sought by petitioner. The daytime-only stations which are involved in this proceeding, i. e., those on the frequencies specified in § 3.25 (a) and (b), have not increased since the initiation of this proceeding because of the "freeze" which was concurrently imposed. The foregoing discussion demonstrates that excepting the "bonus" hours operation of limited-time stations, there is no proposal which would "reduce the service [of such secondary stations] by lessening hours or reducing power." With respect to the Association's other arguments—the necessity for additional daytime stations because of local needs and changed listening habits and the relocation of the clear channel stations to accommodate that necessity, we point out that such arguments are directed to issues of the clear channel docket and not to those of the subject proceeding. As stated more fully in paragraph 24, supra, it would be inappropriate in this proceeding to make any basic changes in fundamental allocation policy. Changes as to the purpose and consequently, the over-all protection to be given the various classes of stations depend on the policy judgments such as those involved in the clear channel proceeding. The narrower purposes of this proceeding, discussed fully in paragraphs 23–25, inclusive, do not encompass the broad policy reformations sought by petitioner. *Accordingly, it is ordered*, That the Association's petition to dismiss the subject proceeding is denied.

42. In its other pleading, the Association has petitioned the Commission "to permit it to appear in the [subject] proceeding." In so far as the Association desires to participate in the oral argument to be held on the proposed report and rules or to file comments on the question of applying those rules to the existing station categories delineated in paragraph 37, the petition is, of course, granted.

43. Authority for the adoption of the proposed amendments is contained in sections 4 (i), 303 (f), and 303 (r) of the Communications Act of 1934, as amended.

Adopted: March 11, 1954.

Released: March 12, 1954.

FEDERAL COMMUNICATIONS COMMISSION,[22]

[SEAL] MARY JANE MORRIS, *Secretary.*

1. Footnote 10a to § 1.371 would be amended to read as follows:

[10a] Pending conclusion of the proceeding in Docket No. 6741, action will be withheld on the following:

(1) Applications proposing new daytime or limited-time assignments on any of the frequencies specified in § 3.25 (a) and (b) of this chapter; and

(2) Applications of existing stations proposing to change frequency to any of the frequencies specified in § 3.25 (a) and (b) of this chapter, where the operation proposed is for daytime only or limited time.

(3) Applications from existing daytime or limited-time stations presently assigned to any of the frequencies specified in § 3.25 (a) of this chapter, proposing major improvements of facilities such as an increase in power or a substantial change of the radiation pattern.

2. Section 3.7 would be revised as follows:

§ 3.7 *Nighttime.* The term "nighttime" means that period of time between local sunset and local sunrise.

3. Section 3.23 (b) would be amended to read:

(b) Limited time is applicable to Class II (secondary stations) on a clear channel upon which the priority of Class I use is assigned exclusively to the United States. It permits operation of the secondary station from local sunrise to local sunset and in addition during night hours, if any, not used by the dominant station or stations on the channel.

4. Section 3.24 of the rules would be amended by the addition of a new paragraph (i), which reads:

(i) That applications specifying the frequencies set forth in § 3.25 (a) and (b) of this chapter shall conform to the daytime radiation restrictions contained in the Standards of Good Engineering Practice (Appendix II).[23]

5. The Standards of Good Engineering Practice Concerning Standard Broadcast Stations would be revised as follows:

A. Delete the Introduction and substitute therefor the following:

INTRODUCTION

There are presented herein the Standards of Good Engineering Practice Con-

---

[16] The data in evidence do not support skywave curves beyond distances of 800 to 1,000 miles except by extrapolation which is necessary here. The method adopted was to assume that from 1,000 miles outward the curve runs uniformly below the second hour after sunset curve by the amount by which it falls below at 1,000 miles. We believe this assumption to be a conservative one. Another extrapolation was necessary to cover frequencies between 1500 and 1600 kc and was performed by extrapolating from the 500 kc, 1000 kc, and 1500 kc curves at intervals of 200 miles.

[17] Figure 6a, curve 4, Standards of Good Engineering Practice.

[18] Under the proposal, the limited-time station could, however, continue to operate during the nighttime hours not used by the dominant station or stations on the channel.

[19] Roughly half of all the limited-time stations presently authorized are located east of the dominant station on the channel.

[20] Certain other revisions of the Rules and Standards of a minor or editorial nature which can be appropriately made here, have also been proposed.

[21] Several oppositions to the Association's petitions have also been received and studied by the Commission.

[22] Commissioner Hennock's dissenting statement filed as part of the original document.

[23] Pending the conclusion of the proceeding in Docket 6741, presently authorized daytime and limited-time Class II stations are not required to modify their operations to conform to these daytime radiation requirements.

cerning Standard Broadcast Stations giving engineering standards which set forth the principles of application of stations and define the classes of standard broadcast stations, their purposes, the broadcast service rendered by them, and the degree of protection which they are normally afforded. Thus, there are set forth the requirements as to heights of antennas, the powers and hours of operation for which stations are regularly licensed, and groundwave and skywave propagation curves with other curves and related information. These standards also contain the provisions deemed necessary for the construction and operation of standard broadcast stations to meet the requirements of technical regulations and for operation in the public interest along technical lines not specifically enunciated in the regulations. They also provide certain information which may be of assistance, such as in the selection of transmitter sites. These standards augment the rules and regulations and set forth accepted engineering principles and techniques to be used in station allocation.

These standards are based on the best engineering data available supplied in formal and informal hearings and extensive surveys conducted by the Commission. Numerous informal conferences have been held with radio engineers, manufacturers of radio equipment and others for the guidance of the Commission in the formulation of these standards.

These standards set forth the conditions under which they are applicable. They provide for some flexibility and for the exercise of certain engineering judgments. It should be emphasized, however, that no material deviation from the underlying or fundamental principles will be recognized except through established rule-making procedures.

"Broadcast service" and "interference to such service" are dependent upon so many variable factors that it is essential that terms such as these be defined and that specific methods for determining their values be provided. Thus, "service" varies with the individual listener, the particular circumstances, the nature of the program material, and the ability of the particular radio receiver to reject unwanted signals. Moreover, the strength, utility and nature of the received signals both desired and undesired, may vary with the time of day, time of year, weather conditions, and other factors. Accordingly, in these fields, an approach on a substantially statistical basis is called for: We must rely, therefore, on averages and norms.

It is emphasized that the standards and the rules adopted represent what is believed to be a reasonable balance between the diverse and sometimes conflicting objectives of our basic allocation plan.

The Commission will review these Standards of Good Engineering Practice in order to determine that the objectives of the allocation plan of standard broadcast frequencies are being carried out. Further, these Standards of Good Engineering Practice will also necessarily change as progress is made in the art, and accordingly, it will be necessary to make revisions from time to time. The Commission will accumulate and analyze engineering data available as to the progress of the art so that its standards may be kept current with the developments.

B. Section 1. Engineering Standards of Allocation:

a. Delete the 5th and 6th paragraphs appearing after Table II which begin "Section 3.23 provides that—" and "Section 3.24 sets out—".

b. Insert at the above place the following paragraphs:

Of the several classes of domestic stations, Class I stations only are to be afforded daytime protection from the effects of skywave propagation of radio signals radiated by other domestic Class I or Class II stations but only from assignments on the same channel and in the manner herein described. The service of a Class I station shall be protected from the effects of skywave propagation to that degree which will result from restricting the radiation from each co-channel station to the values obtained by use of the curves and Table in Appendix II, in the arc included between the horizontal and the pertinent angle shown on Curve 4 of Figure 6–A, toward all points on the Class I station's 100 uv/m groundwave contour. This radiation restriction shall obtain only from local sunrise at the transmitting station until two hours thereafter, and from two hours prior to local sunset at the station until sunset. In these transition periods the 100 uv/m contour of the Class I station eligible for protection may shift as a result of a change in power or mode of operation. In that event the permissible radiation for the Class II or other Class I station throughout both transition periods is the lowest value obtained by the use of Appendix II.

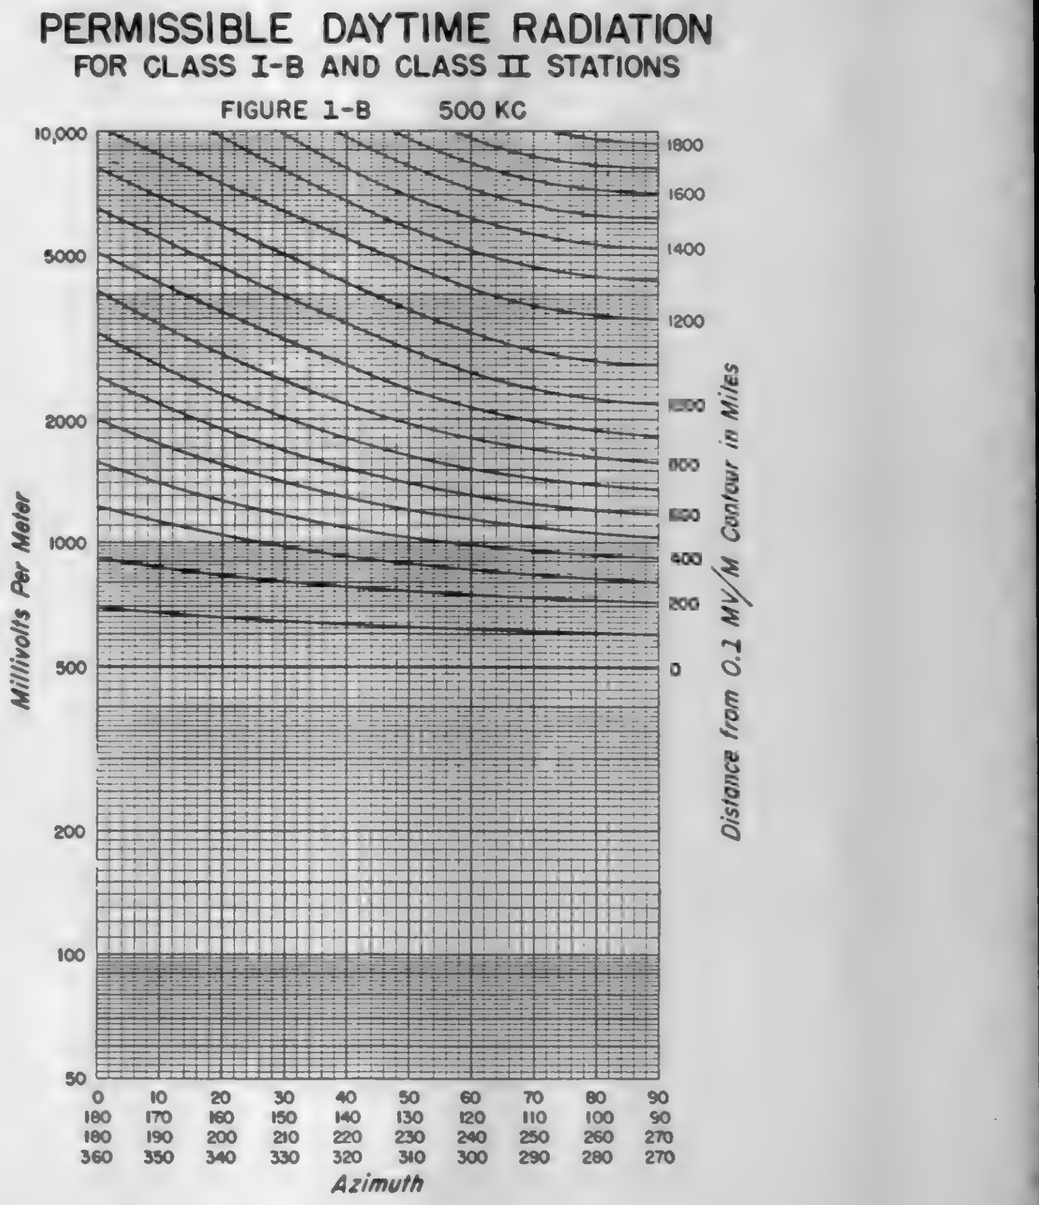
The radiation restrictions obtained by the use of Appendix II during the specified periods are applicable regardless of whether the Class I station which is eligible for protection from the effects of such skywave propagation in these periods is so protected by existing stations.

It is expressly recognized that even with these restrictions a Class II station or other Class I station may, during certain daytime periods, produce a 10 percent of the time skywave signal in excess of 5 uv/m within the 100 uv/m groundwave contour of a Class I station.

The extent of primary and intermittent service and the absence or presence and degree of objectionable interference to all classes of broadcast stations during the daytime shall be determined by use of the groundwave field intensity curves in Appendix I. Nighttime service and interference are determined by the use of the appropriate second hour after sunset curves[18] (Figure 1 or I–A) and the groundwave versus distance curves of Appendix I.

C. Appendix II, consisting of Table I, Figure I–B, Figure I–C, and Figure I–D is added to the Standards.

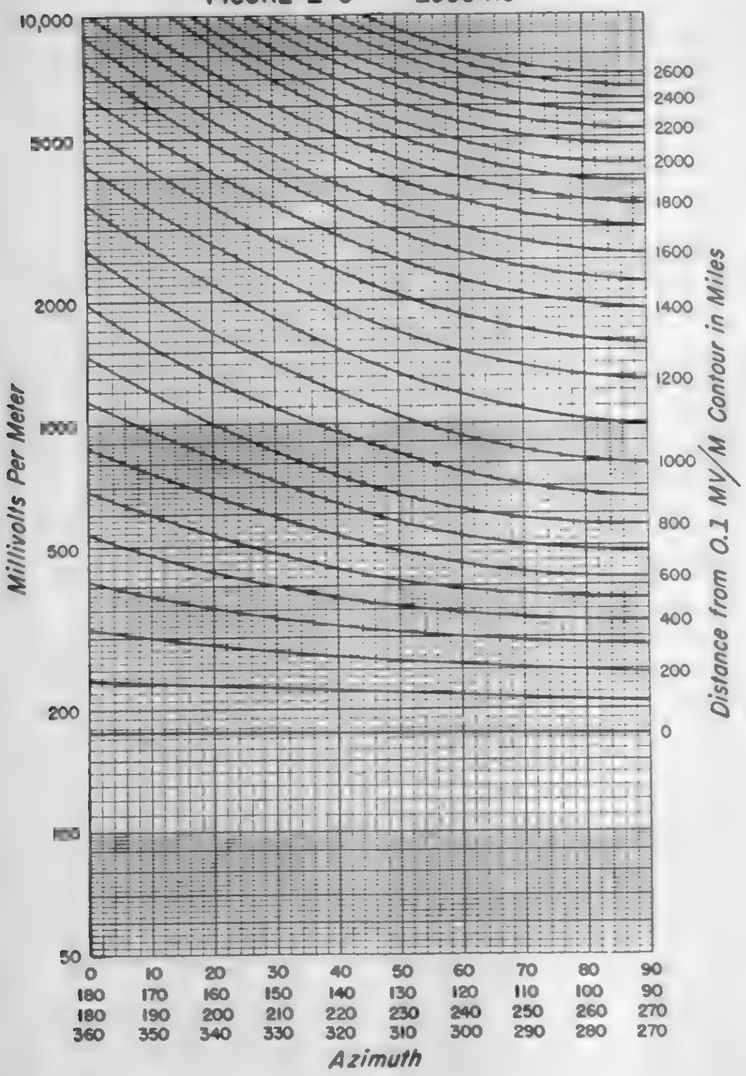
APPENDIX II—PERMISSIBLE RADIATION FOR CLASS I-B AND CLASS II STATIONS



INTERPOLATION FACTORS FOR FREQUENCIES BETWEEN 500, 1000, AND 1600 KC.

TABLE I

f_{kc}	K_{500}	K_{1000}	f'_{kc}	K'_{1000}	K'_{1600}
640	0.720	0.280	1010	0.983	0.017
650	.700	.300	1020	.967	.033
660	.680	.320	1030	.950	.050
670	.660	.340	1040	.933	.067
680	.640	.360	1050	.917	.083
690	.620	.380	1060	.900	.100
700	.600	.400	1070	.883	.117
710	.580	.420	1080	.867	.133
720	.560	.440	1090	.850	.150
730	.540	.460	1100	.833	.167
740	.520	.480	1110	.817	.183
750	.500	.500	1120	.800	.200
760	.480	.520	1130	.783	.217
770	.460	.540	1140	.767	.233
780	.440	.560	1150	.733	.267
800	.400	.600	1170	.717	.283
810	.380	.620	1180	.700	.300
820	.360	.640	1190	.684	.316
830	.340	.660	1200	.667	.333
840	.320	.680	1210	.650	.350
850	.300	.700	1230	.633	.367
860	.280	.720	1300	.167	.833
870	.260	.740	1510	.150	.850
880	.240	.760	1520	.133	.867
890	.220	.780	1530	.117	.883
900	.200	.800	1540	.100	.900
940	.120	.880	1550	.083	.917
990	.020	.980	1560	.067	.933
			1570	.050	.950
			1580	.033	.967



To determine the permissible radiation at f_{kc} multiply the value of radiation at the proper azimuth and distance from the 500 kc chart by K_{500} and from the 1000 kc chart by K_{1000} (for f'_{kc} use K'_{1000} for the value from the 1000 kc chart and K'_{1600} for the value from the 1600 kc chart). Add the products; the sum is the permissible radiation for the frequency f_{kc} (or f'_{kc}).

[18] Nighttime skywave interference to local channel stations is, however, computed in accordance with the method described in footnote 3a.

NOTICES

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended June 2, 1952, 17 F. R. 3818).

Alan Manufacturing, 695 Hazle Street, Wilkes Barre, Pa., effective 3-11-54 to 3-10-55; 10 learners for normal labor turnover purposes (dresses).

Anthracite Shirt Co., 1 South Franklin Street, Shamokin, Pa., effective 4-1-54 to 3-31-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (dress and sport shirts).

Ball Bra Manufacturing Co., Inc., Bedford Street, Geistown, Pa., effective 3-12-54 to 9-11-54; 10 learners for expansion purposes (brassieres).

Ball Bra Manufacturing Co., Inc., Bedford Street, Geistown, Pa., effective 3-12-54 to 3-11-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (brassieres).

Better Maid Apparel Co., 707 River Street, Peckville, Pa., effective 3-12-54 to 3-11-55; 5 learners for normal labor turnover purposes (dresses).

Blue Bell, Inc., Luray, Va., effective 3-15-54 to 9-14-54; 50 learners for plant expansion purposes (dungarees).

Blue Bell, Inc., Lenoir, N. C., effective 4-1-54 to 3-31-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (dungarees).

E. H. Blum, 1521 Canal Street, New Orleans, La., effective 3-12-54 to 3-11-55; 10 learners for normal labor turnover purposes (dress pants).

Glendale Manufacturing Corp., Glendale Avenue, Biltmore, N. C., effective 3-12-54 to 9-11-54; 30 learners for expansion purposes (ladies' gowns, slips, and pajamas).

Kahn Manufacturing Co., Inc., 150 North Royal Street, Mobile, Ala., effective 4-1-54 to 3-31-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' dress trousers).

Mode O'Day Corp., Fourth and Main, Ottawa, Kans., effective 4-1-54 to 3-31-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' dresses and robes).

Quality Sewn Products, Inc., Royston, Ga., effective 3-27-54 to 3-26-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's sport shirts).

Reliance Manufacturing Co., "Keystone" Factory, Tyrone, Pa., effective 3-27-54 to 3-26-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's work, sport and flannel shirts).

Reynolds Textile Co., 219 South Main Street, Clinton, Mo., effective 3-16-54 to 3-15-55; 10 percent of the total number of factory production workers engaged in the production of ladies' and children's jeans, for normal labor turnover purposes (ladies' and children's jeans).

Reynolds Textile Co., 219 South Main Street, Clinton, Mo., effective 3-16-54 to 3-15-55; 10 percent of the total number of factory production workers engaged in the

production of men's overalls and dungarees, for normal labor turnover purposes (men's overalls and dungarees).

Richard Frocks, Inc., 701 Washington Avenue, Jermyn, Pa., effective 3-12-54 to 3-11-55; 6 learners for normal labor turnover purposes (dresses).

The Richman Bros. Co., Sixth and Main Streets, Sturgis, Ky., effective 4-1-54 to 3-31-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's pants).

Serbian Inc., Fayetteville, Tenn., effective 3-9-54 to 3-8-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (learners are not authorized to be employed at subminimum wage rates in the production of skirts) (ladies' dresses and sportswear).

Southern Manufacturing Co., Fifth and Cedar Streets, Nashville, Tenn., effective 3-9-54 to 3-18-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts).

Stafford-Hayes, Inc., 502 South State Street, Clarks Summit, Pa., effective 3-26-54 to 3-25-55; 10 learners for normal labor turnover purposes. This certificate does not authorize the employment of learners at subminimum wage rates in the production of skirts (ladies' dresses, blouses, etc.).

Trouser Corp. of America, Meadow Avenue and Maple Street, Scranton, Pa., effective 3-15-54 to 3-14-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's trousers).

Wellington Manufacturing Co., Okolona, Miss., effective 3-15-54 to 9-14-54; 25 learners for plant expansion purposes (men's trousers).

Wentworth Manufacuring Co., Lake City, S. C., effective 3-16-54 to 3-15-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' house dresses).

York Manufacturing Co., Inc., Jeffs, Va., effective 3-8-54 to 3-7-55; 10 learners for normal labor turnover purposes (children's dresses).

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952, 16 F. R. 12866).

Winston Manufacturing Co., Inc., Haleyville, Ala., effective 3-11-54 to 3-10-55; 5 percent of the total number of factory production workers for normal labor turnover purposes (undergarments and sleepwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Brinkley Pearl Works, Brinkley, Ark., effective 3-12-54 to 9-11-54; 5 learners for normal labor turnover purposes. Blank button cutters, 480 hours at 65 cents an hour for the first 320 hours and at least 70 cents an hour for the remaining 160 hours (button blanks).

DeMoulin Bros. & Co., Greenville, Ill., effective 3-12-54 to 3-11-55; 10 learners for normal labor turnover purposes. Machine operators (except cutting), pressers, hand sewers, each 480 hours. At least 65 cents an hour for the first 240 hours and not less than 70 cents an hour for the remaining 240 hours (band uniforms, etc.).

Freeman & Freeman, 229 Franklin Road, Roanoke, Va., effective 3-11-54 to 3-10-55; 5 learners for normal labor turnover purposes. Sewing machine operators, 250 hours at 65 cents an hour (ladies' custom made belts, buckles, buttons).

Richards & Associates, Box 1191, Fort Myers, Fla., effective 3-15-54 to 9-14-54; 10 percent of the total number of factory production workers for normal labor turnover purposes. Sewing machine operator, 480 hours at 65 cents an hour for the first 320 hours and 70 cents an hour for the remaining 160 hours (garment bags, etc.).

Wilkes Barre Cap Manufacturing Co., East Market & South State Streets, Wilkes Barre, Pa., effective 3-12-54 to 3-11-55; 2 learners for normal labor turnover purposes. Sewing machine operators, 240 hours at 65 cents an hour (caps).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER, pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 15th day of March 1954.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 9009, 10909]

KFAB BROADCASTING CO. AND HERALD CORP.

ORDER CONTINUING HEARING

In re applications of KFAB Broadcasting Company, Omaha, Nebraska, Docket No. 9009, File No. BPCT-390; Herald Corporation, Omaha, Nebraska, Docket No. 10909, File No. BPCT-1663; for construction permits for new television stations.

The Commission having under consideration a Motion for Continuance filed March 15, 1954, by Herald Corporation, requesting that the hearing in the above-entitled proceeding, now scheduled for March 19, 1954, be continued until 10:00 a. m., Friday, April 2, 1954; and

It appearing that counsel for KFAB Broadcasting Company, as well as counsel for the Chief of the Broadcast Bureau, have waived the 4-day notice requirement of § 1.745 of the Commission's rules and have also consented to the granting of the requested continuance;

It is ordered, This 16th day of March 1954, that the said Motion for Continuance is granted, and that the hearing in this matter, presently scheduled to commence on March 19, 1954, is continued to Friday, April 2, 1954, at 10:00 a. m., in the offices of the Commission at Washington, D. C. Testimony will not be taken at that time and it will not be necessary for witnesses to be present.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2015; Filed, Mar. 19, 1954; 8:51 a. m.]

[Docket Nos. 10907, 10908]

WSAU, INC., AND WISCONSIN VALLEY TELEVISION CORP.

ORDER POSTPONING HEARING DATE

In re applications of WSAU, Inc., Wausau, Wisconsin, Docket No. 10907, File No. BPCT-848; Wisconsin Valley Television Corporation, Wausau, Wisconsin, Docket No. 10908, File No. BPCT-1379; for construction permits for new television stations.

The Commission having heretofore set the hearing conference date in the above-entitled matter as March 19, 1954, and it appearing that the Examiner will still be in hearing on another matter on that date,

It is ordered, This 16th day of March 1954 that the aforesaid hearing conference, pursuant to § 1.841 of the rules, be and it hereby is postponed until 10:00 a. m., e. s. t., Tuesday, March 23, 1954 in the Commission's offices in Washington, D. C.

[Docket No. 10956]

MILLER M. DARCE

ORDER TO SHOW CAUSE

In the matter of Miller M. Darce, Aransas Pass, Texas; order to show cause why the license for Radiotelephone Station WC-6339 should not be revoked; Docket No. 10956.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WC-6339, licensed to Miller M. Darce, Aransas Pass, Texas, aboard the vessel "Rio Hondo".

It appearing that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated October 23, 1953 specifying that at 2218 GMT on October 21, 1953, the transmitter of radio station WC-6339 radiated a strong second harmonic which was a source of interference to the aeronautical radio service on 5476 kc and a violation of § 8.108 of the Commission's rules.

(b) Notice dated November 4, 1953 specifying that at 2022 GMT on October 30, 1953, the transmitter of radio station WC-6339 radiated a strong second harmonic which was a source of interference to the aeronautical radio service on 5476 kc and a violation of § 8.108 of the Commission's rules and that during the operation of this radio station as aforesaid the operator thereof failed to properly identify the station by transmitting the call sign WC-6339 as required by § 8.364 of the Commission's rules.

It further appearing that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee;

It further appearing that at 1545 GMT on January 25, 1954, and at 1642 GMT on February 15, 1954, the Commission's Monitoring Station, Kingsville, Texas, observed that the transmitter of radio station WC-6339 was still radiating a strong second harmonic which was capable of causing interference to the Aeronautical Radio Service on 5476 kc and a violation of § 8.108 of the Commission's rules:

It is ordered, This 12th day of March 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Miller M. Darce, Aransas Pass, Texas, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 18th day of May 1954;

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Miller M. Darce, Box 1026, Aransas Pass, Texas.

Released: March 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2017; Filed, Mar. 19, 1954; 8:51 a. m.]

DEPARTMENT OF THE INTERIOR

Office of the Secretary

UTAH

NOTICE FOR FILING OBJECTIONS TO ORDER WITHDRAWING PUBLIC LANDS FOR THE USE OF THE ATOMIC ENERGY COMMISSION[2]

For a period of 30 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

ORME LEWIS,
Assistant Secretary of the Interior.

MARCH 16, 1954.

[F. R. Doc. 54-1990; Filed, Mar. 19, 1954; 8:46 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3204]

LOUISIANA POWER & LIGHT CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE REGARDING AUTHORIZATION AND ISSUE AND SALE OF NEW SERIES OF PREFERRED STOCK BY PUBLIC-UTILITY COMPANY

MARCH 16, 1954.

Louisiana Power & Light Company ("Louisiana"), a public-utility company and a subsidiary of Middle South Utilities, Inc., a registered holding company, has filed a declaration with this Commission pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 thereunder regarding the following proposed transactions:

Louisiana now has outstanding 60,000 shares of 4.96 percent cumulative preferred stock, par value $100 per share, the entire amount of preferred stock authorized by its Certificate of Incorporation. Louisiana proposes to amend said Certificate so as to authorize 70,000 shares of an additional series of preferred stock to be known as Second Series Preferred Stock (its presently outstanding preferred stock to become known as First Series Preferred Stock), par value $100 per share. Each series of Louisiana's preferred stock will rank pari passu and have identical characteristics, except as to the number of shares of each series, the distinctive designation, dividend rate, date of payment of dividends, the date from which such dividends shall commence to accumulate, and the amount or amounts payable upon redemption thereof.

Louisiana proposes to obtain the consent of Middle South Utilities, Inc., the holder of all of its common stock, the only class of stock entitled to vote thereon, for authorization of the Amendment to Louisiana's Certificate of Incorporation and for the authorization of the proposed new series of preferred stock.

Louisiana proposes to issue and sell, pursuant to Rule U-50, the proposed 70,000 shares of Second Series Preferred Stock in order to provide a portion of the funds needed for its 1954 construction program, estimated at approximately $19,000,000, and for other corporate purposes. The dividend rate, to be a multiple of 1/25 of 1 percent, and the price to be paid to the company for the new series of preferred stock, to be not less than $100 or more than $102.75 per share, plus accrued dividends, will be fixed by proposals to be publicly invited by the company.

The fees and expenses to be incurred in connection with the issue and sale of said preferred stock, except underwriting discounts and commissions, are estimated by Louisiana as follows:

Federal stamp tax	$7,700
Filing fee—S. E. C.	719
Fees of transfer agent and registrar	1,750
Fees of company's counsel:	
Monroe & Lemann	7,000
Reid & Priest	7,000
Fees of independent counsel for underwriters (to be paid by underwriters): Winthrop, Stimson, Putnam & Roberts	5,000
Auditor's fees: Haskins & Sells	2,500
Printing and engraving	15,700
Miscellaneous	9,631
	57,000

Declarant has advised that no State or Federal regulatory agency, other than this Commission, has jurisdiction over any of the proposed transactions.

Louisiana requests that the Commission's order herein be issued pursuant to Rule U-23 of the rules and regulations under the act, waives the 30-day waiting period, and requests that said order become effective upon issuance.

Due notice having been given of the filing of the declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisons of the act and rules promulgated thereunder are satisfied, and it appearing to the Commission that the estimated fees and expenses are not unreasonable, provided they do not exceed the amounts estimated, and that the declaration should be permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-2381]

COLORADO-WYOMING GAS CO.

NOTICE OF APPLICATION

MARCH 16, 1954.

Take notice that Colorado-Wyoming Gas Company (Applicant), a Delaware corporation, with its principal place of business in Denver, Colorado, filed, on March 2, 1954, an application for a cer-

tificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of lateral lines and meter stations to supply the following localities with natural gas:

Initial Service to: Rocky Mountain Natural Gas Company, a proposed customer of Applicant, for resale to the towns of Munn and Wellington, Colorado.

Increase supply to: Public Service Company of Colorado for resale to the towns of Brighton, Broomfield, North Westminster, La Porte and Fort Lupton, Colorado.

Construct new metering station at: Greeley, Colorado, to serve the Greeley Gas Company, an existing customer of Applicant.

Applicant also proposes to sell certain facilities, at Greeley, Colorado, to the Greeley Gas Company.

The total cost of the lines and meters is estimated by Applicant to be $158,345 and the total cost of facilities to be retired including those to be sold is estimated to be $24,817.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with its rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th day of April 1954. The application is on file with the Commission for public inspection.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29019]

GRAIN FROM OKLAHOMA AND TEXAS TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

MARCH 17, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Grain, grain products, and related articles, carloads.

From: Points in Oklahoma and Texas.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4096.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

APPLICATION FOR RELIEF

MARCH 17, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to schedules listed below.

Commodities involved: Livestock, carloads.

From: Savanna, Ill.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuity, and to maintain grouping.

Schedules filed containing proposed rates: R. G. Raasch, Agent, I. C. C. No. 776, supp. 27; R. G. Raasch, Agent, I. C. C. No. 784, supp. 15.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or

formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29025]

COTTON RUGS AND BATH MATS, FROM, TO, AND BETWEEN POINTS IN SOUTHWEST

APPLICATION FOR RELIEF

MARCH 17, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Cotton rugs and bath mats, carload and less-than-carloads.

Territory: Between points in southwestern territory, also between points in southwestern territory, on the one hand, and points in Kansas-Missouri territory, gateways territory, southern territory and adjacent points, on the other.

Grounds for relief: Competition with rail carriers, circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4020, supp. 67; F. C. Kratzmeir, Agent, I. C. C. No. 3987, supp. 105.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

SALT CAKE FROM LOUISVILLE, KY., TO FLORIDA PORTS

APPLICATION FOR RELIEF

MARCH 17, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Salt cake (crude sulphate of soda), carloads.

From: Louisville, Ky.

To: Cantonment, north Pensacola, and Port St. Joe, Fla.

Grounds for relief: Competition with rail carriers, circuitous routes and competition with water, or water-rail carriers.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1062, supp. 142.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

PAPER AND RELATED ARTICLES FROM BEVERLY, TENN., TO OFFICIAL AND ILLINOIS TERRITORIES

APPLICATION FOR RELIEF

MARCH 17, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Paper and related articles, including paper boxes and pulpboard, carloads.

From: Beverly, Tenn.

To: Points in official and Illinois territories.

Grounds for relief: Rail competition, circuity, to maintain grouping, to apply rates constructed on the short line distance formula and additional origin.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1349, supp. 45.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [No. 31437]

EASTERN BITUMINOUS COAL ASSOCIATION ET AL. V. BALTIMORE AND OHIO RAILROAD CO. ET AL.

ASSIGNING TIME FOR HEARINGS, PRESCRIBING SPECIAL RULES DIRECTING INTERCHANGE OF PREPARED MATERIAL PRIOR TO HEARINGS, AND RECORDING STIPULATION

It appearing, that upon consideration of the record made in the above-entitled proceeding at the prehearing conference held at Washington, D. C., on February 24, 1954;

It further appearing, that the hearings in this proceeding are to be conducted jointly with the hearings assigned by the Pennsylvania Public Utility Commission in its Docket No. C-16031;

And it further appearing, that the parties have entered into a stipulation that, in lieu of producing copies of the defendants' annual reports filed with this Commission, the parties may incorporate into the record, by specific reference, any portions of such annual reports, and that the Examiner and the Commission, in the consideration and preparation of their reports, may refer to and consider in evidence any overall revenue and expense figures of said defendants contained in said annual reports, and for good cause appearing therefor:

It is ordered, That this proceeding be, and the same is hereby, assigned for hearing on June 8, 1954, at 8:30 o'clock a. m., U. S. s. t. (9:30 o'clock a. m., District of Columbia daylight saving time), and for further hearing on November 29, 1954, at 9:30 o'clock a. m., U. S. s. t., at the office of the Interstate Commerce Commission, Washington, D. C., before Examiner Oren G. Barber;

It is further ordered, That the following special rules shall be applicable herein:

1. *Prepared statement interchange before hearings.* Except as hereinafter provided, the parties shall prepare in writing the testimony of their witnesses and serve upon all other parties, shown on the list later to be issued pursuant to rule 4 hereof, copies thereof together with any exhibits they intend to offer in evidence. All direct testimony and exhibits shall be served by complainants, and interveners supporting complainants, on or before April 26, 1954. The service of all direct evidence by the defendants, interveners supporting defendants, and all other interveners, except those hereinafter specifically provided for, shall be made on or before October 25, 1954. Interveners Bethlehem Steel Company, The Chesapeake and Ohio Railway Company, Norfolk and Western Railway Company, the Virginian Railway Company, Property Owners' Committee, and Virginia State Port Authority may serve their direct testimony and exhibits on or before November 16, 1954. The service of testimony and exhibits by all parties in rebuttal of such direct evidence shall be made on or before November 16, 1954, except that rebuttal of direct evidence served by said interveners on November 16, 1954, may be introduced orally or in written form at the hearing on November 29, 1954. Two copies of all testimony and exhibits served pursuant to this rule shall also be mailed to Examiner Oren G. Barber, Interstate Commerce Commission, Washington 25, D. C., and one copy thereof to Mr. Lloyd Benjamin, Chief Counsel, Pennsylvania Public Utility Commission, North Office Building, Harrisburg, Pa. No other copies thereof need be filed with either commission prior to the hearing at which the material is to be tendered in evidence.

2. *Hearings restricted.* Except for good cause shown, the hearing herein provided on June 8, 1954, shall be confined to the receipt in evidence of the direct testimony and exhibits which shall have been served by the complainants and the interveners supporting complainants on April 26, 1954, and to the cross examination of witnesses offering such testimony; and the hearing herein provided on November 29, 1954, shall be confined to the receipt in evidence of all other testimony and exhibits which will be served or introduced in accordance with the provisions of rule 1 hereof, and to the cross examination of the witnesses offering said testimony.

3. *Participation limited.* Any person whose intervention has not heretofore been granted and who desires to intervene herein, shall, not later than April 1, 1954, file a petition for leave to intervene in accordance with Rule 72 of the general rules of practice; and the subsequent reception of evidence, except as good cause therefor shall otherwise be shown at the hearings, will be limited to complainants, defendants, and parties who shall have been permitted to intervene pursuant to petitions filed not later than April 1, 1954.

4. *Notification of desire to be served with testimony and exhibits.* Any party desiring to be served with exhibits and testimony as hereinbefore provided, must notify the Secretary of the Interstate Commerce Commission on or before April 5, 1954, of such desire, indicating the number if more than one copy is desired. Thereafter, a list of parties upon whom such service should be made will be compiled, and a copy thereof served upon all parties.

5. *General specifications.* Prepared statements shall conform to Rule 15 of the general rules of practice in respect to style, mimeographing or printing, etc. Evidence offered should be prepared carefully with conciseness and clarity and so as to avoid extraneous, immaterial, and irrelevant matter, and undue cumulation of testimony upon any point. The statements should be factual in character. Argument should not be incorporated in the testimony. If not so limited the prepared statement may be excluded in whole or in part. Also the Commission on its own motion or on objection may exclude a statement or any portion thereof which is (a) not material or relevant to the questions presented in the proceeding, or (b) obviously incompetent.

6. *Verification; relief from cross examination and personal appearance.* There is no requirement that a prepared statement shall have an affidavit attached, but this does not preclude attaching an affidavit to the prepared statement. If the latter is done the following, or its equivalent, should appear in the margin on the top of the first sheet of the statement:

> This statement is verified. Unless written request for cross examination is received by affiant or his attorney not later than (June 1, 1954, or November 22, 1954, as the case may be) affiant desires that the statement be considered for incorporation in the record without his personal appearance as a witness.

A witness making such a request and thereafter receiving a demand for cross examination must personally report at the hearing, or his verified statement may not be received. If there is no demand for cross examination as above provided (indiscriminate demands for cross ex-

amination should be avoided), the privilege of cross examination will be deemed to be waived if the statement is verified and the witness making the statement has requested to be relieved from personal appearance as above provided. It will be presumed that a witness preparing an unsworn statement intends personally to appear at the hearing for cross examination and to be sworn at that time. An unsworn statement will be admitted only if the affiant is personally present at the hearing. The original signed and notarized copy of a verified statement should be retained by affiant or his counsel for incorporation of the statement into the record at the appropriate hearing.

7. *Oral evidence limited.* Implementing oral evidence to correct errors or to supply inadvertent omissions in prepared statements is permissible, but direct or rebuttal evidence, except rebuttal evidence permitted under Rule 1 to be filed at the hearing on November 29, 1954, not previously interchanged in writing as herein provided, may not be admitted except as good cause therefor shall be shown at the hearings.

8. *How admitted to the record.* To become a part of the record it is necessary for the witness, or some one qualified to represent him, formally to offer the prepared statement in evidence at the hearings; and unless good reason shall otherwise appear, the statement will be admitted as an exhibit.

9. *Materiality reserved.* A prepared statement received in evidence with or without objection as to its admissibility is subject to subsequent challenge as to the weight to be accorded to the facts in such statement.

10. *Witness examination.* The examination of a witness should be conducted in a manner so as to make it rapid, distinct, and as little annoying to the witness as is consistent with eliciting the facts, and to this end counsel on the same side of an issue should agree upon one person to examine a witness.

11. *Due dates defined.* All dates specified in these rules are the latest dates on which the parties in the performance of an act contemplated by these rules may make deposit in the mails, except (a) as to any date respecting which there is an express provision otherwise, and (b) any date therein provided for the filing of a petition with, or dispatch of notification to, the Commission shall be governed by the provisions of Rule 4 (b) of the general rules of practice, namely, receipt in the Commission and not the date of deposit in the mails shall be determinative.

And it is further ordered, That in addition to service hereof upon all parties of record, a copy hereof also shall be filed with the Director, Division of the Federal Register.

Dated at Washington, D. C., this 12th day of March A. D. 1954.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

U. S. GOVERNMENT FREIGHT

TRANSPORTATION BY CONTRACT CARRIERS BY MOTOR VEHICLE

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 2d day of March A. D. 1954.

Upon consideration of a petition of the Contract Carrier Conference of American Trucking Associations, Inc., and a reply of the Regular Common Carrier Conference of American Trucking Associations, Inc.; and good cause appearing therefor:

It is ordered, That a rule-making proceeding be, and it is hereby, instituted by the Commission, Division 2, to determine whether, and the extent to which, contract carriers by motor vehicle should be granted relief from the provisions of section 218 (a) of the Interstate Commerce Act, and the Commission's rules and regulations promulgated thereunder with respect to the filing of schedules or minimum charges for transportation performed under contracts with the United States Government, and to take such other action in the premises as the facts and circumstances shall appear to warrant.

It is further ordered, That the proceeding be, and it is hereby, assigned for hearing before Examiner Michael B. Driscoll at 8:30 o'clock a. m., U. S. S. T. (9:30 o'clock a. m., District of Columbia daylight saving time), on the 18th day of May A. D. 1954, at the office of the Interstate Commerce Commission, Washington, D. C.

And it is further ordered, That notice of this proceeding shall be given to carriers and the general public by posting a copy of this order in the office of the Secretary of this Commission in Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD, *Secretary.*

THE NATIONAL ARCHIVES OF THE UNITED STATES

FEDERAL REGISTER

VOLUME 19 1934 NUMBER 56

Washington, Tuesday, March 23, 1954

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas), Department of Agriculture

[Amdt. 3]

PART 722—COTTON

MARKETING QUOTA REGULATIONS RELATING TO APPORTIONMENT OF NATIONAL ACREAGE ALLOTMENT FOR 1954 CROP OF EXTRA LONG STAPLE COTTON TO STATES, COUNTIES AND FARMS

Basis and purpose. The amendment set forth herein makes two changes in the provision relating to the release and reapportionment of farm acreage allotments. It is provided that acreage released by the owner or operator of a new cotton farm will not be regarded as planted on such farm unless a part of such allotment is retained and extra long staple cotton is planted on the farm in 1954. Under the other change the county committee is authorized to refuse to accept the release of farm acreage allotment under specified conditions.

Farmers in Puerto Rico have begun planting their 1954 extra long staple cotton crops and farmers in the continental United States are making plans, preparing land and purchasing seed, fertilizer, and other supplies and equipment for the planting and production of extra long staple cotton this year. In order that the additional provisions included in this amendment may be carried out promptly by the State and county Agricultural Stabilization and Conservation Committees, it is essential that the amendment set forth herein be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act (5 U. S. C. 1003) is impracticable and contrary to the public interest, and the amendment contained herein shall be effective upon filing of this document with the Director, Division of the Federal Register.

Section 722.1117 (j) of the Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1954 Crop of Extra Long Staple Cotton (18 F. R. 7883, 18 F. R. 8109, 19 F. R. 1137) is amended to read as follows:

(j) *Release and reapportionment of farm acreage allotments for extra long staple cotton.* Any part of any 1954 farm acreage allotment for extra long staple cotton on which such cotton will not be planted in 1954 and which is voluntarily released to the county committee by the applicable closing date shall be deducted from the farm acreage allotment for extra long staple cotton and may be reapportioned by the county committee not later than the applicable closing date to other farms receiving farm acreage allotments for extra long staple cotton in the same county in amounts determined by the county committee to be fair and reasonable on the basis of past acreages of extra long staple cotton, land, labor and equipment available for the production of extra long staple cotton, crop-rotation practices and soil and other physical facilities affecting the production of extra long staple cotton. The State committee shall establish closing dates for purposes of the foregoing provisions for the entire State or for areas in the State if there is a substantial difference in planting dates for different areas in the State. The closing date so established for releasing farm acreage allotments shall be the date on which the planting of extra long staple cotton normally becomes general on farms in the State or area, and the closing date so established for reapportionment of such released acreage to other farms in the same county shall be the latest date on which extra long staple cotton can normally be planted on farms in the State or area with reasonable expectations of producing an average crop. If all of the allotted acreage voluntarily released is not needed in the county, the county committee may surrender the excess acreage to the State committee for reapportionment to counties as provided in § 722.1116 (g). Any farm acreage allotment released for 1954 only shall, in determining future acreage allotments for extra long staple cotton, be regarded as having been planted on the farm releasing such allotment if extra long staple cotton was planted on such farm in at least one of the years in the 3-year farm base period, except that acreage released by the owner or operator of a new cotton farm will not be regarded as planted on such farm unless a part

of such allotment is retained and extra long staple cotton is planted on the farm in 1954. Any part of any farm acreage allotment may be permanently released in writing to the county committee by the owner and operator of the farm and reapportioned as provided in this paragraph. In determining future farm acreage allotments for extra long staple cotton the planting in 1954 of reapportioned acreage allotment shall not be considered. For purposes of determining future State and county acreage allotments, reapportioned acreage will be credited to the State and to the county in which such acreage was planted. Notwithstanding the foregoing provisions of this paragraph, the county committee shall not accept a release of a farm acreage allotment permanently or for 1954 only if (1) such release is opposed by a person who the county committee determines will subsequently have an interest in the farm as owner or operator, or (2) the county committee determines that the farm is being acquired for governmental or other public purposes.

DETERMINATION OF ACREAGE ALLOTMENTS FOR OLD AND NEW FARMS

Basis and purpose. The amendments herein are issued under the Agricultural Adjustment Act of 1938, as amended, and are for the purpose of making provision for the use of a reserve of not to exceed three per centum of the State wheat acreage allotment for establishing wheat acreage allotments for farms in the State on which wheat will be produced in 1954 for the first time since 1950 instead of a reserve from the county acreage allotment for establishing allotments for "new" farms in the county. This change is required by Public Law 117, 83d Congress.

Since the only purpose of the amendments is to reflect changes in applicable legislation, it is hereby found and determined that compliance with the notice, public procedure, and effective date provisions of section 4 of the Administrative Procedure Act is unnecessary and contrary to the public interest, and the amendments herein shall take effect upon their publication in the FEDERAL REGISTER.

Section 728.417 *Determination of acreage allotments for old farms* is amended by striking out therein the words "and a reserve for new farms of not to exceed 3 percent of the county allotment".

Section 728.419 *Determination of acreage allotments for new farms* is amended by striking out the last sentence thereof and inserting in lieu thereof the following: "The sum of all new farm acreage allotments in the State shall not exceed the State reserve set aside for new farm acreage allotments by the State committee which in no case shall exceed 3 percent of the State allotment. The sum of all new farm acreage allotments in the county shall not exceed that portion of the State reserve for new farms set aside by the State committee for new farm acreage allotments in the county."

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply sec. 334, 52 Stat. 53, as amended; Pub. Law 117, 83d Cong.; 7 U. S. C. 1334.)

Done at Washington, D. C., this 18th day of March 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-2045; Filed, Mar. 22, 1954; 8:48 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 72]

PART 608—DANGER AREAS

ALTERATION

The danger area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required. Part 608 is amened as follows:

In § 608.51, the Midland, Texas, area (D–217), published on July 16, 1949, in 14 F. R. 4296, amended on October 31, 1951, in 16 F. R. 11068, and on November 28, 1951, in 16 F. R. 11954, is rescinded.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on March 15, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-2025; Filed, Mar. 22, 1954; 8:45 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53455]

PART 11—PACKING AND STAMPING; MARKING; TRADE-MARKS AND TRADE NAMES; COPYRIGHTS

MARKING OF ARTICLES AND CONTAINERS TO INDICATE NAME OF COUNTRY OF ORIGIN

Except in the case of articles which before the repeal by section 4 (a), Customs Simplification Act of 1953, of the marking provisions contained in paragraphs 354, 355, 357, 358, 359, 360, 361, and 1553 of the Tariff Act of 1930 (19 U. S. C. 1001, pars. 354, 355, 357, 358, 359, 360, 361, and 1553) were subject to special marking, the exact method of marking to indicate the country of origin of an imported article (or its container, when the container and not the article must be marked) to meet the requirements of section 304, Tariff Act of 1930, as amended (19 U. S. C. 1304), has not been specified in the Customs Regulations.

In order to indicate with respect to articles not classifiable under paragraph 354, 355, 357, 358, 359, 360, 361, or 1553, supra, the standard of permanency of marking contemplated by section 304, as amended, supra, in the light of the decision of the United States Court of Customs and Patent Appeals in the Gibson-Thomsen case (1940), C. A. D. 98, 27 C. C. P. A. 267, and the requirements of section 304 with respect to legibility and conspicuousness of marking, § 11.8 (d) is hereby amended to read as follows:

§ 11.8 *Marking of articles and containers to indicate name of country of origin.* • • •

(d) Subject to the exceptions specified in section 304 (a) (3), Tariff Act of 1930, as amended, each article classifiable under paragraph 354, 355, 357, 358, 359, 360, 361, or 1553 of that act shall be marked legibly and conspicuously to indicate its origin by die stamping, cast-in-the-mold lettering, etching (acid or electrolytic), engraving, or by means of metal plates which bear the prescribed marking and which are securely attached to the article in a conspicuous place by welding, screws, or rivets. In the case of other classes of articles, the exact method of marking to meet the requirements of section 304, Tariff Act of 1930, as amended, is not specified in these regulations or elsewhere. When an article not classifiable under a paragraph specified above is required to be marked under section 304 to indicate its origin, any method of legible and conspicuous marking is acceptable which will remain on the article (or its container, when the container and not the article is required to be marked) until it reaches the ultimate purchaser. The marking must in all cases be legible and conspicuous and of a degree of permanency which will assure that in any reasonably foreseeable circumstance the marking, unless it is deliberately removed, will remain on the article (or its container) until it reaches the ultimate purchaser. For example, if chinaware is marked by means of paper sticker labels, the labels, legibly indicating the English name of the country of origin, must be affixed to the chinaware in a conspicuous place and so securely that unless deliberately removed they will remain on the chinaware while it is in storage or on display and until it is delivered to the purchaser at retail or other ultimate purchaser. Similarly, when tags are used, the tags, legibly indicating origin, must be attached in a conspicuous place and in a manner which assures that unless deliberately removed they will remain on the article until it reaches the ultimate purchaser.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies sec. 304, 46 Stat. 687, as amended; 19 U. S. C. 1304)

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: March 17, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter XII—Defense Minerals Exploration Administration, Department of the Interior

[DMEA Order 1, Amended]

DMEA 1—GOVERNMENT AID IN DEFENSE EXPLORATION PROJECTS

This amended order is found to be necessary and appropriate to carry out the provisions of the Defense Production Act of 1950, as amended, with reference to the encouragement of exploration, development, and mining of critical and strategic minerals and metals pursuant to section 303 (a) of the act. It is a complete restatement and revision of the order as heretofore amended. In the formulation of this amended order there has been no consultation with industry representatives or trade association representatives because special circumstances have rendered such consultation impracticable.

EXPLANATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.

APPLICATIONS

3. Form and filing.
4. Scope of application.
5. Action on applications.
6. Criteria.

EXPLORATION PROJECT CONTRACTS

7. Ratio of contributions.
8. Operator's property rights.
9. Allowable costs.
10. Repayment by operator.
11. Government not obligated to buy.
12. Title to and disposition of property.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, 65 Stat. 139, 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 303, 64 Stat. 801, 65 Stat. 133; secs. 5–6, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2093; E. O. 10480, Aug. 20, 1953, 18 F. R. 4939.

EXPLANATORY PROVISIONS

SECTION 1. *What this order does.* This order sets forth procedures and regulations for obtaining Government aid in financing the cost of projects for exploration for indicated or undeveloped sources of strategic or critical metals and minerals.

SEC. 2. *Definitions.* As used in this order:

(a) "Exploration project" means the search for indicated or undeveloped sources of strategic or critical metals or minerals within a specified area or parcel of ground in the United States, its territories or possessions, whether conducted from the surface or underground, including recognized and sound procedures for obtaining pertinent geological, geophysical, and geochemical information. The work shall not go beyond a reasonable delineation and sampling of the ore, and shall not include work prosecuted primarily for mining or preparation for mining.

(b) "Operator" means a person, firm, partnership, corporation, association, or other legal entity by whom or for whose account and interest an exploration project is to be carried out.

(c) "Administrator" means the Administrator of Defense Minerals Exploration Administration, or his representative authorized in writing.

(d) "Government" means the United States of America.

APPLICATIONS

SEC. 3. *Form and filing.* An application for aid in any specified exploration project must be in quadruplicate on forms which may be obtained from and filed with either:

The Defense Minerals Exploration Administration.
Department of the Interior,
Washington 25, D. C.

or the nearest Defense Minerals Exploration Administration field executive officer as indicated by the following addresses:

Region	Area served	Address
I	Alaska	Bureau of Mines, P. O. Box 550, Juneau, Alaska.
II	Washington, Oregon, Idaho, and Montana.	South 157 Howard Street, Spokane 4, Wash.
III	California and Nevada.	1012 Flood Building, 870 Market Street, San Francisco 2, Calif.
IV	Arizona, New Mexico, Colorado, Utah, and Wyoming.	Bureau of Mines, 224 New Customhouse Building, Denver 2, Colo.
V	North Dakota, South Dakota, Nebraska, Minnesota, Iowa, Wisconsin, and Michigan.	2908 Colfax Avenue, South Minneapolis 8, Minn.
VI	Kansas, Louisiana, Oklahoma, Texas, Arkansas, and Missouri.	P. O. Box 431, Joplin Mo.
VII	Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, and Mississippi.	Room 13, Post Office Building, Knoxville 2, Tenn.
VIII	Illinois, Indiana, Ohio, Kentucky, Virginia, West Virginia, Maryland, Massachusetts, New York, Vermont, Maine, New Hampshire, Connecticut, Rhode Island, New Jersey, Delaware, and Pennsylvania.	Bureau of Mines, Eastern Experiment Station, College Park, Md.

SEC. 4. *Scope of application.* Each application shall relate to and fully describe the exploration project, which shall be justified by detailed substantiating data as called for by the application form. The Administrator may require the filing of additional information, reports, maps or charts, and exhibits, in connection with the application, and may require such physical examination of the project as he deems necessary.

SEC. 5. *Action on applications.* If the application is approved, the Government, acting through the Administrator, will enter into an exploration project contract with the applicant upon such terms and conditions as are set forth in the contract form which the Administrator will supply. Exploration projects estimated to require more than two years to complete will be approved only if justified in the opinion of the Administrator by special circumstances.

SEC. 6. *Criteria.* The following factors will be considered and weighed in passing upon applications:

(a) The strategic importance of the mineral involved.

(b) The geologic probability of making a significant discovery.

(c) The availability of manpower, materials, supplies, equipment, water, and power.

(d) The accessibility of the project.

(e) The operating experience and background of the applicant.

EXPLORATION PROJECT CONTRACTS

SEC. 7. *Ratio of contributions.* The Government, upon the terms specified in the contract, will contribute a percentage of the total allowable costs of a project, depending upon the mineral or minerals which are the subject of exploration, as follows:

(a) In the case of bauxite, chromium, copper, fluorspar, graphite (crucible flake), lead, molybdenum, zinc, and cadmium—50 percent.

(b) In the case of antimony, asbestos (chrysotile only), beryl, cobalt, columbium, corundum diamonds (industrial), kyanite (strategic), manganese, mercury, mica (strategic), monazite and rare earths, nickel, platinum-group metals, quartz crystals (piezo-electric), rutile-brookite, talc (block-steatite), tantalum, thorium, tin, tungsten, and uranium—75 percent.

(c) In the event that two or more of the minerals named in this section are the subject of the proposed exploration, the allowable percentage shall be apportioned between them.

SEC. 8. *Operator's property rights.* The operator must have, preserve, and maintain a sufficient interest in the land, as owner, lessee, or otherwise, for the purposes of the exploration project contract: *Provided*, That the Administrator may waive any deficiencies in the operator's interest in the land when he finds such action to be in the best interest of the Government. The operator shall devote the land and all existing improvements, facilities, buildings, installations, and appurtenances to the purposes of the exploration project without any allowance for the use, rental value, depreciation, depletion, or other cost of acquiring, owning, or holding possession thereof.

SEC. 9. *Allowable costs.* (a) The Government, to the extent provided in the exploration project contract, will contribute to the necessary, reasonable, direct costs of performing the exploration work, including: The costs of labor, supervision, and consultants; operating materials and supplies; operating equipment; any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and operating equipment; any necessary buildings, fixed improvements, or installations; repairs and maintenance, analytical work, accounting, payroll deductions for the account of the operator, and liability insurance covering employment; payments by the operator to independent contractors; costs estimated and agreed upon by the operator and the Government in terms of units of work performed (per foot of drifting, per foot of drilling, etc.); and such other necessary, reasonable, direct costs as may be approved by the Government in the course of the work.

(b) No costs of acquiring, owning, or holding possession of the land, and no items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or work performed or costs incurred before the date of the contract, shall be allowed as costs of the contract in which the Government will participate.

SEC. 10. *Repayment by operator.* (a) If the Government considers that a discovery or development from which production may be made has resulted from the work, the Government, within the time limited by the contract, may so certify in writing to the operator. Such certification shall describe broadly or indicate the nature of the discovery or development.

(b) The operator shall pay to the Government a royalty on all minerals mined or produced from the land described in the contract: (1) Regardless of any certification of discovery or development, from the date of the contract until the lapse of time within which the Government may make such certification, or until the total net amount contributed by the Government without interest is fully repaid, whichever occurs first; or (2) if the Government makes a certification of discovery or development, within ten years (or other period fixed by the contract) from the date of the contract, or until the total net amount contributed by the Government is fully repaid, whichever occurs first.

(c) The Government's royalty shall be a percentage of the gross proceeds (including any bonuses, premiums, allowances, or other benefits) from the production sold, in the form sold (ore, concentrates, metal, or equivalent), at the point of delivery (the f. o. b. point); except, that charges of the buyer arising in the regular course of business, and shown as deductions on the buyer's settlement sheets, on account of the cost of treatment processes performed by the buyer, sampling and assaying to determine the value of the production sold, and freight paid by the buyer to a carrier (not the operator), shall be allowed as deductions in arriving at the "gross proceeds" as that term is used herein. Any costs of treatment processes, sampling or assaying, or transportation, performed or paid by the operator or by anyone other than the buyer, are not deductible in arriving at the "gross proceeds" as that term is here used. The term "treatment processes," as here used, means those processes (such as milling, concentrating, smelting, refining, or equivalent) applied to the raw ore or other production after it is extracted from the ground, to put it into a commercially marketable form; excluding fabricating or manufacturing.

(d) If any production (ore, concentrates, metal, or equivalent), after the lapse of six months from the date the ore was extracted from the ground, remains neither sold nor used by the operator in integrated manufacturing or fabricating operations (for instance, if it is stockpiled), the Government, at its option, as long as it so remains, may require the computation and payment of its royalty on the value of such production in the form (ore, concentrates, metal, or equivalent) it is in when the Government elects to require computation and payment. If any production is used by the operator in integrated manufacturing or fabricating operations before the Government makes its election, the Government's royalty on such production shall be computed on the value thereof in the form in which and at the time when it is so used. "Value" as here used means what is or would be gross income from mining operations for percentage depletion purposes in Federal income tax determination, or the market value, whichever is greater.

(e) The percentages of the Government's royalty shall be as follows:

One and one-half (1½) percent of amounts ("gross proceeds" or "value") not in excess of eight dollars ($8.00) per ton of production in the form in which sold, held, or used, plus one-half (½) percent for each additional full fifty cents ($0.50) by which such amounts exceed eight dollars ($8.00) per ton, but not in excess of five (5) percent of such amounts.

(For instance: The royalty on an amount of five dollars ($5.00) per ton, would be one and one-half (1½) percent; on an amount of ten dollars ($10.00) per ton, three and one-half (3½) percent.)

(f) To secure the payment of the Government's percentage royalty, the contract shall provide for a lien upon the land or the operator's interest in the land which is the subject of the contract, and upon any production of minerals therefrom. To the extent provided in the contract, if the operator is not the producer or if the operator transfers his interest in production, the operator shall remain liable as surety for the payment of the Government's royalty, unless such liability is waived by the Administrator.

(g) If, in any particular case, the Administrator finds that it would be more economical or practicable to compute the Government's royalty upon some basis other than "gross proceeds" or "value," as those terms are used in this order, or upon the production in some form other than that in which it is sold, held, or used in integrated operations, he may agree with the operator, either in the original exploration project contract or by an amendment thereof, upon some other basis of computation. The Administrator may, in special cases, fix the term of the Government's percentage royalty and lien at more or less than ten years, when he finds such action to be in the best interest of the Government.

(h) This section is not to be construed as imposing any obligation on the operator or the operator's successor in interest to engage in any mining or production operations.

SEC. 11. *Government not obligated to buy.* Nothing in this order or in any contract entered into pursuant thereto shall be construed as imposing any obligation on the Government to purchase any materials mined or produced from the property which is the subject of such contract.

SEC. 12. *Title to and disposition of property.* All facilities, buildings, fixtures, equipment, or other items costing more than $50.00 each, paid for or purchased with funds contributed jointly by the operator and the Government, although title may be taken in the name of the operator, shall belong to the operator and the Government jointly, in proportion to their respective contribution, and the exploration project contract shall make suitable provisions for their disposal for the joint account of the operator and the Government.

Dated: March 19, 1954.

C. O. MITTENDORF,
Administrator, Defense Minerals Exploration Administration.

[F. R. Doc. 54-2056; Filed, Mar. 22, 1954; 8:50 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 977]

[Docket No. AO 183-A3]

HANDLING OF MILK IN PADUCAH, KENTUCKY, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the McCracken County Courthouse, Paducah, Kentucky, beginning at 10:00 a. m., March 30, 1954, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Paducah, Kentucky, marketing area (7 CFR 977 et seq.). These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, regulating the handling of milk in the Paducah, Kentucky, milk marketing area were proposed as follows:

By the Paducah Graded Milk Producers Association:

1. Amend § 977.6 *Pool plant* by deleting paragraph (b) and substituting therefor the following:

(b) Any plant which is approved by such health department and supplies milk, skim milk, or cream to a plant described in paragraph (a) of this section for disposition as Class I milk in the marketing area, and at which milk is received from producers.

2. Amend § 977.8 *Producer* by adding a new paragraph (c) to read as follows:

(c) Diverted by a cooperative association to a pool plant or a nonpool plant.

3. Amend § 977.50 by deleting paragraph (a) and substitute therefor the following:

(a) *Class I milk.* The price of Class I milk shall be the basic formula price plus the following amounts per hundredweight: $1.50 for the delivery periods of August, September, October, November, December, January, February and March; and $0.60 for the delivery periods of April, May, June, and July.

4. Amend § 977.63 by deleting the present language in the order and insert therefor the following:

§ 977.63 *Handlers subject to other orders.* In case of any handler who the Secretary determines disposes of a greater portion of his milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verifications of such reports by the market administrator.

(b) If the price which such handler is required to pay under the other Federal order to which he is subject, for skim milk and butterfat which would be classified as Class I milk under this subpart is less than the price provided by this subpart, such handler shall pay to the market administrator for deposit into the producer-settlement fund with respect to all skim milk and butterfat disposed of (except to other handlers) as Class I milk within the marketing area, an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this subpart and its value as determined pursuant to the other order to which he is subject. Such payments shall be made on or before the 12th day after the end of each delivery period.

5. Add a provision requiring that an operator of a pool plant shall pay the market administrator on any milk received from a nonpool plant and classified as Class I milk an amount calculated as follows:

Multiply the pounds of such milk by the Class I price adjusted by the Class I butterfat differential and subtract therefrom the amount of such milk multiplied by the Class II price adjusted by the Class II butterfat differential; and *Provided*, That money so paid to the market administrator shall be distributed pro rata on the basis of the volume of milk received from producers for distribution to producers.

6. Amend § 977.80 *Payments to producers* by deleting paragraph (a) and substituting therefor the following:

(a) *Partial payment.* On or before the last day of each delivery period, each handler shall make payment to each producer, not a member of a qualified cooperative association and to a qualified cooperative association for milk received from its members, during the first 15 days of the current delivery period at not less than the Class II price of the preceding delivery period.

7. Amend § 977.80 by deleting that part of paragraph (b) preceding subparagraph (1) and substitute therefor the following:

(b) *Final payment.* On or before the 15th day after the end of each delivery period, each handler shall make payment to each producer, not a member of a qualified cooperative association, and to a qualified cooperative association, for milk received from its members during such delivery period, at not less than the uniform price per hundredweight, subject to the following adjustments: * * *

By the Midwest Dairy Products Corporation:

8. Delete § 977.51 *Basic formula price* and insert in lieu thereof the following:

§ 977.51 *Basic formula price.* The basic formula price for each delivery period to be used in determining the class prices set forth in this section shall be the higher of the prices computed pursuant to paragraphs (a), (b) or (c) of this section, rounded to the nearest cent.

(a) To the average of the prices paid per hundredweight reported to have been, or to be paid for such delivery period to farmers for milk containing 3.5 percent butterfat delivered during such delivery period at each of the following listed manufacturing plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator:

Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the butterfat differential determined pursuant to § 977.85 by 5.

(b) (1) Multiply by 4.24 the simple average, as computed by the market administrator of the daily wholesale selling prices using the midpoint of any price range as one price of Grade AA (93 score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture, during the delivery period: *Provided*, That if no price is reported for Grade AA (93 score) butter, the highest of the prices reported for Grade A (92 score) butter for the day shall be used in lieu of the price for Grade AA (93 score) butter.

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period by the United States Department of Agriculture; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents.

(4) Add an amount computed by multiplying the butterfat differential determined pursuant to § 977.85 by 5.

(c) Or the price shall be the average of the basic (or field) prices reported to or ascertained by the market administrator to have been paid, or to be paid, without deductions for hauling or other charges to be paid by the farm shipper, for milk of 4.0 percent butterfat content received during the delivery period by the Pet Milk Company at its manufacturing plant located at Mayfield, Kentucky.

9. Review the factors in § 977.50 (a) used in establishing the level of prices for Class I milk.

10. Delete § 977.50 (b) *Class II milk* and insert in lieu thereof the following:

(b) *Class II milk.* The Class II price shall be the basic formula price.

11. Delete § 977.52 *Butterfat differential to handlers* and insert in lieu thereof the following:

§ 977.52 *Butterfat differential to handlers.* If any handler has received milk from producers during the delivery period containing more or less than 4.0 percent of butterfat, such handler shall add or deduct per hundredweight of milk for each one-tenth of 1 percent of butterfat above or below 4.0 percent an amount computed as follows:

(a) *Class I milk.* Multiply by 0.120 the average of the daily wholesale prices per pound of 92 score butter (using the midpoint of any price range as one price) as reported by the Department of Agriculture during the previous delivery period and rounded to the nearest one-tenth cent.

(b) *Class II milk.* Multiply by 0.115 the average of the daily wholesale prices using the midpoint of any price range as one price of 92 score bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the delivery period and rounded to the nearest one-tenth cent.

12. Add § 977.64 under center heading Application of Provisions.

§ 977.64 *Transportation allowance for movement of Class II milk.* During the months of March, April, May, June, July and August pool plant handlers shall receive credit for transportation based on the actual movement of skim milk and butterfat in milk or cream to a nonpool plant as Class II of the following:

More than 10 but not more than 30 miles	0.10
More than 30 but not more than 70 miles	.18
More than 70 but not more than 110 miles	0.28
More than 110 but not more than 150 miles	.38
More than 150 but not more than 190 miles	.48
More than 190	.58

The above milage shall be the minimum road mileage from the pool plant to the nonpool plant utilizing the milk.

13. Delete paragraph (b) of § 977.6 *Pool plant* and insert in lieu thereof the following:

(b) Any plant which is approved by such health department and furnishes milk to a plant described in paragraph (a) of this section for disposition as Class I milk in the marketing area, and at which milk is received from producers.

14. Add to § 977.63 *Handlers subject to other orders* the following: "If the price which such handler is required to pay under the other Federal Order to which he is subject for skim and butterfat, which would be classified as Class I milk under this order, is less than the price provided by this order such handler shall pay to the market administrator for deposit into the producer-settlement fund, with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area via delivery routes or plant stores, an amount equal to the difference between the value of skim milk or butterfat as computed pursuant to this order to which he is subject."

15. Delete paragraph (a) of § 977.80 *Payment to producers* and insert in lieu thereof the following:

(a) *Partial payment.* On or before the last day of each delivery period, each handler shall make payment to each producer, at not less than the applicable Class II price of the preceding delivery period, for the milk of such producer which was received by such handler during the first 15 days of the current delivery period: *Provided*, That such rate of payment to any producer who has discontinued delivery of milk during the delivery period, may be reduced by not more than 40 percent.

By the Dairy Division, Agricultural Marketing Service:

16. Amend the order as necessary to provide for the classification and pricing of butterfat and skim milk contained in inventories of milk or milk products on hand at the beginning and end of the delivery period.

17. Make such changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order now in effect may be procured from the Market Administrator, 4030 Chouteau Avenue, St. Louis 10, Missouri, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: March 18, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[No. 9]

KENDRICK IRRIGATION PROJECT, WYOMING

NOTICE OF TEMPORARY WATER SERVICE

MARCH 1, 1954.

1. *Water rental.* Irrigation water will be furnished, when available, upon a rental basis under approved applications for temporary water service during the irrigation season of 1954 (May 1 to September 30, inclusive), where the progress of construction will permit, to the irrigable lands in the first unit of the Casper-Alcova Irrigation District.

2. *Charges and terms of payment.* The minimum water rental charge shall be $2.50 for all irrigable areas of land on each 40-acre parcel designated to be irrigated during the year 1954. The minimum payment will entitle the applicant to 2 acre-feet of water per irrigable acre. Additional water, if available, will be furnished during the irrigation season at the rate of $1.50 per acre-foot. All charges shall be payable in advance of the delivery of water and no part thereof shall be refunded.

3. Water will be delivered and measured by Government forces at the nearest available measuring device to the individual farm.

4. No water will be delivered to isolated tracts where such service would result in excessive canal losses or excessive costs.

5. Water will be delivered only to lands, the owners of which have executed and delivered recordable contracts as required by articles 38 and 39 of the contract of August 3, 1935, between the United States and the Casper-Alcova Irrigation District.

6. Individual applications for water and the payments required by this notice will be received at the office of the District Manager, Bureau of Reclamation, Reclamation Center, Casper, Wyoming. The United States reserves the right to reject any applications.

R. J. WALTER, Jr.,
Regional Director, Region 7.

[No. 53]

KLAMATH IRRIGATION PROJECT, OREGON-CALIFORNIA

PUBLIC NOTICE OF ANNUAL WATER CHARGES

FEBRUARY 10, 1954.

1. *Operation and maintenance.* The minimum operation and maintenance charge for the irrigation season of 1954 against all lands of the Main Division lying outside of the Klamath Irrigation District shall be $4.50 per irrigable acre, whether water is used or not, payment of which will entitle the water user to 2½ acre-feet of water per irrigable acre. Additional water, if available, will be furnished during the irrigation season at the rate of $1.80 per acre-foot.

2. The operation and maintenance charge for the irrigation season of 1954 against all lands under individual Warren Act contracts shall be $2.25 per irrigable acre, whether water is used or not.

3. *Water rental.* The minimum water rental charge for the irrigation season of 1954 against all lands of the Tule Lake Division lying outside of the Klamath Irrigation District and subject to Public Orders of January 22, 1927, March 30, 1928, February 6, 1929, September 10, 1930, October 16, 1931, September 9, 1937, August 1, 1946, October 8, 1947, and August 27, 1948, shall be $4.50 per irrigable acre whether water is used or not. Payment of the minimum rental charge shall entitle the water user to 2½ acre-feet of water per irrigable acre. Additional water will be furnished, if available, at a rate of $1.80 per acre-foot.

4. For irrigation or waste water furnished Tule Lake leased lands, the charge, unless otherwise specified in the leases, shall be $1.80 per acre-foot for the season of 1954.

5. For irrigation or waste water furnished lands within the dry bed of or bordering Lower Klamath Lake, the charge shall be $0.50 per acre-foot for the season of 1954.

6. For irrigation water furnished private lands from Klamath or Lost Rivers and Upper Klamath Lake, the charge shall be $0.50 per acre-foot for the season of 1954.

7. For water furnished lands not subject to the operation and maintenance or water rental charges named above, the charge shall be $1.80 per acre-foot for the season of 1954.

8. *Time of payment.* For lands of the Tule Lake Division under public notice or public order lying outside of the Klamath Irrigation District, the minimum charge stated in paragraph 3 above shall be due and payable one-half before the delivery of water if water is delivered before July 1, and one-half on or before July 1. If no water is delivered before July 1, then the entire charge shall become due and payable on that date. For all other lands referred to herein, the minimum charges announced shall be due and payable before the delivery of water and in any event not later than May 1 of the current irrigation season. Payment for all water used in addition to the allowance under the minimum charge shall be made on or before December 1 of the year in which used.

9. *Penalties.* On all payments not made on or before the due dates, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid and a like penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue.

R. S. CALLAND,
Acting Regional Director.

DEPARTMENT OF LABOR

Office of the Secretary

DIRECTOR AND ASSISTANT DIRECTOR OF BUREAU OF EMPLOYMENT SECURITY

DELEGATION OF AUTHORITY TO PERFORM CERTAIN DUTIES OF THE SECRETARY

Pursuant to section 3 of the Administrative Procedure Act (60 Stat. 287; 5 U. S. C. 1001 et seq.), the Statement of Organization of the Department of Labor heretofore published in the FEDERAL REGISTER is amended to indicate certain additional assignments of functions.

On February 17, 1954, by virtue of authority contained in R. S. 161 (5 U. S. C. 22), in regulations issued by the Administrator, Bureau of Security, Consular Affairs, and Personnel of the Department of State (22 CFR 44.3 (c), in the Refugee Relief Act of 1953 (67 Stat. 400, 50 U. S. C. Appx. 1971), and in Reorganization Plan No. 6 of 1950 (64 Stat. 1263, 5 U. S. C. 1952 ed. 1611), the Secretary of Labor issued General Order No. 71 which authorized the Assistant Secretary of Labor for Employment and Manpower, or such other person as he chose to designate, to certify to the authenticity and bona fides of assurances of employment for aliens submitted under section 7 of the Refugee Relief Act of 1953, and to certify that applicable Employment Service policies have ben observed with respect to said assurances of employment, as provided in 22 CFR 44.3 (c).

This order superseded all prior orders, instructions, regulations and memoranda of the Secretary of Labor to the extent that they were inconsistent therewith.

On March 5, 1954, the Assistant Secretary of Labor for Employment and Manpower authorized the Director of the Bureau of Employment Security to perform the functions designated in General Order No. 71.

Under authority contained in the latter order, the Director of the Bureau of Employment Security, on March 10, 1954, authorized the Assistant Director of Employment Security to perform the above named functions subject to his general direction and control.

Signed at Washington, D. C., this 16th day of March 1954.

STUART ROTHMAN,
Solicitor of Labor.

[Docket No. 6563]

NORTH CENTRAL AIRLINES, INC.; SERVICE TO INTERNATIONAL FALLS, MINNESOTA, ON A YEAR-ROUND BASIS

NOTICE OF HEARING

In the matter of the application of North Central Airlines, Inc., for an extension of its certificate of public convenience and necessity so as to permit it to serve International Falls, Minnesota, on segment 3 of route 86 on a year-round basis until September 30, 1955.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, that public hearing in the above-entitled proceeding is assigned to be held on March 26, 1954 at 10:00 a. m., c. s. t., in Rooms 1, 2 and 3, Second Floor, 1022 Nicollet Avenue, Minneapolis, Minnesota, before Examiner Joseph L. Fitzmaurice.

Without limiting the scope of the issues presented by the applications in this proceeding, particular attention will be directed to the following questions:

1. Do the public convenience and necessity require that North Central's amended temporary certificate of public convenience and necessity for route 86 be altered or amended, so as to provide service to International Falls, Minnesota, on segment 3 of said route on a year-round basis?

2. Is North Central fit, willing and able to perform the transportation in question properly, and to conform to the provisions of the Act and the rules, regulations and requirements thereunder?

For further details of the issues involved in this proceeding interested persons are referred to the papers on file in Docket No. 6563 and other documents of record in this proceeding in the Docket Section of the Civil Aeronautics Board.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before March 26, 1954, a statement setting forth the issues of fact or law raised by the application which he desires to controvert.

Dated at Washington, D. C., March 18, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29030]

AGRICULTURAL LIMESTONE FROM VALMEYER, ILL., TO KENTUCKY AND TENNESSEE

APPLICATION FOR RELIEF

MARCH 18, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Agricultural limestone, also ground limestone dust and limestone, ground, carloads.

From: Valmeyer, Ill.

To: Points in Kentucky and Tennessee.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1315, supp. 50.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 14]

GEORGIA

DECLARATION OF DISASTER AREA

Whereas, it has been reported that on or about March 13, 1954 because of the disastrous effects of tornadoes, damage resulted to residences and business property located in certain areas in the State of Georgia; and

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provision of section 207 (b) of the Small Business Act of 1953 may be received and considered by the SBA Regional Office below indicated from persons or firms whose property situated in the following counties (hereinafter referred to as "the disaster areas") suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of: Bibb, Crawford, Taylor—Small Business Administration Regional Office, Peachtree Seventh Building, Room 263, 50 Seventh Street, NE., Atlanta, Georgia.

2. Special field offices will not be established to receive and process such applications.

3. No disaster loan application from any resident or firm situated in the disaster area will be accepted under the authority of this Order subsequent to September 30, 1954.

Dated: March 17, 1954.

WENDELL B. BARNES,
Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3214]

WEST TEXAS UTILITIES CO.

NOTICE OF FILING OF DECLARATION FOR ISSUANCE AND SALE BY SUBSIDIARY OF REGISTERED HOLDING COMPANY OF NEW PREFERRED STOCK SUBJECT TO EXCHANGE OFFER AND REDEMPTION OF OUTSTANDING PREFERRED STOCK

MARCH 17, 1954.

Notice is hereby given that West Texas Utilities Company ("West Texas"), a public-utility subsidiary of Central and South West Corporation, a registered holding company, has filed a declaration pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder. West Texas has designated sections 6 (a), 7 and 12 (c) of the act and Rules U-42 and U-50 as applicable to the proposed transactions, which are summarized as follows:

West Texas at the present time has outstanding 47,370 shares of $6 Cumulative Preferred Stock ("Old Preferred Stock"), without par value, which is redeemable at $110 per share, plus accrued dividends.

West Texas proposes to (a) issue 60,000 shares of __ Percent Cumulative Preferred Stock ("New Preferred Stock"), of the par value of $100 per share, at a price to be determined through competitive bidding; (b) to offer to the holders of the 47,370 shares of Old Preferred Stock the right to exchange their shares of Old Preferred Stock for shares of New Preferred Stock, on a share for share basis, with a cash adjustment for the difference between the initial public offering price of the New Preferred Stock and the redemption price of the Old Preferred Stock, plus accrued dividends; and (c) to sell to underwriters, pursuant to the competitive bidding requirements of Rule U-50, all of the unexchanged shares of New Preferred Stock, together with the additional 12,630 shares of New Preferred Stock proposed to be issued. The exchange offer will be open for a period of from ten to twelve days.

West Texas proposes to redeem all unexchanged shares of Old Preferred Stock at their redemption price of $110 per share, plus accrued dividends to date of redemption, and to retire all shares of Old Preferred Stock acquired pursuant to such redemption or received through the exchange offer, together with 25,643 reacquired shares of said stock now held in the company's treasury.

West Texas will publicly invite, pursuant to Rule U-50, proposals which shall specify (a) the aggregate amount of compensation to be paid by the company to the bidder for its agreement (i) to purchase such number of shares of the New Preferred Stock as shall not be issuable pursuant to acceptances of the exchange offer, (ii) to purchase the 12,630 additional shares of said stock, and (iii) to undertake the formation and management of a group of securities dealers to solicit acceptances of said exchange offer, (b) the dividend rate on the New Preferred Stock, and (c) the price per share to be paid to the company for the unexchanged shares and the additional stock (which shall be not less than $102 nor more than $105 per share) and which will also constitute the initial public offering price. The successful bidder will be required to pay soliciting dealers an amount per share (to be fixed by West Texas and not yet determined) in respect of each share of Old Preferred Stock deposited for exchange. The company will reimburse the successful bidder for the aggregate amount so paid as compensation to soliciting dealers.

In connection with the proposed issue and sale of New Preferred Stock, West Texas will, by appropriate amendment to its charter, authorize the shares of New Preferred Stock to be issued, and establish certain protective provisions for the holders of the New Preferred Stock.

West Texas represents that the proceeds, exclusive of accrued dividends, from the sale of (a) such of the shares of New Preferred Stock as are not to be issued pursuant to said exchange offer and (b) the 12,630 additional shares, will be applied by the company, to the extent required, to the redemption and retirement of the unexchanged shares of Old Preferred Stock and to the payment of the cash adjustment payable to stockholders who accept the exchange offer, and the remainder to pay part of the cost of the company's construction program.

No state commission, or Federal commission other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 30, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after March 30, 1954, such declaration may be permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt

such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-2037; Filed, Mar. 22, 1954; 8:47 a. m.]

[File No. 70-3220]

CITIES SERVICE CO. ET AL.

NOTICE OF FILING REGARDING SALE BY PARENT OF SUBSIDIARY'S COMMON STOCK AT COMPETITIVE BIDDING AND REQUEST FOR RECITALS REQUIRED

MARCH 17, 1954.

In the matter of Cities Service Company, the Gas Service Company, Gas Advisers, Inc., File No. 70-3220.

Notice is hereby given that Cities Service Company ("Cities"), a registered holding company, The Gas Service Company ("Gas Service"), a wholly-owned utility subsidiary of Cities, and Gas Advisers, Inc. ("Gas Advisers"), a mutual service company owned by various subsidiaries in the Cities system which are served by said service company, have filed a joint application-declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act"). Applicants-declarants have designated sections 11 and 12 of the act and Rules U-42, U-43, U-44, and U-50 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Cities has requested withdrawal of its prior application-declaration (File No. 70-3167) which, as amended, proposed the sale of the common stock of Gas Service owned by Cities to Missouri Public Service Company, a non-affiliated company, pursuant to a contract entered into as a result of private negotiation.

Now Cities proposes to sell, pursuant to the competitive bidding requirements of Rule U-50, 1,500,000 shares of $10 par value common stock of Gas Service, being all the capital stock of such company outstanding. One of the terms of the proposed purchase contract, to be entered into by Cities and the successful bidders, is that the latter, as purchasers, agree promptly to make a public offering of the Gas Service common stock.

The proposed sale by Cities of its interest in Gas Service is stated to be in compliance with the Commission's order of May 5, 1944, as modified and clarified by Supplemental Order dated October 12, 1944, pursuant to section 11 (b) (1) of the act, directing, among other things, that Cities dispose of its interest in Gas Service.

Gas Service presently owns 270 shares of the capital stock, par value $100 per share, of Gas Advisers. Subject to, and on the consummation of, Cities' proposed sale of its interest in Gas Service, the latter proposes to sell, and Gas Advisers proposes to purchase for retirement, said 270 shares for a consideration of $27,000; and concurrently therewith the service contract dated January 1, 1938, between Gas Service and Gas Advisers will be terminated.

The application-declaration states that Cities will use the proceeds from the sale of its holdings of common stock of Gas Service to purchase additional common stock of its wholly-owned subsidiary, Empire Gas and Fuel Company.

It is stated that no State or Federal Commission, other than this Commission, has jurisdiction over the proposed transactions.

It is requested that the Commission's order herein make the necessary findings and contain the recitals required by Supplement R and section 1808 (f) of the Internal Revenue Code, as amended, with respect to certain of the proposed transactions, and that the order become effective upon its issuance.

Notice is further given that any interested person may, not later than April 5, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 5, 1954, said application-declaration, as filed or as amended may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

Reference Room

FEDERAL REGISTER

VOLUME 19 NUMBER 57

Washington, Wednesday, March 24, 1954

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture.

Subchapter B—Loans, Purchases, and Other Operations

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Barley]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954 CROP BARLEY LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1954 crop of barley. The 1954 C. C. C. Grain Price Support Bulletin 1 (19 F. R. 967), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1954 is supplemented as follows:

Sec.
421.451 Purpose.
421.452 Availability of price support.
421.453 Eligible barley.
421.454 Warehouse receipts.
421.455 Determination of quantity.
421.456 Determination of quality.
421.457 Maturity of loans.
421.458 Support rates.
421.459 Warehouse charges.
421.460 Settlement.

AUTHORITY: §§ 421.451 to 421.460 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053; 15 U. S. C. Sup. 714, 7 U. S. C. Sup. 1447, 1421.

§ 421.451 *Purpose.* This subpart states additional specific regulations which, together with the general regulations contained in the 1954 C. C. C. Grain Price Support Bulletin 1 (§§ 421.401 to 421.421), apply to loans and purchase agreements under the 1954 Crop Barley Price Support Program.

§ 421.452 *Availability of price support*—(a) *Method of support.* Price support will be available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever barley is grown in the continental United States, except that farm-storage loans will not be available in areas where the ASC State committee determines that barley cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the ASC county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1955, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing barley in 1954, as landowner, landlord, tenant, or sharecropper.

§ 421.453 *Eligible barley.* At the time the barley is placed under loan or delivered under a purchase agreement, it must meet the following requirements:

(a) The barley must have been produced in the continental United States in 1954 by an eligible producer.

(b) The beneficial interest in the barley must be in the person tendering the barley for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the barley was harvested.

(c) The barley must be of any class grading No. 5 or better (or No. 5 Garlicky or better) except that Class III Western Barley, shall not have a test weight of less than 40 pounds per bushel.

(d) Barley grading Tough, Weevily, Stained, Blighted, Bleached, Ergoty or Smutty shall not be eligible, except that barley represented by warehouse receipts grading "Tough" will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt that barley grading Tough has been processed at the request of the eligible producer, and delivery will be made of eligible barley not grading Tough, and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of said warehouse receipt.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CFR SUPPLEMENTS

(For use during 1954)

The following Supplements are now available:

(e) If offered as security for a farm-storage loan, the barley must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the ASC State committee.

§ 421.454 *Warehouse receipts.* Warehouse receipts representing barley in approved warehouse-storage to be placed under a loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the barley is insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) (1) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt must show: (i) Gross weight or bushels, (ii) class, (iii) grade (including special grades), (iv) test weight, (v) dockage, and (vi) any other grading factor(s) when such factor(s) and net test weight determine the grade. The warehouse receipt or the supplemental certificate must show whether the barley arrived by rail, truck or barge. In the case of warehouse receipts issued for barley delivered by rail or barge, the grading factors on the warehouse receipts must agree with the inbound inspection certificate for the car or barge when such certificate is issued.

(2) If the warehouseman has processed the barley as provided in § 421.453 (d), the supplemental certificate must show the numerical grade and the grading factors changed because of the barley being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

(c) A separate warehouse receipt must be submitted for each grade and class of barley.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.459.

(e) Warehouse receipts representing barley which has been shipped by rail or water from a country shipping point to a designated terminal point or shipped by rail or water from a country shipping point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the ASC commodity office which shall be signed by the warehouseman and which may be a part of the supplemental certificate.

§ 421.455 *Determination of quantity.* (a) The quantity of barley placed under farm-storage loan may be determined either by weight or by measurement. The quantity of barley placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 48 pounds, of clean barley free of dockage. In determining the quantity of sacked barley by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of barley is determined by measurement, a bushel shall be 1.25 cubic feet of barley testing 48 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 48-pound barley:

For barley testing:	Percent
48 pounds or over	100
47 pounds or over, but less than 48 pounds	98
46 pounds or over, but less than 47 pounds	96
45 pounds or over, but less than 46 pounds	94
44 pounds or over, but less than 45 pounds	92
43 pounds or over, but less than 44 pounds	90
42 pounds or over, but less than 43 pounds	88
41 pounds or over, but less than 42 pounds	85
40 pounds or over, but less than 41 pounds	83
39 pounds or over, but less than 40 pounds	81
38 pounds or over, but less than 39 pounds	79
37 pounds or over, but less than 38 pounds	77
36 pounds or over, but less than 37 pounds	75
35 pounds or over, but less than 36 pounds	73

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the barley in determining the net quantity available for loan or purchase.

§ 421.456 *Determination of quality.* The grade, class, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Barley, whether or not such determinations are made on the basis of an official inspection.

§ 421.457 *Maturity of loans.* Loans mature on demand but not later than April 30, 1955.

§ 421.458 *Support rates.* Basic support rates for barley placed under loan and for barley delivered under purchase agreement are set forth in this section.

(a) *Basic support rates at designated terminal markets.* (1) Basic support rates per bushel for barley of the Classes I, II, and III grading No. 2 or better, and stored in approved warehouses at the terminal markets listed below are as follows:

Terminal markets:	Rate per bushel
Albany, N. Y.	$1.46
Astoria, Oreg.	1.43
Baltimore, Md.	1.46
Chicago, Ill.	1.39
Duluth, Minn.	1.34
Galveston, Tex.	1.41
Houston, Tex.	1.41
Kansas City, Mo.	1.33
Longview, Wash.	1.43
Los Angeles, Calif.	1.40
Memphis, Tenn.	1.39
Milwaukee, Wis.	1.39
Minneapolis, Minn.	1.34
New Orleans, La.	1.41
New York, N. Y.	1.46
Norfolk, Va.	1.46
Oakland, Calif.	1.40
Omaha, Nebr.	1.33
Philadelphia, Pa.	1.46
Portland, Oreg.	1.43
Saint Joseph, Mo.	1.33
Saint Louis, Mo.	1.39
San Francisco, Calif.	1.40
Seattle, Wash.	1.43
Sioux City, Iowa	1.33
Superior, Wis.	1.34
Tacoma, Wash.	1.43
Vancouver, Wash.	1.43

(2) Barley eligible for loan or purchase at the support rates shown in the above schedule must have been shipped on a domestic interstate freight rate basis. On any barley shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(3) The support rates established for designated terminal markets apply to barley which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(4) When shipped by rail or water and stored at any designated terminal market, barley for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 7 cents per bushel.

(5) When received by truck and stored at any designated terminal market, the support rate shall be the terminal rate minus 10½ cents per bushel.

(b) *Support rates for barley in approved warehouse-storage at other than designated terminal markets.* (1) The support rate for barley stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate on amount equal to the transit balance, if any (plus tax) of the through freight rate from point of origin for such barley to such terminal market: *Provided*, That on any barley shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such barley to the point of storage: *And provided further*, That in the case of barley stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing barley in such position.

(2) The warehouse receipts must be accompanied by the original paid freight bills or certificates of the warehouseman and other required documents as set forth in § 421.454.

(c) *Basic county support rates.* (1) The following basic county support rates per bushel are established for barley of the Classes I, II, and III grading No. 2 or better. Both farm-storage and country warehouse-storage loans will be based on the support rate established for the county in which the barley is stored: If two or more approved warehouses are located at the same or adjoining towns, villages, or cities having the same domestic interstate freight rate, such towns, villages, or cities shall be deemed to constitute one shipping point, and the same support rate shall apply even though such warehouses are not all located in the same county. Such support rate shall be the highest support rate of the counties involved.

(2) Where the State Committee determines that State or district weed control laws affect the barley crop, the support rate will be 10 cents below the applicable county support rate set forth in the schedule in this paragraph. If upon delivery of the barley to CCC the producer supplies a certificate indicating that the barley complies with the weed control laws, the producer will be credited with the amount of the differential in determining the settlement value.

(d) *Discounts.* The discount for barley which grades No. 3 shall be 3 cents per bushel; for No. 4, 6 cents per bushel and for No. 5, 10 cents per bushel. An additional discount of 10 cents per bushel shall be applied to barley grading "Garlicky." The support rates for "mixed barley" (Class IV) shall be 2 cents per bushel less than the support rates for barley of the Class I, II and III.

§ 421.459 *Warehouse charges.* (a) Warehouse receipts and the barley represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the grain is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing barley stored in warehouses operating under the Uniform Grain Storage Agreement is on or before April 30, 1955 there shall be deducted in computing the amount of the loan or purchase price the storage charges as determined in accordance with the table of deductions for warehouse charges to be issued at a later date unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through the maturity date.

(b) Warehouse receipts and the barley represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan or the purchase price the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit to the program maturity date unless written evidence has been submitted with the warehouse receipt that the storage charge has been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges.

§ 421.460 *Settlement.*—(a) *Settlement value.* (1) In the case of eligible barley delivered to CCC from farm storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with § 421.418 (e). The support rate shall be for the grade and quality of the total quantity of barley eligible for delivery. If, upon delivery, the barley under farm-storage loan is of a grade and/or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and/or quality of the barley placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the barley delivered, as determined by CCC: *Provided, however,* That if such barley is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price.

(2) In the case of eligible barley delivered to CCC under purchase agreement, settlement shall be made at the applicable support rate determined in accordance with § 421.418 (e).

(b) *Storage deduction for early delivery.* Whenever farm-stored barley under loan or purchase agreement is delivered to CCC prior to April 30, 1955, a deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges (§ 421.459), except that no such deduction shall be made if such early delivery is made because the loan is called solely for the convenience of CCC, or if it is determined by CCC at the time of delivery that the barley will be sold rather than stored, or if CCC requires early delivery on an area basis.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on barley under loan or purchase agreement (or charges for elevation in the case of warehouses operated by Eastern common carriers), the producer shall, upon de-

livery of the barley to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement (or approved tariff in the case of warehouses operated by Eastern common carriers), provided the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Track-loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on barley delivered to CCC on track at a country point.

Issued this 19th day of March, 1954.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President,
Commodity Credit Corporation.

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Flaxseed]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP FLAXSEED LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1954 crop of flaxseed. The 1954 C. C. C. Grain Price Support Bulletin 1 (19 F. R. 967), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1954 is supplemented as follows:

Sec.
421.651 Purpose.
421.652 Availability of price support.
421.653 Eligible flaxseed.
421.654 Warehouse receipts.
421.655 Determination of quantity.
421.656 Determination of quality.
421.657 Maturity of loans.
421.658 Support rates.
421.659 Warehouse charges.
421.660 Settlement.

AUTHORITY: §§ 421.651 to 421.660 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1054; 15 U. S. C. Sup. 714c, 7 U. S. C. Sup. 1447, 1421.

§ 421.651 *Purpose.* This subpart states additional specific regulations which, together with the general regulations contained in the 1954 C. C. C. Grain Price Support Bulletin 1 (§§ 421.411 to 421.421; 19 F. R. 967), apply to loans and purchase agreements under the 1954-Crop Flaxseed Price Support Program.

§ 421.652 *Availability of price support—(a) Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever flaxseed is grown in the continental United States, except in Texas counties designated under the 1954-Texas Flaxseed Purchase Program (§§ 421.676 to 421.689; 19 F. R. 1105). Farm-storage loans will not be available in areas where the State committee determines that flaxseed cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through November 1, 1954, in Arizona and California, and from the time of harvest through January 31, 1955, in all other States; the applicable documents must be signed by the producer and delivered to the county committee not later than such final dates.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation or other legal entity producing flaxseed in 1954 as landowner, landlord, tenant, or sharecropper.

§ 421.653 *Eligible flaxseed.* At the time the flaxseed is placed under loan or delivered under a purchase agreement, it must meet the following requirements:

(a) The flaxseed must have been produced in the continental United States (excluding the Texas counties designated under the 1954-Texas Flaxseed Purchase Program) in 1954 by an eligible producer.

(b) The beneficial interest in the flaxseed must be in the producer tendering the flaxseed for loan or for delivery under a purchase agreement, and must always have been in him or must have been in him and a former producer whom he succeeded before the flaxseed was harvested.

(c) The flaxseed must grade No. 1 or No. 2.

(d) If offered as security for a farm-storage loan, the flaxseed must have been stored in the bin or granary at least 30 days prior to its inspection, measurement, sampling, and sealing unless otherwise approved by the State committee.

§ 421.654 *Warehouse receipts.* Warehouse receipts, representing flaxseed in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the requirements below:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the flaxseed is insured, or must be issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) grade, (3) test weight, (4) dockage, and (5) percentage of damage when such factor, and not test weight, determines the grade. The warehouse receipt or the warehouseman's supplemental certificate must show whether the flaxseed arrived by rail, truck or barge. In the case of flaxseed delivered by rail or barge, the grading factors on the warehouse receipt or warehouseman's supplemental certificate must agree with the inbound inspection certificate for the car or barge if such certificate is issued.

(c) A separate warehouse receipt must be submitted for each grade of flaxseed.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.659.

(e) Warehouse receipts representing flaxseed which has been shipped by rail or water from a country shipping point to a designated terminal point, or shipped by rail or water from a country shipping point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be part of the supplemental certificate.

§ 421.655 *Determination of quantity.* (a) The quantity of flaxseed placed under farm-storage loan may be determined either by weight or by measurement. The quantity of flaxseed placed under warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 56 pounds of flaxseed free of dockage. In determining the quantity of sacked flaxseed by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of flaxseed is determined by measurement, a bushel shall be 1.25 cubic feet of flaxseed testing 56 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 56-pound flaxseed:

For flaxseed testing:	Percentage
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	94
52 pounds or over, but less than 53 pounds	92
51 pounds or over, but less than 52 pounds	90
50 pounds or over, but less than 51 pounds	88
49 pounds or over, but less than 50 pounds	86
48 pounds or over, but less than 49 pounds	83
47 pounds or over, but less than 48 pounds	81

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the flaxseed in determining the net quantity available for loan or purchase.

§ 421.656 *Determination of quality.* The grade, grading factors, and all other quality factors shall be determined in accordance with the method set forth in the Official Grain Standards of the United States for Flaxseed, whether or not such determinations are made on the basis of an official inspection.

§ 421.657 *Maturity of loans.* Loans mature on demand but not later than January 31, 1955, in Arizona and California, and not later than April 30, 1955, in all other States.

§ 421.658 *Support rates.* Basic support rates for flaxseed placed under loan or delivered under a purchase agreement will be set forth in this section.

(a) *Basic support rates at designated terminal markets.* (1) Basic support rates per bushel for No. 1 flaxseed stored in approved warehouses at terminal markets listed below are as follows:

Terminal market:	Rate per bushel for No. 1
Los Angeles, Calif.	$3.66
San Francisco, Calif.	3.60
Chicago, Ill.	3.41
Duluth, Minn., and St. Paul, Minn.	3.41
Superior, Wis.	3.41
Fredonia, Kans.	3.16
Corpus Christi and Houston, Tex.	3.16

(2) Flaxseed eligible for loan or purchase at the support rates shown in the above schedule must have been shipped on a domestic interstate freight rate basis. On any flaxseed shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the amount that the rate of the freight paid (plus tax) is lower than the domestic interstate freight rate (plus tax).

(3) The support rates established for the designated terminal markets apply to flaxseed which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(4) When shipped by rail or water and stored at any designated terminal market, flaxseed for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 8 cents per bushel.

(5) For flaxseed received by truck and stored at any designated terminal market, the support rate shall be the terminal rate minus 12½ cents per bushel.

(b) *Support rates for flaxseed in approved warehouse-storage at other than designated terminal markets.* (1) The support rate for flaxseed stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax), of the through-freight rate from point of origin for such flaxseed to such terminal market: *Provided*, That on any flaxseed shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the amount that the rate of the freight paid (plus tax) is lower than the domestic interstate freight rate (plus tax) from the point of origin of such flaxseed to the point of storage: *And provided further*, That in the case of flaxseed stored at any railroad transit point taking a penalty by reason of out-of-line movement to the appropriate designated market, or for any other reason, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing flaxseed in such position.

(2) The warehouse receipts must be accompanied by the original paid freight bills or certificates of the warehouseman and other required documents as set forth in § 421.654.

(c) *County support rates.* (1) The basic county support rates for No. 1 flaxseed are as follows: (Farm-storage loans and country warehouse-storage loans, except as otherwise provided in paragraph (b) of this section, will be based on the support rate established for the county in which the flaxseed is stored. If two or more approved warehouses are located in the same or adjoining towns, villages, or cities having the same interstate freight rate, such towns, villages, or cities shall be deemed to constitute one shipping point and the same support rate shall apply even though such warehouses are not all located in the same county. Such support rate shall be the highest support rate of the counties involved.)

(2) Where the State committee determines that State or district weed control laws affect the flaxseed crop, the support rate will be 15 cents below the applicable county support rate set forth in the schedule under subparagraph (1) of this paragraph. If upon delivery of the flaxseed to CCC, the producer supplies a certificate indicating that the flaxseed complies with the weed control laws, the producer will be credited with the amount of the differential in determining the settlement value.

(d) *Discount.* The support rate for No. 2 flaxseed shall be 6 cents per bushel less than the support rate for No. 1 flaxseed.

§ 421.659 *Warehouse charges.* (a) Warehouse receipts and the flaxseed represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the flaxseed is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing flaxseed stored in warehouses operating under the Uniform Grain Storage Agreement is on or before January 31, 1955, in Arizona and California or, on or before April 30, 1955, in all other States, there shall be deducted in computing the amount of the loan or purchase price the storage charges as determined by the President, CCC (to be published as an amendment to this subpart at a later date), unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through the applicable maturity date for the State.

(b) Warehouse receipts and the flaxseed represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan rate or in computing the purchase price the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through the program maturity date, unless written evidence has been submitted with the warehouse receipt that the storage charge has been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges.

§ 421.660 *Settlement*—(a) *Settlement value.* (1) In the case of eligible flaxseed delivered to CCC from farm storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with § 421.418 (e). The support rate shall be for the grade and quality of the total quantity of flaxseed eligible for delivery.

(2) If, upon delivery, the flaxseed under farm-storage loan is of a grade and/or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and/or quality placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the flaxseed delivered, as determined by CCC: *Provided, however,* That if such flaxseed is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price.

(3) In the case of eligible flaxseed delivered to CCC under purchase agreement, settlement shall be made at the applicable support rate determined in accordance with § 421.418 (e).

(b) *Storage deduction for early delivery.* Whenever farm-stored flaxseed under loan or purchase agreement is delivered to CCC prior to January 31, 1955, in Arizona and California, or prior to April 30, 1955, in all other States, a deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges (§421.659), except that no such deductions shall be made if such early delivery is made because the loan is called solely for the convenience of CCC, or if it is determined by CCC at the time of delivery that the flaxseed will be sold rather than stored, or if CCC requires early delivery on an area basis.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on flaxseed under loan or purchase agreement (or charges for elevation in the case of warehouses operated by Eastern common carriers), the producer shall, upon delivery of the flaxseed to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, (or approved tariff in the case of warehouses operated by Eastern common carriers) provided, the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Track-loading payment.* A track-loading payment of 3 cents per bushel will be made to the producer on flaxseed delivered to CCC on track at a country point.

Issued this 19th day of March 1954.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President,
Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[1061 (53)-1, Supp. 5]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1953

TIME AND MANNER OF FILING APPLICATION AND INFORMATION REQUIRED

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1953 National Agricultural Conservation Program, issued July 28, 1952 (17 F. R. 6995), as amended July 28, 1952 (17 F. R. 7110), October 30, 1952 (17 F. R. 9921), July 24, 1953 (18 F. R. 4419), and July 30, 1953 (18 F. R. 4592), is further amended as follows:

Section 1101.493 (b) is amended by deleting from the first sentence the wording "February 15, 1954, in New Hampshire;" and inserting after the semicolon following the word "Maine" the wording "April 15, 1954, in New Hampshire;".

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7-17, 49 Stat. 1148, as amended; 16 U. S. C. 590g-590q)

Done at Washington, D. C., this 19th day of March 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[ACP-1954-P. R. Supp. 2]

PART 1102—AGRICULTURAL CONSERVATION; PUERTO RICO

SUBPART—1954

RESPONSIBILITY FOR TECHNICAL PHASES

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1954, the 1954 Agricultural Conservation Program; Puerto Rico, issued December 17, 1953 (18 F. R. 8627), as amended January 29, 1954 (19 F. R. 643), is further amended as follows:

Section 1102.407 is amended by revising the first sentence of paragraph (a) to read as follows:

§ 1102.407 *Responsibility for technical phases.* (a) The Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 1102.411 to 1102.418 and 1102.420. • • •

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7-17, 49 Stat. 1148, as amended, Pub. Law 156, 83d Cong.; 16 U. S. C. 590g-590q)

Done at Washington, D. C., this 19th day of March 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[ACP-1954-Alaska, Supp. 2]

PART 1104—AGRICULTURAL CONSERVATION; ALASKA

SUBPART—1954

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1954, the 1954 Agricultural Conservation Program; Alaska, issued December 11, 1953 (18 F. R. 8260), as amended January 29, 1954 (19 F. R. 643), is further amended as follows:

1. Section 1104.315 is amended by revising the paragraph entitled "Maximum Federal cost-share" to read as follows:

§ 1104.315 *Practice 5: Clearing land to permit land-use adjustments needed in establishing soil conserving cropping systems.* • • •

Maximum Federal cost-share. 50 percent of the cost of clearing and breaking, but not in excess of $40 per acre.

2. Section 1104.332 is amended to read as follows:

§ 1104.332 *Cost to farmer.* The farmer shall pay that part of the cost of the service, as established under instructions issued by the Administrator, which is in excess of the Federal cost-share for the practice in connection with which the service is furnished.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7-17, 49 Stat. 1148, as amended, Pub. Law 156, 83d Cong.; 16 U. S. C. 590g-590q)

Done at Washington, D. C., this 19th day of March 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-2059; Filed, Mar. 23, 1954; 8:47 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 577—MEDICAL AND DENTAL ATTENDANCE

MISCELLANEOUS AMENDMENTS

1. In § 577.15 (c), subparagraphs (18) and (20) are amended as follows:

§ 577.15 *Persons eligible to receive medical care at Army medical treatment facilities.* • • •

(c) *Eligible personnel.* • • •

(18) Female personnel of the Armed Forces discharged from or relieved from extended active duty under honorable conditions because of pregnancy, or who,

although separated under honorable conditions for reasons other than pregnancy, are shown by the record of terminal physical examination to have been pregnant at the time of separation.

* * * * *

(20) Nationals of foreign governments within the continental United States to include foreign military personnel in the attaché system carried on the current "Diplomatic List" (Blue) and those carried and designated as military personnel on the "List of Employees of Diplomatic Missions Not Printed in the Diplomatic List" (White) published by the State Department; foreign military personnel assigned or attached to United States military installations or units for duty or training; foreign military personnel on foreign government military or supply missions accredited to and recognized by one of the military departments; foreign military personnel on duty in the United States at the invitation of the Secretary of Defense or one of the military departments; foreign military personnel accredited to joint United States defense boards or commissions, or assigned to full-time duty with the North Atlantic Treaty Organization when stationed in the United States; Mutual Defense Assistance Program (MDAP) trainees (military or civilian) assigned or attached to United States military installations or units within the continental United States for training; dependents of personnel listed above when they are residing with their principals, except dependents of MDAP trainees (civilian); other foreign personnel under exceptional circumstances; and foreign personnel covered in agreements entered into by the Secretary of Defense or one of the military departments. The following procedures will govern the furnishing of medical care to nationals of foreign governments (hereafter referred to as foreign personnel):

(i) Inpatient care will be limited to cases which, in the judgment of the commanding officer of the medical treatment facility concerned, will be benefited by hospitalization for a reasonable time. Those patients requiring merely domiciliary care or suffering from chronic conditions (e. g., tuberculosis, mental diseases, degenerative neurological diseases) will be admitted only in case of extreme necessity, where such admission will save life or prevent undue suffering.

(ii) When foreign personnel have been admitted to an Army medical treatment facility in the continental United States, and it develops that hospitalization must be prolonged beyond a reasonable length of time (in any event when in excess of 90 days), a written report giving full identification, diagnosis, prognosis, and probable date the patient can be released will be submitted to The Surgeon General, Department of the Army.

(iii) MDAP trainees who have been selected by their country for training in the United States are presumed to be in good physical condition and free from communicable diseases as a prerequisite to selection. If upon arrival in the United States, it is discovered that the trainee cannot qualify for training by reason of physical and/or mental disability, and will require more than nominal medical treatment before entering training, the trainee will be returned to his country immediately or as soon thereafter as his condition permits travel. When the trainee is disabled after starting his training and, in the opinion of the commanding officer of the medical treatment facility concerned in consultation with the commanding officer of the training facility concerned, such disability will prevent continuation of the training for the period in excess of 90 days, the trainee will be returned to his home country as soon as his condition permits travel.

(iv) The transfer of foreign personnel between oversea commands and the continental United States solely for the purpose of providing medical care in Army medical treatment facilities is not authorized, except under unusual circumstances as determined by the Secretary of the Army.

2. Sections 577.19 and 577.20 are revoked, as follows:

§ 577.19 *Civilian hospital employees.* [Revoked.]

§ 577.20 *Hospital laundry service.* [Revoked.]

[AR 40-610, Feb. 4, 1954 and CS, AR 40-506, Mar. 5, 1954] (R. S. 161, 5 U. S. C. 22)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 54-2054; Filed, Mar. 23, 1954; 8:46 a. m.]

PART 580—WOMEN'S ARMY CORPS

MATERNITY CARE

In § 580.14, paragraph (a) is amended as follows:

§ 580.14 *Maternity care.* (a) A woman separated from the Army under honorable conditions because of pregnancy, or who, although separated under honorable conditions for other reasons, is shown by the record of her terminal physical examination to have been pregnant at the time of separation, is eligible for maternity care as provided by § 577.15 of this subchapter.

[C1, AR 625-5, Mar. 10, 1954] (Sec. 101, 62 Stat. 356; 10 U. S. C. 316)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 54-2055; Filed, Mar. 23, 1954; 8:46 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

[CGFR 54-10]

PART 135—LIGHTS FOR COAST GUARD VESSELS OF SPECIAL CONSTRUCTION

EXEMPTIONS OF STATUTORY REQUIREMENTS FOR COAST GUARD PATROL BOATS

Certain Coast Guard vessels of special construction cannot comply with certain applicable statutory requirements relating to the lights required to be displayed by public and private vessels when navigating on the high seas or navigable waters of the United States, its territories or possessions, without seriously affecting the military characteristics and functions of the vessels concerned.

It is hereby found that the Coast Guard vessels of special construction listed in 33 CFR 135.30 (e) below, cannot comply with the requirement in Rule 3 (a) (iii), International Rules, regarding the height of the forward masthead light, until new masts are installed or suitable alterations are effected to raise the height of the forward masthead light from 17 feet to 20 feet above the hull, and such vessels are, therefore, exempted from this requirement until this alteration can be accomplished or before December 31, 1954. It is hereby found and certified that the requirements in 33 CFR 135.30 (e), regarding the height of the forward masthead light which will be carried by the Coast Guard vessels described, conform as closely as feasible to the applicable statutory requirement.

Except as otherwise provided, the Coast Guard vessels described in this document are in full compliance with the other provisions of the applicable International Rules or Inland Rules governing the areas where the vessels are being operated.

This is the third document describing exemptions of statutory requirements for Coast Guard vessels. The other documents (CGFR 53-50 and 53-61), dated November 25 and December 23, 1953, were published in the FEDERAL REGISTER dated December 1 and 31, 1953 (18 F. R. 7641, 7642, 8897, 8898).

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 167-6, dated November 17, 1953 (18 F. R. 7571), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendment is prescribed:

Section 135.30 is amended by adding a new paragraph (e), reading as follows:

§ 135.30 *International Rules; height of forward masthead light.* * * *

(e) The following patrol boats, class WPB, 83 feet long, have a breadth of 16 feet 7 inches and shall carry the forward masthead light at a height of 17 feet above the hull until properly arranged on or before December 31, 1954:

CG-83300	CG-83392	CG-83482

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 4—OPERATION AND NAVIGATION OF PANAMA CANAL AND ADJACENT WATERS

EXEMPTIONS FROM COMPULSORY PILOTAGE

Pursuant to the authority vested in the Governor by §§ 4.11 and 4.22 of Title 35 of the Code of Federal Regulations, § 4.23 is hereby amended to read as follows:

§ 4.23 *Exemptions from compulsory pilotage.* The following vessels are exempt from compulsory pilotage, except when the Port Captain considers a pilot necessary: *Provided, however,* That a pilot will nevertheless be furnished any such exempted vessel if requested by the commander or master thereof:

(a) Vessels of the Fifteenth Naval District, except as limited by paragraph (e) of this section.

(b) Local craft, such as United States Army and United States Navy minesweepers and tugs, and Panama Canal Company tugs and equipment, except as limited by paragraph (e) of this section.

(c) Small craft under 65 feet in length and drawing not over six feet of water that call at terminal ports without transiting the Canal.

(d) Any vessel that makes frequent calls to Canal Zone waters and whose current officers and crew are, in the opinion of the respective Port Captain, capable, by reason of such frequent calls, of safely navigating within Canal Zone waters, except as limited by paragraph (e) of this section.

(e) Vessels and craft enumerated in paragraphs (a), (b), (c) and (d) of this section may be permitted to transit the Canal without a pilot when, in the opinion of the respective Port Captain, the current officers and crew have the necessary experience and ability to make safe transit. Whenever any such vessel or craft makes transit without a pilot the respective Port Captain shall dispatch it with a larger vessel carrying a pilot, and it shall lock through with that vessel. The respective lock superintendents shall determine whether locomotives shall be used. The Port Captain, Balboa, shall control the movement of such vessel or craft through Gaillard Cut so as to minimize the danger of its being a navigational hazard to larger vessels.

(f) Any other vessel or craft as and to the extent exempted by the Marine Director.

(Sec. 5, 37 Stat. 562, as amended; 2 CZ Code 9, 48 U. S. C. 1318. E. O. 9746, 11 F. R. 7329, 3 CFR, 1946 Supp.)

[SEAL] J. S. SEYBOLD,
Governor.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 945]

ALASKA

REVOKING EXECUTIVE ORDER NO. 5214 OF OCTOBER 30, 1929

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 5214 of October 30, 1929, withdrawing certain areas of land and water in Alaska for use of the United States Navy Department for naval purposes, which was partially revoked by Executive Order No. 8736 of April 14, 1941 and by Public Land Order No. 903 of July 3, 1953, is also revoked so far as it affects the following-described lands:

A. THE COLD BAY-DOLGOI ISLAND AREA

All that area lying between latitude 54°49' North and 55°20' North, longitude 161°38' West and 162°44' West; less a tract of approximately 18 acres included in the revocation made by Executive Order No. 8736 of April 14, 1941.

The area described contains approximately 485,858 acres of land and 517,710 acres of water.

B. THE WIDE BAY AREA

All that area lying between latitude 57°15' North and 57°26' North and longitude 156° 01' West and 156°35' West.

The area described contains 61,162 acres of land and 116,531.20 acres of water.

A substantial portion of the Cold Bay-Dolgoi Island area is included in the withdrawal for military purposes made by Public Land Order No. 103 of March 27, 1943.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the signing of the order, at which time the lands shall, subject to valid existing rights and to the provisions of existing withdrawals, be opened to settlement under the homestead laws and the homesite act of May 26, 1934 (48 Stat. 809; 48 U. S. C. 461), and to those forms of appropriation only by qualified veterans of World War II for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended, and by other qualified persons entitled to credit for service under the said act. Commencing at 10:00 a. m. on the 126th day after the date of this order, any of such land not settled upon by veterans or other persons entitled to credit for service shall become subject to settlement and other forms of appropriation by the public generally in accordance with appropriate laws and regulations.

Applications for the lands, which shall be filed in the Land Office, Bureau of Land Management, Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the homesite or homestead laws shall be governed by the regulations contained in Parts 64 and 66, inclusive, of Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

[SEAL] ORME LEWIS,
Assistant Secretary of the Interior.

MARCH 18, 1954.

[F. R. Doc. 54-2049; Filed, Mar. 23, 1954; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10783]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606 *Table of assignments,* rules governing television broadcast stations; Docket No. 10783.

1. The Commission issued a notice of proposed rule making (FCC 53-1566), published in the FEDERAL REGISTER on December 3, 1953 (18 F. R. 7801), and on January 29, 1954, the Commission issued a notice of further proposed rule making (FCC 54-118), published in the FEDERAL REGISTER on February 4, 1954 (19 F. R. 654), concerning proposed changes in the television Table of Assignments for Lexington, Rock Island, Sneedville, and Jackson, Tennessee, Tupelo, Mississippi and Munford, Alabama.

2. The time for filing comments in this proceeding expired on February 26, 1954. Comments and counterproposals were filed by the Alabama Educational Television Commission, Mr. Frank Kyle Spain, Mr. Birney Imes, Jr., and the Tennessee Educational Television Commission. In the Commission's notice of further proposed rule making Dixie Broadcasting Company, permittee of Station WDXI-TV, Jackson, Tennessee, was ordered to show cause why its authorization should not be modified so as to specify operation on Channel 11 in lieu of Channel 9. A reply to this order was filed by the Dixie Broadcasting Company.

3. In his petition, Mr. Frank Kyle Spain urged that the following changes in the Table of Assignments be made:

City	Channel No.	
	Present	Proposed
Tupelo, Miss.	38	9—, 38
Jackson, Tenn.	9—, 16+	11, 16+

In support of the proposal petitioner urged that the proposed amendments conform to the Commission's rules and standards; that they constitute a more efficient utilization of the available channels; and that in view of the fact that Station WDXI–TV authorized for operation on Channel 9 at Jackson, Tennessee has not yet been constructed and will not commence operation before June, 1954, the change from Channel 9 to 11 in Jackson would not inconvenience the permittee of WDXI–TV.

4. The Alabama Educational Television Commission had proposed the following changes:

City	Channel No.	
	Present	Proposed
Munford, Ala.	None	*7
University, Ala.	*7	None

In support of the proposal petitioner urged that the proposed amendments conform to the Commission's rules and standards; that it would permit the utilization of Mt. Cheaha, the highest point in the State of Alabama for the educational station thereby providing the greatest possible coverage to the most populated areas of the state; and that an application will be filed for the use of the channel in the event the amendment as proposed is adopted.

5. The Tennessee Educational Television Commission had proposed the following changes in the table:

City	Channel No.	
	Present	Proposed
Lexington, Tenn.	None	*11
Rock Island, Tenn.	None	*7
Sneedville, Tenn.	None	*2+

In support of the requested amendment, petitioner urged that there are presently assigned 4 television channels in the State of Tennessee which are reserved for educational use; that these assignments would not provide for complete coverage of the state; that the addition of the three assignments as requested would provide almost complete coverage of the state; and that these assignments conform to all the requirements of the Commission's rules and may be made without any other changes in the table.

6. The proposal of Frank Kyle Spain conflicted with that of the Tennessee Educational Television Commission in that Channel 11 could not be assigned both to Lexington, Tennessee and Jackson, Tennessee under our assignment spacing requirement rules. Similarly, the proposal of the Alabama Educational Television Commission conflicted with that of the Tennessee Commission in that Channel 7 could not be assigned both to Rock Island, Tenn., and Munford, Alabama. The Tennessee Commission filed comments in which it modified its request so as to delete the request for the assignment of Channel 7 to Rock Island, Tennessee and offered a counterproposal which is aimed at removing the conflicts with the other two proposals as follows:

City	Channel No.	
	Present	Proposed
Munford, Ala.	None	*7
University, Ala.	*7	None
Tupelo, Miss.	38	9—, 38
Cookeville, Tenn.	24	24, *69
Crossville, Tenn.	None	*77
Jackson, Tenn.	9—, 16+	7+, 16+
Lexington, Tenn.	None	*11
Sneedville, Tenn.	None	*2

This proposal would also require a change in the offset requirement only of the assignment of Channel 9 to Hattiesburg, Mississippi, from Channel 9— to Channel 9, and of the assignment of Channel 11 to Meridian, Mississippi, from Channel 11 to Channel 11—. The Tennessee Commission urged that this counterproposal would remove the conflicts with the other two proposals; would be technically feasible; and would make possible almost complete coverage of the State of Tennessee with educational programs. The assignments for Cookeville and Crossville were proposed in order to replace Channel 7 previously proposed for Rock Island. The Alabama Commission filed comments in support of its proposal and stated that the modification of the Tennessee Commission proposal insofar as it deleted the request for Channel 7 at Rock Island, removed the conflict between the two. Petitioner further urged that Channel 74 be made available to University and be reserved for noncommercial educational use as a replacement for Channel 7.

7. Frank Kyle Spain urged that both his proposal and that of the Alabama Commission could be granted and that two assignments could be made available to the Tennessee Commission in the event Channel 7 were assigned to another community instead of Rock Island.

8. In response to the Show Cause Order, The Dixie Broadcasting Company objected to the use of Channel 11 at Jackson on the grounds that second harmonic interference could be expected from the operation of FM Station WTJS–FM operating on 100.7 Mc. at Jackson. Dixie Broadcasting Company, however, consented to the use of Channel 7 at Jackson as proposed by the Tennessee Educational Television Commission.

9. The counterproposal of the Tennessee Commission and the proposal of the Alabama Commission are technically feasible and the Commission is of the view that the reassignment of channels as proposed would more efficiently utilize the available spectrum and would be in the public interest.

Accordingly, it is ordered, That the counterproposal of the Tennessee Educational Television Commission and the petition of the Alabama Educational Television Commission and the petition of Frank Kyle Spain, insofar as it requests the assignment of Channel 9 to Tupelo, are adopted.

It is further ordered, That effective 30 days after publication in the FEDERAL REGISTER the outstanding authorization of Station WDXI-TV in Jackson, Tennessee (BMPCT–1824) will be modified to specify operation on Channel 7 in lieu of Channel 9, and an appropriate authorization will be issued to the Dixie Broadcasting Company. *It is further ordered,* That effective 30 days after publication in the FEDERAL REGISTER, the table of assignments, contained in § 3.606, rules governing television broadcast stations, is amended as follows:

1. Add to the table:

City:	Channel No.
Munford, Ala.	*7
Crossville, Tenn.	*77
Lexington, Tenn.	*11
Sneedville, Tenn.	*2+

2. Amend the table to read:

City:	Channel No.
University, Ala.	*74+
Tupelo, Miss.	9—, 38
Cookeville, Tenn.	24, *69
Jackson, Tenn.	7+, 16+

3. Change the Channel 9 assignment in Hattiesburg, Mississippi, from 9— to 9.

4. Change the Channel 11 assignment in Meridian, Mississippi, from 11 to 11—.

10. Authority for the adoption of the proposed amendments is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1084; 47 U. S. C. 301, 303, 307)

Adopted: March 17, 1954.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54–2064; Filed, Mar. 23, 1954; 8:48 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 32]

MEDICAL CARE FOR SEAMEN AND CERTAIN OTHER PERSONS

DEFINITION OF SEAMEN

Notice is hereby given that the Surgeon General of the Public Health Service, with the approval of the Secretary, Department of Health, Education, and Welfare, proposes to amend the definition of "seamen" in § 32.1 (d) of the Public Health Service Regulations (42 CFR Part 32) as indicated below. Interested persons may submit written data, views or arguments in regard to the proposed amendment to the Surgeon General of the Public Health Service, Washington 25, D. C. All relevant material received not later than thirty (30) days after the publication of this notice will be considered.

1. Section 32.1 (d) would be revised to read as follows:

(d) The term "seamen" includes any person employed on board in the care, preservation, or navigation of any vessel, or in the service, on board, of those engaged in such care, preservation, or navigation, but does not include the owner or joint owners of a vessel or the spouse of any such owner;

(Sec. 215, 321, 58 Stat. 690, 695, 42 U. S. C. 216, 248. Interprets sec. 2 (h), 58 Stat. 682, 42 U. S. C. 201 (h))

Dated: March 18, 1954.

[SEAL] W. PALMER DEARING,
Acting Surgeon General.

Approved:

OVETA CULP HOBBY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 141–148]

TARIFFS AND SCHEDULES

FILING OF REDUCED RATE QUOTATIONS BY CARRIERS OF PROPERTY OR PERSONS AND CERTAIN PROCEDURAL MATTERS WITH RESPECT THERETO

MARCH 15, 1954.

Special rule or regulation governing filing of reduced rate quotations by carriers of property or persons under sections 6, 20 (1), 22, 217 (a), 217 (b), 220 (a), 306 (a), 306 (c), 313 (a), 405 (a), 405 (c), and 412 (a) of the Interstate Commerce Act, and certain procedural matters with respect thereto.

Pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given of the proposed establishment of the following special rule or regulation governing the filing of reduced rate quotations under section 22 of the Interstate Commerce Act, and certain procedural matters with respect thereto. The proposed special rule or regulation is as follows:

Special rule governing the filing of reduced rate schedules under section 22 of the Interstate Commerce Act. All quotations or tenders by common carriers by rail, motor vehicle, and water, and by freight forwarders, or rates, fares, and charges for the transportation, storage, or handling of property or the transportation of persons free or at reduced rates shall be filed with the Interstate Commerce Commission 30 days prior to the effective date thereof, except that such quotations or tenders may be made effective upon less than 30 days' notice when an authorized official of the Federal department or agency for whose account the proposed services are to be rendered certifies to the Commission that a rate, fare, or charge for such services has been arrived at through negotiation between the said department or agency and the carrier or carriers concerned and that it is desirable, due to the imminence of movement, that the carrier or carriers be permitted to make the same effective upon less than 30 days' notice: *Provided,* That this requirement for filing shall not apply to transportation designated as classified for security reasons by an authorized official of a department or agency of the United States for whose account the services are rendered or proposed to be rendered.

Scope of special rule. This proposed rule governs the filing of quotations for the transportation and handling of property or persons free or at reduced rates for the United States, state or municipal governments, as permitted by section 22 of the Interstate Commerce Act.

Notice to interested persons. Notice of this proposed rule shall be given by publication of the text thereof in the FEDERAL REGISTER and by depositing a copy thereof in the office of the Secretary of the Commission.

Protests and requests for hearing. Protests against the adoption of this proposed rule shall be filed with the Commission within 30 days after the date of such publication in the FEDERAL REGISTER.

Failure seasonably to file a protest will be construed as a waiver of opposition and participation in this rule-making proceeding unless an oral hearing is held.

In addition to the requirements of Rule 40 of the general rules of practice, protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected.

Any request for an oral hearing shall be supported by an explanation as to why the evidence to be presented cannot reasonably be submitted in the form of affidavits. The Commission will determine whether or not assignment of the matter for hearing is necessary or desirable.

Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication in the FEDERAL REGISTER.

[SEAL] GEORGE W. LAIRD,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10964]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.

2. The Commission has before it a petition filed on February 18, 1954, by Van Curler Broadcasting Corporation, Schenectady, New York, and now made part of this docket, requesting an amendment of § 3.606 *Table of assignments* rules governing television broadcast stations so as to assign Channel 35 to Albany-Schenectady-Troy, New York, in lieu of Schenectady, New York. An opposition, now also made part of this docket, was filed by Hudson Valley Broadcasting Company, Albany, New York.

3. In support of its requested amendment petitioner urges that Albany-Schenectady-Troy are considered as one business, industrial, and trading area; that the proximity and integration of these three cities warrants the assignment of Channel 35 to the communities in combination; and that the assignment of Channel 35 to Albany and Troy in addition to Schenectady was originally precluded by the inadequate spacing to Channel 42 in Greenfield and that this latter assignment has been changed.

4. In its opposition to the proposed rule making Hudson Valley stated that it was the permittee of Station WROW–TV on Channel 41 at Albany; and that it constructed the station at the cost of $400,000 upon reliance on the Table of Assignments as adopted in the Sixth Report and Order. It urged that Van Curler accepted a grant on Channel 35 for Schenectady but never intended to serve as an outlet for that city; that it will suffer economic injury in the event another television outlet is authorized for Albany; and that petitioner seeks to accomplish by rule making that which it could not by means of an application. Hudson Valley further requests that the Commission not institute rule making proceedings in this matter.

5. The Commission has considered the comments of Hudson Valley and finds no reasons which would warrant a denial of the proposal for institution of rule making in this case. It therefore is proposed to afford interested parties, including Hudson Valley, an opportunity to file comments with regard to the Van Curler proposal. In view of this, the request of Hudson Valley Broadcasting Company for the denial of the instant petition for rule making is denied.

6. Authority for the adoption of the proposed amendments is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

7. Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before April 21, 1954 a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: March 17, 1954.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 54-2071; Filed, Mar. 23, 1954; 8:49 a. m.]

[47 CFR Part 8]

[Docket No. 10961]

STATIONS ON SHIPBOARD IN MARITIME SERVICES

FREQUENCY TOLERANCES FOR SHIP STATIONS OPERATING ON FREQUENCIES BELOW 25 MC

1. Notice is hereby given of proposed rule making in the above-entitled matter. The amendments proposed to be adopted are set forth below.

2. The Commission has received a number of inquiries regarding the effective date of the new frequency tolerances set forth in Part 8 of the Commission's rules for ship station transmitters operating on frequencies below 25 Mc. It is believed to be desirable, therefore, to amend the Commission's rules so as to specify more clearly an effective date for the application of the new frequency tolerances. On the basis of information at hand, it appears to be feasible to specify a date of January 1, 1955 after which all ship station transmitters operating on frequencies between 1.6 and 25 Mc must meet the new frequency tolerances. It is also proposed to amend the rules to show more clearly the frequency tolerances applicable to ship station transmitters operating on frequencies from 100 to 515 kc.

3. The proposed amendment is issued under the authority contained in sections 303 (e), (f) and (r) of the Communications Act of 1934, as amended.

4. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before April 26, a written statement or brief setting forth his comments. Replies to such comments may be filed within ten days from the last day for filing original comments. Interested persons supporting the proposed amendment may file statements or briefs in a similar manner. The Commission will consider all comments and briefs presented to it before taking final action in this matter.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs or comments should be furnished the Commission.

Adopted: March 17, 1954.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION.

[SEAL] MARY JANE MORRIS, *Secretary.*

1. Section 8.131 (b) is amended to read as follows:

(b) Authorized frequency tolerances for ship stations operating on frequencies below 515 kc or within the frequency-band 1600 kc to 25000 kc.

Frequency ranges	Applicable until Jan. 1, 1955, to transmitters installed before Jan. 1, 1953	Applicable to transmitters installed after Jan. 1, 1953 and to all transmitters after Jan. 1, 1955
(1) From 100 to 515 kc. (except for emergency transmitters of the class specified in (2) and (3) below)	*Percent* 0.1	*Percent* 0.1
(2) From 100 to 515 kc.; emergency transmitters only, whose use is confined solely to safety communication as defined in section 8.6 (a)	.3	.3
(3) 500 kc. transmitters intended for use solely in lifeboats or other survival craft	.5	.5
(4) From 1600 to 3500 kc. inclusive (except for lifeboat transmitters under the condition specified below in (5))	.04	.02
(5) For emergency transmitters intended for use solely in lifeboats or other survival craft to be used on the telephone distress frequency 2182 kc. or on the telegraph calling frequency 2091 kc.	.05	.05
(6) Stations when using frequencies within the band 4000 to 25000 kc. other than those specified in (7) below	.02	
(7) Stations (including lifeboat transmitters) when using frequencies within the following bands:		
From 4115 to 4165 kc. inclusive	.05	.05
From 6300 to 6250 kc. inclusive	.05	.05
From 8230 to 8330 kc. inclusive	.05	.05
From 12340 to 12540 kc. inclusive (except 12440 and 12460 kc.)	.02	.02
12440 and 12460 kc	.05	.05
From 16400 to 16740 kc. inclusive (except 16530, 16575, and 16590 kc.)	.025	.025
16530 and 16590 kc	.02	.02
16575 kc	.05	.05
22300 to 22350 kc		
(8) Stations when using frequencies within the band 4000 to 25000 kc.:		
For telephony		.05
For other than telephony		.02

2. Section 8.552 (b) is amended by inserting the word "percent" under the heading "Frequency tolerance" in column two of the "Tabulation of basic technical requirements". In the same column, delete the entry opposite the operating carrier frequency 500 kc and enter the figure "0.1".

3. Section 8.553 (b) is amended by inserting the word "percent" under the heading "Frequency tolerance" in column two of the "Tabulation of basic technical requirements". In the same column, delete the entry opposite the operating carrier frequency 500 kc and enter the following: "0.1 percent except for emergency transmitters whose use is confined solely to safety communication as defined in § 8.6 (a). Such transmitters shall maintain a frequency tolerance of 0.3 percent."

[F. R. Doc. 54-2073; Filed, Mar. 23, 1954; 8:50 a. m.]

[1] Dissenting statement of Commissioner Hennock filed as part of original document.

[47 CFR Part 8]

[Docket No. 10963]

STATIONS ON SHIPBOARD IN MARITIME SERVICES

CERTIFICATION OF HARMONIC SUPPRESSION CAPABILITIES OF SHIP TRANSMITTERS OPERATING ON 2738 KC

Notice is hereby given of proposed rule-making in the above-entitled matter.

On December 21, 1953, the Commission issued a public notice which stated that extensive harmful interference was being caused to operations on the aeronautical mobile frequency 5476.5 kc by the radiation of second harmonics from the transmitters of ship stations operating on the frequency 2738 kc. In that notice, the Commission urged ship owners and ship station licensees to take immediate steps to ensure that their equipment was capable of operating without radiation of harmful spurious emissions. Despite this public notice and the initiation of a more vigorous enforcement program, there has been no substantial decrease in the radiation of harmful spurious emissions from ship transmitters operating on 2738 kc. Substantial reduction of such spurious emissions is a matter of urgent necessity in view of the hazard thereby created to aeronautical use of the frequency 5476.5 kc and because of the obstacle thereby created to timely fulfillment by the United States of its international obligations under the agreement entered into by the United States at the Extraordinary Administrative Radio Conference (Geneva, 1951).

In view of the above facts, the Commission is proposing to amend Part 8 of its rules so as to provide that the frequency 2738 kc will not be available for use by ship stations after June 1, 1954, unless an appropriate certificate is filed with the Commission attesting to the elimination or absence of second harmonic radiation capable of causing harmful interference to the operations on 5476.5 kc. In the event these proposed rules are made final as proposed, the Commission plans to initiate immediate action beginning June 1, 1954, to modify the licenses of specific stations found not operating in compliance with the rules so as to delete the authority to operate on the frequency 2738 kc.

Authority for these amendments is contained in the provisions of sections 303 (e), (f) and (r) of the Communications Act of 1934, as amended.

Any interested party who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the manner proposed, may file with the Commission on or before April 15, 1954, a statement or brief setting forth his comments. At the same time any person who favors the proposed rules may file a brief or statement in support of the proposal. The Commission will consider all comments, briefs and statements which are filed before taking final action.

In accordance with § 1.784 of the Commission's rules, an original and 14 copies of all comments, briefs and statements shall be furnished the Commission.

Adopted: March 17, 1954.

Released: March 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION.

[SEAL] MARY JANE MORRIS, *Secretary.*

a. Section 8.351 (d) is amended by inserting a new text in subparagraph (1) to read as follows:

(1) On and after June 1, 1954, the frequency 2738 kc may not be used or assigned unless there has been submitted to the Commission's office at Washington, D. C., by the licensee or the applicant for such assignment, a certification in accordance with the requirements of subparagraph (2) of this paragraph.

b. Section 8.351 (d) is further amended by redesignating subparagraph (2) as subparagraph (3) and adding a new subparagraph (2) to read as follows:

(2) The certification required by subparagraph (1) of this paragraph shall be signed by a person holding at least a second class radiotelephone operator license and shall show the number of such license and the class. It shall state that by reason of tests or measurements of the transmitter therein described and performed by the certifier or under his supervision, he has determined:

(i) That the level of any emission appearing on the second harmonic frequency of the carrier frequency 2738 kc is attenuated below the level of the unmodulated carrier on the frequency 2738 kc by not less than the amount shown in the following table:

Maximum authorized transmitter-power as specifically defined in § 8.7 (ii):	*Attenuation (decibels)*
3 watts or less	40
Over 3 watts up to and including 150 watts	60
Over 150 watts up to and including 600 watts	70
Over 600 watts	80

and

(ii) That the transmitter meets the foregoing requirements without modification or in the event that modification of the transmitter was found to be necessary, a specific description of such modification, including a description of any wave trap or device which was utilized.

[47 CFR Part 8]

[Docket No. 10359]

STATIONS ON SHIPBOARD IN MARITIME SERVICES

EMERGENCY ANTENNA ON SHIPS SUBJECT TO SAFETY OF LIFE AT SEA CONVENTION

In the matter of amendment of Subpart U of Part 8 of the Commission's rules regarding the requirement for an emergency antenna on ships subject to the Safety of Life at Sea Convention, London, 1948.

1. These proceedings were instituted by a notice of proposed rule making issued by the Commission on December 29, 1952. An amendment of § 8.704 of the Commission's rules was proposed in order to reflect the requirements of the new Safety Convention with respect to the installation of emergency or spare antennas. The amendment to § 8.704 as then proposed read as follows:

§ 8.704 *Emergency antenna.* (a) After May 1, 1953, a cargo ship shall be provided with an emergency antenna meeting the requirements of § 8.504 (a) (2) unless it is shown that under the circumstances of a particular ship the installation of such an antenna is impracticable or unreasonable, but in such case the ship shall be provided with a spare antenna consisting of a single wire transmitting antenna (including suitable insulators), of the same linear dimensions as the main transmitting antenna completely assembled for immediate replacement.

(b) Until May 1, 1953, cargo ship shall be provided with either an emergency antenna or a spare antenna meeting the respective applicable requirements set forth in paragraph (a) of this section.

2. The period during which comments on this proposal could be filed has expired. Comments were received from the American Merchant Marine Institute, Inc. (formerly the National Federation of American Shipping) and the Sabine Transportation Company, both in opposition to the rule as proposed.

3. The comments received from both of the above-named organizations purported to show (a) that there is lack of justification from a safety standpoint for the requirement of an emergency antenna and (b) that there would be substantial difficulties involved in the installation and maintenance of an efficient emergency antenna on many cargo ships. In effect, the comments sought to categorize the various classes of difficulties which would make the installation of an emergency antenna "impracticable or unreasonable" and then suggested that the rule should provide for exception by reference to specific classes of vessels or to various classes of difficulties.

4. In connection with the comments relating to the lack of justification for the requirement of an emergency antenna, it is pointed out that the Safety of Life at Sea Convention regulation upon which the proposed rule was based reads as follows:

A main and an emergency aerial shall be provided and installed, provided the Administration may except any ship from the provisions of an emergency aerial if it is satisfied that the fitting of such an aerial is impracticable or unreasonable, but in such case a spare aerial completely assembled for immediate replacement shall be carried.

5. The Commission is of the opinion that this regulation fully justifies the emergency antenna as a safety device and establishes a general preference for safety purposes of the emergency antenna over the spare antenna.

6. AMMI's objections, however, were not solely related to justification of the antenna as a safety device, and in this regard, the comments are summarized to a large extent in that portion quoted below:

Industry experience during the war years indicates that the emergency antenna is a bothersome device which interferes with cargo handling gear to the extent that it must be taken down during the loading and unloading operations of many types of vessels. It also prevents the most efficient location of the main antenna installation on certain other vessels, and in some cases conditions are so severe as to raise serious questions as to acceptable efficiency of the emergency antenna itself. Further on certain other vessels additional structures and masts are required. Such additional structures as were on the vessels during war years have in many cases been removed for peacetime operation. These would have to be replaced.

AMMI recommended a method of providing exception of cargo ships from the emergency antenna requirement by which approximately 780 vessels, including bulk carriers, and specified Maritime Administration types such as Liberty, C1, C2, T-2 and Liberty tankers, would

be excepted. Any of the balance of the ships would be excepted if the fitting of the emergency antenna would result in one or more of the following conditions:

(a) A less efficient main antenna installation;

(b) The necessity of lowering the emergency antenna to handle cargo;

(c) The necessity to provide extensive new mast or rigging structures;

(d) An antenna arrangement obviously inefficient for emergency purposes.

It appears that under AMMI's proposal only a small minority of miscellaneous cargo vessels would be compelled to carry emergency antennas.

7. The naming of basic Maritime Administration types of cargo ships such as mentioned above does not appear to be appropriate for the purpose of establishing exception from the emergency antenna requirement because of structural variations within each type which may affect the practicability of installing an emergency antenna. Furthermore, modifications of a specified type of vessel after a vessel is placed in service may affect the practicability of installing an emergency antenna.

8. With respect to the proposal of AMMI for determining exception of the balance of the ships, it is apparent that the procedure would necessitate determination and application of the emergency antenna requirement on a ship-by-ship basis. In view of the comments showing the various circumstances and the number of considerations involved in the case of each ship, it is believed this method of administering the emergency antenna requirement would be unreasonably burdensome to both the shipping industry and the Commission.

9. It appears that the basic difficulty with application of the emergency antenna requirement stems from the fact that the original design of existing cargo vessels did not anticipate mast structures for emergency antennas. The Commission believes, however, that if the original designs of the vessel had contemplated such antenna installations, emergency antennas could be installed in a manner that would result in a minimum of interference with operations of the ship while in port. Therefore, in the light of the above considerations, it is proposed to require that only new cargo ships be equipped with an emergency antenna and that existing cargo ships be equipped with either a spare antenna or an emergency antenna. To accomplish this proposal § 8.704 would be modified as indicated below:

§ 8.704 *Emergency antenna.* A cargo ship, the keel of which is laid on or after June 1, 1954, shall be provided with an emergency antenna meeting the requirements of § 8.504 (a) (2). A cargo ship, the keel of which is laid prior to June 1, 1954, shall be provided with either an emergency antenna meeting the requirements of § 8.504 (a) (2) or with a spare antenna consisting of a single wire transmitting antenna (including suitable insulators) of the same linear dimensions as the main transmitting antenna, completely assembled for immediate replacement.

10. The proposed amendment to the rules is issued under authority of section 303 (r) of the Communications Act of 1934, as amended, and Chapter IV, Regulation 10 of the International Convention for the Safety of Life at Sea, 1948.

11. Any interested person who is of the opinion that the proposed amendment should not be adopted may file with the Commission on or before April 26, 1954, a written statement or brief setting forth his comments. Persons desiring to support the amendment may also file comments by the same date. Replies to such comments may be filed within ten days from the last day for filing original comments. The Commission will consider all comments and briefs before taking final action with respect to the proposed amendment.

12. Fifteen copies of each brief or written statement should be filed as required by § 1.764 of the Commission's rules and regulations.

Adopted: March 17, 1954.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 10957]

CHECKER CAB & BAGGAGE CO.

ORDER TO SHOW CAUSE

In the matter of Checker Cab & Baggage Company, Houston, Texas; order to show cause why the license for Radiotelephone Station KKB-843 should not be revoked; Docket No. 10957.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station KKB-843, licensed to Checker Cab & Baggage Company of Houston, Texas;

It appearing, that notice of violations of the Commission's rules in connection with the operation of the station was given the licensee as follows: Notice dated January 25, 1954, specifying that an inspection of the station on January 18, 1954, indicated noncompliance with §§ 16.403 and 16.160 (a) and (b) in that the supervisor's car (#104) did not bear the name of the cab company and an appropriate number in the same type of printing as used on the cabs and the station records did not contain the required information concerning technical measurements and maintenance of the equipment.

It further appearing, that, despite further notice calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 16.159 of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 17th day of March 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Checker Cab & Baggage Company of Houston, Texas, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 17th day of May 1954;

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Checker Cab and Baggage Company, P. O. Box 18104, Houston, Texas.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2066; Filed, Mar. 23, 1954; 8:48 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

[Docket No. 10958]

YELLOW CAB & TRANSFER CORP.

ORDER TO SHOW CAUSE

In the matter of Yellow Cab & Transfer Corporation, Houston, Texas, order to show cause why the license for Radiotelephone Station KKA 981 should not be revoked; Docket No. 10958.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station KKA 981 licensed to Yellow Cab & Transfer Corporation of Houston, Texas.

It appearing, that notice of violation of the Commission's rules in connection with the operation of the station was given the licensee as follows: Notice dated January 25, 1954, specifying that an inspection of the station on January 18, 1954, indicated noncompliance with § 16.160 (a) and (b) in that the station records did not contain the required information concerning technical measurements and maintenance of the equipment;

It further appearing, that, despite further notice calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 16.159 of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 17th day of March 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Yellow Cab & Transfer Corporation of Houston, Texas, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 17th day of May 1954;

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Yellow Cab & Transfer Corporation, P. O. Box 18104, Houston, Texas.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2067; Filed, Mar. 23, 1954; 8:48 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have this opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period of failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

[Docket No. 10960]

LAKE SHORE BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Lake Shore Broadcasting Co., Inc., Sheboygan, Wisconsin, Docket No. 10960, File No. BP-8808; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of March 1954;

The Commission having under consideration two pleadings, one entitled "Petition Protesting Grant" filed on March 5, 1954, pursuant to section 309 (c) of the Communications Act, by Columbia Broadcasting System, Inc., licensee of Station WBBM, Chicago, Illinois (780 kc, 50 kw, U.), and the other entitled "Petition for Reconsideration and Designation for Hearing" filed on March 5, 1954, pursuant to section 405 of the Communications Act, by Radio Station WAIT, licensee of Station WAIT, Chicago, Illinois (820 kc, 5 kw, specified hours) each requesting the Commission to reconsider its action of February 3, 1954, in granting the above-entitled application of Lake Shore Broadcasting Co. for construction permit for a new station at Sheboygan, Wisconsin to operate on 800 kilocycles; 250 watts, daytime only and to designate the application for hearing with the petitioners made parties thereto;

It appearing, that the Commission's further study of the matter, including an analysis of the engineering affidavits and supporting field intensity measurements submitted with the WBBM and WAIT pleadings, indicates that the proposed Sheboygan operation will cause objectionable interference to Stations WBBM and WAIT and that the 25 mv/m contour of the proposed Sheboygan operation and the 2 mv/m contour of Station WBBM will overlap—a condition expressly prohibited by the Commission's Standards of Good Engineering Practice for stations proposing to operate with a frequency separation of 20 kilocycles;

It further appearing, that the Commission is of the opinion that the aforesaid protest of Columbia Broadcasting System, Inc., meets the requirements of section 309 (c) and that a hearing must be held on the above-entitled Sheboygan, Wisconsin application;

It is ordered, That pursuant to sections 309 (c) and 405 of the Communications Act of 1934, as amended, the above-entitled application of Lake Shore Broadcasting Co. is designated for hearing at the offices of the Commission in Washington, D. C., on May 4, 1954, at 10:00 a. m. upon the issues specified in WBBM's protest which issues are specifically adopted by the Commission and read as follows:

1. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to the possibility of overlap between the 25 mv/m contour of the proposed station and the 2 mv/m contour of Station WBBM, Chicago, Illinois.

2. To determine whether the operation of the proposed station at Sheboygan, Wisconsin, would involve objectionable interference with Stations WBBM and WAIT, Chicago, Illinois, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary services to such areas and populations.

3. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the availability of other primary service to such areas and populations.

4. To determine on the basis of the above issues whether a grant of the above-entitled application (File No. BP-8808) would serve the public interest, convenience and necessity.

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof is placed upon Lake Shore Broadcasting Co.;

It is further ordered, That Gene T. Dyer, Evelyn M. Dyer, Adele Moulds, Louise E. Moulds, and Grace V. McNeill d/b as Radio Station WAIT, licensee of Station WAIT, Chicago, Illinois, and Columbia Broadcasting System, Inc., licensee of Station WBBM, Chicago, Illinois, are made parties to the proceeding;

It is further ordered, That the above-described pleadings of Radio Station WAIT and Columbia Broadcasting System, Inc., are granted;

It is further ordered, That the effective date of the Commission's action of February 3, 1954, in granting the above-entitled application of Lake Shore Broadcasting Co. is stayed pending the conclusion of the aforementioned hearing.

Released: March 19, 1954.

FEDERAL POWER COMMISSION

[Docket Nos. G-2318, G-2320]

LATERAL GAS PIPELINE CO. AND IOWA ELECTRIC LIGHT AND POWER CO.

ORDER CONSOLIDATING PROCEEDINGS, DENYING REQUESTS FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

In the matters of Lateral Gas Pipeline Company, Docket No. G-2318; Iowa Electric Light and Power Company, Docket No. G-2320.

Lateral Gas Pipeline Company (Lateral), an Iowa corporation with its principal place of business in Cedar Rapids, Iowa, filed in Docket No. G-2318, on November 24, 1953, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of transmission pipe-line facilities to transport natural gas for Iowa Electric Light and Power Company (Iowa Electric) for ultimate distribution in the Towns of Villisca and Clarinda, Iowa.

Iowa Electric Light and Power Company, an Iowa corporation having its principal place of business in Cedar Rapids, Iowa, filed in Docket No. G-2320 on November 25, 1953, an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Natural Gas Pipeline Company of America to sell 1,737 Mcf of natural gas per day to Iowa Electric for resale and distribution by Iowa Electric Company in the communities above referred to.

Due notice of the filing of said application has been given, including publication in the FEDERAL REGISTER on December 30, 1953 (Docket Nos. G-2318 and G-2320) (18 F. R. 8880).

Applicants have requested that their respective applications be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for non-contested proceedings.

The Commission finds:

(1) It is appropriate for carrying out the provisions of the Natural Gas Act and good cause exists for consolidating the proceedings at Docket Nos. G-2318 and G-2320 for the purpose of hearing.

(2) Good cause has not been shown for granting Applicants' requests that their respective applications, filed at Docket Nos. G-2318 and G-2320, be heard under the shortened procedure as provided by the Commission's rules of practice and procedure, and requests therefor should be denied as hereinafter ordered.

The Commission orders:

(A) The proceedings in Docket Nos. G-2318 and G-2320 be and the same hereby are consolidated for the purpose of hearing.

(B) The requests of Lateral Gas Pipeline Company at Docket No. G-2318, and Iowa Electric Light and Power Company at Docket No. G-2320, that the applications filed therein be heard under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, be and the same hereby are denied.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, 15 and 16 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on April 14, 1954, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by applications, and supplements thereto.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)).

Adopted: March 17, 1954.

Issued: March 17, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-2050; Filed, Mar. 23, 1954; 8:45 a. m.]

[Docket No. G-2354]

TEXAS ILLINOIS NATURAL GAS PIPELINE CO.

ORDER FIXING DATE OF HEARING

The applicant in this proceeding has requested that its application for a certificate of public convenience and necessity to increase deliveries of certain daily contract quantities of natural gas to the City of Sullivan, Illinois, and to abandon service by decreasing deliveries of daily contract quantities of natural gas to Southeastern Illinois Gas Company, be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The application was filed January 14, 1954, pursuant to section 7 of the Natural Gas Act. No request to be heard, protest or petition has been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on February 5, 1954 (19 F. R. 717). This proceeding is, therefore, a proper one for disposition under the provisions of the aforesaid rule for non-contested proceedings.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 5, 1954 at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: March 17, 1954.

Issued: March 17, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-2051; Filed, Mar. 23, 1954; 8:45 a. m.]

[Project No. 2151]

PUBLIC UTILITY DISTRICT NO. 1 OF CHELAN COUNTY, WASHINGTON

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

MARCH 18, 1954.

Public notice is hereby given that Public Utility District No. 1, of Chelan County, Wenatchee, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for preliminary permit for proposed Project No. 2151 to be located on the Chiwawa and Wenatchee Rivers in the region of the city of Leavenworth near Lake Wenatchee in Chelan County, Washington and affecting lands of the United States located in the Wenatchee National Forest. The proposed project would consist of: (1) A rockfill dam in Chiwawa River, in Sec. 34, T. 28 N., R. 17 E., creating a reservoir with about 350,000 acre-feet of useful storage, and a power plant at the damsite with 10,000 kw of installed capacity; (2) a regulating dam at outlet of Lake Wenatchee for maintaining the lake during the entire summer recreational season at its maximum experienced high level and providing for use during the remainder of the year of approximately 24,800 acre-feet of storage with 10 feet of drawdown; (3) a dam in Wenatchee River upstream from the confluence of Chiwaukum Creek, creating Tumwater Reservoir with water surface at about elevation 1750 feet, a tunnel and penstock extending approximately six miles to a power plant with 135,000 kw of installed capacity near city of Leavenworth, on the Wenatchee River. The power generated would be fed into applicant's transmission and distribution system to serve retail and wholesale loads of the applicant including municipalities and public agencies.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before April 27, 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

DELEGATION OF AUTHORITY TO NEGOTIATE A CONTRACT FOR ARCHITECT-ENGINEER SERVICES

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, herein called the act, authority is hereby delegated to the Director of the United States Information Agency, to negotiate, without advertising, under section 302 (c) (4) of the act, a contract for architect-engineer services relating to the construction of studios for the International Broadcast Service.

2. This authority shall be exercised in accordance with the applicable limitations and requirements in the act, particularly sections 304 and 307, and in accordance with policies, procedures and controls prescribed by the General Services Administration.

3. The authority herein delegated may be redelegated to any officer or employee of the United States Information Agency.

4. This delegation shall be effective as of the date hereof.

Dated: March 19, 1954.

EDMUND F. MANSURE, *Administrator.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 68-163]

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

ORDER GRANTING APPLICATION, AND PERMITTING DECLARATION AS TO SOLICITATION IN CONNECTION WITH ELECTION OF DIRECTORS TO BECOME EFFECTIVE

MARCH 17, 1954.

Christian A. Johnson and Alfred A. Romney ("declarants"), Class A stockholders of International Hydro-Electric System, a registered holding company undergoing reorganization pursuant to section 11 (d) of the Public Utility Holding Company Act of 1935 ("act") and now in process of electing a new board of directors, having filed with the Commission a declaration and amendments thereto relating to their solicitation of the Class A stockholders in connection with such election, pursuant to Rule U-62 promulgated under the act, and having at the same time filed an application pursuant to Rule U-100 requesting exemption from paragraph (g) of Rule U-62 and qualified exemption with respect to Items (4) and (8) of Form U-R-1 thereunder, and requesting acceleration of the effective date of their declaration pursuant to Rule U-62 (d); and

It appearing to the Commission that, in view of the nature of the said election and in view of the character and purpose of the solicitation proposed, the conditions imposed in Rule U-62 (g) against trading and giving investment advice are inapplicable and inappropriate; also that the information which declarants have given in Item (4) of Form U-R-1 with respect to their ownership of system securities is sufficiently informative; that the first letter of solicitation to be used by the declarants, a copy of which is annexed to their declaration, satisfies in all essential respects the applicable requirements in Item (8) of said form, and that said first letter likewise substantially satisfies the relevant requirements of Schedule 14A of the regulations under the Securities Exchange Act of 1934 as amended, which provisions normally govern the solicitation of proxies for the election of corporate directors; and

It further appearing to the Commission that it is appropriate to grant declarants' request that the effective date of their declaration be accelerated, pursuant to Rule U-62 (d), and that said declaration become effective forthwith:

It is therefore ordered, That the application filed by declarants seeking exemption pursuant to Rule U-100 from paragraph (g) of Rule U-62 and seeking qualified exemption with respect to Items (4) and (8) of Form U-R-1 thereunder, be and the same hereby is granted;

It is further ordered, That the declaration filed by the declarants pursuant to Rule U-62, with modifications as hereinabove approved, be and is hereby made effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3221]

NORTHERN STATES POWER CO. (MINNESOTA AND WISCONSIN)

NOTICE OF FILING REGARDING ISSUANCE AND SALE OF COMMON AND PREFERRED STOCK BY REGISTERED HOLDING COMPANY AND ISSUANCE AND SALE OF COMMON STOCK OF SUBSIDIARY TO PARENT

MARCH 22, 1954.

In the matter of Northern States Power Company (a Minnesota Corporation), Northern States Power Company (a Wisconsin Corporation); File No. 70-3221.

Notice is hereby given that Northern States Power Company, a Minnesota Corporation ("Minnesota"), a registered holding company and a public-utility company, and its public-utility subsidiary, Northern States Power Company, a Wisconsin Corporation ("Wisconsin"), have filed with this Commission an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating section 6, 7, 9, and 10 of said act and Rules U-23, U-24, U-43, and U-50 promulgated thereunder regarding certain proposed transactions which are summarized as follows:

Minnesota proposes to issue and sell 1,219,856 additional shares of its common stock of the par value of $5 per share and 150,000 shares of a new series of its cumulative preferred stock of the par value of $100 per share.

Wisconsin proposes to issue and sell, and Minnesota proposes to purchase and acquire, during the balance of the year 1954, an aggregate of not to exceed 40,000 shares of the par value of $100 per share of the common stock of Wisconsin at $100 per share.

Minnesota proposes to issue and sell the 1,219,856 shares of its common stock by (a) offering said shares to the holders of its common stock on the basis of one share for each ten shares held and at a subscription price to be determined by Minnesota at a later date, the right to subscribe to be evidenced by subscription warrants; and (b) selling at such subscription price, pursuant to the competitive bidding requirements of Rule U-50, such of the above shares of common stock as are not subscribed for plus any of the outstanding shares of common stock of Minnesota acquired by the Company in connection with stabilization transactions. The application-declara-

tion states that Minnesota may make purchases of not to exceed 60,993 shares (being a number of shares equal to approximately 5 percent of the new shares of common stock to be issued by Minnesota) of its presently outstanding stock in order to facilitate the proposed offering and sale of additional shares of its common stock or to stabilize the market price therefor. It is stated that to avoid the complications and expense of issuing subscription warrants in units involving a fraction of a share, Minnesota proposes, if the number of shares of common stock held of record by any shareholder is not evenly divisible by ten, the warrant such shareholder will receive will entitle him to subscribe for one share in lieu of the fraction of a share to which he would otherwise be entitled.

The additional shares of preferred stock of Minnesota, to be known as Cumulative Preferred Stock, $__ Series, will be sold pursuant to the competitive bidding requirements of Rule U-50, the price (which shall be not more than $102.75 per share nor less than $100 per share) and the annual dividend rate (which shall be a multiple of 4 cents) to be fixed as a result of the bidding.

It is stated that the proceeds of the sale of additional shares of common and preferred stock by Minnesota and the proceeds of the sale of additional shares of common stock by Wisconsin, together with other corporate funds, will be used for the purpose of retiring $20,000,000 of bank loans of Minnesota evidenced by its promissory notes maturing July 15, 1954, and $2,500,000 of bank loans of Wisconsin evidenced by its promissory notes maturing June 9, 1954, and to finance new construction. Minnesota estimates that the expenditures of it and its subsidiaries for construction during 1954 will aggregate approximately $52,350,000.

The application-declaration further states that no State commission, other than the Public Service Commission of North Dakota, or Federal commission, other than this Commission, has jurisdiction over the transaction proposed by Minnesota, and that the issuance and sale of common stock by Wisconsin is subject to the authorization by the Public Service Commission of Wisconsin.

Applicants-declarants request that this Commission's order become effective upon issuance.

Notice is further given that any interested person may, not later than April 1, 1954, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law, if any, raised by said joint application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 1, 1954, at 5:30 p. m., said joint application-declaration, as filed, or as amended hereafter, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL REGISTER

VOLUME 19 NUMBER 58

Washington, Thursday, March 25, 1954

TITLE 3—THE PRESIDENT

PROCLAMATION 3046

PAN AMERICAN DAY, 1954

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the American Republics jointly and severally honor April 14 as a date of Hemisphere significance, since that day sixty-four years ago marked the beginning of the association which has developed into the Organization of American States and in which the twenty-one American Republics are Member States;

WHEREAS the Tenth Inter-American Conference this year focuses attention once again upon the fundamental importance of inter-American solidarity as an indispensable bulwark of the free world;

WHEREAS the reciprocal friendship, mutual respect, and steadfast cooperation of the American Republics stand as an example which other nations have come to recognize and accept as a working-model for international relationships;

WHEREAS for all of the foregoing reasons April 14 is a recurrent occasion for thanksgiving and rejoicing on the part of the people of the United States in common with the sister nations of America:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim Wednesday, April 14, 1954, as Pan American Day, for celebration by the people of this nation as the day of the Americas and a day for expressing that good will toward the other American peoples and that faith in our mutual adherence to the principles of freedom and democracy which have inspired our independence as nations and cemented our cooperation as neighbors.

I call upon officials of the Federal, State, and local Governments; representatives of civic, educational, and religious organizations; agencies of the press, radio, television, motion picture, and other media of communications; and all the people of the United States of America, to cooperate in fitting observance of Pan American Day, by ceremonies or other public activities appropriate to the occasion, as a symbol of inter-American solidarity.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 20th day of March in the year of our Lord nineteen hundred and [SEAL] fifty-four, and of the Independence of the United States of America the one hundred and seventy-eighth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture.

Subchapter A—General Regulations and Policies

PART 402—PRICING POLICY FOR CERTAIN COMMODITIES AVAILABLE FOR SALE

RESTRICTIONS ON EXPORT SALES; OTHER SALES

The regulation published in 18 F. R. 1583, containing the pricing policy for certain commodities available for sale, is hereby amended as follows:

1. Section 402.102 *Restrictions on export sales* is amended to read as follows:

§ 402.102 *Restrictions on export sales.* Sales are restricted to buyers not using Foreign Operations Administration funds or other funds of the United States Government. Commodities purchased from CCC may be resold to buyers using any such funds only if it is determined by CCC that the purchase price paid to it by the purchaser is not less than (a) the higher of the support price plus handling and storage costs

Subchapter B—Loans, Purchases, and Other Operations

[1953 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 1, Corn]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1953-CROP CORN LOAN AND PURCHASE AGREEMENT PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 18 F. R. 5359 and 6983, and containing the specific requirements for the 1953-Crop Corn Price Support Program are hereby amended as follows:

1. Section 421.52 (d) (formerly § 601.52 (d)) is amended by inserting the words "may not be or" in the first sentence thereof after the word "producers."

2. Section 421.57 (formerly § 601.57) is amended by (1) changing the words "are not" in the first sentence of paragraph (c) to "may not be," by (2) adding a new paragraph (d) to provide that the State committee shall call farm-storage loans and require that deliveries be made under purchase agreements from farm-storage during the earlier delivery period whenever the State committee determines that producers in any area are not in a position to safely store corn for the full storage period, and by (3) changing former paragraph (d) to (e) so that the amended section reads as follows:

§ 421.57 *Maturity of loans and delivery.* (a) Loans mature on demand but not later than July 31, 1954.

(b) Corn may be delivered under purchase agreements and in satisfaction of farm-storage loans after maturity in accordance with § 421.18.

(c) In areas where it is determined by the ASC State committee that some producers may not be in a position to store corn safely for the full storage period (for reasons set forth in § 421.52 (d)), the ASC State committee may establish an earlier delivery period prior to maturity (in addition to the regular delivery period) during which producers may voluntarily deliver corn in farm-storage under loans and purchase agreements. Such earlier delivery period, if established, shall be the first 10 days of either April, May, June, or July 1954. CCC will accept deliveries of corn during such 10-day period, provided the producer notifies the ASC county committee of his intention to deliver at least 10 days prior to the first day of the 10-day delivery period. The 10-day delivery period may be extended if it is determined by the county committee that more time is needed for the acceptance of deliveries.

(d) If the ASC State committee determines that producers in any area are not in a position to safely store corn for the full storage period (for reasons set forth in § 421.52 (d)), all farm-storage loans in such area shall be called promptly by the ASC State committee, and producers who elect to make deliveries from farm-storage under purchase agreements shall be required to do so during the delivery period for loans. Such earlier delivery period, if established, shall begin at least 30 days after the final date of availability of loans and purchase agreements established by the ASC State committee, and not before April 1, 1954.

(e) Corn under farm-storage loan may be delivered at any time prior to maturity with the approval of the county committee, if the farm is sold or there is a change of tenancy, or if the corn is going out of condition, or threatened with damage by flood or other conditions which are beyond the control of the producer, or when the delivery is made on demand by CCC and such demand is not due to negligence on the part of the producer.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051; 15 U. S. C. Sup. 714c, 7 U. S. C. Sup. 1441, 1421)

Issued this 19th day of March 1954.

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—GENERAL PROVISIONS 1954-CROP PRICE SUPPORT PROGRAMS FOR GRAINS AND RELATED COMMODITIES

INTEREST RATE

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 967 and containing regulations of a general nature with respect to price support programs for certain grains and other commodities produced in 1954 are amended as follows:

Section 421.411 *Interest rate* is amended by inserting "3½" before the word "percent" the first time it appears so that the section begins "Loans shall bear interest at the rate of 3½ percent * * *."

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 301, 401, 63 Stat. 1051, 66 Stat. 758, 15 U. S. C. Sup. 714c; 7 U. S. C. Sup. 1441, 1447, 1421)

Issued this 19th day of March 1954.

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter H—Determination of Wage Rates

[Sugar Determination 862.6]

PART 862—SUGAR BEETS; REGIONS OTHER THAN STATE OF CALIFORNIA, SOUTHWESTERN ARIZONA, SOUTHERN OREGON, AND WESTERN NEVADA

1954 CROP

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearing held in several cities in the sugar beet area during November and December 1953, the following determination is hereby issued:

§ 862.6 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of the 1954 crop of sugar beets in regions other than the State of California, southwestern Arizona, southern Oregon, and western Nevada*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production, cultivation, or harvesting of the 1954 crop of sugar beets in regions other that the State of California, southwestern Arizona, southern Oregon, and western Nevada if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm, or part of the farm covered by a separate labor agreement, shall have been paid in full for all such work and shall have been paid pages in cash therefor at rates as agreed upon between the producer and the laborer but, after the beginning of work on the 1954 crop of sugar beets or the date of issuance of this determination, whichever is later, not less that the following:

(i) *When employed on a time basis.* (*a*) For thinning, hoeing, or weeding: 65 cents per hour.

(*b*) For pulling, topping, or loading: 70 cents per hour.

(*c*) For the operations specified above performed by workers between 14 and 16 years of age the above rates may be reduced by not more than one-third. Maximum employment for workers between 14 and 16 years of age, without deduction from payments under the act to the producer, is 8 hours per day.

(ii) *When employed on a piecework basis for thinning, hoeing, and weeding.*

Weeding								
First hoeing following complete machine thinning (note 2)	[illegible]	9.00	10.00	[illegible]	10.50	9.50	9.00	9.00
First hoeing following hoe thinning only	[illegible]	6.00	[illegible]	[illegible]	7.00	7.00	6.00	[illegible]
First hoeing following hoe and finger thinning or hoe thinning only	4.50	[illegible]	[illegible]	[illegible]	6.00	[illegible]	[illegible]	7.00
Second and each subsequent hoeing or weeding	[illegible]	[illegible]	4.00	4.00	4.50	5.50	4.00	[illegible]

Combined operations. Where a written agreement provides for a combined rate for "summer work", the rate for such work regardless of the number of hoeings or weedings required, shall be the sum of the applicable thinning, hoeing, and weeding rates specified above.

Wide row planting. The above thinning, hoeing, and weeding rates may be reduced by not more than the indicated percentages for the following row spacings: 28 inches or more but less than 31 inches, 20 percent; 31 inches or more but less than 34 inches, 25 percent; 34 inches or more, 30 percent.

Cross cultivation. Where cross cultivation is performed prior to hoeing or weeding the specified first hoeing rate, other than first hoeing following complete machine thinning, may be reduced by not more than $1.00 per acre, and the specified subsequent hoeing or weeding rate may be reduced by not more than 50 cents per acre.

Note 1: The basic piecework rate for hoe and finger thinning fields planted with natural whole seed shall be $2.00 per acre more than the rates specified above.

Note 2: The above rate is applicable on fields which have been completely machine thinned; where the worker is not required to finger thin; and when the operation is performed at the time first hoeing customarily is performed.

(iii) *When employed on a piecework basis for harvesting.* The piecework rates for hand pulling, topping, and loading shall be those agreed upon between the producer and the worker: *Provided,* That the average hourly rate of earnings for each worker for the time involved on each separate unit of work for which a piecework rate is agreed upon shall be not less than 70 cents per hour.

(iv) *When employed on a time or piecework basis for other operations.* For operating mechanical equipment, irrigating, and all other operations in the production, cultivation, or harvesting of sugar beets for which a rate is not specified herein, the rate shall be as agreed upon between the producer and laborer.

(b) *Perquisites.* In addition to the foregoing, the producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him, such as housing, garden plot, and similar items.

(c) *Subterfuge.* The producer shall not reduce the wage rates to laborers below those determined in this section through any subterfuge or device whatsoever.

(d) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this determination may file a wage claim with the local County Agricultural Stabilization and Conservation Office against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available at that office. Upon receipt of a wage claim the county office shall thereupon notify the producer against whom the claim is made concerning the representation made by the laborer. The County ASC Committee shall make such investigation as it deems necessary and the producer and laborer shall be notified in writing of its recommendation for settlement of the claim. If either party is not satisfied with the recommended settlement, an appeal may be made to the State Agricultural Stabilization and Conservation Office of the State in which is located the farm where the work was performed. The address of the State Office will be furnished by the local county office. Upon receipt of the appeal the State ASC Committee shall likewise consider the facts and the producer and laborer shall be notified in writing of its recommendation for settlement of the claim. If the recommendation of the State Committee is not acceptable, either party may file an appeal with the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. All such appeals shall be filed within 15 days after receipt of the recommended settlement of the respective committee, otherwise such recommended settlement will be applied in making payments under the act. If a claim is appealed to the Director of the Sugar Division, his decision shall be binding on all parties insofar as payments under the act are concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay as a minimum, for work performed by persons employed on the farm in the production, cultivation, or harvesting of the 1954 crop of sugar beets in regions other than the State of California, southwestern Arizona, southern Oregon, and western Nevada as one of the conditions for payment under the act.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable wage rates the act requires that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary of Agriculture under the Agricultural Adjustment Act, as amended (i. e., cost of living, prices of sugar and by-products, income from sugar beets and cost of production); and (2) the differences in conditions among various sugar producing areas.

(c) *1954 wage determination.* This determination differs from the 1953 wage determination in the following respects: (1) Piecework rates for hand harvesting sugar beets will be as agreed upon between producers and workers, subject to a minimum hourly earnings guarantee, instead of specific piecework rates for harvesting operations; and (2) certain explanations and piecework rate definitions have been clarified or eliminated.

A public hearing was held in Detroit, Michigan; St. Paul, Minnesota; Billings, Montana; Salt Lake City, Utah; and Greeley, Colorado during the period November 30 through December 11, 1953 at which interested parties presented testimony with respect to fair and reasonable wage rates for work on the 1954 crop of sugar beets. At the hearing and through supplemental briefs most of the producer representatives recommended the continuation of the 1953-crop wage rates for the 1954 crop. Producers generally, except in the Great Lakes region, recommended reductions in the wage rate for first hoeing work, following complete machine thinning, of between $1.50 and $3.00 per acre on the basis that wage costs and worker earnings for this operation in 1953 were disproportionate to the other cultivating operations. Certain producer representatives expressed the belief that the differential rates which have been maintained between specific districts because of differences in man-hour requirements, cultivation practices, and soil and weed conditions, have become less pronounced as a result of mechanization and chemical weed control. They suggested a lowering of the rates to the level of the contiguous wage districts. In view of the increase in mechanical thinning some producers also recommended a single pre-weeding rate, that for first hoeing following complete machine thinning, with other pre-weeding wage rates to be as agreed upon between the producer and the worker. In response to questions by the presiding officers seeking views on simplification of the wage structure of the determination, most producer representatives expressed the opinion that specific piecework rates were preferable to a provision which would require piecework rates as agreed upon between the producer and the worker with average earnings of not less than the hourly rates specified in the determination. The reasons for their position were the added supervisory requirements, the keeping of time records, and the family characteristics of most labor crews. However, one producer representative indicated that such a minimum hourly earnings guarantee for piecework employees might be feasible for harvesting work only, since a very large proportion of the sugar beets are now mechanically harvested and the earnings of hand harvesters would probably exceed the minimum hourly wage rate of the determination.

Consideration has been given to recommendations made at the hearing, to current crop and price conditions, to data reflecting the economic position of producers, to the cost of living of workers, to changes occurring in production methods, to investigations, and to other pertinent factors. An analysis of these factors indicates that the wage rates of this determination are within producers' ability to pay and will return to workers average earnings which reflect changes in living costs during recent years.

During the past decade mechanical harvesting of sugar beets has progressed rapidly. It is estimated that about 90 percent of the 1953 crop was machine harvested. Since some farm families hand harvest their own crops, piecework rates are effective for relatively few farms during harvest. The elimination of specific piecework rates for hand harvesting and the provision for agreed upon piecework rates with a minimum hourly earnings guarantee to workers, will provide more flexible wage rate arrangements on farms where hand harvesting is performed. The minimum guarantee of 70 cents per hour is considered to be a reasonable level and there should be no necessity for adjustment of workers' earnings if the agreed upon piecework rates reflect actual field conditions. Certain explanations and definitions of wage rates provided in the 1953 determination have been clarified or eliminated which will result in further simplification of the wage rate structure.

The recommendation of certain producers that rates be reduced to the levels of contiguous districts because of changed production practices, has not been adopted as it appears desirable to give further study to the matter. The recommendation for a general reduction in the rate for first hoeing following complete machine thinning has not been adopted. Analysis indicates that the savings in labor costs for this operation compared with regular cultivation methods appear to be adequate to provide the economic incentive to producers for the further development and utilization of machine thinning.

After full consideration of available economic data, the wage rates provided in this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 22d day of March 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-2117; Filed, Mar. 24, 1954; 8:56 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 22]

PART 76—HOG CHOLERA, SWINE PLAGUE AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27 of the regulations restricting the interstate movement of swine and certain swine products because of vesicular exanthema (9 CFR, Part 76, Subpart B (18 F. R. 3636, 19 F. R. 1367), as amended) is hereby amended by deleting paragraph (a) relating to Arkansas, and by changing paragraph (b), subparagraph (1) of paragraph (c), and paragraphs (e) and (i), to read as follows:

§ 76.27 *Notice and quarantine.* Notice is hereby given that swine in the following areas in the specified States are affected with vesicular exanthema. Such areas are hereby quarantined because of said disease.

(a) [Deleted.]

(b) *California:* (1) That area consisting of all of those counties south of and including the counties of Sonoma, Napa, Solano, Sacramento, Amador, and Alpine.

(2) That area lying north and west of State Highway 24, south of the Richvale-Oroville Highway, and east of the Feather River; that area lying north of Humboldt Road, south of Eighth Avenue and Big Chico Creek, west of Ponderosa Way, and east of El Monte Avenue; and that area lying north of the Durham-Pentz Road, south of the Pearson Road, west of the Pentz Road, and east of the Clark Road, in Butte County.

(3) That area lying north and east of the U. S. Reclamation Drainage Canal, south of the Sycamore County Road, and west of U. S. Highway 99W; and that area consisting of Parcel 4, Lot 37 of Gibson Colony No. 1 lying along North Freshwater Creek off Freshwater Road, in Colusa County.

(4) That portion of Sec. 28, T. 14 N., R. 1 W., HU. B. & M., which lies west of U. S. Highway 101; Sec. 14, T. 17 N., R. 1 W., HU. B. & M.; Sec. 17, T. 16 N., R. 1 W., HU. B. & M.; and Sec. 23, T. 16 N., R. 1 W., HU. B. & M., in Del Norte County.

(5) NE. ¼ of SE. ¼ Sec. 27, NW. ¼ Sec. 26, T. 10 N., R. 10 E., M. D. B. & M.; and SW. ¼ of SW. ¼ Sec. 1, T. 9 N., R. 10 E., M. D. B. & M., in El Dorado County.

(6) That area lying north of County Road No. 57, south of County Road No. M, and east of Glenn-Colusa Irrigation Canal, in Glenn County.

(7) Sec. 34, T. 6 N., R. 1 W., HU. B. & M.; Secs. 19 and 31, T. 7 N., R. 1 E., HU. B. & M.; Sec. 28, T. 7 N., R. 5 E., HU. B. & M.; Secs. 9, 10, and 15, T. 6 N., R. 3 E., HU. B. & M.; Sec. 24, T. 4 S., R. 3 E., HU. B. & M.; Sec. 7, T. 2 N., R. 1 E., HU. B. & M.; Sec. 26, T. 4 N., R. 1 W., HU. B. & M.; Sec. 19, T. 4 S., R. 4 E., HU. B. & M.; Sec. 20, T. 9 N., R. 1 E., HU. B. & M.; Sec. 30, T. 8 N., R. 1 E., HU. B & M.; and Sec. 17, T. 2 N., R. 1 E., HU. B. & M., in Humboldt County.

(8) Sec. 2, T. 14 N., R. 7 W., M. D. B. & M.; Sec. 3, T. 11 N., R. 8 W., M. D. B. & M.; Sec. 13, T. 15 N., R. 10 W., M. D. B. & M.; Secs. 26 and 27, T. 14 N., R. 10 W., M. D. B. & M.; and Sec. 3, T. 10 N., R. 7 W., M. D. B. & M., in Lake County.

(9) Secs. 5 and 6, T. 29 N., R. 12 E., M. D. B. & M.; Sec. 4, T. 26 N., R. 16 E., M. D. B. & M.; and Sec. 11, T. 26 N., R. 15 E., M. D. B. & M., in Lassen County.

(10) Sec. 24, T. 19 N., R. 14 W., M. D. B. & M.; Secs. 6, 19, and 20, T. 18 N., R. 17 W., M. D. B. & M.; Secs. 27 and 29, T. 20 N., R. 14 W., M. D. B. & M.; Sec. 15, T. 19 N., R. 17 W., M. D. B. & M.; Sec. 3, T. 16 N., R. 12 W., M. D. B. & M.; Secs. 22 and 24, T. 21 N., R. 15 W., M. D. B. & M.; Secs. 4 and 27, T. 15 N., R. 12 W., M. D. B. & M.; Secs. 3, 4, 20, and 21, T. 18 N., R. 13 W., M. D. B. & M.; Sec. 28, T. 17 N., R. 11 W., M. D. B. & M.; Sec. 26, T. 22 N., R. 18 W., M. D. B. & M.; Sec. 29, T. 18 N., R. 13 W., M. D. B. & M.; and Sec. 23, T. 19 N., R. 13 W., M. D. B. & M., in Mendocino County.

(11) Sec. 1 and N. ½ Sec. 12, T. 42 N., R. 12 E., M. D. B. & M.; Sec. 13, T. 42 N., R. 13 E., M. D. B. & M.; and Secs. 18 and 19, T. 42 N., R. 14 E., M. D. B. & M., in Modoc County.

(12) Sec. 7, T. 15 N., R. 8 E., M. D. B. & M.; Secs. 18 and 19, T. 14 N., R. 8 E., M. D. B. & M.; and that area north of the Nevada county line, south of Truckee River adjacent to U. S. Highway 40, west of Truckee-Brockway Shortcut, County Road P151, and east of Truckee River adjacent to State Highway 89, in Nevada County.

(13) That area lying north of State Highway 28, south of the Placer County line, west of Truckee-Brockway Shortcut, County Road P151, and east of Truckee River adjacent to State Highway 89; that area lying north and west of U. S. Highway 40, south of Grove Creek, and east of U. S. Highway 99E; that area lying north of County Road P10, south and east of U. S. Highway 40, and west of County Road P18 and its prolongation to U. S. Highway 40; and that area lying north of Flood Road, south of Dry Creek Road, west of U. S. Highway 40, and east of State Highway 49, in Placer County.

(14) That area lying north of the Quincy-Meadow Valley Road, south of the Oakland Camp Road, and west of Meadow Valley Oakland Camp Road, in Plumas County.

(15) W. ½ of SW. ¼ Sec. 30 and Secs. 15 and 16, T. 32 N., R. 4 W., M. D. B. & M.; and Sec. 32, T. 32 N., R. 5 W., M. D. B. & M., in Shasta County.

(16) N. ½ Sec. 23, S. ½ Sec. 14, and W. ½ of SW. ¼ of SW. ¼ Sec. 26, T. 45 N., R. 7 W., M. D. B. & M.; NW. ¼ Sec. 30, and that portion of SW. ¼ Sec. 19 which lies south of Yreka-Montague Highway, T. 45 N., R. 6 W., M. D. B. & M.; NW. ¼ Sec. 34, T. 40 N., R. 4 E., M. D. B. & M.; Sec. 33, T. 42 N., R. 5 W., M. D. B. & M.; and Secs. 1 and 12, T. 39 N., R. 3 W., M. D. B. & M., in Siskiyou County.

(17) W. ½ of SW. ¼ of NW. ¼ Sec. 26 and NE. ¼ Sec. 32, T. 27 N., R. 4 W., M. D. B. & M., in Tehama County.

(18) Sec. 6, T. 5 N., R. 6 E., HU. B. & M.; and Sec. 30, T. 8 N., R. 1, HU. B. & M., East of Humboldt County, in Trinity County.

(19) NE. ¼ Sec. 36, T. 11 N., R. 2 E., M. D. B. & M.; NW. ¼ Sec. 11 and E. ½ of SE. ¼ Sec. 34, T. 9 N., R. 2 E., M. D. B. & M.; SE. ¼ of NW. ¼ Sec. 30, T. 10 N., R. 2 E., M. D. B. & M.; that area beginning at a point one mile east of the intersection of County Road 93 and State Highway 16, extending east along State Highway 16 for a distance of 176 yards, thence north ¼ mile, thence west 176 yards, thence south to point of origin in Sec. 33, T. 10 N., R. 1 E., M. D. B. & M.; that area beginning at the intersection of County Roads Nos. 32 and 95, extending west along Road No. 32 for 176 yards, thence south 200 yards, thence east 200 yards, thence north 200 yards, thence west 24 yards to point of origin in Secs. 15 and 16 in T. 8 N., R. 1 E., M. D. B. & M.; and that area beginning at the intersection of County Roads Nos. 124 and 126, extending south ¼ mile, thence west ½ mile, thence north ¼ mile, thence east to County Road No. 124, and thence southeast along County Road 124 to the point of origin, in Yolo County.

(20) That area lying north of Simpson Lane County Road, south of Plants Road and its prolongation to the Yuba River, west of the Yuba River, and east of State Highway 20; that area lying north of Old Earle Road, south of Upper Camp Beale Road, west of corner of Camp Beale, and east of Griffith Avenue; that area lying north of Tenth Street, south of Nigger Jack Slough, west of State Highway 24, and east of the Feather River; and Sec. 7, T. 14 N., R. 4 E., M. D. B. & M., in Yuba County.

* * * * * * *

(c) *Connecticut:* (1) Hartford County.

* * * * * * *

(e) *Massachusetts:* (1) Suffolk County.

(2) All of Bristol County except the following:

(i) That part of the Town of Acushnet lying north of Wing and Hathway Roads, south of Perry Hill Road, east of Main Street, and west of Mandell Road; and that part of the Town of Acushnet lying north and west of Main Street, south of Hamblin Street, and east of Middle Road.

(ii) That part of the City of Fall River lying southeast of Blossom Road, southwest of Yellow Hill Road, and north of Indian Town Road; and that part of the City of Fall River lying north of President Avenue, south of Driftwood Street, west of Meriden Street, and east of Highland Avenue.

(iii) That part of the Town of Mansfield lying south of West Street, west of the New York, New Haven and Hartford Railroad, north of Pine and School Streets, and east of Tremont Street.

(iv) That part of the City of New Bedford lying north of Quanipaugh Road, south of Plainville Road and Tarkin Hill Avenue, west of the New York, New Haven and Hartford Railroad, and east of High Hill Road.

(v) That part of the City of Norton lying north, south and east of Smith Street and west of Mansfield Avenue; that part of the Town of Norton lying northeast of Mansfield Avenue, southwest of Elm Street, northwest of State Route No. 123, and southeast of Reservoir Street; and that part of the Town of Norton lying northeast of Elm Street, northwest of State Route No. 123, southeast of Cross Street, and southwest of North Washington Street.

(vi) That part of the Town of North Dartmouth lying south of Hicksville Road, east of Cross Street, west of Bellen Street, and northeast of Cross Road and U. S. Route No. 6.

(vii) That part of the Town of North Easton lying north of Rockland Street, west of Bay Road, and east of Massapoag Avenue; and that part of the Town of North Easton lying north of Lincoln Street, east of Bay Street, South of Canton Street, and west of Main Street.

(viii) That part of the Town of Raynham lying north of Mill Street, east of State Route No. 104, south of Gardner Street, and west of King Phillip Street.

(ix) That part of the Town of Rehoboth lying west of Reed Street, south of Providence Street, and north and east of Peckham Street.

(x) That part of the Town of South Dartmouth lying north of Russell Mills Road, south of Allen Street, west of Slocum Road, and east of Tucker Road; and that part of the Town of South Dartmouth lying south of Roger Street, east of Dartmouth Street, north of Sol-E-Mar Street, and west of Clark's Cove.

(xi) That part of the Town of South Easton lying south of Main Street, north of Central Street, east of Washington Street and State Route No. 138, and west of the New York, New Haven and Hartford Railroad.

(xii) That part of the City of Swansea lying north of Marvel Road, south of Main Street, west of Sharp Lot Road, and east of Miller's Lane; and that part of the Town of Swansea lying north of Haile's Hill Road, south of Stevens Road, west of Sharp Lot Road, and east of Box Street.

(xiii) The Myles Standish State School in the Town of Taunton lying east of State Route No. 140, south and west of Bassett Street, and north of the New York, New Haven and Hartford Railroad; that part of the City of Taunton lying south of Norton Avenue, west of Crane Avenue, north of the New York, New Haven and Hartford Railroad, and east of State Route No. 140; that part of the City of Taunton lying south of Thrasher Street, north of Longmeadow and Winter Streets and U. S. Route No. 44, east of School Street, and west of King Phillip Street; that part of the City of Taunton lying south of East Brittania, north of Thrasher Street, east of Washington Street and west of King Phillip Street; and that part of the City of Taunton lying south of Tremont Street, north of Glebe Street, east of Burt Street, and west of North Walker Street.

(xiv) That part of the Town of Westport lying east of Main Road, north of Kirby Road, west of Drift Road, and south of Old County Road.

(3) All of Essex County except the following:

(i) That part of the Town of Andover lying north of Rattlesnake Hill Road, east of Woburn Street, west of Wood's Road, and south of Ballardvale Road; that part of the Town of Andover lying south of High Street, west of Greenwood Road, north of State Route No. 133, and east of Woodhill Road; and that part of the Town of Andover lying south of the Lowell Branch of the Boston and Maine Railroad, east of the Shawsheen River, and west of the Western Division of the Portland Branch of the Boston and Maine Railroad.

(ii) The Town of Ballard Vale.

(iii) The Town of Byfield.

(iv) The Town of Essex.

(v) That part of the City of Danvers lying north of State Route No. 62, south of Nicholas Street, and west of U. S. Route No. 1.

(vi) That part of the Town of Georgetown lying north of State Route No. 133, west of Bailey Lane, and south and east of Hampshire Lane; and that part of the Town of Georgetown lying east of Spofford Street, south of State Route No. 133, and west of Baldpate Road.

(vii) That part of the City of Gloucester lying north of State Route No. 121, south of Walker Street, and west of Lincoln Street, and that part of the City of Gloucester lying southwest of Witham Street, north of Thatcher Street, and east of Eastern Street.

(viii) The Town of Groveland.

(ix) That part of the City of Haverhill lying north of State Route No. 125, south and east of the Boston and Maine Railroad and the Merrimac River, and east of Main Street; that part of the City of Haverhill lying northeast of County Bridge Road and State Route No. 110; that part of the City of Haverhill lying west of the Boston and Maine Railroad, east of Hilldale Avenue, and north of State Route No. 97; and that part of the City of Haverhill lying south of State Route No. 97, east of Carleton Street, and northwest of Lowell Street.

(x) That part of the Town of Ipswich lying east of Town Farm Road, south of the Rowley River, west of East Street and Plum Island River, and north of High Street; that part of the Town of Ipswich lying south and east of Pine Swamp Road, north of Topsfield Road, and west of State Route No. 1-A; and that part of the Town of Ipswich lying northwest of East Street, east of Spring Street and Town Farm Road, and south of the Plum Island River.

(xi) The Town of Merrimac.

(xii) That part of the Town of Methuen lying south of Brookdale Avenue, east of Jasper Street, west of State Route No. 110, and north of Steele Street; that part of the Town of Methuen lying south of Renfrew Street, east of Jasper Street, west of State Route No. 110, and north of Baremeadow Brook; that part of the Town of Methuen lying north of State Route No. 113, southeast of Baremeadow Brook, and west of State Route No. 110; that part of the Town of Methuen lying north of Walton Avenue, west of the Merrimac River, south of Pitman Street, and east of State Route No. 110; that part of the Town of Methuen lying east of Howe Street, south of Archibald Street, west of Washington Street, and north of Roosevelt Street; that part of the Town of Methuen lying north and east of Forest Street, south of Pelham Street, and west of State Route No. 113; that part of the Town of Methuen lying east of Washington Street, southwest of Drew Street, and north of State Route No. 113; that part of the Town of Methuen lying north of Pitman Street, south of Gage Ferry Road, west of the Merrimac River, and east of State Route No. 110; and that part of the Town of Methuen lying southwest of the Merrimac River, north of River View Boulevard, and east of State Route No. 110.

(xiii) That part of the Town of Middleton lying southwest of State Route No. 114 and northwest of Forest Street.

(xiv) That part of the Town of North Andover lying north of State Route No. 125, east of Baker Street, and west of State Route No. 133; and that part of the Town of North Andover lying north of Salem Street, south of Winter Street, east of Dale and Bradford Streets, and west of Foster Street.

(xv) That part of the City of Peabody lying northeast of Lake Street (rear), northwest of the Boston and Maine Railroad, and southwest of Lake Street; that part of the City of Peabody lying north of Goodale Street, south of the Middleton Town Foundry, west of U. S. Route No. 1, and east of Morris Brooks; that part of the City of Peabody lying east of Farm Avenue, south of Forest Street, and north and west of Goldthwaite Brook; that part of the City of Peabody lying north of Lowell Street and east, west, and south of Goodale Street; that part of the City of Peabody lying north of Winona Street, south of Lowell Street, and west of Lake Street; that part of the City of Peabody lying south of Forest Street, north of State Route No. 128, east of U. S. Route No. 1, and west of Farm Avenue; that part of the City of Peabody lying south of Lynnfield Street, west of Lynn Street, north of Glenway Street, and east of the junction of Lynnfield and Glenway Streets; and that part of the City of Peabody lying northeast of Russell Street, and southwest of the Boston and Maine Railroad.

(xvi) The City of Revere.

(xvii) The Town of Rockport.

(xviii) That part of the Town of Saugus lying north of Main Street, east of U. S. Route No. 1, south of Prankers Pond, and west of Central Street.

(xix) That part of the City of West Peabody lying east of the Boston and Maine Railroad, south of Lake Street (rear), and west of U. S. Route No. 1.

(xx) The Town of Wenham.

(4) All of Hampden County except the following:

(i) That part of the Town of East Longmeadow lying north of Hampden Road, south of Springfield Road, east of State Route No. 83, and west of Carmoody Road; and that part of the Town of East Longmeadow lying south of Springfield Road, north and west of Hampden Road, and east of State Route No. 83.

(ii) That part of the Town of Hampden lying south of Carmoody Road, north of State Route No. 83, east of Hampden Road, and west of Wilbraham Road.

(iii) That part of the City of Springfield lying north of U. S. Route No. 20, south of Piper Cross and Morgan Roads, west of Westfield Road, and east of U. S. Route No. 5.

(iv) The Town of Tolland.

(v) That part of the City of West Springfield lying south of U. S. Route No. 202 and State Route No. 10, north and east of U. S. Route No. 20, and west of the Connecticut River.

(5) All of Middlesex County except the following:

(i) The Town of Ashby.

(ii) That part of the Town of Ashland lying east of Oak Street, south of Oregon Street, and northeast of Winter Street.

(iii) That part of the Town of Bedford lying south and west of Spring Brook, north of Page Road, and east of Springs Road; and that part of the Town of Bedford lying east of Crosby Road and the Shawsheen River, south of the Middlesex Turnpike, and north of State Route No. 62.

(iv) That part of the Town of Billerica lying northeast of U. S. Route No. 3, and northwest of Andover Road; that part of the Town of Billerica lying south of Dudley Road and west of Concord Road; that part of the Town of Billerica lying east of Lexington Road and southwest of U. S. Route No. 3; that part of the Town of Billerica lying east of Treble Cove Road, north of State Route No. 4, west of the Concord River, and south of U. S. Route No. 3; that part of the Town of Billerica lying south of Andover Road, north of Webb Brook Road, east of Boston Road, and west of Allen Road; and that part of the Town of Billerica lying south of Bridle Road, north of River Street, east of Treble Cove Road, and west of U. S. Route No. 3.

(v) That part of the Town of Boxboro lying south of State Route No. 111.

(vi) That part of the Town of Burlington lying southwest of U. S. Route No. 3, southeast of Francis Wyman Road, and north of Bedford Street; that part of the Town of Burlington lying southeast of Dug Way, northeast of Winn Street, and northwest of Peach Orchard Road; and that part of the Town of Burlington lying west of Middlesex Turnpike and north of Adams Street.

(vii) The Town of Carlisle.

(viii) The Town of Chelmsford.

(ix) That part of the Town of Concord lying north of Main Street, southeast of Marlborough Road, and southwest of State Route No. 2; and that part of the Town of Concord lying south of Laws Brook Road, north of the Boston and Maine Railroad, east of Old Stone Road, and west of Central Street.

(x) That part of the Town of Dracut lying east of Gumpas Avenue and west of Mammoth Road; that part of the Town of Dracut lying west and south of Lakeview Avenue from the Lowell town line to the Tyngsboro town line; that part of the Town of Dracut lying south of Marsh Hill Road, north and west of State Route No. 113, and east of State Route No. 38; and that part of the Town of Dracut lying south and east of Cross Street to State Routes No. 38 and No. 113, and north and west of Hildrith Street to Pelham Brook.

(xi) That part of the Town of Framingham lying south and west of Indian Head Road, east of Prospect Street, and north of State Route No. 9.

(xii) That part of the Town of Holliston lying south of Central Street, west of Fisk Street, and east of Norfolk Street; that part of the Town of Holliston lying southeast of State Route No. 16, southwest of the New York Central Railroad, and north of Woodland and Lowland Streets; that part of the Town of Holliston lying north of Prentice Street, south of Mill Street, and west of North Mill Street; and that part of the Town of Holliston lying north of Underwood Street, south of Prentice Street, east of Marshall Street, and west of Chamberlain Street.

(xiii) That part of the Town of Hopkinton lying east of Front Street, southeast of Mill Street, and northwest of Ash Street; and that part of the Town of Hopkinton lying north of Main Street and east of Cedar Street

(xiv) That part of the Town of Hudson lying west of Chapin Street, and northwest of Brigham Street and the Assabet River; and that part of the Town of Hudson lying northwest of State Route No. 62 and northeast of Cox Street and Cemetery Road.

(xv) That part of the Town of Lexington lying west of Westview Road and south of State Routes No. 4 and No. 25; and that part of the Town of Lexington lying south of Moreland Avenue, west of Pleasant Street, east of Meadowbrook Avenue, and north of State Route No. 2.

(xvi) That part of the Town of Lincoln lying north of State Route No. 2, south of State Route No. 2A, east of Bedford Road, and west of Mill Street.

(xvii) That part of the Town of Marlboro lying south of Robin Hill Road, east of Millham Road, west of Bigelow Street, and north of Elm Street.

(xviii) That part of the Town of North Reading lying north of State Route No. 62 and east of State Route No. 28.

(xix) That part of the Town of North Wilmington lying east of Andover and Woburn Streets and north of Park Street.

(xx) The Town of Pepperill.

(xxi) The Town of Reading.

(xxii) The Town of Shirley.

(xxiii) That part of the Town of Stow lying south of State Route No. 117, west of Athens Road, and north of Bolton Road; and that part of the Town of Stow lying south of State Route No. 117, north of Walcott Street, west of Hudson Street, and east of Athens Street.

(xxiv) That part of the Town of Sudbury lying south of Lincoln Road, north and west of Water Street, and east of Concord Road; that part of the Town of Sudbury lying north of State Route No. 117, east of Dakin Road, and west of the Old Colony Railroad; that part of the Town of Sudbury lying south of Concord Road, north of Lincoln Road, west of Corner Road, and east of Old Marlboro Road; and that part of the Town of Sudbury lying north of the Boston and Maine Railroad, east of Horse Pond Road, southeast of Peakham Road, and west of the Old Colony Railroad.

(xxv) That part of the Town of Tewksbury lying northwest of the Shawsheen River, northeast of State Route No. 38, and south of Salem Street; and that part of the Town of Tewksbury lying south of East Street, north of North Street, east of State Route No. 38, and west of Maple Street.

(xxvi) The Town of Tynsboro.

(xxvii) That part of the City of Waltham lying east of Wyman Street, south and west of Lincoln Street, and north of Winter Street.

(xxviii) That part of the Town of Wayland lying north of Thompson Street, west of Rice Road, east of Loker Road, and south of Old Connecticut Path.

(xxix) That part of the Town of Westford lying south and west of State Route No. 25;

and that part of the Town of Westford lying north of Groton Road and State Route No. 40.

(xxx) That part of the Town of Weston lying south of U. S. Route No. 20, west of School Street, north of Chestnut and Wellesley Streets, and east of Golden Ball Road and Chestnut Street; and that part of the Town of Weston lying north of U. S. Route No. 20.

(xxxi) That part of the Town of Wilmington lying north of Salem Street, northwest of State Route No. 62, west of Ballardvale Street, southwest of the Salem and Lowell Branch of the Boston and Maine Railroad, and east of the Portland Division of the Western Branch of the Boston and Maine Railroad; that part of the Town of Wilmington lying northeast of State Route No. 38, west of the Wilmington Branch of the Boston and Maine Railroad, and south of Salem Street; that part of the Town of Wilmington lying east of the Wilmington Branch of the Boston and Maine Railroad, west of the Portland Branch of the Boston and Maine Railroad, and north of Salem Road; and that part of the Town of Wilmington lying east of Woburn Street, north of Concord Road, and south of Park Street.

(xxxii) That part of the City of Woburn lying south of Putnam Street, north of University Street, east of Middle Street, and west of Ohio Street, and that part of the City of Woburn lying north of Russell Street and west of Cambridge Road.

(xxxiii) That part of the Town of Ashland lying south of Tri Street, west of State Route No. 126, north of Eliot Street, and east of Cedar Street.

(6) All of Norfolk County except the following:

(i) That part of the Town of Avon lying northeast of Central Street and northwest of Pond Street and State Route No. 28.

(ii) That part of the Town of Bellingham lying north of Farm Street and west of Hartford Street.

(iii) That part of the Town of Canton lying south of Randolph Street, east of York Street, north of Willow Street, and west of Old Randolph Street; and that part of the Town of Canton lying south of Randolph and Washington Streets, east of Pleasant Street, and west of State Route No. 138.

(iv) That part of the Town of Dedham lying southeast of State Route No. 109 and northwest of U. S. Route No. 1.

(v) That part of the Town of Dover lying south of Powisset Street, east of Walpole Street, and north of Hartford Street.

(vi) That part of the Town of Foxboro lying east of Central Street, south of Spring Street, and west of Belcher Street; and that part of the Town of Foxboro lying south of Chestnut Street, north and west of Mechanic Streets, and east of Main Street.

(vii) That part of the Town of Holbrook lying south of State Route No. 139.

(viii) That part of the Town of Norfolk lying west of Massapoag Avenue and south and east of Mansfield Street; and that part of the Town of Norfolk lying south of the Midland Division of the New York, New Haven and Hartford Railroad, north of State Route No. 1-A, and east of State Route No. 115.

(ix) The Town of Norwood.

(x) That part of the Town of Plainville lying south of Warren Street, east of High and Hawkins Streets, and west of West Bacon Street.

(xi) That part of the Town of Randolph lying east of High Street, north of Chestnut Street, west of Overlook Road, and south of Canton Street.

(xii) That part of the Town of Sharon lying north of Main Street; and that part of the Town of Sharon lying south of Morse Street, east of Massapoag Avenue, and west of Mountain Street.

(xiii) That part of the Town of South Bellingham lying south and east of Pulaski Boulevard.

(xiv) The Town of South Walpole.

(xv) The Town of Walpole.

(xvi) The Town of Wellesley.

(xvii) The Town of Westwood.

(xviii) That part of the Town of Wrentham lying north of State Route No. 11 and south of State Route No. 140; that part of the Town of Wrentham lying south and east of State Route No. 11 and west of U. S. Route 1-A; that part of the Town of Wrentham lying south of State Route No. 140, east of State Route No. 1-A, and west of U. S. Route No. 1; and that part of the Town of Wrentham lying north of State Route No. 140 and west of State Route No. 1-A.

(xix) The Town of Stoughton.

(7) All of Plymouth County except the following:

(i) That part of the Town of Abington lying south of Randolph Street, north of Rockland Street, west of Bedford Street, and east of Hancock Street.

(ii) That part of the Town of Bridgewater lying southwest of Winter Street, north of Auburn Street, and east of Beaver Street; that part of the City of Bridgewater lying north of Flagg Street, southwest of Conant Street, and southeast of Summer Street; and that part of the Town of Bridgewater lying south of Flagg and Auburn Streets, north and west of the Taunton River, and east of State Route No. 28.

(iii) That part of the Town of Brockton lying south of East Ashland Street, north of Court Street, and east of North Quincy Street; and that part of the Town of Brockton lying south of Edson Street, north of Plain Street, east of Summer Street, and west of East Street.

(iv) That part of the Town of Carver lying north of High Street, west of Plympton Road, and east of Brook Street.

(v) That part of the Town of Halifax lying south of Haywood Street and east of South Street; and that part of the Town of Halifax lying north and east of Wood Street, west of South Street, and south of River Street.

(vi) That part of the Town of Hanson lying north of Main Street, east of Washington Street, south of Holmes Street, and west of Philips Street.

(vii) That part of the Town of Lakeville lying east of State Route No. 105, southwest of Baughn Street, and north of the Assawomset Lake.

(viii) That part of the Town of Mattapoisett lying south of Aucoot Road, west of Peasespoint Road, and east of Bowman Road.

(ix) That part of the Town of Middleborough lying south of Smith Street, east of the New York, New Haven and Hartford Railroad, west of State Route No. 28, and north of Spruce Street; that part of the Town of Middleborough lying south of Plymouth Street, north of Centre Street, east of Vernon Street, and west of Pleasant Street; and that part of the Town of Middleborough lying west of Pleasant Street, east of Vernon Street and the Poquoy River, north of Mill and Clay Streets, and south of Centre Street.

(x) The Town of Norwell.

(xi) That part of the Town of Plymouth lying south of Stafford Street, north of Newfield Street, east of Summer Street, and west of Birch Avenue.

(xii) That part of the Town of Plympton lying south of County Road and northwest of Maple Street; and that part of the Town of Plympton lying south of Ring Road, north of Brook Street, and east of Upland Road.

(xiii) That part of the Town of Rochester lying east of the Mattapoisett-Rochester Road and south of New Bedford Road and State Route No. 105; that part of the Town of Rochester lying south of State Route No. 105, north of Perry Hill Road, west of Herring Run River, and east of Cushman Road; and that part of the Town of Rochester lying east of Vaughns Hill Road, south of Hartlet Road, west of Mendall Road, and north of Taunton Road.

(xiv) That part of the Town of Rockland lying south of Summer Street and east of Beach Street; and that part of the Town of Rockland lying south of Forest Street, west of Union Street, and east of Weymouth Street.

(xv) That part of the City of West Bridgewater lying northeast of State Route No. 28 and southwest of Ash Street.

(8) All of Worcester County except the following:

(i) The Town of Ashburnham.

(ii) That part of the Town of Blackstone lying west of Mendon Street and north and east of Chestnut Street; that part of the Town of Blackstone lying north of Lincoln and Orchard Streets, south of Town Farm Road and Chestnut Street, and west of Meadow Street; and that part of the Town of Blackstone lying northwest of Hill and Grove Streets and south and east of Hill Street.

(iii) That part of the Town of Boylston lying south of Green Street, north of Rocky Pond Road, and east of Warren Street.

(iv) That part of the Town of Fitchburg lying north of Westminster Road, south of MacIntyre Road, east of Alpine Road, and west of Williams Street.

(v) The Town of Gardner.

(vi) That part of the Town of Grafton lying east of State Routes No. 140 and No. 30; and that part of the Town of Grafton lying north of Follett Street, south of Millbury Street, and west of Fitzpatric Street.

(vii) That part of the Town of Harvard lying southeast of Old Mill Road, north of Pinhill Road, and west of Ayer Road.

(viii) That part of the Town of Mendon lying north of Bellingham Road and south and east of Hartford Avenue East.

(ix) The Town of Milford.

(x) That part of the Town of Millville lying north, east, and south of Hill Street and west of Grove Street; and that part of the Town of Millville lying southwest of State Route No. 122 and east of Chestnut Street.

(xi) That part of the town of Oxford lying south of State Route No. 12.

(xii) That part of the Town of Sturbridge lying north of Cooper Road, east of Arnold Road, and west of Brookfield Road.

(xiii) That part of the Town of Sutton lying south of Boston Road, north of State Route CD-520, east of Singletary Avenue, and west of State Route No. 146; and that part of the Town of Sutton lying southeast of Pitman Hill Road, north of Central Street, and west of Uxbridge Road.

(xiv) The Town of Templeton.

(xv) That part of the Town of Westboro lying north of State Route No. 9.

* * * * *

(l) *Rhode Island:* (1) Bristol and Kent Counties.

(2) All of Providence County except the following:

(i) That part of the Town of Cranston lying east of Pippin Orchard Road, west of Seven Mile Road, north of Plainfield Pike, and south of Scituate Avenue.

(ii) That part of the Town of Johnston lying east of Simmonsville Avenue, northwest of Scituate Avenue, and south of Simmonsville Lake.

(iii) That part of the Town of Scituate lying west of Matteson Road, south of Hope Furnace Road, east of Burnt Hill Road, and north of Tunk Hill Road.

Effective date. The foregoing amendment shall become effective upon issuance.

The Town of Manchester in Hartford County in Connecticut was previously included within the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established. This amendment includes the remainder of Hartford County within such areas. Hereafter, the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), will apply to Hartford County in Connecticut.

The amendment excludes certain areas in Arkansas, California, Massachusetts, and Rhode Island from the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established. Hereafter, the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas contained in said Subpart B, as amended, will apply thereto.

The amendment imposes certain further restrictions necessary to prevent the spread of vesicular exanthema, a contagious, infectious, and communicable disease of swine, and relieves certain restrictions presently imposed. The amendment must be made effective immediately to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 120, 111, 123, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

Done at Washington, D. C., this 19th day of March 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 22]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

AIR TAXI OPERATOR CERTIFICATE

The purpose of this supplement is to list by section number the provisions of Part 42 of this subchapter and Civil Aeronautics Manual 42, and provide additional regulations which are applicable to the certification and operation of air taxi service. The proposed rules were published on December 12, 1953, in 18 F. R. 8182; interested persons were afforded an opportunity to submit data, views, or arguments; and consideration has been given to all relevant matter presented. The following rules and interpretations are hereby adopted:

§ 42.0-2 *Provisions of this part which are applicable to air taxi operators (CAA interpretations which apply to § 42.0 and SR-395).*

(a) Under SR-395, the following sections of the certification and operation rules of this part apply to air taxi operators:

42.0 *Applicability of this part.* (a).
42.1 *Definitions.* (a) (2), (4), (5), (6), (7), (12a), (13), (14), (15), (20), (21), (22), (23), (24), (27), (28), (29), (30), (32), (33).
42.5 *Certificate issuance.*
42.7 *Display.*
42.8 *Inspection.*
42.11 *Aircraft required.*
42.14 *Minimum performance requirements for all aircraft.*
42.16 *Aircraft limitations for IFR and land aircraft over water operations.*
42.21 *Basic required instruments and equipment for aircraft.*
42.24 *First aid and emergency equipment.*
42.25 *Cockpit check list.*
42.26 *Supplemental oxygen.*
42.28 *Equipment standards.*
42.29 *Protective breathing equipment for the flight crew.* (b).
42.30 *General.* (Maintenance requirements).
42.31 *Inspections and maintenance.* (a) (2), (b).
42.40 *Airman requirements.*
42.41 *Composition of flight crew.* (a), (b), (c).
42.42 *Pilot qualification for small aircraft.*
42.44 *Recent flight experience requirements for flight crew members.*
42.46 *Logging flight time.*
42.47 *Grace period for airman periodic checks.*
42.51 *Pilot responsibilities.*
42.52 *Fuel supply.* (a) (1), (3), (b).
42.53 *Minimum flight altitude rules.*
42.54 *Flight into known icing conditions.*
42.55 *Weather minimums.*
42.56 *Instrument approach.*
42.57 *Airport lighting for night operations.*
42.58 *Navigational aids for IFR flight.*
42.59 *Passenger use of emergency equipment.*
42.62 *Flight manifest for large aircraft and passenger-carrying aircraft operating under IFR conditions.*
42.91 *Maintenance records.*
42.92 *Airman records.*
42.93 *Emergency flight reports.*
42.94 *Pilot's emergency deviation report.*
42.95 *Flight manifest record.*
42.96 *Reporting of malfunctioning and defects.*

(b) The following sections of CAM 42 are applicable to the provisions of this part listed in paragraph (a):

42.1-1 *Flight time (CAA interpretations which apply to § 42.1 (a) (14)).*
42.1-3 *Twilight (CAA interpretations which apply to § 42.1 (a) (20)).*
42.11-1 *Listing of aircraft (CAA rules which apply to § 42.11).* (a).
42.21-1 *Seats and safety belts (CAA rules which apply to § 42.21 (a) (11)).*
42.21-2 *Fire extinguishers (CAA rules which apply to § 42.21 (a) (12)).*
42.21-3 *Altimeter (CAA policies which apply to § 42.21 (b) (1)).*
42.24-1 *First-aid and emergency equipment (CAA policies which apply to § 42.24).*
42.24-2 *First-aid kit (CAA rules which apply to § 42.24 (a)).*
42.24-4 *Emergency equipment (CAA rules which apply to § 42.24 (b)).*
42.25-1 *Cockpit check list (CAA policies which apply to § 42.25).*
42.25-2 *Minimum-standard cockpit check list (CAA policies which apply to § 42.25).*
42.30-1 *General* (Maintenance) *(CAA policies which apply to § 42.30).*
42.31-2 *Maintenance and inspection—small aircraft (CAA policies which apply to § 42.31 (a) (2)).*
42.31-3 *Maintenance and inspection; all aircraft (CAA policies which apply to § 42.31 (a) (1) and (2)). (c) (1), (2).*
42.31-4 *Maintenance and inspection records (CAA policies which apply to § 42.31 (b)).*
42.51-1 *Responsibilities of the pilot in command (CAA policies which apply to § 42.51).*
42.51-2 *Time of reporting for duty (CAA policies which apply to § 42.51 (b)).*
42.51-3 *Flight equipment (CAA policies which apply to § 42.51 (c)).*
42.51-4 *Serviceability of equipment (CAA policies which apply to § 42.51 (e)).*
42.53-3 *Operation in the territory of Alaska (CAA policies which apply to § 42.52 (b)).*
42.54-1 *Other parts of the aircraft (CAA interpretations which apply to § 42.54).*
42.55-1 *En route weather minimums (CAA interpretations which apply to § 42.55 (a)).*
42.55-2 *Air traffic clearance (CAA interpretations which apply to § 42.55 (a)).*
42.56-1 *Standard instrument approach procedures (CAA rules which apply to § 42.56).*
42.57-1 *Minimum facilities (CAA policies which apply to § 42.57).*
42.58-1 *Off-airway instrument operation (CAA rules which apply to § 42.58).*
42.62-1 *Content of flight manifest (CAA policies which apply to § 42.62).*
42.91-1 *Content of maintenance records (CAA policies which apply to § 42.91).*
42.91-3 *Retention of records (CAA policies which apply to § 42.91).*
42.92-1 *Content of airman records (CAA policies which apply to § 42.92).*
42.92-2 *Availability of records (CAA policies which apply to § 42.92).*
42.92-3 *Retention of records (CAA policies which apply to § 42.92).*
42.93-1 *Submission of emergency flight reports (CAA policies which apply to § 42.93).*
42.94-1 *Submission of pilot's emergency deviation report (CAA policies which apply to § 42.94).*

(c) In addition to the items listed in paragraph (a) and (b) of this section, air taxi operators are governed by the following regulations:

(1) Economic Regulations Part 298.

(2) Economic Regulations Part 242, if aircraft having more than five passenger seats are used.

§ 42.0-3 *Operations for which an air taxi operator certificate is not required. (CAA interpretations which apply to § 42.0 and SR-395).* The following operations which may involve remuneration are not considered as coming within the meaning of carriage by aircraft of persons or property as an air taxi operator:

(a) Student instruction.

(b) Local sightseeing flights which return to the point of departure without landing at other points.

(c) Any crop dusting, spraying, seeding, pest control, or other agricultural operations.

(d) Any industrial aviation operations such as patrol, photography, banner towing, etc.

(e) Any other aviation operation when the carriage of persons or materials is incidental to the main purpose of the flight.

§ 42.5–5 *Application for an air taxi operator certificate (CAA rules which apply to § 42.5 and SR–395).* (a) Application for an Air Taxi Operator Certificate shall be made in triplicate on Form ACA–1602, provided for this purpose by the Administrator. The application form may be obtained by contacting the local Aviation Safety Agent or District Office. When the requirements, as prescribed in this part, have been met (see § 42.0–2), the applicant shall present his application to the local Aviation Safety Agent and arrange for an inspection of his flight equipment and all ground facilities.

(b) Where inspection indicates that the applicant is capable of conducting the proposed operation in accordance with the provisions of § 42.0–2, an Air Taxi Operator Certificate, Form ACA–1603, will be issued, together with operations specifications. The operations specifications which have been approved on the application form become a part of the certificate and specify the carriage of passengers, cargo, or both; the category and class of aircraft (e. g., aircraft single-engine land); and the flight conditions under which operations are authorized (e. g., VFR day, VFR night, IFR day, IFR night).

§ 42.5–6 *Amendment and reissuance of air taxi operator certificates (CAA rules which apply to § 42.5).* (a) Application for amendment and reissuance of an air taxi operator certificate shall be made, in accordance with procedure for original issuance, when the operator desires a change in:

(1) Name or address of operator.
(2) Ownership.
(3) Area of operations.
(4) Base of operations.
(5) Type of operations.

(b) In cases of paragraph (a) (1), (2), and (3) of this section the agent may elect to inspect the aircraft as for original issuance.

(c) In cases set forth in paragraph (a) (4) of this section the agent may elect to inspect the aircraft if the base of operations is not moved out of the region of previous certification. Inspection will be made and a new certificate and number will be issued when the base is moved to another region.

(d) In cases set forth in paragraph (a) (5) of this section, inspection as for original issuance will be made.

§ 42.11–2 *Listing of small aircraft (CAA interpretations which apply to § 42.11).* An air taxi operator is required to have the exclusive use of at least one aircraft. However, such aircraft are not required to be listed on the operations specifications of air carrier operating certificates issued to air taxi operators. Therefore, no amendment of the certificate is required when an air taxi operator changes aircraft.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This supplement shall become effective April 1, 1954.

F. B. Lee,
Administrator of Civil Aeronautics.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter I—Irrigation Projects; Operation and Maintenance

PART 130—ORDER FIXING OPERATION AND MAINTENANCE CHARGES

FLATHEAD INDIAN IRRIGATION PROJECT, MONTANA

MARCH 19, 1954.

On February 18, 1954, there was published in the daily issue of the FEDERAL REGISTER notice of intention to amend §§ 130.16 and 130.17 of the Title 25, Code of Federal Regulations, dealing with irrigable lands of the Flathead Indian Irrigation Project not subject to the jurisdiction of the several irrigation districts. Interested persons were thereby given opportunity to participate in preparing the amendments by submitting data or written arguments within 30 days from the date of publication of the notice. No objections were submitted. Accordingly §§ 130.16 and 130.17 are amended as follows, to be effective for the season of 1954 and thereafter until further order.

§ 130.16 *Charges, Jocko Division.* (a) An annual minimum charge of $2.05 per acre, for the season of 1954 and thereafter until further notice, shall be made against all assessable irrigable land in the Jocko Division that is not included in an Irrigation District organization, regardless of whether water is used.

(b) The minimum charge when paid shall be credited on the delivery of the pro rata per acre share of the available water up to one and one-half acre feet per acre for the entire assessable area of the farm unit, allotment or tract. Additional water, if available will be delivered at the rate of one dollar and thirty-seven cents ($1.37) per acre foot or fraction thereof.

§ 130.17 *Charges, Mission Valley and Camas Divisions.* (a) (1) An annual minimum charge of $2.64 per acre, for the season 1954 and thereafter until further notice, shall be made against all assessable irrigable land in the Mission Valley Division that is not included in an Irrigation District organization regardless of whether water is used.

(2) The minimum charge when paid shall be credited on the delivery of the pro rata per acre share of the available water up to one and one-half acre feet per acre for the entire assessable area of the farm unit, allotment or tract. Additional water, if available, will be delivered at the rate of one dollar and seventy-six cents ($1.76) per acre foot or fraction thereof.

(b) (1) An annual minimum charge of $2.26 per acre, for the season of 1954 and thereafter until further notice, shall be made against all assessable irrigable land in the Camas Division that is not included in an Irrigation District organization regardless of whether water is used.

(2) The minimum charge when paid shall be credited on the delivery of the pro rata per acre share of the available water up to one and one-half acre feet per acre for the entire assessable area of the farm unit, allotment or tract. Additional water, if available, will be delivered at the rate of one dollar and fifty-one cents ($1.51) per acre foot or fraction thereof.

(Secs. 1, 9, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

Amendment to order dated April 16, 1953 (17 F. R. 3146) signed by Paul L. Fickinger, Area Director.

F. M. Haverland,
Acting Area Director.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6047]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

DISTILLERS CORPORATION-SEAGRAMS, LTD., ET AL.

Subpart—*Combining or conspiring:* § 3.410 *To eliminate or restrain competition in conspirators' goods:* § 3.425 *To enforce or bring about resale price maintenance;* § 3.430 *To enhance, maintain or unify prices.* Subpart—*Dealing on exclusive and tying basis:* § 3.670 *Dealing on exclusive and tying basis.* Subpart—*Maintaining resale prices:* § 3.1130 *Contracts and agreements.* I. In or in connection with the offering for sale, sale, or distribution in commerce of alcoholic beverages, and on the part of respondent Joseph E. Seagram & Sons, Inc., and twelve other corporations, entering into, cooperating in, carrying out, or continuing any combination, conspiracy, cooperation or planned common course of action between any two or more of said respondents engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, or between any one or more of said respondents and any wholly or partly owned subsidiary or affiliated concern not a party, engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, to (1) raise, fix, stabilize, or maintain prices; (2) discuss, confer or exchange information for the purpose or with the effect of establishing or maintaining prices, terms, or conditions of sale, or of securing adherence to prices, terms, or conditions of sale; (3) exchange information with or meet with any retail liquor dealer or with any representative of any retail liquor dealer association, or others for the purpose or with the effect of reaching agreement as to the employment of any resale price maintenance contract or arrangement, of adjusting, or increasing resale prices after tax rate changes, or of reaching agreement as to the use of any resale price maintenance contract or arrangement as a means of raising, fixing, stabilizing, or maintaining prices; (4) use common directors or officers as a means of raising, fixing, stabilizing, or maintaining prices; and (5) enter into any resale price maintenance contract or arrangement, or police, enforce, or attempt to police or enforce any such contract or arrangement; and, II, effecting or maintaining any condition, agreement, contract, understanding, or arrangement, express or implied, on the part of each of said respondents, providing that any distributor or any other purchaser shall be required to give notice in advance of dealing in any alcoholic beverage product produced or sold by any competitor or competitors of respondents; prohibited, subject to the provision, however, that nothing contained in the order shall be construed to limit or otherwise affect any right with respect to resale price maintenance contracts or arrangements which any of the respondents may have under section 5 of the Federal Trade Commission Act as amended by the McGuire Act (Public Law 542, 82d Cong., Chap. 745, 2d Sess., Approved July 14, 1952); and subject to the further proviso that if, as a result of any valid statute or regulation of any state, territory, or possession or subdivision thereof, adopted pursuant to the Twenty-first Amendment to the Constitution of the United States, relating to the offering for sale, sale, or distribution of alcoholic beverages, respondents, or any of them, or one or more of their wholly or partly owned subsidiaries or affiliated concerns, as a condition of doing business in said state, territory, possession or subdivision thereof, engage in acts or practices which, upon a prima facie showing on the record (not overcome by answer) may be construed by the Federal Trade Commission as violating any provision of the foregoing order, the Commission agrees that it will reopen the order solely for the purpose of determining whether to alter, modify, or set aside such provision and that it will suspend such provision of the order, pending disposition of the issue as to whether such provision should be altered, modified, or set aside, it being further provided in the aforesaid connection that said proviso shall be without prejudice to, and that nothing therein contained shall be construed to limit or otherwise affect, any defense which might otherwise be available to any respondent, in any proceeding to enforce the foregoing order or based on an alleged violation thereof.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Distillers Corporation-Seagrams, Ltd., et al., Montreal, Canada, Docket 6047, Mar. 2, 1954]

In the Matter of Distillers Corporation-Seagrams, Ltd., a Corporation, and Its Subsidiaries: Joseph E. Seagram & Sons, Inc., a Corporation, and Its Subsidiaries: Seagram Distillers Corporation, a Corporation, and Its Subsidiary: Distillers Products Sales Corporation, a Corporation, Seagram, Inc., a Corporation, and Its Subsidiaries: Frankfort Distilleries, Incorporated, a Corporation, and Its Subsidiary: Frankfort Distillers Corporation, a Corporation, Distillers Warehouses, Inc., a Corporation, and Its Subsidiary: Paul Jones and Company, Inc., a Corporation, William Jameson & Company, Inc., a Corporation, Hunter-Wilson Distilling Co., Inc., a Corporation, Gallagher & Burton, Inc., a Corporation, Carstairs Bros. Distilling Co., Inc., a Corporation, and Its Subsidiary: Carstairs Distillers Corporation, a Corporation, The Calvert Distilling Co., a Corporation, and Its Subsidiaries: Calvert Distilleries Corporation, a Corporation, Julius Kessler Distilling Co., Inc., a Corporation, Browne-Vintners Co., Inc., a Corporation, Distillers Distributing Corporation, a Corporation, Seagram Sales Corporation, a Corporation, Sea-Cal-Frank Corporation, a Corporation, The Pharma-Craft Corporation, a Corporation

This proceeding was instituted by complaint which charged respondents with the use of unfair methods of competition and/or unfair acts and practices in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, subject to the exception below set forth, through the consent settlement procedure provided in Rule V of the Commission's rules of practice, as announced by the Commission's "Notice", dated March 8, 1954, as follows:

Counsel supporting the complaint having stated that evidence is not available to support the allegations of the complaint other than those covered by the consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, the said consent settlement was accepted by the Commission on March 2, 1954 and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

Said order, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

It is ordered, That the respondents, Joseph E. Seagram & Sons, Inc., a corporation, Seagram Distillers Corporation, a corporation, Distillers Products Sales Corporation, a corporation, Frankfort Distilleries, Incorporated, a corporation, Frankfort Distillers Corporation, a corporation, Paul Jones and Company, Inc., a corporation, Hunter-Wilson Distilling Co., Inc., a corporation, Gallagher & Burton, Inc., a corporation, Carstairs Bros. Distilling Co., Inc., a corporation, The Calvert Distilling Co., a corporation, Calvert Distillers Corporation, a corporation, Julius Kessler Distilling Co., Inc., a corporation, and Distillers Distributing Corporation, a corporation, directly or indirectly, through their officers, agents, representatives or employees, in or in connection with the offering for sale, sale or distribution in commerce between and among the several States of the United States and in the District of Columbia, of alcoholic beverages, do forthwith cease and desist from entering into, cooperating in, carrying out or continuing any combination, conspiracy, cooperation or planned common course of action between any two or more of said respondents engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, or between any one or more of said respondents and any wholly or partly owned subsidiary or affiliated concern not a party hereto, engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, to do or perform any of the following acts or things:

(1) Raise, fix, stabilize or maintain prices;

(2) Discuss, confer or exchange information for the purpose or with the effect of establishing or maintaining prices, terms or conditions of sale, or of securing adherence to prices, terms or conditions of sale;

(3) Exchange information with or meet with any retail liquor dealer or with any representative of any retail liquor dealer association, or others for the purpose or with the effect of reaching agreement as to the employment of any resale price maintenance contract or arrangement, of adjusting or increasing resale prices after tax rate changes, or of reaching agreement as to the use of any resale price maintenance contract or arrangement as a means of raising, fixing, stabilizing or maintaining prices;

(4) Use common directors or officers as a means of raising, fixing, stabilizing or maintaining prices;

(5) Enter into any resale price maintenance contract or arrangement, or police, enforce, or attempt to police or enforce any such contract or arrangement.

It is further ordered, That each of the respondents, directly or indirectly, through its officers, agents, representatives or employees, do forthwith cease and desist from effecting or maintaining any condition, agreement, contract, understanding or arrangement, express or implied, providing that any distributor or any other purchaser shall be required to give notice in advance of dealing in any alcoholic beverage product produced or sold by any competitor or competitors of respondents.

Provided, That nothing herein contained shall be construed to limit or otherwise affect any right with respect to resale price maintenance contracts or arrangements which any of the respondents may have under section 5 of the Federal Trade Commission Act as amended by the McGuire Act (Public Law 542, 82d Cong., Chap. 745, Second Session, Approved July 14, 1952).

Provided further, That if, as a result of any valid statute or regulation of any state, territory, or possession or subdivi-

[1] Filed as part of the original document.

sion thereof, adopted pursuant to the Twenty-first Amendment to the Constitution of the United States, relating to the offering for sale, sale or distribution of alcoholic beverages, respondents, or any of them, or one or more of their wholly or partly owned subsidiaries or affiliated concerns, as a condition of doing business in said state, territory, possession or subdivision thereof, engage in acts or practices which, upon a prima facie showing on the record herein (not overcome by answer) may be construed by the Federal Trade Commission as violating any provision of the foregoing order, the Commission agrees that it will reopen this order solely for the purpose of determining whether to alter, modify or set aside such provision and that it will suspend such provision of this order, pending disposition of the issue as to whether such provision should be altered, modified or set aside. This proviso shall be without prejudice to, and nothing herein contained shall be construed to limit or otherwise affect, any defense which may otherwise be available to any respondent, in any proceeding to enforce the foregoing order or based on an alleged violation thereof.

It is further ordered, That Distillers Corporation-Seagrams, Ltd., a corporation, Seagram, Inc., a corporation, Distillers Warehouses, Inc., a corporation, William Jameson & Company, Inc., a corporation, Carstairs Distillers Corporation, a corporation, and the Pharma-Craft Corporation, a corporation, are hereby dismissed from this proceeding; such dismissals are without prejudice.

It is further ordered, That Seagram Sales Corporation, a corporation, Sea-Cal-Frank Corporation, a corporation, and Browne-Vintners Co., Inc., a corporation, are hereby dismissed from this proceeding. *Provided, however*, That the dismissal of these three corporations is without prejudice and is not to be construed in any sense as exempting said corporations from the application of any of the provisions of the order to cease and desist as are applicable to any concern wholly or partly owned or controlled by or affiliated with any one or more of the respondents herein.

It is further ordered, That the respondents shall, within twelve months after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: March 8, 1954.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, JR., *Secretary.*

[Docket 6048]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

SCHENLEY INDUSTRIES, INC., ET AL.

Subpart—*Combining or conspiring:* § 3.410 *To eliminate or restrain competition in conspirators' goods;* § 3.425 *To enforce or bring about resale price maintenance;* § 3.430 *To enhance, maintain or unify prices.* Subpart—*Maintaining resale prices:* § 3.1130 *Contracts and agreements.* In or in connection with the offering for sale, sale, or distribution in commerce of alcoholic beverages, and on the part of respondent Schenley Industries, Inc., and four other corporations, entering into, cooperating in, carrying out or continuing any combination, conspiracy, cooperation or planned common course of action between any two or more of said respondents engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, or between any one or more of said respondents and any wholly or partly owned subsidiary or affiliated concern not a party, engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, to (1) raise, fix, stabilize, or maintain prices; (2) discuss, confer or exchange information for the purpose or with the effect of establishing or maintaining prices, terms or conditions of sale, or of securing adherence to prices, terms, or conditions of sale; (3) exchange information with or meet with any retail liquor dealer or with any representative of any retail liquor dealer association, or others for the purpose or with the effect of reaching agreement as to the employment of any resale price maintenance contract or arrangement, of adjusting or increasing resale prices after tax rate changes, or of reaching agreement as to the use of any resale price maintenance contract or arrangement as a means of raising, fixing, stabilizing, or maintaining prices; (4) use common directors or officers as a means of raising, fixing, stabilizing, or maintaining prices; and (5) enter into any resale price maintenance contract or arrangement, or police, enforce, or attempt to police or enforce any such contract or arrangement; prohibited, subject to the provision, however, that nothing contained in the order shall be construed to limit or otherwise affect any right with respect to resale price maintenance contracts or arrangements which any of the respondents may have under section 5 of the Federal Trade Commission Act as amended by the McGuire Act (Public Law 542, 82d Cong., Chap. 745, 2d Sess., Approved July 14, 1952); and subject to the further proviso that if as a result of any valid statute or regulation of any State, Territory, or possession or subdivision thereof, adopted pursuant to the Twenty-first Amendment to the Constitution of the United States, relating to the offering for sale, sale, or distribution of alcoholic beverages, respondents, or any of them or one or more of their wholly or partly owned subsidiaries or affiliated concerns, as a condition of doing business in said state, territory, possession, or subdivision thereof, engage in acts or practices which, upon a prima facie showing on the record (not overcome by answer) may be construed by the Federal Trade Commission as violating any provision of the foregoing order, the Commission agrees that it will reopen the order solely for the purpose of determining whether to alter, modify, or set aside such provision and that it will suspend such provision of the order, pending disposition of the issue as to whether such provision should be altered, modified, or set aside, it being further provided in the aforesaid connection that said proviso shall be without prejudice to, and that nothing therein contained shall be construed to limit or otherwise affect, any defense which might otherwise be available to any respondent in any proceeding to enforce the foregoing order or based on an alleged violation thereof.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Schenley Industries, Inc., et al., New York, N. Y., Docket 6048, Mar. 2, 1954]

In the Matter of Schenley Industries, Inc., and the following of Its Subsidiaries: Schenley Distillers, Inc., a Corporation, Schenley Distributors, Inc., a Corporation, Melrose Distillers, Inc., a Corporation, Gibson Distillers, Inc., a Corporation, The Straight Whiskey Distilling Company of America, a Corporation, Three Feathers Distributors, Inc., a Corporation, Brandy Distillers Corporation, a Corporation, Bernheim Distilling Co., a Corporation

This proceeding was instituted by complaint which charged respondents with the use of unfair methods of competition and/or unfair acts and practices in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, subject to the exception below set forth, through the consent settlement procedure provided in Rule V of the Commission's rules of practice, as announced by the Commission's "Notice", dated March 8, 1954, as follows:

Counsel supporting the complaint having stated that evidence is not available to support the allegations of the complaint other than those covered by the consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, the said consent settlement was accepted by the Commission on March 2, 1954, and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

Said order, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

It is ordered, That the respondents, Schenley Industries, Inc., a corporation, Schenley Distillers, Inc., a corporation, Schenley Distributors, Inc., a corporation, Melrose Distillers, Inc., a corporation, and Brandy Distillers Corporation, a corporation, directly or indirectly, through their officers, agents, representatives or employees, in or in connection with the offering for sale, sale or distribution in commerce between and among the several States of the United States and in the District of Columbia, of alcoholic beverages, do forthwith cease and desist from entering into, cooperating in, carrying out or continuing any combination, conspiracy, cooperation or planned common course of action between any two or more of said respondents engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, or between any one or more of said respondents and any wholly or partly owned subsidiary or affiliated concern not a party hereto, engaged in competition in the sale of alcoholic beverages to persons other than those owned or controlled by any of the respondents, to do or perform any of the following acts or things:

(1) Raise, fix, stabilize or maintain prices;

(2) Discuss, confer or exchange information for the purpose or with the effect of establishing or maintaining prices, terms or conditions of sale, or of securing adherence to prices, terms or conditions of sale;

(3) Exchange information with or meet with any retail liquor dealer or with any representative of any retail liquor dealer association, or others for the purpose or with the effect of reaching agreement as to the employment of any resale price maintenance contract or arrangement, of adjusting or increasing resale prices after tax rate changes, or of reaching agrement as to the use of any resale price maintenance contract or arrangement as a means of raising, fixing, stabilizing or maintaining prices;

(4) Use common directors or officers as a means of raising, fixing, stabilizing, or maintaining prices;

(5) Enter into any resale price maintenance contract or arrangement, or police, enforce, or attempt to police or enforce any such contract or arrangement.

Provided, That nothing herein contained shall be construed to limit or otherwise affect any right with respect to resale price maintenance contracts or arrangements which any of the respondents may have under section 5 of the Federal Trade Commission Act as amended by the McGuire Act (Public Law 542, 82d Cong., Chap. 745, 2d Sess., Approved July 14, 1952).

Provided further, That if as a result of any valid statute or regulation of any state, territory or possession or subdivision thereof, adopted pursuant to the Twenty-first Amendment to the Constitution of the United States, relating to the offering for sale, sale or distribution of alcoholic beverages, respondents, or any of them or one or more of their wholly or partly owned subsidiaries or affiliated concerns, as a condition of doing business in said state, territory, possession or subdivision thereof, engage in acts or practices which, upon a prima facie showing on the record herein (not overcome by answer) may be construed by the Federal Trade Commission as violating any provision of the foregoing order, the Commission agrees that it will reopen this order solely for the purpose of determining whether to alter, modify or set aside such provision and that it will suspend such provision of this order, pending disposition of the issue as to whether such provision should be altered, modified or set aside. This proviso shall be without prejudice to, and nothing herein contained shall be construed to limit or otherwise affect, any defense which may otherwise be available to any respondent in any proceeding to enforce the foregoing order or based on an alleged violation thereof.

It is further ordered, That Bernheim Distilling Co., a corporation, is hereby dismissed from this proceeding.

It is further ordered, That Gibson Distillers, Inc., a corporation, The Straight Whiskey Distilling Company of America, a corporation, and Three Feathers Distributors, Inc., a corporation, are hereby dismissed from this proceeding. *Provided, however*, That the dismissal of these three corporations is without prejudice and is not to be construed in any sense as exempting said corporations from the application of any of the provisions of the order to cease and desist as are applicable to any concern wholly or partly owned or controlled by or affiliated with any one or more of the respondents herein.

It is further ordered, That the respondents shall, within twelve months after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: March 8, 1954.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, JR., *Secretary.*

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 6065, Regs. 130]

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

TREATMENT OF TAXPAYER'S LIABILITY FOR INCOME AND EXCESS PROFITS TAX FOR PURPOSE OF DETERMINING EQUITY AND EQUITY INVESTED CAPITAL

On December 13, 1952, notice of proposed rule making to amend Regulations 130 (26 CFR Part 40) with respect to the accrual of income and excess profits tax liability for the purpose of determining equity capital under section 437 (c) of the Internal Revenue Code and equity invested capital under section 458 (d) of the Internal Revenue Code was published in the FEDERAL REGISTER (17 F. R. 11350). After consideration of all relevant matter presented by interested persons regarding the rules proposed, the amendments to Regulations 130 set forth below are hereby adopted.

PARAGRAPH 1. Section 40.437-5, as amended by Treasury Decision 5952, approved December 2, 1952, is further amended by redesignating paragraph "(c)" of such section as paragraph "(c)(1)", and by adding at the end thereof the following:

(2) In computing liabilities as of the beginning of the taxable year, a taxpayer keeping its books and making its income tax returns on the accrual basis shall, in accordance with the principles applicable in the determination of earnings and profits, treat as a liability the Federal income and excess profits taxes imposed for the preceding taxable year. This rule is applicable whether or not such taxes were definite and ascertainable in amount at the close of the preceding year and whether or not such taxes were contested by the taxpayer. The provisions of the Excess Profits Tax Act of 1950 shall be taken into account for this purpose in determining the income and excess profits tax for taxable years ending after June 30, 1950. In general, changes in the Federal income and excess profits tax laws applicable to a taxable year, enacted after the close of such year, will be taken into account in determining liabilities if the last date prescribed for filing the return for such year is subsequent to the date of enactment of such changes.

PAR. 2. Section 40.458-4 is amended by striking the fourth sentence of (a) (1) and by inserting in lieu thereof the following: "In computing accumulated earnings and profits as of the beginning of the taxable year, a taxpayer keeping its books and making its income tax returns on the accrual basis shall, in accordance with the principles applicable in the determination of earnings and profits, subtract the Federal income and excess profits taxes imposed for the preceding taxable year. This rule is applicable whether or not such taxes were definite and ascertainable in amount at the close of the preceding year and whether or not such taxes were contested by the taxpayer. The provisions of the Excess Profits Tax Act of 1950 shall be taken into account for this purpose in determining the income and excess profits tax for taxable years ending after June 30, 1950. In general, changes in the Federal income and excess profits tax laws applicable to a taxable year, enacted after the close of such year, will be taken into account in determining earnings and profits if the last date prescribed for filing the return for such year is subsequent to the date of enactment of such changes."

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] T. COLEMAN ANDREWS, *Commissioner of Internal Revenue.*

Approved: March 19, 1954.

M. B. FOLSOM, *Acting Secretary of the Treasury.*

TITLE 32—NATIONAL DEFENSE

Chapter XIV—The Renegotiation Board

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1471—ASSIGNMENT OF CONTRACTORS FOR RENEGOTIATION

HOW ASSIGNMENT IS MADE

Section 1471.2 *How assignment is made* is amended by deleting paragraph (d) in

its entirety and inserting in lieu thereof the following:

(d) Except in cases governed by paragraph (e) of this section, with respect to contractors whose receipts or accruals are wholly or predominantly under subcontracts described in section 103 (g) (3) of the act, a Class A case will generally be one in which the contractor reports on the Standard Form of Contractor's Report that its aggregate of such receipts or accruals is $50,000 or more and a Class B case will be one in which the contractor reports on the Standard Form of Contractor's Report that its aggregate of such receipts or accruals is less than $50,000. Cases assigned on and after March 25, 1954, will be designated in accordance with the preceding sentence; cases previously assigned will generally be redesignated in accordance therewith upon request of a Regional Board if not already concluded by clearance notice, agreement or order, and if such redesignation is otherwise expedient.

(e) Notwithstanding the foregoing, to facilitate concurrent renegotiation of members of affiliated or related groups when not consolidated (see § 1464.10 of this subchapter), renegotiable members of any such group will generally all be designated at the time of assignment as Class A or Class B cases according to the proper designation of the member having the largest amount of profits from subject contracts for the fiscal year under review. This paragraph shall not apply when the members of the group have differing fiscal years.

(f) Any case initially designated as a Class A or a Class B case according to the amounts reported on the Standard Form of Contractor's Report may, but will not necessarily, be redesignated if further information developed after assignment establishes that the contractor's renegotiable profits, or its renegotiable receipts or accruals, as the case may be, are sufficiently larger or smaller than the amount reported, to make such redesignation appropriate.

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1219)

Dated: March 18, 1954.

GEORGE C. MCCONNAUGHEY,
Chairman.

[F. R. Doc. 54-2089; Filed, Mar. 24, 1954; 8:48 a. m.]

PART 1498—FORMS RELATING TO AGREEMENTS AND ORDERS

VARIATIONS IN FORM OF RENEGOTIATION AGREEMENT

Section 1498.2 (g) is amended by deleting in its entirety the agreement clause set forth in subparagraph (2) and inserting in lieu thereof the following:

It has been determined that the Contractor may realize additional profits not exceeding the sum of ----------
(Margin to clearance level)
($----------) Dollars without incurring any liability for excessive profits for the fiscal year under review. In the event that it is finally determined that the aggregate liability of the Contractor to the Government pursuant to the price adjustment provisions aforesaid, allocable to the fiscal year under review, exceeds the aggregate liability of the Government to the Contractor pursuant thereto, and if such net liability of the Contractor to the Government is less than the amount of the reserve hereinabove described, the difference between such two amounts shall represent the unused portion of the reserve, and the Contractor agrees that the amount by which the unused portion of the reserve exceeds said sum of ---------- ($-----)
(Repeat amount last above stated)
Dollars shall be deemed to be additional profits to be eliminated pursuant to the Act, and the Contractor agrees that it will pay to the Government an amount equal to the difference between the amount of any such additional profits and the amount of the tax credit, if any, provided by section 3806 of the Internal Revenue Code.

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1219)

Dated: March 19, 1954.

GEORGE C. MCCONNAUGHEY,
Chairman.

[F. R. Doc. 54-2090; Filed, Mar. 24, 1954; 8:48 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 50—CITY DELIVERY

PART 52—RURAL DELIVERY

MISCELLANEOUS AMENDMENTS

a. In § 50.23 *Private mail receptacles* (19 F. R. 558), insert the following as the third sentence of paragraph (b): "Carriers are not required to deliver ordinary mail other than parcel post above the first floor."

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

b. Section 52.68 *Rural stations* is amended to read as follows:

§ 52.68 *Rural stations.* Rural stations shall be established and maintained when considered necessary to facilitate the transaction of postal business in communities where a considerable number of people would be seriously inconvenienced if required to transact postal business with rural carriers or star route carriers only, and where it is deemed inadvisable to establish post offices.

c. In § 52.78 *Patrons' boxes* amend paragraph (b) to read as follows:

(b) *Copies of specifications obtainable.* Copies of the specifications and drawings which may be used for guidance in the manufacture of standard mail boxes may be obtained on application to the Assistant Postmaster General, Bureau of Post Office Operations.

d. In § 52.80 Manufacture and sale of boxes make the following changes:

1. Amend paragraph (a) to read as follows:

(a) *Approval required.* Individuals, firms or companies proposing to manufacture rural delivery mail boxes for sale shall submit to the Assistant Postmaster General, Bureau of Post Office Operations, Division of Post Office Services, a full-sized sample box for examination. If the sample is approved, the manufacture and sale of the box will be authorized on condition that the manufacturer shall emboss or stamp in a conspicuous place on each box the words "Approved by the Postmaster General", and, inconspicuously, the name of the manufacturer.

2. Amend the list of concerns in paragraph (c) by changing "American Sheet Metal Works, Post Office Box 547, New Orleans 1, La." to read "American Metal Works, Inc., Post Office Box 547, New Orleans 1, La.".

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] ABE MCGREGOR GOFF,
Solicitor.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 965]

[Docket No. AO-166-A18-R02]

HANDLING MILK IN THE CINCINNATI, OHIO, MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Cincinnati, Ohio, on March 8, 1954, pursuant to notice thereof issued on March 1, 1954 (19 F. R. 1220).

The hearing conducted on March 8, 1954, was a second reopening of a hearing begun in October 1953. The material issues of record related to several aspects of the regulation in effect. Previous decisions on the record have dealt with certain of these issues and several other issues are reserved for further consideration. This decision covers only the questions of (1) reconsideration of the seasonal application of the Class III and Class IV price formulas and revision of the butterfat differentials applicable in pricing Class III and Class IV milk to handlers, and (2) adoption of a service charge applicable to milk handled for the account of a bargaining cooperative as the result of the refusal, or release, of such milk by a proprietary handler. It is determined that emergency action is required on these issues. It is concluded that the remaining issues, including the consideration of butterfat differentials applicable in pricing Class I and Class II milk and in making payments to producers, should not be decided under emergency procedure and should not delay action on the issues dealt with herein. Decision on such remaining issues therefore is reserved to a later date.

Rules on proposed findings and conclusions. Briefs were filed on the record. Such briefs contained proposed findings and conclusions with respect to the issues under consideration herein. To the extent that the findings and conclusions of this decision are at variance with such proposed findings and conclusions, the request to make such findings and conclusions is hereby denied.

Findings and conclusions. The following findings and conclusions on the issues decided herein are hereby made upon the basis of the record of the hearing:

(1) The application of the price formulas for Class III and Class IV milk should be further modified. The butterfat differentials for Class III and Class IV milk should be revised.

As the result of the first reopening of the hearing on January 28 and 29, 1954, the Class III and Class IV price formulas were modified, effective March 1, 1954, with the results that (1) the Class III price level was reduced 17.5 cents, and (2) the Class IV price level was made the same as that of Class III milk. These revisions were to be effective for the months of March through July 1954 only.

At the reopening of the hearing on March 8 the bargaining cooperatives in the market testified that handlers are not willing to accept milk for Class III and Class IV uses at the modified price levels for such classes and are turning back substantial quantities of milk to such cooperatives to be disposed of at whatever price the cooperatives are able to obtain through disposal to unregulated plants. In accepting milk for such disposal the cooperatives are required to take the milk on their account and to pay into the "producer-settlement fund" the minimum price set by the order for the class of use if the milk involved is to remain in the market pool and receive the price benefits of the order. It was testified that during February and the early part of March milk was so handled by the cooperatives at substantial loss, at times exceeding 90 cents per hundredweight.

Record data indicate that in the flush production months of 1953 the total volume of Class III and Class IV milk was more than twice that disposed of in such classes in 1950. Except for a brief period of drought last fall, production in recent months has continued at a high level in relation to the corresponding month of the preceding year. It appears that the volume of producer milk to be disposed of in Class III and Class IV uses during the spring and summer of 1954 will be the largest in the history of the market.

It is concluded that in the interest of orderly marketing the price level applicable to the reserve supply of producer milk in the months of seasonally heavy production in 1954 should be reduced in relation to both the prices which resulted from the Class III and Class IV price formulas during the recent fall and winter months and those in effect during the flush production months of last year. It should be noted, however, that Class III milk under the Cincinnati order consists of milk utilized for some products which do not require inspected milk and for certain other products which do require such milk. Ice cream manufacture is among the most important outlets for milk in the class and if the resulting ice cream is to be sold within the city of Cincinnati it must be produced from inspected milk. A similar situation may be said to exist with respect to cottage cheese, egenog and whipped cream. Thus, a reduction in price to the same level as other Class III milk under emergency conditions during the flush production period would tend to underprice milk needed for ice cream and such other products requiring inspected milk which represent important dispositions of Class III milk.

Milk which is handled on a "distress" basis is usually picked up at city plants and transported to manufacturing plants from 80 to 100 miles from Cincinnati. The processing facilities available at distributing plants in the marketing area are confined largely to the manufacture of ice cream, and thus reserve milk above the total quantity needed for this purpose must be transported to country locations for manufacture. In many instances it is not practicable to divert milk on farm hauling routes to manufacturing plants prior to its receipt at the city. When so moved to country locations milk is manufactured into such products as butter, nonfat dry milk solids and cheese. The record indicates that the cost of transporting the milk to manufacturing outlets approximates 25 cents per hundredweight. In order to provide incentive for the handling of extra reserve milk this spring in view of the generally high production of milk at plants the Cincinnati milkshed and in the State of Ohio as a whole, the Class III and Class IV price formulas should be modified to provide somewhat more liberal allowances for handling during a temporary period. Quite as important to this problem as the level of Class III and Class IV prices established for milk testing 3.5 percent, however, are the butterfat differentials which apply in adjusting such class prices to the actual test of the milk as disposed of in manufactured products. For example, in January 1954, the weighted average butterfat test of Class III milk was 2.8174 percent while Class IV milk tested 35.8533 percent butterfat. It is obvious, particularly in regard to milk utilized for butter manufacture (Class IV milk), that the butterfat differential contributes more significantly to the handler's cost, and therefore to the problem of Class IV milk disposition, than the class price as computed for milk testing 3.5 percent. It is considered appropriate, therefore, to adjust butterfat differentials for these classes of milk to

align the prices of butterfat therein represented by tests other than 3.5 percent more closely with the prices of butterfat represented in 3.5 percent milk in such classes. This has been accomplished by basing the butterfat differentials directly on the individual prices of skim milk and butterfat included in the formulas which determine the prices for 3.5 percent milk in such manufacturing classes, respectively.

It may be noted that milk used for ice cream and certain other products is priced 25 cents per hundredweight higher than milk utilized in such products as butter, cheese and nonfat dry milk solids. In view of the health requirements applicable in connection with a large proportion of the disposition in such specified uses and the fact such disposition is made primarily from distributing plants located in or close to the marketing area rather than at country locations as in the case of distress milk, such milk should return a somewhat higher price to producers even in the flush production season.

The reduction in the Class III and Class IV prices adopted should be limited to the March-August period of 1954. Because of the particular combination of products covered by such classes and the likelihood that an improved pricing and classification plan, including review and possible modification of the supply-demand utilization percentages in relation to the various requirements of inspected milk as presently covered by Class III milk as well as Class I and Class II milk, might be evolved from more detailed consideration of such provisions, any further revision of reserve milk pricing should be based upon the results of a later hearing. There should be ample time for such review prior to the flush production months of 1955.

(2) The proposed payment to bargaining cooperatives to be based upon certain services as rendered from time to time should not be adopted at this time.

Bargaining cooperatives representing a large number of producers in the market proposed the adoption of a service charge against the producer-settlement fund, and a corresponding payment to bargaining cooperatives of the monies represented, whenever such cooperatives necessarily handle on their account milk for disposition to manufacturing outlets as the result of the refusal or release of producer milk by a proprietary handler. The rate of service payment suggested was 50 cents per hundredweight of milk so handled by the cooperative.

The proposal made was discussed at some length at the hearing. It appears to have considerable merit as a measure designed to achieve maximum returns to producers when it is necessary to remove reserve supplies of milk under distress conditions, by enabling producers to get full value for the portion of milk supplies kept and utilized by handlers during the distress period. The development of a workable provision would require a greater period of time than can be afforded in the present circumstances. In view of the particular pricing provisions adopted it is felt that such provision will not be required for the tem-

porary period involved, and that there will be opportunity for further consideration prior to such time as it may be appropriate to adopt such a provision. The proposal therefore is denied at this time.

(3) The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto, on the above issues.

The conditions complained of are such that it is urgent that remedial action be taken as soon as possible. Delay beyond the minimum time required to make the attached order effective would defeat the purpose of such amendments. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereto, would make such relief ineffective and therefore should be eliminated in this instance. The notice of hearing stated that consideration would be given to the question of whether economic and marketing conditions require emergency action with respect to any or all amendments deemed necessary as the result of the hearing. Action under the procedure described above was requested at the hearing. No opposition was registered at the hearing to either the objectives of the proposals involved or the use of such emergency promulgation procedure.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of December 1953 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Cincinnati, Ohio, marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Cincinnati, Ohio, Marketing Area," and "Order Amending the Order, as amended, Regulating the Handling of Milk in the Cincinnati, Ohio, Market Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 19th day of March 1954.

Dated: March 19, 1954, at Washington, D. C.

[SEAL] JOHN H DAVIS,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Cincinnati, Ohio, Marketing Area

§ 965.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings, and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto, and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introducing at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete that portion of § 965.51 (c) which precedes subparagraph (2) thereof and substitute therefor the following:

(c) The price for Class III milk during each of the months of March through August, inclusive, shall be the higher of the prices per hundredweight computed pursuant to subparagraphs (1) and (2) of this paragraph; and the price for Class III milk during each of the months of September through February, inclusive, shall be the higher of such computed prices plus 30 cents:

(1) The price as computed pursuant to § 965.50 (b): *Provided,* That the price per hundredweight for Class III milk during the period ending with August 31, 1954, shall be the higher of the price computed pursuant to subparagraph (2) of this paragraph and a price computed as follows:

(i) Subtract 5.5 cents from the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month for which payment is to be made, multiply by 1.20, and then multiply such result by 3.5;

(ii) From the simple average, as computed by the market administrator, of the weighted average of carlot prices per pound for nonfat dry milk solids, spray and roller process for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 6 cents, and multiply the result by 7.7; and

(iii) Deduct 25 cents from the sum of the amounts computed under subdivisions (i) and (ii) of this subparagraph: *Provided,* That the price applicable to milk used to produce ice cream, ice cream mix, eggnog, whipped cream, whipped cream substitutes, and cottage cheese shall be the sum of amounts computed for the month under subdivisions (i) and (ii) of this subparagraph.

2. Delete in § 965.51 (d) the word "July" and substitute therefor the word "August."

3. Delete § 965.52 and substitute therefor the following:

§ 965.52 *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent, there shall be added to or subtracted from, as the case may be, from the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows: For Class I milk and Class II milk, respectively, determine the percent of the alternate basic formula price as computed pursuant to § 965.50 (b) represented by the sum computed pursuant to § 965.50 (b) (1), apply the percentage so determined to the respective Class I and Class II prices for 3.5 percent milk computed pursuant to § 965.51 (a) and (b), and divide by 35 (computed to the nearest hundredth of a cent). For Class III milk and Class IV milk subtract $5.50 from the average price per hundred pounds of butter as described in § 965.51 (c) (1) (i), multiply by 120, subtract therefrom the amount per hundredweight computed pursuant to § 965.51 (c) (1) (ii), and divide the result by 1,000: *Provided,* That beginning with September 1, 1954, the butterfat differential for Class III milk shall be computed as follows: Multiply by 120 the average price per hundred pounds of 92-score butter as described in § 965.50 (b) (1), subtract therefrom the price per hundredweight computed pursuant to § 965.50 (b) (2), and divide the result by 1,000 and beginning with such date the butterfat differential for Class IV milk shall be computed as follows: subtract $5.00 from the average price per hundred pounds of 92-score butter as described in § 965.50 (b) (1), multiply by 120, subtract therefrom the price per hundredweight pursuant to § 965.50 (b) (2), and divide the result by 1,000.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[F. R. Doc. 54-2096; Filed, Mar. 24, 1954; 8:50 a. m.]

FEDERAL TRADE COMMISSION

[16 CFR Part 302]

[File No. 205-1]

FLAMMABLE FABRICS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given all interested parties that the Federal Trade Commission on April 22, 1954, beginning at 10:00 o'clock a. m., e. s. t., at its offices in the city of Washington, D. C., will hold a public hearing on proposed rules and regulations under the Flammable Fabrics Act.

Interested parties may participate by submitting in writing to the Commission on or before such date, their views, arguments, or other pertinent data, or they may be heard orally at such time. Any party wishing to submit further views, arguments or data in response to that submitted at the hearing may do so in writing at any time within ten days after such hearing is closed.

Such action is taken pursuant to the authority given the Federal Trade Commission under section 5 (c) of the Flammable Fabrics Act (Pub. Law 88, 83d Cong., Chap. 164, 1st sess., 67 Stat. 111) "to prescribe such rules and regulations as may be necessary and proper for purposes of administration and enforcement of this act."

The matters to be considered are the proposed rules and regulations set out below together with such amendments, revisions, deletions, and additions thereto as may be proposed.

§ 302.1 *Terms defined.* (a) As used in this part, unless the context otherwise specifically requires:

(1) The term "act" means the "Flammable Fabrics Act" (approved June 30, 1953, Pub. Law 88, 83d Cong., 1st Sess.; 15 U. S. C. A. sec. 1191; 67 Stat. 111).

(2) The terms "rule," "rules," "regulations," and "rules and regulations," mean the rules and regulations prescribed by the Commission pursuant to section 5 (c) of the act.

(3) The term "United States" means the several states, the District of Columbia and the Territories and possessions of the United States.

(4) The terms "marketing or handling," (i) when applied to wearing apparel means manufacturing for sale, offering for sale, selling, importing, delivering, or transporting; and, (ii) when applied to fabric mean offering for sale, selling, importing, delivering, or transporting.

(5) The terms "uncovered or exposed part" of an article of wearing apparel as used in section 4 (a) of the act, mean that part of such article of apparel which during normal and customary course of wear would be open to flame or other means of ignition.

(6) The term "textile fabric" (except those with a nitro-cellulose fiber, finish or coating) means any material subject to the act, woven, knitted, felted, or otherwise produced from any natural or man-made fiber or substitute therefor, or combination thereof, which is in a form or condition ready for use in wearing apparel and shall include coated fabrics.

(7) The term "plain surface textile fabric" means any textile fabric which does not have an intentionally raised fiber or yarn surface such as a pile, nap, or tuft, but shall include those fabrics having fancy woven, knitted or flock printed surfaces.

(8) The term "raised surface textile fabric" means any textile fabric which has an intentionally raised fiber or yarn surface such as a pile, nap or tufting.

(9) The term "film" means any nonrigid, unsupported plastic, rubber or other synthetic or natural film or sheeting, or any combination thereof, including transparent, translucent, and opaque material, whether plain, embossed, molded, or otherwise surface treated, and shall include film or sheeting exceeding 10 mils in thickness.

(10) The term "test" means the application of the relevant test method prescribed in the procedures provided under section 4 (a) of the act.

(11) The term "initial test" means tests made under the procedures prescribed in section 4 (a) of the act of specimens taken from two separate pieces of a textile fabric having the same weight, construction and finish type, or from two separate runs of film having the same formula, color, and thickness.

(12) The definition of terms contained in section 2 of the act shall be applicable also to such terms when used in rules promulgated under the act.

§ 302.2 *General requirements.* No article of wearing apparel or fabric subject to the act and regulations shall be marketed or handled if such article or fabric, when tested according to the procedures prescribed in section 4 (a) of the act, is so highly flammable as to be dangerous when worn by individuals.

§ 302.3 *Test procedures for textile fabrics and film.* (a) All textile fabrics (except those with nitro-cellulose fiber, finish or coating) intended or sold for use in wearing apparel, and all fabrics contained in articles of wearing apparel, shall be subject to the requirements of the act, and shall be deemed to be so highly flammable as to be dangerous when worn by individuals if such fabrics or any uncovered or exposed part of such articles of wearing apparel exhibits rapid and intense burning when tested under the conditions and in the manner prescribed in the Commercial Standard promulgated by the Secretary of Commerce effective January 30, 1953, and identified as "Flammability of Clothing Textiles, Commercial Standard 191-53."

(b) All film, and textile fabrics with a nitro-cellulose fiber, finish or coating, intended or sold for use in wearing apparel, and all film and textile fabrics referred to in this rule which are contained in articles of wearing apparel, shall be subject to the requirements of the act, and shall be deemed to be so highly flammable as to be dangerous when worn by individuals if such film or textile fabrics or any uncovered or exposed part of such articles of wearing apparel exhibit a rate of burning in excess of that specified in paragraph 3.11 of the Commercial Standard promulgated by the Secretary of Commerce effective May 22, 1953, and identified as "General Purpose Vinyl Plastic Film, Commercial Standard 192-53."

§ 302.4 *Only uncovered or exposed parts of wearing apparel to be tested.* In determining whether an article of wearing apparel is so highly flammable as to be dangerous when worn by individuals, only the uncovered or exposed part of such article of wearing apparel shall be tested according to the appli-

cable procedures set forth in section 4 (a) of the act.

§ 302.5 *Testing certain classes of fabrics.* (a) Any textile fabric intended for use in, or used, or contained in an article of wearing apparel, which in its normal and customary use as wearing apparel would not be washed, need not, upon test made under the procedures outlined in Commercial Standard 191–53, be washed as prescribed by paragraph 4.5 of such Commercial Standard: *Provided, however,* That such fabric and article of wearing apparel when marketed or handled are marked in a clear, legible and permanent manner disclosing that they will be dangerously flammable if washed. Examples of the types of fabric referred to are bridal illusion or millinery veiling.

(b) A coated fabric need not, upon test under the procedures outlined in Commercial Standard 191–53, be dry cleaned as set forth in paragraph 4.4 of such Commercial Standard.

(c) In determining whether a textile fabric having a raised-fiber surface, which surface is to be used in the covered or unexposed parts of articles of wearing apparel, is so highly flammable as to be dangerous when worn by individuals, only the opposite surface or surface intended to be exposed need be tested under the applicable procedures set forth in section 4 (a) of the act, providing an invoice or other paper covering the marketing or handling of such fabric is given which clearly designates that the raised-fiber surface is to be used only in the covered or unexposed parts of articles of wearing apparel.

§ 302.6 *Certain fabrics not subject to provisions of section 3 of act.* (a) Fabrics intended for processing into interlinings or other covered or unexposed parts of articles of wearing apparel shall not be subject to the provisions of section 3 of the act, providing an invoice or other paper covering the marketing or handling of such fabrics is given which specifically designates their intended end use.

(b) Fabrics intended or sold for use in those hats, gloves and footwear which are excluded under the definition of articles of wearing apparel in section 2 (d) of the act, shall not be subject to the provisions of section 3 of the act, providing an invoice or other paper covering the marketing or handling of such fabrics is given which specifically designates their intended use in such products.

§ 302.7 *Reasonable and representative tests under section 8 of the act.*

Explanation. Section 8 of the act, among other things, provides that no person shall be subject to prosecution under section 7 of the act for a violation of section 3 of the act if such person establishes a guaranty received in good faith signed by and containing the name and address of the person by whom the wearing apparel or fabric guaranteed was manufactured or from whom it was received, to the effect that reasonable and representative tests made under the procedures provided in section 4 (a) of the act show that the fabric covered by the guaranty, or used, or contained in the wearing apparel, is not, under the provisions of section 4 (a) of the act, so highly flammable as to be dangerous when worn by individuals.

The furnishing of guaranties is not mandatory under the act. The purpose of this rule is to establish minimum requirements for the reasonable and representative tests on which guaranties may be based. The making of these tests and the furnishing of guaranties based thereon will not relieve one making the tests or furnishing guaranties based thereon from prosecution under section 7 of the act for violation of section 3 of the act, nor will it relieve one furnishing or receiving such guaranties from the administrative processes of the Federal Trade Commission under section 5 of the act, nor from the injunction and condemnation procedures under section 6 of the act.

(a) The following shall constitute reasonable and representative tests, as that term is used in section 8 of the act, for those textile fabrics which by reason of their composition, construction, finish and weight may be tested upon a class basis.

(1) *Plain surface textile fabrics weighing two ounces or more per square yard.* (i) One test of any plain surface textile fabric weighing two ounces or more per square yard, exclusive of metallic ornamentation, or one test of any particular class of such fabrics, shall suffice for any such fabric or class of fabrics.

(2) *Plain surface textile fabrics weighing less than two ounces per square yard.* (i) When, on the initial test[1] of any plain surface textile fabric weighing less than two ounces per square yard, and of a particular fiber composition, construction and finish type, such fabric exhibits a burning time of between 4 and 6 seconds, both inclusive, such test may suffice for any fabric of the same fiber composition, construction and finish type. This class of fabric shall be tested at least once at intervals of not more than three months thereafter while in production.

(ii) When, on the initial test of any plain surface textile fabric weighing less than two ounces per square yard, and of a particular fiber composition, construction and finish type, such fabric exhibits a burning time in excess of 6 seconds, such test may suffice for any fabric of the same fiber composition, construction and finish type. This class of fabric shall be tested at least once at intervals of not more than six months thereafter while in production.

(iii) When, on the initial test of any plain surface textile fabric weighing less than two ounces per square yard, and of a particular fiber composition, construction and finish type, none of the specimens ignite, such initial test may suffice for any fabric of the same fiber composition, construction and finish type.

(3) *Certain raised fiber surface textile fabrics.* (i) When a test of any raised fiber surface textile fabric which has a dense cut pile of uniform short length or looped yarns, and of a particular fiber composition, construction and finish type, does not exhibit a surface flash and does not ignite, such test shall suffice for any such fabric having a dense cut pile of the same length or the same looped yarns and of the same fiber composition, construction and finish type. Examples of the types of fabrics referred to are velvets, velveteens, velours, corduroys and terry cloth.

(ii) One test of any raised fiber surface textile fabric made entirely of protein fibers, exclusive of non-protein fiber ornamentation not to exceed 10 percent by weight, or one test of any particular class of such fabrics, shall suffice for any such fabric or class of fabrics.

(b) The following shall be deemed to be reasonable and representative tests, as that term is used in section 8 of the act, of those textile fabrics which do not fall within any of the foregoing class tests.

(1) *Plain surface textile fabrics weighing less that two ounces per square yard.* (i) When, on the initial test of a plain surface textile fabric weighing less than two ounces per square yard, such fabric exhibits a burning time of between 4 and 6 seconds, both inclusive, the fabric shall be tested at least once at intervals of not more than three months thereafter while in production.

(ii) When, on the initial test of a plain surface textile fabric weighing less than two ounces per square yard, such fabric exhibits a burning time in excess of 6 seconds, the fabric shall be tested at least once at intervals of not more than six months thereafter while in production.

(iii) When, on the initial test of a plain surface textile fabric weighing less than two ounces per square yard, none of the specimens ignite, such initial test shall suffice.

(2) *Raised fiber surface textile fabrics.* When, on the initial test of a raised fiber surface textile fabric, such fabric:

(i) Falls within Class 2 as provided in paragraph 3.1.2.1 of Commercial Standard 191–53, the fabric shall be tested at least once at intervals of not more than one month while in production, or if the production exceeds 50,000 yards per month, the fabric shall be tested thereafter every 50,000 yards or fraction thereof.

If, after two tests have been made as outlined in this section, the test results do not show the flame spread to have been less than 4 seconds, with the base fabric ignited or fused, the fabric shall be tested at least once at intervals of not more than three months while in production, or if the production exceeds 100,000 yards per three months, the fabric shall be tested thereafter every 100,000 yards or fraction thereof.

(ii) Has a flame spread in excess of 7 seconds with the base fabric ignited or fused, the fabric shall be tested at least once at intervals of not more than 6 months thereafter while in production.

(iii) Has a surface flash, but the base fabric does not ignite nor fuse, the fabric shall be tested at least once at intervals of not more than six months thereafter while in production.

(iv) Does not have a surface flash and does not ignite, the initial test shall suffice.

(c) When, on initial test a film or a textile fabric with a nitro-cellulose fiber, finish or coating, does not exhibit a burning rate in excess of 1.2 inches per second, one test each year thereafter while in production shall be deemed reasonable and representative tests for such film or textile fabric.

(d) Reasonable and representative tests of fabrics and fabrics contained in articles of wearing apparel, subject to the act, produced prior to the effective date of the act, and which have not been covered by tests made under the applicable requirements of paragraphs (a), (b), and (c) of this section, shall be an initial test for each class of such fabrics, and such tests shall be applicable to all fabrics having the same fiber composition, construction and finish type.

(e) In the case of articles of wearing apparel which are not made from fabrics but directly from yarns, the fabrics contained in such articles of wearing apparel shall be tested by the testing requirements provided in paragraphs (a) and (b) of this section.

(f) If tests of any textile fabric made subsequent to the initial test show a burning time of another category, then such fabric shall be tested thereafter under the testing requirements of such changed time.

(g) The application of this section, insofar as it relates to the testing of plain surface textile fabrics or such fabrics contained in articles of wearing apparel weighing two ounces or more per square yard, shall be limited to fabrics made of fibers in use or capable of being used as of May 31, 1954. Such fabrics weighing two ounces or more per square yard made in whole or in part of fibers developed and used subsequent to May 31, 1954, shall be tested in accordance with the testing requirements set out in paragraphs (a) (2) and (b) of this section.

§ 302.8 *Maintenance of records by those furnishing guaranties.* (a) In order to properly administer and enforce section 8 of the act relating to guaranties, it is required that any person furnishing either a separate or continuing guaranty who has made the tests prescribed by the act and regulations shall keep and maintain records of such tests. The records to be maintained shall show:

(1) The style or range number, fiber composition, construction and finish type of each textile fabric and each textile fabric used or contained in an article of wearing apparel covered by the guaranty, including a swatch of the fabric tested.

(2) The stock or formula number, color, thickness and general description of each film or film used in an article of wearing apparel covered by the guaranty, including a sample of the film tested.

(3) The results of the actual tests made on the textile fabric and film or the fabric and film used or contained in an article of wearing apparel.

(b) Persons furnishing guaranties based upon class tests shall maintain records showing:

(1) Identification of the class test.

(2) Fiber composition, construction and finish type of the fabrics, or the fabrics used or contained in articles of wearing apparel so guaranteed.

(3) A swatch of such fabric.

(c) The records referred to in this rule shall be preserved for a period of three years from the date the tests were performed.

(d) Any person furnishing a guaranty under section 8 (a) of the act who neglects or refuses to maintain and preserve the records prescribed in this section shall be deemed to have furnished a false guaranty under the provisions of section 8 (b) of the act.

§ 302.9 *Form of separate guaranty.* The following is a suggested form of separate guaranty under section 8 of the act which may be used by a guarantor, residing in the United States, on or as part of an invoice or other paper relating to the marketing or handling of any articles of wearing apparel or fabrics subject to the act listed and designated therein, the date of such invoice or other paper and the signature and address of the guarantor:

The undersigned hereby guarantees that reasonable and representative tests, made according to the procedures prescribed in section 4 (a) of the Flammable Fabrics Act, show that fabrics used or contained in the articles of wearing apparel and fabrics otherwise subject to said Act, covered by and in the form delivered under this document, are not so highly flammable as to be dangerous when worn by individuals.

_____
(Name)

_____
(Address)

NOTE: Wording of suggested form may be varied to limit guaranty to specified items on the invoice or other paper.

§ 302.10 *Continuing guaranties.* (a) (1) Any person residing in the United States may file with the Federal Trade Commission a continuing guaranty under section 8 of the act. When filed with the Commission, a continuing guaranty shall be fully executed in duplicate and execution of each copy shall be acknowledged before a notary public.

(2) Forms for use in preparing continuing guaranties will be supplied by the Commission upon request.

(3) Continuing guaranties filed with the Commission shall be renewed every three (3) years and at such other times as any change occurs in the legal business status of the person filing the continuing guaranty. The guarantor shall promptly report any such change to the Commission and advise the Commission of any change in the address of its principal office and place of business.

(b) The following is the prescribed form of continuing guaranty:

CONTINUING GUARANTY UNDER THE FLAMMABLE FABRICS ACT

The undersigned, _____,
a _____
(Corporation, partnership, proprietorship)
residing in the United States and having principal office and place of business at _____ _____
(Street and number) (City)
_____,
(State or Territory)
and engaged in the marketing or handling of [(articles of wearing apparel) (and) (fabrics)][2] subject to the Flammable Fabrics Act and Regulations thereunder hereby guarantees that reasonable and representative tests, made according to the procedures prescribed in Section 4 (a) of the Flammable Fabrics Act, show or will show that all of the following described [(fabrics) (and) (fabrics used or contained in articles of wearing apparel)][2] _____

(If guaranty is limited to certain products list here. If additional space is necessary, set out on attached sheet)

hereafter marketed or handled by it are not, in the form delivered or to be delivered, so highly flammable as to be dangerous when worn by individuals.

The following execution to be used only by individuals, partnerships and unincorporated associations:

Dated, signed and executed this ____ day of _____, 19__, at _____
(City) (State or Territory)

_____
(Name under which business is conducted)

_____
(Signature of proprietor or partner)

(If firm is a partnership list partners below.)

STATE OF _____,
County of _____, *ss:*

On this ____ day of _____, 19__, before me personally appeared the said _____
(Name of proprietor or partner signing)
to me known to be the person described in and who executed the foregoing instrument and acknowledged the execution of the same for the uses and purposes therein stated.

[Impression of notarial seal required here]

_____
Notary Public in and for
County of _____,
State of _____

My Commission expires _____

The following execution to be used only by corporations:

Dated, signed and executed this ____ day of _____, 19__, at _____
(City) (State or Territory)

[Impression of corporate seal required here]

_____
(Full corporate name)
By _____
(Signature and title of executive officer)

Attest:

_____
(Secretary)

STATE OF _____,
County of _____, *ss:*

On this ___ day of _____, 19__, before me personally appeared _____
(Name of executive officer
_____ of
signing) (Title of executive officer)
_____
(Name of corporation)
to me known to be the person described in and who executed the foregoing instrument and acknowledged the execution of the same on behalf of said corporation for the uses and purposes therein stated.

[Impression of notarial seal required here]

_____
Notary Public in and for
County of _____,
State of _____

My Commission expires _____

[1] See definition of "initial test" in § 302.1 (a) (11).

[2] Strike any wording not applicable.

(c) Any person who has a continuing guaranty on file with the Commission may, during the effective dates of the guaranty, give notice of such fact by setting forth on the invoice or other paper covering the marketing or handling of the product guaranteed the following: "Continuing guaranty under the Flammable Fabrics Act filed with the Federal Trade Commission."

(d) Any person who falsely represents in writing that he has a continuing guaranty on file with the Federal Trade Commission when such is not a fact shall be deemed to have furnished a false guaranty under section 8 (b) of the act.

§ 302.11 *Guaranties furnished by nonresidents of United States no bar to prosecution.* A guaranty furnished under section 8 of the act by a person who is not a resident of the United States may not be relied upon as a bar to prosecution under section 7 of the act for a violation of section 3 of the act.

§ 302.12 *Salvage operations of common carriers and others.* For the purposes of this act the ordinary course of business of common carriers, contract carriers, or freight forwarders, as referred to in section 11 of the act, shall not include the marketing or handling of articles of wearing apparel or fabrics subject to the act in the course of performance of salvage or lien realizing operations.

§ 302.13 *Reference to guaranty by Government prohibited.* No representation nor suggestion shall be made in advertising or otherwise marketing or handling an article of wearing apparel or fabric subject to the act that the act, the Government, or any branch thereof, guarantees in any manner that such article or fabric is not so highly flammable as to be dangerous when worn by individuals.

§ 302.14 *Shipments under section 11 (c) of the act.* The invoice or other paper relating to the shipment or delivery for shipment in commerce of articles of wearing apparel or textile fabrics for the purpose of finishing or processing to render them not so highly flammable as to be dangerous when worn by individuals, shall contain a statement disclosing such purpose.

Issued: March 22, 1954.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

[F. R. Doc. 54-2102; Filed, Mar. 24, 1954; 8:51 a. m.]

NOTICES

DEPARTMENT OF THE TREASURY

United States Coast Guard

[CGFR 54-13]

TERMINATIONS OF APPROVALS OF EQUIPMENT

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and in compliance with the authorities cited below, the following approvals of equipment are terminated because (1) the manufacturer is no longer in business; or (2) the manufacturer does not desire to retain the approval; or (3) the item is no longer being manufactured; or (4) the item of equipment no longer complies with present Coast Guard requirements; or (5) the approval has expired. Except for those approvals which have expired, all other terminations of approvals made by this document shall be made effective upon the thirty-first day after the date of publication of this document in the FEDERAL REGISTER. Notwithstanding this termination of approval of any item of equipment as listed in this document, such equipment in service may be continued in use so long as such equipment is in good and serviceable condition.

BUOYANT CUSHIONS, NON-STANDARD

Termination of Approval No. 160.008/400/0, 14" x 29" x 2" rectangular buoyant cushion, 36 oz. kapok, dwg. No. 102 dated October 21, 1948, manufactured by Nappe-Smith Manufacturing Co., Southard Avenue, Farmingdale, N. J. (Approved FEDERAL REGISTER December 2, 1948. Termination of Approval effective December 2, 1953.)

Termination of Approval No. 160.008/401/0, 14" x 18" x 2" rectangular buoyant cushion, 22 oz. kapok, dwg. No. 103 dated December 16, 1948, manufactured by Nappe-Smith Manufacturing Co., Southard Avenue, Farmingdale, N. J. (Approved FEDERAL REGISTER February 8, 1949. Termination of approval effective February 8, 1954.)

Termination of Approval No. 160.008/402/0, 15" x 15" x 2" rectangular buoyant cushion, 20 oz. kapok, plastic film cover, plastic straps, heat sealed seams, stitched ending seam, dwg. No. C-102, rev. December 21, 1948, and dwg. No. A-211 dated December 21, 1948, manufactured by The American Pad & Textile Co., Greenfield, Ohio. (Approved FEDERAL REGISTER February 8, 1949. Termination of approval effective February 8, 1954.)

(R. S. 4405, 4491, 54 Stat. 164, 166, as amended; 46 U. S. C. 375, 489, 526e, 526p; 46 CFR 160.008)

BUOYANT APPARATUS

Termination of Approval No. 160.010/16/0, buoyant apparatus, elliptical, solid balsa wood, 5-person capacity, dwg. No. MDC-CG-100, revised October 7, 1948, manufactured by Modecraft Co., Inc., 300 Wyckoff Avenue, Brooklyn 27, N. Y. (Approved FEDERAL REGISTER December 2, 1948. Termination of approval effective December 2, 1953.)

(R. S. 4405, 4417a, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 160.010)

DAVIT, LIFEBOAT

Termination of Approval No. 160.032/103/0, mechanical davit, Type 24-40, straight boom sheath screw, approved for maximum working load of 11,500 pounds per set (5,750 pounds per arm) using six part falls, identified by arrangement dwg. No. DB-201 dated April 20, 1948, and revised November 3, 1948, manufactured by Marine Safety Equipment Corp., Point Pleasant, N. J. (Approved FEDERAL REGISTER February 8, 1949. Termination of approval effective February 8, 1954.)

(R. S. 4405, 4417a, 4426, 4481, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 474, 481, 489, 1333, 50 U. S. C. 1275; 46 CFR 160.032)

LIFEBOATS

Termination of Approval No. 160.035/27/1, 28' x 9' x 4' steel, oar-propelled lifeboat, 59-person capacity, identified by construction and arrangement dwg. No. G-355-F dated June 10, 1948, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Approved FEDERAL REGISTER December 2, 1948. Termination of approval effective December 2, 1953.)

Termination of Approval No. 160.035/29/1, 28.0' x 10.0' x 4.0' steel, hand-propelled lifeboat, 67-person capacity, identified by construction and arrangement dwgs. No. G-246-D dated May 1, 1946, and revised Aug. 13, 1946, and No. G-410 dated May 28, 1948, and revised September 16, 1948, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Approved FEDERAL REGISTER December 31, 1948. Termination of approval effective December 31, 1953.)

Termination of Approval No. 160.035/166/0, 30' x 10' x 4' steel, hand-propelled lifeboat, 72-person capacity, identified by construction and arrangement dwg. No. G-413 dated July 20, 1948, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Approved FEDERAL REGISTER December 2, 1948. Termination of approval effective December 2, 1953.)

Termination of Approval No. 160.035/232/0, 15.0' x 5.42' x 2.25' wood, oar-propelled lifeboat, 10-person capacity, for inland waters other than Great Lakes, identified by dwg. No. 148 L B-1 dated September 20, 1948, submitted by Geo. W. Kneass Co., Eighteenth and Illinois Streets, San Francisco 7, Calif. (Approved FEDERAL REGISTER February 8, 1949. Termination of approval effective February 8, 1954.)

Termination of Approval No. 160.035/237/0, 31.0' x 10.5' x 4.33' steel, hand-propelled lifeboat, 82-person capacity, identified by construction and arrangement dwg. No. 3235 dated August 20, 1948, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Approved FEDERAL REGISTER February 8, 1949. Termination of approval effective February 8, 1954.)

(R. S. 4405, 4417a, 4426, 4481, 4488, 4491, 4492, sec. 11, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 396, 404, 474, 481, 489, 490, 1333, 50 U. S. C. App. 1275; 46 CFR 160.035)

VALVES, SAFETY (POWER BOILERS)

Termination of Approval No. 162.001/144/0, Type 1415AS, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 300 p. s. i. and 600 p. s. i. primary service pressure ratings, 650° F. maximum temperature, dwg. No. 3VB953, issued March 5, 1951, approved for size 1½" and effective discharge area of 0.307 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/145/0, Type 1415BS, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 300 p. s. i. and 600 p. s. i. primary service pressure ratings, 750° F. maximum temperature, dwg. No. 3VB953 issued March 5, 1951, approved for size 1½" and effective discharge area of 0.307 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/146/0, Type 1415CS, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 300 p. s. i. and 600 p. s. i. primary service pressure ratings, 900° F. maximum temperature, dwg. No. 3VB953, issued March 5, 1951, approved for size 1½" and effective discharge area of 0.307 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/147/0, Type 1415GA, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 300 p. s. i. and 600 p. s. i. primary service pressure ratings, 650° F. maximum temperature, dwg. No. 3VB953, issued March 5, 1951, approved for size 1½" and effective discharge area of 0.503 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/148/0, Type No. 1415GB, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 300 p. s. i. and 600 p. s. i. primary service pressure ratings, 750° F. maximum temperature, dwg. No. 3VB953 issued March 5, 1951, approved for size 1½" and effective discharge area of 0.503 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/149/0, Type 1415GC, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 300 p. s. i. and 600 p. s. i. primary service pressure ratings, 900° F. maximum temperature, dwg. No. 3VB953, issued March 5, 1951, approved for size 1½" and effective discharge area of 0.503 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/150/0, Type 1415JA, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 450 p. s. i. maximum allowable pressure, 650° F. maximum temperature, dwg. No. 3VB953 issued March 5, 1951, approved for size 4" and effective discharge area of 4.340 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/151/0, Type 1415JB, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 450 p. s. i. maximum allowable pressure, 750° F. maximum temperature, dwg. No. 3VB953, issued March 5, 1951, approved for size 4" and effective discharge area of 4.340 square inches, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/152/0, Type 1415JC, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 450 p. s. i. maximum allowable pressure, 900° F. maximum temperature, dwg. No. 3VB953, issued March 5, 1951, approved for size 4" and effective discharge area of 4.340 square inches, manufactured by Manning, Maxwell & Moore, Inc., Statford, Conn. (Approved FEDERAL REGISTER June 1, 1951.)

Termination of Approval No. 162.001/157/0, Type 1556HA, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 900 p. s. i. primary service pressure rating, 650° F. maximum temperature, dwg. No. 3VG953 issued April 13, 1951, approved for size 1½" only, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/159/0, Type 1556HB, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 900 p. s. i. primary service pressure rating, 750° F. maximum temperature, dwg. No. 3VG953 issued April 13, 1951; approved for size 1½" only, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/161/0, Type 1556HC, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 900 p. s. i. primary service pressure rating, 900° F. maximum temperature, dwg. No. 3VG953 issued April 13, 1951, approved for size 1½" only, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/163/0, Type 1556HD, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 900 p. s. i. primary service pressure rating, 1,000° F. maximum temperature, dwg. No. 3VG953 issued April 13, 1951, approved for size 1½" only, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/165/0, Type 1557HRA, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 1,200 p. s. i. maximum pressure, 650° F. maximum temperature, dwg. No. 3VE953 issued April 13, 1951, approved for sizes 2", 2½", 3" and 4", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/166/0, Type 1557HRB, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 1,200 p. s. i. maximum pressure, 750° F. maximum temperature, dwg. No. 3VE953 issued April 13, 1951, approved for sizes 2", 2½", 3" and 4", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/167/0, Type 1557HRC, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 1200 p. s. i. maximum pressure, 900° F. maximum temperature, dwg. No. 3VE953 issued April 13, 1951, approved for sizes 2", 2½", 3" and 4", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/168/0, Type 1557HRD, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 1200 p. s. i. maximum pressure, 1,000° F. maximum temperature, dwg. No. 3VE953 issued April 13, 1951, approved for sizes 2", 2½", 3" and 4", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/170/0, Type 1557RA, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 1500 p. s. i. primary service pressure rating, 650° F. maximum temperature, dwg. No. 3VF953 issued April 13, 1951, approved for sizes 2", 2½", and 3", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/172/0, Type 1557RB, Consolidated carbon steel body pop safety valve, exposed spring, fitted with spring cover, 1,500 p. s. i. primary service pressure rating, 750° F. maximum temperature, dwg. No. 3VF953 issued April 13, 1951, approved for sizes 2", 2½" and 3", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/174/0, Type 1557RC, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 1,500 p. s. i. primary service pressure rating,

900° F. maximum temperature, dwg. No. 3VF953 issued April 13, 1951, approved for sizes 2", 2½" and 3", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

Termination of Approval No. 162.001/176/0, Type 1557RD, Consolidated alloy steel body pop safety valve, exposed spring, fitted with spring cover, 1,500 p. s. i. primary service pressure rating, 1,000° F. maximum temperature, dwg. No. 3VF953 issued April 13, 1951, approved for sizes 2", 2½" and 3", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Approved FEDERAL REGISTER June 26, 1951.)

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 162.001)

BOILERS, HEATING

Termination of Approval No. 162.003/76/0, Model No. 350A, cast iron hot water heating boiler, maximum working pressure 15 p. s. i., manufactured by Werner Foundry, Inc., Lansdale, Pa. (Approved FEDERAL REGISTER December 31, 1948. Termination of approval effective December 31, 1953.)

Termination of Approval No. 162.003/77/0, Model No. 16, cast iron hot water heating boiler, maximum working pressure 15 p. s. i., manufactured by Werner Foundry, Inc., Lansdale, Pa. (Approved FEDERAL REGISTER December 31, 1948. Termination of approval effective December 31, 1953.)

(R. S. 4405, 4417a, 4418, 4426, 4433, 4434, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 412, 489, 1333, 50 U. S. C. App. 1275; 46 CFR Part 52)

Dated: March 19, 1954.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard, Commandant.

[F. R. Doc. 54-2110; Filed, Mar. 24, 1954; 8:54 a. m.]

[CGFR 54-14]

APPROVAL OF EQUIPMENT

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and in compliance with the authorities cited with each item of equipment: *It is ordered*, That:

(a) All the approvals listed in this document which extend these approvals previously published in the FEDERAL REGISTER are prescribed and shall be in effect for a period of five years from their respective dates as indicated at the end of each approval, unless sooner canceled or suspended by proper authority; and

(b) All the other approvals listed in this document (which are not covered by paragraph (a) above) are prescribed and shall be in effect for a period of five years from the date of publication of this document in the FEDERAL REGISTER unless sooner canceled or suspended by proper authority; and

(c) The document CGFR 53-53 appearing in the FEDERAL REGISTER dated December 15, 1953 (18 F. R. 8210-8212), regarding approval of equipment, shall be corrected as indicated below.

LIFE PRESERVERS, KAPOK, ADULT AND CHILD (JACKET TYPE)

Approval No. 160.002/40/0, Model 2, adult kopok life preserver, U. S. C. G. Specification Subpart 160.002, manufactured by Stearns Manufacturing Co., West Division Street at Thirtieth, St. Cloud, Minn.

Approval No. 160.002/41/0, Model 6, child kapok life preserver, U. S. C. G. Specification Subpart 160.002, manufactured by Stearns Manufacturing Co., West Division Street at Thirtieth, St. Cloud, Minn.

Approval No. 160.002/42/0, Model 2, adult kapok life preserver, U. S. C. G. Specification Subpart 160.002, manufactured by Atlas Products, 2459 University Avenue, St. Paul 14, Minn.

Approval No. 160.002/43/0, Model 6, child kapok life preserver, U. S. C. G. Specification Subpart 160.002, manufactured by Atlas Products, 2459 University Avenue, St. Paul 14, Minn.

Approval No. 160.002/44/0, Model 2, adult kapok life preserver, U. S. C. G. Specification Subpart 160.002, manufactured by Seattle Quilt Manufacturing Co., Inc., 310 First Avenue, South, Seattle 4, Wash.

Approval No. 160.002/45/0, Model 6, child kapok life preserver, U. S. C. G. Specification Subpart 160.002, manufactured by Seattle Quilt Manufacturing Co., Inc., 310 First Avenue, South, Seattle 4, Wash.

(R. S. 4405, 4417a, 4426, 4488, 4491, 4492, sec. 11, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 164, 166, 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 396, 404, 481, 489, 490, 526e, 526p, 1333, 50 U. S. C. App. 1275; 46 CFR 160.002)

CLEANING PROCESS FOR LIFE PRESERVERS

NOTE: Where buoyancy fillers are not removed from envelope covers during cleaning process.

Approval No. 160.006/22/0, Northwest cleaning process for cork and kapok life preservers, as outlined in description of process submitted with letter of November 24, 1953, from Northwest Industrial Laundry Co., 1848 Northwest Twenty-third Avenue, Portland 10, Oreg.

(R. S. 4405, 4417a, 4426, 4482, 4488, 4491, sec. 11, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 164, 166, 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391, 396, 404, 475, 481, 489, 526e, 526p, 1333, 50 U. S. C. App. 1275; 46 CFR 160.006)

BUOYANT CUSHIONS, KAPOK, STANDARD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.007/76/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by Helendon Bedding, Inc., 730 West Lexington Street, Baltimore 1, Md. (Extension of the approval published in the FEDERAL REGISTER December 31, 1948, effective December 31, 1953.)

Approval No. 160.007/139/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by The American Pad & Textile Co., Greenfield, Ohio, for Gamble-Skogmo, Inc., 15 North Eighth Street, Minneapolis 3, Minn.

Approval No. 160.007/140/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by Merit Manufacturing Corp., 92-15 One Hundred and Seventy-second Street, Jamaica 3, N. Y., for Revere Supply Co., Inc., 30 Front Street, New York 4, N. Y.

Approval No. 160.007/141/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by Style-Crafters, Inc., Box 3312, Station A, Greenville, S. C., for Southern Sales Co., 920 Lafayette Building, Philadelphia, 6, Pa.

Approval No. 160.007/143/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by Style-Crafters, Inc., Box 3312, Station A, Greenville, S. C., for Harry Miller Co., 244 Atlantic Avenue at Central Wharf, Boston 10, Mass.

Approval No. 160.007/144/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by Sunde & d'Evers Co., Colman Ferry Terminal, Seattle 4, Wash.

(R. S. 4405, 4491, 54 Stat. 164, 166, as amended; 46 U. S. C. 375, 489, 526e, 526p; 46 CFR 160.007)

BUOYANT CUSHIONS, NON-STANDARD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.008/404/0, 15" x 15" x 2" rectangular buoyant cushion, 20-oz. kapok, specifications contained in manufacturer's letter dated January 11, 1949, manufactured by the Holiday Line, Inc (formerly Plastictronics, Inc.), 54 Greene Street, New York 13, N. Y. (Extension of the approval published in FEDERAL REGISTER February 8, 1949, effective February 8, 1954.)

Approval No. 160.008/594/0, 15" x 15" x 2" rectangular buoyant cushion, 36-oz. fibrous glass, dwg. dated October 23, 1953, manufactured by Fiberglass-Evercoat Co., 407 West Court Street, Cincinnati 3, Ohio.

Approval No. 160.008/595/0, 14" x 18" x 2" rectangular buoyant cushion, 22-oz. kapok, American Pad & Textile Co. dwg. Nos. B-66, dated January 23, 1942, revised March 6, 1946, and A-87, dated March 16, 1953, manufactured by the American Pad & Textile Co., Greenfield, Ohio, for Gamble-Skogmo, Inc., 15 North Eighth Street, Minneapolis 3, Minn.

Rectangular buoyant cushions manufactured by the Safegard Corp., Box 66 Station B, Cincinnati, Ohio, dwg. dated October 31, 1953, in the following sizes with the amount of kapok indicated for each size:

Approval No.	Size (inches)	Kapok (ounces)
160.008/600/0	14 x 18 x 2	22½
160.008/597/0	14 x 20 x 2	25
160.008/598/0	14 x 36 x 2	45
160.008/599/0	14 x 54 x 2	67

Approval No. 160.008/601/0, 15" x 15" x 2" rectangular buoyant cushion, 20-oz. kapok, Merit Manufacturing Corp. dwg. dated November 11, 1953, manufactured by Merit Manufacturing Corp., 92-15 172d St., Jamaica 3, N. Y., for Revere Supply Co., Inc., 30 Front Street, New York 4, N. Y.

Approval No. 160.008/602/0, 13" x 21" x 2" rectangular buoyant cushion, 24-oz. kapok, Style-Crafters, Inc., dwg. No. MKO(S)-21, dated October 29, 1953, manufactured by Style-Crafters, Inc., Box 3312, Station A, Greenville, S. C., for Southern Sales Co., 920 Lafayette Building, Philadelphia 6, Pa.

Approval No. 160.008/603/0, 15" x 15" x 2" rectangular buoyant cushion, 20-oz. kapok, Style-Crafters, Inc., dwg. No. MKP-15, dated December 9, 1952, manufactured by Style-Crafters, Inc., Box 3312, Station A, Greenville, S. C., for Southern Sales Co., 920 Lafayette Building, Philadelphia 6, Pa.

Approval No. 160.008/605/0, 15" x 15" x 2" rectangular buoyant cushion, 20-oz. kapok, specifications dated December 10, 1953, manufactured by Willis Manufacturing Co., 3007 Huldy, Houston, Tex.

Approval No. 160.008/606/0, 15" x 15" x 2" rectangular buoyant cushion, 20-oz. kapok, Style-Crafters, Inc., dwg. No. MKP-15, dated December 9, 1952, manufactured by Style-Crafters, Inc., Box 3312, Station A, Greenville, S. C., for Harry Miller Co., 244 Atlantic Avenue at Central Wharf, Boston 10, Mass.

Approval No. 160.008/607/0, 15" x 24½" x 2" rectangular buoyant cushion, 33-oz. kapok, dwg. No. 10, dated December 24, 1953, manufactured by Stearns Manufacturing Co., West Division Street at 30th, St. Cloud, Minn.

Approval No. 160.008/608/0, 15" x 27" x 2" rectangular buoyant cushion, 36-oz. kapok, dwg. No. 11, dated December 24, 1953, manufactured by Stearns Manufacturing Co., West Division Street at 30th, St. Cloud, Minn.

(R. S. 4405, 4491, 54 Stat. 164, 166, as amended; 46 U. S. C. 375, 489, 526e, 526p; 46 CFR 160.008)

WINCH, LIFEBOAT

Approval No. 160.015/50/1, Type HM lifeboat winch for use with mechanical davits, fitted with wire rope not more than ½-inch in diameter and with not more than 7 wraps of the falls on the drums, approval is limited to mechanical components and for a maximum working load of 6,600 pounds pull at the drums (3,300 pounds per fall); identified by left hand assembly dwg. No. L-22000-E3 dated April 8, 1949, and revised June 19, 1951, manufactured by Marine Safety Equipment Corp., Point Pleasant, N. J. (Supersedes Approval No. 160.015/50/0 published in the FEDERAL REGISTER October 4, 1951.)

(R. S. 4405, 4417a, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 160.015)

LADDERS, EMBARKATION-DEBARKATION (FLEXIBLE)

Approval No. 160.017/4/2, Type 241-A embarkation-debarkation ladder, chain suspension, steel ears, dwg. No. 241-A, dated February 21, 1950, revised December 9, 1953, manufactured by Great Bend Manufacturing Corp., George Washington Bridge Plaza, Fort Lee, N. J. (Supersedes Approval No. 160.017/4/1 published in the FEDERAL REGISTER July 25, 1950.)

Approval No. 160.017/5/2, Type 241-B, embarkation-debarkation ladder, chain suspension, aluminum ears, dwg. No. 241-B, dated February 21, 1950, revised December 9, 1953, manufactured by Great Bend Manufacturing Corp., George Washington Bridge Plaza, Fort Lee, N. J. (Supersedes Approval No. 160.017/5/1 published in the FEDERAL REGISTER July 25, 1950.)

Approval No. 160.017/17/1, Fig. 017-S. C. embarkation-debarkation ladder, chain suspension, steel ears, dwg. No. 017-1, rev. F, dated November 24, 1953, manufactured by Allain Marine Sales Co., 2122 Kentucky Street, New Orleans, La. (Supersedes Approval No. 160.017/17/0 published in the FEDERAL REGISTER October 6, 1953.)

Approval No. 160.017/18/1, Fig. 017-A. C. embarkation-debarkation ladder, chain suspension, aluminum ears, dwg. No. 017-1, rev. F, dated November 24, 1953, manufactured by Allain Marine Sales Co., 2122 Kentucky Street, New Orleans, La. (Supersedes Approval No. 160.017/18/0 published in the FEDERAL REGISTER October 6, 1953.)

(R. S. 4405, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 404, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 59.63, 76.56a, 94.55a, 113.47a, 160.017)

NOZZLES, WATER SPRAY (1½ INCH FIXED TYPE)

Approval No. 160.025/11/0, Model L-11 A, water spray nozzle, dwg. No. S-120 dated April 18, 1941, rev. January 18, 1944, and dwg. No. S-121 dated April 18, 1941, rev. November 3, 1945, manufactured by Rockwood Sprinkler Co., 38 Harlow Street, Worcester 5, Mass. (Extension of the approval published in FEDERAL REGISTER December 31, 1948, effective December 31, 1953.)

(R. S. 4405, 4417a, 4426, 4491, 49 Stat. 1544, 54 Stat. 1028, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 489, 463a, 50 U. S. C. App. 1275; 46 CFR 34.10-40, 76.10-10, 95.10-10)

CONTAINERS, EMERGENCY PROVISIONS AND WATER

Approval No. 160.026/24/0, Container for emergency drinking water, dwg. dated October 6, 1953, manufactured by Scientific Distilling Co., 12710 Aurora Avenue, Seattle 33, Wash.

(R. S. 4405, 4417a, 4426, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 33.15-1, 75.20-15 (kk), 75.20-20 (n), 94.20-15 (ii), 94.20-20 (n))

DAVITS, LIFEBOAT

Approval No. 160.032/47/2, gravity davit, type G-105S (formerly type 60-75), approved for maximum working load of 21,000 pounds per set (10,500 pounds per arm), using 2 part falls, identified by arrangement dwg. No. 3368-2, rev. A dated September 11, 1953, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Supersedes Approval No. 160.032/47/1 published in the FEDERAL REGISTER February 18, 1953.)

Approval No. 160.032/142/0, mechanical davit, straight boom sheath screw, type 24-40 MKII, approved for maximum working load of 12,000 pounds per set (6,000 pounds per arm), identified by general arrangement dwg. No. 5011-1E, rev. A dated September 2, 1953, manufactured by Marine Safety Equipment Corp., Point Pleasant, N. J.

(R. S. 4405, 4417a, 4426, 4481, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 474, 481, 489, 1333, 50 U. S. C. 1275; 46 CFR 160.032)

LIFEBOATS

Approval No. 160.035/9/1, 14.0' x 5.0' x 2.2' steel, oar-propelled lifeboat, 9-person capacity, identified by construction and arrangement dwg. No. G-1409 dated September 29, 1953, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Reinstates and supersedes Approval No. 160.035/9/0 terminated in the FEDERAL REGISTER October 1, 1952.)

Approval No. 160.035/54/1, 26.0' x 8.3' x 3.6' aluminum, oar-propelled lifeboat, 46-person capacity, identified by construction and arrangement dwg. No. 2815-A dated March 5, 1953, and revised November 2, 1953, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Reinstates and supersedes Approval No. 160.035/54/0 terminated in the FEDERAL REGISTER October 1, 1952.)

Approval No. 160.035/66/1, 36.5' x 11.75' x 5.25' aluminum, hand-propelled lifeboat, 135-person capacity, identified by construction and arrangement dwg. No. 2894-A dated April 24, 1945, and revised November 12, 1953, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Reinstates and supersedes Approval No. 160.035/66/0 terminated in the FEDERAL REGISTER October 1, 1952.)

Approval No. 160.035/94/1, 20.0' x 6.0' x 2.5' steel, oar-propelled lifeboat, 18-person capacity, identified by general arrangement and construction dwg. No. 49R-2020 dated May 5, 1950, and revised November 23, 1953, manufactured by Lane Lifeboat & Davit Corp., 8920 Twenty-sixth Avenue, Brooklyn 14, N. Y. (Reinstates and supersedes Approval No. 160.035/94/0 terminated in the FEDERAL REGISTER October 1, 1952.)

Approval No. 160.035/307/0, 16.0' x 5.5' x 2.38' aluminum, oar-propelled lifeboat, 12-person capacity, identified by construction and arrangement dwg. No. 3473 dated April 7, 1953, and revised November 19, 1953, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J.

Aproval No. 160.035/315/0, 28.0' x 9.0' x 4.0' steel, motor-propelled lifeboat without radio cabin (Class B), 50-person capacity, identified by construction and arrangement dwg. No. 3486 dated August 10, 1953, and revised January 15, 1954, manufactured by Welin Davit and Boat

Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J.

(R. S. 4405, 4417a, 4426, 4481, 4488, 4491, 4492, sec. 11, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 396, 404, 474, 481, 489, 490, 1333, 50 U. S. C. App. 1275; 46 CFR 160.035)

LIGHTS (WATER): ELECTRIC, FLOATING, AUTOMATIC (WITH BRACKET FOR MOUNTING)

Approval No. 161.001/1/1, automatic floating electric water light (with bracket for mounting), dwg. No. 1000 dated July 16, 1948, alt. 2, manufactured by Sea Light Engineering Co., P. O. Box 409, Silver Spring, Md. (Extension of the approval published in FEDERAL REGISTER December 31, 1948, effective December 31, 1953.)

(R. S. 4405, 4417a, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 404, 481, 1333, 50 U. S. C. 1275; 46 CFR 161.001)

FLASHLIGHTS, ELECTRIC, HAND

Approval No. 161.008/5/0, No. 1918 watertight flashlight, Type I, size No. 2 (2-cell), identified by assembly dwg. No. F-896-3C dated September 27, 1948, and revised October 6, 1948, manufactured by Bright Star Battery Co., Clifton, N. J. (Extension of the approval published in FEDERAL REGISTER February 8, 1949, effective February 8, 1954.)

Approval No. 161.008/6/0, No. 1925 watertight flashlight, Type I, size No. 3 (3-cell), identified by assembly dwg. No. F-896-3C dated September 27, 1948, and revised October 6, 1948, manufactured by Bright Star Battery Co., Clifton, N. J. (Extension of the approval published in FEDERAL REGISTER February 8, 1949, effective February 8, 1954.)

Approval No. 161.008/7/0, No. 1917 explosion-proof flashlight, Type II, size No. 2 (2-cell), identified by assembly dwg. No. F-894-3C dated September 24, 1948, and revised October 5, 1948, manufactured by Bright Star Battery Co., Clifton, N. J. (Extension of the approval published in FEDERAL REGISTER February 8, 1949, effective February 8, 1954.)

Approval No. 161.008/8/0, No. 1924 explosion-proof flashlight, Type II, size No. 3 (3-cell), identified by assembly dwg. No. F-894-3C dated September 24, 1948, and revised October 5, 1948, manufactured by Bright Star Battery Co., Clifton, N. J. (Extension of the approval published in FEDERAL REGISTER February 8, 1949, effective February 8, 1954.)

(R. S. 4405, 4417a, 4426, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 481, 1333, 50 U. S. C. App. 1275; 46 CFR 161.008)

VALVES, SAFETY (POWER BOILERS)

Approval No. 162.001/64/2, Type Series 1515B, carbon steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 750° F., dwg. No. 3VH953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1¼"	1515HB
2"	1515JB
2½"	1515KB
3"	1515LB

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/64/1 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/65/2, Type Series 1515C, alloy steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 900° F., dwg. No. 3VH953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1515HC
2"	1515JC
2½"	1515KC
3"	1515LC

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/65/1 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/66/2, Type Series 1515A, carbon steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 650° F., dwg. No. 3VH953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1515HA
2"	1515JA
2½"	1515KA
3"	1515LA

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/66/1 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/98/1, Series #5-102, bronze body pop safety valve, enclosed spring, maximum pressure 300 p. s. i., maximum temperature 450° F., dwg. No. 5-102, dated December 14, 1948, approved for sizes 1½", 2", 2½", and 3", manufactured by Marine & Industrial Products Co., 3731-35 Filbert Street, Philadelphia 4, Pa. (Supersedes Approval No. 162.001/98/0 published in the FEDERAL REGISTER February 19, 1949.)

Approval No. 162.001/99/1, Series #5-101, bronze body pop safety valve, enclosed spring, maximum pressure 150 p. s. i., maximum temperature 366° F., dwg. No. 5-101, dated December 14, 1948, approved for sizes 1½", 2", 2½", and 3", manufactured by Marine & Industrial Products Co., 3731-35 Filbert Street, Philadelphia 4, Pa. (Supersedes Approval No. 162.001/99/0 published in the FEDERAL REGISTER February 19, 1949.)

Approval No. 162.001/141/1, Type Series 1415A, carbon steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 650° F., dwg. No. 3VA953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1415FA
1½"	1415GA
1½"	1415HA
2"	1415HA
2½"	1415JA
3"	1415KA
4"	1415LA
4"	[1] 1415NA

[1] Maximum pressure limited to 450 p. s. i.

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/141/0 published in the FEDERAL REGISTER June 1, 1951.)

Approval No. 162.001/142/1, Type Series 1415B, carbon steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 750° F., dwg. No. 3VA953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1415FB
1½"	1415GB
1½"	1415HB
2"	1415HB
2½"	1415JB
3"	1415KB
4"	1415LB
4"	[1] 1415NB

[1] Maximum pressure limited to 450 p. s. i.

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/142/0 published in the FEDERAL REGISTER June 1, 1951.)

Approval No. 162.001/143/1, Type Series 1415C, alloy steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 900° F., dwg. No. 3VA953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1415FC
1½"	1415GC
1½"	1415HC
2"	1415HC
2½"	1415JC
3"	1415KC
4"	1415LC
4"	[1] 1415NC

[1] Maximum pressure limited to 450 p. s. i.

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/143/0 published in the FEDERAL REGISTER June 1, 1951.)

Approval No. 162.001/153/1, Type Series 1555A, carbon steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 650° F., dwg. No. 3VD953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1555HA
2"	1555JA
2½"	1555KA
3"	1555LA

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/153/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/154/1, Type Series 1555B, carbon steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 750° F., dwg. No. 3VD953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1555HB
2"	1555JB
2½"	1555KB
3"	1555LB

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/154/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/155/1, Type Series 1555C, alloy steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 900° F., dwg. No. 3VD953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1555HC
2"	1555JC
2½"	1555KC
3"	1555LC

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/155/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/156/1, Type Series 1555D, alloy steel body pop safety valve, exposed spring, maximum pressure 600 p. s. i., maximum temperature 1,000° F., dwg. No. 3VD953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1555HD
2"	1555JD
2½"	1555KD
3"	1555LD

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/156/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/158/1, Type Series 1556A, carbon steel body pop safety valve, exposed spring, maximum pressure 900 p. s. i., maximum temperature 650° F., dwg. No. 3VG953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1556HA
2"	1556JA
2½"	1556KA
3"	1556LA

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/158/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/160/1, Type Series 1556B, carbon steel body pop safety valve, exposed spring, maximum pressure 900 p. s. i., maximum temperature 750° F., dwg. No. 3VG953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1556HB
2"	1556JB
2½"	1556KB
3"	1556LB

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/160/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/162/1, Type Series 1556C, alloy steel body pop safety valve, exposed spring, maximum pressure 900 p. s. i., maximum temperature 900° F., dwg. No. 3VG953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1556HC
2"	1556JC
2½"	1556KC
3"	1556LC

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/162/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/164/1, Type Series 1556D, alloy steel body pop safety valve, exposed spring, maximum pressure 900 p. s. i., maximum temperature 1000° F., dwg. No. 3VG953, revised November 10, 1953, approved for the following sizes and type numbers:

Size:	Type No.
1½"	1556HD
2"	1556JD
2½"	1556KD
3"	1556LD

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/164/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/169/1, Type Series 1557A, carbon steel body pop safety valve, exposed spring, maximum pressures 1,200 p. s. i. and 1,500 p. s. i., maximum temperature 650° F., dwg. Nos. 3VE953 and 3VF953, revised November 10, 1953, approved for the following sizes and type numbers:

Size (inches)	Type No.	
	1,200 p. s. i.	1,500 p. s. i.
1¼		1557FA
2	1557HA	1557GA
2½	1557JA	1557HA
3	1557KA	1557JA
4	1557LA	

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/169/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/171/1, Type Series 1557B, carbon steel body top safety valve, exposed spring, maximum pressures 1,200 p. s. i. and 1,500 p. s. i., maximum temperature 750° F., dwg. Nos. 3VE953 and 3VF953, revised November 10, 1953, approved for the following sizes and type numbers:

Size (inches)	Type No.	
	1,200 p. s. i.	1,500 p. s. i.
1¼		1557FB
2	1557HB	1557GB
2½	1557JB	1557HB
3	1557KB	1557JB
4	1557LB	

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/171/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/173/1, Type Series 1557C, alloy steel body pop safety valve, exposed spring, maximum pressures 1,200 p. s. i. and 1,500 p. s. i., maximum temperature 900° F., dwg. Nos. 3VE953 and 3VF953, revised November 10, 1953, approved for the following sizes and type numbers:

Size (inches)	Type No.	
	1,200 p. s. i.	1,500 p. s. i.
1¼		1557FD
2	1557HD	1557GD
2½	1557JD	1557HD
3	1557KD	1557JD
4	1557LD	

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/173/0 published in the FEDERAL REGISTER June 26, 1951.)

Approval No. 162.001/175/1, Type Series 1557D, alloy steel body pop safety valve, exposed spring, maximum pressures 1,200 p. s. i. and 1,500 p. s. i., maximum temperature 1,000° F., dwg. Nos. 3VE953 and 3VF953, revised November 10, 1953, approved for the following sizes and type numbers:

Size (inches)	Type No.	
	1,200 p. s. i.	1,500 p. s. i.
1¼		1557FD
2	1557HD	1557GD
2½	1557JD	1557HD
3	1557KD	1557JD
4	1557LD	

Manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/175/0 published in the FEDERAL REGISTER June 26, 1951.)

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 162.001)

BOILER, HEATING

Approval No. 162.003/78/1, Model 523C, horizontal water tube steam heating boiler, 1,075 pounds per hour, dwg. No. 38-8186-2, Rev. 2 dated December 8, 1953, maximum design pressure 30 p. s. i., approval limited to bare boiler, manufactured by The International Boiler Works Co., 1 Birch Street, East Stroudsburg, Pa. (Supersedes Approval No. 162.003/78/0 published in FEDERAL REGISTER February 8, 1949.)

(R. S. 4405, 4417a, 4418, 4426, 4433, 4434, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 412, 489, 1333, 50 U. S. C. App. 1275; 46 CFR Part 52)

FIRE EXTINGUISHERS, PORTABLE, HAND, CARBON-TETRACHLORIDE TYPE

Approval No. 162.004/21/2, General Quick Aid Fire Guard Model 85 HD, 1-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT-185-XK, Rev. C dated December 8, 1952, name plate dwg. No. AT-185-1D dated March 3, 1952, no revision (Coast Guard classification: Type B, Size I; and Type C, Size I), manufactured by The General Detroit Corp., 2272 East Jefferson Avenue, Detroit 7, Mich. (Supersedes Approval No. 162.004/21/1 published in FEDERAL REGISTER October 11, 1952.)

Approval No. 162.004/22/2, General Quick Aid Fire Guard Model 95 HD, 1½-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT-195-XK, Rev. D dated December 8, 1952, name plate dwg. No. AT-195-1D dated March 3, 1952, no revision (Coast Guard classification: Type B, Size I; and Type C, Size I), manufactured by The General Detroit Corp., 2272 East Jefferson Avenue, Detroit 7, Mich. (Supersedes Approval No. 162.004 22/1 published in FEDERAL REGISTER October 11, 1952.)

Approval No. 162.004/23/3, General Quick Aid Fire Guard Model 85 HD, 1-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT-185-XK, Rev. C dated December 8, 1952, name plate dwg. No. AT-185-1D dated March 3, 1952, no revision (Coast Guard classification: Type B, Size I; and Type C, Size I), manufactured by The General Pacific Corp., 1501 East Washington Boulevard, Los Angeles 21, Calif. (Supersedes Approval No. 162.004/23/2 published in FEDERAL REGISTER October 11, 1952.)

Approval No. 162.004/54/1, General Quick Aid Fire Guard Model 95 HD, 1½-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT-195-XK, Rev. D dated December 8, 1952, name plate dwg. No. AT-195-1D dated March 3, 1952, no revision (Coast Guard classification: Type B, size I; and Type C, Size I), manufactured by The General Pacific Corp., 1501 East Washington Boulevard, Los Angeles 21, Calif. (Supersedes Approval No. 162.004/54/0 published in FEDERAL REGISTER October 11, 1952.)

(R. S. 4405, 4417a, 4426, 4479, 4491, 4492, 49 Stat. 1544, 54 Stat. 165, 166, 346, 1028, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 463a, 472, 489, 490, 526g, 526p, 1333, 50 U. S. C. 1275; 46 CFR 25.30, 34.25-1, 76.50, 95.50)

FIRE EXTINGUISHERS, PORTABLE, HAND, CARBON-DIOXIDE TYPE

Approval No. 162.005/13/1, C-O-Two Type PSA-5, 5-lb. carbon-dioxide type hand portable fire extinguisher, assembly dwg. No. C-1102, Rev. 3 dated February 27, 1952, name plate dwg. No. C-1112 dated January 4, 1951 (Coast Guard classification: Type B, Size I; and Type C, Size I), manufactured by C-O-Two Fire Equipment Co., Box 390, Newark 1, N. J. (Supersedes Approval No. 162.005/13/0 published in FEDERAL REGISTER May 19, 1953.)

Approval No. 162.005/19 0, General Quick Aid Sno Fog Fire Guard, Model 10AK, squeeze grip valve, 10-pound carbon-dioxide hand portable fire extinguisher, assembly dwg. No. BC-210-X, Rev. A, dated September 6, 1946, name plate dwg. No. CC-210-1, revised June 27, 1947 (Coast Guard classification: Type B, Size I; and Type C, Size I), manufactured by The General Detroit Corp., 2272 East Jefferson Avenue, Detroit 7, Mich. (Extension of the approval published in FEDERAL REGISTER February 8, 1949, effective February 8, 1954.)

(R. S. 4405, 4417a, 4426, 4479, 4491, 4492, 49 Stat. 1544, 54 Stat. 165, 166, 346, 1028, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 404, 463a, 472, 490, 526g, 526p, 1333, 50 U. S. C. App. 1275; 46 CFR 25.30, 34.25-1, 76.50, 95.50)

FIRE EXTINGUISHERS, PORTABLE, HAND, WATER, CARTRIDGE-OPERATED TYPE

Approval No. 162.009/1/1, Kidde Model KAM Anti-Freeze (Symbol AM) cartridge-operated type 2½-gallon hand portable fire extinguisher, assembly dwg. No. 240223, Rev. C-1 dated February 23, 1952, cartridge assembly dwg. No. 907702, Rev. Z dated October 12, 1943, instruction panel dwg. No. 157083, Rev. A dated February 9, 1952 (Coast Guard classification: Type A, Size II), manufactured by Walter Kidde & Co., Inc., Belleville 9, N. J. (Supersedes Approval No. 162.009/1/0 published in FEDERAL REGISTER October 1, 1952.)

Approval No. 162.009/2/1, Kidde Model KWM Water (Symbol AM) cartridge-operated type 2½-gallon hand portable fire extinguisher, assembly dwg. No. 240222, Rev. F dated January 24, 1952, cartridge assembly dwg. No. 907702, Rev. Z dated October 12, 1943, instruction panel dwg. No. 157085, Rev. A dated February 9, 1952 (Coast Guard classification: Type A, Size II), manufactured by Walter Kidde & Co., Inc., Belleville 9, N. J. (Supersedes Approval No. 162.009/2/0 published in FEDERAL REGISTER October 1, 1952.)

(R. S. 4405, 4417a, 4426, 4479, 4491, 4492, 49 Stat. 1544, 54 Stat. 165, 166, 346, 1028, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 463a, 472, 489, 490, 526g, 526p, 1333, 50 U. S. C. 1275; 46 CFR 25.30, 34.25, 76.50, 95.50)

APPLIANCE, LIQUEFIED PETROLEUM GAS CONSUMING

Approval No. 162.020/58/0, 9000 Series range for liquefied petroleum gas service, approved by the American Gas Association, Inc., under certificate No. 1-917-57.001, manufactured by the Caloric Stove Corporation, Topton, Pa.

(R. S. 4405, 4417a, 4426, 4491, secs. 1, 2, 49 Stat. 1544, sec. 2, 54 Stat. 1028, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 463a, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 55.16-10)

INDICATORS, BOILER WATER LEVEL, SECONDARY TYPE

Reliance Eye-Hye secondary type boiler water level indicators, remote reading, 400 p. s. i. maximum pressure, dwg. No. D-6610-2 dated February 19, 1949, manufactured by the Reliance Gauge Column Co., 5902 Carnegie Avenue, Cleveland 3, Ohio, approved for the following model numbers:

Approval No.:	Model No.
162.025/41/0	E400
162.025/42/0	E400-A
162.025/43/0	E400-B
162.025/44/0	E400-C

Reliance Eye-Hye secondary type boiler water level indicators, remote reading, 400 p. s. i. maximum pressure, dwg. No. D-6611-2 dated February 22, 1949, manufactured by the Reliance Gauge Column Co., 5902 Carnegie Avenue, Cleveland 3, Ohio, approved for the following model numbers:

Approval No.:	Model No.
162.025/45/0	E401
162.025/46/0	E401-A
162.025/47/0	E401-B
162.025/48/0	E401-C

Reliance Eye-Hye secondary type boiler water level indicators, remote reading, 600 p. s. i. maximum pressure, dwg. No. 6612-2 dated February 10, 1949, manufactured by the Reliance Gauge Column Co., 5902 Carnegie Avenue, Cleveland 3, Ohio, approved for the following model numbers:

Approval No.:	Model No.
162.025/49/0	E600
162.025/54/0	E601-A
162.025/51/0	E600-B
162.025/52/0	E600-C

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 489, 1333, 50 U. S. C. App. 1275; 46 CFR Part 52)

DECK COVERING

Approval No. 164.006/5/0, "Cel-O-Crete", magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TG3610-1232, F. R. 1806, dated October 30, 1940, approved for use without other insulating material as meeting Class A-60 requirements in a 1¾ inch thickness, manufactured by Johns-Manville Sales Corp., 1617 Pennsylvania Boulevard, Philadelphia 3, Pa. (Extension of the approval published in FEDERAL REGISTER December 31, 1948, effective December 31, 1953.)

(R. S. 4405, 4417a, 4426, 49 Stat. 1384, 1544, 54 Stat. 346, 1028, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 369, 375, 391a, 404, 463a, 1333, 50 U. S. C. App. 1275; 46 CFR 164.006)

STRUCTURAL INSULATION

Approval No. 164.007/26/0, "Fiberglas Insulation PF-CG", glass wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 10210-1536: FP2661 dated December 1, 1948, bats and blankets approved for use without other insulating material to meet Class A-60 requirements in a 4-inch thickness and 6 pounds per cubic foot density, manufactured by Owens-Corning Fiberglas Corp., Toledo 1, Ohio. (Extension of the approval published in FEDERAL REGISTER February 8, 1949, effective February 8, 1954.)

(R. S. 4405, 4417a, 4426, 49 Stat. 1384, 1544, 54 Stat. 346, 1028, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 369, 375, 391a, 404, 463a, 1333, 50 U. S. C. App. 1275; 46 CFR 72.05, 92.05)

INCOMBUSTIBLE MATERIAL

Approval No. 164.009/28/0, "Baldwin-Hill Spun Felt" mineral wool insulation type incombustible material identical with that described in National Bureau of Standards Test Report No. TG10210-1921 FP 3257 dated December 16, 1953, approved in a density of from 3 to 4 pounds per cubic foot, manufactured by Baldwin-Hill Co., 500 Breunig Avenue, Trenton 2, N. J.

(R. S. 4405, 4417a, 4426, 49 Stat. 1384, 1544, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 369, 375, 391a, 404, 463a, 50 U. S. C. App. 1275; 46 CFR 164.009)

CORRECTION OF A PRIOR DOCUMENT

The Coast Guard Document CGFR 53-53 and Federal Register Document 53-10418 published in the FEDERAL REGISTER dated December 15, 1953, is corrected by changing the word "fire-tube" to "water tube" in Approval No. 162.003/150/1 under the heading "Boiler, Heating" (18 F. R. 8211); and by inserting the word "Marinwal-A" immediately after the Approval No. 164.008/31/0 appearing under the center heading "Bulkhead Panel" (18 F. R. 8212).

Dated: March 19, 1954.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard,
Commandant.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

An application, serial number Anchorage 026092, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on March 31, 1952, by the Department of Agriculture. The purposes of the proposed withdrawal: Proposed additions to Forest Service Administrative Sites.

For a period of 60 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VII, Bureau of Land Management, Department of the Interior at Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

KETCHIKAN MARINE STATION (ADDITION)

Beginning at corner No. 1 MC. US. Survey 1079 on the north shore of Tongass Narrows; thence by meander following the approximate line of mean high tide: 1. S. 55° 30' E. 106 ft., 2. S. 69° 45' E. 46 ft., 3. S. 60° 15' E. 248 ft. Thence S. 24° 04' W. 245 ft.; thence N. 63° 58' W. 398 ft.; thence N. 24° 04' E. 270 ft. to place of beginning containing 2.34 acres.

JUNEAU ADMINISTRATIVE SITE (ADDITION)

Beginning at Corner No. 5 M. C. U. S. Survey 2313 on the north shore of Gastineau Channel at line of mean high tide: thence S. 47° W. 450 ft.; thence N. 40° 15' W. 1884 ft.; thence N. 47° E 450 ft. to Corner No. 1 M. C. U. S. Survey 2306 on the north shore of Gastineau Channel at line of mean high tide. Thence by meander at line of mean high tide: 1. S. 48° 34' E. 1023.7 ft. 2. S. 50° 45' E. 229 ft.; 3. S. 38° 14' E 450 ft. 4. S. 42° 21' E. 181 ft. to place of beginning containing 18.94 acres.

FRED J. WEILER,
Chief,
Division of Land Planning.

ALASKA

SHORESPACE RESTORATION ORDER NO. 508 AND SMALL TRACT CLASSIFICATION NO. 79

MARCH 3, 1954.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and pursuant to Delegation of Authority contained in sections 2.21 and 2.22 (a) (3) of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior on August 20, 1951 (16 F. R. 8625), it is ordered as follows:

(a) Subject to valid existing rights, the 80-rod shorespace reserve which is now or may hereafter be created under the act of May 14, 1898 (30 Stat. 409; 48 U. S. C. 371), as amended, is hereby revoked as to the public lands hereinafter described, which are situated in the Anchorage, Alaska, Land District and which

are hereby classified as chiefly valuable for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

JUNEAU AREA

FOR LEASE AND SALE

For Cabin Sites

U. S. Survey 2388: Lot H.
U. S. Survey 3060: Lots 1, 2, and 4.

Comprising 4 tracts aggregating 7.31 acres.

KETCHIKAN AREA

FOR LEASE AND SALE

For Home Sites

U. S. Survey 3021: Lots 72–83, inclusive.

Comprising 12 tracts aggregating 17.17 acres.

WRANGELL AREA

U. S. Survey 2900: Lots 18 and 19.

Comprising 2 tracts aggregating 5.58 acres.

(b) Subject to valid existing rights, the following described lands, which are situated in the Anchorage, Alaska, Land District are hereby classified as chiefly valuable for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

KETCHIKAN AREA

FOR LEASE AND SALE

For Home Sites

U. S. Survey 2808: Lots 24, 25, and 27.

Comprising 3 tracts aggregating 9.92 acres.

(c) The following described lands which were classified for lease and sale for home sites under Alaska Small Tract Classification Order No. 45 of October 10, 1951, shall become subject to disposition as provided in paragraph 3 of this order:

JUNEAU AREA

U. S. Survey 2305: Lots 2–15, inclusive.

Comprising 14 tracts aggregating 19.99 acres.

(d) The following described lands which were classified for lease and sale for home sites under Alaska Small Tract Classification Order No. 56 of May 2, 1952, shall become subject to disposition as provided in paragraph 3 of this order:

JUNEAU AREA

U. S. Survey 3159: Lots 2–13, inclusive.

Comprising 12 tracts aggregating 21.29 acres.

2. These lands have become available for Small Tract disposition through survey of open public domain, previous classification of surveyed lands, or restoration from the Tongass National Forest. They are located in the general vicinities of the cities of Juneau, Ketchikan, and Wrangell. The tracts are accessible by road and/or boat and all are covered with moderate to heavy stands of timber. The terrain varies from level to steep and rocky. The climate features the mild temperatures and heavy precipitation typical of southeast Alaska. Sewage disposal can be accomplished on individual tracts through septic tanks or cesspools and water for domestic use is obtainable from hand-dug or drilled wells. The nearby cities provide churches, schools, business establishments, and other community facilities.

3. This classification order shall not otherwise become effective to change the status of any lands described herein or to permit the leasing of any such lands under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on March 31, 1954. At that time the lands described below shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection, as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on March 31, 1954, to close of business on June 29, 1954 inclusive, preference will be given, as set forth above, to:

(1) Applications under the Small Tract Act of June 1, 1938, (52 Stat. 609; 43 U. S. C. 682a) as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and

(2) Applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by veterans and other qualified persons under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph.

(b) *Advance period for simultaneous preference right filings.* All applications filed by such veterans and other qualified persons, or by persons claiming preference rights superior to those of such veterans filed under the preceding paragraph (a) on March 17, 1954 or thereafter, up to and including 10:00 a. m. on March 31, 1954, shall be treated as simultaneously filed. All applications filed under the preceding paragraph (a) after 10:00 a. m. on March 31, 1954, shall be considered in the order of filing.

(c) *Date for non-preference right filings.* Commencing at 10:00 a. m. on June 30, 1954, any lands remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on June 9, 1954, or thereafter, up to and including 10:00 a. m. on June 30, 1954, shall be treated as simultaneously filed. All applications filed thereafter shall be considered in the order of filing.

4. A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or which constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All applications for these lands, which shall be filed in the Land Office at Anchorage, Alaska, shall be made on Form 4–776 and shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938 shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

6. Lessees under the Small Tract Act of June 1, 1938 will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, under the circumstances, are substantial, and are appropriate for the use for which the lease is issued. Leases will be issued for a period of two years, at an annual rental of $5 for home sites and cabin sites, payable in advance for the entire lease period. Applications for extension for an additional period of one year shall be considered in appropriate cases. Every lease for land classified for lease and sale will contain an option to purchase clause and every such lessee may file an application to purchase at the sale price as provided in the lease.

7. All of the land will be leased in tracts varying in size from approximately 0.63 acre to approximately 3.67 acres, in accordance with the classification maps on file in the Land Office, Anchorage, Alaska. These tracts are appraised at prices ranging from $75 to $350.

8. Lessees must locate any wells or sewage disposal facilities in accordance with the laws and regulations of the Territory of Alaska.

9. The leases will be made subject to rights-of-way for road purposes and public utilities, as specified in the Classification and Appraisal Report on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. In the discretion of the authorized officer of the Bureau of Land Management, these rights-of-way may be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

FRED J. WEILER,
Chief,
Division of Land Planning.

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

An application, serial number Anchorage 025659, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on October 12, 1953, by The Department of the Army. The purposes of the proposed withdrawal: Pipeline System Terminal Site.

For a period of 60 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VII, Bureau of Land Management, Department of the Interior at Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

T 30 S., R. 59 E., CRM.
Sec. 15: N½NW¼SE¼, N½S½NW¼SE¼.

FRED J. WEILER,
Chief,
Division of Land Planning.

ALASKA

ALASKA PUBLIC SALE ACT CLASSIFICATION NO. 14

MARCH 19, 1954.

Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625, 8627), the following described land is classified for disposal under the Alaska Public Sale Act of August 30, 1949 (63 Stat. 679, 43 U. S. C. 364a–364e) for industrial and commercial purposes:

Lots 7 and 8, Sec. 25, T. 4 N., R. 12 W., S. M.

Containing 7.26 acres.

The above land will be offered for sale in accordance with regulations contained in 43 CFR 75.23. If no bid at the minimum acceptable price or above is made, the land may be held for future offering or the classification may be rescinded.

EARL G. HARRINGTON,
Acting Assistant Director.

[Misc. 59320]

NEBRASKA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS RESTORED FROM NORTH PLATTE PROJECT

MARCH 19, 1954.

An order of the Bureau of Reclamation dated October 25, 1950, concurred in by the Acting Director, Bureau of Land Management, November 20, 1950, revoked the Departmental Order of February 11, 1903, so far as it withdrew under the provisions of the Reclamation Act of June 17, 1902 (32 Stat. 388) the following described land in connection with the North Platte Project and provided that such revocation should not affect the withdrawal of any other lands by said order or affect any other order withdrawing or reserving the lands described:

SIXTH PRINCIPAL MERIDIAN

T. 20 N., R. 50 W.,
Sec. 2, S½NW¼.

The area described contains 80 acres.

This land is situated in the North Platte Drainage of Nebraska at an elevation of approximately 3,250 feet where the annual precipitation is approximately twelve inches. The topography is rough and bumpy with a wide draw running east and west through the land. The soil is sandy and subject to blowing when cultivated or when not protected by vegetation. The native vegetation consists of buffalo grass, sand grass and other native grasses. Wind erosion at the present time is moderate to severe. The land is primarily valuable for grazing and is not suitable for crop production. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans of World War II and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Inquiries concerning the lands shall be addressed to the Director, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

EARL G. HARRINGTON,
Acting Assistant Director.

[Doc. 18, Region II]

NEVADA

ORDER PROVIDING FOR RESTORATION OF PUBLIC LANDS

MARCH 18, 1954.

In an exchange of lands consummated under the provisions of section 8 of the act of June 28, 1934, 48 Stat. 1272, as amended June 26, 1936, 49 Stat. 1976 (43 U. S. C. 315g), the following-described lands have been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 34 N., R. 55 E.:
Sec. 1, Lots 3 and 4, S½NW¼, SW¼NE¼.

In accordance with Delegation of Authority Order 427, section 2.22, of the Director, Bureau of Land Management, Amendment No. 2, dated July 10, 1951, it is ordered that effective on the date of this publication, the above-described lands, comprising 204.59 acres in Elko County, Nevada, are hereby opened to disposition, subject to valid existing rights and the provisions of existing withdrawals.

This restoration, being made in furtherance of an exchange under section 8 of the act of June 28, 1934, 48 Stat. 1272, as amended by section 3 of the act of June 26, 1936, 49 Stat. 1976 (43 U. S. C. 315g), by which the offered lands will benefit federal land programs, it is not subject to the provisions contained in the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, granting preference rights to veterans of World War II and others.

The restored lands, having been found suitable by appropriate investigation, to exchange in furtherance of the federal land program as indicated above, are classified simultaneously with the time of their restoration for conveyance to the City of Elko, Nevada, in accordance with Exchange Application Nevada 010902.

Inquiries regarding these lands shall be addressed to the Manager, Land and Survey Office, Post Office Box 1950, Reno, Nevada.

L. T. HOFFMAN,
Regional Administrator.

[Docket DA–414]

OREGON

RESTORATION ORDER UNDER FEDERAL POWER ACT

MARCH 15, 1954.

Pursuant to determination DA–414, Oregon, of the Federal Power Commission and in accordance with Order No. 427 section 2.22 (a) (4) of the Director,

Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws as provided by law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818), as amended.

WILLAMETTE MERIDIAN

T. 31 S., R. 41 E.:
Sec. 14, SE¼SW¼, W½SW¼.

The areas described contain an aggregate of 120 acres.

The lands described have an elevation of 3,500 feet; the topography is level; and the soil is sandy clay loam. The lands are classified as grazing and agricultural in character and suitable for disposal under the public sale law or entry under the desert land law.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The lands described shall be subject to application by the State of Oregon for a period of 90 days from that of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90-day preference filing period of veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Information showing the periods during which and conditions under which veterans and others may file application for these lands may be obtained on request in the Land Office, Portland, Oregon.

JOSEPH A. GAUONG,
Acting Regional Administrator.

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 17, 1954.

An application, serial number Idaho 04663, for the withdrawal from all forms of appropriation under the public land laws, except none of the lands described below was filed on February 8, 1950, by United States Fish and Wildlife Service. The purposes of the proposed withdrawal: North Lake Wildlife Management Area, Idaho.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

T. 7 N., R. 35 E., B. M., Idaho;
Sec. 20, SE¼, E½SW¼,
Sec. 29, N½, N½SW¼, NW¼SE¼.
Sec. 28, SW¼NW¼, NW¼SW¼, SE¼SW¼,
Sec. 32, Lots 1, 2, 3 and 4.
T. 6 N., R. 35 E., B. M., Idaho;
Sec. 5, Lots 3 and 5;
Sec. 6, Lots 1, 2, 4, 5, and 6.
T. 7 N., R. 34 E., B. M., Idaho;
Sec. 26, S½N½, S½,
Sec. 34, NE¼NE¼, SW¼SE¼.
Sec. 35, N½NW¼, NW¼NE¼, S½SE¼, SE¼SW¼.
T. 6 N., R. 34 E., B. M., Idaho;
Sec. 1, Lots 1, 2, 3, 4, 5, 6 and 7.
Sec. 2, N½N½, S½NE¼,
Sec. 3, N½NE¼.
Sec. 12, NW¼NW¼.

The areas described aggregate 2,392.32 acres.

JOSEPH A. GAUONG,
Acting Regional Administrator.

WASHINGTON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 17, 1954.

An application, serial number Washinton 0710, for the withdrawal from all forms of appropriation under the public land laws, except none of the lands described below was filed on December 19, 1952, by The Corps of Engineers, U. S. Army. The purposes of the proposed withdrawal: Yakima Artillery and Anti-Aircraft Firing Range.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

Bureau of Reclamation

NORTH PLATTE PROJECT, NEBRASKA

ORDER OF REVOCATION

OCTOBER 23, 1952.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Order of May 3, 1904, insofar as said order affects the following described land; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

SIXTH PRINCIPAL MERIDIAN, NEBRASKA

T. 22 N., R. 52 W.,
Sec. 35, SE¼SE¼.

The above area aggregates 40 acres.

G. W. LINEWEAVER,
Assistant Commissioner.

[Misc. 63850]

MARCH 19, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands are grazing lands, located approximately five miles northeast of Bayard, Nebraska. The topography is rolling and the soils are silty sand. Vegetative cover consists principally of blue grama and sand grass. The land lies on the top and slopes of a small divide. Any application that is filed will be considered on its merits. The lands will not be subject to use or occupancy until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans of World War II and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended.

Inquiries concerning the lands shall be addressed to the Director, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

EARL G. HARRINGTON,
Acting Assistant Director,
Bureau of Land Management.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

OKLAHOMA

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS AND ECONOMIC EMERGENCY LOANS

For the purpose of making loans pursuant to section 2 (a) of Public Law 38, 81st Congress, it is found that in the counties listed below a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the delegation of authority from the Administrator, Federal Civil Defense Administration (18 F. R. 4609) and for the purpose of making loans pursuant to section 2 (b) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, it is determined that the counties listed below are within the area affected by the major disaster occasioned by drought determined by the President on June 26, 1953, pursuant to Public Law 875, 81st Congress. It is also determined that an economic disaster exists in said counties that has caused a need for agricultural credit that cannot be met for a temporary period from commercial banks, cooperative lending agencies, the Farmers Home Administration under its regular loan programs, or other responsible sources.

OKLAHOMA

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10346]

JAMES GERITY, JR.

MEMORANDUM OPINION AND ORDER MODIFYING ISSUES

In re application of James Gerity, Jr., Pontiac, Michigan, Docket No. 10346, File No. BP-8651; for construction permit.

1. This proceeding involves a petition by WKMH, Inc., licensee of Station WKMF, which it submits in connection with the above-entitled application which was designated for hearing following a protest under section 309 (c) of the Act against an earlier grant of the application without hearing. The matter was designated for hearing by the Commission's memorandum opinion and order released August 7, 1953. Certain issues were specified in that order, and the Commission placed on the protestant the burden of proof and the burden of proceeding with the introduction of evidence. The WKMF petition asks that the burdens of proof and of proceeding with the introduction of evidence be placed on Gerity, and that certain changes be made in the designated hearing issues. These matters are set out in detail below.

2. On November 12, 1952, the Commission adopted an order providing for a consolidated hearing on the Gerity and two other mutually exclusive applications to use 1460 kilocycles in Pontiac, Michigan. Because of the prospect of interference which the proposed Gerity station would cause, the Commission designated an issue to that effect and WKMF (then called WCLC) was made a party respondent. Subsequently, the other two applicants dismissed their applications. On January 22, 1953, Gerity petitioned for reconsideration and grant of his application without hearing. On May 8, the Commission granted Gerity's petition and application.

3. On June 8, WKMF filed a petition renewing its objection to the proposed Gerity station and asking the Commission, under the authority of section 405 of the Communications Act, to (1) reconsider its grant to Gerity, (2) designate the application for hearing on the original issues of November 12, 1952, and (3) set aside the Gerity grant until final disposition of the hearing. WKMF asked that if section 405 were not applicable, its petition be treated as a protest under section 309 (c) of the act.

4. After holding several discussions relative to elimination of the prospective interference, Gerity and WKMF filed a joint motion on June 17, 1953 in which Gerity consented to WKMF's petition insofar as it constituted a protest under section 309 (c), and WKMF withdrew its petition insofar as it constituted a request for reconsideration under section 405 and asked that its petition be considered solely as a section 309 (c) protest.

5. On August 7, 1953, the Commission released its memorandum opinion and order in which it postponed the effective date of the grant to Gerity, designated the application for hearing pursuant to section 309 (c), and listed, but specifically refused to adopt as its own,[1] the following hearing issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the availability of other primary service to such areas and populations.

2. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

3. To determine whether the operation of the proposed station would involve objectionable interference with Station WKMF.

[1] Section 309 (c) provides in pertinent part, as follows: "* * * In any hearing subsequently held * * * with respect to all issues set forth in the protest and not specifically adopted by the Commission, both the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the protestant * * *"

Flint, Michigan, and, if so, the nature and extent thereof, the areas and populations affected thereby, the availability of other primary service to such areas and populations, and the nature and character of the program service now being rendered by Station WKMF to such areas and populations.

Although the August 7 document inadvertently contained some ambiguous language, it is clear that the parties had intended that the pleading be considered a section 309 (c) protest and that the relief afforded by the Commission was in significant respects that contemplated by that section.

6. In its instant petition, WKMF requests that the Commission transfer the burdens of proof and of proceeding with the introduction of evidence to applicant Gerity, and asks that the issues be amended to read as follows:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the primary services and the nature and character of program services available to such areas and populations.

2. To determine the type and character of program service proposed to be rendered by the applicant and whether it would meet the requirements of the areas and populations proposed to be served.

3. To determine whether the operation of the proposed station would involve objectionable interference with Station WKMF, Flint, Michigan, and, if so, the nature and extent thereof, the areas and populations affected thereby, the primary services available to such areas and populations, and the nature and character of program services now being rendered to such areas and populations.

4. To determine the nature and character of the program service Station WCAR will render to the areas and populations proposed to be served by the applicant after Station WCAR has moved to Detroit, Michigan.

5. To determine whether, based on the findings made pursuant to the issues above, the public interest, convenience or necessity would be served by the grant of the above-entitled application.

7. Briefly, we are disposed to revise the issues in accordance with WKMF's requested issues, 1, 2, 3, and 5 since these are basically the issues specified by reference in the WKMF pleading of June 8, 1953 which was later clearly labeled by the parties as a section 309 (c) protest. We will decline WKMF's suggested issue 4 since this request comes long after the expiration of the 30-day protest period of section 309 (c), and we are not inclined on our own motion to include the issue. Lastly, we are of the view that the proceeding on the Gerity application is clearly a section 309 (c) hearing, and we can find no reason for reversing our original position that the burdens of proof and of going forward shall be placed upon the protestant.

8. Accordingly: *It is ordered*, This 18th day of March 1954, that the issues for hearing on the above-captioned application are modified to read as follows:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the primary services and the nature and character of program services available to such areas and populations.

2. To determine the type and character of program service proposed to be rendered by the applicant and whether it would meet the requirements of the areas and populations proposed to be served.

3. To determine whether the operation of the proposed station would involve objectionable interference with Station WKMF, Flint, Michigan, and, if so, the nature and extent thereof, the areas and populations affected thereby, the primary services available to such areas and populations, and the nature and character of program services now being rendered to such areas and populations.

4. To determine whether, based on the findings made pursuant to the issues above, the public interest, convenience or necessity would be served by the grant of the above-entitled application.

9. *It is further ordered*, That the above issues are not adopted by the Commission, and that, therefore, pursuant to the provisions of section 309 (c) of the Communications Act of 1934, as amended, the burden of proceeding with the introduction of evidence and the burden of proof shall be on the protestant.

Released: March 22, 1954.

FEDERAL COMMUNICATIONS COMMISSION [1]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 54-2107; Filed, Mar. 24, 1954; 8:53 a. m.]

[Docket Nos. 10959, 10911]

LAWTON BROADCASTING CO., INC., AND PHIL BIRD

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Lawton Broadcasting Company, Inc., Lawton, Oklahoma, File No. BP-8840, Docket No. 10959; Phil Bird, Lawton, Oklahoma, File No. BP-9018, Docket No. 10911; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of March 1954;

The Commission having under consideration the above-entitled application of Lawton Broadcasting Company, Inc., for a construction permit for a standard broadcast station in Lawton, Oklahoma, to operate on 1600 kilocycles, with a power of 1,000 watts, unlimited time;

It appearing, that the Lawton Broadcasting Company is legally, technically and financially qualified to operate the station as proposed, but that the operation as proposed would result in mutually prohibitive interference with the proposed operation of Phil Bird at Lawton, Oklahoma (Docket No. 10911; File No. BP-9018) and that the proposed operation would not provide the minimum of interference-free service as recommended by the Standards of Good Engineering Practice within the proposed station's normally protected nighttime 4 mv/m and daytime (0.5 mv/m) contours; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated November 25, 1953, of the above deficiencies and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing, that the applicant failed to respond to the Commission's letter of November 25, 1953, and, as result thereof, the Commission on February 15, 1954, dismissed subject application of Lawton Broadcasting Company; and

It further appearing, that on February 24, 1954, the applicant requested the Commission to reconsider its action of February 15, 1954, dismissing its application and the Commission, after reconsidering, reinstated subject application effective March 3, 1954.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled application of Lawton Broadcasting Company is designated for hearing in a consolidated proceeding with the application of Phil Bird of Lawton, Oklahoma (Docket No. 10911, File No. BP-9018) at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the availability of other primary service to such areas and populations.

2. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's Rules and Standards of Good Engineering Practice concerning Standard Broadcast Stations with particular reference to providing the recommended minimum of interference-free service within the proposed station's normally protected nighttime (4 mv/m) and daytime (0.5 mv/m) contours.

3. To determine, on a comparative basis, whether the operation proposed in the above-entitled application or that proposed in the application submitted by Phil Bird for Lawton, Oklahoma (File No. BP-9018) would best serve the public interest, convenience or necessity in light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the applicants to own and operate the proposed stations.

(b) The proposals of each of the applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

It is further ordered, That issue 3 set forth above is made one of the issues in the hearing designed by the Commission in its order of February 17, 1954, concerning the application of Phil Bird, Lawton, Oklahoma (Docket No. 10911; File No. BP-9018).

Released: March 22, 1954.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-68]

DERBY GAS & ELECTRIC CORP.

ORDER DECLARING REGISTERED HOLDING COMPANY HAS CEASED TO BE HOLDING COMPANY AND TERMINATING REGISTRATION

MARCH 18, 1954.

The Housatonic Public Service Company, a public-utility company, and the successor of Derby Gas & Electric Corporation ("Derby"), a registered holding company, has filed an application with this Commission for an order under section 5 (d) of the Public Utility Holding Company Act of 1935 ("act") declaring that Derby has ceased to be a holding company and that its registration as such under the act unconditionally ceased to be in effect as of the close of business on December 31, 1953, subject, however, to the continuation of the reservations of jurisdiction with respect to the allowance and payment of fees and expenses incurred in connection with the plan and merger of Derby and its subsidiaries (other than the Derby Gas and Electric Corporation of Connecticut) into and with said the Derby Gas and Electric Corporation of Connecticut and the proceedings had with respect thereto contained in the Commission's order of October 9, 1953 (Holding Company Act Release No. 12165).

Due notice having been given of the filing of said application, and a hearing not having been requested of or ordered by the Commission; and it appearing to the Commission that Derby has ceased to be a holding company and the said application should be granted:

It is hereby ordered and declared, That Derby has ceased to be a holding company, and that the registration of Derby as a holding company has ceased to be in effect as of the close of business on December 31, 1953, subject, however, to a continuation of the reservations of jurisdiction with respect to the allowance and payment of fees and expenses incurred in connection with the foregoing plan and merger and the proceedings had with respect thereto contained in the Commission's order of October 9, 1953.

By the Commission.

[File No. 812-826]

NATIONAL FOOD PRODUCTS CORP.

NOTICE OF APPLICATION FOR ORDER DECLARING THAT COMPANY IS NOT AN INVESTMENT COMPANY

MARCH 18, 1954.

Notice is hereby given that National Food Products Corporation ("National Food"), Boston, Massachusetts, has filed an application pursuant to section 3 (b) (2) of the Investment Company Act of 1940 ("act") for an order declaring it to be primarily engaged through a controlled company in a business other than that of investing, reinvesting, owning, holding, or trading in securities.

The application states that for several years prior to 1940 National Food, a Maryland corporation organized in 1925, controlled two subsidiaries each of which was engaged in operating a chain of food stores, and that during 1940 these subsidiaries were merged and the name of the surviving corporation was changed to Colonial Stores, Incorporated ("Colonial Stores"). Since the merger Colonial Stores has been continuously engaged in the operation of a chain of food stores, or supermarkets, and now operates in the States of Maryland, Virginia, North Carolina, South Carolina, Georgia, Alabama, Tennessee, and Florida. Colonial Stores' sales amounted to $214,995,018 for the fiscal year ended December 27, 1952.

The application also states that as of December 31, 1940, following the merger, National Food owned 149,590 shares or 61 percent of the common stock of Colonial stores then outstanding. In addition National Food also owned 21,500 shares of the common stock of H. C. Bohack Company, Inc., or about 20 percent of that company's then outstanding common stock; 4,330 shares of common stock of United States Stores Corporation; and 600 shares of common stock of Philadelphia Dairy Products Company, Inc. At that time, the market value of National Food's majority holdings of the common stock of Colonial Stores exceeded 95 percent of the value of National Food's total assets, exclusive of Government securities and cash items.

Subsequently, as a result of a split of Colonial Stores' common stock, and the distribution by that company of dividends payable in its common stock, and the purchase by National Food of additional shares of Colonial Stores' common stock, National Food's holdings of Colonial Stores' common stock have increased to 400,830 shares. However, as a result of the acquisition of Colonial Stores' common stock during that period by others than National Food and despite the fact that National Food has not disposed of any shares of such stock, National Food's proportionate ownership of such stock has declined to 49.7 percent of the total outstanding.

As of February 1953, National Food's interest in the common stock of Colonial Stores had a market value of approximately $12,000,000, equal to about 85.7 percent of the then value of National Food's total assets. National Food's income in 1952 totalled $776,798 of which $668,048 or 86 percent thereof was derived from dividends on Colonial Stores' common stock.

The changes in National Food's portfolio since 1940 other than those relating to Colonial Stores are as follows: The 21,500 shares of common stock of H. C. Bohack Company, Inc. have been changed into 86,000 shares as a result of a 4 for 1 stock split; National Food has sold for an aggregate consideration of about $4,500 its interests in Philadelphia Dairy Products Company, Inc., and P. H. Butler Company (which National Food had received during 1941 in exchange for its holdings of United States Stores Corporation as a result of the reorganization thereof); in 1950 and 1951 National Food acquired for a consideration of $100,000 an interest in Everywoman's Magazine, Inc., which company publishes a magazine for sale in chain food stores.

National Food states that since the 1940 merger it has controlled Colonial Stores; that National Food's officers and directors have supervised the affairs of Colonial Stores, formulated the latter's major policies and controlled its major business decisions, and that National Food has been primarily engaged in the chain food store business through Colonial Stores and intends to remain in such business through Colonial Stores. All of National Food's eight directors are now members of Colonial Stores' board of directors of 15 members and three of National Food's directors, including its president, are members of Colonial Stores' five member Executive Committee.

Section 3 (b) (2) of the act, among other things, excepts from the definition of an investment company contained in

section 3 (a) (3), any issuer which the Commission finds and by order declares to be primarily engaged in a business other than that of investing, reinvesting, owning, holding, or trading in securities, either directly or through controlled companies conducting similar types of businesses.

Notice is further given that any interested person may, not later than March 31, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3202]

CAPE & VINEYARD ELECTRIC CO. ET AL.

NOTICE OF PROPOSED BANK BORROWINGS

In the matter of Cape & Vineyard Electric Company, New Bedford Gas and Edison Light Company, New Hampshire Electric Company, Plymouth County Electric Company, File No. 70-3202.

Notice is hereby given that Cape & Vineyard Electric Company ("Cape"), New Bedford Gas and Edison Light Company ("New Bedford"), New Hampshire Electric Company ("New Hampshire"), and Plymouth County Electric Company ("Plymouth"), public-utility subsidiaries of New England Gas and Electric Association, a registered holding company, have filed with this Commission a joint application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating section 6 (b) thereof as applicable to the several proposed transactions, which are summarized as follows:

The applicants propose to borrow, on notes payable to The First National Bank of Boston, funds not exceeding the aggregate amounts set forth below:

Cape	$2,700,000
New Bedford	2,500,000
Plymouth	1,200,000
New Hampshire	500,000

Cape, New Bedford and Plymouth propose to borrow funds from time to time prior to December 31, 1955, evidenced by notes maturing more than one year after date thereof but not later than December 31, 1957, bearing interest at the prime Boston rate for commercial paper plus ½ of 1 percent, with a maximum of 3¾ percent and a minimum of 3¼ percent, such interest rate to be adjusted every 90 days for any change in the existing prime rate within said maximum and minimum limits. The proceeds of the borrowings are to be used: (1) To repay notes of the several companies, in the aggregate principal amount of $1,850,000, and payable to said bank on December 31, 1954, and executed for the purpose of temporarily financing additions to property, plant and equipment; and (2) to apply the balance ($1,950,000 for Cape, $1,650,000 for New Bedford, $950,000 for Plymouth) to reimburse, in whole or in part, the Plant Replacement Fund of the several companies for expenditures made therefrom to finance extensions, additions and improvements to property, plant and equipment, and (as respects Cape and Plymouth) to finance temporarily their respective construction programs.

The Department of Public Utilities of Massachusetts, the regulatory commission of the state in which Cape, New Bedford and Plymouth are organized and doing business, has expressly authorized their respective borrowings as aforesaid.

New Hampshire proposes to borrow funds from time to time prior to December 31, 1954, evidenced by notes maturing more than one year after date thereof but not later than December 31, 1956, bearing interest at the prime Boston rate for commercial paper plus ¼ of 1 percent, with a maximum of 3½ percent and a minimum of 3 percent, such interest rate to be adjusted every 90 days for any change in the existing prime rate within said maximum and minimum limits. The proceeds of the borrowing are to be used to reimburse, in part, the company's treasury for costs already incurred for capital expenditures.

The Public Utilities Commission of the State of New Hampshire, the regulatory commission of the state in which New Hampshire is organized and doing business, has expressly authorized the company's borrowing as aforesaid.

The expenses to be incurred by the several companies in connection with said borrowings are estimated as follows:

	NEGEA Service Corporation (services at cost)	Legal services (Wm. A. Hill)	Miscellaneous	Total
Cape	$500	$150	$150	$800
New Bedford	500	150	150	800
Plymouth	500	150	150	800
New Hampshire	500	150	[1] 250	900

[1] Including estimated legal fees of $100 to associate counsel.

Notice is further given that any interested person may, not later than April 6, 1954, at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL REGISTER

VOLUME 19 NUMBER 59

Washington, Friday, March 26, 1954

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture.

Subchapter B—Loans, Purchases, and Other Operations

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Wheat]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1954-crop of wheat. The 1954 C. C. C. Grain Price Support Bulletin 1 (19 F. R. 967), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1954 is supplemented as follows:

Sec.
421.431 Purpose.
421.432 Availability of price support.
421.433 Eligible wheat.
421.434 Warehouse receipts.
421.435 Determination of quantity.
421.436 Determination of quality.
421.437 Maturity of loans.
421.438 Determination of support rates.
421.439 Warehouse charges.
421.440 Settlement.

AUTHORITY: §§ 421.431 to 421.440 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. Sup. 714c, 7 U. S. C. Sup. 1441, 1421.

§ 421.431 *Purpose.* Sections 421.431 to 421.440 state additional specific requirements which together with the general regulations contained in the 1954 C. C. C. Grain Price Support Bulletin 1 (§§ 421.401 to 421.421) apply to loans and purchase agreements under the 1954-Crop Wheat Price Support Program.

§ 421.432 *Availability of price support*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever wheat is grown in the continental United States except that farm-storage loans will not be available in areas where the State committee determines that wheat cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1955, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing wheat in 1954 as landowner, landlord, tenant, or sharecropper: *Provided*, That a producer shall not be an eligible producer unless he is in compliance with the Regulations pertaining to Farm Acreage Allotments for the 1954 crop as determined in accordance with 1954 CCC Wheat Bulletin A, Revised, as amended.

§ 421.433 *Eligible wheat.* At the time the wheat is placed under loan or delivered under a purchase agreement, it must meet the following requirements:

(a) The wheat must have been produced in the continental United States in 1954 by an eligible producer.

(b) The beneficial interest in the wheat must be in the eligible producer tendering the wheat for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the wheat was harvested.

(c) Such wheat must be: (1) Wheat of any class grading No. 3 or better; or (2) wheat of any class grading No. 4 or 5 on the factor or "test weight" and/or because of containing "Durum" and/or "Red Durum" but otherwise grading No. 3 or better; or (3) wheat of the class Mixed Wheat, consisting of mixtures of grades of eligible wheat as stated in subparagraphs (1) or (2) of this paragraph provided such mixtures are the natural products of the field.

(d) Wheat grading Tough, Weevily, Ergoty or Treated shall not be eligible, except that wheat represented by warehouse receipts grading "Tough" will be eligible if the warehouseman certifies on

the supplemental certificate or on a statement attached to the warehouse receipt that "Wheat grading Tough has been processed at the request of the eligible producer, and delivery will be made of the same country-run quality, quantity, grade and protein (if any), not tough, and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequest holder of said warehouse receipt."

(e) Except as provided in paragraph (d) of this section, wheat of the class hard red spring, durum, or red durum, shall not contain more than 14½ percent moisture, and wheat of any other class shall not contain more than 14 percent moisture.

(f) If offered as security for a farm-storage loan, the wheat must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the State committee.

§ 421.434 *Warehouse receipts.* Warehouse receipts, representing wheat in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements of this section:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be receipts issued by a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the wheat is insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) (1) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt must show: (i) Gross weight or bushels, (ii) class and subclass, (iii) grade (including special grades), (iv) test weight, (v) dockage, (vi) protein content (where determined by protein analysis or station average), and (vii) any other grading factor(s) when such factor(s), and not test weight, determine the grade. Also, the warehouse receipt or the warehouseman's supplemental certificate must show whether the wheat arrived by rail, truck, or barge. In the case of wheat delivered by rail or barge, the grading factors, classes and subclasses, protein content (where determined by protein analysis) on the warehouse receipt or warehouseman's supplemental certificate must agree with the inbound inspection and protein certificates for the car or barge if such certificates are issued.

(2) If the warehouseman has processed the wheat as provided in § 421.433 (d), the supplemental certificate must show the numerical grade and the grading factors changed because of the wheat being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

(c) In the case of wheat delivered by rail or barge, the protein content, as determined by a recognized protein testing laboratory, must be shown on each warehouse receipt (or supplemental certificate accompanying the warehouse receipt) representing wheat of the subclasses of hard red spring and hard red winter and the varieties of Baart and Bluestem of the subclass hard white wheat, except that protein content need not be shown for the subclasses hard winter and yellow hard winter produced in States or areas tributary to markets where a showing of protein content is not customarily required.

(d) A separate warehouse receipt must be submitted for each grade and subclass of wheat.

(e) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.439.

(f) Warehouse receipts representing wheat which has been shipped by rail or water from a country shipping point to a designated terminal point, or shipped by rail or water from a country shipping point to a storage point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be part of the supplemental certificate.

§ 421.435 *Determination of quantity.* (a) The quantity of wheat placed under farm-storage loan may be determined either by weight or by measurement. The quantity of wheat placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 60 pounds of wheat free of dockage. In determining the quantity of sacked wheat by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of wheat is determined by measurement, a bushel shall be 1.25 cubic feet of wheat testing 60 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 60-pound wheat:

For wheat testing:	Percent
65 pounds or over	108
64 pounds or over, but less than 65 pounds	107
63 pounds or over, but less than 64 pounds	105
62 pounds or over, but less than 63 pounds	103
61 pounds or over, but less than 62 pounds	102
60 pounds or over, but less than 61 pounds	100
59 pounds or over, but less than 60 pounds	98
58 pounds or over, but less than 59 pounds	97
57 pounds or over, but less than 58 pounds	95
56 pounds or over, but less than 57 pounds	93
55 pounds or over, but less than 56 pounds	92
54 pounds or over, but less than 55 pounds	90
53 pounds or over, but less than 54 pounds	88
52 pounds or over, but less than 53 pounds	87
51 pounds or over, but less than 52 pounds	85
50 pounds or over, but less than 51 pounds	83

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the wheat in determining the net quantity available for loan or purchase.

§ 421.436 *Determination of quality.* (a) The class, subclass, grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Wheat, whether or not such determinations are made on the basis of an official inspection.

(b) In the States of California, Idaho, New Mexico, Nevada, Oregon, Utah, Washington, and the counties in Montana where it is a normal practice to determine smut on a percentage basis, the quantity of smut shall be stated in terms of half percent, whole percent, or whole and half percent, and the quantity of smut so determined in pounds shall be deducted from the weight of the wheat after deduction of dockage. Elsewhere the smut condition of the wheat shall be determined on a degree basis. Where applicable, the words "Light Smutty" or "Smutty" shall be added to, and made a part of, the grade determination.

(c) The garlicky condition of the wheat shall be made a part of the grade designation by addition of the words "Light Garlicky" or the word "Garlicky."

§ 421.437 *Maturity of loans.* Loans mature on demand but not later than February 28, 1955, in the States of Alabama, Delaware, Florida, Georgia, Kentucky, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia, and not later than March 31, 1955, in all other States.

§ 421.438 *Determination of support rates.* Basic support rates for wheat will be set forth in 1954 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Wheat. Support rates will be established for wheat stored in approved warehouse storage at designated terminal markets, and for wheat stored in approved country warehouses and in approved farm storage. The support rate for the quality of wheat placed under a loan or delivered under a purchase agreement shall be the applicable basic support rate adjusted in accordance with the provisions of this section and 1954 C. C. C. Grain Price Support Bulletin 1, Supplement 2 Wheat.

(a) *Support rates at designated terminal markets.* (1) (i) Wheat eligible for loan or purchase at the support rate

established for designated terminal markets must have been shipped on a domestic interstate freight rate basis. On any wheat shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(ii) The support rates established for designated terminal markets apply to wheat which has been shipped by rail or water from a country shipping point to one of the designated terminal markets as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(2) (i) When shipped by rail or water and stored at any designated terminal market, except the terminal markets listed in subparagraph (3) of this paragraph, wheat for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 8 cents per bushel.

(ii) For wheat received by truck and stored at any designated terminal market, except the terminal markets listed in subparagraph (3) of this paragraph, the support rate shall be determined by making a deduction from the terminal rate as follows:

Terminal located in:	Amount of deduction (cents per bushel)
Area I: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington	12½
Area II: Minnesota, Montana, North Dakota, South Dakota, also Superior, Wis.	12½
Area III: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin, except Superior	13
Area IV: All States not listed in Area I, II, and III above	14

(3) (i) Wheat shipped by rail or water and stored at any of the following terminal markets and for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the applicable terminal rate:

Los Angeles, San Francisco, and Oakland, Calif.
New Orleans, La.
Baltimore, Md.
Duluth, Minn.
Portland and Astoria, Oreg.
Albany and New York, N. Y.
Philadelphia, Pa.
Galveston and Houston, Tex.
Norfolk, Va.
Seattle, Longview, Tacoma and Vancouver, Wash.
Superior, Wis.

(ii) For wheat received by truck and stored at any of the terminal markets listed in subdivision (i) of this subparagraph, the support rate shall be determined by making a deduction from the terminal rate as follows:

Terminal:	Amount of deduction (cents per bushel)
Los Angeles, San Francisco, and Oakland, Calif.; Duluth, Minn.; Portland and Astoria, Oreg.; Seattle, Longview, Tacoma, and Vancouver, Wash.; Superior, Wis.	4½
New Orleans, La.; Baltimore, Md.; Philadelphia, Pa.; Galveston and Houston, Tex.; Norfolk, Va.; Albany and New York, N. Y.	6

(b) *Support rates for wheat in approved warehouse storage at other than designated terminal markets.* (1) Except for the States designated in subparagraph (2) of this paragraph, the support rate for wheat stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax) of the through-freight rate from point of origin for such wheat to such terminal market: *Provided*, That on any wheat shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such wheat to the point of storage: *And provided further*, That in the case of wheat stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing wheat in such position.

(2) In the States of Delaware, Kentucky, Maryland, New Jersey, North Carolina, Tennessee, Virginia, and West Virginia, the CSS commodity office shall upon request of the county committee, determine the support rate for wheat stored in approved warehouses (except those situated at designated terminal markets) which was shipped by rail in the movement of natural market direction as approved by CCC, by adding to the county rate for the county from which the wheat was shipped an amount per bushel equal to the receiving and loading-out charges computed in accordance with the applicable rates of the Uniform Grain Storage Agreement for the 1954 crop and an amount equal to the transit value of the freight paid (plus tax) from points of origin to markets designated by CCC. The warehouse receipts must be accompanied by the original paid freight bills or a certificate signed by the warehouseman as set forth in § 421.434 (f). If the wheat is stored in approved warehouses located at transit points, taking a penalty by reason of backhaul, or out-of-line of natural market movements, such penalty or other costs by reason of such movement, as determined by CCC shall be deducted from the support rates as determined in this paragraph.

(c) *Discounts and premiums.* The basic support rates shall be adjusted by all applicable premiums and discounts listed in 1954 CCC Grain Price Support Bulletin 1, Supplement 2, Wheat.

§ 421.439 *Warehouse charges.* (a) Warehouse receipts and the wheat represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges not to exceed the Uniform Grain Storage Agreement rates from the date the grain is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing wheat stored in warehouses operating under the Uniform Grain Storage Agreement is on or before February 28, or March 31, 1955, the applicable date to be determined in accordance with § 421.437, there shall be deducted in computing the amount of the loan or purchase price the storage charges as determined in accordance with the table of deductions for warehouse charges to be issued at a later date unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through February 28, or March 31, 1955, the applicable date to be determined in accordance with § 421.437.

(b) Warehouse receipts and the wheat represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the amount of the loan or purchase price the amount of the approved tariff rates for storage (not including elevation), which will accumulate from the date of deposit through February 28, or March 31, 1955, whichever date is applicable to the point of storage as determined in accordance with § 421.437, unless written evidence has been submitted with the warehouse receipt that the storage charge has been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges.

§ 421.440 *Settlement*—(a) *Settlement value.* (1) In the case of eligible wheat delivered to CCC from farm-storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with § 421.418 (e). The support rate shall be for the grade and quality of the total quantity of wheat eligible for delivery. If, upon delivery, the wheat under farm-storage loan is of a grade and/or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and/or quality of the wheat placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the wheat delivered, as determined by CCC: *Provided, however*, That if such wheat is sold by CCC in order to determine its market price the settlement value shall not be less than such sales price.

(2) In the case of eligible wheat delivered to CCC under purchase agreement, settlement shall be made at the applicable support rate determined in accordance with § 421.418 (e).

(b) *Storage deduction for early delivery.* Whenever farm-stored wheat under loan or purchase agreement is delivered to CCC prior to the loan maturity date for the State, a deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges (§ 421.439), except that no such deduction shall be made if such early delivery is made because the loan is called solely for the convenience of CCC, or if it is determined by CCC at the time of delivery that the wheat will be sold rather than stored, or if CCC requires early delivery on an area basis.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on wheat under loan or purchase agreement (or charges for elevation in the case of warehouses operated by Eastern common carriers), the producer shall, upon delivery of the wheat to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, (or approved tariff in the case of warehouses operated by Eastern common carriers) provided, the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Track-loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on wheat delivered to CCC on track at a country point.

Issued this 23d day of March 1954.

[SEAL] J. A. McCONNELL,
Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 54-2158; Filed, Mar. 25, 1954; 8:54 a. m.]

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Oats]

PART 421—GRAINS AND RELATED COMMODITIES.

SUBPART—1954 CROP OATS LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for 1954 crop oats. The 1954 C. C. C. Grain Price Support Bulletin 1 (19 F. R. 967), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1954, is supplemented as follows:

Sec.
421.551 Purpose.
421.552 Availability of price support.
421.553 Eligible oats.
421.554 Warehouse receipts.
421.555 Determination of quantity.
421.556 Determination of quality.
421.557 Maturity of loans.
421.558 Support rates.
421.559 Warehouse charges.
421.560 Settlement.

AUTHORITY: §§ 421.551 to 421.560 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C., Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053; 15 U. S. C. Sup. 714c; 7 U. S. C. Sup. 1447, 1421.

§ 421.551 *Purpose.* Sections 421.551 to 421.560 state additional specific requirements which, together with the general regulations contained in the 1954 C. C. C. Grain Price Support Bulletin 1 (§§ 421.401 to 421.421), apply to loans and purchase agreements under the 1954 Crop Oats Price Support Program.

§ 421.552 *Availability of price support*—(a) *Method of support.* Price support will be available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever oats are grown in the continental United States, except that farm-storage loans will not be available in areas where the ASC State committee determines that oats cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the ASC county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1955, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing oats in 1954 as landowner, landlord, tenant, or sharecropper.

§ 421.553 *Eligible oats.* At the time the oats are placed under loan or delivered under a purchase agreement, the oats must meet the following requirements:

(a) The oats must have been produced in the continental United States in 1954 by an eligible producer.

(b) The beneficial interest in the oats must be in the eligible producer tendering the oats for loan or for delivery under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the oats were harvested.

(c) The oats must grade No. 3 or better. Feed oats and mixed feed oats will not be eligible.

(d) Oats grading Tough, Weevily, Smutty, Ergoty, Garlicky, Bleached or Thin, or oats otherwise of low quality will not be eligible, except that oats represented by warehouse receipts grading "Tough" will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt that "Oats grading Tough have been processed at the request of the eligible producer, and delivery will be made of the same country run quality, quantity and grade, not Tough, and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of the warehouse receipt."

(e) If offered as security for a farm-storage loan, the oats must have been stored in the granary at least 30 days prior to their inspection for measurement, sampling and sealing, unless otherwise approved by the ASC State committee.

§ 421.554 *Warehouse receipts.* Warehouse receipts representing oats in approved warehouse-storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the oats are insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipts must show: (1) Gross weight or bushels, (2) class, (3) grade, (4) test weight, and (5) any other grading factor(s) when such factor(s) and not test weight determine the grade.

(c) A separate warehouse receipt must be submitted for each grade of oats.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.559.

(e) If the warehouseman has processed the oats as provided in § 421.553 (d), the supplemental certificate must show the numerical grade and the grading factors changed because of the oats being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

§ 421.555 *Determination of quantity.* (a) The quantity of oats placed under farm-storage loan may be determined either by weight or by measurement. The quantity of oats placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 32 pounds of oats. In determining the quantity of sacked oats by weight, a deduction of three-fourths of a pound for each sack shall be made.

(c) When the quantity of oats is determined by measurement, a bushel shall

be 1.25 cubic feet of oats testing 32 pounds per bushel. The quantity so determined shall be adjusted for test weight by applying the applicable percentage as shown in the following table.

For oats testing:	Percent
40 pounds or over	125
39 pounds or over, but less than 40 pounds	121
38 pounds or over, but less than 39 pounds	118
37 pounds or over, but less than 38 pounds	115
36 pounds or over, but less than 37 pounds	112
35 pounds or over, but less than 36 pounds	109
34 pounds or over, but less than 35 pounds	106
33 pounds or over, but less than 34 pounds	103
32 pounds or over, but less than 33 pounds	100
31 pounds or over, but less than 32 pounds	96
30 pounds or over, but less than 31 pounds	93
29 pounds or over, but less than 30 pounds	90
28 pounds or over, but less than 29 pounds	87
27 pounds or over, but less than 28 pounds	84

(d) Since the percentage of dockage is not a grade factor in the case of oats, the quantity of oats will be determined without reference to dockage.

§ 421.556 *Determination of quality.* The grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Oats, whether or not such determinations are made on the basis of an official inspection.

§ 421.557 *Maturity of loans.* Loans mature on demand but not later than April 30, 1955.

§ 421.558 *Support rates.* (a) Loans will be made, and oats delivered under purchase agreements will be purchased at the support rates set forth in this section. Both farm-storage and warehouse-storage loans will be based on the support rate established for the county in which the oats are stored. If two or more approved warehouses are located at the same or adjoining towns, villages, or cities having the same domestic interstate freight rate, such towns, villages, or cities shall be deemed to constitute one shipping point, and the same support rate shall apply even though such warehouses are not all located in the same county. Such support rate shall be the highest support rate of the counties involved. Support rates per bushel for oats grading No. 3 or better, are set forth below:

County	Rate per bushel

WYOMING

All counties $0.73

(b) Where the State committee determines that State or district weed control laws affect the oats crop, the support rate will be 10 cents below the applicable county support rate set forth in the schedule in paragraph (a) of this section. If upon delivery of the oats to CCC, the producer supplies a certificate indicating that the oats comply with the weed control laws, the producer will be credited with the amount of the differential in determining the settlement value.

§ 421 559 *Warehouse charges.* (a) Warehouse receipts and the oats represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the grain is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing oats stored in warehouses oper-

ating under the Uniform Grain Storage Agreement is on or before April 30, 1955, there shall be deducted in computing the amount of the loan or purchase price the storage charges as determined in accordance with the table of deductions for warehouse charges to be issued at a later date, unless written evidence is submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges have been prepaid through April 30, 1955.

(b) Warehouse receipts and the oats represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the amount of the loan or purchase price the amount of the approved tariff rates for storage (not including elevation), which will accumulate from the date of deposit through April 30, 1955, unless written evidence has been submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges.

§ 421.560 *Settlement*—(a) *Settlement value.* (1) in the case of eligible oats delivered to CCC from farm-storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with §§ 421.558 and 421.418 (e). The support rate shall be for the grade and quality of the total quantity of oats eligible for delivery. If, upon delivery, the oats under farm-storage loan are of a grade and/or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and/or quality of the oats placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the oats delivered, as determined by CCC: *Provided, however,* That if such oats are sold by CCC in order to determine their market price the settlement value shall not be less than such sales price.

(2) In the case of eligible oats delivered to CCC under purchase agreement, settlement shall be made at the applicable support rate determined in accordance with §§ 421.558 and 421.418 (e).

(b) *Storage deduction for early delivery.* Whenever farm-stored oats under loan or purchase agreement are delivered to CCC prior to April 30, 1955, a deduction for storage shall be made in accordance with the schedule of deduction for warehouse charges (§ 421.559), except that no such deduction shall be made if such early delivery is made because the loan is called solely for the convenience of CCC, or if it is determined by CCC at the time of delivery that the oats will be sold rather than stored, or if CCC requires early delivery on an area basis.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on oats under loan or purchase agreement (or charges for elevation in the case of warehouses operated by Eastern common carriers), the producer shall, upon delivery of the oats to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement (or approved tariff in the case of warehouses operated by Eastern common carriers) provided, the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Track-loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on oats delivered to CCC on track at a country point.

Issued this 23d day of March 1954.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter C—Regulations and Standards Under the Farm Products Inspection Act

PART 54—GRADING AND INSPECTION OF DOMESTIC RABBITS AND EDIBLE PRODUCTS THEREOF AND UNITED STATES SPECIFICATIONS FOR CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

CHARGES FOR PERFORMING GRADING AND INSPECTION SERVICES

A notice of a proposed amendment to the regulations governing the grading and inspection of domestic rabbits and edible products thereof and United States specifications for classes, standards, and grades with respect thereto (7 CFR Part 54) was published in the FEDERAL REGISTER on January 27, 1954 (19 F. R. 459). This program is currently in effect pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong. approved July 28, 1953). The amendment, hereinafter set forth, provides for an increase in the charges for performing grading and inspection service. The hourly charge for performing these services is changed from $3.60 to $4.00, and the fee schedules applicable to domestic rabbit grading are also changed. The revision of the fees and charges should result in an increase in total collections of about 10 percent which is approximately the amount needed to make these programs self-supporting as required by the applicable legislation.

After consideration of all relevant material presented by interested parties, including the proposals set forth in the aforesaid notice, the regulations governing the grading and inspection of domestic rabbits and edible products thereof and United States specifications for classes, standards, and grades with respect thereto are hereby amended to become effective April 1, 1954.

It is hereby found that it is impractical, unnecessary, and contrary to public interest to postpone the effective date of this amendment for 30 days after publication in the FEDERAL REGISTER for the reasons that (1) legislation requires that the fees charged shall cover the cost of the service and the costs of the services are peculiarly within the knowledge of the Department, and the fees set forth herein are necessary to cover such costs; (2) fees and charges for performing services on a contract basis will be increased on April 1, 1954, and it is equitable that the changes in charges for services performed on a fee basis as set forth herein be made effective at the same time; and (3) additional time is not required in order for the industry to make preparation for compliance with this amendment.

The amendment is as follows:

1. Change paragraph (b) of § 54.101 *Grading service on a fee basis* to read as follows:

(b) In the event the aforesaid applicable rates specified in § 54.103 are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such grading service the fees for such service shall not be based on the rates specified in § 54.103, but shall be based on the time required to perform such grading service and the travel of each grader at the rate of $4.00 per hour for the time actually required.

2. Change § 54.103 *Domestic rabbits grading fees* to read as follows:

§ 54.103 *Domestic rabbits grading fees.* For each grading of any lot of domestic rabbits, whether live or ready-to-cook, the following fees shall be applicable:

For 500 pounds or less	$1.80
For 501 to 1,500 pounds, inclusive	3.00
For 1,501 to 3,000 pounds, inclusive	4.00
For 3,001 to 6,000 pounds, inclusive	5.50
For 6,001 to 10,000 pounds, inclusive	8.50
For 10,001 to 15,000 pounds, inclusive	11.50
For 15,001 to 20,000 pounds, inclusive	14.00
For 20,001 to 25,000 pounds, inclusive	17.50
For 25,001 to 30,000 pounds, inclusive	20.00
For each additional 5,000 pounds, or fraction thereof, in excess of 30,000 pounds	2.00

3. Change § 54.104 *Inspection service on a fee basis* to read as follows:

§ 54.104 *Inspection service on a fee basis.* Fees to be charged and collected for inspection services furnished on a fee basis shall be based on the time required to render such services including, but not being limited to, the time required for the travel of the inspector or inspectors in connection therewith, at the rate of $4.00 per hour for each inspector for the time actually required.

4. Change § 54.105 *Fees for additional copies of grading certificates and inspection certificates* to read as follows:

§ 54.105 *Fees for additional copies of grading certificates and inspection certificates.* Additional copies, other than those provided for in §§ 54.141 and 54.171, of any grading certificates or inspection certificates, may be supplied to any interested party upon payment of a fee of $1.50 for each set of five or fewer copies.

5. Change § 54.106 *Traveling expenses and other charges* to read as follows:

§ 54.106 *Travel expenses and other charges.* Charges may be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any grading service. Such charges shall include: (a) A charge of $0.50 for each grading made on a fee basis within the metropolitan area of the grader's official station, or (b) charges to cover the cost of travel (common carrier or automobile mileage) and per diem for each grading made on a fee basis outside the metropolitan area of the grader's official station, plus a charge of 10 percent of the amount charged for said per diem and travel costs.

(Sec 205, 60 Stat. 1090, 67 Stat. 205; 7 U. S. C. 1624)

Issued at Washington, D. C., this 24th day of March 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

PART 55—SAMPLING, GRADING, GRADE LABELING, AND SUPERVISION OF PACKAGING OF EGGS AND EGG PRODUCTS

CHARGES FOR PERFORMING GRADING AND INSPECTION SERVICES

A notice of a proposed amendment to the regulations governing the sampling, grading, grade labeling, and supervision of packaging of eggs and egg products (7 CFR Part 55) was published in the FEDERAL REGISTER on January 27, 1954 (19 F. R. 459). This program is effective pursuant to the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). The amendment hereinafter set forth increases the charges for performing grading and inspection service. The hourly charge is raised from $3.60 to $4.00 and the fee schedules for grading service on a package or lot basis are also increased. The increased fees and charges set forth herein will result in an increase in total collections of about 10 percent. The additional revenue is needed to cover the full costs of the grading and inspection service which legislation requires to be self-supporting.

After consideration of all relevant material presented by interested parties, including the proposals set forth in the aforesaid notice, the regulations governing the sampling, grading, grade labeling, and supervision of packaging of eggs and egg products are hereby amended to become effective April 1, 1954.

It is hereby found that it is impractical, unnecessary, and contrary to public interest to postpone the effective date of this amendment for 30 days after publication in the FEDERAL REGISTER for the reasons that (1) legislation requires that the fees charged shall cover the cost of the service and the costs of the service are peculiarly within the knowledge of the Department, and the fees set forth herein are necessary to cover such costs; (2) fees and charges for performing services on a contract basis will be increased on April 1, 1954, and it is equitable that the changes in charges for services performed on a fee basis as set forth herein be made effective at the same time; and (3) additional time is not required in order for the industry to make preparation for compliance with this amendment.

The amendment is as follows:

1. Change paragraph (b) of § 55.39 *On a fee basis* to read as follows:

(b) In the event the aforesaid applicable rates are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such grading service, the fees for such service shall not be based on the rates specified in §§ 55.43 to 55.45, both inclusive, but shall be based on the time required to perform such service and the travel of each sampler, grader, inspector, and supervisor of packaging at the rate of $4.00 per hour for the time actually required.

2. Change § 55.42 *Traveling expenses and other charges* to read as follows:

§ 55.42 *Travel expenses and other charges.* Charges may be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any grading service. Such charges shall include: (a) A charge of $0.50 for each grading made on a fee basis within the metropolitan area of the grader's official station, or (b) charges to cover the cost of travel (common carrier or automobile mileage) and per diem for each grading made on a fee basis outside the metropolitan area of the grader's official station, plus a charge of 10 percent of the amount charged for said per diem and travel costs.

3. Change § 55.43 *Egg grading and inspection fees* to read as follows:

§ 55.43 *Egg grading and inspection fees.* For each grading, or regrading pursuant to § 55.30 (b), of any lot of eggs, the following fees shall be applicable and shall be computed on the basis of the number of packages in such lot:

(a) *Shell eggs.*

	Fee
For 10 packages or less	$1.80
For 11 to 25 packages, inclusive	3.00
For 26 to 50 packages, inclusive	4.00
For 51 to 100 packages, inclusive	5.50
For 101 to 200 packages, inclusive	8.50
For 201 to 300 packages, inclusive	11.50
For 301 to 400 packages, inclusive	13.50
For 401 to 500 packages, inclusive	15.50
For 501 to 600 packages, inclusive	17.50
For each additional 35 packages, or fraction thereof, in excess of 600 packages	1.00

(b) *Frozen eggs*—(1) *Inspection for condition only.*

	Fee
For 50 packages or less	$2.00
For 51 to 100 packages, inclusive	3.00
For each additional 100 packages, or fraction thereof, in excess of 100 packages	1.00
When each individual package in any lot is inspected for condition only, the fee for each package inspected shall be	.20

(2) *Inspection for condition and sampling for laboratory analysis.*

	Fee
For 50 packages or less	$4.00
For 51 to 100 packages, inclusive	5.00
For each additional 100 packages, or fraction thereof, in excess of 100 packages	1.00

4. Change § 55.49 *Approval of official identification* to read as follows:

§ 55.49 *Approval of official identification.* Any grade label, inspection mark or packaging material which is to be used as official identification shall be used only in such manner as the Administrator may prescribe; and such label, inspection mark, and packaging material shall be of such form and contain such information as the Administrator may require. No grade label, inspection mark, or packaging material may be used in the identification of any graded or

inspected product unless finished copies or samples of such grade label, inspection mark, and packaging material have been approved by the Service.

(Sec. 205, 60 Stat. 1090, 67 Stat. 205; 7 U. S. C. 1624)

Issued at Washington, D. C., this 24th day of March 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 54-2179; Filed, Mar. 25, 1954; 8:54 a. m.]

PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF AND UNITED STATES CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

CHARGES FOR PERFORMING GRADING AND INSPECTION SERVICES

A notice of a proposed amendment to the regulations governing the grading and inspection of poultry and edible products thereof and United States classes, standards, and grades with respect thereto (7 CFR Part 70) was published in the FEDERAL REGISTER on January 27, 1954 (19 F. R. 460). This program is currently in effect pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 *et seq.*) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong. approved July 28, 1953). The amendment, hereinafter set forth, provides for an increase in the charges for performing grading and inspection service. The hourly charge for performing these services is changed from $3.60 to $4.00, and the fee schedules applicable to poultry grading are also changed. The revision of the fees and charges should result in total collections of about 10 percent which is approximately the amount needed to make these programs self-supporting as required by the applicable legislation.

After consideration of all relevant material presented by interested parties, including the proposals set forth in the aforesaid notice, the regulations governing the grading and inspection of poultry and edible products thereof and United States classes, standards, and grades with respect thereto are hereby amended to become effective April 1, 1954.

It is hereby found that it is impractical, unnecessary, and contrary to public interest to postpone the effective date of this amendment for 30 days after publication in the FEDERAL REGISTER for the reasons that (1) legislation requires that the fees charged shall cover the cost of the service and the costs of the service are peculiarly within the knowledge of the Department, and the fees set forth herein are necessary to cover such costs; (2) fees and charges for performing services on a contract basis will be increased on April 1, 1954, and it is equitable that the changes in charges for services performed on a fee basis as set forth herein be made effective at the same time; and (3) additional time is not required in order for the industry to make preparation for compliance with this amendment.

The amendment is as follows:

1. Change paragraph (b) of § 70.131 *Grading service on a fee basis* to read as follows:

(b) In the event the aforesaid applicable rates specified in § 70.133 are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such grading service the fees for such service shall not be based on the rates specified in § 70.133, but shall be based on the time required to perform such grading service and the travel of each grader at the rate of $4.00 per hour for the time actually required.

2. Change § 70.133 *Poultry grading fees* to read as follows:

§ 70.133 *Poultry grading fees.* For each grading of any lot of poultry whether live, dressed, or ready-to-cook, the following fees shall be applicable:

For 500 pounds or less	$1.80
For 501 to 1,500 pounds, inclusive	3.00
For 1,501 to 3,000 pounds, inclusive	4.00
For 3,001 to 6,000 pounds, inclusive	5.50
For 6,001 to 10,000 pounds, inclusive	8.50
For 10,001 to 15,000 pounds, inclusive	11.50
For 15,001 to 20,000 pounds, inclusive	14.00
For 20,001 to 25,000 pounds, inclusive	17.50
For 25,001 to 30,000 pounds, inclusive	20.00
For each additional 5,000 pounds, or fraction thereof, in excess of 30,000 pounds	2.00

3. Change § 70.134 *Inspection service on a fee basis* to read as follows:

§ 70.134 *Inspection service on a fee basis.* Fees to be charged and collected for inspection services furnished on a fee basis shall be based on the time required to render such service including, but not being limited to, the time required for the travel of the inspector, or inspectors, in connection therewith, at the rate of $4.00 per hour for each inspector for the time actually required.

4. Change § 70.135 *Fees for additional copies of grading certificates and inspection certificates* to read as follows:

§ 70.135 *Fees for additional copies of grading certificates and inspection certificates.* Additional copies, other than those provided for in §§ 70.171 to 70.173, 70.201 and 70.211, of any grading certificates or inspection certificates may be supplied to any interested party upon payment of a fee of $1.50 for each set of five or fewer copies.

5. Change § 70.136 *Traveling expenses and other charges* to read as follows:

§ 70.136 *Travel expenses and other charges.* Charges may be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any grading service. Such charges shall include: (a) A charge of $0.50 for each grading made on a fee basis within the metropolitan area of the grader's official station, or (b) charges to cover the cost of travel (common carrier or automobile mileage) and per diem for each grading made on a fee basis outside the metropolitan area of the grader's official station, plus a charge of 10 percent of the amount charged for said per diem and travel costs.

(Sec. 205, 60 Stat. 1090, 67 Stat. 205; 7 U. S. C. 1624)

Issued at Washington, D. C., this 24th day of March 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

Chapter III—Agricultural Research Service, Department of Agriculture

[Interpretation 20]

PART 362—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

INTERPRETATION CONCERNING NONECONOMIC POISON CLAIMS AND DIRECTIONS FOR USE, AND ECONOMIC POISONS SUBJECT TO REQUIREMENTS OF OTHER STATUTES

Pursuant to the authority vested in me by § 362.3 of the regulations (7 CFR 362.3) under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U. S. C. 135–135k), Interpretation 20 concerning noneconomic poison claims and directions for use and economic poisons subject to the requirements of other statutes, is hereby issued as § 362.118 of Part 362, Title 7, Code of Federal Regulations, to read as follows:

§ 362.118 *Interpretation concerning noneconomic poison claims and directions for use, and economic poisons subject to requirements of other statutes.* (a) Certain products are sold for both "economic poison" and "noneconomic poison" uses and the labeling of these products bears directions for use and claims which relate to both economic poison and noneconomic poison uses. For example, a product may be sold as a weed killer and also as a spray for potatoes to prevent sprouting. If such article were recomended only for use on potatoes to prevent sprouting, it would not be subject to the requirements of the act. The product, however, becomes subject to the requirements of the act by being recommended for use as an economic poison. The question has arisen concerning the extent to which the requirements of the act and regulations apply to the noneconomic poison claims and directions for use.

(b) A product which is subject to the act as an economic poison is subject to the act in all respects. Therefore, any statement relative to the article or its ingredients, including a statement relative to the noneconomic poison use of the product, which is false or misleading will result in the product being considered as misbranded under the act. Likewise, the directions for use, including directions for noneconomic poison use, must be such that no injury to the public will result if such directions are followed. For example, a product may be intended to be used as an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act and as a drug within the meaning of the Federal Food, Drug, and Cosmetic Act. If the directions for use of the product as a drug are such that injury will result to the user, the product will not be considered to be in compliance with the requirements of the Federal Insecticide, Fungicide, and Rodenticide Act, even though the directions for use of the product as an economic poison appear to be adequate and safe.

(c) The situation may also arise where economic loss or other injury might result from either a noneconomic poison or an economic poison use of a product by virtue of the application of another statute. In the first example mentioned above, the use of the product to prevent potato sprouting might result in a residue being left in the potatoes. Furthermore, economic poisons are frequently used on or about foods other than in their production as, for example, to reduce decay of fruits during transportation or storage, thus contaminating the food with a residue of economic poison. Even though such a residue might not be hazardous to man or other animals, it might be that it would be considered as an added poisonous or deleterious substance that is not required in the production of the food or that could be avoided by good manufacturing practice, resulting in the food being adulterated within the meaning of the Federal Food, Drug, and Cosmetic Act. Economic loss could result to the user of the product if such a determination were made and seizure action instituted against the food. Likewise, the shipper of the food might be subject to criminal prosecution for introducing into interstate commerce a food considered to be adulterated under the Federal Food, Drug, and Cosmetic Act. However, in such a situation, the action would be contingent upon independent determination by another Federal agency; that is, an interpretation of another Federal statute would have to be made and positive action taken by another agency. Consequently, this Department could not say whether injury to the user would result if the directions for use were followed.

(d) Therefore, if the proposed usage of the economic poison conforms to good practice but results in contamination of food or feed which is, however, not injurious to human or animal health, the possibility of legal action by other administrative agencies of the Government against such food or feed, or the shipper of the food or feed, will not be taken into consideration in determining whether the economic poison, its labeling and the other material required to be submitted comply with the Federal Insecticide, Fungicide, and Rodenticide Act.

(e) The registration of an economic poison intended for use on or about food or feed is not to be construed as implying that the treated material will be in compliance with the Federal Food, Drug, and Cosmetic Act or other applicable laws.

The foregoing interpretation shall become effective upon its publication in the FEDERAL REGISTER.

(Sec. 6, 61 Stat. 168; 7 U. S. C. Sup. 135d)

Done at Washington, D. C., this 19th day of March 1954.

[SEAL] W. L. POPHAM,
Chief, Plant Pest Control Branch,
Agricultural Research Service.

[F. R. Doc. 54-2138; Filed, Mar. 25, 1954; 8:50 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 25]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.325 *Navel Orange Regulation 25*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and this regulation relieves restriction on the handling of navel oranges grown in Arizona and designated part of California.

(b) *Order.* (1) Navel Orange Regulation 3 (§ 914.303; 18 F. R. 7223), and Navel Orange Regulation 8 (§ 914.308; 18 F. R. 8170) are hereby terminated at 12:01 a. m., P. s. t., March 28, 1954.

(2) During the period beginning at 12:01 a. m., P. s. t., March 28, 1954, and ending at 12:01 a. m., P. s. t., May 2, 1954, no handler shall handle any Navel oranges, grown in District 1, which are smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 5 percent, by count, of oranges smaller than such minimum diameter shall be permitted in any type of container: *Provided,* That in addition to such tolerance, each handler may, during each calendar week of the aforesaid period, handle a quantity of such oranges which are smaller than 2.31 inches in diameter but not smaller than 2.20 inches in diameter, except that a tolerance of 5 percent, by count, of oranges smaller than 2.20 inches in diameter shall be permitted in any container of oranges which are smaller than 2.31 inches in diameter, if such quantity does not exceed 5 percent of the total quantity of navel oranges handled by such handler during such week.

(3) During the period beginning at 12:01 a. m., P. s. t., March 28, 1954, and ending at 12:01 a. m., P. s. t., August 1, 1954, no handler shall handle any navel oranges, grown in District 2, which are smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 5 percent, by count, of oranges smaller than such minimum diameter shall be permitted in any type of container: *Provided,* That in addition to such tolerance, each handler may, during each calendar week of the aforesaid period, handle a quantity of such oranges which are smaller than 2.31 inches in diameter but not smaller than 2.20 inches in diameter, except that a tolerance of 5 percent, by count, of oranges smaller than 2.20 inches in diameter shall be permitted in any container of oranges which are smaller than 2.31 inches in diameter, if such quantity does not exceed 5 percent of the total quantity of navel oranges handled by such handler during such week.

(4) As used in this section, "handler," "handle," "District 1," and "District 2," shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 23d day of March 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP-1954, Supp. 6]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1954

CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1954, the 1954 National

Agricultural Conservation Program, issued August 3, 1953 (18 F. R. 4643), as amended August 3, 1953 (18 F. R. 4761), November 4, 1953 (18 F. R. 7024), January 6, 1954 (19 F. R. 160), February 15, 1954 (19 F. R. 972), and March 3, 1954 (19 F. R. 1267), is further amended as follows:

Section 1101.515 is amended by revising the third sentence in paragraph (b) to read as follows:

§ 1101.515 *Conservation practices and maximum rates of cost-sharing.* * * *

(b) * * * In addition, the Soil Conservation Service is responsible for determining that the practices contained in §§ 1101.516, 1101.520, 1101.521, 1101.527 to 1101.531, 1101.533, 1101.534, 1101.540, 1101.541, and 1101.565 are needed and practical on the farm, and also the practices contained in §§ 1101.517 and 1101.518 where the county committee requests such a determination because of doubt as to the need and practicability of applying the practice to the land to be treated. * * *

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended. Pub. Law 156, 83d Cong.; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 22d day of March 1954.

[SEAL] J. EARL COKE,
Assistant Secretary of Agriculture.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6109]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

PAUL R. DOOLEY, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages, or connections:* Personnel or staff; Qualifications and Abilities; § 3.145 *Patent or other rights:* In General; § 3.170 *Qualities or properties of product or service;* § 3.205 *Scientific or other relevant facts;* § 3.271 *Trade secrets;* § 3.280 *Unique nature or advantages.* In connection with the offering for sale, or sale of treatments of the hair and scalp in which various medicinal preparations designated by different numbers, such as "No. 22", "No. 11", etc., or any other preparations of substantially similar composition or possessing substantially similar properties, are used, or in connection with the sale, offering for sale, or distribution of such various medicinal preparations, for use in the treatment of the hair and scalp, or of any other preparations of substantially similar composition or possessing substantially similar properties, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., the purchase of said preparations in commerce, which advertisements represent, directly or by implication: (a) That the use of said preparations, alone or in conjunction with, the methods of treatments by respondents or their employees in respondents' places of business or that the use of said preparations by purchasers in their homes will: (1) Have any effect in preventing or overcoming baldness or hair loss; (2) cause hair or scalp health to be regained in all instances; (3) cause "fuzz" or thin hair to be replaced by thick hair; (4) prevent or overcome all scalp disorders; (5) cause the permanent elimination of itching of the scalp, dandruff, dryness, or oiliness of the scalp; (b) that baldness is usually caused by infection, local disease of the scalp, neglect, or abuse; and (c) that the formulas used are exclusively their own or are unknown to, or cannot be used by, others; or which advertisements represent, directly or by implication, that respondent Paul R. Dooley or any of respondents' employees who have not had competent training in dermatology or other branches of medicine having to do with the examination and treatment of scalp disorders affecting the hair have had such training or are trichologists; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Paul R. Dooley, Inc., et al., San Diego, Calif., Docket 6109, March 2, 1954]

In the Matter of Paul R. Dooley, Inc., a Corporation, Paul R. Dooley Associates, a Corporation, Dooley Hair Experts, Inc., a Corporation; Paul R. Dooley, Eugene P. Dooley and Constance R. Dooley, Individually

This proceeding was instituted by complaint which charged respondents with the use of unfair and deceptive acts and practices in violation of provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated March 5, 1954, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on March 2, 1954, and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order to cease and desist, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

It is ordered, That the respondents Paul R. Dooley, Inc., a corporation, Dooley Hair Experts, Inc., a corporation, and the officers of said corporations, and Paul R. Dooley, Eugene P. Dooley, and Constance R. Dooley, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale or sale of treatments of the hair and scalp in which the various medicinal preparations as set out in the findings herein or any other preparations of substantially similar composition or possessing substantially similar properties are used, or in connection with the sale, offering for sale or distribution of the various medicinal preparations as set out in the findings herein, for use in the treatment of the hair and scalp, or of any other preparations of substantially similar composition or possessing substantially similar properties, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

(a) That the use of said preparations, alone or in conjunction with, the methods of treatments by respondents or their employees in respondents' places of business or that the use of said preparations by purchasers in their homes will:

(1) Have any effect in preventing or overcoming baldness or hair loss;

(2) Cause hair or scalp health to be regained in all instances;

(3) Cause "fuzz" or thin hair to be replaced by thick hair;

(4) Prevent or overcome all scalp disorders;

(5) Cause the permanent elimination of itching of the scalp, dandruff, dryness or oiliness of the scalp;

(b) That baldness is usually caused by infection, local disease of the scalp, neglect or abuse;

(c) That the formulas used are exclusively their own or are unknown to, or cannot be used by, others;

2. Disseminating or causing to be disseminated by any means any advertisement for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of said preparations in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any of the representations prohibited in subparagraphs (a) and (b) of paragraph 1 hereof or which represents, directly or by implication, that respondent Paul R. Dooley or any of respondents' employees who have not had competent training in dermatology or other branches of medicine having to do with the examination and treatment of scalp disorders affecting the hair have had such training or are trichologists.

It is further ordered, That respondents shall within sixty (60) days after service upon them of this order file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 73]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is completed at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name; elevation; facility identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	Ceiling and visibility minimums: Condition	Course and distance, facility to airport	Minimum altitude over facility on final approach course (ft.)	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

4. The very high frequency omnirange procedures prescribed in § 609.15 (a) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a VOR instrument approach is published for use at an airport, it shall be in accordance with the following unless a different procedure is authorized by the Administrator for civil aeronautics for such airport. Initial approaches shall be made over specific facilities with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation, facility, class and identification, procedure No., effective date	Minimum altitude over facility for procedure indicated (ft.)	Course and distance from facility to airport	Ceiling and visibility minimums: Type aircraft: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less (ft.) TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141b—STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR Part 141b; 19 F. R. 1141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR Parts 146a, 146c; 18 F. R. 5366, 5448, 7311; 19 F. R. 1141) are amended as indicated below:

1. Section 141b.114 (a) is amended to read:

§ 141b.114 *Streptomycin-bacitracin-polymyxin gauze pads*—(a) *Potency.* Proceed as directed in § 141b.112 (a) (1), except soak the sample for not less than 1 hour with frequent agitation.

2a. In § 146a.54 *Penicillin-streptomycin ointment* • • •, paragraph (a) (3) is amended to read as follows:

(3) If it is intended solely for veterinary use and it is conspicuously so labeled, it may contain a suitable and harmless salt of cobalt, one or more sulfonamides, and one or more suitable and harmless preservatives.

b. Section 146a.54 (b) is amended by changing the words "and if it contains one or more preservatives or sulfonamides" to read "and if it contains cobalt, preservatives, or sulfonamides".

3. Section 146c.207 *Chlortetracycline tablets* • • • is amended by changing the period at the end thereof to a comma and by adding the following new clause: "except that the average moisture content of tetracycline hydrochloride tablets is not more than 3.0 percent."

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: March 19, 1954.

[SEAL] OVETA CULP HOBBY,
Secretary.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10962]

RADIO BROADCAST SERVICES

INTERNATIONAL BROADCAST STATIONS

In the matter of amendment of Part 3, Subpart F of the Commission's rules governing international broadcast stations to provide for the use of the high frequency broadcasting bands between 5950 and 26100 kc by international broadcast stations; Docket No. 10962.

Notice is hereby given of proposed rule making in the above-entitled matter.

During World War II and for some time thereafter, most of the high frequency broadcasting in the United States was carried on by Commission licensees under contract with an agency of the United States Government. Now, however, it is anticipated that more international high frequency broadcasting will be carried out on a private basis. In order to provide for private high frequency broadcasting by licensees of the Commission in a manner consistent with international treaties and agreements to which this Government is a party, it is proposed to amend Part 3, Subpart F of the Commission's rules as set forth below.

It is also proposed to rescind Commission Order No. 108, adopted by the Commission on December 22, 1942, a copy of which is set forth below:

Authority for the proposed amendments is contained in section 303 (a), (b), (c), (e), (f), (h), (i), (j), (l), (q), and (r) of the Communications Act of 1934, as amended.

Any interested person may file with the Commission, on or before May 19, 1954, a written statement or brief in support of, or in opposition to, the proposed amendment. Comments or briefs in reply to the original comments or briefs may be filed within 7 days from the last day for filing the described original comments or briefs. The Commission will consider all comments, briefs, and statements before taking final action in this proceeding. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given such interested parties.

In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: March 17, 1954.

Released: March 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS,
Secretary.

[Order No. 108]

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 22d day of December 1942;

It appearing that the Interdepartmental Committee for International Radiobroadcasting Facilities, with the approval of the Board of War Communications and the Commission, has arranged through the Office of War Information and the Office of Coordinator of Inter-American Affairs to coordinate the operation of all international broadcast stations in the interests of the Government for the conduct of psychological warfare; and

It appearing that international broadcast stations are now under direct supervision of the Government and that the suspension until further order of the Commission of certain sections of the rules and regulations

of the Commission governing international broadcast stations will insure maximum flexibility of operation.

It is ordered, That the following sections or portion thereof, of the rules and regulations of the Commission be, and they are hereby, suspended until further order of the Commission:

a. Paragraph (f) (1), (2), and (3) of § 4.43 [a] which reads as follows:

(f) (1) Each licensee of an international broadcast station shall make verbatim mechanical records of all international programs transmitted.

(2) The mechanical records, and such manuscripts, transcripts, and translations of international broadcast programs as are made shall be kept by the licensee for a period of two years after the date of broadcast and shall be furnished the Commission or be available for inspection by representatives of the Commission upon request.

(3) If the broadcast is in a language other than English the licensee shall furnish to the Commission upon request such record and scripts together with complete translations in English.

b Paragraphs (d) and (e) of § 4.44 [b] which read as follows:

(d) An international broadcast station will not be authorized to use more than one frequency listed in any group listed in paragraph (a) of this section without a showing of technical necessity.

(e) Not more than one frequency shall be used simultaneously under the same authorization and call letter designation.

c. Section 4.46 [c] which reads as follows:

§ 4.46 *Supplemental report with renewal application.* A supplemental report shall be filed with and made a part of each application for renewal of license and shall include statements of the following:

(a) The number of hours operated on each frequency.

(b) A list of programs transmitted of special international interest.

(c) Outline of reports of reception and interference and conclusions with regard to propagation characteristics of the frequency assigned.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

It is proposed to amend Subpart F-Rules Governing International Broadcast Stations of Part 3 as follows:

1. Delete § 3.701 and substitute the following:

§ 3.701 *Definitions*—(a) *International Broadcast Station.* A broadcasting station employing frequencies allocated to the broadcasting service between 5950 and 26100 kc, whose transmissions are intended to be received directly by the general public in foreign countries.

(b) *Frequency-hour.* One frequency used for one hour.

(c) *Day.* Any twenty-four hour period beginning 0000 e. s. t. and ending 2400 e. s. t.

(d) *Sunspot number.* The predicted 12 month running average of the number of sunspots for any month as indicated in the National Bureau of Standards CRPL Series D publications.

(e) *Vernal equinox season.* That period of any calendar year starting at 0000 e. s. t. on March 1, and ending at 2400 e. s. t. on April 30.

(f) *Summer season.* That period of any calendar year starting at 0000 e. s. t. on May 1, and ending at 2400 e. s. t. on August 31.

(g) *Autumnal equinox season.* That period of any calendar year starting at 0000 e. s. t. on September 1, and ending at 2400 e. s. t. on October 31.

(h) *Winter season.* That period of any calendar year starting at 0000 e. s. t. on November 1, and ending at 2400 e. s. t. on February 28 (or 29).

(i) *Maximum usable frequency (MUF).* The highest frequency that would normally be returned to the surface of the earth by the ionosphere, considering a specific path.

(j) *Optimum working frequency (OWF).* The frequency which is returned to the surface of the earth for a particular path and time of day on 90 percent of the days of the given month.[1]

(k) *Delivered median field intensity.* The field intensity incident upon the target area (Table A) expressed in microvolts per meter, or decibels above one microvolt per meter, which is exceeded by the hourly median value on 50 percent of the days of the month.

(l) *Target area.* Area of intended reception. Target areas are set forth in figure 1 of the Appendix and are identified by number. The latitude and longitude of the reference points to be assumed for each target area in calculating the Delivered Median Field Intensity are given in table A of the Appendix.

(m) *Contract operation.* Operation of an international broadcast station pursuant to a contract with an agency of the United States Government covering operation and program costs and subject to Governmental control as to the specific target areas to be covered and the times of the broadcasts.

(n) *Private operation.* Any non-government operation of an international broadcast station which is not contract operation.

2. Delete § 3.702 and substitute the following:

§ 3.702 *Application for international broadcast stations.* (a) Each applicant for a construction permit for a new international broadcast station, modification of such a permit, or international broadcast station license or modification or renewal of license for such a station shall file with the Commission in Washington, D. C., three copies of applications and a like number of exhibits and other papers incorporated therein and made a part thereof. Only the original copy need be sworn to. Applications for construction permits for new stations or modifications of existing construction permits shall be filed on FCC Form 309; for station licenses, on FCC Form 310 for renewal of licenses, on FCC Form 311; for modification of license on Form 312.

(b) Authorizations issued to international broadcast stations by the Commission will not specify the frequencies, hours of use, or antenna directivity, but will be authorizations for use of a particular transmitter for international broadcasting to specified target area.

3. Delete § 3.711 and substitute the following:

§ 3.711 *Assignment and use of frequencies.* (a) Frequencies will be assigned by the Commission from time to time and in accordance with the provisions of this section, to authorized international broadcast stations for use at specified hours and for transmission to specified target areas. Licensees may request the assignment of specific frequencies for transmission during given hours of operation to specified target areas by filing informal requests in triplicate with the Commission no less than 30 days prior to the start of a new season. Such requests will be honored to the extent that interference and propagation conditions permit and that they are otherwise in accordance with the provisions of this section. Requests for changes in frequency or hour assignments at other times during the year or which are received less than 30 days before the start of a new season will be processed as rapidly as practical, but only after consideration has been given to all timely filed requests for assignments for the next season. All specific frequency authorizations will be made only on the express understanding that they are subject to immediate cancellation or change without hearing whenever the Chief Engineer of the Commission determines that interference or propagation conditions so require and that each assignment of frequency hours for a given season is unique unto itself and not subject to renewal, with the result that completely new assignments must be secured for the forthcoming season. Where a station is simultaneously engaged in both private and contract broadcasting as defined in this part of the rules it must receive separate frequency hour authorizations for each of these operations.

(b) Frequencies assigned by the Commission will be within the following bands:

Band A: 5950–6200 kc.
Band B: 9500–9775 kc.
Band C: 11700–11975 kc.
Band D: 15100–15450 kc.
Band E: 17700–17900 kc.
Band F: 21450–21750 kc.
Band G: 25850–26100 kc.

(c) Frequencies assigned will be as near as possible to the Optimum Working Frequency. In no case will they exceed the Maximum Usable Frequency for more than a total of 15 minutes during any period of transmission.[2] [3]

(d) No frequency will be assigned which would provide a Delivered Median Field Intensity, either measured or calculated, of less than 150 uv/m —50 percent or 43.5 decibels above one uv/m at the distant target area. This value of Median Field Intensity is expected to provide protection against atmospheric and industrial noise for at least 90 percent of each hour during 90 percent of the days of the month.[3] [4]

(e) Not more than one frequency will be authorized for use at any one time for any one program transmission except in instances where a program is intended for reception in more than one target area and the intended target areas cannot be served by a single frequency.[5]

(f) No authorization for use of a particular frequency will be issued which fails to provide a minimum co-channel median field intensity protection ratio of 40 db to the transmissions of other broadcasting stations at the reference point in the target area being served by such stations which, in the opinion of the Commission, have priority of assignment.[6]

(g) Authorization for use of a particular frequency will not be issued which does not provide a minimum adjacent channel median field intensity protection ratio of 11 db to the transmissions of other international broadcasting stations at the reference points in the target areas being served by such stations which, in the opinion of the Commission have priority of assignment.[6]

(h) Any frequency authorized to an international broadcast station shall also be available for assignment to other international broadcast stations.[6]

(i) No more than one frequency shall be used simultaneously under the same authorization and call letter and equipment installation number designation.

(j) Subject to all other pertinent provisions of this part, the total maximum number of frequency-hours which will be authorized to all licensees of private international broadcast stations for private operation combined in any frequency band for any pertinent season during any one day will be those in Table B of the Appendix less the number of frequency-hours in these bands scheduled for use by both (1) government international broadcasting stations, and (2) international broadcast stations licensed by the Commission to use frequencies in these bands for contract operations.

(k) In the event the total number of frequency hours in any band scheduled for both (1) government international broadcasting stations, and (2) international broadcast stations licensed by the Commission to use frequencies in these bands for contract operations equals or exceeds 75 percent of the frequency-hour figures given in Table B of the Appendix, the maximum number of frequency-hours which will be authorized to all licensees of international broadcast stations for private operation in any frequency band for any pertinent season during any one day will be 25 percent of the combined total of Government and contract operations.[3]

(l) If the requests for international broadcasting frequency-hours for private operation in any band or bands exceed those available under the terms of this part, in the absence of any voluntary agreement for reduction of frequency-hours requested, the Commission will designate all requests for frequency-hours in the band or bands in question for hearing. Pending such hearing the Commission will temporarily assign the available frequency-hours equally among the several applicants: *Provided, however*, That with respect to such temporary allocation:

(1) An existing licensee shall not, to the extent such frequency hours are available, receive less than the number of frequency-hours utilized during the preceeding season or requested for the forthcoming season, whichever is lesser.

(2) Where the number of frequency-hours available for private international broadcasting during a forthcoming season are insufficient to permit existing licensees to secure a temporary allocation equal to that previously utilized or requested, whichever is lesser, the allocation shall be pro-rated among such persons in a manner which will give them a share of the available frequency-hours proportionate to that utilized in the preceeding season.

(3) In any event, where an applicant's share of the available frequency hours would be more than requested, the surplus shall be divided among the remaining applicants in the manner herein prescribed.

4. Delete § 3.713 and substitute the following:

§ 3.713 *Installation or removal of apparatus.* Applications for construction permit or modification thereof, involving the installation of new transmitting apparatus, shall be filed at least 60 days prior to the contemplated installation.

5. Add paragraph (c) to § 3.715 as follows:

(c) If a construction permit has been allowed to expire for any reason, application may be made for a new permit on FCC Form 321, "Application for Construction Permit to Replace Expired Permit."

6. Delete § 3.716 and substitute the following:

§ 3.716 *Equipment tests.* (a) During the process of construction of an international broadcast station, the permittee after notifying the Commission and Engineer in Charge of the Radio district in which the station is located may, without further authority of the Commission, conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefore, and the rules and regulations. No programming will be conducted during equipment tests.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of equipment tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Equipment tests may be continued so long as the construction permit shall remain valid.

(d) Inspection of a station will ordinarily be required during the equipment test period and before the commencement of program tests. After construction and after adjustments and measurements have been completed to show compliance with the terms of the construction permit, the technical provisions of the application therefore, and the rules and regulations, the permittee should notify the Engineer in Charge of the radio district in which the station is located that it is ready for inspection

(e) The authorization for tests embodied in this section shall not be construed as constituting a license to

[a] Presently designated as § 3.781.
[b] Presently designated as § 3.702.
[c] Presently designated as § 3.791.

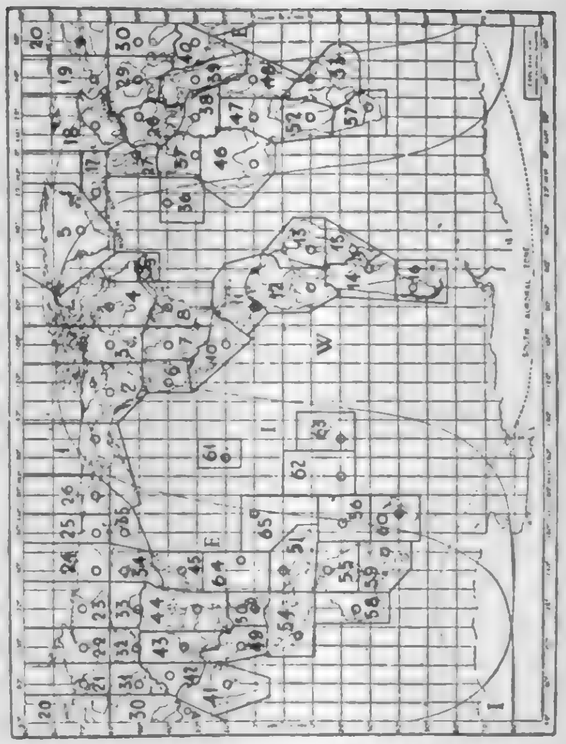
[1] Optimum Working Frequency and Delivered Median Field Intensity data for the entire sunspot cycle and for the various seasons covering major transmission paths are available for consultation in the Office of the Chief Engineer of the Commission. In lieu of that data, any applicant may use published data of the National Bureau of Standards known as the CRPL Series D, Basic Radio Propagation Conditions, published monthly in conjunction with National Bureau of Standards Circular 465, "Instructions for the Use of Basic Radio Propagation Predictions." These publications are available from the Superintendent of Documents, Washington 25, D. C.

[2] Optimum Working Frequency and Delivered Median Field Intensity data for the entire sunspot cycle and for the various seasons covering major transmission paths are available for consultation in the Office of the Chief Engineer of the Commission. In lieu of that data, any applicant may use published data of the National Bureau of Standards known as the CRPL Series D, Basic Radio Propagation Predictions, published monthly in conjunction with National Bureau of Standards Circular 465, "Instructions for the Use of Basic Radio Propagation Predictions." These publications are available from the Superintendent of Documents, Washington 25, D. C.

[3] This rule does not apply to international broadcast stations when engaged in contract operations.

[4] Computation of the delivered median field intensity for each transmission path may be made in accordance with the data available for consultation in the Office of the Chief Engineer of the Commission. The methods used in the calculation of these data are described in Chapter 7, Paragraph 7.7 of the National Bureau of Standards Circular 462. These data were reproduced in quantity at the Mexico City High Frequency Broadcasting Conference (1948–1949). A typical example of a computation for a transmission path is from New York (Area 8) to Buenos Aires (Area 15). The delivered median field intensity for the equinox season, sunspot 5, and for the 6 Mc band for the hours 0200 to 0400 GMT is indicated as 24 decibels above one microvolt per meter for 1 KW radiated power. The transmitter power output of 20 decibels (100 kw) is added. The transmitting antenna gain of 12 decibels is added. The resultant total (56 decibels) exceeds the level of 43.5 decibels required to deliver a median field intensity of 150 uv/m at the distant target area.

[5] Not applicable to international broadcast stations when engaged in contract operations.



[6] Not applicable to international broadcast stations when engaged in contract operations.

TABLE B—FREQUENCY HOURS AVAILABLE FOR U. S. INTERNATIONAL BROADCASTING

operate but as a necessary part of construction.

7. Delete § 3.717.

8. Change the expression "60" in the fifth line of § 3.720 (a) to read "90".

9. Delete paragraph (c), including footnote 2, of § 3.731, and redesignate paragraphs (d), (e), (f), and (g) as (c), (d), (e) and (f).

10. Change the expression "50" in § 3.751 to read "100".

11. Change the expression "0.005" in § 3.752 to read "$\sqrt{P}$ - 20 cs".

12. Delete § 3.756 and substitute the following:

§ 3.756 *Required transmitter performance.* (a) All spurious emissions (including harmonics) shall be attenuated below the level of the unmodulated carrier at least to the limits derived from the following formula:

Attenuation in db = 80 + 10 log P

Where P is the transmitter output power (unmodulated) in kilowatts.

(b) The construction, installation, operation, and performance of the international broadcast transmitter system shall be in accordance with good engineering practice.

13. Change the expression "0.005" in § 3.767 to read "0.003 percent."

14. Delete footnote 4 and designator from § 3.781.

15. Change § 3.872 to read § 3.782

16. Delete paragraphs (b), (c), and (d) of § 3.788 and substitute the following:

(5) In case of any other type of advertising, such advertising is directed to the foreign country or countries to which the program is directed and is consistent with the purpose and intent of this section.

(c) The areas established to be served by international broadcast stations are those given in figure 1, and directive antennas shall be employed to direct the signals to specific areas.

(d) An international broadcast station may transmit the program of a standard broadcast station or network system:

Provided, The conditions in paragraph (b) of this section in regard to any communications

[7 CFR Part 52]

FROZEN STRAWBERRIES

NOTICE OF NON-ISSUANCE OF REVISED STANDARDS FOR GRADES

A notice was published in the January 28, 1954, issue of the FEDERAL REGISTER (19 F. R. 480) concerning the issuance of revised United States Standards for Grades of Frozen Strawberries, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C., 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953).

This notice provided a period of 30 days for all persons to submit written data, views, or arguments for consideration in connection with the proposed amendment. On the basis of all such data, views, or arguments which have been filed with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, and all relevant matters presented pursuant to such notice, it has been concluded that it is not desirable to issue the proposed revision at this time.

It is determined, therefore, that the revised United States Standards, as proposed in the aforementioned notice, will not be made effective at this time.

Done this 22d day of March 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

BLOCKED STEEL MILL EQUIPMENT BELONGING TO CZECHOSLOVAKIA OR NATIONALS THEREOF

ORDER DIRECTING SALE

I, George M. Humphrey, Secretary of the Treasury, acting under and by virtue of the authority which the President of the United States has delegated to the Secretary of the Treasury by Executive Order No. 9193, which was issued by virtue of and pursuant to the authority vested in the President by the Constitution, by the First War Powers Act of 1941, and by section 5 (b) of the Trading With the Enemy Act of 1917, as amended:

(a) Hereby make the following findings about and with respect to certain steel mill components and equipment auxiliary thereto belonging to Czechoslovakia or nationals thereof and blocked by an order of the Secretary of the Treasury, dated January 17, 1952, 17 F. R. 614:

(1) The interests of the United States Government in protecting its unsatisfied claims and those of United States nationals against Czechoslovakia require that the said property or the proceeds of any sale thereof remain available for use in connection with the settlement of these claims.

(2) The owners of the said property have not paid storage and other charges which have accrued thereon and failure to pay such charges has deprived the persons storing the said property of moneys properly due and owing to them. Although the persons presently storing the property have liens thereon arising out of unpaid charges in connection with the property, the interests of the United States Government, of the owners of the property, and of such other persons as may have an interest therein would not be best served by uncoordinated sales of various portions of the property to satisfy such liens. Uncoordinated sales would not be conducive to bids by persons desirous of acquiring the blocked property as an entirety or integral components thereof and such sales would probably result in smaller proceeds than those which could be expected from a coordinated sale.

(3) Before being placed in storage, the property was not packed in contemplation of long-term storage and the owners of the property have not taken steps to insure its physical maintenance. Accordingly, the property is likely to deteriorate under continued storage.

(4) The continued accumulation of liens against the property and its possible deterioration will decrease the value of the property contrary to the interest of the United States Government in protecting its claims and those of American nationals against Czechoslovakia.

(5) The interests of the United States require that the property be sold and that the proceeds thereof remain available for use in connection with the settlement of United States claims against Czechoslovakia.

(6) The Czechoslovak authorities have not sold, indicated a willingness to sell, or permitted the sale of the property under terms and conditions which would allow the proceeds received therefrom to remain available for use in connection with the settlement of United States claims against Czechoslovakia.

(b) Hereby order Laurence B. Robbins, hereinafter referred to as the Receiver, to take the following action with respect to the property blocked by the order of January 17, 1952.

(1) The Receiver shall receive sealed bids for the sale of the blocked property. Such bids, which shall be opened on April 28, 1954, unless the Receiver shall specify a later date, shall be subject to the terms and conditions of this order and such other terms and conditions as may be established by the Receiver.

(2) The Receiver shall promptly transmit a copy of this order to all persons on whose account any of the blocked property is stored and to all persons believed by him to claim an interest in the property. The Receiver shall promptly make public advertisement of the sale and invite bids for the purchase of the blocked property. He shall also make available a prospectus relating to the blocked property.

(3) The Receiver shall receive bids for:

Lot I—All of the property included in Lots III through XI below, as a unit.

Lot II—All of the property included in Lots III through X below, as a unit.

Lot III—A 66" 10-Stand Continuous Hot Strip Mill with flying shear, 2 down coilers, coil conveyors, sheet piler, and auxiliary motors and controls, but excluding slab reheating furnaces and furnace charging equipment, skids and bumpers, and main drive motors, controls and high voltage switchgear.

Lot IV—Certain parts for a 62" Continuous Strip Pickler, including processing uncoiler, flash welder and trimmer, stitcher, hot air dryer and electrical equipment for flash welder only, but excluding motors and controls.

Lot V—A 21" & 53" x 64" 4-High 4-Stand Tandem Cold Strip Mill for sheets and tin plate, including complete main drive and auxiliary motors and controls but excluding high voltage switch gear.

Lot VI—A 44" Electrolytic Clearing Line with Motor Generator Sets and Controls but excluding tanks, hoods, exhaust duct system, main drive motors and controls, and auxiliary motors and controls.

Lot VII—A 21" & 53" x 64" 4-High Single Stand Skin Pass Mill for sheet stock in coils, including complete main drive and auxiliary drive motors and controls but excluding high voltage switchgear.

Lot VIII—A 18" & 53" x 48" 4-High Single Stand Skin Pass Mill for tin plate, including complete main drive and auxiliary drive motors and controls but excluding high voltage switchgear.

Lot IX—A 38" Drum Type Tin Plate Flying Shear Line, including classifier with magnets, counters and pinhole detector, but excluding all motors and controls.

Lot X—A 16½" & 53" x 80" 4-High Cold Sheet Mill, including entry and delivery conveyors, leveller, oiling machine, pilers, but excluding all electrical equipment.

Lot XI—Electrical equipment for a 46" Blooming Mill, comprising auxiliary motors, auxiliary motor generators and controls only.

A more complete description of each of the above components will be found in the prospectus. Drawings are not included in the property to be sold since they are not available to the Receiver.

(4) The Receiver shall receive bids for the blocked property subject to the following terms and conditions:

(i) No bid shall be accepted unless it receives the approval of the Secretary of the Treasury, who reserves the right to reject any or all bids for the blocked property and to waive any defects in any bid.

(ii) Each bidder, in a form satisfactory to the Receiver, shall furnish a deposit with his bid in the amount of five per-

cent thereof. Each bidder shall agree that his bid shall not be withdrawn within twenty calendar days after the opening of the bids and that his bid will during that time remain firm and irrevocable.

(iii) Each bidder shall state whether he is acting as agent or principal, and if as agent, shall fully disclose the principal. Each bidder bidding on behalf of a corporation or other principal shall furnish satisfactory proof of his authority to bid.

(iv) Any bidder who is acting on behalf of a foreign principal or who is bidding with the intention of exporting some or all of the property may specifically condition his bid on his being able to obtain an export license with respect to the property involved. Any such condition must appear in the sealed bid and shall state the country to which exportation will be made if the bid is accepted and the export license granted.

(5) After any bid has been accepted, the Receiver shall notify the successful bidder and demand that he tender the balance of the purchase price within ten days. Upon receipt of the amount demanded, the Receiver shall execute a bill of sale transferring the property to the purchaser subject to existing liens. Any such bill of sale shall state that it is executed under authority of this order and section 5 (b) of the Trading With the Enemy Act, as amended, which provides in part that: "the President may, through any agency that he may designate, * * * direct and compel, nullify, void, prevent or prohibit any acquisition, holding, withholding, use, transfer, withdrawal, transportation, importation or exportation of, or dealing in, or exercising any right, power, or privilege with respect to * * * any property in which any foreign country or a national thereof has any interest, by any person, or with respect to any property, subject to the jurisdiction of the United States * * *."

(6) Immediately upon receipt of payment the Receiver shall order and direct each person having possession of property covered by the bills of sale to hold said property, subject to existing liens, for the disposition of the purchasers set forth thereon, pointing out in each such order that section 5 (b) of the Trading With the Enemy Act, as amended, provides in part that: "no person shall be held liable in any court for or in respect to anything done or omitted in good faith in connection with the administration of, or in pursuance of and in reliance, on, this subdivision, or any rule, regulation, instruction, or direction issued hereunder."

(7) From the proceeds of the sale the Receiver shall pay or make reimbursement of all expenses of the sale which the Government may have incurred or paid.

(8) The Receiver shall deposit the net proceeds, that is, any proceeds remaining after the payments specified above have been made, in a Federal Reserve Bank in the State in which the property sold had been stored, with the amount deposited in each such bank representing in the judgment of the Receiver the value of the property stored in such State that has been sold pursuant to this order. The amounts so deposited shall be placed in accounts denominated as being under the control of the Secretary of the Treasury for the benefit of the former owners of the property which has been sold and such other persons as may have had an interest therein. To the extent that any person or persons had an interest in any of the blocked property that is sold pursuant to this order, such interest shall exist in the net proceeds received for said property in any sale under this order: *Provided, However,* That the net proceeds shall be subject to all of the provisions of paragraphs (1) and (2) of the order of January 17, 1952, 17 F. R. 614, to the same extent that the property specified in that order was subject thereto: *And further provided,* That no portion of the net proceeds may be used to satisfy any claim which was secured by a lien against the property at the time of sale. To the extent that any of the blocked property afforded the courts of any state jurisdiction to adjudicate the rights of any person claiming an interest in the property, the net proceeds received for said property in any sale under this order shall be considered to afford the same basis for jurisdiction.

[SEAL] G. M. HUMPHREY,
Secretary of the Treasury.

[F. R. Doc. 54-2118; Filed, Mar. 25, 1954; 8:45 a. m.]

CERTAIN STEEL MILL COMPONENTS AND AUXILIARY EQUIPMENT BELONGING TO CZECHOSLOVAKIA OR NATIONALS THEREOF

NOTICE OF SALE

Laurence B. Robbins, Receiver under an order of the Secretary of the Treasury, dated March 25, 1954, invites bids for the purchase of certain steel mill components and auxiliary equipment belonging to Czechoslovakia or nationals thereof and blocked by an order of the Secretary of the Treasury, dated January 17, 1952, 17 F. R. 614. The property offered for sale and which is more fully described in a Prospectus is as follows:

(a) A 66" 10-Stand Continuous Hot Strip Mill with flying shear, 2 down coilers, coil conveyors, sheet piler, and auxiliary motors and controls, but excluding slab reheating furnaces and furnace charging equipment, skids and bumpers, and main drive motors, controls and high voltage switchgear.

(b) Certain parts for a 62" Continuous Strip Pickler, including processing uncoiler, flash welder and trimmer, stitcher, hot air dryer and electrical equipment for flash welder only, but excluding motors and controls.

(c) A 21" & 53" x 64" 4-High 4-Stand Tandem Cold Strip Mill for sheets and tin plate, including complete main drive and auxiliary motors and controls but excluding high voltage switchgear.

(d) A 44" Electrolytic Cleaning Line with Motor Generator Sets and Controls but excluding tanks, hoods, exhaust duct system, main drive motors and controls, and auxiliary motors and controls.

(e) A 21" & 53" x 64" 4-High Single Stand Skin Pass Mill for sheet stock in coils, including complete main drive and auxiliary drive motors and controls but excluding high voltage switchgear.

(f) A 18" & 53" x 48" 4-High Single Stand Skin Pass Mill for tin plate, including complete main drive and auxiliary drive motors and controls but excluding high voltage switchgear.

(g) A 38" Drum Type Tin Plate Flying Shear Line, including classifier with magnetic counters and pinhole detector, but excluding all motors and controls.

(h) A 16½" & 53" x 80" 4-High Cold Sheet Mill, including entry and delivery conveyors, leveller, oiling machine, pilers, but excluding all electrical equipment.

(i) Electrical equipment for a 46" Blooming Mill, comprising auxiliary motors, auxiliary motor generators and controls only.

Drawings will not be furnished and are not for sale by the Receiver.

Bids will be received for the above property as a whole, or for items (a) through (h) as a unit, or for any or all of the items as separate units. All bids should be made in accordance with and subject to the terms and conditions set forth in the order of March 25, 1954, and the Statement of Terms and Conditions of Sale. The property is offered for sale subject to existing liens which are described in the Prospectus.

All bids must be received by the Receiver on or before 11:00 a. m., April 28, 1954, at which time bids will be publicly opened in Room 4121, Treasury Department, Washington 25, D. C. The Secretary of the Treasury reserves the right to reject any or all bids for the blocked property and to waive any defects in any bid.

The property to be sold is stored on the premises of (1) United Engineering and Foundry Company at New Castle, Pennsylvania, and Youngstown, Ohio, (2) the Pennsylvania Railroad Company at Philadelphia, Pennsylvania, (3) General Public Warehouse Company, Inc., at Philadelphia, Pennsylvania, and (4) Sperry Warehouses, Inc., at Troy, New York. Arrangements to inspect the property or parts thereof may be made upon request with the above firms. Any such inspection shall be at the expense of the person desiring the inspection and must take place in the presence of an officer, employee or agent of the firm having custody of the property inspected.

Copies of the orders of the Secretary of the Treasury referred to above, the Statement of Terms and Conditions of Sale, the Form of Bid and Affidavit, and the Prospectus describing the property offered for sale are available free of charge on application. Copies of a packing list of the property offered for sale are available at a cost of $5.00 each. Checks should be drawn payable to the Treasurer of the United States. Application for the foregoing documents may be made to the Receiver, in case of Foreign Assets Control, Treasury Department, Washington 25, D. C., at whose offices the packing list is also available for inspection free of charge.

[SEAL] LAURENCE B. ROBBINS,
Receiver.

[F. R. Doc. 54-2119; Filed, Mar. 25, 1954; 8:46 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Docket DA-444]

IDAHO

RESTORATION ORDER UNDER FEDERAL POWER

MARCH 18, 1954.

Pursuant to determination DA-444, Idaho, of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws as provided by law, subject to the provisions of section 24, of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and the stipulation that if and when the land is required in whole or in part for power development purposes, any structures or improvements placed thereon which may be found to obstruct or interfere with such development, shall without cost, expense or delay to the United States, its licensees or permittees, be removed or relocated insofar as may be necessary to eliminate interference with such power development.

BOISE MERIDIAN

T. 8 S., R. 30 E.,
Sec. 11, Lots 7 and 8.

The areas described aggregate 95.20 [illegible].

The lands described are located on the north bank of the Snake River at an elevation of 4,300 feet; the soil is alluvial clay; and the topography is generally rough and not suitable for cultivation. A portion of the lands contain improvements consisting of a dam, ponds, and waste gate. The lands are classified as primarily valuable for fish culture purposes.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The lands described shall be subject to application by the State of Idaho for a period of 90 days from date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended and the special stipulation herein provided. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90-day preference filing period of veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and conditions under which veterans and others may file application for these lands may be obtained on request in the Land Office, Boise, Idaho.

JOSEPH A. GAUONG,
Acting Regional Administrator.

[Misc. 61569]

WASHINGTON

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS RESTORED FROM COLUMBIA BASIN PROJECT

MARCH 22, 1954.

An order of the Bureau of Reclamation dated April 13, 1951, concurred in by the Acting Director, Bureau of Land Management, May 16, 1951, revoked the Departmental Orders of May 4, 1934, and May 11, 1934, so far as they withdrew under the provisions of the Reclamation Act of June 17, 1902 (32 Stat. 388), the following described lands in connection with the Columbia Basin Project, Washington, and provided that such revocation should not affect the withdrawal of any other lands by said orders or affect any other order withdrawing or reserving the lands described:

WILLAMETTE MERIDIAN

T. 26 N., R. 29 E.,
Sec. 5, E½SE¼;
Sec. 8, N½NE¼.
T. 27 N., R. 29 E.,
Sec. 23, SE¼NE¼, N½SE¼;
Sec. 27, NE¼NE¼;
Sec. 33, E½SW¼.
T. 28 N., R. 29 E.,
Sec. 32, NE¼SW¼.
T. 28 N., R. 30 E.,
Sec. 31, E½SE¼.

The areas described aggregate 520 acres.

The lands in Tps. 26 and 27 N., R. 29 E. are mainly rolling bench land, with some cliffs. Those in T. 28 N., R. 30 E. are mountainous while those in T. 28 N., R. 29 E. contain cliffs. The soil is generally shallow and rocky. The vegetation is grass and sagebrush. The lands are not suitable for cultivation and are generally suitable for grazing, although such use is limited in some areas due to unaccessibility. Any application that is filed will be considered on its merits.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location, and selection under the applicable public-land laws subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans of World War II and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Inquiries concerning the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Spokane, Washington.

EARL G. HARRINGTON,
Acting Assistant Director.

[File No. 70-2745]

NEW ENGLAND GAS AND ELECTRIC ASSOCIATION

ORDER POSTPONING HEARING

MARCH 22, 1954.

New England Gas and Electric Association ("Negas") having filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), requesting an exception from Rule U-45; and

The Commission having on February 17, 1954, issued notice of the filing and notice of and order for hearing, to be held on March 31, 1954, in respect of said application-declaration; and

Negas having filed a request that said hearing be postponed for at least sixty days; and the Commission deeming it appropriate to grant such request, and that the order granting such postponement shall become effective forthwith:

It is ordered, That the hearing scheduled for March 31, 1954, in respect of the application-declaration of Negas for an exception from Rule U-45, be, and it hereby is, postponed to June 1, 1954, at 10:00 a. m., Washington, D. C. time on said date, at the office of the Commission, 425 Second Street NW., Washington, D. C.

It is further ordered, That this order shall become effective immediately upon its issuance.

By the Commission.

WISCONSIN ELECTRIC POWER CO. AND MILWAUKEE ELECTRIC RAILWAY & TRANSPORT CO.

ORDER AUTHORIZING RETIREMENT BY SUBSIDIARY OF CERTAIN SHARES OF ITS CAPITAL STOCK

MARCH 22, 1954.

Wisconsin Electric Power Company ("Wisconsin Electric"), a registered holding company which is also an operating utility company, and its wholly-owned subsidiary the Milwaukee Electric Railway & Transport Company ("Transport Company") having filed with this Commission a joint declaration pursuant to sections 12 (c) and 12 (f) of the Public Utility Holding Company Act of 1935 ("act"), with respect to the following proposed transaction:

Wisconsin Electric proposes to sell, and Transport Company proposes to buy, for $700,000 in cash, 7,000 shares of Transport Company's common stock, of the par value of $100 per share. Transport Company proposes to retire and cancel such stock, and to amend its Articles of Incorporation to reflect a corresponding reduction in its authorized capital stock.

It is stated that Wisconsin Electric holds all of Transport Company's outstanding securities, consisting of 58,350 common shares; that in December 1952 Transport Company sold all of its passenger transportation properties, since which time its business operations have been greatly curtailed; that it has reduced to cash certain assets reserved from such sale, principally $659,366 in tax refunds; that the funds which it will use in retiring the 7,000 shares of its capital stock are not needed for its continuing operations; that Wisconsin Electric needs and will use the funds for its current construction of new utility plant.

It is requested that the Commission's order be made effective upon issuance

The Public Service Commission of Wisconsin, in which state Wisconsin Electric is organized and doing business, has expressly authorized its sale of said shares.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied, and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration as amended should be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3206]

ARKANSAS LOUISIANA GAS CO.

ORDER REGARDING BORROWING FROM A COMMERCIAL BANK

MARCH 22, 1954.

Arkansas Louisiana Gas Company ("Arkansas"), a public utility subsidiary of Cities Service Company, a registered holding company, having filed a declaration with this Commission pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act"), which is summarized as follows:

Pursuant to a Credit Agreement to be entered into between Arkansas and Guaranty Trust Company of New York ("Guaranty") Arkansas proposes to borrow from Guaranty not to exceed in the aggregate $8,500,000 from time to time not later than November 1, 1954, in amounts of $100,000 or any multiple thereof. To evidence each such borrowing, Arkansas will issue and deliver to Guaranty a Promissory Note in the principal amount of such borrowing, maturing February 1, 1956, and bearing interest at the rate of 3¼ percent per annum payable on the first days of February, May, August, and November of each year

Under the Credit Agreement, Arkansas will have the right, at any time prior to November 1, 1954, by three business days' notice in writing to Guaranty, to reduce the aggregate amount which Guaranty is obligated to lend to Arkansas to $5,000,000 or any amount between $5,000,000 and $8,500,000 which is a multiple of $100,00. As consideration for Guaranty's commitment, Arkansas will be obligated to pay Guaranty on November 1, 1954, a commitment fee equal to one-half of 1 percent per annum on the daily average unborrowed amount which Guaranty shall have been obligated to lend from the date of the Credit Agreement to November 1, 1954.

The proceeds of the loans are to be used for construction expenditures during 1954, which are estimated to aggregate $12,830,000. Certain of the facilities to be constructed will enable Arkansas to increase the amount of gas to be furnished to Arkansas Power and Light Company, one of its largest industrial customers; and upon completion and connection with such facilities, Arkansas Power and Light Company will advance $3,694,000 to Arkansas to be refunded by credits on the purchase price of gas thereafter furnished by Arkansas. The amount of the advance to be refunded subsequent to 1954 is expected to be $3,500,000. Approximately $4,330,000 of said construction expenditures will be obtained from depreciation and depletion accruals, and up to $8,500,000 from borrowings under the Credit Agreement.

Arkansas will have the privilege of prepaying the Notes at any time and from time to time without premium in amounts of $100,000 or multiples thereof, provided the funds therefor are derived only from (i) the issue and sale of additional bonds, (ii) payments of not to exceed $3,500,000 to be received from Arkansas Power and Light Company, or (iii) Arkansas' own operations in the normal course of business. If prepayment is made from funds derived from any other source, Arkansas will pay a premium calculated at the rate of ¼ of 1 percent per annum of the principal amount of the Note or Notes so prepaid from the date of such payment to the maturity date thereof.

Upon receipt of the aforesaid advance from Arkansas Power and Light Company, Arkansas proposes, to the extent then deemed appropriate, to reduce the amount which Guaranty shall be obligated to lend under the Credit Agreement to an amount between $5,000,000 and $8,500,000 which is a multiple of $100,000, as permitted by the Credit Agreement, and may also prepay without premium one or more of the Notes.

Fees and expenses are estimated at $6,750 which includes counsel fees not to exceed $2,500 to Davis, Polk, Wardwell, Sunderland & Kiendl, counsel for Guaranty and $2,500 to Frueauff, Burns, Farrell, Shanley & Johnson, counsel for Arkansas. It is stated that no State or Federal Commission other than this Commission has jurisdiction over the proposed transaction. It is requested that the Commission's order herein become effective upon issuance.

Due notice having been given of the filing of the declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions contained in Rule U-24, that said declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-2133; Filed, Mar. 25, 1954; 8:49 a. m.]

[File No. 70-3222]

COLUMBIA GAS SYSTEM, INC., AND ATLANTIC SEABOARD CORP.

NOTICE OF FILING OF APPLICATION-DECLARATION REGARDING ISSUANCE AND SALE OF COMMON STOCK AND INSTALLMENT NOTES BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT

MARCH 22, 1954.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and one of its wholly owned subsidiary companies, Atlantic Seaboard Corporation ("Seaboard"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6, 7, 9, and 10 of the act and Rule U-50 (a) (3) as applicable to proposed transactions which are summarized as follows:

Seaboard proposes to increase its authorized common stock, $25 par value, from 1,000,000 to 1,080,000 shares and to issue and sell to Columbia 237,000 shares of such stock at a price equivalent to the par value thereof.

Seaboard also proposes to issue and sell to Columbia $8,125,000 principal amount of __ Percent Installment Promissory Notes at a price equivalent to the principal amount of such notes. The notes are to be registered and will be payable in 25 equal annual installments on February 15 of each of the years 1956 to 1980 inclusive. Interest on the unpaid principal amount of the notes is to be payable semi-annually on February 15 and August 15 at the rate of 4 percent per annum or such lower rate, being a multiple of ⅛ of 1 percent, as shall be not less than the "cost of money" to Columbia in respect of its next sale of Senior Debentures. It is Columbia's present intention to sell Senior Debentures later this year and during the interim period the proposed installment notes will carry interest at the rate of 4 percent per annum subject, however, to an adjustment in the rate following the sale of Senior Debentures.

It is anticipated that Seaboard will first issue and sell its common stock when and as funds are required by it up to a maximum amount of $5,925,000, and thereafter Seaboard will sell its installment notes to Columbia up to a maximum amount of $8,125,000. However, none of the common stock or installment notes will be sold or purchased subsequent to March 31, 1955.

According to the filing the financing is for the purpose of supplying Seaboard with funds which are urgently needed in connection with its 1954 construction program involving estimated expenditures of $15,178,500 for transmission lines, compressor stations, and other facilities.

The estimated fees and expenses aggregate $15,855 of which $15,455 is attributable to the Federal original issue tax.

Notice is further given that any interested person may, not later than April 14, 1954, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 14, 1954, said joint application-declaration, as filed or as amended, may be granted and permitted to become effective, as provided in Rule U-23 of the Rules and Regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-2134; Filed, Mar. 25, 1954; 8:49 a. m.]

[File No. 70-3219]

OHIO POWER CO. AND AMERICAN GAS AND ELECTRIC CO.

NOTICE OF FILING OF APPLICATION TO SELL FIRST MORTGAGE BONDS AND SHARES OF PREFERRED STOCK AT COMPETITIVE BIDDING AND SHARES OF COMMON STOCK TO PARENT

MARCH 22, 1954.

Notice is hereby given that an application has been filed with this Commission by American Gas and Electric Company ("American Gas"), a registered holding company, and its public-utility subsidiary the Ohio Power Company ("Ohio"). The application designates sections 6 (b), 10, and 12 (c) of the act and Rules U-42 and U-50 of the Commission's general rules and regulations promulgated under the act as applicable to the proposed transactions, which are summarized as follows:

Ohio proposes to issue and sell $20,000,000 aggregate principal amount of its First Mortgage Bonds, __ Percent Series due 1984 or 1989. The maturity date will be set forth in an amendment to be filed with the Commission prior to the effective date of the order to be issued herein. Such Bonds will be sold under competitive bidding pursuant to Rule U-50. The coupon rate (which

shall be expressed in a multiple of ⅛th of 1 percent) and the price to be paid to Ohio, which shall be not less than 100 percent or more than 102¾ percent of the principal amount of the bonds proposed to be sold, will be determined by competitive bidding.

Ohio proposes to issue and sell 50,000 shares of __ Percent Cumulative Preferred Stock, par value $100 per share. Such shares of Preferred Stock will be sold under competitive bidding pursuant to Rule U-50. The dividend rate (which shall be expressed in a multiple of 0.04 of 1 percent) and the price to be paid to Ohio, which shall be not less than $100 per share or more than $102.75 per share, will be determined by competitive bidding.

Ohio proposes to issue and sell, prior to or concurrently with the sale of the Bonds and Preferred Stock, 50,000 shares of its Common Stock, no par value, to American Gas for $1,000,000 cash.

The proceeds of the sales of the First Mortgage Bonds, Preferred Stock and Common Stock described above are to be applied to the prepayment, without premium, of Notes Payable to Banks aggregating $23,000,000. The remaining proceeds will be added to Ohio's treasury funds and will be applied to extensions, additions and improvements to its properties.

The application states that the issue and sale of the Bonds, the Preferred Stock and Common Stock are solely for the purpose of financing the business of Ohio, and will be expressly authorized by the Public Utilities Commission of Ohio, the State in which Ohio is organized and doing business.

Notice is further given that any interested person may, not later than April 5, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 5, 1954, said application, as filed or as amended, may be granted as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-2135; Filed, Mar. 25, 1954; 8:49 a. m.]

[File No. 812-866]

A. C. ALLYN AND CO., INC.

NOTICE OF FILING OF APPLICATION REQUESTING ORDER EXEMPTING TRANSACTION BETWEEN PRINCIPAL UNDERWRITER AND INVESTMENT COMPANY

Notice is hereby given that A. C. Allyn and Company, Incorporated ("Allyn"), a Delaware corporation and principal underwriter for Concord Fund, Inc. ("Concord"), a Massachusetts corporation and a registered open-end diversified management investment company, has filed an application under section 17 (b) of the Investment Company Act of 1940 ("act") for an order of the Commission exempting from the provisions of section 17 (a) of the act the sale by Allyn to Concord of 25,000 shares of common stock of General Stores Corporation ("General Stores"), a New York corporation.

General Stores (formerly known as D. A. Schulte, Inc.) has outstanding 2,053,922 shares of common stock and has entered into an agreement to sell Allyn an additional 300,000 shares of its common stock for $1.375 per share. Allyn in turn has entered into agreements to sell to various persons 275,000 shares of said stock, including 25,000 shares to Concord, at the price paid by Allyn, namely $1.375 per share. Allyn's obligation to purchase the General Stores common stock is conditioned, among other things, (i) upon the contemporaneous resale of the 275,000 shares as described above and (ii) upon the simultaneous consummation of an agreement for the purchase by General Stores of substantially all of the outstanding capital stock of Ford Hopkins Company ("Ford Hopkins"), a Delaware corporation. General Stores will pay Allyn $5,000 for financial services and advice.

Section 17 (a) of the act makes it unlawful, subject to certain exceptions not relevant here, for a principal underwriter of a registered investment company to sell any security to such registered company, unless the Commission, upon application pursuant to section 17 (b) of the act, grants an exemption from the provisions of section 17 (a) of the act. Such an application shall be granted if the Commission finds that the terms of the proposed transaction, including the consideration, are reasonable and fair and do not involve overreaching on the part of anyone concerned, and that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and with the general purposes of the act.

The application discloses the following facts:

Except as principal underwriter, neither Allyn or its affiliated persons have, or have had, any affiliation with Concord or its investment adviser, Concord Counselors, Inc. ("Concord Counselors").

As of December 31, 1953, Concord owned 50,000 shares of General Stores' common stock. Two of Concord's officers, who are also directors of General Stores, own in the aggregate 15,882 shares of General Stores common stock, and hold options to purchase a like number of shares of such stock from General Stores at a price of $1.70 per share. One of said officers has agreed to purchase from Allyn 5,000 shares of such stock, and the wife of the other has agreed to purchase 25,000 shares.

General Stores has been engaged principally in the operation of a chain of retail stores, known as the Schulte stores. In each of the past five years ended October 31, 1953, and in the two months ended December 31, 1953, General Stores has sustained losses which have averaged approximately $611,000 per year. Within recent years, new management has been brought in to direct the company's affairs and various economy measures have been introduced. The average annual loss sustained by the company for its last two fiscal years ending October 31, 1953, was about $490,000.

On August 26, 1953, General Stores acquired at a cost of $1,254,045 all of the capital stock of Stineway Drug Company which operates a chain of 23 retail drug stores and a public cafeteria in the Chicago area. The average annual net income of Stineway for its past three fiscal years ending April 30, 1953, has been approximately $170,000 before taxes and $91,000 after taxes. General Stores is negotiating for the acquisition of Ford Hopkins, which operates a chain of 48 retail drug stores and 3 restaurants principally in Chicago as well as in other mid-western cities. The average annual net income of Ford Hopkins for its past three fiscal years ending October 3, 1953, has been approximately $179,000 before taxes and $100,000 after taxes.

Although negotiations are still continuing, General Stores, expects to acquire all of the outstanding capital stock of Ford Hopkins for $2,800,000 of which $735,000 is to be paid upon the signing of the contract of acquisition. The cash needed by General Stores to meet the downpayment will be obtained in part by the proposed sale of 300,000 shares of its common stock, the net proceeds of which are estimated to amount to $387,500

An oral agreement betwen General Stores and Allyn for the sale of this stock at $1.375 per share was entered into on December 7, 1953. The closing market price per share of the outstanding General Stores stock traded on the American Stock Exchange on that day was $1.375 per share. The agreement was approved by the Board of Directors of General Stores on December 17, 1953, and the closing market price on that date was $1.25 per share. In the intervening period, the price of the stock ranged between $1.125 to $1.375 per share. Since then, the stock has ranged in price between $1.125 and $1.75 per share and the closing market price on March 22, 1954 was $1.625 per share.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to the application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than April 5 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the Rules and Regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Wildlife Order 26]

TENNESSEE

TRANSFER OF PROPERTY KNOWN AS THE FLINTVILLE FISH CULTURAL STATION, FLINTVILLE, TENNESSEE

Pursuant to the authority granted under Public Law 537, approved May 19, 1948, Eightieth Congress, notice is hereby given that:

1. By deed from the United States of America, dated March 11, 1954, to the State of Tennessee, that property known as the Flintville Fish Cultural Station, Flintville, Tennessee, and more particularly described in said deed, has been transferred from the United States to the State of Tennessee.

2. The above described property is transferred to the State of Tennessee for wildlife conservation purposes (other than migratory birds) in accordance with the provisions of said Public Law 537.

EDMUND F. MANSURE, *Administrator of General Services.*

INTERSTATE COMMERCE COMMISSION

[4th sec. Application 29031]

MERCHANDISE IN MIXED CARLOADS FROM TRUNK-LINE AND NEW ENGLAND TERRITORIES TO POINTS IN GEORGIA AND TENNESSEE

APPLICATION FOR RELIEF

MARCH 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to schedule listed below.

Commodities involved: Merchandise in mixed carloads.

From: Points in trunk-line and New England territories.

To: East Point, Fort McPherson, Hapeville, Decatur, Lakewood Station, Oakland City, and Ormewood, Ga., and Warner Robins, Ga., Nashville and Knoxville, Tenn.

Grounds for relief: Competition with rail carriers, circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A-1013.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29034]

GRAIN BETWEEN POINTS IN OKLAHOMA

APPLICATION FOR RELIEF

MARCH 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for the Atchison, Topeka and Santa Fe Railway Company, and Chicago, Rock Island and Pacific Railroad Company.

Commodities involved: Grain, grain products and related articles, carloads.

Between: Points in Oklahoma.

Grounds for relief: Competition with rail carriers, circuitous routing and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3826, supp. 18.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

THE NATIONAL ARCHIVES

FEDERAL REGISTER

VOLUME 19 1934 NUMBER 60

Washington, Saturday, March 27, 1954

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 24]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.324 *Navel Orange Regulation 24*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on March 25, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., March 28, 1954, and ending at 12:01 a. m., P. s. t., April 4, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 346,500 boxes;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is set forth below and made a part hereof by this reference.

(3) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(4) As used in this section, "handled," "handler," "boxes," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 26th day of March 1954.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Orange Reg. 254]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.675 *Orange Regulation 254*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than March 29, 1954. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order and will so continue until March 29; the recommendation and supporting information for continued regulation subsequent to March 28, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on March 23; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., March 29, 1954, and ending at 12:01 a. m., e. s. t., April 12, 1954, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," "standard pack," and "standard nailed box," shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title).

Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 244 (§ 933.647 of this title; 18 F. R. 7380).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 24th day of March 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 198]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.676 *Grapefruit Regulation 198*—(a) *Findings.* (1) Pursuant to the mar-

keting agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than March 29, 1954. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until March 29, 1954; the recommendation and supporting information for continued regulation subsequent to March 28, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on March 23; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., March 29, 1954, and ending at 12:01 a. m., e. s. t., April 12, 1954, no handler shall ship:

(i) Any white seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any white seedless grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(iii) Any white seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iv) Any white seedless grapefruit, grown in Regulation Area I, that grade U. S. No. 2 Russet, U. S. No. 2 or U. S. No. 2 Bright, (*a*) which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or (*b*) which are of a size larger than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(v) Any white seedless grapefruit, grown in Regulation Area I, that grade U. S. No. 1 Russet, U. S. No. 1, U. S. No. 1 Bronze, U. S. No. 1 Golden, U. S. No. 1 Bright or U. S. Fancy, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(vi) Any white seedless grapefruit, grown in Regulation Area II, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(vii) Any pink grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet.

(2) As used in this section "handler," "ship," "Growers Administrative Committee," "Regulation Area I," and "Regulation Area II" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Russet," "U. S. No. 1," "U. S. No. 1 Bronze," "U. S. No. 1 Golden," "U. S. No. 1 Bright," "U. S. Fancy," "U. S. No. 2," "U. S. No. 2 Bright," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 24th day of March 1954.

[Lemon Reg. 530]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.637 *Lemon Regulation 530*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on March 24, 1954, such meeting, was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., March 28, 1954, and ending at 12:01 a. m., P. s. t., April 4, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 275 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 529 (19 F. R. 1535) and made a part of this section by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 25th day of March 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 12—BANKS AND BANKING

Chapter III—Federal Deposit Insurance Corporation

AMENDMENT OF ASSESSMENT AND OTHER PROVISIONS

Effective March 30, 1954, the amendments of Parts 302, 326, and 327 of the rules and regulations of the Corporation which were published in the FEDERAL REGISTER of February 20, 1954 (19 F. R. 1019–1021) under notice of proposed rule making, are adopted, after consideration of all relevant matter presented by interested persons on the proposed amendments, with further amendments. The amended regulations as adopted are set forth below. Parts 326 and 327 are applicable to the assessment base days commencing March 31, 1954, and thereafter. Any changes made by these amendments of regulations are not retroactive.

Amendments of Parts 302–309, 328 and 333 as set forth below are adopted effective March 30, 1954, and as these changes are in the nature of a clarification and do not diminish the rights of insured banks, notice of them as proposed rules is found to be unnecessary.

The amendments of the regulations, as adopted, are as follows:

1. Part 327 is amended to read as follows:

PART 327—ASSESSMENTS

Sec.
327.1 Definitions and periods of deduction for uncollected items.
327.2 Payment of assessments by banks whose insured status has terminated.
327.3 Time of payment.

AUTHORITY: §§ 327.1 to 327.3 issued under sec. 9, 64 Stat. 882; 12 U. S. C. 1819. Interpret or apply secs. 7, 8, 64 Stat. 876–881; 12 U. S. C. 1817, 1818.

§ 327.1 *Definitions and periods of deductions for uncollected items.* As used in section 7 (a) of the Federal Deposit Insurance Act and in this part:

(a) *Base day; definition.* The term "base day" shall be the period of time beginning with the time of the closing of the books[1] of the bank on the last business day immediately preceding the assessment base day to the time of the closing of the books of the bank on the base day according to the normal practice of the bank. Holidays and other nonbusiness days intervening between the preceding business day and the base day are a part of the base day.

(b) *Cash item; definition.* The term "cash item" means any instrument providing for the payment of money which the reporting bank has received in the regular course of business and in exchange therefor has given credit to a deposit account or has issued an instrument evidencing or constituting a deposit as defined in such Act or in Part 326 of this chapter, or has paid in the regular course of business: *Provided,* That the instrument is in the process of collection and is payable on presentation: *Provided further,* That the payer or drawee of the instrument is not the reporting bank or a branch or office thereof. The term reporting bank as used in this part means the bank filing the certified statement for assessment purposes. For the purpose of this paragraph a cash item shall be deemed paid by the reporting bank if the bank has given cash therefor or credit as a payment on a debt due to the bank, or has received it in payment for a Series "E" bond or other security (not an asset of the bank), or as a collection for public utility service, or in a similar transaction: *Provided, however,* That an instrument received by a bank in payment of, or arising from, the sale or other disposition of any of its assets is not a cash item.

(c) *Maintenance of assessment records.* Each insured bank, as a condition to the right to make any deduction or exclusion in determining its assessment base, shall maintain such records as will readily permit verification of the correctness thereof.

[1] The phrase "closing of the books" on a business day, frequently referred to as the "cutoff time," here means the time to which transactions are reflected on the books as part of the busines of that day, even though such transactions may not actually be recorded until a later time.

(d) *Cash items eligible for deduction.* (1) In computing the assessment base only cash items, as defined in this section, may be deducted under either of the two alternative methods described in this section. Such cash items may be deducted without regard to whether withdrawal has been made against the credit given to deposit accounts therefor: *Provided*, That such cash items are credited and withdrawals are made in the normal course of business.

(2) No deductions may be made or claimed:

(i) For cash items after the reporting bank has received payment or notice of dishonor thereof;

(ii) For instruments received in payment for cash items previously paid or credited to deposit accounts and forwarded for collection;

(iii) For instruments received in payment of clearings;

(iv) By the issuing or drawer bank for drafts transferring its own funds;

(v) For drafts drawn and delivered or exchanged for the purpose of reducing the assessment base;

(vi) For any cash item drawn by an officer, director, stockholder, or affiliate of the reporting bank, or any person or corporation at its, his, or their suggestion or direction for the purpose of abnormally increasing the deposits on the base day or for the purpose of obtaining abnormal deductions. The length of time such funds remain on deposit will be a factor in determining their purpose.

(3) No two reporting banks may deduct the same cash item under the (aa) method [1] for computing deductible cash items unless one of the banks normally, and in the regular course of business, is a collecting and check clearing agent for the other bank. Cash items reaching another bank or banks by special handling on the base day, other than in the normal and regular practice, may not be deducted under the (aa) method by such other bank or banks but such other bank or banks may claim deduction therefor in the actual amount if included in the reported deposit liabilities.

(e) *Process of collection.* (1) A cash item is deemed to be in the process of collection from the time it is either credited to a deposit account or paid by the reporting bank and until the reporting bank has received acceptable payment in the form of cash, credit, draft, or officer's check, or notice of dishonor, but such draft or officer's check so received is not a cash item for the purpose of claiming deductions: *Provided*, That an item shall not be considered as uncollected at the close of business on the base day if such item has been outstanding for a period in excess of the time necessary to send the item in due course to the Federal Reserve Bank of the Federal Reserve district or a branch thereof in which the reporting bank is located, plus the time allowed for collection from the place where the item is payable, as shown on the current Time Schedule of such Federal Reserve Bank or branch thereof: *Provided further*, That in the case of an insured bank or branch located outside of any Federal Reserve district, an item shall not be considered as uncollected at the close of business on the base day if such item has been outstanding for a period in excess of the time from the date the cash item is paid or credited to a deposit account and the date of receipt (in the usual course of business) by the correspondent bank to which the item is forwarded for collection plus the collection time allowed by the Federal Reserve Time Schedule for the district in which the correspondent bank is located.

(2) A cash item drawn on a place not included in the Federal Reserve Time Schedule, or a cash item not collectible through a Federal Reserve Bank or branch thereof, may be considered to be in the process of collection for the actual time required to collect it.

(3) This section is not to be construed as requiring any bank to clear items through any Federal Reserve Bank or branch thereof.

(f) *Forwarded for collection.* A cash item shall be deemed to have been forwarded for collection on the base day if it has been received for collection on the base day and has been either forwarded for collection on that day or is in the process of forwarding in accordance with the normal procedure of the bank, even though the item may be in the possession of the bank at the time of the closing of the books on the base day. When holidays and other nonbusiness days are a part of the base day the cash items transmitted for collection on any such nonbusiness day may not be treated as cash items forwarded for collection on the base day if the items are collected at the time of the closing of the books on the base day, or if the maximum period for deductions prescribed in paragraph (e) of this section shall have expired at the time of the closing of the books on that day.

(g) *Held for clearings.* A cash item is considered to be held for clearings at the close of business on the base day if:

(1) It has been received in the usual course of business on the base day before the closing of the books on that day;

(2) It is held for clearance or presentment at the time of the said closing in conformity with the normal practice of the reporting bank;

(3) The payer or drawee of the instrument is a bank or person, other than the reporting bank, located in the same city or local clearing area or is a member of or affiliated with the same clearing house as the reporting bank or regularly clears through such clearing house or a member or an affiliate thereof.

(h) *Payable on presentation.* An item is deemed to be "payable on presentation" when the payer or drawee is required to pay it forthwith upon presentation. The reference includes such items as warrants directed to a public official to pay on demand the amount thereof, matured bonds or bonds presented for redemption, matured coupons, "payable through" items, and sight drafts with or without bills of lading, securities, or other similar documents attached. It does not include items payable upon arrival or inspection of certain goods nor other items which are not customarily cleared or collected by the reporting bank as cash items.

(i) *Choice of method in computing deductible cash items.* An insured bank may, at its option, compute its deductible cash items by either of the two following methods, designated (aa) and (bb), namely:

(aa) Under this method a bank may deduct twice the amount of the total of the cash items forwarded for collection on the base day and cash items held for clearings at the close of business on said day which are in the process of collection and which were received and reflected on the books as part of the business of the base day, all in accordance with the normal procedure of the bank.

(bb) Under this method a bank may deduct the total of the cash items forwarded for collection on the base day and cash items held for clearings at the close of business on said day which are in the process of collection and which were received and reflected on the books as part of the business of the base day, plus the amount of the cash items paid or credited on the preceding days which are in the process of collection and which remain uncollected on the assessment base day, all in accordance with the normal procedure of the bank. If the (bb) method is used, no cash item may be considered uncollected for any period in excess of that prescribed in paragraph (e) of this section.

(j) *Option to claim deductions for uncollected items; change of method.* The reporting bank may select either of the two alternate methods, (aa) or (bb), for claiming deductions for cash items, provided this same method is used for both base days in the semiannual assessment period. After this selection is made and a certified statement filed, the bank may, within two years from the date on which such certified statement was required to be filed, file an amendment of such certified statement for the purpose of changing to the other alternate method. When a bank has elected not to claim any deductions for cash items in a certified statement, it may, within two years from the date on which such certified statement was required to be filed, file an amendment of such certified statement claiming deductions for cash items.

(k) *Direct sendings of uncollected items.* For the purposes of this part a cash item received on a base day by a correspondent bank or a Federal Reserve Bank or branch thereof is considered as being received by the reporting bank on the base day if, in the normal course of the bank's business, the cash item has been forwarded direct to such correspondent or Federal Reserve Bank or branch thereof by a depositor of the reporting bank for credit to the depositor's account in the reporting bank and the reporting bank enters such credit to the account of the depositor on the base day. Deductions may be claimed by the reporting bank for only the cash items in such direct sendings which remain uncollected at the time of the closing of the books on the base day. No deduction may be taken for any such cash item which would have been collected if the item had been forwarded directly to the reporting bank instead of to the correspondent, and all deductions claimed must be supported by proper records maintained by the reporting bank.

(l) *Interbranch items.* An item which is drawn against a deposit account maintained in the main office or a branch office of the reporting bank and which is received by an office of the reporting bank other than the office where the deposit account is carried and which has been paid or credited to a deposit account is not a cash item eligible for deduction. If the item is not reflected on the books of the bank on the base day as a charge against deposit liabilities, it may be subtracted therefrom in its actual amount.

(m) *Reciprocal bank balances.* A reciprocal bank balance for the purpose of this part is where the reporting bank has a deposit balance due to another insured bank and such reporting bank has a deposit balance due from the same insured bank, disregarding for this purpose balances representing deposits of trust funds. The reporting bank must include in the total of its deposit liabilities for assessment purposes the total of its deposit liability to the said other insured bank as shown on the books of the reporting bank at the time of the closing of its books on the base day. It may deduct from such total deposit liabilities the amount of the deposit balance due from such other insured bank but not in an amount in excess of the balance due to such insured bank. For the purpose of computing the reciprocal bank balance deduction the balances used must be subject to immediate withdrawal. This means that items in the process of collection must be excluded from the computation of both the "due to" and "due from" balances as shown on the books of the reporting bank. Any outstanding unpaid draft credited to the "due from" account may be added back to the book balance to show the actual collected balance due from the other insured bank in computing this deduction.

(n) *Trust funds deposited in other insured banks; deduction.* The term "trust funds" means funds held by an insured bank in a fiduciary capacity, whether held in its trust department or deposited in any other department or in another bank, and includes, without being limited to, funds held as trustee, executor, administrator, guardian, or agent. The reporting bank shall include in its total deposit liabilities for assessment purposes all trust funds so held by it in a fiduciary capacity. It may, however, deduct from such reported total deposit liabilities the following portion of such trust funds so held:

(1) Trust funds received by the reporting bank in its trust department which the reporting bank has deposited directly from its trust department to a depositary insured bank;

(2) Trust funds received by other departments of the reporting bank from sources other than the trust department which funds the reporting bank has deposited directly from such department or from its trust department to the depositary insured bank;

(3) Trust funds deposited directly to the account of the reporting bank in a depositary insured bank by a person or persons other than the reporting bank;

(4) Trust funds originating from a pre-existing deposit account in another insured bank to which the reporting bank has become entitled in its fiduciary capacity: *Provided*, That in each of the foregoing instances:

(i) The account is maintained in the depositary insured bank by the reporting bank as fiduciary and the account is appropriately entitled to show that the funds therein are trust funds;

(ii) The funds in such account are used exclusively for their trust purposes by the reporting bank; and

(iii) Records are kept which clearly show that the trust funds have been deposited and maintained in the manner above stated.

§ 327.2 *Payment of assessments by banks whose insured status has terminated*—(a) *Assumed deposits of terminating bank become deposits of assuming bank.* The deposit liabilities of an insured bank, if assumed by another insured bank, will, except to the extent that depositors of the first bank by affirmative action signify their express intention to hold the first bank liable as a debtor, be presumed for assessment purposes to cease being deposit liabilities of the first bank on the date the assumption becomes effective: *Provided*, That the requisite notice of assumption be given to the depositors of the terminating bank.[2] The assumed deposits, for assessment purposes, are deposit liabilities of the assuming bank from the date of assumption, whether or not the requisite notice of assumption has been given to the depositors.

(b) *Payment of assessments by assuming bank on assumed deposits of terminating bank.* Where the deposit liabilities of an insured bank are assumed by another insured bank and the assuming bank agrees to file the certified statement which the terminating bank is required to file, the filing of such certified statement and the payment of the assessment thereon by the assuming bank shall be deemed the acts of the terminating bank: *Provided*, That the requisite notice of assumption [3] be given to the depositors of the terminating bank, and *Provided further*, That such certified statement shall be filed separately from that required to be filed by the assuming bank.

(c) *Resumption of insured status before insurance of deposits ceases.* If a bank whose insured status has been terminated under section 8 (a) or (b) of the Federal Deposit Insurance Act, makes application to the Corporation, before the insurance of its deposits shall have ceased, to be permitted to continue or to resume its staus as an insured bank and if the Board of Directors grants the application, the bank will be deemed, for assessment purposes, to continue as an insured bank and must thereafter furnish certified statements and pay assessments as though its insured status had not ben terminated. For the procedure to be followed in making such application, see § 303.7 of this chapter.

§ 327.3 *Time of payment.* Each insured bank shall pay to the Corporation the amount of the semiannual assessment due to the Corporation, as shown on its certified statement,[4] at the time such statement is required to be filed under section 7 (b) of the Federal Deposit Insurance Act.

2. Part 326 is amended to read as follows:

PART 326—BANK OBLIGATIONS PRESCRIBED AS DEPOSITS

Sec.
326.1 Deposits.
326.2 Money or its equivalent.

AUTHORITY: §§ 326.1 and 326.2 issued under sec. 9, 64 Stat. 882; 12 U. S. C. 1819. Interpret or apply sec. 3, 64 Stat. 874; 12 U. S. C. 1813.

§ 326.1 *Deposits.* The term "deposit" as used in section 3 (l) of the Federal Deposit Insurance Act, shall include the following obligations.

(a) *Outstanding drafts, cashiers' checks and other officers' checks.* Outstanding drafts,[1] cashiers' checks, and other officers' checks issued under any of the following circumstances:

(1) For money or its equivalent received by the issuing bank; or

(2) For a charge against a deposit account in the issuing bank; or

(3) In settlement of checks, drafts, or other instruments forwarded to the issuing bank for collection.

(b) *Certified checks.* Checks drawn against a deposit account and certified by the drawee bank.

(c) *Letters of credit and traveler's checks.*[2] Outstanding letters of credit or traveler's checks on which the bank is primarily liable issued under either of the following circumstances:

(1) For money or its equivalent received by the issuing bank; or

(2) For a charge against a deposit account in the issuing bank.

(d) *Special purpose funds.* Money received or held by the bank, or the credit given therefor to an account including a special or memorandum account, which money or credit is held for a special or specific purpose, regardless of whether the relationship thereby created is that of debtor-creditor, fiduciary, or any other relationship.[3]

---

[1] See sec. 7 (a), Federal Deposit Insurance Act, 12 U. S. C. 1817 (a); also paragraph (l) of this § 327.1.

[2] The requisite notice of assumption shall be the notice prescribed in § 307.3 of this chapter.

[1] Drafts drawn on foreign correspondents or foreign branches and payable only in foreign countries are not included in the term "deposit".

[2] The change in the wording of this paragraph is a clarification of the consistent interpretation by the Corporation of the term "letters of credit" to include all letters of credit issued under the circumstances stated in this paragraph.

[3] Special purpose funds, defined in § 326.1 (d), include, among others and without limitation to those mentioned here, escrow funds, funds held as collateral security for an obligation due the bank or others, withheld taxes, funds held for distribution or for purchase of securities or currency, or funds held by the bank to meet its acceptances or letters of credit. The Corporation has consistently interpreted the term "deposit", as defined in the Federal Deposit Insurance Act since 1935, to include special purpose funds as defined in § 326.1 (d). These special purpose funds are also deposits by general usage. This clarification is made with the realization that some or all of the funds defined as special purpose funds in § 326.1 (d) may be within the term "deposit" as defined in the Federal Deposit Insurance Act since 1935.

[4] See §§ 304.1 and 304.3 of this chapter.

§ 326.2 *Money or its equivalent.* Under paragraphs (a) and (c) of § 326.1 drafts, cashiers' checks, and other officers' checks, letters of credit and traveler's checks must be regarded as issued for the equivalent of money when issued in exchange for checks or drafts or for promissory notes upon which the person procuring any of the enumerated instruments is primarily or secondarily liable.

3. Section 302.3 is amended by deleting the words "Committee on Administration" and substituting therefor the words "Special Committee".

4. Sections 303.1 and 303.2 are amended by deleting in § 303.1 the footnote reference number "2" and the footnote numbered "2" and substituting in § 303.2 the number "2" for the footnote reference number "3" and renumbering footnote "3" as footnote "2".

5. Section 304.2 is amended by deleting the word "should" and substituting therefor the word "shall".

6. Section 305.1 is amended by changing the sixth sentence thereof to read as follows: "The Corporation is authorized to make payment of the insured deposits in cash or by making available to each depositor a transferred deposit in a 'new bank,'[4] which is insured, in the same community or in another insured bank in an amount equal to the insured deposit of such depositor," with the following footnote:

[4] See section 11 (h)-(1) of the Federal Deposit Insurance Act, 12 U. S. C. 1821 (h)-(1).

7. Section 306.1 is amended by adding the words "and deposits" after the word "purchases" in the caption of the section and by deleting the word "from" in the first sentence of the section and substituting therefor the words "or deposits with" and by deleting the words "attorneys' fees" in the fifth sentence of the section.

8. Section 306.2 is amended by changing the twelfth sentence thereof to read as follows: "Attorney fees are submitted by the Legal Division to the Special Committee for recommendation to and determination by the Board of Directors."

9. Section 306.3 is amended by deleting the footnote reference number "4" and substituting therefor the number "2".

10. Footnote numbered 8 to paragraph (a) of § 307.2 is amended by deleting the following: "footnote 13" and substituting therefor the following: "footnote 12".

11. Footnote numbered 11 to paragraph (b) of § 307.3 is amended by deleting the number "327.3" and substituting therefor the number "327.2".

12. Section 308.14 is amended by deleting from the caption thereof the words "Service; proof of service" and substituting therefor the word "Service".

13. Part 309 is amended to read as follows:

PART 309—CONFIDENTIAL AND PRIVILEGED RECORDS AND INFORMATION

Sec.
309.1 Unpublished information.
309.2 Opinions and orders.

AUTHORITY: §§ 309.1 and 309.2 issued under sec. 9, 64 Stat. 882; 12 U. S. C. 1819. Interpret or apply sec. 10, 64 Stat. 882-883; 12 U. S. C. 1820.

§ 309.1 *Unpublished information—*(a) *Confidential information and records.* All files, documents, reports, books, accounts, and records (collectively referred to as "records" in this section) pertaining to any bank, or the internal operations and affairs of the Corporation, in the possession or under the control of the Corporation or any officer, employee, or agent thereof, including but not limited to (1) reports of examinations or investigations of any bank, (2) applications, statements, and reports to the Corporation by any bank, (3) proceedings for the termination of the insured status of any bank, or (4) the internal operations of the corporation including minutes of the meetings of the Board of Directors and authorized committees and exhibits filed therewith, and all facts or information contained in such records or acquired by the officers, employees, or agents of the Corporation in the performance of their official duties (collectively referred to as "information" in this section), are confidential and privileged.

(b) *Disclosure prohibited.* (1) Officers, employees, and agents of the Corporation are prohibited from allowing any person to inspect, examine, or copy any of said confidential or privileged records, or furnishing copies thereof, or from disclosing any confidential and privileged information, except as herein provided:

(i) The Chief of any Division having custody thereof, in his discretion, may release or furnish any records or information, other than records enumerated in paragraph (a) (1), (2), (3), and (4) of this section and information acquired in reference thereto, to any governmental agency, State or Federal, for use in the exercise of its official duties; and to any other person upon a verified written application which shall show that the applicant has a substantial interest therein and the purpose for which it is to be used: *Provided, however,* That when such records or information are requested by any person other than a governmental agency, the Division Chief shall find, and such finding shall be supported by opinion of the General Counsel, that the release or disclosure is not detrimental or prejudicial to the bank or banks or person or persons from whom the records or information were obtained or received, nor contrary to the public interest.

(ii) The Chief of the Division of Examination may furnish to any bank copies of any reports of examination or investigation of such bank (except the section of the report designated "confidential") and other information pertaining to its affairs: *Provided,* That copies of such reports of examination and other information so furnished to any bank shall remain the property of the Corporation and under no circumstances shall the bank or any of its directors, officials, or employees disclose or otherwise make public in any manner such reports or any portion thereof or other information so furnished.

(iii) The Chief of the Division of Examination may furnish to the Comptroller of the Currency, to any Federal Reserve Bank, and to any commission, board, or authority having supervision of a State nonmember bank, and to the Reconstruction Finance Corporation, or its successor Federal agency, if it owns or holds as pledgee, or has under consideration an application for the purchase of any preferred stock, capital notes, or debentures in such bank, copies of reports of examination made on behalf of the Corporation and other information pertaining to insured nonmember banks for use in the exercise of their official duties: *Provided,* That such reports of examination and other information so furnished to such officials or agency shall remain the property of the Corporation and under no circumstances shall any such official or agency disclose or make public in any manner such reports or any portion thereof or other information so furnished.

(iv) The Chief of the Division of Examination may furnish to any official of the Department of Justice or to any State prosecuting authority any information regarding defalcations, burglaries, or robberies affecting insured banks, when, in his opinion, there is urgent need for immediate action to be taken by such Department or authority in the investigation thereof or the apprehension or prosecution of persons responsible therefor.

(v) The Chief of the Division of Research and Statistics may furnish to the Comptroller of the Currency, to any Federal Reserve Bank, and to any commission, board, or authority having supervision of a State nonmember bank, copies of reports of condition made by insured banks to the Corporation including statements of assets, liabilities, and capital accounts, and of earnings, expenses, and distribution of profits, for use in the exercise of their official duties: *Provided,* That under no circumstances shall such Federal or State officials make public the contents of such reports or any portion thereof, except in the publication of general statistical reports.

(vi) The General Counsel of the Corporation may disclose to the proper Federal or State prosecuting authorities any and all records and information relating to irregularities discovered in open and closed insured banks believed to constitute violations of any Federal or State statute.

(vii) The General Counsel may authorize the production of any record, the disclosure of any information, and the giving of any testimony with respect thereto, by any officer, employee, or agent of the Corporation, upon any proceeding, hearing, or trial, civil or criminal, in any Federal or State court or before any administrative board, commission, or committee, on behalf of or at the request of the Corporation, the United States, or State prosecuting official, or the bank or person from whom such confidential and privileged records and information were received or obtained.

(2) The authorizations hereunder may be given only in response to a subpena or other legal process duly issued and served upon the Corporation at its principal office, which service may be by registered mail addressed to the Corporation at Washington, D. C., specifying the record requested, the nature and scope of the testimony to be elicted, the name of the witness and the place and time of appearance: *Provided,* That the General Counsel, in his discretion, may waive the requirement of service of subpena or process when he believes it to be in the interest of justice to do so. Without such prior authorization, any officer, employee or agent of the Corporation required to respond to a subpena or other legal process shall attend at the time and place therein mentioned and respectfully decline to produce any record or disclose any information or give any testimony with respect thereto, basing his refusal upon this rule.

(c) *Application for disclosure without subpena.* Applications for disclosure of information or records hereunder should be addressed to the appropriate Division Chief or the General Counsel of the Corporation, as the case may be.

(d) *Service of process on officer, employee, or agent.* Any officer, employee, or agent of the Corporation served with a subpena, order, or other process requiring his personal attendance as a witness or the production of records or information upon any proceeding mentioned in paragraph (b) (1) (vii) of this section shall promptly advise (1) the court or tribunal which issued the process, and the attorney for the party at whose instance the process was issued, if known, of the substance of this rule, and (2) the General Counsel of the Corporation at Washington, D. C., of such service and of the records and information requested and of any facts which may be of assistance to the General Counsel in determining whether such records and information should be made available.

(e) *Authority of Chairman of Board of Directors.* Notwithstanding any of the foregoing provisions, the Chairman of the Board of Directors, in his discretion and pursuant to law, may authorize the production, examination, or inspection of any records, or the furnishing of copies thereof, or the disclosure of any information, or the Chairman, in his discretion, may direct the General Counsel or the Chief of any Division to refuse to permit the production, examination, or inspection of any records, or the furnishing of copies thereof, or the disclosure of any information, if he shall find such action to be in the best interests of the Corporation and consistent with the public interest.

(f) *Publication of data.* The Board of Directors or the Chairman may from time to time authorize and direct the publication and public distribution of information and data compiled from the records of the Corporation.

§ 309.2 *Opinions and orders.* (a) A survey and review of the opinions and orders heretofore made by the Board of Directors of the Corporation in the adjudication of cases, in connection with licensing, supervision, investigation, termination of insured status, payment of insured deposits, and the administration of liquidations and receiverships, disclose that their publication would not be of current interest or importance, they are not cited as precedents, and are required for good cause to be held confidential. Accordingly, they will not be published nor made available to public inspection.

(b) The Board of Directors will, however, either publish, or, in accordance with published rule, make available for public inspection, final opinions and orders in the adjudication of cases which are cited as precedents and which are not required for good cause to be held confidential.

14. Paragraph (b) of § 328.1 is amended by adding in the second sentence after the words "any other sign of" the word "substantially".

15. Section 328.2 is amended (1) by deleting in paragraph (a) the words "in paragraph (c)" and substituting therefor the words "in paragraph (d)"; (2) by changing the designations of paragraphs (c), (d) and (e) to (d), (e) and (f), respectively and (3) by adding thereto the following paragraph:

(c) *Use of emblem containing official advertising statement.* (1) The Corporation has approved for use by insured banks on all of its advertisements and bank supplies the following emblem containing the official advertising statement, and its use in advertisements requiring the official advertising statement will satisfy the mandatory requirements of paragraph (a) of this section:

(2) An insured bank may use any other emblem containing reference to deposit insurance or membership in the Corporation which shall have been approved in writing by the Corporation; however, no such other emblem will satisfy the mandatory requirements of paragraph (a) of this section.

16. Section 328.3 is amended to read as follows:

§ 328.3 *Short title.* The short title "Member of FDIC" may be used by insured banks; however, such short title will not satisfy the mandatory requirements of paragraph (a) of § 328.2.

17. Section 333.101 is amended by deleting the words "those of a commercial bank" and substituting therefor the words "the business of a commercial bank".

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

MARCH 23, 1954.

[F. R. Doc. 54-2181; Filed, Mar. 26, 1954; 8:48 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 535—PAYMENT OF BILLS AND ACCOUNTS

MISCELLANEOUS AMENDMENTS

1. In § 535.22, paragraphs (a) (1) and (b) (2) are revised and a new subparagraph (3) is added to paragraph (b) as follows:

§ 535.22 *By whom paid—*(a) *Within continental limits of United States and Alaska—*(1) *Finance Center, U. S. Army, Transportation Division, Indianapolis 49, Indiana.* (i) All transportation accounts for Department of the Army bills of lading and transportation requests issued for service to and from and within the continental limits of the United States and Alaska (except those payable from appropriations for civil functions of the Corps of Engineers and transoceanic shipments from and to foreign countries moving by water) will be paid by the disbursing officer of the Finance Center, U. S. Army Transportation Division, Indianapolis 49, Indiana.

(ii) Bills for miscellaneous charges such as demurrage, icing, salting, switching, reweiging, storage, etc., accruing in connection with shipments under Department of the Army bills of lading and transportation requests will be paid by the disbursing officer of the Finance Center, U. S. Army, Transportation Division, Indianapolis 49, Indiana.

* * * * *

(b) *Outside continental United States.*
* * *

(2) Transportation requests (Standard Forms 1139 and 1141) issued for service within the Caribbean or Pacific area, Philippine Islands, and in foreign countries will be paid by a disbursing officer in the area concerned except that the Finance Center, U. S. Army, Transportation Division, Indianapolis 49, Indiana, will pay transportation requests issued for travel in Canada and Mexico and may pay for service in a foreign country when billed for in United States currency.

(3) Transportation accounts of household goods by commercial motor van carriers on Government warrants, purchase orders and contracts issued for service within the Caribbean or Pacific areas, Philippine Islands and in foreign countries, will be paid by a disbursing officer in the area concerned.

* * * * *

2. Section 535.29 is revised as follows:

§ 535.29 *Settlement of claims of vendors for prepaid transportation costs.* The disbursing officer of the Finance Center, U. S. Army, Transportation Division, Indianapolis 49, Indiana, is designated as the paying officer for transportation accounts only in those cases where shipment moves on Government bill of lading, or there is a conversion to Government bill of lading prior to payment and a properly certified bill supported by such document is submitted by a carrier. It is not the function of the Finance Center, U. S. Army, Transportation Division, Indianapolis 49, In-

diana, to make reimbursement, either in the full amount, or in part, of a claim arising out of prepayment of transportation costs by a commercial concern under a procurement instrument which provides directly or indirectly for shipment at the expense of the United States. Such reimbursement may be made by the disbursing officer designated to make payment under the procurement instrument in question to the extent of the constructive transportation cost for shipment on Government bill of lading, which cost may be ascertained from the Finance Center, U. S. Army, Transportation Division, Indianapolis 49, Indiana. In doubtful cases, such claims may be prepared for transmission to the General Accounting Office and submitted to the Chief of Finance, Washington 25, D. C., Attention: Receipts and Disbursements Division, for consideration. In no event will the disbursing officer forward, or instruct a vendor to forward, such claim to the Finance Center, U. S. Army, Transportation Division, Indianapolis 49, Indiana, for settlement.

3. In § 535.33, paragraph (d) is revised as follows:

§ 535.33 *Overpayments.* • • •

(d) Where it is determined that overpayments have been made to a transportation company as a result of overcharges made by such transportation company to a cost-plus-a-fixed-fee contractor who, in turn, has been reimbursed by the Government, the General Accounting Office will send notices of such overpayments to the disbursing officer of the Finance Center, U. S. Army, Transportation Division, Indianapolis 49, Indiana, who will make the deductions from subsequent carrier bills and advise the sender in the General Accounting Office and the carrier of the deductions made. From that point on, the matter of correctness of the original deductions will be a matter for settlement between the carrier involved and the General Accounting Office. All questions received from carriers as to the correctness of the original deductions should be referred to the Freight Transportation Section, Claims Division, General Accounting Office, Washington 25, D. C.

[C1, SR 35-3260-1, February 8, 1954] (R. S. 161; 5 U. S. C. 22. Interpret or apply 54 Stat. 954 as amended; 49 U. S. C. 65)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.180 governing the use, administration, and navigation of all waterways tributary to the Gulf of Mexico, except the Mississippi River, its tributaries and outlets, from St. Marks, Florida, to the Rio Grande, Texas, both inclusive, and the Intracoastal Waterway from Apalachee Bay, Fla., to Brownsville, Texas, is hereby amended to increase the maximum allowable length of all tows to 1,000 feet exclusive of the towing vessel, as follows:

§ 207.180 *All waterways tributary to the Gulf of Mexico (except the Mississippi River, its tributaries and outlets) from St. Marks, Fla., to the Rio Grande; use, administration, and navigation.* (a) The regulations in this section shall apply to:

(1) *Waterways.* All navigable waters of the United States which are tributary to or connected by other waterways with the Gulf of Mexico, except the Mississippi River, its tributaries and outlets, between St. Marks, Fla., and the Rio Grande, Texas, both inclusive, and the Intracoastal Waterway from Apalachee Bay, Fla., to Brownsville, Texas.

• • • • • •

(e) *Waterways.* • • •

(4) *Size, assembly, and handling of tows.* On waterways 150 feet wide or less, tows will not be allowed which are longer than 1,000 feet, exclusive of the towing vessel and hawser, or wider than one-half the bottom width of the channel or 55 feet, whichever width is less, except on waterways exempted by the District Engineer or on other waterways by special permission of the District Engineer.

(i) All vessels drawing tows not equipped with rudders in restricted channels and land cuts shall use two towlines, or a bridle on one towline, shortened to the greatest possible extent so as to have maximum control at all times. The various parts of a tow shall be securely assembled with the individual units connected by lines as short as practicable. In open water, the towlines and fastenings between barges may be lengthened so as to accommodate the wave surge. In the case of lengthy or cumbersome tows, or tows in restricted channels, the District Engineer may require that tows be broken up, and may require the installation of a rudder or other approved steering device on the tow in order to avoid obstructing navigation or damaging the property of others. Pushing barges with towing vessel astern, towing barges with towing vessel alongside, or pushing and pulling barges with units of the tow made up both ahead and astern of the towing vessel is permissible provided that adequate power is employed to keep the tow under full control at all times.

(ii) No tow shall be drawn by a vessel that has insufficient power or crew to permit ready maneuverability and safe handling.

(iii) No vessel or tow shall navigate through a drawbridge until the movable span is fully opened.

• • • • • •

(h) *Marine accidents.* Masters, mates, pilots, owners, or other persons using the waterways to which the regulations in this section apply shall report to the District Engineer or his authorized representative by the most expeditious means available all marine accidents, such as fire, collision, sinking, or stranding, where there is possible obstruction of the channel or interference with navigation, furnishing a clear statement as to the name, address, and ownership of the vessel or vessels involved, the time and place, and the action taken. In all cases, the owner of a sunken vessel shall take immediate steps to mark the wreck properly.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 946]

ARKANSAS

PARTIAL REVOCATION OF EXECUTIVE ORDER NO. 8591 OF NOVEMBER 8, 1940

By virtue of the authority vested in the President by the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 8591 of November 8, 1940, withdrawing certain public lands in Arkansas in connection with the construction of the Norfolk Dam and Reservoir under the supervision of the War Department, is hereby revoked so far as it affects the following-described lands:

FIFTH PRINCIPAL MERIDIAN

T. 20 N., R. 12 W.,
Sec. 8, NE¼NE¼, N½SE¼NE¼.

The area described contains 60 acres.

The lands are included in power site classification No. 33, Arkansas No. 2, by departmental order of April 29, 1922. The W½NE¼NE¼ is included in Federal Power Project No. 654 by application filed June 6, 1930.

ORME LEWIS,
Assistant Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

GREEN ASPARAGUS

NOTICE OF NONISSUANCE OF REVISED STANDARDS FOR CANNING OR FREEZING

A notice was published in the January 20, 1954, issue of the FEDERAL REGISTER (19 F. R. 354) concerning the issuance of revised United States Standards for Green Asparagus for Canning or Freezing, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C., 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953).

This notice provided a period of 30 days for all persons to submit written data, views or arguments for consideration in connection with the proposed standards.

On the basis of all such data, views or arguments which have been filed with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, and all relevant matters presented pursuant to such notice, it has been concluded that it is not desirable to issue the proposed revision at this time.

It is determined, therefore, that the revised United States Standards, as proposed in the aforementioned notice, will not be made effective at this time.

Dated: March 24, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

[F. R. Doc. 54-2208; Filed, Mar. 26, 1954; 8:51 a. m.]

[7 CFR Part 52]

DEHYDRATED (LOW-MOISTURE) APPLES[1]

UNITED STATES STANDARDS FOR GRADES

Notice is hereby given that the United States Department of Agriculture is considering the issuance, as herein proposed, of United States Standards for Grades of Dehydrated (Low-moisture) Apples pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087, 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). These standards, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards should file the same, in duplicate, with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.2341 Product description.
52.2342 Styles of dehydrated apples.
52.2343 Grades of dehydrated apples.

FACTORS OF QUALITY

52.2344 Ascertaining the grade.
52.2345 Ascertaining the rating for the factors which are scored.
52.2346 Color.
52.2347 Uniformity of size.
52.2348 Absence of defects.
52.2349 Texture.

EXPLANATIONS AND METHODS OF ANALYSES

SCORE SHEET

52.2352 Score sheet for dehydrated apples.

AUTHORITY: §§ 52.2341 to 52.2352 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 1624; Pub. Law 156, 83d Cong.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.2341 *Product description.* Dehydrated (low moisture) apples, hereinafter referred to as "dehydrated apples," are prepared from clean and sound fresh or previously dried (or evaporated) apples from which the peels and cores have been removed and are cut into segments. The dried (or evaporated) apple segments may be cut further into smaller segments in preparation for dehydration whereby practically all of the moisture is removed to produce a very dry texture. The sulphur dioxide content of the finished product may not exceed 500 parts per million but no other additives may be present.

§ 52.2342 *Styles of dehydrated apples*—(a) *Pie pieces.* Pie pieces consist predominantly of parallel-cut, irregularly shaped pieces, approximating 3/16-inch or less in thickness and ¾-inch or longer in their longest dimension.

(b) *Flakes.* Flakes consist predominantly of parallel-cut, irregularly shaped pieces, approximately 3/16-inch or less in thickness and less than ¾-inch in their longest dimension.

(c) *Wedges.* Wedges are fairly thick sectors, approximating no more than ⅜-inch at their greatest thickness.

(d) *Sauce pieces.* Sauce pieces are small popcornlike units of varying shapes and sizes, not otherwise conforming to the style of flakes, and in which practically all of the units when free-flowing will pass through 0.446-inch square openings. Sauce pieces of this style, when practically all of the units will pass through ⅜-inch square openings, are considered "finely-cut."

§ 52.2343 *Grades of dehydrated apples.* (a) "U. S. Grade A" or "U. S. Fancy" dehydrated apples is the quality of dehydrated apples in which the moisture content of the finished product is not more than 2.5 percent by weight; that possess a normal flavor and odor, that possess a good color, that are reasonably uniform in size, that are practically free from defects, that possess a good texture, and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 85 points.

(b) "U. S. Grade B" or "U. S. Choice" dehydrated apples is the quality of dehydrated apples in which the moisture content of the finished product is not more than 3.5 percent by weight; that possess a normal flavor and odor, that possess a reasonably good color, that are fairly uniform in size, that are reasonably free from defects, that possess a reasonably good texture, and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 70 points.

(c) "Substandard" dehydrated apples is the quality of dehydrated apples that fail to meet the requirements of U. S. Grade B or U. S. Choice.

FACTORS OF QUALITY

§ 52.2344 *Ascertaining the grade.* (a) The grade of dehydrated apples is ascertained by considering the factors of moisture content and flavor and odor which are not scored and the respective ratings for the factors of color, uniformity of size, absence of defects, and texture which are scored.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	20
Uniformity of size	20
Absence of defects	40
Texture	20
Total score	100

(c) The factors of flavor and odor, color, and texture are ascertained both upon the dehydrated apples and the cooked product as outlined in this subpart.

(d) "Normal flavor and odor" means that the dehydrated apples and the cooked product possess a characteristic flavor and odor that is free from objectionable flavors and objectionable odors of any kind.

§ 52.2345 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 52.2346 *Color*—(a) *(A) classification.* Dehydrated apples that possess a good color may be given a score of 17 to 20 points. "Good color" means that the dehydrated apples possess a reasonably uniform, reasonably bright, light yellow to yellow-white characteristic color which, upon cooking, is a reasonably bright color typical of cooked dehydrated apples that have been properly prepared and processed.

(b) *(B) classification.* If the dehydrated apples possess a reasonably good color, a score of 14 to 16 points may be given. Dehydrated apples that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the dehydrated apples possess a fairly uniform, fairly bright, light yellow-amber or light yellow to yellow-white characteristic color and which, upon cooking, may be variable in color but typical of cooked dehydrated apples that have been properly prepared and processed.

(c) *(SStd) classification.* Dehydrated apples that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2347 *Uniformity of size*—(a) *(A) classification.* Dehydrated apples that are reasonably uniform in size may be given a score of 17 to 20 points. "Reasonably uniform in size" has the following meanings for the respective styles:

(1) *Pie pieces.* (i) Not less than 75 percent, by weight, of all the units are ¾-inch or more in their longest dimension and including not less than 35 percent, by weight, of all the units are 1 inch or more in their longest dimension;

(ii) Practically all of the units ¾-inch or more in their longest dimension are 3/16-inch or less at their greatest thickness; and

(iii) Not more than 10 percent, by weight, of all the units may be of such size in their greatest width or greatest thickness as to pass through meshes of a U. S. Standard No. 4 sieve (0.187-inch, ±3 percent, square openings); but

(iv) Not more than 5 percent, by weight, of all the units may pass through meshes of a U. S. Standard No. 8 sieve (0.0937-inch, ±3 percent, square openings).

(2) *Flakes.* (i) Not less than 85 percent, by weight, of all the units are less than ¾-inch in their longest dimension;

(ii) Practically all of such sized units are 3/16-inch or less at their greatest thickness; and

(iii) Not more than 10 percent, by weight, of all the units may be of such size in their greatest width or greatest thickness as to pass through meshes of a U. S. Standard No. 8 sieve (0.0937-inch, ±3 percent, square openings); but

(iv) Practically none may pass through meshes of a U. S. Standard No. 16 sieve (0.0469-inch ±3 percent, square openings).

(3) *Wedges.* (i) Not less than 95 percent, by weight, of all the units are 1 inch or longer in their longest dimension; and

(ii) Practically all of such sized units are ⅝-inch or less at their greatest thickness.

(4) *Sauce pieces.* (i) Not less than 95 percent, by weight, of all the units are of such size as to pass through 0.446-inch square openings;

(ii) Not more than 10 percent, by weight, of all the units may pass through meshes of a U. S. Standard No. 8 sieve (0.0937-inch, ±3 percent, square openings); but

(iii) Practically none may pass through meshes of a U. S. Standard No. 16 sieve (0.0469-inch, ±3 percent, square openings).

(b) *(B) classification.* If the dehydrated apples are fairly uniform in size a score of 14 to 16 points may be given. Dehydrated apples that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Fairly uniform in size" has the following meanings for the respective styles:

(1) *Pie pieces.* (i) Not less than 60 percent, by weight, of all the units are ¾-inch or more in their longest dimension and including not less than 25 percent, by weight, of all the units are 1 inch or more in their longest dimension;

(ii) Practically all of the units ¾-inch or more in their longest dimension are 3/16-inch or less at their greatest thickness; and

(iii) Not more than 15 percent, by weight, of all the units may be of such size in their greatest width or greatest thickness as to pass through meshes of a U. S. Standard No. 4 sieve (0.187-inch, ±3 percent, square openings); but

(iv) Not more than 5 percent, by weight, of all the units may pass through meshes of a U. S. Standard No. 8 sieve (0.0937-inch, ±3 percent, square openings).

(2) *Flakes.* (i) Not less than 85 percent, by weight, of all the units are less than ¾-inch in their longest dimension;

(ii) Practically all of such sized units are 3/16-inch or less at their greatest thickness; and

(iii) Not more than 5 percent, by weight, of the product may pass through meshes of a U. S. Standard No. 16 sieve (0.0469-inch, ±3 percent, square openings).

(3) *Wedges.* (i) Not less than 85 percent, by weight, of all the units are 1 inch or longer in their longest dimension; and

(ii) Practically all of such sized units are ⅝-inch or less at their greatest thickness.

(4) *Sauce pieces.* (i) Not less than 85 percent, by weight, of all the units are of such size as to pass through 0.446-inch square openings;

(ii) Not more than 5 percent, by weight, of the product may pass through meshes of a U. S. Standard No. 16 sieve (0.0469-inch, ±3 percent, square openings).

(c) *(SStd) classification.* Dehydrated apples that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2348 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from carpel tissue; from units damaged by pieces of skin, bruises or other discoloration, bitter pit or corky tissue, water core, or damaged by other means; and from units damaged by calyxes and stems, or portions thereof.

(1) "Practically free from carpel tissue" means that for each 2 ounces of dehydrated apples any carpel tissue that may be present does not exceed in the aggregate an area equal to ½-square inch.

(2) "Reasonably free from carpel tissue" means that for each 2 ounces of dehydrated apples any carpel tissue that may be present in the aggregate exceeds an area equal to ½-square inch but does not exceed an area equal to 1 square inch.

(3) "Damaged by pieces of skin" means pieces of skin, regardles of color, which in their greatest dimension exceeds ⅛-inch.

(4) "Damaged by other means" means defects not specifically mentioned which affect materially the appearance or edibility, or both, of the piece so damaged.

(5) "Damaged by bruises or other discoloration, bitter pit or corky tissue, water core, and other similar defects" means the appearance or eating quality, or both, of the unit is materially affected by such defects.

(6) "Damaged by calyxes and stems or portions thereof" means the appearance or eating quality, or both, of the unit is materially affected by such defects.

(b) *(A) classification.* Dehydrated apples that are practically free from defects may be given a score of 34 to 40 points. "Practically free from defects" means that dehydrated apples of any style are practically free from carpel tissue and, in addition, has the following meanings for the respective styles:

(1) *Pie pieces; and wedges.* Not more than 10 percent, by weight, of all the units may be damaged by pieces of skin, bruises or other discoloration, bitter pit or corky tissue, water core, other means, calyxes, and stems: *Provided*, That not more than 1 percent, by weight, of all the units may be damaged by calyxes and stems.

(2) *Flakes; and sauce pieces.* Not more than 5 percent, by weight, of all the units may be damaged by pieces of skin, bruises or other discoloration, bitter pit or corky tissue, water core, other means, calyxes, and stems: *Provided*, That not more than 1 percent, by weight, of all the units may be damaged by calyxes and stems.

(c) *(B) classification.* If the dehydrated apples are reasonably free from defects, a score of 28 to 33 points may be given. Apples that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that dehydrated apples of any style are reasonably free from carpel tissue, and, in addition, has the following meanings for the respective styles:

(1) *Pie pieces; and wedges.* Not more than 15 percent, by weight, of all the units may be damaged by pieces of skin, bruises or other discoloration, bitter pit or corky tissue, water core, other means, calyxes, and stems: *Provided*, That not more than 2 percent, by weight, of all the units may be damaged by calyxes and stems.

(2) *Flakes; and sauce pieces.* Not more than 8 percent, by weight, of all the units may be damaged by pieces of skin, bruises or other discoloration, bitter pit or corky tissue, water core, other means, calyxes, and stems: *Provided*, That not more than 1 percent, by weight, of all the units may be damaged by calyxes and stems.

(d) *(SStd) classification.* Dehydrated apples that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2349 *Texture*—(a) *(A) classification.* Dehydrated apples that possess a good texture may be given a score of 17 to 20 points. "Good texture" means with respect to the dehydrated product that the units are brittle; and, upon cooking in accordance with the methods outlined in this subpart, the textures of the respective styles are as follows:

(1) *Pie pieces; and wedges.* The units are reasonably uniform in tenderness and texture; are practically free from any tough (or "leathery") units; and there is no more than moderate disintegration except for small pieces that may have been present.

(2) *Flakes.* The units are reasonably uniform in tenderness and texture; are practically free from any tough (or "leathery") units; and there may be considerable distintegration of the pieces but not to the degree of a grainy applesauce consistency.

(3) *Sauce pieces.* The mass has a reasonably uniform texture and finish ranging from that of a coarse, grainy applesauce to a fine, grainy applesauce, without practically any hard particles.

(b) *(B) classification.* If the dehydrated apples possess a reasonably good texture, a score of 14 to 16 points may be given. Dehydrated apples that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product. "Reasonably good texture" means that the units need not be free-flowing but are brittle; and, upon cooking in accordance with the methods outlined in this subpart, the textures of the respective styles are as follows:

(1) *Pie pieces; and wedges.* The units are fairly uniform in tenderness and texture but moderately free from any tough (or "leathery") units; and there may be more than moderate disintegration except for small pieces that may have been present.

(2) *Flakes.* The units are fairly uniform in tenderness and texture but moderately free from any tough (or "leathery") units; and the pieces may have become disintegrated to the degree of a grainy applesauce consistency.

(3) *Sauce pieces.* The mass has a fairly uniform texture and finish ranging from that of a coarse, grainy applesauce to a fine, grainy applesauce; and hard particles may be noticeable but not objectionable.

(c) *(SStd) classification.* Dehydrated apples that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSES

§ 52.2350 *Explanations of methods and analyses.* (a) "Moisture" in the dehydrated apples is determined in accordance with the official method applicable to dried fruits as outlined in the "Official Methods of Analysis of the Association of Official Agricultural Chemists."

(b) The methods for cooking to ascertain compliance with requirements for color and texture are as follows for the respective styles; a representative sample of not less than 2 ounces avoirdupois to approximately 4 ounces avoirdupois is recommended for purposes of the cooking tests which follow:

(1) *Pie pieces.* Add 1 part, by weight, of pie pieces to 6 parts, by weight, of water just below the boiling point; cover, bring to a boil, and simmer for 20 minutes.

(2) *Flakes.* Add 1 part, by weight, of the flakes to 5 parts, by weight, of water just below the boiling point; cover, bring to a boil, and simmer for 15 minutes.

(3) *Wedges.* Add 1 part, by weight, of the wedges to 6 parts, by weight, of water just below the boiling point; cover, bring to a boil, and simmer for 30 minutes.

(4) *Sauce pieces.* Add 1 part, by weight, of the sauce pieces to 8 parts, by weight of water just below the boiling point; cover, bring to a boil, and simmer for 15 minutes.

(c) The technique for ascertaining compliance with the requirements for pieces that pass through U. S. Standard No. 4, No. 8, and No. 16 sieves is as follows:

(1) *Pie pieces.* (i) From a 4-ounce representative sample of dehydrated apple "pie pieces," remove all pieces which are ¾-inch or more in their longest dimension;

(ii) Place the remaining pieces on a U. S. Standard No. 4, 8-inch diameter, full-height sieve nested on top of a U. S. Standard No. 8, 8-inch diameter, full-height sieve to which a bottom pan has been attached;

(iii) Place the assembly on a smooth level surface and with a steady, fairly rapid sieving motion, move the assembly approximately 20 inches in a straight line and return to its original position, repeating the movement 20 times;

(iv) Weigh the fine material sifted through to the bottom pan and calculate on the basis of the original sample (under subdivision (i) of this subparagraph) as the percentage which passed through the No. 16 sieve; and

(v) Weigh the material sifted through the No. 8 sieve and remaining on the No. 16 sieve; calculate on the basis of the original sample (under subdivision (i) of this subparagraph) and add the percentage which remained on the No. 16 sieve to the percentage which passed through the No. 16 sieve (under subdivision (iv) of this subparagraph) as the total percentage which passed through the No. 8 sieve.

(2) *Flakes.* (i) From a 4-ounce representative sample of dehydrated apple "flakes" remove all pieces which are ¾-inch or more in their longest dimension;

(ii) Place the remaining sample on a U. S. Standard No. 8, 8-inch diameter, full-height sieve nested on top of a U. S. Standard No. 16, 8-inch diameter, full-height sieve to which a bottom pan has been attached;

(iii) Place the assembly on a smooth level surface and with a steady, fairly rapid sieving motion, move the assembly approximately 20 inches in a straight line and return to its original position, repeating the movement 20 times;

(iv) Weigh the fine material sifted through to the bottom pan and calculate on the basis of the original sample (under subdivision (i) of this subparagraph) as the percentage which passed through the No. 16 sieve; and

(v) Weigh the material sifted through the No. 8 sieve and remaining on the No. 16 sieve; calculate on the basis of the original sample (under subdivision (i) of this subparagraph) and add the percentage which remained on the No. 16 sieve to the percentage which passed through the No. 16 sieve (under subdivision (iv) of this subparagraph) as the total percentage which passed through the No. 8 sieve.

(3) *Sauce pieces.* (i) From a 4-ounce representative sample of dehydrated apple "sauce pieces" remove all pieces which will not pass through 0.446-inch square openings;

(ii) Place the remaining sample on a U. S. Standard No. 8, 8-inch diameter, full-height sieve nested on top of a U. S. Standard No. 16, 8-inch diameter, full-height sieve to which a bottom pan has been attached;

(iii) Place the assembly on a smooth level surface and with a steady, fairly rapid sieving motion, move the assembly approximately 20 inches in a straight line and return to its original position, repeating the movement 20 times;

(iv) Weigh the fine material sifted through to the bottom pan and calculate on the basis of the original sample (under subdivision (i) of this subparagraph) as the percentage which passed through the No. 16 sieve; and

(v) Weigh the material sifted through the No. 8 sieve and remaining on the No. 16 sieve; calculate on the basis of the original sample (under the foregoing subdivision (i) of this subparagraph) and add the percentage which remained on the No. 16 sieve to the percentage which passed through the No. 16 sieve (under subdivision (iv) of this subparagraph) as the total percentage which passed through the No. 8 sieve.

LOT CERTIFICATION TOLERANCES

§ 52.2351 *Tolerances for certification of officially drawn samples.* (a) When

certifying samples that have been officially drawn and which represent a specific lot of dehydrated apples the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if with respect to those factors which are scored:

(1) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(4) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

[7 CFR Part 927]

[Docket No. AO 71-A25]

HANDLING OF MILK IN THE NEW YORK METROPOLITAN MILK MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 5th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the findings, conclusions and proposed amendment hereinafter set forth were formulated, was conducted at Utica, New York during the period October 19 through November 20, 1953, and at Albany, New York on November 23 and 24, 1953, pursuant to notice thereof issued on October 6, 1953 (18 F. R. 6457).

All of the material issues considered at the hearing relate to the classification and pricing of milk now in Class III (plus the question of eliminating existing differences between Class II and Class III in the nonfat dry milk solids market quotations and yield factors used). Such issues are concerned with:

1. The level of the Class III price and the pricing of those portions of Class III milk used for butter, cheese and candy products.

2. Whether the Boston weighted average cream price should continue to be used during the months of August through February in the pricing of all or a portion of the Class III milk.

3. Whether different market quotations and yield factors for nonfat dry milk solids should be used in the pricing of Class III milk, and whether such factors should be uniform for both Class II and Class III.

4. Pricing Class III milk on the basis of prices paid at selected Midwest condenseries.

5. Making provision in the order for separate allowances to handlers for Class III milk transferred from receiving plants to manufacturing plants.

6. Adoption of a so-called "flexible pricing plan."

Findings and conclusions. The findings and conclusions hereinafter set forth are based upon the evidence in the record of the hearing and relate only to the above listed issues numbered 1 and 2. Findings and conclusions concerning the remaining issues (3 through 6) are being deferred temporarily in order to expedite final action of issues 1 and 2. In arriving at the findings and conclusions herein official notice is being taken of (1) announcements of the United States Department of Agriculture issued on February 15 and 18, 1954, relating to the dairy price support level and the prices at which dairy products will be purchased by the Commodity Credit Corporation during the period April 1, 1954, through March 31, 1955, (2) monthly announcements for months since September 1953 issued to date by the market administrator showing class prices, product prices used in calculating class prices, the uniform price, receipts of pool milk and utilization, (3) announcement by the market administrator on December 29, 1953 of the estimated monthly production of pool milk and Class I-A and uniform prices for the first half of 1954, and (4) provisions for the pricing of Class II milk under Orders No. 4 and 61 regulating the handling of milk in Boston and Philadelphia.

Issues 1 and 2. It is concluded with respect to these issues that:

(1) The general level of the Class III price should be reduced 10 cents per hundredweight for the months of May and June 1954.

(2) The butter-cheese adjustment should be revised to provide a downward adjustment during the months of March through July in the price of milk for American cheese in the event of an unusually low market price for cheese in relation to the market price for butter and nonfat dry milk solids.

(3) No additional separate adjustment should be made in the price established for milk used for butter or for milk chocolate and other candy products.

(4) Use of the Boston weighted average cream price in the pricing of Class III milk during the months of August through February should be discontinued, but in lieu thereof, an additional 3 cents (total of 5) should be added to the market price of butter used in pricing Class III milk during any of the months of August through February for which the utilization adjustment percentage is 92 or higher.

The prospective volume of Class III milk during the months of seasonally highest production this year is larger than in 1953. For the months of January and February 1954 (the latest months for which data are available) the volume of pool milk was about 5 percent larger than a year earlier. The volume of Class III milk in those months was larger by 23 and 27 million pounds, respectively, than in January and February 1953. The estimate of the market administrator released December 29, 1953, is that the volume of pool milk in each of the months of May and June this year will be approximately 40 to 45 million pounds larger than in the same month in 1953. With no apparent indication of significantly larger volumes being utilized in Class I and II, indications are that the volume of Class III milk during the peak production season this year will be substantially larger than last year.

Numerous cooperative and proprietary handlers reported experiencing considerable difficulty in disposing of Class III milk during the flush season of 1953, at which time the volume to be disposed of was considerably larger than previously, but less than in prospect for this year. Handling charges obtained on milk for fluid use, both in the spot market and for contract sales, appear to have been at unusually low levels during the first half of 1953. Handlers attributed this condition, at least in part, to the inability to arrange for the disposition of Class III milk on more favorable terms. With the additional volume of Class III milk in prospect this year, a lower Class III price during the period of peak production this year appears necessary in order to avoid a considerable degree of disorder in the disposition of all milk in excess of fluid requirements.

The disposition of Class III milk in competition, both with unregulated milk and with milk for which a lower minimum price is established under other orders, was reported to be one of the problems involved. In this connection, recognition is given to recently adopted or recommended amendments to Orders No. 4 and 61 for Boston and Philadelphia, respectively, under which minimum prices established for milk for manufacturing probably will be somewhat lower during the present flush season than the Class III price as now established. The prices established by State agencies for milk in manufacturing uses and disposed of in competition with Class III milk in most instances are lower than the Class III price under Order No. 27. The price adjustment herein recommended for May and June will bring the price for Class III milk more nearly in line with the minimum prices established under these other orders.

Recognition is also given to the somewhat larger margin for handling and processing contemplated under the 1954–1955 price support program for milk and butterfat than under the 1953–1954 program. The Class III price adjustment herein provided will result in a correspondingly larger margin between the minimum producer price and the market price of manufactured products during the period when the largest volume of Class III milk is utilized in those manufactured products which are purchased under the price support program. This record provides no basis however for concluding that lower prices should be provided for Class III milk other than for the flush production season this year. Whether or not a similar price adjustment should be applicable during the flush season of 1955 cannot be determined on this record.

It was contended at the hearing that failure to price milk utilized for the manufacture of American cheese more nearly in line with the market price of cheese constituted a handicap to the disposition of milk for use in cheese. It was proposed that milk used in the manufacture of American cheese be priced on the basis of cheese price quotations on the Wisconsin Cheese Exchange. It was contended that cheese made from pool milk customarily is sold on the basis of such quotations. Evidence was not presented to show the actual price at which cheese made from pool milk is sold and it was not established that such price bears any fixed or constant relationship to the price on the Exchange. Consequently, it cannot be concluded that the Exchange price constitutes a true indicator of the value of pool milk for cheese. It it recognized, however, that it is necessary for a portion of the Class III milk to be manufactured into American cheese during months of hightest production.

There appears to be no necessity for establishing a price for milk used for cheese lower than for milk used for butter and nonfat dry milk solids over any extended period of time. Although averaging about the same over long periods of time, there frequently are periods of several months during which there is considerable difference between the unregulated prices paid for milk at creameries and the prices paid at cheese factories in the same general competitive area. This fact was cited at the hearing in support of the proposal to establish a separate classification for milk used for American cheese and for pricing it on the basis of the market price of cheese independent of the price established for milk utilized for butter and nonfat dry milk solids. The order now provides, by means of the butter-cheese adjustment, for pricing milk at the same level when used either for cheese or for butter and for pricing milk for both uses at a moderately higher level whenever the market price of cheese is unusually high in relation to the market price of butter and nonfat dry milk solids.

Producers would not be receiving the full value of the milk, however, if milk for cheese was priced lower than for butter during those periods when all of the milk could be used for butter. On the other hand, during months of highest seasonal production when it is necessary to utilize pool milk in both butter and cheese there appears to be merit in the proposal to relate prices established for milk used for cheese more closely than at present to the market price for cheese. Accordingly, the butter-cheese adjustment provision should be revised to provide a price for milk made into cheese lower than for butter and nonfat dry milk solids during the months of March through July if during such months the market price for cheese is unusually low in relation to the market price for butter and nonfat dry milk solids. The amendment herein set forth provides that for each 0.05 of a point by which the normal ratio of 2.5 is lower than the ratio existing for the current month of the market price for butter and nonfat dry milk solids to the price of cheese there shall be a reduction of 1 cent per pound of butterfat in the price otherwise established for milk utilized for cheese. This will provide a relatively prompt downward adjustment in the price for milk used for cheese whenever the price of cheese becomes relatively low, and such adjustment will be at double the rate at which the price of milk both for butter and cheese is now increased when the market price of cheese is unusually high in relation to butter and nonfat dry milk solids. The market prices of butter and nonfat dry milk solids in relation to the market price of cheese has not deviated from the ratio of 2.5 during any month since November 1952. The ratio was less than 2.5 during the months of September, October, and November 1952 resulting in a slight increase in the price of milk for butter and cheese during those months. The only time during the past three years when the ratio was higher than 2.5 was during the period November 1951 through March 1952. Being applicable only during the months of March through July, the proposed new provision would have operated to reduce the price only during the month of March 1952.

Except for this revision in the butter-cheese adjustment, designed to facilitate the utilization of milk for cheese at times when such utilization is necessary, there should be no change in relationship between the price established for milk for butter and cheese and the price established for other Class III uses. Any further widening of the differential between the price of milk for butter and cheese and the price of other Class III milk, as would result, for example, from adoption of the proposal to discontinue adding 2 cents to the butter price in calculating the price of milk for butter, would have the undesirable effect of making the utilization of milk in butter and cheese more advantageous than at present in relation to other Class III uses. The adjustments herein provided effecting the general level of the Class III price apply, of course, to milk used for butter, and appear to constitute a more appropriate means of adjusting the price of milk for butter than to change the present pricing arrangement in a way which might result in unnecessary shifts of milk to butter from other Class III uses.

A proposal was considered at the hearing that the price for milk used for milk chocolate and other candy products be established at the same level as for butter and cheese. It was contended in support of the proposal that milk solids and butterfat in concentrated form are available from Midwest plants (condenseries) operated by the proponent chocolate manufacturer at a price about 15 cents below the price paid a pool plant handler for fresh bulk whole fluid milk. The reported comparative cost of concentrated supplies from plants of the same company was not shown to have been arrived at in a manner suitable for use as a basis for pricing pool milk. Such comparative cost apparently was calculated from an assigned cost of such milk to the shipping plant of less than the price paid to farmers at the plant. It was characterized by the proponent as extra milk "dumped" on the market for whatever they could get. There would be no apparent stopping point if pool milk was to be priced on that basis. It was not shown that, except for such "dumped" milk, that alternative supplies are available for chocolate manufacture at prices below the full Class III price. If they are, there appears to be no reason why such supplies are available only to chocolate manufacturers, and not to such other users of Class III milk as ice cream manufacturers. The record does not justify a provision pricing milk for milk chocolate and other candy products lower than for other Class III uses particularly in view of the overall reduction in price applicable in May and June.

The rejection, except to the limited extent herein provided, of proposals for the pricing of certain uses of Class III milk independently is largely in recognition of the manner in which milk in excess of fluid requirements has been utilized since the present pricing system was adopted in 1949. The volume of Class III milk in 1953 was 1,719 million

pounds larger than the volume of pool milk in equivalent uses in 1948, an increase of about 110 percent. A reduction from 1948 to 1953 of 20 million pounds in the volume of milk used for storage cream means that the volume in other uses was 1,739 million pounds larger in 1953 than in 1948.

Increases in volumes for other uses from 1948 to 1953 were (in millions of pounds): for fluid cream outside the marketing area—from 161 to 715, an increase of 344 percent; for ice cream—from 337 to 770, an increase of 128 percent; cream cheese—from 21 to 111, an increase of 429 percent; for whole milk products other than American cheese—from 387 to 423, an increase of 9 percent; for Cheddar cheese—from 185 to 299, an increase of 62 percent; and for butter—from 131 to 643, an increase of 391 percent.

Nearly two-thirds of the increase in volume has gone into uses to which the full Class III price applies. Nevertheless, there has been a marked increase in the actual volume used for butter and cheese. The proportion of all Class III milk used for butter and cheese increased from about 20 percent in 1948 to about 29 percent in 1953. Actual volume in these uses was about 3 times larger in 1953 than in 1948. Milk for fluid cream has increased about 4½ times and in terms of actual volume is greater than the increase in the volume used for butter. Ice cream constitutes the largest single outlet for Class III milk and the volume so used has more than doubled since 1948. The increase in actual volume, however, has been less than for butter. The volume of pool milk used for ice cream in 1953 in relation to the volume of ice cream produced in the Northeast is much larger than in 1948 and has increased in 1953 after dropping slightly in 1951 and 1952 from the levels of 1949 and 1950. In spite of the rather substantial gains in expanding outlets for Class III milk in uses yielding a higher return to producers than for milk used for butter and cheese, the fact that a larger proportion of the Class III milk was used for butter and cheese in 1953 than in 1948 does not appear to support a pricing program under which economic incentives for utilizing Class III milk for other than butter and cheese would be reduced.

The conclusion to eliminate use of the Boston weighted average cream price in establishing the price of Class III milk during the months of August through February has been reached primarily on evidence indicating that it does not constitute a satisfactory measure of the value of Class III milk under existing conditions.

The Boston weighted average cream price has been used in calculating the Class III price on the belief that it was the best available measure of the value of Class III butterfat during periods when milk in excess of fluid requirements is in relatively short supply. It does not appear, however, that the Boston weighted average cream price serves that purpose satisfactorily with the increase in the volume of Class III milk recently prevailing and in prospect for this year. The volume of Class III milk during the months of August through February has increased materially while at the same time the volume of cream used in computing the Boston weighted average has declined. During the period August through February 1952–1953 and 1953–1954, the volume of Class III milk was 38 and 52 percent, respectively, higher than for the same period 1950–1951. The volume of Class III milk used in butter was about ten times larger during the period August through February 1952–1953 than for the same period 1950–1951. The volume of cream in the Boston weighted average declined nearly 50 percent during the three year period and for the months of August through February 1952–1953 represented a milk equivalent only about one-fourth as large as the volume of pool milk used for butter.

Notwithstanding, this material increase in the volume of Class III milk, however, and the decline in the volume of cream in the Boston weighted average, the price per pound of butterfat based on the Boston weighted average cream price averaged about 4 cents higher that the Class III formula price per pound of butterfat based on butter during the period August 1952 through February 1953. It was during this period particularly that handling margins on milk for fluid purposes were reported to have been depressed. Handlers also reported considerable difficulty in disposing of Class III milk on reasonable terms during this period.

Again during the period August 1953 through February 1954, the volume of Class III milk was at a relatively high level and greatly exceeded the milk equivalent of cream used in computing the Boston weighted average cream price. For three of those months no Boston weighted average was published due to the extremely small volume of cream traded in the Boston market. Instead of being higher than the price of butterfat in butter, as was the case during the last half of 1952, the price of butterfat in Boston cream averaged slightly less during the months August 1953 through February 1954 than the price of butterfat in butter. This change in relationship in 1952–1953 makes it appear extremely doubtful that the Boston weighted average cream price continues to reflect the value of Class III milk with a reasonable degree of accuracy under existing conditions. Fluctuations in the margin in the price of butterfat reflected in the Boston weighted average cream price over the price of butterfat in butter do not appear to coincide with changes in the market value of most of the products for which Class III milk is utilized. Uncertainty as to what this relationship will be from one month to the next under a given set of circumstances was reported to have an adverse effect upon efforts to maintain and expand outlets for Class III milk, particularly for use in ice cream.

The disadvantages of retaining the Boston weighted average cream price as a basis for pricing that portion of Class III milk used for fluid cream outside the marketing area, as distinguished from Class III milk for other uses, appear to out-weigh the advantages to be derived. Such modification was suggested at the hearing. It was not established, however, that the Boston weighted average cream price can be relied upon to reflect the value of Class III milk for fluid cream more accurately than for other purposes. Furthermore, it was shown that such a pricing arrangement would tend to jeopardize outlets for Class III milk for reasons associated with the necessity thus created for more complete verification of utilization at nonpool plants utilizing Class III milk. Although difficult to measure with accuracy, it is concluded that this factor could reasonably be expected to virtually offset any minor enhancement in returns to producers which would result from use of the Boston weighted average in establishing the price of milk used for fluid cream.

Even though the Boston weighted average cream price is found to be no longer suitable for the purpose, some provision should be made in the order for reflecting the higher value of Class III milk which appears to be obtainable at times when there is a smaller volume of Class III milk to be disposed of. While other factors may be involved affecting the marketability of Class III milk, the volume to be disposed of appears to be one of the major factors in determining the price obtainable. With the volume of Class III milk which prevailed prior to 1952 the price established for Class III milk during the months of August through February was somewhat higher than would have resulted from the use of New York 92-score butter plus 2 cents, the level at which it was priced during the months of March through July. The average premium over butter plus 2 was equivalent to slightly more than 3 cents per pound of butter for the August through February periods ending in 1951 and 1952.

During those years, however, the outlets for Class III milk continued to expand and the difficulties experienced in disposing of Class III milk were less pronounced than during the past two years when the volume of Class III milk became substantially higher. The larger volume of Class III milk which has prevailed in 1952 appears to be associated with marketing conditions under which it is difficult to obtain as high a price for Class III milk as formerly. Under these circumstances, it appears appropriate to make provision for increasing the price of Class III milk by the addition of an additional premium over the market price of butter whenever the volume of Class III milk approximates the level prevailing during the years 1950 and 1951.

As a means of effectuating that principle, it seems appropriate to relate the price of Class III milk during the months of August through February to the utilization adjustment percentage which is now used in calculating the price of Class I–A milk. This percentage reflects the relative volume of pooled milk in excess of Class I uses, and is announced for each month by not later than the 25th day of the preceding month. Calculation of a separate Class III percentage by omission of the percentage of milk utilized in Class II would make no significant difference in the result obtained. The utilization adjustment percentages for the months of August through February ending in 1951–1952 averaged slightly in excess of 92. There has been no month since February 1952 for which the utilization adjustment percentage has been as high as 92. There were nine months during the 2-year period ending in February 1952 for which the utilization adjustment percentage was 92 or higher. Accordingly, it is concluded that an additional 3 cents, or a total of 5 cents, should be added to the New York market price for 92-score butter during any of the months of August through February for which the utilization adjustment percentage is 92 or higher. This should result in a Class III price during the month of August through February averaging about the same as in 1950 and 1951 in relation to the market price of butter, while at the same time eliminating the unpredictable month to month fluctuations in relation to the market price of butter.

General findings. (a) The tentative marketing agreement and the order as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of interested persons. The briefs contained suggested findings of facts, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

Recommended marketing agreement and order. The following amendments to the order are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The proposed amendments to the tentative marketing agreement are not repeated in this decision because the regulatory provisions thereof would be the same as those contained in the order with the following amendments:

1. Amend § 927.40 (f) to read as follows:

(f) For Class III milk, the price shall be the sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph minus 80 cents: *Provided*, That for the months of May and June 1954 an additional 10 cents shall be subtracted from such sum.

(1) To the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) reported during such month by the United States Department of Agriculture for Grade A (92-score) bulk creamery butter in the New York City market, add two cents and multiply by 1.22: *Provided*, That for any of the months from August through February for which the utilization adjustment percentage announced pursuant to § 927.46 (a) (2) is 92 or larger, there shall be an additional three cents added to such average butter price.

(2) Multiply by 7.8 the weighted average, as computed by the market administrator using a weight of 70 for roller process prices and a weight of 30 for spray process prices, of the prices per pound of roller process and spray process nonfat dry milk solids, for human consumption in carlots f. o. b. manufacturing plants in the Chicago area, as published by the United States Department of Agriculture for the period from the 26th day of the immediately preceding month through the 25th day of the current month.

2. Amend § 927.43 by adding after the first proviso therein, the following: "*Provided further*, That for milk received from producers during any of the months of March through July which is classified on the basis of one of the types of cheese named in this section, the amount so credited shall be increased one cent per pound of butterfat for each five hundredths by which the ratio of 2.5 is lower than the ratio computed pursuant to the first proviso of this section."

3. Amend paragraph (b) of § 927.46 by deleting subparagraph (5) thereof, and by renumbering other subparagraphs accordingly.

Filed at Washington, D. C., this 24th day of March 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54-2207; Filed, Mar. 26, 1954; 8:50 a. m.]

[7 CFR Part 949]

[Docket No. AO-232-A-2]

HANDLING OF MILK IN SAN ANTONIO, TEXAS, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO THE TENTATIVE MARKETING AGREEMENT AND TO THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at San Antonio, Texas, on January 11–12, 1954, pursuant to notice thereof which was issued on January 6, 1954 (19 F. R. 71).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Production and Marketing Administration, on March 2, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision and opportunity to file written exceptions thereto which was published in the FEDERAL REGISTER on March 5, 1954 (19 F. R. 1252).

Within the period reserved, no exceptions were filed to the findings, conclusions and actions recommended by the Deputy Administrator.

The material issues of record were concerned with:

1. The pricing of Class I milk, and

2. The classification and pricing of milk presently classified as Class II milk.

A decision of the Secretary of Agriculture issued January 28, 1954 (19 F. R. 561) and subsequent amendment to the order disposed of the issue concerned with the pricing of Class I milk and that portion of the issue concerned with the pricing of Class II milk which related to the pricing of milk disposed of for the manufacture of cheddar cheese through July 1954.

Findings and conclusions. The findings and conclusions with respect to the material issues herein decided, all of which are based on the evidence introduced at the hearing and the record thereof, are as follows:

1. The Class II pricing provisions of the order should be modified to promote more orderly marketing of reserve supplies of producer milk.

The present Class II pricing provisions of the order have hindered the maximum utilization of available supplies of producer milk by handlers in the San Antonio market. On a market wide basis, the supply of producer milk has been extremely short in relation to Class I sales. In spite of this fact, some handlers have at times refused to accept all of the milk from producers and transferred the burden of finding outlets to individual producers or their cooperative association. Handlers have procured other source milk for Class II usage at the same time producer milk has been refused.

Receipts of producer milk during the last six months of 1953 exceeded receipts during the corresponding period a year ago by more than 15 percent. Class I sales remained at about the same level. With indications that reserve supplies will be much larger during the spring and summer months than in the past, a separate lower price for milk used for cheddar cheese was incorporated in the order (19 F. R. 575) for a limited period of 1954. At the same time Class I prices were reduced. This emergency action was taken to encourage greater usage of producer milk in Class I and to facilitate the disposal of reserve producer milk

which must be marketed outside of normal marketing channels. The present Class II pricing formula was included in the order when it was promulgated in 1952. At that time the market was extremely deficient in local producer milk. The record indicates that with increased production, a somewhat lower level of Class II prices will contribute to the full marketing of producer milk by handlers and the maximizing of returns to producers. Milk that now may be temporarily diverted to cheese plants at relatively low prices could be used by handlers at the regular Class II price.

The principal Class II uses for reserve milk by handlers are in ice cream, condensed skim milk, cottage cheese, and butter. Because of past shortages of locally produced milk, few handlers now have condensing facilities or cottage cheese equipment. Handlers testified that milk ingredients for ice cream, frozen desserts, and cottage cheese were purchased from outside sources at less than order prices. Considerable quantities of reserve producer milk could be utilized by handlers in place of other source milk in meeting their requirements for these products. With a general trend to higher receipts of producer milk and the presence of some reserve supplies above Class I sales, it is necessary to readjust the level of Class II prices to afford producers an outlet for these supplies through handlers' fluid milk plants.

The record shows that a butter and nonfat solids formula is an appropriate basis for reflecting changes in Class II prices in this market during most of the year. However, there is some problem in pricing on this basis during the flush production season. The record indicates that manufacturing milk prices rather than dairy product prices may be a more appropriate basis of pricing during this season of the year.

For the immediate future, the problems of pricing Class II milk in this market are those of (1) a closer alignment of butterfat prices with prices at which handlers can procure butterfat from outside sources and (2) a closer alignment of whole milk prices with competitive manufacturing prices particularly during the flush production season.

This may be accomplished by modifying the butterfat component of the present Class II butter and nonfat solids formula and by applying prices paid by manufacturing plants for ungraded milk during April through June of each year.

Producers proposed that the present Class II butter and nonfat solids formula be amended to reduce the price for 4.0 percent milk approximately 38 cents per hundredweight based on the 1953 level of butter prices.

The butterfat component of the present formula price for 4.0 percent milk is derived by subtracting three cents from the Chicago wholesale 92-score butter price and multiplying by a factor of 4.8. The Class II butterfat differential is 0.120 times the price of butter.

The record indicates that the present factors for determining butterfat values results in prices for butterfat at considerably higher levels than butterfat can be procured from outside sources or at which it could be disposed of by handlers to local unapproved plants. It is concluded that the Clas II pricing formula should be changed by using the 92-score butter price multiplied by a factor of 4.4 for the period of July through March. At the current level of butter prices, this change will have the effect of reducing the Class II formula price for 4.0 percent milk during these months approximately 12 cents per hundred.

During the months of April through June the Class II price should be the average price paid dairy farmers for ungraded milk of 4.0 percent butterfat content by the following Texas manufacturing plants:

Carnation Company, Sulphur Springs, Tex.
The Borden Company, Mount Pleasant, Tex.
Lamar Creamery, Paris, Tex.

These plants are located in Northeastern Texas and are used in certain months as a basis for pricing Class II milk under the North Texas Order (943). One of these plants disposes of ice cream mix and other products in the San Antonio area in direct competition with regulated handlers. There are no sizable manufacturing plants located in the San Antonio area which engage in manufacturing operations and procure a major portion of their supplies of milk from ungraded dairy farmers. There are plants, in this general area, however, which purchase graded surplus milk from other markets and small quantities of ungraded milk from farmers. These plants are available sources of cream and nonfat solids for handlers. The record contains little or no information, however, with respect to prices paid for milk at such plants.

As a further means of assuring appropriate prices for Class II milk, provision should be made to apply the three-plant manufacturing milk price in any month that it is higher than the price resulting from the butter and nonfat milk solids formula.

The adoption of the paying price of the above stated plants during the months of April through June of 1953 would have reduced the Class II price for 4.0 percent milk from $3.85 to $3.38 per hundredweight, a reduction of 47 cents per hundredweight.

The average butterfat content of Class II producer milk has been considerably above 4.0 percent. It has ranged from approximately 5.0 percent in the spring months to more than 10 percent in other months. Therefore, the Class II butterfat differential has a significant effect on the cost of Class II milk. The Class II butterfat differential should be reduced from 0.120 to 0.108 times the price of 92-score butter. This reduction in the butterfat differential will bring the price of butterfat derived from producer milk in close alignment with prices of butterfat procured in the form of cream from other sources.

It is concluded that the proposed changes will provide appropriate prices for Class II milk and promote more orderly marketing of reserve supplies of producer milk.

General findings. (a) The tentative marketing agreement and the order as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of January 1954, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area," and "Order Amending the Order, as amended, Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as amended, and as hereby proposed to be further amended by the attached order, which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of March 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] as Amended, Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area

§ 949.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to a tentative marketing agreement and to the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the said order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the San Antonio, Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of this order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended, as set forth below:

1. Delete § 949.53 and substitute therefor the following:

§ 949.53 *Class II milk.* The prices, rounded to the nearest full cent, for Class II milk shall be determined pursuant to paragraph (a) of this section for the months of April, May, and June and the higher of the prices determined pursuant to paragraphs (a) and (b) of this section for all other months: *Provided*, That from the effective date of this proviso through July 1954 the price for Class II milk disposed of for use in cheese other than cottage cheese shall be the simple average of the prices paid dairy farmers for milk containing 4 percent of butterfat delivered during the month for which prices are being computed to cheese plants located at Alice and Round Rock, Texas, and operated by the Fort Worth Poultry and Egg Company.

(a) The average of the basic or field prices per hundredweight reported to have been or to be paid for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the United States Department of Agriculture:

Carnation Co., Sulphur Springs, Tex.
The Borden Co., Mount Pleasant, Tex.
Lamar Creamery, Paris, Tex.

(b) The sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply by 4.4 the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month;

(2) From the average of the carlot prices per pound of nonfat dry milk solids for human consumption, spray process, f. o. b. manufacturing plants in the Chicago area as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the current month, subtract 5 cents, multiply by 8.16.

2. In § 949.54 (b) delete "0.120" and substitute therefor "0.108".

[F. R. Doc. 54-2166; Filed, Mar. 26, 1954; 8:47 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 703, 710]

PUERTO RICO; SPECIAL INDUSTRY COMMITTEE NO. 15

NOTICE OF HEARING ON MINIMUM WAGE RECOMMENDATIONS FOR CORSETS, BRASSIERES, AND ALLIED GARMENTS INDUSTRY; AND MEN'S AND BOYS' CLOTHING AND RELATED PRODUCTS INDUSTRY

MARCH 22, 1954.

The Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), on December 8, 1953, by Administrative Order No. 433 appointed Special Industry Committee No. 15 for Puerto Rico[1] to investigate conditions and to recommend minimum wages for employees engaged in commerce or in the production of goods for commerce in a number of industries in Puerto Rico including the Corsets, Brassieres, and Allied Garments Industry, and the Men's and Boys' Clothing and Related Products Industry.

The Committee included three disinterested persons representing the public, a like number representing employees in these industries, and a like number representing employers in these industries.

The Committee has defined and made separate minimum wage recommendations for each of these industries and the divisions thereof, and has duly filed reports containing their recommendations with the Administrator, pursuant to section 8 (d) of the act and § 511.9 of the regulations issued under the act.

The Administrator is required by section 8 (d) of the act, after giving due notice to interested persons and affording them opportunity to be heard, to approve and carry into effect each of the recommendations of the Committee if he finds that the recommendations are made in accordance with law, are supported by the evidence adduced at the hearing and, taking into consideration the same factors as are required to be considered by the industry committee, will carry out the purposes of section 8 of the act. If he finds otherwise, he is required to disapprove such recommendations.

[1] Published in the FEDERAL REGISTER December 11, 1953 (18 F. R. 8139), as amended by Administrative Order No. 434 (19 F. R. 72); Administrative Order No. 435 (19 F. R. 187); Administrative Order No. 437 (19 F. R. 356); and Administrative Order No. 439 (19 F. R. 839).

Now, therefore, notice is hereby given that:

A. The separate minimum wage recommendations of Special Industry Committee No. 15 for employees engaged in commerce or in the production of goods for commerce in the above-named industries in Puerto Rico are as follows:

Industry and Recommended Minimum

1. Corsets, Brassieres, and Allied Garments Industry, 55 cents an hour.
2. Men's and Boys' Clothing and Related Products Industry; a. Suits, Coats, and Jackets Division, 55 cents an hour.
b. Necktie Division, 55 cents an hour.
c. Hat and Cap Division, 55 cents an hour.
d. General Division, 47½ cents an hour.

B. The definitions of the above-named Industries in Puerto Rico (as set forth in Administrative Order No. 433) and of the separate divisions thereof, for which Special Industry Committee No. 15 for Puerto Rico has made the foregoing separate minimum wage recommendations, are as follows:

1. *Corsets, Brassieres, and Allied Garments Industry.* The manufacture of corsets, brassieres, brassiere pads, girdles, sanitary belts, foundation garments, and similar items.

After due consideration the Committee determined that no classification within the Corsets, Brassieres, and Allied Garments Industry in Puerto Rico was justified for purposes of the act.

2. *Men's and Boys' Clothing and Related Products Industry.* The manufacture from any material of men's and boys' clothing and related products, including, but without limitation, suits, coats, overcoats, trousers, shirts, underwear, nightwear, work clothing, sportswear (including bathing suits, riding habits and athletic uniforms), heavy outerwear, neckties, caps, hats (except hand-made straw hats), belts (except leather belts), robes and dressing gowns, raincoats, suspenders, garters, academic caps and gowns, vestments, costumes, and other items of apparel and accessories (except gloves, handkerchiefs, scarves and mufflers, hosiery and shoes).

The Committee recommended that the Men's and Boys' Clothing and Related Products Industry, as defined in Administrative Order No. 433, be divided into separable divisions for the purpose of fixing minimum wage rates, and that these separable divisions be entitled and defined as follows:

(a) *Suits, Coats, and Jackets Division.* The manufacture of men's, youths' and boys' suits, coats and jackets (except cotton work coats and jackets), overcoats, topcoats, fabric raincoats, and similar outerwear.

(b) *Necktie Division.* The manufacture of men's, youths' and boys' neckties.

(c) *Hat and Cap Division.* The manufacture of men's, youths', and boys' hats and caps.

(d) *General Division.* The manufacture of all products included in the Men's and Boys' Clothing and Related Products Industry in Puerto Rico, as defined herein, except those included in the Suits, Coats and Jackets Division, the Necktie Division, and the Hat and Cap Division, as defined herein.

C. The full texts of the reports and recommendations of Special Industry Committee No. 15 for Puerto Rico for each of the above industries will be available for inspection by any person between the hours of 9:00 a. m. and 4:30 p. m. at the following offices of the United States Department of Labor, Wage and Hour Division:

18 Oliver Street, Boston 10, Mass.
525 Lafayette Building, 437 Chestnut Street, Philadelphia 6, Pa.
216 Engineers Building, 1365 Ontario Avenue, Cleveland 14, Ohio.
600 Federal Office Building, 911 Walnut Street, Kansas City 6, Mo.
150 Fulton and Leavenworth Streets, San Francisco 2, Calif.
Fourteenth Street and Constitution Avenue NW., Washington 25, D. C.
900 U. S. Parcel Post Building, 341 Ninth Avenue, New York 1, N. Y.
1007 Comer Building, 2026 Second Avenue North, Birmingham 3, Ala.
105 West Adams Street, Chicago 3, Ill.
222 Fidelity Building, 1114 Commerce Street, Dallas 2, Tex.
United States Court House, 801 Broad Street, Nashville 3, Tenn.
412 New York Department Store Building, Post Office Box 9061, Santurce 29, P. R.

Copies of the Committee's reports and recommendations may be obtained by any person upon request addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., or the Wage and Hour Division, United States Department of Labor, Room 412 New York Department Store Building, Stop 16½ Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico.

D. Public hearings will be held at 10:00 a. m. on the dates and at the places set forth below before the Administrator of the Wage and Hour Division or a representative designated to preside in his place, for the purpose of taking evidence on the question of whether the separate recommendations of Special Industry Committee No. 15 for Puerto Rico set forth above shall be approved or disapproved.

Corsets, Brassieres, and Allied Garments Industry; April 27, 1954, in Room 5406, Department of Labor Building, Washington 25, D. C.

Men's and Boys' Clothing and Related Products Industry; May 5, 1954, in Room 5406, Department of Labor Building, Washington 25, D. C.

E. Any interested person supporting or opposing any of the recommendations of Special Industry Committee No. 15 for Puerto Rico which are set forth above may appear at any of the aforesaid hearings to offer evidence either on his own behalf or on behalf of any other person; provided that, not later than seven days preceding any hearing at which he intends to appear, such person shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., or the Office of the Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico, notice of his intention to appear which shall contain the following information:

1. The name and address of the person appearing;
2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing;
3. The recommendation or recommendations of Special Industry Committee No. 15 for Puerto Rico in which he is interested and whether he proposes to appear for or against such recommendation or recommendations;
4. The approximate length of time requested for his presentation.

Such notice may be mailed to either of the offices indicated above and will be considered as filed upon receipt.

F. The records made at the public hearing on conditions in the above named industries in Puerto Rico held before Special Industry Committee No. 15 in Santurce, San Juan, Puerto Rico may be examined at the Offices of the Wage and Hour Division, United States Department of Labor, at Fourteenth Street and Constitution Avenue NW., Washington 25, D. C., and Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico. The records of the public hearing before the Industry Committee with respect to each of the above named industries will be available for 30 days prior to the date fixed herein for the hearing on the Committee's recommendations for such industry. Such records for each industry will be offered in evidence at the appropriate public hearing before the Administrator or the his representative.

G. The hearings will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Presiding Officer (the Administrator or his authorized representative) as are deemed appropriate

1. The hearings shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, Constitution Avenue and Fourteenth Street NW., Washington 25, D. C
2. At the discretion of the Presiding Officer, the hearing may be continued from day to day or adjourned to a later date, or to a different place by announcement thereof at the hearing, or by other appropriate notice.
3. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the hearing has been closed, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.
4. All evidence must be presented under oath or affirmation.
5. Except as otherwise permitted by the Presiding Officer, written documents or exhibits submitted personally at the hearing must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof. Written, sworn statements may be filed any time prior to the date of hearing by persons who cannot appear personally.
6. Written documents and exhibits shall be tendered in quadruplicate. When evidence is embraced in a document containing matter not intended to be put in evidence, such document will not be received, but the person offering the same may present to the Presiding Officer the original document together with two copies of those portions of the document intended to be put in evidence.
7. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing shall be issued by the Administrator upon request and upon a timely showing, in writing, of the general relevance and reasonable scope of the evidence sought. Any person appearing in the proceeding may apply to the Administrator for the issuance of the subpoena. Such application shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.
8. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the Courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing a subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.
9. The rules of evidence prevailing in courts of law or equity shall not be controlling. However, it shall be the policy to exclude irrelevant, immaterial, or unduly repetitious evidence.
10. The Presiding Officer shall, upon request, permit any person appearing in the proceeding to conduct such cross examination of any witness offered by another person as may be required for a full and true disclosure of the facts, and to object to the admission or exclusion of evidence. Objections to the admission or inclusion of evidence shall be stated briefly with the reasons relied on. Such objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the Presiding Officer.
11. Before the close of the hearing, written requests shall be received from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matters in issue. If the Administrator, in his discretion allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceeding and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.
12. Briefs (4 copies) on particular questions may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.
13. (a) Where the hearing is held before the Administrator, within fifteen (15) days after the close of the hearing, any interested person appearing at the hearing may submit for the consideration of the Administrator an original and four copies of a statement, in writing, containing proposed findings and conclusions, together with supporting reasons therefor.

(b) Where the hearing is held before a representative of the Administrator designated to preside in his place, a complete record of proceedings shall be certified to the Administrator upon the close of the hearing. The Administrator shall thereupon issue a tentative decision in the matter, which shall become a part of the record and include therein (1) a statement of his findings and conclusions, as well as the reasons or basis therefor, upon all of the material issues of fact, law or discretion presented upon the record, and (2) the appropriate order. Notice of the Administrator's tentative decision shall be published in the FEDERAL REGISTER.

(c) Within fifteen (15) days after such notice of the Administrator's tentative decision is published in the FEDERAL REGISTER, any interested person appearing at the hearing may file with the Administrator a statement in writing (original and four copies) setting forth any exceptions he may have to such decision, together with supporting reasons for such exceptions.

(d) After the expiration of the fifteen-day periods referred to in paragraphs 13 (a) and (c) above, and after consideration of all relevant matter presented as provided in such paragraphs, the Administrator shall make his final decision in the matter, and shall issue an order approving or disapproving the recommendations of the Industry Committee. Such order shall be published in the FEDERAL REGISTER.

14. Any wage order issued as a result of hearings held hereunder shall take effect 30 days after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER, or at such time prior thereto as may be provided therein upon good cause found and published therewith.

Signed at Washington, D. C., this 22d day of March 1954.

WM R. MCCOMB,
Administrator,
Wage and Hour Division.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 22, 1954.

An application, serial number Los Angeles 0101904, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on February 25, 1953, by the Department of the Navy.

The purposes of the proposed withdrawal: Military training.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region II, Bureau of Land Management, Department of the Interior at 630 Sansome Street, San Francisco, California. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

T. 11 N., R. 10 W., S. B. M.
Sec. 18, All.

L. T. HOFFMAN,
Regional Administrator.

Office of the Secretary

[Order 2752]

FISH AND WILDLIFE SERVICE

DESIGNATION AND FUNCTIONS OF ACTING DIRECTOR

MARCH 22, 1954.

SECTION 1. *Succession.* (a) In the event of the absence, sickness, resignation, or death of the Director of the Fish and Wildlife Service, his duties shall be performed by an Assistant Director. If more than one Assistant Director is available the duties of the Director shall be performed by the Assistant Director whose appointment bears the earliest date.

(b) Albert M. Day, Assistant to the Director, shall perform the duties of the Director in the event of the absence, sickness, resignation or death of the Director and the Assistant Directors.

(c) Clarence Cottam, Assistant to the Director, shall perform the duties of the Director in the event of the absence, sickness, resignation or death of the Director, the Assistant Directors and Albert M. Day.

SEC. 2. *Title.* The officer performing under authority of section 1 of this order shall sign documents under the title "Acting Director."

SEC. 3. *Revocation.* Order No. 2743, dated January 7, 1954 (19 F. R. 252), is hereby revoked.

(Reorganization Plan No. 3 of 1950, 16 F. R. 3174)

DOUGLAS MCKAY,
Secretary of the Interior.

WISCONSIN

ORDER RESTORING FORMER RAILROAD GRANT LANDS TO PUBLIC DOMAIN

Claims to the public lands in the State of Wisconsin within the limits of the grants made to the Northern Pacific Railroad, now Railway, Company by the act of July 2, 1864 (13 Stat. 365), and joint resolution of May 31, 1870 (16 Stat. 378), and acts amendatory thereof and supplemental thereto, the grants made to the State of Wisconsin by the acts of June 3, 1856 (11 Stat. 20), and May 5, 1864 (13 Stat. 66), and acts amendatory thereof and supplemental thereto, of which the Chicago, St. Paul, Minneapolis and Omaha Railway Company is successor in interest, the grants by these acts of which the Chicago and Northwestern Railway Company is successor, and the grant made by the act of June 3, 1856, and acts amendatory thereof and supplemental thereto of which the Wisconsin Central Railroad Company is successor, have been released under section 321b, Part II, Title III of the Transportation Act of 1940 (54 Stat. 954, 49 U. S. C. sec. 65), by the above-mentioned companies. Subject to existing valid rights and existing Forest and Indian and all other existing withdrawals and reservations, all of the lands, claims to which were released, located within the primary limits of the grants and such lands located in the indemnity limits for which selections were pending on September 18, 1940, are hereby made available for disposal, use and management under the public land laws in accordance with the terms of this order.

Applications for these lands under the homestead, small tract or other nonmineral public land laws will be allowed only if the land is classified pursuant to the application as valuable or suitable for the type of disposition applied for or has been previously so classified.

The lands restored include but are not limited to the following described tract: [1]

4TH P. M., WISCONSIN

T. 18 N., R. 17 E.,
Sec. 7, lot 6.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m., on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the office of the Regional Administrator, Region VI, Bureau of Land Management, Washington 25, D. C., shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Regional Administrator, Region VI, Bureau of Land Management, Washington 25, D. C.

ORME LEWIS,
Assistant Secretary of the Interior.

MARCH 23, 1954.

[F. R. Doc. 54-2163; Filed, Mar. 26, 1954; 8:46 a. m.]

[1] In the preparation of this order, no effort has been made to ascertain and describe each and every tract affected. Facilities were not available at this time for the compilation of a complete and accurate list of the lands affected.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10945]

CARTHAGE BROADCASTING CO.

NOTICE OF PREHEARING CONFERENCE

In re application of Lloyd C. McKenney & John J. Daly d/b as Carthage Broadcasting Company, Fort Scott, Kansas, Docket No. 10945, File No. BP-8948; for construction permit

Notice is hereby given to the above-named applicant and to William R. Tedrick, licensee of Station KWRT, Boonville, Missouri, that, pursuant to § 1.813 of the Commission's rules, a prehearing conference will be held at Washington, D. C., beginning at 10:00 a. m., Thursday, April 1, 1954, in regard to the above-entitled proceeding for the purpose of considering: The procedure to be followed in the hearing; the necessity or desirability of simplification, clarification, amplification or limitation of the issues; the possibility of stipulating facts and limiting the number of witnesses; the necessity or desirability of prior mutual exchange of exhibits among the parties; and such other matters as may be deemed helpful in the proceeding.

Dated at Washington, D. C., this 23d day of March 1954.

[Docket No. 10957]

CHECKER CAB & BAGGAGE CO.

ORDER TO SHOW CAUSE

In the matter of Checker Cab & Baggage Company, Houston, Texas, order to show cause why the license for radiotelephone Station KKB-843 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station KKB-843, licensed to Checker Cab & Baggage Company of Houston, Texas;

It appearing, that notice of violations of the Commission's rules in connection with the operation of the station was given the licensee as follows:

Notice dated January 25, 1954, specifying that an inspection of the station on January 18, 1954, indicated non-compliance with § 16.403 and 16.160 (a) and (b) in that the supervisor's car (#104) did not bear the name of the cab company and an appropriate number in the same type of printing as used on the cabs and the station records did not contain the required information concerning technical measurements and maintenance of the equipment.

It further appearing, that, despite further notice calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 16.159 of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 17th day of March 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Checker Cab & Baggage Company of Houston, Texas, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 17th day of May, 1954;

It is further ordered, That the Secretary send a copy of this Order by Registered Mail—Return Receipt Requested to the said Checker Cab and Baggage Company, P. O. Box 18104, Houston, Texas.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2188; Filed, Mar. 26, 1954; 8:50 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

[Docket No. 10958]

YELLOW CAB & TRANSFER CORP.

ORDER TO SHOW CAUSE

In the matter of Yellow Cab & Transfer Corporation, Houston, Texas, order to show cause why the license for Radiotelephone Station KKA 981 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station KKA 981 licensed to Yellow Cab & Transfer Corporation of Houston, Texas.

It appearing, that notice of violation of the Commission's rules in connection with the operation of the station was given the licensee as follows:

Notice dated January 25, 1954, specifying that an inspection of the station on January 18, 1954, indicated non-compliance with § 16.160 (a) and (b) in that the station records did not contain the required information concerning technical measurements and maintenance of the equipment;

It further appearing, that, despite further notice calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 16.159 of the Commission's rules, no explanation or other response has been received from the licensee;

It is ordered, This 17th day of March 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Yellow Cab & Transfer Corporation of Houston, Texas, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 17th day of May 1954;

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Yellow Cab & Transfer Corporation, P. O. Box 18104, Houston, Texas.

Released: March 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

DEPARTMENT OF COMMERCE

Federal Maritime Board

WATERMAN STEAMSHIP CORP. ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. Section 814.

(1) Agreement No. 7956, between Waterman Steamship Corporation and Black Diamond Steamship Corporation, covers the transportation of canned pineapple and pineapple juice under through bills of lading from the Hawaiian Islands to ports in the Netherlands, Belgium, and Germany, with transshipment at New York.

(2) Agreement No. 7967 between American President Lines, Ltd., and Alcoa Steamship Company, Inc., covers the transportation of general cargo under through bills of lading from Japan, China (including Hong Kong), India, Federation of Malaya, Colony of Singapore, and Indonesia to Puerto Rico with transshipment at New York. Agreement No. 7967 supersedes and cancels Agreement No. 7934.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: March 23, 1954.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

[F. R. Doc. 54-2176; Filed, Mar. 26, 1954; 8:48 a. m.]

FEDERAL DEPOSIT INSURANCE CORPORATION

DESCRIPTION OF ORGANIZATION

The Description of Organization (formerly contained in 12 CFR Part 302) has been amended to read as follows:

Sec.
1. Central organization.
2. Field organization.
3. Delegations of final authority.

SECTION 1. *Central organization—(a) Board of Directors.* (1) The Federal Deposit Insurance Act (64 Stat. 873; 12 U. S. C. 1811–1831) vests the management of the Federal Deposit Insurance Corporation (hereinafter referred to as the Corporation) in a Board of Directors consisting of three members. Two members are appointed by the President, by and with the advice and consent of the Senate for terms of six years. The Comptroller of the Currency is the other member by virtue of his office. One of the appointive members, designated by the Board of Directors, acts as its Chairman and presides at all its meetings. The Acting Comptroller of the Currency is a member of the Board in the place and stead of the Comptroller in the event of a vacancy in the office of the Comptroller, and pending the appointment of his successor, or during his absence from Washington, D. C. In the event of a vacancy in the office of the Chairman, and pending the appointment of his successor, the Comptroller of the Currency acts as Chairman. The Board of Directors is responsible for the performance of all duties and exercises all powers vested by law in the Corporation. The Board of Directors has assigned certain functions to the several officers, committees, and Divisions of the Corporation for the performance of which they are responsible to the Board.

(2) The principal office of the Corporation, and the offices of the members of the Board and of the Secretary of the Corporation, are located in the National Press Building, Fourteenth and F Streets NW., Washington 25, D. C.

(b) *Secretary.* The Secretary of the Corporation is the chief recording and custodial officer of the Board of Directors and of the Corporation, has legal custody of the seal of the Corporation, and is responsible for the maintenance and custody of the minutes and other official records of the Board, and, except as otherwise directed by the Board, the furnishing of notice of matters acted upon by the Board, the certification and ensealing of all resolutions, papers, and documents requiring certification on behalf of the Corporation or the affixation of its corporate seal, the issuance of certificates of membership, or duplicates thereof, to insured banks.

(c) *Committees.* (1) *Board of Review.* A Board of Review, consisting of a member of the Board of Directors and such staff members of the Corporation as are thereto appointed by the Board of Directors, has been established to consider recommendations from the Division of Examination relative to applications from banks for deposit insurance; for consent by the Corporation to retirement or reduction of capital, change of location of main office, establishment, operation, or change of location of branches, conversions into, mergers or consolidations with, or assumptions of deposit liabilities of, another bank or institution, transfers of assets to a noninsured bank or institution, extensions by State nonmember insured banks (except District banks) of corporate or charter powers, and to the service of bank directors, officers and employees convicted of certain offenses, and other similar requests; to consider recommendations to terminate the insured status of a bank, and to recommend to the Board of Directors the action to be taken thereon.

(2) *Committee on Liquidations, Loans, and Purchases of Assets.* A Committee on Liquidations, Loans, and Purchases of Assets, consisting of a member of the Board of Directors and such staff members of the Corporation as are thereto appointed by the Board, has been established to consider recommendations from the Division of Examination relative to applications by insured banks for financial assistance by means of loans to, or purchases of assets from, or deposits by the Corporation in insured banks, and recommendations from the Division of Liquidation relative to payment of insured deposits and liquidation activities, and to recommend to the Board of Directors the action to be taken thereon.

(3) *Special Committee.* A Special Committee, consisting of a member of the Board of Directors and such staff members of the Corporation as are thereto appointed by the Board, has been established to consider recommendations from the Legal Division with respect to legal matters requiring action of the Board, including applications for exemption from the advertising regulations of the Corporation, compromises or settlements of litigation in which the Corporation has an interest, claims by or against the Corporation which are not in connection with matters considered by the Committee on Liquidations, Loans, and Purchases of Assets, fixing of fees of attorneys retained by the Corporation; and to consider administrative procedure, rules, regulations, and forms of the Corporation, proposed changes in laws and regulations on assessment matters, instructions on preparation of certified statements and payment of assessments and problems of field audit of certified statements; and to consider recommendations from the several Divisions of the Corporation which are referred to it with respect to matters requiring Board action, except as otherwise prescribed by these rules; and to recommend to the Board of Directors the action to be taken thereon.

(d) *Divisions*—(1) *Division of Examination.* The Division of Examination, headed by a Chief, is responsible for the examination of insured State nonmember banks, State nonmember banks applying to become insured banks, closed insured banks, and for the special examination of other insured banks; reviews reports of such examinations as well as reports of examinations made by the office of the Comptroller of the Currency, in the case of national and District banks, and by the Federal Reserve banks, in the case of State member banks; advises, assists, and makes recommendations to, the Board of Directors with respect to any supervisory action pertaining to insured banks, including termination of insured status, applications for deposit insurance from noninsured State banks, proposed new State nonmember banks, and State member banks applying to be insured as State nonmember banks; applications for consent to the retirement or reduction of capital by State nonmember insured banks (except District banks),[1] the establishment and operation of branches by State nonmember insured banks (except District banks), the change of location of the main office, or any branch, by State nonmember insured banks, the extension by State nonmember insured banks (except District banks) of corporate or charter powers, the service of bank directors, officers and employees convicted of certain offenses, and the merger or consolidation with, or assumption of deposit liabilities of, another bank or institution and the transfer of assets to a noninsured bank or institution.

(2) *Office of the Controller.* The Office of the Controller, headed by a Controller, who is the chief financial, fiscal, and accounting officer of the Corporation, is responsible for the maintenance and custody of all accounting records, for prescribing accounting methods and procedures, for the custody, safekeeping, receipt, deposit, and disbursement of all funds of the Corporation and accountability therefor, for the custody of all assets other than those within the responsibility of the Chief of the Division of Liquidation, for supervision over and responsibility for the administration of assessment laws and regulations and for the supervision and direction of all personnel, budget, and services and supply functions of the Corporation.

(i) *Accounting and Budget Branch.* The Accounting and Budget Branch, headed by a Deputy Controller, is responsible for maintaining accounting records and developing accounting methods and procedures, for the collection and disbursement of funds and custody of assets, and for the preparation and administration of the Corporation's budget.

(ii) *Assessment Branch.* The Assessment Branch, headed by a Fiscal Agent, is responsible for the administration of assessment laws and regulations, for the receipt and desk audit of certified statements from insured banks certifying the amount of assessment due, for the collection of unpaid assessments and application of assessment credits, for review of field assessment audit reports and for the adjustment of assessment errors.

(iii) *Personnel Branch.* The Personnel Branch, headed by a Director of Personnel, supervises and advises with respect to procedures for personnel matters, including recruitment, appointment, placement, classification, promotion, training, payroll, leave, and retirement and maintains appropriate records pertaining thereto.

(iv) *Service Branch.* The Service Branch, headed by a Director of Services, supervises and advises with respect to the purchase of materials, supplies, and equipment for the central and field offices, and is responsible for general maintenance services for the Corporation.

(3) *Division of Liquidation.* The Division of Liquidation, headed by a Chief, supervises, is responsible for, and advises, assists, and makes recommendations to the Board of Directors with respect to payments to depositors of closed insured banks, the liquidation of national banks and insured State banks for which the Corporation is appointed receiver, the liquidation of closed insured banks for which the Corporation is not receiver and with respect to loans to, purchases of assets from, or deposits by the Corporation in, open or closed insured banks and the liquidation of assets acquired thereby.

(4) *Legal Division.* The Legal Division, headed by a General Counsel, advises and assists the Board of Directors and the several Divisions of the Corporation with respects to all legal matters concerning the functions, activities, and operations of the Corporation, including all litigation, correspondence of a legal character, interpretation of organic law and Federal and State laws applicable to or affecting the Corporation or its activities, and the preparation of rules, regulations, orders, opinions, and documents of a legal character.

(5) *Division of Research and Statistics.* The Division of Research and Statistics, headed by a Chief, provides economic counsel to the Board of Directors. It supervises, is responsible for, and advises and assists the Board of Directors with respect to continuing and special studies pertaining to deposit insurance, banking, finance, and economic matters, preparation of security analyses, collection, compilation, and interpretation of statistical data relating to the condition and operations of banks, and the preparation of the Annual Report of the Corporation to Congress.

(6) *Audit Division.* The Audit Division, headed by a Chief, conducts and is responsible for a continuous administrative audit of all fiscal and accounting activities of the Corporation and evaluation of internal audit and fiscal controls, the preparation of detailed and summary audit reports to the Board of Directors, and audits the books and records of insured banks pertaining to certified statements for assessment purposes.

(e) *Location of divisions.* All of the Divisions of the Corporation are located at the principal office of the Corporation, Fourteenth and F Streets NW., Washington 25, D. C.

SEC. 2. *Field organization*—(a) *District offices.* The United States is divided into twelve (12) Federal Deposit Insurance Districts. The Corporation maintains an office in each of such Districts. Each District office is headed by a Supervising Examiner who is appointed by the Board of Directors and functions under the supervision of the Chief of the Division of Examination. Each Supervising Examiner is assisted by a staff of examiners, assistant examiners, and clerical and stenographic employes. The Supervising Examiner supervises the examination by the Corporation of insured banks located within the States and Territories comprising the District, makes recommendations to the Chief of the Division of Examination with respect to applications from banks (or proposed banks) for deposit insurance, for consent to capital reduction or retirement, change of location of main office, establishment and operation or change of location of branches, extensions of corporate or charter powers, and mergers of insured with noninsured banks or institutions; and with respect to the termination of insured status of banks and other supervisory matters; and acts as the Corporation's representative in dealing directly with insured banks and State bank supervisory authorities in his District regarding bank supervisory matters. The location of the District offices and the States and Territories comprising each District are as follows:

District No., Address, Area in District

1. Room 1365, No. 10 Post Office Square, Boston 9, Mass., Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont.

2. Room 1900, 14 Wall Street, New York 5, N. Y., Delaware, New Jersey, New York, Puerto Rico, Virgin Islands.

3. City National Bank Building, 20 East Broad Street, Columbus 15, Ohio, Ohio, Pennsylvania.

4. 200 The Bank of Virginia Building, Fourth and Grace Streets, Richmond 19, Va., District of Columbia, Maryland, North Carolina, South Carolina, Virginia, West Virginia.

5. Fifth Floor, 114 Marietta Street, NW., Atlanta 3, Ga., Alabama, Florida, Georgia, Mississippi.

6. 1059 Arcade Building, St. Louis 1, Mo., Arkansas, Kentucky, Missouri, Tennessee.

7. 715 Tenney Building, Madison 3, Wis., Indiana, Michigan, Wisconsin.

8. 164 West Jackson Boulevard, Chicago 4, Ill., Illinois, Iowa.

9. 1200 Minnesota Building, St. Paul 1, Minn., Minnesota, Montana, North Dakota, South Dakota.

10. 1201 Federal Reserve Bank Building, Kansas City 6, Mo., Colorado, Kansas, Nebraska, Oklahoma, Wyoming.

11. Station K, Dallas 13, Tex., Arizona, Louisiana, New Mexico, Texas.

12. 315 Montgomery Street, Suite 1120, San Francisco 4, Calif., Alaska, California, Hawaii, Idaho, Nevada, Oregon, Utah, Washington.

(b) *Agents for service of process.* The Board of Directors, in accordance with the provisions of section 9 Fourth of the Federal Deposit Insurance Act (12 U. S. C. 1819) has designated an agent upon whom service of process may be made in each State, Territory, and other jurisdiction in which an insured bank is located. Persons desiring to serve process upon the Corporation in any jurisdiction may obtain the name and address of the proper agent by communicating with the Secretary of State or corresponding official in such jurisdiction, the Supervising Examiner for the District including such jurisdiction, or the General Counsel of the Corporation at Washington, D. C.

(c) *Liquidators.* The Corporation appoints a Liquidator for each receivership of an insured national bank or District bank or insured State bank for which the Corporation is appointed receiver, as well as for the liquidation of the assets acquired by the Corporation pursuant to a loan or purchase of assets. Under the control of the Board of Directors, and subject to the supervision of the Chief of the Division of Liquidation, a Liquidator is the official representative of the Corporation with respect to the receivership or liquidation entrusted to his charge, and, in general, is the supervisor immediately in charge of the liquidation or receivership on behalf of the Corporation. Local field offices are ordinarily maintained by such Liquidators with respect to such receiverships and liquidations and located in the community in which the closed insured bank was engaged in business. Persons desiring to communicate or transact business with any such Liquidator may obtain his name and address by communicating with the Chief of the Division of Liquidation.

(d) *Claim agents.* Pursuant to the provisions of subsection (b) of section 10 of the Federal Deposit Insurance Act (12 U. S. C. 1820 (b)), the Corporation appoints one or more Claim Agents for each insured bank which shall have been closed under circumstances requiring the Corporation, in accordance with applicable law, to make payment of the insured deposits therein. Under the control of the Board of Directors, and subject to the supervision of the Chief of the Division of Liquidation, the Claim Agent exercises the powers prescribed by law and is the official representative of the Corporation with respect to the payment of insured deposits in such closed bank and, in general, supervises the payoff of the insured depositors on behalf of the Corporation. Local field offices, as authorized by the Board of Directors, are maintained by such Claim Agents with respect to each such payoff and ordinarily are located at the site of the closed insured bank until the payoff has been fully or substantially completed. Persons desiring to communicate or transact business with any such Claim Agent may obtain his name and address by communicating with the Chief of the Division of Liquidation.

SEC. 3. *Delegations of final authority.* Except as otherwise provided by rule, or with respect to matters which generally involve conditions or circumstances requiring prompt action in the field for the better protection of the interests of the Corporation and to achieve flexibility and expedition in its operations and in the exercise of its functions, such as arise in connection with the Corporation's litigation and liquidation matters and with the payment of claims for insured deposits, the Board of Directors does not delegate its authority and no delegations of final authority within the statutory meaning of that phrase are made by the Board of Directors. Any person having a proper and direct concern therein may ascertain the scope of authority of any officer, agent, or employe of the Corporation by communicating with the Secretary of the Corporation.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

MARCH 23, 1954.

[F. R. Doc. 54-2182; Filed, Mar. 26, 1954; 8:48 a. m.]

[1] Section 9 of the Federal Deposit Insurance Act provides (18 U. S. C. 1813 (a), (b), (c)):

(a) The term "State bank" means any bank, banking association, trust company, savings bank, or other banking institution which is engaged in the business of receiving deposits, other than trust funds as herein defined, and which is incorporated under the laws of any State, any Territory of the United States, Puerto Rico, or the Virgin Islands, or which is operating under the Code of Law for the District of Columbia (except a national bank), and includes any unincorporated bank the deposits of which are insured on the effective date of this amendment

(b) * * * the term "State nonmember bank" means any State bank which is not a member of the Federal Reserve System.

(c) The term "District bank" means any State bank operating under the Code of Law for the District of Columbia.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-82]

WEST PENN RAILWAYS CO.

ORDER DECLARING THAT APPLICANT HAS CEASED TO BE A HOLDING COMPANY

MARCH 23, 1954.

West Penn Railways Company ("Railways"), a registered holding company, having filed an application under section 5 (d) of the Public Utility Holding Company Act of 1935 ("act"), requesting the Commission to declare by order that Railways has ceased to be a holding company;

It appearing that Railways registered as a holding company under section 5 of the act by filing its Notification of Registration on Form U5A, dated March 2, 1937, and that at the time of such registration, Railways owned 866,000 shares of common stock of West Penn Power Company, a public utility company, such shares constituting 31.207 percent of the outstanding voting securities of West Penn Power Company;

It further appearing that pursuant to a plan under section 11 (e) of the act, approved by order of the Commission dated July 28, 1949, and enforced by an order of the United States District Court for the Southern District of New York dated August 23, 1949, Railways was reorganized and, on August 25, 1949, distributed to its parent, The West Penn Electric Company, certain of its assets including said 866,000 shares of the outstanding common stock of West Penn Power Company and that Railways does not now, directly or indirectly, own, control, or hold with power to vote any outstanding voting securities of a public-utility company or of a company which is a holding company;

The Commission finding that Railways has ceased to be a holding company and that the registration of Railways as a holding company shall cease to be in effect:

It is therefore ordered, Pursuant to the provisions of section 5 (d) of the act, that Railways has ceased to be a holding company and that the registration of Railways as a holding company shall cease to be in effect.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3194]

POTOMAC EDISON CO. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE FOR ISSUE AND SALE OF COMMON STOCK BY SUBSIDIARIES AND ACQUISITION THEREOF BY PARENT

MARCH 23, 1954.

In the matter of The Potomac Edison Company, Northern Virginia Power Company, Potomac Light and Power Company; File No. 70-3194. The Potomac Edison Company ("Potomac Edison"), a registered holding company and a Maryland corporation, and its public-utility subsidiaries, Northern Virginia Power Company, ("Northern Virginia"), a Virginia corporation, and Potomac Light and Power Company ("Potomac Light"), a West Virginia corporation, having filed a joint application-declaration and amendments thereto, pursuant to sections 6, 7, 9, 10, and 12 of the Public Utility Holding Company Act of 1935 ("act") and Rules U-43, U-44 and U-50 (a) (3) and (a) (4) promulgated thereunder with respect to the following proposed transactions:

Northern Virginia proposes to issue and sell for cash, 7,515 shares of its unissued common stock, of the par value of $100 per share, to Potomac Edison at a price equal to the par value thereof, or a total consideration of $751,500.

Potomac Light proposes to issue and sell for cash 6,900 shares of its unissued common stock, of the par value of $100 per share, to Potomac Edison at a price equal to the par value thereof, or a total consideration of $690,000.

Potomac Edison proposes to acquire and purchase the additional shares of common stock proposed to be issued and sold by Northern Virginia and Potomac Light for a cash consideration equal to the aggregate par value of said common stocks.

Northern Virginia and Potomac Light each proposes to use the proceeds derived from the sale of such additional shares of common stocks for the payment, in part, of the cost of construction of property additions during 1954. Such expenditures are estimated in the amount of $1,280,400 for Northern Virginia and in the amount of $1,159,800 for Potomac Light.

Northern Virginia and Potomac Light will issue the shares of common stock from time to time prior to December 31, 1954. On acquisition by Potomac Edison such shares will be pledged as collateral security for Potomac Edison's First Mortgage and Collateral Trust Bonds, in accordance with the terms of the Indenture, dated October 1, 1944, as supplemented, between Potomac Edison and Chemical Bank & Trust Company (New York) as Trustee.

No fees or commissions are to be paid in connection with the proposed transactions. The expenses, consisting chiefly of United States documentary tax stamps, are estimated in the amount of $2,250.

The Public Service Commission of Maryland and the Public Service Commission of West Virginia, which have jurisdiction over the proposed acquisition by Potomac Edison of the common stocks of Northern Virginia and Potomac Light have each issued orders authorizing the proposed acquisition and the State Corporation Commission of Virginia, which has jurisdiction over the proposed issuance and sale of common stock by Northern Virginia, has issued an order authorizing the proposed issuance and sale of common stock by that company.

Applicants-declarants having requested that the Commission's order herein issue pursuant to Rule U-23 and that said order become effective upon issuance; and

Due notice having been given of the filing of said joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and that the expenses, as estimated, are not unreasonable; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, should be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and it hereby is, granted and permitted to become effective, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-2168; Filed, Mar. 26, 1954; 8:47 a. m.]

[File No. 70-3205]

NEW ENGLAND GAS AND ELECTRIC ASSN.

ORDER AUTHORIZING PROPOSED AMENDMENT OF DECLARATION OF TRUST, AND SOLICITATION OF SHAREHOLDERS IN CONNECTION THEREWITH

MARCH 23, 1954.

New England Gas and Electric Association ("Association"), a registered holding company, having filed with this Commission a declaration and an amendment thereto pursuant to sections 6 (a), 7, and 12 (e) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-62 thereunder, with respect to the following proposed transactions:

The management of the Association proposes that the first and last paragraphs of section 22 of the Association's Declaration of Trust be amended as follows:

Proposal No. 1. The proposed amendment of the first paragraph of section 22 would expand and clarify the power of the Trustees of the Association to issue authorized but unissued common shares without further vote of the preferred and common shares. In addition to the clarification of existing powers, the amendment would permit the investment of proceeds of the sale of Association common shares in debt securities, as well as in stock, of subsidiaries including Algonquin Gas Transmission Company.

The amendment would also permit the exchange of Association common shares for publicly held stock of any subsidiary of the Association, or for stock of any Massachusetts gas or electric company if as a result of such exchange the Association will own 51 percent or more of such stock.

In the opinion of Association's counsel, this amendment requires the consent of a majority of the outstanding common shares, and of a majority of the outstanding preferred shares, of the Association.

Proposal No. 2. The proposed amendment of the last paragraph of section 22 would amend the preemptive rights provision insofar as fractional shares are concerned. Under the proposed amendment the Trustees would have express power to eliminate subscription rights for fractional shares, provided each such holder is given (a) the cash equivalent of the fractional interests to which he would otherwise be entitled, or (b) sufficient subscription rights to enable said holder to subscribe for one whole share.

In the opinion of Association's counsel, this amendment requires the consent of two-thirds of the outstanding common shares, and of a majority of the outstanding preferred shares, of the Association.

The management further proposes to submit these amendments to the shareholders of the Association at the annual meeting to be held on May 4, 1954, and to solicit proxies in favor of said amendments. On or about April 3, 1954, the Association will mail Notice of Annual Meeting of Shareholders, Proxy Statement, and Proxy to shareholders of record on March 30, 1954. Expenses of solicitation will be borne by the Association. It is estimated that expenditures other than ordinary expenditures in connection with preparing, assembling and mailing proxies and proxy statements will not exceed $1,000.

The Association has requested that this order be permitted to become effective forthwith.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied, and that no adverse findings are necessary; and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration as amended should be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[S. B. A. Pool Request No. 8]

REQUEST TO ALLIED CONSTRUCTION CONTRACTORS TO OPERATE AS SMALL BUSINESS PRODUCTION POOL AND REQUEST TO CERTAIN COMPANIES TO PARTICIPATE IN OPERATIONS OF SUCH POOL

Pursuant to section 217 of the Small Business Act of 1953, the request to Allied Construction Contractors to operate as a small business production pool and the request to the companies hereinafter listed to participate in the operations of such pool, set forth below, were approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Small Business Administration. The voluntary program, in accordance with which the pool shall operate, has been approved by the Administrator of the Small Business Administration and found to be in the public interest as contributing to the national defense.

REQUEST TO ALLIED CONSTRUCTION CONTRACTORS

I hereby approve your proposed voluntary program to operate as a small business production pool and find it to be in the public interest as contributing to the national defense.

In my opinion, the operations of your organization as a small business production pool will assist in the accomplishment of our national defense program.

Therefore, in accordance with the provisions of Section 217 of the Small Business Act of 1953, you are requested to operate as such a pool in the manner set forth in the approved voluntary program. While no obligation is imposed upon you by virtue of this request, to operate as such a pool or to seek or obtain any Government contracts, if you wish to commence operations as a small business production pool you may do so upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that such operations are within the limits set forth in the approved voluntary program.

The Attorney General has approved this request after consultations with respect thereto among his representatives, representatives of the Chairman of the Federal Trade Commission and my representatives, pursuant to section 217 of the Small Business Act of 1953.

Sincerely yours,

WENDELL B. BARNES, *Administrator.*

REQUEST TO COMPANIES

The voluntary program of Allied Construction Contractors to operate as a small business production pool has been found to be in the public interest as contributing to the national defense and has therefore been approved.

Inasmuch as your concern is included among the prospective members of the pool, in my opinion your participation in its operations will assist in the accomplishment of our national defense program. Therefore, in accordance with the provisions of section 217 of the Small Business Act of 1953, you are requested to participate in the operations of the pool in the manner set forth in its voluntary program.

While no obligation is imposed upon you, by virtue of this request, to participate in the operations of this pool, if you wish to participate you may do so by notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that such operations are within the limits set forth in the approved voluntary program.

The Attorney General has approved this request after consultations with respect thereto among his representatives, representatives of the Chairman of the Federal Trade Commission and my representatives, pursuant to section 217 of the Small Business Act of 1953.

Sincerely yours,

WENDELL B. BARNES, *Administrator.*

Allied Construction Contractors accepted the request set forth above to operate as a small business production pool.

Commodities involved: Tobacco, unmanufactured, leaf or scrap, including cuttings, carloads.

From: Madison, Ind.

To: Farmville, Lynchburg, Norfolk, Petersburg, Pinners Point, Portsmouth, and Richmond, Va.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

FEDERAL REGISTER

OF THE UNITED STATES

VOLUME 19 1934 NUMBER 61

Washington, Tuesday, March 30, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10522

AUTHORIZING THE DIRECTOR OF THE UNITED STATES INFORMATION AGENCY TO CARRY OUT CERTAIN FUNCTIONS OF THE BOARD OF THE FOREIGN SERVICE

By virtue of the authority vested in me by Chapter III of the Supplemental Appropriation Act of 1954 (Public Law 207, 83d Congress; 67 Stat. 419), and as President of the United States, it is ordered as follows:

SECTION 1. The Director of the United States Information Agency is hereby authorized to carry out the functions of the Board of the Foreign Service, provided for by the Foreign Service Act of 1946 (60 Stat. 999; 22 U. S. C. 801 *et seq.*), with respect to personnel appointed or assigned for service in the United States Information Agency under the provisions of such Act, as amended: *Provided*, that nothing herein contained shall be construed as transferring to the said Director any function of the said Board relating to any Foreign Service Officer.

SEC. 2. The Director of the United States Information Agency is hereby authorized to prescribe such regulations and issue such orders and instructions, not inconsistent with law, as may be necessary or desirable for carrying out his functions under section 1 of this order.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
March 26, 1954.

EXECUTIVE ORDER 10523

DESIGNATING MARCH 31, 1954, AS THE DAY FOR DEDICATION OF THE MEMORIAL TO MAJOR GENERAL GEORGE W. GOETHALS AND EXCUSING FEDERAL EMPLOYEES ON THE ISTHMUS OF PANAMA FROM DUTY ON THAT DAY

WHEREAS the Congress, by act of August 24, 1935, 49 Stat. 743, authorized the President, through such person or persons as he might designate, to cause to be erected within the Canal Zone a suitable memorial to Major General George W. Goethals in commemoration of his signally distinguished services in connection with the construction and operation of the Panama Canal, and, by acts of July 19, 1937, 50 Stat. 515, 520, and May 2, 1939, 53 Stat. 626, 642, appropriated the necessary funds for such purpose; and

WHEREAS the Commission designated by the President to secure the erection of such memorial has reported the completion of its work; and

WHEREAS the year 1954 is the 40th anniversary of the appointment of General Goethals as first Governor of the Panama Canal, the 47th anniversary of his appointment as Chairman and Chief Engineer of the Isthmian Canal Commission, and the 50th anniversary of the taking over of the construction of the Panama Canal by the United States; and

WHEREAS it is appropriate that the memorial to General Goethals be dedicated with suitable ceremonies and observances:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

1. Wednesday, March 31, 1954, is hereby designated as the day for the dedication of the memorial erected within the Canal Zone in honor of Major General George W. Goethals, and the Governor of the Canal Zone may arrange for suitable ceremonies in connection with such dedication.

2. All officers and employees of the Federal Government on the Isthmus of Panama, except those who may for special public reasons be excluded from the provisions of this order by the heads of their respective departments, establishments, or agencies, or those whose absence from duty would be inconsistent with the provisions of existing law, shall be excused from duty on March 31, 1954; and such day shall be considered a holiday on the Isthmus of Panama within the meaning of Executive Order No. 10358 of June 9, 1952, and of all statutes so far as they relate to the compensation and leave of employees of the United States.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
March 26, 1954.

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 2—APPOINTMENT THROUGH THE COMPETITIVE SYSTEM

APPOINTMENTS SUBJECT TO INVESTIGATION

Section 2.112 is amended to read as follows:

§ 2.112 *Appointments subject to investigation.* (a) The following types of appointment are "subject to investigation" by the Commission to establish the individual's qualifications and suitability for employment in the competitive service:

(1) Probational.
(2) Reinstatements.
(3) Temporary.
(4) Indefinite appointments under Parts 2, 7, and 8 of this chapter.
(5) All conversion actions.
(6) Transfers.
(7) Reemployments.

(b) Except in cases involving intentional false statements, deception or fraud in examination or appointment under § 2.104 (a) (4), the condition "subject to investigation" shall expire automatically at the end of 18 months from the effective date of the appointment.

(c) For a period of 18 months from the effective date of one of the types of appointment in paragraph (a) of this section, the Commission may order removal if investigation discloses that the employee is disqualified for any of the reasons listed in § 2.104. After 18 months from the effective date of such appointment the Commission may order removal only on the basis of the disqualifications listed in § 2.104 (a) (4).

(d) Appointments are made conditional under this section to retain the Commission's jurisdiction to investigate the qualifications of an applicant after appointment, and to order removal when it finds an employee is disqualified for Federal employment.

(e) Parts 9 and 22 of this chapter shall not apply when an agency removes an employee pursuant to an order by the Commission.

(f) Part 9 or 22 of this chapter, whichever is appropriate, shall apply if removal action is initiated by an agency. The condition "subject to investigation" shall not be construed as requiring any employee to serve a new probationary or trial period, nor as extending the probationary or trial period of any employee.

(R. S. 1753; sec. 2, 22 Stat. 403, 50 Stat. 533; 5 U. S. C. 631, 633).

421.139 Eligible grain sorghums.
421.140 Approved storage.
421.141 Approved forms.
421.142 Quantity eligible for resealing.
421.143 Additional service charges.
421.144 Interest rate.
421.145 Transfer of producer's equity.
421.146 Storage and track-loading payments.
421.147 Maturity and satisfaction.
421.148 Support rates.
421.149 CSS Commodity offices.

AUTHORITY: §§ 421.136 to 421.149 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs 301, 401, 63 Stat. 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup. 1421, 1447.

§ 421.136 *Applicable sections of 1953 C. C. C. Grain Price Support Bulletin 1 and Supplement 1, Grain Sorghums.* The following sections of the 1953 C. C. C. Price Support Bulletin 1, and Supplement 1, Grain Sorghums, published in 18 F. R. 1960, 1969, 3705, 4787, 4990, 5725, 7377, and 8577 and 19 F. R. 1149, shall be applicable to the 1953 Grain Sorghum Reseal Loan Program: § 421.1 *Administration;* § 421.5 *Approved lending agencies;* § 421.8 *Liens;* § 421.10 *Set-offs;* §421.13 *Safeguarding the commodity;* § 421.14 *Insurance on farm-storage loans;* § 421.15 *Loss or damage to the commodity;* § 421.16 *Personal liability of the producer;* § 421.17 *Release of the commodity under loan;* § 421.19 *Foreclosure;* § 421.20 *Purchase of notes;* § 421.130 *Determination of quantity,* § 421.131 *Determination of quality.* Other sections of the 1953 Grain Sorghums Price Support Program shall be applicable to the extent indicated in this subpart.

§ 421.137 *Availability*—(a) *Area.* The reseal program will be available in the States of California, Colorado, Kansas, Missouri, Nebraska, New Mexico, Oklahoma, South Dakota, and Texas. Under this program, 1953-crop farm-storage loans will be extended and farm-storage loans will be made on 1953-crop grain sorghums covered by purchase agreements. Neither warehouse-storage loans nor purchase agreements will be available to producers under this program.

(b) *Time.* (i) The producer who desires to participate in the reseal loan program must file an application for a

farm-storage reseal loan with the county committee. In the case of a farm-storage loan, the producer will be required to apply for his reseal loan before the final date for delivery specified in the delivery instructions issued to him by the county committee.

(ii) The producer who signed a purchase agreement on farm-stored grain sorghums is required, under the 1953 Grain Sorghums Price Support Program to notify the county committee not later than March 31, 1954, if he intends to deliver the grain sorghums to CCC. If the producer has notified the county committee, on or before March 31, 1954, of his intention to deliver the grain sorghums or to participate in this program, he may obtain a farm-storage loan on the grain sorghums. The loan documents must be executed by the producer on or before the final date for delivery specified in the delivery instructions, or on or before May 31, 1954, if the producer has not requested delivery instructions The loan documents must be presented for disbursement within 15 days after execution.

(c) *Source.* A producer desiring to participate in the reseal loan program should make application to the county committee which approved his loan or purchase agreement. Disbursements of loans completed on grain sorghums covered by purchase agreements shall be made to producers by ASC county offices by means of sight drafts drawn on CCC or by approved lending agencies under agreements with CCC.

§ 421.138 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity who produced the grain sorghums in 1953 as landowner, landlord, tenant, or sharecropper and who either completed a farm-storage loan or signed a purchase agreement on farm-storage grain sorghums of the 1953 crop.

§ 421.139 *Eligible grain sorghums.* To be eligible, the grain sorghums must have been produced in 1953, must meet the requirements for eligible grain sorghums set forth in § 421.128 (c) of 1953 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Grain Sorghums, and, in addition, must contain not in excess of 12 percent moisture, must be in farm storage, must never have been commingled with grain sorghums produced by others, and must be under loan or covered by a purchase agreement.

(a) *Extended farm-storage loans.* If a producer makes application to extend his farm-storage loan, the commodity loan inspector shall, with the producer, reinspect the grain sorghums and the farm-storage structure in which the grain sorghums are stored. The commodity loan inspector shall draw a sample of the grain sorghums and submit the sample for grade and moisture content analysis.

(b) *Farm-storage grain sorghums covered by purchase agreement.* If a producer makes application for a farm-storage loan on grain sorghums covered by a purchase agreement, the commodity loan inspector shall inspect the grain sorghums and storage structure, obtain a sample if the grain sorghums and structure appear eligible, and proceed in the regular manner for the inspection of a commodity to be placed under loan.

§ 421.140 *Approved storage.* Grain sorghums covered by any loans extended and any new loans completed must be stored in structures which meet the requirements for farm-storage loans as provided in § 421.6 (a). Consent for storage for any loans extended or new loans completed must be obtained by the producer for the period ending May 31, 1955, if the structure is owned or controlled by someone other than the producer, or if the lease expires prior to May 31, 1955.

§ 421.141 *Approved forms.* (a) The approved forms, which together with the provisions of this subpart govern the rights and responsibilities of the producer, shall be a producer's note, Commodity Loan Form A, secured by a chattel mortgage on Commodity Loan Form AA, an application form, and such other forms as may be prescribed by CCC. Notes and chattel mortgages must have State and documentary revenue stamps affixed thereto where required by law.

(b) Where required by State law, a new producer's note and chattel mortgage shall be completed when a farm-storage loan is extended.

§ 421.142 *Quantity eligible for reseal-ing.* (a) The quantity of grain sorghums eligible for reseal on an extended farm-storage loan will be the quantity shown on the original note and chattel mortgage, less any quantity delivered or redeemed.

(b) A producer may obtain a loan on not in excess of the quantity of grain sorghums specified in the purchase agreement, minus any quantity of the grain sorghums under such purchase agreement (1) which has been previously placed under a loan or (2) on which he exercises his option to sell to CCC.

§ 421.143 *Additional service charges.* (a) When a farm-storage loan is extended, the producer will not be required to pay an additional service charge.

(b) At the time a farm-storage loan is made to the producer on grain sorghums covered by a purchase agreement, the producer shall pay an additional service charge of 1 cent per 100 pounds on the quantity placed under loan, or $1.50, whicheverIs greater. No refund of service charges will be made.

§ 421.144 *Interest rate.* Beginning April 1, 1954, reseal loans shall bear interest at the rate of 3½ percent per annum, except that where there is a default in satisfaction of the loan the deficiency shall bear interest at the rate of 6 percent per annum from the date of default.

§ 421.145 *Transfer of producers' equity.* The producer shall not transfer either his remaining interest in or his right to redeem the grain sorghums mortgaged as security for a loan under this program. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the grain sorghums must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the grain sorghums from storage when the proceeds of the sale are needed to repay all or any part of the loan. Any such approval shall be subject to the terms and conditions set out in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers at the office of the county committee.

§ 421.146 *Storage and track-loading payments.*—(a) *Storage payment.* A reseal storage payment will be made as follows:

(1) *Storage payment for full reseal period.* A storage payment in line with the 1954 Uniform Grain Storage Agreement yearly rate will be made to the producer on the quantity involved if he (i) redeems from the loan on or after March 31, 1955, (ii) delivers the grain sorghums to CCC on or after March 31, 1955, or (iii) delivers the grain sorghums to CCC prior to March 31, 1955, pursuant to demand by CCC for repayment of the loan solely for the convenience of CCC, if the commodity was not damaged, abandoned, or otherwise impaired due to negligence on the part of the producer.

(2) *Prorated storage payment.* (i) A storage payment determined by prorating such yearly rate according to the length of time the quantity of grain sorghums involved was in store after May 31, 1954 will be made to the producer, (*a*) in the case of grain sorghums delivered to CCC pursuant to its demand and not solely for the convenience of CCC, or upon request of the producer and with the approval of CCC, prior to March 31, 1955: *Provided, however,* That no storage payment will be made where the commodity is damaged or otherwise impaired due to negligence on the part of the producer, (*b*) in the case of loss assumed by CCC under the provisions of the loan program, and (*c*) in the case of grain sorghums redeemed from the loan prior to March 31, 1955. In the case of losses assumed by CCC, the period for computing the storage payment shall end on the date of the loss; and in the case of redemptions, through the date of repayment.

(ii) In no case will any storage payment be made where the producer has made any false representation in the loan documents or in obtaining the loan, or where the commodity has been abandoned, or where there has been conversion on the part of the producer.

(b) *Track-loading payment.* A track-loading payment of 4 cents per 100 pounds will be made to the producer on grain sorghums delivered to CCC, in accordance with instructions of the county committee, on track at a country point.

§ 421.147 *Maturity and satisfaction.* (a) Loans will mature on demand but not later than March 31, 1955. The producer must pay off his loan, plus interest, on or before maturity or deliver the mortgaged grain sorghums in accordance with the instructions of the county committee. Credit will be given at the applicable settlement value according to grade and/or quality for the total quantity delivered, provided the total quantity delivered was stored in the structure(s) in which the grain sorghums under loan were stored. The provisions of § 421.18 (a) (1), (e) and (f) and of § 421.135 (a) (1) and (2) shall be applicable hereto.

(b) If the settlement value of the grain sorghums delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer by a sight draft drawn on CCC by the ASC county office.

(c) If the settlement value of the grain sorghums delivered is less than the amount due on the loan, the amount of the deficiency plus interest thereon shall be paid by the producer to CCC or may be set off against any payment which would otherwise be paid to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC or any other agency of the United States.

§ 421.148 *Support rates.* (a) The support rate for an extended farm-storage loan shall remain the same as for the original loan. The support rate for grain sorghums covered by a purchase agreement placed under a farm-storage loan shall be the same as the support rate established for the grain sorghums in § 421.133 (c).

(b) Any discounts established for variation in quality as shown in the 1953 Grain Sorghums Price Support Program Bulletin shall apply.

§ 421.149 *CSS commodity offices.* The CSS commodity offices and the areas served by them are shown below:

Chicago 5, Ill., 623 South Wabash Avenue: Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

Dallas 26, Tex., 3306 Main Street: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas.

Kansas City 6, Mo., 911 Walnut Street: Colorado, Kansas, Missouri, Nebraska, Wyoming.

Minneapolis 8, Minn., 1006 West Lake Street: Minnesota, Montana, North Dakota, South Dakota, Wisconsin.

Portland 5, Oreg., 515 S. W. Tenth Avenue: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

Issued this 25th day of March 1954.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President,
Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 24—UNITED STATES STANDARDS FOR GRADES OF BUTTER [1]

On February 8, 1952, notice was published in the FEDERAL REGISTER (F. R. Doc. 52-1577; 17 F. R. 1224-1226) regarding proposed United States Standards for Grades of Butter. As a result of the widespread interest in the proposed standards, the final issuance of the standards was delayed. The proposed standards were revised and again published as a proposed rule making on March 9, 1954 (F. R. Doc. 54-1656, 19 F. R. 1323-1325. 19 F. R. 1343).

After consideration of all relevant matters presented, including the proposals in the aforesaid notices, the following United States standards are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act, 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

It is hereby found that good cause exists for making these standards effective April 1, 1954, for the reason that on this date the new price support program becomes effective, and new standards after this date would cause confusion. It has also been found that industry does not require additional time to make preparation for compliance with the standards.

The standards are as follows:

DEFINITIONS

Sec.
24.1 Butter.

U. S. GRADES

24.2 Nomenclature of U. S. grades.
24.3 Basis for determination of U. S. grades.
24.4 Classification of flavors in butter.
24.5 Classification of defects in body, color, and salt.
24.6 Relation of U. S. grade of butter to the flavor classification as affected by total defects in body, color, and salt.
24.7 Specifications for U. S. grades of butter.

EXPLANATION OF TERMS

24.8 Explanation of terms.

AUTHORITY: §§ 24.1 to 24.8 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 2624.

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

DEFINITIONS

§ 24.1 *Butter.* Butter is the food product made from milk or cream, or both, with or without common salt or additional coloring matter, and containing not less than 80 percent by weight of milk fat, all tolerance having been allowed for.

(a) *Cream.* The term "cream" when used in this subpart means cream separated from milk produced by healthy cows. The cream shall be pasteurized at a temperature of not less than 165° F. and held continuously at such temperature for at least 30 min.; or by any other method of pasteurization which gives equivalent results in the destruction of the phosphatase enzyme.

U. S. GRADES

§ 24.2 *Nomenclature of U. S. grades.* (a) The nomenclature of U. S. grades is as follows: (1) U. S. Grade AA or U. S. 93 Score; (2) U. S. Grade A or U. S. 92 Score; (3) U. S. Grade B or U. S. 90 Score; and (4) U. S. Grade C or U. S. 89 Score.

§ 24.3 *Basis for determination of U. S. grades.* (a) The basis for the determination of U. S. grades of butter shall be as follows: (1) The flavor shall be classified in accordance with § 24.4; (2) The defects in body, color, and salt shall be classified in accordance with § 24.5; (3) The relation of the U. S. grade of the butter to the flavor classification of it, as affected by total defects in body, color, and salt shall be determined in accordance with § 24.6.

§ 24.4 *Classification of flavors in butter.* (a) Various identified flavors in butter shall be classified as follows:

TABLE I

Identified flavors [1]	Flavor classification			
	AA [2]	A [3]	B	C
Feed	Slight	Definite		
Cooked (fine)	Definite			
Aged		Slight	Definite	
Bitter		do	do	
Coarse acid		do	do	
Flat		do		
Smothered		do	Definite	
Storage		do	do	
Cooked (coarse)		Definite		
Musty			Slight	Definite.
Neutralizer			do	Do.
Scorched			do	Do.
Utensil			do	Do.
Weed			do	Do.
Whey			do	Do.
Woody			do	Do.
Old cream			Definite	
Barny				Slight.
Cheesy				Do.
Fruity				Do.
Metallic				Do.
Oily				Do.
Sour				Do.
Wild onion or garlic				Do.
Yeasty				Do.
Stale				Definite.

[1] When more than one flavor is discernible in a sample of butter, the flavor classification of the sample shall be established on the basis of the flavor that carries the lowest classification.
[2] Shall be fine, highly pleasing.
[3] Shall be pleasing and desirable.

§ 24.5 *Classification of defects in body, color, and salt.* The classification of defects in body, color, and salt shall be established in accordance with the following:

TABLE II

Defect:	Rating
BODY	
Slight crumbly	½
Slight gummy	½
Slight leaky	½
Slight mealy	½
Slight short	½
Slight spongy or weak	½
Slight sticky	½
Slight ragged boring	1
Slight grainy	1
Definite crumbly	1
Definite gummy	1
Definite leaky	1
Definite mealy	1
Definite short	1
Definite spongy or weak	1
Definite sticky	1
Definite ragged boring	2
Definite grainy	2
COLOR	
Slight wavy	½
Slight mottled	1
Slight streaked	1
Slight color specks	1
Definite high color	1
Definite wavy	1
Definite color specks	2
Definite mottled	2
Definite streaked	2
SALT	
Slight sharp salt	½
Slight gritty salt	1
Definite sharp salt	1
Definite gritty salt	2

§ 24.6 *Relation of U. S. grade of butter to the flavor classification as affected by total defects in body, color, and salt.* (a) The flavor classification and maximum defects in body, color, and salt permitted for each U. S. grade are as follows:

TABLE III

Flavor classification	Maximum defects permitted	U. S. grade
AA	½	AA or 93
AA	1	A or 92
A	½	A or 92
AA	2½	B or 90
A	1½	B or 90
B	½	B or 90
A	2½	C or 89
B	1½	C or 89
C	1½	C or 89

(b) Examples of the relation of U. S. grades to flavor classification and total defects in body, color, and salt are as follows:

TABLE IV

Example No.	Flavor classification	Defects: Body	Color	Salt	Total defects	Permitted total defects	Defects in excess of total permitted	U. S. grade
1	AA	½	0	0	½	½	0	AA or 93
2	AA	0	1	E	1	1½	0	A or 92
3	AA	1	0	½	1½	1½	0	B or 90
4	AA	1	1	E	2	1½	½	B or 90
5	AA	1	1	½	2½	1½	1	B or 90
6	A	½	0	0	½	1½	0	A or 92
7	A	0	1	0	1	1½	0	B or 90
8	A	1	0	½	1½	1½	½	B or 90
9	A	1	1	0	2	1½	½	C or 89
10	A	1	1	½	2½	1½	1	C or 89
11	B	½	0	0	½	2½	0	B or 90
12	B	0	1	0	1	2½	0	C or 89
13	B	1	E	½	1½	2½	0	C or 89
14	C	1	E	0	1	1½	0	C or 89
15	C	1	½	0	1½	1½	0	C or 89

§ 24.7 *Specifications for U. S. grades of butter.* (a) The specifications for the U. S. grades of butter are as follows:

(1) *General.* Butter of all U. S. grades shall be free of visible mold, and foreign materials.

(2) *U. S. Grade AA or U. S. 93 Score.* U. S. Grade AA or U. S. 93 Score butter conforms to the following: Possesses a fine highly pleasing flavor. May possess a slight feed and a definite cooked (fine) flavor. It is made from sweet cream or cream of low natural acid to which a culture (starter) may or may not have been added. The permitted total defects in body, color, and salt are limited to one-half (½) in accordance with Table II.

(3) *U. S. Grade A or U. S. 92 Score.* U. S. Grade A or U. S 92 Score butter conforms to the following: Possesses a pleasing and desirable flavor. May possess any of the following flavors to a slight degree: Aged, bitter, coarse-acid, flat, smothered, and storage. May possess feed and cooked (coarse) flavors to a definite degree. The permitted total defects in body, color, and salt are limited to one-half (½) in accordance with Table II unless the flavor classification permits these defects to exceed one-half (½). Butter that has a flavor classification of AA and total defects in body, color, and salt which exceed one-half (½) but do not exceed one (1) in accordance with Table II shall be U. S. Grade A or U. S. 92 Score.

(4) *U. S. Grade B or U. S. 90 Score.* U. S. Grade B or U. S 90 Score butter conforms to the following: May possess any of the following flavors to a slight degree: Musty, neutralizer, scorched, woody, weed, whey, and utensil. May possess any of the following flavors to a definite degree: Aged, bitter, coarse-acid, old cream, smothered, and storage. The permitted total defects in body, color, and salt are limited to a total of one-half (½) in accordance with Table II unless the flavor classification permits these defects to exceed one-half (½). Butter that has a flavor classification of AA and total defects in body, color, and salt which exceed one (1) but do not exceed two-and-one-half (2½) in accordance with Table II shall be U. S. Grade B or U. S. 90 Score. Butter that has a flavor classification of A and total defects in body, color, and salt which exceed one-half (½) but do not exceed one-and-one-half (1½) in accordance with Table II shall be U. S. Grade B or U. S. 90 Score.

(5) *U. S. Grade C or U. S. 89 Score.* U. S. Grade C or U. S. 89 Score butter conforms to the following: May possess any of the following flavors to a slight degree: Barny, cheesy, fruity, metallic, oily, sour, wild onion or garlic, and yeasty. May possess any of the following flavors to a definite degree: Musty, neutralizer, scorched, stale, weed, whey, woody, and utensil. The permitted defects in body, color, and salt are limited to a total of one-and-one-half (1½) in accordance with Table II unless the flavor classification permits these defects to exceed one-and-one-half (1½). Butter that has a flavor classification of A and total defects in body, color, and salt which exceed one-and-one-half (1½) but do not exceed two-and-one-half (2½) in accordance with Table II shall be U. S. Grade C or U. S. 89 Score. Butter that has a flavor classification of B and total defects in body, color, and salt which exceed one-half (½) but do not exceed one-and-one-half (1½) in accordance with Table II shall be U. S. Grade C or U. S. 89 Score.

EXPLANATION OF TERMS

§ 24.8 *Explanation of terms.*—(a) *With respect to flavor.*—(1) *Slight.* Detected only upon critical examination.

(2) *Definite.* Not intense but readily detectable.

(3) *Aged.* Characterized by lack of freshness. Attributable to short or extended storage periods of the butter above freezer temperatures.

(4) *Barny.* Associated with cow or stable odors. Attributable to odor absorption or bacterial action.

(5) *Bitter.* Puckery, astringent taste.

(6) *Cheesy.* Suggestive of cheese

(7) *Coarse acid.* Lacks fine flavor, but has no definite acid flavor.

(8) *Cooked (fine).* Resulting from heat application to the cream, but not an intense flavor.

(9) *Cooked (coarse).* An intense flavor resulting from heat application to the cream.

(10) *Feed.* Feed flavors (from normal feeds, such as alfalfa, sweet clover, silage, or similar feed) in milk carried through into the butter.

(11) *Flat.* Lacks definite natural butter flavor.

(12) *Fruity.* A sweetish fruit flavor.

(13) *Metallic.* Suggestive of metal. Attributable to contact with metal surfaces or bacterial action.

(14) *Musty.* Suggestive of storage in damp cellar or cave.

(15) *Neutralizer.* Flavor characteristic of neutralizing agents.

(16) *Oily.* Suggestive of oil; characterized by an oily-like taste with an accompanying suggestion of oxidation of the fat.

(17) *Old cream.* Aged cream characterized by lack of freshness.

(18) *Sour.* Acid flavor and aroma.

(19) *Scorched.* A more intensified flavor than cooked (coarse).

(20) *Smothered.* Suggestive of improperly cooled milk or cream; containers exposed to hot sun.

(21) *Stale.* Characterized by aged cream of poor quality.

(22) *Storage.* Characterized by lack of freshness. Attributable to extended storage periods of the butter.

(23) *Utensil.* Suggestive of improper or inadequate washing and sanitizing of milking machines, separators, utensils, or factory equipment; or of poorly tinned equipment.

(24) *Weed.* Weed flavors from common weeds, that may be present in butter derived from milk or cream of cows that have eaten weedy hay or have grazed on weed-infested pastures. Free from offensive weed flavors (such as, pepper grass or french weed).

(25) *Whey.* Mildly acid flavor and aroma characteristic of whey. Resulting from use of whey cream.

(26) *Wild onion or garlic.* May be present in butter derived from milk or cream of cows that have eaten wild onion or garlic.

(27) *Woody.* Suggestive of wood. Attributable to absorption from wood equipment.

(28) *Yeasty.* Indicating yeast fermentation.

(b) *With respect to body.*—(1) *Crumbly.* Particles lack cohesion.

(2) *Gummy.* Does not melt readily.

(3) *Grainy.* Granular consistency; more intense granular condition than mealy.

(4) *Mealy.* Coarse granular consistency.

(5) *Leaky.* Free water appearing as beads on the surface of the butter.

(6) *Ragged boring.* Sticky-crumbly condition preventing drawing of a full trier.

(7) *Short.* Excessively tight, fine texture.

(8) *Spongy or weak.* Lacks compactness or firmness.

(9) *Sticky.* Adheres to trier as a smear.

(c) *With respect to color.*—(1) *High color.* Excessive coloring; unnatural.

(2) *Mottled.* Light-colored areas giving a marbled appearance.

(3) *Specks.* Color specks appearing in the butter.

(4) *Streaked.* Long streaks of light-colored portions.

(5) *Wavy.* Uneveness of color appearing as waves of different shades of yellow.

(d) *With respect to salt.*—(1) *Sharp.* Characterized by taste suggestive of excessive salt.

(2) *Gritty.* Coarse, or sandlike particles.

Done at Washington, D. C., this 26th day of March 1954, to become effective April 1, 1954. These U. S. Standards for Grades of Butter shall, upon becoming effective, supersede Official United States Standards for Grades of Creamery Butter which have been in effect since February 1, 1943.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—U. S. STANDARDS FOR GRADES OF CUCUMBER PICKLES[1]

On October 15, 1953, a notice of proposed rule making was published in the FEDERAL REGISTER (18 F. R. 6566) regarding a proposed revision of United States Standards for Grades of Cucumber Pickles.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the following United States Standards for Grades of Cucumber Pickles are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C., 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953).

PRODUCT DESCRIPTION, STYLES, TYPES, AND GRADES

Sec.
52.1681 Product description.
52.1682 Styles of cucumber pickles.
52.1683 Types of cucumber pickles.
52.1684 Grades of cucumber pickles.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.1685 Recommended fill of container.
52.1686 Recommended minimum drained weight.
52.1687 Compliance with recommended minimum drained weights.

SIZES AND COUNTS

52.1688 Sizes of cucumber pickles in whole cucumber pickles.
52.1689 Sizes of cucumber pickles sliced crosswise.
52.1690 Sizes of cucumber pickles sliced lengthwise.

FACTORS OF QUALITY

52.1691 Ascertaining the grade.
52.1692 Ascertaining the rating of the factors which are scored.
52.1693 Color.
52.1694 Uniformity of size.
52.1695 Defects.
52.1696 Texture.

DEFINITIONS, METHODS OF ANALYSES, AND ILLUSTRATIONS

SCORE SHEET

52.1699 Score sheet for cucumber pickles.

AUTHORITY: §§ 52.1681 to 52.1698 issued under sec. 205, 60 Stat. 1090, 67 Stat. 205; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, STYLES, TYPES, AND GRADES

§ 52.1681 *Product description.* "Cucumber pickles" means the pickled product prepared from clean, sound, fresh, immature cucumbers which have been cured by natural fermentation in a solution of common salt with or without the addition of dill herbs and processed or preserved in a liquid packing medium which may be seasoned with suitable nutritive sweetening ingredients, salt, a vinegar or vinegars, spices or flavoring or both, and onions or garlic or both, and with or without other seasoning or flavoring ingredients to give the product a flavor and characteristics of the respective type, with or without the addition of any other ingredient or ingredients which may be permissible under the provisions of the Federal Food, Drug, and Cosmetic Act. Cucumber pickles may be processed or preserved with or without the addition of other pickled vegetables which have been cured as aforesaid. The pickles may be sufficiently processed by heat to assure preservation of the product in hermetically sealed containers.

§ 52.1682 *Styles of cucumber pickles.* (a) "Whole" means cucumber pickles consisting of whole cucumbers.

(b) "Sliced crosswise" or "cross cut" means cucumber pickles consisting of units cut at right angles to the longitudinal axis into slices of approximately uniform thickness with parallel surfaces.

(c) "Sliced lengthwise" means cucumber pickles consisting of units cut longitudinally into halves, triangular shaped units, or cut longitudinally into units with parallel surfaces.

(d) "Cut" means cucumber pickles cut into units which are not uniform in size or shape or which do not conform to any of the foregoing styles.

(e) "Finely cut" means cucumber pickles which have been finely cut or finely chopped, such as in pickle relish.

§ 52.1683 *Types of cucumber pickles.*—(a) *Dill pickles (natural).* Dill pickles consist of cucumber pickles prepared from fresh immature cucumbers cured by natural fermentation in a solution of common salt with dill herb, with or without dill flavoring, packed in a liquid packing medium, with or without additional spices, spice flavorings, or other seasoning or flavoring ingredients. Dill herb and other herbs may be added.

(b) *Dill pickles (processed).* Dill pickles which have been prepared from salt stock consist of cucumber pickles prepared from fresh immature cucumbers cured by natural fermentation in a solution of common salt packed in a liquid packing medium containing dill flavored brine, a vinegar or vinegars, spices, spice flavoring, or other seasoning or flavoring ingredients. Dill herb and other herbs may be added.

(c) *Sour pickles.* Sour pickles consist of cucumber pickles packed in a liquid packing medium to which has been added salt, a vinegar or vinegars, with or without the addition of spices, spice flavoring, or other seasoning or flavoring ingredients.

(d) *Sweet pickles.* Sweet pickles consist of cucumber pickles packed in a liquid packing medium to which has been added suitable nutritive sweetening ingredients, salt, a vinegar or vinegars, with or without the addition of spices, spice flavoring, or other seasoning or flavoring ingredients.

(e) *Sour mixed pickles.* Sour mixed pickles consist of cucumber pickles which

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

may be of any of the foregoing styles except finely cut or finely chopped cucumber pickles to which has been added onions and cut cauliflower, with or without the addition of red peppers, pimientos, or pieces of red peppers or pimientos packed in a liquid packing medium with the addition of salt, a vinegar or vinegars, with or without the addition of spices, spice flavoring, or other seasoning or flavoring ingredients. Sour mixed pickles consist of the pickle ingredients in the following proportions:

	Percent by weight
Cucumber	60 to 80.
Cauliflower	10 to 30.
Onions (not to exceed 1¼ inches in diameter).	5 to 12.
Red peppers or pimientos	Optional ingredient.

(f) *Sweet mixed pickles.* Sweet mixed pickles consist of cucumber pickles which may be of any of the foregoing styles except finely cut or finely chopped cucumber pickles to which has been added onions and cut cauliflower, with or without the addition of red peppers, pimientos, or pieces of red peppers or pimientos packed in a liquid packing medium with the addition of suitable nutritive sweetening ingredients, salt, a vinegar or vinegars, with or without the addition of spices, spice flavoring, or other seasoning or flavoring ingredients. Sweet mixed pickles shall consist of the pickle ingredients in the following proportions:

	Percent by weight
Cucumber	60 to 80.
Cauliflower	10 to 30.
Onions (not to exceed 1¼ inches in diameter).	5 to 12.
Red peppers or pimientos	Optional ingredient.

(g) *Sour chow chow pickle.* Sour chow chow pickle consists of cucumber pickle which may be of any of the foregoing styles, except finely cut or finely chopped cucumber pickles to which has been added onions and cut cauliflower, with or without the addition of red peppers, pimientos, or pieces of red peppers or pimientos, packed in a sauce of proper consistency, with the addition of salt, a vinegar or vinegars, and mustard, with or without the addition of spices, spice flavoring, or other seasoning or flavoring ingredients. Sour chow chow pickle consists of the pickle ingredients in the following proportions:

	Percent by weight
Cucumber	60 to 80.
Cauliflower	10 to 30.
Onions (not to exceed 1¼ inches in diameter).	5 to 12.
Red peppers or pimientos	Optional ingredient.

(h) *Sweet chow chow pickle.* Sweet chow chow pickle consists of cucumber pickle which may be of any of the foregoing styles, except finely cut or finely chopped cucumber pickles, to which has been added onions and cut cauliflower, with or without the addition of red peppers, pimientos, or pieces of red peppers or pimientos, packed in a sauce of proper consistency to which has been added suitable nutritive sweetening ingredients, salt, a vinegar or vinegars, and mustard, with or without the addition of spices, spice flavoring, or other seasoning or flavoring ingredients. Sweet chow chow pickle shall consist of the pickle ingredients in the following proportions:

	Percent by weight
Cucumber	60 to 80.
Cauliflower	10 to 30.
Onions (not to exceed 1¼ inches in diameter).	5 to 12.
Red peppers or pimientos	Optional ingredient.

(i) *Sour pickle relish.* Sour pickle relish consists of finely cut or finely chopped cucumber pickles to which may be added onions and cauliflower, with or without the addition of green tomatoes, red peppers or pimientos, packed in a liquid packing medium, with the addition of salt, a vinegar or vinegars, with or without the addition of spices, spice flavoring, or other seasoning or flavoring ingredients. Sour pickle relish shall consist of the pickle ingredients in the following proportions:

	Percent by weight
Cucumber	60 to 100.
Cauliflower [2]	10 to 30.
Onions [1]	5 to 12.
Green tomatoes	([3])
Red peppers or pimientos	Optional ingredient.

[1] Optional.
[2] Optional. Not to exceed 10 percent, by weight, when used in lieu of equal quantities of cauliflower.

(j) *Sweet pickle relish.* Sweet pickle relish consists of finely cut or finely chopped cucumber pickles to which may be added onions and cauliflower, with or without the addition of green tomatoes, red peppers or pimientos, packed in a liquid packing medium, with the addition of suitable nutritive sweetening ingredients, salt, a vinegar or vinegars, with or without the addition of spices, spice flavoring, and other seasoning or flavoring ingredients. Sweet pickle relish consists of the pickle ingredients in the following proportions:

	Percent by weight
Cucumber	60 to 100.
Cauliflower [2]	10 to 30.
Onions [1]	5 to 12
Green tomatoes	([3])
Red peppers or pimientos	Optional ingredient.

[1] Optional.
[2] Optional. Not to exceed 10 percent, by weight, when used in lieu of equal quantities of cauliflower.

§ 52.1684 *Grades of cucumber pickles.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of cucumber pickles that possess similar varietal characteristics; that possess a good flavor; that possess a good color; that are practically uniform in size; that are practically free from defects; that possess a good texture; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 85 points: *Provided*, That the cucumber pickles may be reasonably uniform in size if the total score is not less than 85 points.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of cucumber pickles that possess similar varietal characteristics; that possess a reasonably good flavor; that possess a reasonably good color; that are reasonably uniform in size; that are reasonably free from defects; that possess a reasonably good texture; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 70 points. *Provided*, That the cucumber pickles may fall below the requirements of reasonably uniform in size if the total score is not less than 70 points.

(c) "Substandard" is the quality of cucumber pickles that fail to meet the requirements of U. S. Grade B or U. S. Extra Standard.

FILL OF CONTAINER AND DRAINED WEIGHTS

§ 52.1685 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since the fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container be filled as full as practicable with pickles without impairment of quality, that the product be entirely covered with the packing medium, and that the product and packing medium occupy not less than 90 percent of the total capacity of the container.

§ 52.1686 *Recommended minimum drained weight.* (a) The minimum drained weight recommendations in Table No. I are not incorporated in the grades of the finished product, since drained weight, as such, is not a factor of quality for the purpose of these grades. The drained weight of all types of cucumber pickles, except chow chow pickle, is determined by emptying the contents of the container upon a United States Standard No. 8 sieve of proper diameter so as to distribute the product evenly, inclining the sieve to facilitate drainage and allow to drain for two minutes. The drained weight is the weight of the sieve and the pickles less the weight of the dry sieve. A sieve 8 inches in diameter is used for one-quart and smaller size containers and a sieve 12 inches in diameter is used for containers larger than one quart in size.

(b) The drained weight of chow chow cucumber pickle is determined by emptying the contents of the container upon a United States Standard No. 8 sieve of proper diameter so as to distribute the product evenly. Wash off all adhering sauce under a spray of water at a temperature of approximately 20° C. (68° F.). Incline the sieve to facilitate drainage and allow to drain for two minutes. Calculate drained weight and follow requirements with respect to size and diameter of sieve as specified in this subpart.

§ 52.1687 *Compliance with recommended minimum drained weights.* Compliance with the recommended minimum drained weights for cucumber pickles is determined by averaging the drained weights of all containers which are representative of a specific lot. Such lot is considered as meeting recommendations, if:

(a) The average drained weight of all the containers meets the recommended minimum drained weight, except that when whole pickles are packed in containers of less than one-quart capacity and the containers are filled as full as practicable, the average drained weight may be 20 percent less than the recommended minimum drained weight for such containers;

(b) At least one-half of the containers meet the recommended minimum drained weight; and

(c) The drained weights of the containers which do not meet the recommended minimum drained weight are within the range of variability of good commercial practice.

TABLE No. I

RECOMMENDED MINIMUM DRAINED WEIGHTS, IN OUNCES, OF WHOLE PICKLES IN LARGE CONTAINERS

Metal or glass container designation	Capacity (fluid ounces)	Count	Whole, sour and dill	Whole, sweet
No. 10 jar	105.62	29 or less	66.0	...
		30-39	66.5	72.0
		40-74	68.0	72.5
		75-99	69.0	74.0
		100 and over	70.0	76.0
No. 10	105.10	29 or less	66.0	...
		30-39	66.5	72.0

SIZES AND COUNTS

§ 52.1688 *Sizes of cucumber pickles in whole cucumber pickles.* The size of any whole cucumber pickle is determined by measuring the shortest diameter transverse to the longitudinal axis at the thickest portion of the pickle and by measuring the distance from stem to blossom end.

TABLE No. II

Size		Approximate count per gallon	Recommended maximum and minimum length (inches)
Word designation	Number designation		
Midgets	1	445-545	1½ and less.
Midgets	2	330-444	Over 1½ but not over 2.
Gherkins	1	225-329	Over 2 but not over 2¼.
Gherkins	2	135-224	Over 2¼ but not over 2½.
Gherkins	3	100-134	Over 2½ but not over 2¾.
Small	1	80-99	Over 2¾ but not over 3.
Small	2	66-79	Over 3 but not over 3¼.
Small	3	52-65	Over 3¼ but not over 3½.
Medium	.....	40-51	Over 3½ but not over 4.
Large	1	30-39	Over 4 but not over 4¼.
Large	2	22-29	Over 4¼ but not over 4¾.
Extra large	.....	16-21	Over 4¾ but not over 5¾.

§ 52.1689 *Sizes of cucumber pickles sliced crosswise.* The size of any unit cut at right angles to the longitudinal axis is determined by measuring the shortest diameter of the cut surface of the unit.

§ 52.1690 *Sizes of cucumber pickles sliced lengthwise.* The size of any unit cut longitudinally is determined by measuring the longest distance parallel to the longitudinal axis.

FACTORS OF QUALITY

§ 52.1691 *Ascertaining the grade.* (a) The grade of cucumber pickles is ascertained by considering the requirements with respect to varietal characteristics and flavor, which are not scored, and the factors of color, uniformity of size, defects, and texture, which are scored.

(b) *Good flavor.* "Good flavor" means that the product possesses a good characteristic normal flavor for the type of pickle and meets the following additional requirements for the type indicated:

(1) *Dill pickles (natural).* After equalization, the packing medium contains not less than 0.6 gram of acid (calculated as lactic) per 100 milliliters and the salt content is not less than 10° nor more than 19° Salometer at 20° C. (68° F.).

(2) *Dill pickles (processed).* After equalization, the packing medium contains not less than 0.6 gram of acid (calculated as acetic) per 100 milliliters and the salt content is not less than 10° nor more than 19° Salometer at 20° C. (68° F.).

(3) *Sour pickles, sour mixed pickles, sour pickle relish.* After equalization, the packing medium contains not less than 1.7 grams nor more than 2.7 grams of acid (calculated as acetic) per 100 milliliters and the salt content is not less than 10° nor more than 19° Salometer at 20° C. (68° F.).

(4) *Sweet pickles, sweet mixed pickles, sweet pickle relish.* After equalization, the density of the packing medium is not less than 18° Baumé (32.64° Brix) at 20° C. (68° F.), and contains not more than 3.0 grams of salt (NaCl) per 100 milliliters, and not less than 1.7 grams nor more than 2.7 grams of acid (calculated as acetic) per 100 milliliters.

(5) *Sour chow chow pickle.* After equalization, the packing medium contains not less than 1.7 grams nor more than 2.7 grams of acid (calculated as acetic) per 100 milliliters, and not more than 3.0 grams of salt (NaCl) per 100 milliliters.

(6) *Sweet chow chow pickle.* After equalization, the density of the packing medium is not less than 15.5° Baumé (28.0° Brix) at 20° C. (68° F.), and contains not more than 3.0 grams of salt (NaCl) per 100 milliliters, and not less than 1.7 grams nor more than 2.7 grams of acid (calculated as acetic) per 100 milliliters.

(c) *Reasonably good flavor.* "Reasonably good flavor" means that the product possesses a normal flavor which may be lacking in good characteristic flavor for the type but is free from objectionable flavor or off flavor of any kind, and meets the following additional requirements for the type indicated:

(1) *Dill pickles (natural).* After equalization, the packing medium contains not less than 0.5 gram of acid (calculated as lactic) per 100 milliliters and the salt content is not less than 8° nor more than 21° Salometer at 20° C. (68° F.).

(2) *Dill pickles (processed).* After equalization, the packing medium contains not less than .5 gram of acid (calculated as acetic) per 100 milliliters and the salt content is not less than 8° nor more than 21° Salometer at 20° C. (68° F.).

(3) *Sour pickles, sour mixed pickles, and sour pickle relish.* After equalization, the packing medium contains not less than 1.3 grams nor more than 3.0 grams of acid (calculated as acetic) per 100 milliliters and the salt content is not less than 8° nor more than 21° Salometer at 20° C. (68° F.).

(4) *Sweet pickles, sweet mixed pickles, and sweet pickle relish.* After equalization, the density of the packing medium is not less than 15° Baume' (27.2° Brix) at 20° C. (68° F.), and contain not more than 3.5 grams of salt (NaCl) per 100 milliliters, and not less than 1.3 grams nor more than 3.0 grams of acid (calculated as acetic) per 100 milliliters.

(5) *Sour chow chow pickle.* After equalization, the packing medium contains not less than 1.3 grams nor more than 3.0 grams of acid (calculated as acetic), and not more than 3.5 grams of salt (NaCl) per 100 milliliters.

(6) *Sweet chow chow pickle.* After equalization, the density of the packing medium is not less than 12.5° Baume' (22.6° Brix) at 20° C. (68° F.), and contains not more than 3.5 grams of salt (NaCl) per 100 milliliters, and not less than 1.3 grams nor more than 3.0 grams

of acid (calculated as acetic) per 100 milliliters.

(d) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors:	Points
Color	20
Uniformity of size	20
Defects	30
Texture	30
Total score	100

§ 52.1692 *Ascertaining the rating of the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "16 to 20 points" means 16, 17, 18, 19, or 20 points).

§ 52.1693 *Color*—(a) *(A) classification.* Cucumber pickles that possess a good color may be given a score of 16 to 20 points. "Good color" means that the skin of the cucumber ingredient possesses a good, practically uniform typical color and is practically free from bleached areas; that the skin of not more than 10 percent, by weight, of the cucumber ingredient may vary markedly from a typical yellow-green to typical green color; and that in mixed pickles, chow chow pickle, and pickle relish all of the pickle ingredients possess a good practically uniform typical color for the respective ingredient.

(b) *(B) classification.* If the cucumber pickles possess a reasonably good color, a score of 13 to 15 points may be given. Cucumber pickles that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the skin of the cucumber ingredient possesses a reasonably good, reasonably uniform typical color and is reasonably free from bleached areas; that the skin of not more than 25 percent, by weight, of the cucumber ingredient may vary markedly from a typical yellow-green to typical green color; and that in mixed pickles, chow chow pickle, and pickle relish all of the pickle ingredients possess a reasonably uniform typical color for the respective ingredient.

(c) *(SStd.) classification.* Cucumber pickles that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 12 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1694 *Uniformity of size*—(a) *(A) classification.* Cucumber pickles that are practically uniform in size may be given a score of 17 to 20 points. "Practically uniform in size" has the following meanings with respect to the various styles of cucumber pickles:

(1) *Whole pickles.* The units may vary moderately in size and fall within the following limits for the sizes designated:

(i) *2¾ inches in length and less.* (a) In 90 percent, by count, of units with the most uniform length the length of the longest unit may exceed the length of the shortest unit by not more than ½ inch, and of all the units the length of the longest unit may exceed the length of the shortest unit by not more than ¾ inch.

(b) In 90 percent, by count, of units with the most uniform diameter, the diameter of the largest unit does not exceed the diameter of the smallest unit by more than 3/16 inch, and of all the units the diameter of the largest unit may exceed the diameter of the smallest unit by not more than 5/16 inch.

(ii) *Over 2¾ inches but not over 4 inches.* (a) In 90 percent, by count, of units with the most uniform length, the length of the longest unit may exceed the length of the shortest unit by not more than ¾ inch, and of all the units the length of the longest unit may exceed the length of the shortest unit by not more than 1 inch.

(b) In 90 percent, by count, of units with the most uniform diameter, the diameter of the largest unit does not exceed the diameter of the smallest unit by more than ⅛ inch, and of all the units the diameter of the largest unit may exceed the diameter of the smallest unit by not more than ⅜ inch.

(iii) *Over 4 inches in length.* (a) In 90 percent, by count, of units with the most uniform length, the length of the longest unit may exceed the length of the shortest unit by not more than 1 inch, and of all the units the length of the longest unit may exceed the length of the shortest unit by not more than 1¼ inches.

(b) In 90 percent, by count, of units with the most uniform diameter, the diameter of the largest unit does not exceed the diameter of the smallest unit by more than 5/16 inch, and of all the units the diameter of the largest unit may exceed the diameter of the smallest unit by not more than 7/16 inch.

(2) *Sliced crosswise or cross cut.* The units may vary moderately in size but not to the extent that the appearance is materially affected and meet the following additional requirements:

(i) The largest unit is not more than 2 inches in diameter and when measured at the thickest portion the individual unit is not less than ⅛ inch nor more than ⅜ inch in thickness.

(3) *Sliced lengthwise.* The units may vary moderately in size but not to the extent that the appearance is materially affected and meet the following additional requirements:

(i) When sliced lengthwise into halves or triangular shaped units, in 90 percent, by count, of units with the most uniform length, the length of the longest unit may exceed the length of the shortest unit by not more than ½ inch, and of all the units the length of the longest unit may exceed the length of the shortest unit by not more than 1 inch.

(ii) When sliced lengthwise into units with parallel surfaces, in 90 percent, by count, of units with the most uniform length, the length of the longest unit may exceed the length of the shortest unit by not more than ½ inch, and of all the units the length of the longest unit may exceed the length of the shortest unit by not more than 1 inch. The individual unit is not less than ⅛ inch nor more than ⅜ inch in thickness when measured at the thickest portion.

(4) *Cut pickles.* The units may vary moderately in size but not to the extent that the appearance is materially affected and meet the following additional requirements:

(i) The weight of the largest unit of cucumber ingredient does not exceed the weight of the smallest such unit by more than four times the weight of the smallest unit.

(ii) Not more than 5 percent, by weight, of all the units (exclusive of peppers, pimientos, and onions) are smaller than ⅛ ounce each.

(5) *Finely cut.* The pickle ingredients may vary moderately in size but not to the extent that the appearance is materially affected.

(b) *(B) classification.* If the cucumber pickles are reasonably uniform in size, a score of 13 to 16 points may be given. "Reasonably uniform in size" has the following meanings with respect to the various styles of cucumber pickles:

(1) *Whole pickles.* The units may vary considerably in size but not to the extent that the appearance is seriously affected.

(2) *Sliced crosswise or cross cut.* The units may vary considerably in size but not to the extent that the appearance is seriously affected and meet the following additional requirements:

(i) The largest unit is not more than 2¼ inches in diameter and when measured at the thickest portion the individual unit is not less than ⅛ inch nor more than ⅜ inch in thickness.

(3) *Sliced lengthwise.* The units may vary considerably in size but not to the extent that the appearance is seriously affected and meet the following additional requirements:

(i) The weight of the largest unit of cucumber ingredient does not exceed the weight of the smallest such unit by more than eight times the weight of the smallest unit.

(ii) Not more than 10 percent, by weight, of all the units (exclusive of peppers, pimientos, and onions) are smaller than ⅛ ounce each.

(4) *Cut pickles.* The units may vary considerably in size but not to the extent that the appearance is seriously affected and meet the following additional requirements:

(i) The weight of the largest unit of cucumber ingredient does not exceed the weight of the smallest such unit by more than eight times the weight of the smallest unit.

(ii) Not more than 10 percent, by weight, of all the units (exclusive of peppers, pimientos, and onions) are smaller than ⅛ ounce each.

(5) *Finely cut.* The pickle ingredient may vary considerably in size but not to the extent that the appearance is seriously affected.

(c) *(SStd.) classification.* Cucumber pickles that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 12 points and shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a partial limiting rule).

§ 52.1695 *Defects*—(a) *General.* The factor of defects refers to the degree of freedom from grit, sand, or silt, from attached stems, curved pickles, misshapen pickles, end cuts, units damaged by mechanical injury, units blemished by brown or black discoloration, or by scars, and units blemished by other means.

(1) "Curved" means pickles that are curved at an angle of 35° or more but not more than 60°.

(2) "Misshapen" means pickles that are curved at more than a 60-degree angle, "nubbins," and other badly crooked or misshapen pickles.

(3) "Grit, sand, or silt" means any particle of earthy material, whether in the liquid packing medium or imbedded in the skin or flesh of the pickle.

(4) "Blemished" means any unit which is blemished by discoloration or blemished by other means to such an extent that the appearance or eating quality of the unit is materially affected.

(5) "Seriously blemished" means any unit blemished to such an extent that the appearance or eating quality of the unit is seriously affected.

(6) "Mechanical damage" means crushed or broken units or units damaged by other means to such an extent that the appearance or eating quality of the unit is materially affected.

(7) "Stem" means any attached stem longer than ¼ inch.

(8) "End cut" or "end cuts" means any portion of a whole pickle obtained in the preparation of pickles sliced crosswise possessing only one cut surface.

(b) *(A) classification.* Cucumber pickles that are practically free from defects may be given a score of 26 to 30 points. "Practically free from defects" means that the aforesaid defects, individually or collectively, do not materially affect the appearance or eating quality of the product and that there may be present not more than:

(1) 10 percent, by count, of curved pickles;

(2) 2 percent, by count, of misshapen pickles;

(3) 10 percent, by count, of pickles with attached stems and of such 10 percent not more than 1/10 thereof or 1 percent, by count, of all the units may have attached stems more than ½ inch in length;

(4) 10 percent, by count, of blemished units: *Provided*, That not more than 1 percent, by count, of all the units may consist of seriously blemished units;

(5) 5 percent, by weight, of end cuts in pickles sliced crosswise; and

(6) 5 percent, by count, of units damaged by mechanical injury.

(c) *(B) classification.* If the cucumber pickles are reasonably free from defects, a score of 22 to 25 points may be given. Cucumber pickles that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the aforesaid defects, individually or collectively, do not seriously affect the appearance or eating quality of the product and that there may be present not more than:

(1) 20 percent, by count, of curved pickles;

(2) 5 percent, by count, of misshapen pickles;

(3) 20 percent, by count, of pickles with attached stems and of such 20 percent not more than ⅓ thereof or 4 percent, by count, of all the units may have attached stems that exceed ½ inch in length;

(4) 20 percent, by count, of blemished units: *Provided*, That not more than 3 percent, by count, of all the units may consist of seriously blemished units;

(5) 15 percent, by weight, of end cuts in pickles sliced crosswise; and

(6) 10 percent, by count, of units damaged by mechanical injury.

(d) *(SStd.) classification.* Cucumber pickles that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1696 *Texture*—(a) *General.* The factor of texture refers to the firmness, crispness, and the condition of the cucumber pickles.

(1) "Chalky white area" means a pronounced opaque, chalky white internal area exceeding ⅓ of the diameter of the pickle. Very pale green to translucent white internal areas should not be classified as chalky white.

(b) *(A) classification.* Cucumber pickles that possess a good texture may be given a score of 26 to 30 points. "Good texture" means that the cucumber pickles are firm and crisp for the respective style and type of pack and are practically free from seedy pickles and detached seeds and that there may be present not more than:

(1) 5 percent, by count, of units, exclusive of insignificant shriveling in sweet pickles, which may be slightly shriveled, soft, or slippery;

(2) 5 percent, by count, of hollow pickles; and

(3) 10 percent, by count, of units having chalky white areas.

(c) *(B) classification.* If the cucumber pickles possess a reasonably good texture, a score of 22 to 25 points may be given. Cucumber pickles that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good texture" means that the cucumber pickles are reasonably firm and crisp, for the respective style and type of pack, and are reasonably free from seedy pickles and detached seeds and that there may be present not more than:

(1) 10 percent, by count, of units which may be markedly shriveled, soft, or slippery;

(2) 10 percent, by count, of hollow pickles; and

(3) 20 percent, by count, of units having chalky white areas.

(d) *(SStd.) classification.* Cucumber pickles that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

DEFINITIONS, METHODS OF ANALYSES, AND ILLUSTRATIONS

§ 52.1697 *Definition of terms, methods of anaylses, and illustrations.* (a) "Baumé" means the density of the packing medium determined by means of a Baumé hydrometer corrected to 20° C. (68° F.).

(b) "Brix" means the density of the packing medium determined by means of a Brix hydrometer corrected to 20° C. (68° F.).

(c) "Degrees Salometer" means the salt (NaCl) content of the packing medium determined by means of a hydrometer reading in degrees Salometer corrected to 20° C. (68° F.), without correction for other soluble solids. Degrees Salometer correspond to the percent of saturation of salt (NaCl) in aqueous solution. 3.7873° Salometer is the equivalent of 1 percent, by weight, of salt (NaCl) in aqueous solution.

(d) "Salt" means grams of salt (NaCl) per 100 milliliters of the packing medium.

(e) "Acid" means grams of acid (calculated as lactic or acetic, as the case may be) per 100 ml. of the packing medium, determined by titration with standard sodium hydroxide solution using phenolphthalein indicator.

(f) "After equalization" has the following meanings with respect to the different types and styles of cucumber pickles packed in a packing medium with or without the additional of a nutritive sweetening ingredient:

(1) When cucumber pickles are packed in a packing medium containing a nutritive sweetening ingredient, "after equalization" means the density of the packing medium, grams of salt, and grams of acid per 100 milliliters of the packing medium as determined by analysis 15 days or more after packing.

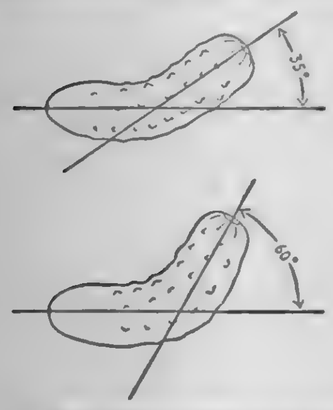
(2) When cucumber pickles are packed in a packing medium without the addition of a nutritive sweetening ingredient, "after equalization" means the degrees Salometer and grams of acid per 100 milliliters of the packing medium as determined by analysis 10 days or more after packing.

(3) "After equalization" has the following meanings with respect to the different types and styles of cucumber pickles when analyses are made prior to the elapsed time after packing indicated in this paragraph:

(i) *Whole pickles and pickles sliced lengthwise.* The pickle ingredient is prepared by taking sections ½ to 1 inch in length from the approximate midsection of a representative number of pickles. When there is a noticeable variation in the size of the pickles, select some of both large and small sizes in preparing the sample. Take proportionate quantities, by weight, of the pickle ingredient and the packing medium to make 200–250 grams and place in a Waring blendor with an equal weight of distilled water. Comminute in Waring blendor for about two minutes. Strain through a United States Standard No. 20 sieve. Make Baumé, Brix, or Salometer determinations on the strained liquid. A sufficient quantity of the strained liquid should be filtered to ob-

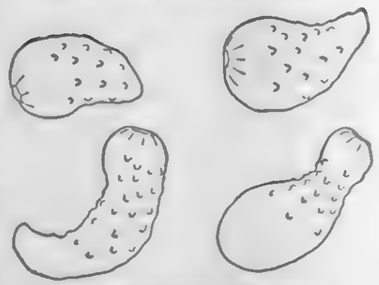
tain a clear sample for salt and acidity determinations. Multiply results of analysis by 2 to obtain final results.

(ii) *Cut, sliced crosswise, or cross cut.* The pickle ingredient in cut pickles and pickles sliced crosswise or cross cut is usually in pieces which can be readily comminuted in a Waring blendor without further cutting. Take proportionate quantities, by weight, of the pickle ingredient and the packing medium to make 200–250 grams and place in Waring blendor with an equal weight of distilled water. Proportionate quantities of onions and cauliflower, when present, should be selected in making up the sample. Comminute in Waring blendor for about 2 minutes. Strain through a United States Standard No. 20 sieve and proceed with the analyses as outlined in subdivision (i) of this subparagraph.



(iii) *Finely cut.* Mix the contents of the container thoroughly before taking a sub-sample of pickle relish. Take 200–250 grams of the well mixed sample and place in a Waring blendor with an equal weight of distilled water. Comminute in Waring blendor for about 2 minutes. Strain through a United States Standard No. 20 sieve and proceed with the analyses as outlined in subdivision (i) of this subparagraph.

(g) *Methods of analyses.* The analyses indicated in this section shall be made in accordance with methods of analysis specified in official methods of analysis of the Association of Official Agricultural Chemists or by any other method which gives equivalent results.



(h) "Unit" means an individual cucumber pickle or portion of pickle ingredient in cucumber pickles.

(i) *Measurement of curved pickles.* The angle of a curved pickle means the angle formed by the intersection of lines projected from either end approximately parallel to the sides of the pickle adjoining the stem and blossom ends, respectively.

(j) *Illustrations of curved pickles.* The following diagrams illustrate pickles curved at angles of 35 degrees and 60 degrees, respectively, the maximum and minimum curvature for "curved" pickles.

(k) *Illustrations of misshapen pickles.* The following diagrams illustrate nubbins and other badly crooked or misshapen pickles:

LOT CERTIFICATION TOLERANCES

§ 52.1698 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of cucumber pickles the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, with respect to the containers comprising the sample:

(1) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores;

(4) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of such total scores; and

(5) All containers meet all applicable standards of quality promulgated by the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SCORE SHEET

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-14-A-22]

PART 904—MILK IN THE GREATER BOSTON MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 904.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed amendment to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than April 1, 1954. Any delay beyond that date in the effective date of this order amending the order, as amended, will seriously threaten the orderly marketing of milk in the Greater Boston, Massachusetts, marketing area. The provisions of the said order are well known to handlers, the public hearing having been held on September 30–October 2, 1953, the recommended decision having been published in the FEDERAL REGISTER on January 19, 1954 (19 F. R. 333) and the final decision having been published in the FEDERAL REGISTER on March 12, 1954 (19 F. R. 1384). Therefore, reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective April 1, 1954, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the milk covered by the order amending the order, as amended, which is marketed within the Greater Boston, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (September 1953), were engaged in the production of milk for sale in the said marketing area and who participated in a referendum on the question of approval of its issuance.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Greater Boston, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and hereby further amended:

1. In §§ 904.2 (e) and 904.48 (b) (1), delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley."

2. Delete § 904.3 (d) and substitute therefor the following:

(d) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

3. Delete § 904.4 (f) (3) and substitute therefor the following:

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a Worcester regulated plant, without its intermediate movement to another plant.

4. Delete § 904.27 and substitute therefor the following:

§ 904.27 *Assignment of receipts from New York order pool plants.* Receipts from New York order pool plants shall be assigned to Class II milk, except as provided in § 904.28, and except that receipts during the months of August through March which are classified and priced in Class I–A or I–B under the New York order shall be assigned to Class I milk.

5. Delete § 904.29 (a) and substitute therefor the following:

(a) Subject to the provisions of §§ 904.47 and 904.65, all receipts of outside milk shall be considered as receipts of Class II milk, and shall be assigned to that class without regard to the specific use of such receipts.

6. Delete § 904.32 (a) and substitute therefor the following:

(a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

7. In § 904.32 add a new paragraph (c) as follows:

(c) Each handler who is not an association of producers shall, upon request from any such association, promptly furnish it with information with respect to each of its producer members who starts, resumes, or stops deliveries to any of the handler's pool plants. Such information shall include the date on which the change took place, the producer member's post office address and farm location, and, if known, the plant to which he previously delivered, or the reason for his failure to continue deliveries. In lieu of his providing the information directly to the association, the handler may authorize the market administrator to furnish the association with such information, derived from the handler's reports and records.

8. Delete the title and first sentence of § 904.41 and substitute therefor the following:

§ 904.41 *Class II Price.* The Class II price per hundredweight at plants located in the 201–210 mile zone shall be determined for each month pursuant to this section.

* * * * * *

9. Delete § 904.41 (a) and substitute therefor the following:

(a) Subject to § 904.43 (c), subtract 52.5 cents from the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month, divide the remainder by 33, multiply by 0.98, and multiply the result by 3.7.

10. Delete § 904.41 (c) and substitute therefor the following:

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month. Subject to paragraph (d) of this section, the result is the Class II price per hundredweight for milk received from producers at plants located in the 201–210 railroad freight mileage zone.

Month:	Amount (cents)
January and February	67
March and April	79
May and June	85
July	79
August and September	73
October, November, and December	67

11. Delete § 904.41 (d) and substitute therefor the following:

(d) For each month in which no cream price, as described in paragraph (a) of this section, is reported, and for each month beginning with November 1954 in which the amount determined pursuant to this paragraph is greater, than the amount computed pursuant to paragraph (c) of this section, the amount determined pursuant to this paragraph shall be the Class II price per hundredweight of milk received from producers at plants located in the 201–210 railroad freight mileage zone.

(1) Divide the average price for milk for manufacturing purposes, f. o. b. plants United States as reported on a preliminary basis by the United States Department of Agriculture for the month by the average butterfat test of such milk and multiply by 3.7.

(2) Adjust the result obtained in subparagraph (1) by the amount shown below for the applicable month:

Month:	Amount (cents)
January	+8
February	+7
March	−10
April	−14
May	−17
June	−16
July	+3
August	+12
September	+9
October	+11
November	+12
December	+12

12. In the first sentence of § 904.43 change the reference "New England Joint Tariff—M No. 6" to "New England Joint Tariff—M No. 7."

13. In § 904.44 (b) insert a new sentence immediately following the first sentence as follows: "If the Class II price is determined pursuant to § 904.41 (d), subtract the amount determined pursuant to paragraph (a) of this section from the simple average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the Chicago market, as reported for the month by the United States Department of Agriculture multiplied by 1.22."

14. Delete § 904.47 and substitute therefor the following:

§ 904.47 *Allocation of Class I milk to plants.* For the purpose of determining the respective quantities of Class I milk subject to the applicable zone prices, each pool handler's Class I milk during the month, after excluding receipts assigned to Class I pursuant to §§ 904.25 through 904.28, shall be allocated to plants as follows:

(a) His Class I milk first shall be allocated to receipts at his city plants of milk from producers' farms; and then to the receipts of outside milk at his city plants from unregulated plants located in Connecticut, Massachusetts, or Rhode Island.

(b) Thereafter, his Class I milk shall be allocated to other plants in the order of the nearness of the plants to Boston by railroad freight mileage distance. The quantity allocated to any of his pool plants shall be equal to its shipments of fluid milk products, other than cream, to the limit of its receipts from producers' farms. The quantity allocated to any unregulated plant shall be equal to its shipments of outside milk to the handler's regulated plants. However, shipments to plants located in the States of Maine, New Hampshire, Vermont, or New York, with respect to which utilization as Class II is established shall not be allocated to Class I milk.

(c) For the purpose of this section, a handler's receipts of outside milk from dairy farmers for other markets shall be considered as shipped from the unregulated plant to which such farmers ordinarily delivered.

15. In § 904.51 renumber the present paragraphs (e) and (f) as paragraph (d) and (e), respectively, and change in paragraphs (a) and (b) the reference "§ 904.66" to "§ 904.65."

16. Delete § 904.62 and substitute therefor the following:

§ 904.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 904.61 (b) and 904.65, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 904.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

17. In § 904.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92 score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day, inclusive, of the current month by the United States Department of Agriculture, and then dividing by 10."

18. Delete §§ 904.65 and 904.66 and substitute therefor the following:

§ 904.65 *Payments on outside milk.* Within 23 days after the end of each month, each handler who handles outside milk shall make such payment thereon to producers, through the market administrator, as is required by the applicable provisions of this section.

(a) Each pool handler who receives outside milk which is allocated to Class I milk in accordance with § 904.47, and each buyer-handler or producer-handler whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such allocated quantity or excess quantity as follows:

(1) On outside milk received at a regulated city plant from an unregulated plant located in Connecticut, Massachusetts, or Rhode Island, the payment shall be at the difference between the Class I price applicable to milk received from producers at city plants and the Class II price applicable to milk received from producers at plants located in the 201–210 freight mileage zone plus 5.8 cents.

(2) On outside milk received at any regulated plant from an unregulated plant located in Maine, the payment shall be at the difference between the price pursuant to § 904.40 applicable at the freight mileage zone of the unregulated plant and the lesser of either the simple average for the month of the lowest minimum semimonthly prices for Class II milk containing 3.7 percent butterfat which are established by the Maine Milk Commission for the market in which such unregulated plant is located or the price determined pursuant to § 904.41 applicable at the freight mileage zone of such plant.

(3) Except as provided in subparagraphs (1) and (2) of this paragraph, the payment on outside milk received at any regulated plant from an unregulated plant shall be at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the location or freight mileage zone of the unregulated plant.

(4) For the purposes of this paragraph, outside milk received from dairy farmers for other markets shall be considered as received from the unregulated plant to which they ordinarily delivered.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the location or freight mileage zone of the handler's plant.

19. Renumber § 904.75 as § 904.66.

20. In § 904.67 change the reference "§ 904.66" to "§ 904.65".

21. In § 904.68 (e), delete the reference "§§ 904.65 and 904.75," and substitute therefor "§ 904.66".

22. Renumber §§ 904.77 and 904.78 as §§ 904.72 and 904.73, respectively.

23. In § 904.12 (c), change the reference "§ 904.77" to "§ 904.72".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of March 1954 to be effective on and after April 1, 1954.

[SEAL] JOHN A. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2222; Filed, Mar. 29, 1954; 8:51 a. m.]

[Docket No. AO-33-A21]

PART 932—MILK IN THE FORT WAYNE, INDIANA, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 932.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Fort Wayne, Indiana, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effecuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this amendatory order effective on April 1, 1954. Such action is necessary in the public interest in order to reflect current marketing conditions and to facilitate the orderly marketing of milk produced for the Fort Wayne, Indiana marketing area. Accordingly, any further delay in the effective date of this order will seriously threaten the orderly marketing of milk in the marketing area. The provisions of this amendatory order are well known to handlers and producers, the public hearing having been convened on February 15, 1954, and a decision containing the terms and provisions of the order having been issued on March 16, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4 (c) Administrative Procedure Act, Public Law 404, 79th Congress, 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations or producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended,) of more than 50 percent of the volume of the milk covered by this order amending the order, as amended, which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers, who during the determined representative period (January 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Fort Wayne, Indiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order is hereby amended as follows:

Amend § 932.53 (b) by adding the following: "*Provided*, That during April, May, June, and July, 1954 the differential on butterfat accounted for as manufactured into butter shall be computed by multiplying by 1.08 the average daily wholesale price per pound of 92 score butter in the Chicago market as reported by the Department during the delivery period, and dividing the result by 10: *And, provided further*, That butterfat shall not be accounted for as manufactured into butter, hereunder to the extent that such utilization is claimed under any other Federal order."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of March 1954, to be effective on and after the 1st day of April 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2225; Filed, Mar. 29, 1954; 8:52 a. m.]

[Docket No. AO-83-A-18]

PART 934—MILK IN THE MERRIMACK VALLEY, MASSACHUSETTS, MILK MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 934.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *The findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed amendment to the order, as amended, regulating the handling of milk in the Merrimack Valley (Lowell-Lawrence), Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than April 1, 1954. Any delay beyond that date in the effective date of this order amending the order, as amended, will seriously threaten the orderly marketing of milk in the Merrimack Valley, Massachusetts, marketing area. The provisions of the said order are well known to handlers; the public hearing having been held on September 30–October 2, 1953, the recommended decision having been published in the FEDERAL REGISTER on January 19, 1954 (19 F. R. 333) and the final decision having been published in the FEDERAL REGISTER on March 12, 1954 (19 F. R. 1384). Therefore, reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective April 1, 1954, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the milk covered by the order amending the order, as amended, which is marketed within the Merrimack Valley, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the

interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (November 1953), were engaged in the production of milk for sale in the said marketing area and who participated in a referendum on the question of approval of its issuance.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Merrimack Valley (Lowell-Lawrence), Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and hereby further amended:

The part heading for Part 934 is amended to read as set forth above and further changes are set forth below:

1. In § 934.1 (b) and (c), delete the words "Lowell-Lawrence, Massachusetts, marketing area" and substitute therefor the words "Merrimack Valley, Massachusetts marketing area".

2. Delete § 934.3 (b) and substitute therefor the following:

(b) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank trucks; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

3. In § 934.12 (b), change the reference "§ 934.71" to "§ 934.72".

4. Delete § 934.27 (c) and substitute therefor the following:

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified and priced in Classes I–A or I–B under the New York order.

5. Delete § 934.32 (a) and substitute therefor the following:

(a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

6. Delete all of the language of § 934.40 following the words "plus 52 cents".

7. Delete § 934.41 and substitute therefor the following:

§ 934.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to § 904.41 of this subchapter (the Boston Order) plus 5.8 cents.

8. In § 934.42, change the heading of the table from "Differentials for Determination of Country Plant Prices" to "Differentials for Determination of Zone Prices".

9. Delete § 934.43 and substitute therefor the following:

§ 934.43 *Automatic changes in zone price differentials and other price factors.* In case the rail tariff for the transportation of milk or cream, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in the table in § 934.42 and the price factors specified in §§ 934.40 and 934.41 shall be correspondingly increased or decreased. Such adjustments shall become effective in the first complete month in which the changes in rail tariffs apply. Adjustments pursuant to paragraphs (a), (b), and (c) of this section shall be made to the nearest one-half cent per hundredweight, and adjustments pursuant to paragraph (d) shall be made to the nearest one-tenth cent per hundredweight.

(a) If the rail tariff for transporting milk in 40-quart cans in carlots of 200 or more cans is changed, the differentials set forth in column B of the table shall be adjusted to the extent of the change.

(b) If the rail tariff for transporting milk in carlots in tank cars for mileage distances of 201–210 miles is changed, the price factor of 52 cents specified in § 934.40 shall be adjusted to the extent of the change.

(c) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans is changed, the differentials set forth in column C of the table shall be adjusted by the result obtained by dividing the tariff change by 9.05.

(d) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans for mileage distances of 201–210 miles is changed, the price factor of 5.8 cents specified in § 934.41 shall be adjusted by the result obtained by multiplying the tariff change by 1.03 and then dividing by 9.05.

10. In § 934.48 (b) (1) delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley".

11. In § 934.50 (g) delete the reference "§ 904.66 (b)" and substitute therefor "§ 904.65 (b)".

12. Delete § 934.62 and substitute therefor the following:

§ 934.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 934.61 (b), 934.65, and 934.66, the market administrator shall promptly issue to the handler a charge bill or credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 934.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

13. In § 934.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92 score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

14. In § 934.68 (e), delete the reference "§§ 934.69 and 934.70," and substitute therefor "§§ 934.70 and 934.71,".

15. In the first sentence of § 934.69 delete the words "25th day" and substitute therefor the words "23d day".

16. Renumber §§ 934.69 through 934.72 as §§ 934.70 through 934.73, respectively.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of March 1954 to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS.
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2221; Filed, Mar. 29, 1954; 8:51 a. m.]

[Docket No. AO-113-A15]

PART 947—MILK IN THE FALL RIVER, MASSACHUSETTS MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 947.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed amendment to the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than April 1, 1954. Any delay beyond that date in the effective date of this order amending the order, as amended, will seriously threaten the orderly marketing of milk in the Fall River, Massachusetts, marketing area. The provisions of the said order are well known to handlers, the public hearing having been held on September 30–October 2, 1953, the recommended decision having been published in the FEDERAL REGISTER on January 19, 1954 (19 F. R. 333) and the final decision having been published in the FEDERAL REGISTER on March 12, 1954 (19 F. R. 1384). Therefore, reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective April 1, 1954, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the milk covered by the order amending the order, as amended, which is marketed within the Fall River, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (December 1953), were engaged in the production of milk for sale in the said marketing area and who participated in a referendum on the question of approval of its issuance.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Fall River, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and hereby further amended:

1. In §§ 947.50 and 947.53 delete the reference "New England Joint Tariff M No. 6" and substitute therefor the reference "New England Joint Tariff M No. 7".

2. Delete § 947.51 and substitute therefor the following:

§ 947.51 *Class II prices.* Each handler shall pay producers or cooperative associations for Class II milk containing 3.7 percent butterfat delivered by them to plants located within 100 miles of the City Hall in Fall River, not less than the Class II price determined for the month pursuant to § 904.41 of this subchapter (the Boston order) for Class II milk received from producers at plants located in the 201–210 freight mileage zone under such order, plus the amount of 5.8 cents: *Provided*, That the factor 5.8 cents shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof. The adjusted rate shall be computed by dividing such cream freight rate by 9.05, then multiplying by 1.03 and adjusting the result to the nearest one-tenth cent. Any such adjusted rate shall become effective in the first complete month in which such increase or decrease in the tariff applies.

3. In § 947.54 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

4. In § 947.48 (b) (1) delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of March 1954 to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS.
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2223; Filed, Mar. 29, 1954; 8:51 a. m.]

[Docket No. AO-203-A4]

PART 996—MILK IN THE SPRINGFIELD, MASSACHUSETTS, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 996.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed amendment to the order, as amended, regulating the handling of milk in the Springfield, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than April 1, 1954. Any delay beyond that date in the effective date of this order amending the order, as amended, will seriously threat-

en the orderly marketing of milk in the Springfield, Massachusetts, marketing area. The provisions of the said order are well known to handlers—the public hearing having been held on September 30–October 2, 1953, the recommended decision having been published in the FEDERAL REGISTER on January 19, 1954 (19 F. R. 333) and the final decision having been published in the FEDERAL REGISTER on March 12, 1954 (19 F. R. 1384). Therefore, reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective April 1, 1954, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the milk covered by the order amending the order, as amended, which is marketed within the Springfield, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (November 1953), were engaged in the production of milk for sale in the said marketing area and who participated in a referendum on the question of approval of its issuance.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Springfield, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and hereby further amended:

1. Delete § 996.3 (b) and substitute therefor the following:

(b) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

2. Delete § 996.27 (c) and substitute therefor the following:

(c) Receipts from New York order pool plants shall be assigned to Class I if classified and priced in Classes I–A or I–B under the New York order.

3. Delete § 996.32 (a) and substitute therefor the following:

(a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

4. Delete all of the language of § 996.40 following the words "plus 52 cents".

5. Delete § 996.41 and substitute therefor the following:

§ 996.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to § 904.41 of this subchapter (the Boston order) plus 5.8 cents.

6. In §§ 996.2 (e), 996.4 (f) (2), 996.16 (c), (d), and (e), 996.20 (c), 996.27 (b), 996.48 (b) (1), and 996.66, delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley".

7. Delete § 996.43 and substitute therefor the following:

§ 996.43 *Automatic changes in zone price differentials and other price factors.* In case the rail tariff for the transportation of milk or cream, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in the table in § 996.42 and the price factors specified in § § 996.40 and 996.41 shall be correspondingly increased or decreased. Such adjustments shall become effective in the first complete month in which the changes in rail tariffs apply. Adjustments pursuant to paragraphs (a), (b), and (c) of this section shall be made to the nearest one-half cent per hundredweight, and adjustments pursuant to paragraph (d) of this section shall be made to the nearest one-tenth cent per hundredweight.

(a) If the rail tariff for transporting milk in 40-quart cans in carlots of 200 or more cans is changed, the differentials set forth in column B of the table shall be adjusted to the extent of the change.

(b) If the rail tariff for transporting milk in carlots in tank cars for mileage distances of 201–210 miles is changed, the price factor of 52 cents specified in § 996.40 shall be adjusted to the extent of the change.

(c) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans is changed, the differentials set forth in column C of the table shall be adjusted by the result obtained by dividing the tariff change by 9.05.

(d) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans for mileage distances of 201–210 miles is changed, the price factor of 5.8 cents specified in § 996.41 shall be adjusted by the result obtained by multiplying the tariff change by 1.03 and then dividing by 9.05.

8. Delete § 996.62 and substitute therefor the following:

§ 996.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 996.61 (b), 996.65, and 996.66, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 996.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

9. In § 996.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

10. In the first sentence of § 996.76 delete the words "25th day" and substitute therefor the words "23d day".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of March 1954 to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54–2220; Filed, Mar. 29, 1954; 8:50 a. m.]

[Docket No. AO–204–A4]

PART 999—MILK IN THE WORCESTER, MASSACHUSETTS, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 999.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed amendment to the order, as amended, regulating the handling of milk in the Worcester, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than April 1, 1954. Any delay beyond that date in the effective date of this order amending the order, as amended, will seriously threaten the orderly marketing of milk in the Worcester, Massachusetts, marketing area. The provisions of the said order are well known to handlers—the public hearing having been held on September 30–October 2, 1953, the recommended decision having been published in the FEDERAL REGISTER on January 19, 1954 (19 F. R. 333) and the final decision having been published in the FEDERAL REGISTER on March 12, 1954 (19 F. R. 1384). Therefore, reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective April 1, 1954, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the milk covered by the order amending the order, as amended, which is marketed within the Worcester, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (November 1953), were engaged in the production of milk for sale in the said marketing area and who participated in a referendum on the question of approval of its issuance.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Worcester, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and hereby further amended:

1. Delete § 999.3 (b) and substitute therefor the following:

(b) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

2. In §§ 999.2 (e), 999.4 (f) (2), 999.16 (c), (d), and (e), 999.20 (c), 999.27 (b), 999.48 (b) (1), and 999.66, delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley".

3. Delete § 999.27 (c) and substitute therefor the following:

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified and priced in Classes I–A or I–B under the New York order.

4. Delete § 999.32 (a) and substitute therefor the following:

(a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

5. Delete all of the language of § 999.40 following the words "plus 52 cents".

6. Delete § 999.41 and substitute therefor the following:

§ 999.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to § 904.41 of this subchapter (the Boston order) plus 5.8 cents.

7. Delete § 999.43 and substitute therefor the following:

§ 999.43 *Automatic changes in zone price differentials and other price factors.* In case the rail tariff for the transportation of milk or cream, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in the table in § 999.42 and the price factors specified in §§ 999.40 and 999.41 shall be correspondingly increased or decreased. Such adjustments shall become effective in the first complete month in which the changes in rail tariffs apply. Adjustments pursuant to paragraphs (a), (b), and (c) of this section shall be made to the nearest one-half cent per hundredweight and adjustments pursuant to paragraph (d) of this section shall be made to the nearest one-tenth cent per hundredweight.

(a) If the rail tariff for transporting milk in 40-quart cans in carlots of 200 or more cans is changed, the differentials set forth in column B of the table shall be adjusted to the extent of the change.

(b) If the rail tariff for transporting milk in carlots in tank cars for mileage distances of 201–210 miles is changed, the price factor of 52 cents specified in § 999.40 shall be adjusted to the extent of the change.

(c) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans is changed, the differentials set forth in column C of the table shall be adjusted by the result obtained by dividing the tariff change by 9.05.

(d) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans for mileage distances of 201–210 miles is changed, the price factor of 5.8 cents specified in § 999.41 shall be adjusted by the result obtained by multiplying the tariff change by 1.03 and then dividing by 9.05.

8. Delete § 999.50 (g).

9. Delete § 999.62 and substitute therefor the following:

§ 999.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 999.61 (b), 999.65, and 999.66, the mar-

ket administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 999.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

10. In § 999.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

11. In the first sentence of § 999.70 delete the words "25th day" and substitute therefor the word "23d day".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. [illegible])

Issued at Washington, D. C., this 24th day of March 1954 to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2224; Filed, Mar. 29, 1954; 8:51 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 20-18]

PART 20—PILOT CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 20.31 of Part 20 requires that an applicant for a commercial pilot certificate, who is not a United States citizen or an individual who has been admitted to the United States for permanent residence, must be a citizen of a country whose government grants or has undertaken to grant to citizens of the United States airman privileges and employment rights equivalent to those which such government grants to its own citizens.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive any pilot certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 20 of the Civil Air Regulations (14 CFR Part 20, as amended) effective immediately:

By amending § 20.31 to read as follows:

§ 20.31 *Citizenship.* An applicant for a pilot certificate with a commercial pilot rating may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-2194; Filed, Mar. 29, 1954; 8:46 a. m.]

[Civil Air Regs., Amdt. 21-18]

PART 21—AIRLINE TRANSPORT PILOT RATING

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 21.12 of Part 21 requires that an applicant for a pilot certificate with an airline transport pilot ratings be a citizen of the United States or an individual who has been admitted to the United States for permanent residence, or a citizen of any other country whose government grants or undertakes to grant to citizens of the United States airline transport pilot privileges and employment rights equivalent to those which such government grants to its own citizens.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive an airline transport pilot rating for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foreging, the Civil Aeronautics Board hereby amends Part 21 of the Civil Air Regulations (14 CFR Part 21, as amended) effective immediately:

By amending § 21.12 to read as follows:

§ 21.12 *Citizenship.* An applicant for a pilot certificate with an airline transport pilot rating may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-2195; Filed, Mar. 29, 1954; 8:46 a. m.]

[Civil Air Regs., Amdt. 22-9]

PART 22—LIGHTER-THAN-AIR PILOT CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 22.12 (c) of Part 22 requires that an applicant for a lighter-than-air pilot certificate with commercial rating shall be a citizen of the United States, or an individual who has been admitted to the United States for permanent residence, or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States commercial lighter-than-air pilot privileges and employment rights equivalent to those which such government grants to its own citizens.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a commercial lighter-than-air pilot certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 22 of the Civil Air Regulations (14 CFR Part 22, as amended) effective immediately:

By amending § 22.12 (c) to read as follows:

§ 22.12 *Commercial lighter-than-air pilot certificate.* * * *

(c) *Citizenship.* An applicant for a lighter-than-air pilot certificate with commercial rating may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-2196; Filed, Mar. 29, 1954; 8:47 a. m.]

[Civil Air Regs., Amdt. 24-3]

PART 24—MECHANIC AND REPAIRMAN CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective §§ 24.15 and 24.110 of Part 24 require that an applicant for a mechanic certificate or a repairman certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence; or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States mechanic or repairman privileges and employment rights equivalent to those which such government grants to its own citizens; or a citizen of any country or a person without nationality who is in the employ of a United States air carrier, in the employ of a holder of a United States air agency certificate, or who does not meet either of the immediate preceding requirements but who will in the opinion of the Administrator perform duties under his certificate which will benefit the operation of United States aircraft. The holder of a certificate issued under this last provision may not exercise the privileges conferred by the certificate within the United States.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a mechanic or repairman certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 24 of the Civil Air Regulations (14 CFR Part 24, as amended) effective immediately:

1. By amending § 24.15 to read as follows:

§ 24.15 *Citizenship.* An applicant for a mechanic certificate may be a citizen of any country or a person without nationality.

2. By amending § 24.110 to read as follows:

§ 24.110 *Citizenship.* An applicant for a repairman certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 25-5]

PART 25—PARACHUTE RIGGER CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 25.21 of Part 25 requires that an applicant for a parachute rigger certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence; or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States parachute rigger privileges and employment rights equivalent to those which such government grants to its own citizens; or a citizen of any country or a person without nationality who is in the employ of a United States air carrier, in the employ of a holder of a United States air agency certificate, or who does not meet either of the immediate preceding requirements but who will in the opinion of the Administrator perform duties under his certificate which will benefit the operation of United States aircraft. The holder of a certificate issued under this last provision may not exercise the privileges conferred by the certificate within the United States.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a parachute rigger certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 25 of the Civil Air Regulations (14 CFR Part 25, as amended) effective immediately:

By amending § 25.21 to read as follows:

§ 25.21 *Citizenship.* An applicant for a parachute rigger certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 26-8]

PART 26—AIR TRAFFIC CONTROL-TOWER OPERATOR CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 26.1 (d) of Part 26 requires that an applicant for a control-tower operator certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence; or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States control-tower operator privileges and employment rights equivalent to those which such government grants to its own citizens; or a citizen of any country or a person without nationality who is in the employ of a United States air carrier, in the employ of a holder of a United States air agency certificate, or who does not meet either of the immediate preceding requirements but who will in the opinion of the Administrator perform duties under his certificate which will benefit the operation of United States aircraft. The holder of a certificate issued under this last provision may not exercise the privileges conferred by the certificate within the United States.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a control-tower operator certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 26 of the Civil Air Regulations (14 CFR Part 26, as amended) effective immediately:

By amending § 26.1 (d) to read as follows:

§ 26.1 *Control-tower operator certificate requirements.* * * *

(d) *Citizenship.* An applicant for a control-tower operator certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

[Civil Air Regs., Amdt. 27-7]

PART 27—AIRCRAFT DISPATCHER CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 27.4 of Part 27 requires that an applicant for an aircraft dispatcher certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence; or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States aircraft dispatcher privileges and employment rights equivalent to those which such government grants to its own citizens; or a citizen of any country or a person without nationality who is in the employ of a United States air carrier, in the employ of a holder of a United States air agency certificate, or who does not meet either of the immediate preceding requirements but who will in the opinion of the Administrator perform duties under his certificate which will benefit the operation of United States aircraft. The holder of a certificate issued under this last provision may not exercise the privileges conferred by the certificate within the United States.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive an aircraft dispatcher certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 27 of the Civil Air Regulations (14 CFR Part 27, as amended) effective immediately:

By amending § 27.4 to read as follows:

§ 27.4 *Citizenship.* An applicant for an aircraft dispatcher certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

[Civil Air Regs., Amdt. 33-8]

PART 33—FLIGHT RADIO OPERATOR CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 33.21 of Part 33 requires that an applicant for a flight radio operator certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence, or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States flight radio operator privileges and employment rights equivalent to those which such government grants to its own citizens.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a flight radio operator certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 33 of the Civil Air Regulations (14 CFR Part 33, as amended) effective immediately:

By amending § 33.21 to read as follows:

§ 33.21 *Citizenship.* An applicant for a flight radio operator certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 34-7]

PART 34—FLIGHT NAVIGATOR CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 34.3 of Part 34 requires that an applicant for a flight navigator certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence, or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States flight navigator privileges and employment rights equivalent to those which such government grants to its own citizens.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a flight navigator certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 34 of the Civil Air Regulations (14 CFR Part 34, as amended) effective immediately:

By amending § 34.3 to read as follows:

§ 34.3 *Citizenship.* An applicant for a flight navigator certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[Civil Air Regs., Amdt. 35-7]

PART 35—FLIGHT ENGINEER CERTIFICATES

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 35.3 of Part 35 requires that an applicant for a flight engineer certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence, or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States flight engineer privileges and employment rights equivalent to those which such government grants to its own citizens.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a flight engineer certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 35 of the Civil Air Regulations (14 CFR Part 35, as amended) effective immediately:

By amending § 35.3 to read as follows:

§ 35.3 *Citizenship.* An applicant for a flight engineer certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602; 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

[Civil Air Regs., Amdt. 40-4]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATING RULES

AIR-SPEED INDICATORS AND ASSOCIATED OPERATIONS REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Revised Part 40 of the Civil Air Regulations contains no requirements specifying the dimensional units to be used in air carrier operations. It has been recommended, however, by the Air Coordinating Committee, the Department of Defense, the Air Transport Association of America, and the Air Line Pilots Association, that the regulations should require the use of nautical miles instead of statute miles, and the use of air-speed expressed in knots instead of miles per hour. A notice of proposed rule making was published on December 2, 1953, in the FEDERAL REGISTER (18 F. R. 7659), in which it was proposed that the operations requirements pertaining to air carriers be amended to require that air-speed limitations and related information be in knots and nautical miles. It was further proposed that after January 1, 1956, all air-speed indicators in aircraft operated under this part should be calibrated in knots. While comment received indicated diverse views, the organizations most concerned with this part favored the proposed changes; namely, the Air Transport Association of America and the Air Line Pilots Association.

This amendment, accordingly, requires that air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards be in the same units as used on the air-speed indicator, that all such indicators be calibrated in the same units when more than one air-speed indicator is required, and, for air-speed indicators calibrated in statute miles per hour, that a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots. Since it will require a certain amount of time to comply with these requirements they will become effective on October 1, 1954. This amendment also contemplates that in the future all air-speed indicators in aircraft operated under this part will be calibrated in knots and that all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards will be expressed in knots. Since it will take about two years for airplanes to be equipped with these indicators, these latter provisions will become effective April 1, 1956.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) effective October 1, 1954:

By amending § 40.170 by changing present paragraph (b) to paragraph (c) and adding a new paragraph (b) to read as follows:

§ 40.170 *Aircraft instruments and equipment for all operations.* * * *

(b) The following provisions apply to air-speed limitations, air-speed indicators, and related information:

(1) Air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in the same units as used on the air-speed indicator.

(2) When more than one air-speed indicator is required, all such indicators shall be calibrated to read in the same units.

(3) When an air-speed indicator is calibrated in statute miles per hour, a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots.

(4) On and after April 1, 1956, all air-speed indicators shall be calibrated in knots, and all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in knots.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 54-2190; Filed, Mar. 29, 1954; 8:45 a. m.]

[Civil Air Regs., Amdt. 41-11]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

AIR-SPEED INDICATORS AND ASSOCIATED OPERATIONS REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Presently effective Part 41 of the Civil Air Regulations contains no requirements specifying the dimensional units to be used in air carrier operations. It has been recommended, however, by the Air Coordinating Committee, the Department of Defense, the Air Transport Association of America, and the Air Line Pilots Association, that the regulations should require the use of nautical miles instead of statute miles, and the use of air speed expressed in knots instead of miles per hour. A notice of proposed rule making was published on December 2, 1953, in the FEDERAL REGISTER (18 F. R. 7659), in which it was proposed that the operations requirements pertaining to air carriers be amended to require that air-speed limitations and related information be in knots and nautical miles. It was further proposed that after January 1, 1956, all air-speed indicators in aircraft operated under this part should be calibrated in knots. While comment received indicated diverse views, the organizations most concerned with this part favored the proposed changes; namely, the Air Transport Association of America and the Air Line Pilots Association.

This amendment, accordingly, requires that air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards be in the same units as used on the air-speed indicator, that all such indicators be calibrated in the same units when more than one air-speed indicator is required, and, for air-speed indicators calibrated in statute miles per hour, that a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots. Since it will require a certain amount of time to comply with these requirements they will become effective October 1, 1954. This amendment also contemplates that in the future all air-speed indicators in aircraft operated under this part will be calibrated in knots and that all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards will be expressed in knots. Since it will take about two years for airplanes to be equipped with these indicators, these latter provisions will become effective April 1, 1956.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) effective October 1, 1954:

By adding a new § 41.45 to read as follows:

§ 41.45 *Air-speed indicators, limitations, and related information.* (a) Air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in the same units as used on the air-speed indicator.

(b) When more than one air-speed indicator is required, all such indicators shall be calibrated to read in the same units.

(c) When an air-speed indicator is calibrated in statute miles per hour, a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots.

(d) On and after April 1, 1956, all air-speed indicators shall be calibrated in knots, and all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in knots.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[F. R. Doc. 54-2191; Filed, Mar. 29, 1954; 8:45 a. m.]

[Civil Air Regs. Amdt. 42-21]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

AIR-SPEED INDICATORS AND ASSOCIATED OPERATIONS REQUIREMENTS FOR LARGE AIRCRAFT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Presently effective Part 42 of the Civil Air Regulations contains no requirements specifying the dimensional units to be used in air carrier operations. It has been recommended, however, by the Air Coodinating Committee, the Department of Defense, the Air Transport Association of America, and the Air Line Pilots Association, that the regulations should require the use of nautical miles instead of statute miles, and the use of air speed expressed in knots instead of miles per hour. A notice of proposed rule making was published on December 2, 1953, in the FEDERAL REGISTER (18 F. R. 7659), in which it was proposed that the operations requirements pertaining to air carriers be amended to require that air-speed limitations and related information be in knots and nautical miles. It was further proposed that after January 1, 1956, all air-speed indicators in large aircraft operated under this part should be calibrated in knots. While comment received indicated diverse views, those operators primarily affected by this amendment offered no objection to the proposed changes.

This amendment, accordingly, requires for the operation of large aircraft that air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards be in the same units as used on the air-speed indicator, that all such indicators be calibrated in the same units when more than one air-speed indicator is required, and, for air-speed indicators calibrated in statute miles per hour, that a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots. Since it will require a certain amount of time to comply with these requirements they will become effective on October 1, 1954. This amendment also contemplates that in the future all air-speed indicators in large aircraft operated under this part will be calibrated in knots and that all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards will be expressed in knots. Since it will take about two years for airplanes to be equipped with these indicators, these latter provisions will become effective April 1, 1956.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective October 1, 1954:

By adding a new § 42.22a to read as follows:

§ 42.22a *Air-speed indicators, limitations, and related information for large aircraft.* (a) Air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in the same units as used on the air-speed indicator.

(b) When more than one air-speed indicator is required, all such indicators shall be calibrated to read in the same units.

(c) When an air-speed indicator is calibrated in statute miles per hour, a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots.

(d) On and after April 1, 1956, all air-speed indicators shall be calibrated in knots, and all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in knots.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[F. R. Doc. 54-2192; Filed, Mar. 29, 1954; 8:46 a. m.]

[Civil Air Regs., Amdt. 51-5]

PART 51—GROUND INSTRUCTOR RATING

CITIZENSHIP REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 51.1 (c) of Part 51 requires that an applicant for a ground instructor rating and certificate be a citizen of the United States or an individual who has been admitted to the United States for permanent residence; or a citizen of any other country whose government grants or has undertaken to grant to citizens of the United States ground instructor privileges and employment rights equivalent to those which such government grants to its own citizens; or a citizen of any country or a person without nationality who is in the employ of a United States air carrier, in the employ of a holder of a United States air agency certificate, or who does not meet either of the immediate preceding requirements but who will in the opinion of the Administrator perform duties under his certificate which will benefit the operation of United States aircraft. The holder of a certificate issued under this last provision may not exercise the privileges conferred by the certificate within the United States.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive a ground instructor rating and certificate for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 51 of the Civil Air Regulations (14 CFR Part 51, as amended) effective immediately:

By amending § 51.1 (c) to read as follows:

§ 51.1 *Ground instructor rating and certificate requirements.* • • •

(c) *Citizenship.* An applicant for a ground instructor rating and certificate may be a citizen of any country or a person without nationality.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 607; 52 Stat. 1007, 1011; 49 U. S. C. 551, 557)

By the Civil Aeronautics Board.

[F. R. Doc. 54-2204; Filed, Mar. 29, 1954; 8:48 a. m.]

[Civil Air Regs., Amdt. 60-3]

PART 60—AIR TRAFFIC RULES

IFR FLIGHT PLAN

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of March 1954.

Currently effective § 60.41 (g) requires a pilot, in filing an IFR flight plan, to set forth his proposed true air speed at cruising altitude in miles per hour. It has been recommended by the Air Coordinating Committee, the Department of Defense, the Air Transport Association of America, and the Air Line Pilots Association, that provisions be made in the Civil Air Regulations to permit the use of nautical units in the control of air traffic. A notice of proposed rule making was published on December 2, 1953, in the FEDERAL REGISTER (18 F. R. 7659) and concurrently circulated as Draft Release 53-30, in which it was proposed that the requirement for setting forth in the flight plan proposed true air speed in miles per hour be eliminated, thus permitting a pilot to list the speed in either knots or miles per hour. Comment has been received expressing diverse views on this matter, and has been considered. The proposed change will affect appreciably only those persons who operate IFR. The heretofore named groups, who represent persons comprising the most frequent users of the airways under IFR, commented favorably on this proposal.

Much of the comment received from general aviation indicated that there exists great apprehension that this proposal will impose a hardship on private pilots in particular. The Board wishes therefore to reaffirm its intent as stated in Draft Release 53-30 that no change will be necessitated by reason of this amendment in the dimensional units currently associated with visibilities, approach charts, radio facility charts, airway widths, control zone dimensions, and non-air-carrier aircraft instruments. Although the normal operation of the Federal Airways System will be based upon the nautical system, it may be stated that no burden will be placed on general aviation either for VFR or IFR operations.

In view of the fact that the most frequent users of the airways under IFR favor the use of nautical units in air traffic control, and since such use will not create an undue burden on other users of the airways, and since § 60.41 (g) prevents the use of nautical units in IFR flight plans, the Board believes that the amendment is in the public interest.

Accordingly, this amendment eliminates the requirement that the proposed air speed must be listed on an IFR flight plan in miles per hour, merely requiring that the air speed must be listed thus permitting the pilot to use either nautical or statute units of air speed. It is expected that flight information relating to distance and speed generally will be provided in nautical miles and knots. However, upon specific request from the pilots of small civil aircraft and of large civil aircraft other than those under Parts 40, 41, and 42, this information, with the exception of that involving radar control, will be provided in statute miles and miles per hour

It is expected that the Civil Aeronautics Administration will not be providing flight information in terms of nautical miles and knots for about six months. This amendment will, therefore, become effective October 1, 1954

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matters presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 60 of the Civil Air Regulations (14 CFR Part 60, as amended) effective October 1, 1954:

By amending § 60.41 (g) to read as follows:

§ 60.41 *IFR flight plan* • • •

(g) Proposed true air speed at cruising altitude;

(Sec. 205, 52 Stat. 984; 49 U S C 425. Interprets or applies sec. 601, 52 Stat. 1007; 49 U. S. C. 551)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 54-2193; Filed, Mar. 29, 1954; 8:46 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS UNDER THE SECURITIES EXCHANGE ACT OF 1934

DECLARING EFFECTIVE AMENDED EXCHANGE DISTRIBUTION PLAN OF THE SAN FRANCISCO STOCK EXCHANGE

The Securities and Exchange Commission has declared effective until the close of business on August 27, 1954, an amended Exchange Distribution Plan filed by the San Francisco Stock Exchange. This amended Plan is substantially the same as the Exchange Distribution Plan previously declared effective for a six month period.

The amended Plan, as did the previous Plan, permits members, member firms, and member corporations (hereinafter referred to as participating members) to make a distribution of a block of securities at the market on the Exchange when the regular market on the Exchange cannot otherwise absorb the block of securities within a reasonable time and at a reasonable price or prices. The Plan contains certain anti-manipulative controls and also requires participating members to make certain disclosures to persons whose orders are solicited. The amended Plan differs from the Plan previously declared effective in the two following minor respects: (1) The provision prohibiting participating members and others from bidding for or purchasing the security during the distribution has been modified to permit the purchases required solely in connection with the "crossing" of orders on the floor of the Exchange (this "crossing" procedure was provided for under the Plan before it was amended) and (2) there is a specific provision in the amended Plan that transactions effected when orders are "crossed" on the floor shall be printed on the ticker tape.

The text of the Commission's action follows:

The Securities and Exchange Commission, acting pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 10 (b) and 23 (a) thereof and § 240.10b–2 (d) (Rule X-10B–2 (d)) thereunder, deeming it necessary for the exercise of the functions vested in it, and having due regard for the public interest and for the protection of investors, does hereby declare effective the amended Exchange Distribution Plan of the San Francisco Stock Exchange until the close of business on August 27, 1954 on condition that if at any time it appears to the Commission necessary or appropriate in the public interest or for the protection of investors so to do the Commission may suspend or terminate the effectiveness of said Plan by sending at least ten days' written notice to the San Francisco Stock Exchange.

The Commission for good cause finds that the notice and public procedure specified in paragraphs 4 (a) and (b) of the Administrative Procedure Act are unnecessary since the amended Exchange Distribution Plan is substantially the same as that heretofore declared effective for such Exchange; and the Commission further finds, in accordance with the provisions of section 4 (c) of the Administrative Procedure Act, that paragraph (d) of Rule X-10B–2 and this action have the effect of granting exemption and relieving restriction, and that, therefore, this action may be and is hereby declared effective March 22, 1954.

(Sec. 23, 48 Stat. 901, as amended; 15 U. S. C. 78w)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

MARCH 22, 1954.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 576—CARE AND DISPOSITION OF THE PSYCHOTIC

APPLICANTS FOR ENLISTMENT AND SELECTIVE SERVICE REGISTRANTS; PSYCHOTIC NONMILITARY CASES

Sections 576.1 and 576.2 are rescinded and the following substituted therefor:

§ 576.1 *Applicants for enlistment and Selective Service registrants.* If applicants for enlistment and Selective Service registrants are discovered to be psychotic after arrival at a Recruiting Main Station, an Induction Station, or Armed Forces Examining Station and before they are enlisted or inducted, they will be disposed of as follows:

(a) Those whose release will not be dangerous to themselves or others will be rejected and disposed of under the regulations governing the disposal of rejected applicants and registrants.

(b) Those whose psychosis is of a type that would probably make their release dangerous to themselves or others will be delivered to relatives or to the civil authorities designated by law to apply for the commitment of psychotic or insane persons residing in the place where they applied for enlistment or at place of induction. The station commander will provide the necessary escort for such delivery and issue the necessary travel orders, transportation, and subsistence (in kind or by commutation, as may be most suitable).

§ 576.2 *Psychotic nonmilitary cases*—(a) *Hospitalization.* (1) Section 577.15 of this subchapter authorizes the admission to and treatment in Army hospitals of certain nonmilitary categories of personnel. Mental illness is not a bar to admission provided adequate facilities for such treatment are determined to be available by the local commanding officer.

(2) Army hospitals are not authorized to accept patients permanently committed by civilian legal authority.

(b) *Disposition.* (1) Military facilities are designed for the care and treatment of active duty military patients. Nonmilitary mentally ill patients will be hospitalized only under emergency conditions or where civilian facilities are not available.

(2) No civilian patient may be retained without his consent in the absence of competent civil legal authorization. However, there is a moral responsibility not to release civilian patients who are so mentally ill that they cannot reasonably care for themselves or who are dangerous to themselves or others until adequate provision can be made for the patient's safety and welfare.

(i) Disposition will ordinarily be made to the care of a responsible relative or to appropriate civilian authorities as may be indicated. When a psychotic nonmilitary patient requires further hospitalization, the hospital commander will communicate with the next of kin to ascertain whether the relative wishes to assume the custody and responsibility for the care of the patient. In each case the relative will be fully advised of the facts which render acceptance of the patient inadvisable and of the difficulty and responsibility involved in the care of such patient. The relative who elects to receive the patient will be required to produce satisfactory evidence that proper care will be furnished. This evidence should be in the form of an affidavit from the next of kin declaring that he or she is willing to assume responsibility for the patient and has the necessary financial means to provide adequate care and treatment.

(ii) When transfer to next of kin is inappropriate, the commander of the military hospital will communicate with the appropriate civilian authorities of the State which is claimed as residence for the purpose of obtaining authorization to transfer the patient to their custody.

(iii) In order to aid the civilian agencies in arriving at a decision with the least practicable delay they should be given information as to the diagnosis, the date of onset of the condition, history of previous hospitalization for mental illness, legal residence, place and date of birth, race, and name and address of the next of kin.

(iv) Inasmuch as commitment proceedings or laws for involuntary hospitalization vary among the states, appropriate personnel of Army hospitals should be thoroughly familiar with local requirements for emergency involuntary admission to or retention in local civilian facilities designated for the care of the psychotic or mentally ill.

(c) *Transportation.* In order to effect proper disposition of nonmilitary psychotic patients to other hospitals, to proper civilian authorities or when indicated, to the care of relatives, it may be necessary to arrange transportation to relatively distant areas. Such transportation of nonmilitary patients will be performed by the Military Air Transport Service in accordance with pertinent Army Regulations. Nonmilitary patients are subject to reimbursing the Military Air Transport Service for their own transportation in appropriate circumstances.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

APPLICATIONS FOR CONSOLIDATION OF TELEPHONE COMPANIES; COPIES REQUIRED

In the matter of amendment of § 1.527 of the Commission's rules relating to practice and procedure.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of March 1954;

The Commission having under consideration the provisions of paragraph (c), § 1.527 of Part 1 of its rules, which requires that 15 copies of applications filed under section 221 (a) of the act shall be furnished to the Commission for its use, that two additional copies shall be furnished for each additional State in which the property is located, and that, in addition, a copy should be served on any other party to the proceeding; and

It appearing that under the current methods of processing such applications, the Commission requires only 5 copies of each application filed under section 221 (a) of the act;

It further appearing that notice of proposed rule making and public rule making procedure may be omitted as being unnecessary in accordance with section 4 (a) of the Administrative Procedure Act since the amendment herein ordered is minor and non-substantive in nature;

It further appearing that authority for the proposed amendment to § 1.527 is contained in sections 4 (i) and 221 of the Communications Act of 1934, as amended;

It is ordered, That, effective immediately, § 1.527 (c) is amended to read as follows:

§ 1.527 *Applications for consolidation of telephone companies.* * * *

(c) *Copies required.* Five copies shall be furnished to the Commission for its use. In addition, a copy should be served on any other party to the proceeding.

(Sec. 4, 48 Stat. 1066, as amended, 47 U. S. C. 154. Interprets or applies sec. 221, 48 Stat. 1080, 47 U. S. C. 221)

Released: March 25, 1954.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Parts 29, 39]

[Regs. 111, 118]

INCOME TAX

DISALLOWANCE OF DEDUCTIONS FOR CERTAIN UNPAID EXPENSES AND INTEREST

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791) and under the authority of section 202 of the Technical Changes Act of 1953 (67 Stat. 617).

[SEAL] T. COLEMAN ANDREWS, *Commissioner of Internal Revenue.*

In order to conform Regulations 111 (26 CFR Part 29) and Regulations 118 (26 CFR Part 39) to section 202 of the Technical Changes Act of 1953, approved August 15, 1953, which amends section 24 (c) of the Internal Revenue Code, relating to the disallowance of deductions for certain unpaid expenses and interest, such regulations are amended as follows:

Regulations 111 (26 CFR Part 29) are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.24–1 the following:

SEC. 202. DEDUCTION OF CERTAIN UNPAID EXPENSES AND INTEREST (TECHNICAL CHANGES ACT OF 1953, APPROVED AUGUST 15, 1953).

(a) *Amendment of section 24 (c).* Paragraph (1) of section 24 (c) (relating to disallowance of certain deductions for expenses incurred and interest accrued) is hereby amended to read as follows:

(1) If within the period consisting of the taxable year of the taxpayer and two and one-half months after the close thereof (A) such expenses or interest are not paid, and (B) the amount thereof is not includible in the gross income of the person to whom the payment is to be made; and

(b) *Effective date.* (1) Except as otherwise provided in paragraph (2), the amendment made by subsection (a) shall apply only with respect to taxable years beginning after December 31, 1950.

(2) At the election of a taxpayer (hereinafter in this paragraph referred to as the "payor") made within one year after the date of the enactment of this Act, the amendment made by subsection (a) shall also apply with respect to such taxable years of the payor beginning after December 31, 1945, and before January 1, 1951, as are specified by the payor in making such election. Such election for any taxable year shall not be valid as to any amount unless, at or before the time when such election is filed:

(A) The person (hereinafter in this paragraph referred to as the "payee") to whom such amount was payable included such amount in gross income for his taxable year for which such amount was includible in gross income, or

(B) The payee files a written consent to the assessment and collection of any deficiency and interest resulting from the payee's failure to include such amount in gross income for such taxable year, or

(C) The payor pays an amount equal to the deficiency and interest which would be payable by the payee pursuant to subparagraph (B) if he filed such consent. (Any amount paid under this subparagraph shall be assessed, notwithstanding any law or rule of law to the contrary, as an addition to the tax of the payor for the year for which the election is filed.)

The periods of limitation provided in sections 275 and 276 of the Internal Revenue Code on the making of an assessment and the beginning of distraint or a proceeding in court for collection shall, with respect to any deficiency and interest thereon resulting from any consent filed pursuant to subparagraph (B), include one year immediately following the date such consent is filed, and such assessment and collection may be made notwithstanding any provision of law or any rule of law which otherwise would prevent such assessment and collection. If an election by a payor should be filed for a taxable year of the payor for which allowance of credit or refund of an overpayment is barred (at the time of such filing) by any law or rule of law, any consent filed by the payee in respect of any amount which represents expenses incurred or interest accrued by the payor for such year shall be void. If a consent requires the inclusion in the gross income of the payee for any taxable year of an amount which was erroneously included in the gross income of the payee for another taxable year and, on the date the consent is filed, correction of the effect of the error is prevented by the operation of any provision of the internal-revenue laws other than section 3761 of the Internal Revenue Code (relating to compromises), then the effect of the error shall be corrected in accordance with section 3801 of the Internal Revenue Code as if the consent were a determination under such section 3801 in which there is adopted a position maintained by the Secretary of the Treasury. The Secretary of the Treasury shall prescribe such regulations as may be necessary to carry out the provisions of this paragraph.

PAR. 2. Section 29.24–7 is amended to read as follows:

§ 29.24–7 *Disallowance of deductions for unpaid expenses and interest*—(a) *In general.* Section 24 (c) provides for

the disallowance of a deduction for accrued but unpaid expenses and interest under the circumstances prescribed in paragraphs (1), (2), and (3) of section 24 (c). Unless all the conditions prescribed therein exist, the deduction is not disallowed. The provisions of section 24 (c) do not otherwise affect the general rules governing the allowance of deductions under the accrual method. Hence, if the expenses or interest are paid after the deduction has been disallowed, no deduction would be allowable for the taxable year in which payment is made.

(b) *Taxable years beginning before January 1, 1951, where no election made.* For taxable years beginning before January 1, 1951, where no election is made in accordance with paragraph (d) (2) of this section, the application of section 24 (c) may be illustrated by the following example:

Example. A is the holder and owner of an interest-bearing note executed by the M Corporation all of the stock of which is owned by him. A and the M Corporation make their income tax returns on the basis of a calendar year, but the M Corporation makes its returns on the accrual basis and A makes his returns on the cash receipts and disbursements basis. The M Corporation does not pay any interest on such note during the calendar year 1948 or within two and one-half months after the close thereof, but claims a deduction for the year 1948 with respect to the interest accruing on the note in that year. A, being on the cash receipts and disbursements basis, such interest is not includible in his gross income for the year 1948. By the application of section 24 (c), no deduction for such interest is allowable in computing the net income of the M Corporation for the year 1948.

(c) *Taxable years beginning after December 31, 1950.* For taxable years beginning after December 31, 1950, the application of section 24 (c) may be illustrated by the following example:

Example. Assume the same facts as in the example in paragraph (b) except that the year involved is 1952, and, in addition, that on January 15, 1953, the M Corporation prepared a check payable to the order of A in the amount of the interest for the year 1952. At all times thereafter, the check was available to A, and there were sufficient funds in the bank to cover the check. The check was not received by A until January 10, 1954. Under the circumstances, the amount is includible in the gross income of A when made available to him although not then actually reduced to possession. By reason of paragraph (1) (B) of section 24 (c), a deduction by M Corporation for the interest accrued for 1952 is not disallowed under the section even though the interest would not be includible in the gross income of A for the year 1952 provided that the interest is includible within two and one-half months thereafter. If the amount is actually paid before two and one-half months after the close of the taxable year, or if for tax purposes, it is to be treated by the payee as constructively received within that period, section 24 (c) does not disallow the deduction. For examples of constructive receipt of items of gross income, see § 29.42–3.

(d) *Taxable years beginning after December 31, 1945, and before January 1, 1951, where election made*—(1) *General rule.* For taxable years beginning after December 31, 1945, and before January 1, 1951, if the taxpayer makes an election as provided in subparagraph (2) of this paragraph, the provisions of section 24 (c), as amended by section 202 of the Technical Changes Act of 1953, and the principles set forth in the example in paragraph (c) of this section shall be applicable.

(2) *Rules relating to election.* (i) Section 202 (b) (2) of the Technical Changes Act of 1953 provides three alternative prerequisites to the making of an election to be subject to section 24 (c) as amended—either, under subparagraph (A), the payee included the amount in his gross income for the year in which it was includible; or, under subparagraph (B), the payee consents to the assessment and collection of any deficiency and interest due to the payee's failure to include the amount in gross income for such taxable year; or, under subparagraph (C), the taxpayer pays the amount which would be payable under subparagraph (B) had the payee filed a consent. The condition relied upon, that is, the inclusion in income by the payee, consent to assessment and collection by the payee, or payment by the payor, must be satisfied at or before the time when the election is filed.

(ii) The election shall be in the form of a statement in writing and shall state the name and address of the taxpayer making the election, and that the taxpayer elects to have the provisions of section 24 (c), as amended by section 202 of the Technical Changes Act of 1953, apply to specified taxable years beginning after December 31, 1945, and before January 1, 1951. A separate election shall be filed for each year. The election shall also include the name of the payee, the taxable year in which the amount was included in gross income by the payee (if included), and the district in which the return of the payee for that taxable year was filed. If the taxpayer is relying upon a consent by the payee pursuant to subparagraph (B) of said section 202 (b) (2), the taxpayer shall attach a copy of the consent upon which there is noted the time and place of filing of the original. If the taxpayer pays or has paid an amount pursuant to subparagraph (C) of said section 202 (b) (2) he shall state the amount of the payment and the date thereof. The election shall be signed by the taxpayer, if an individual, or, if the taxpayer is not an individual, the election shall be signed in the same manner as the income tax return of the taxpayer.

(iii) The written election must be filed on or before August 15, 1954, in the office of the district director of internal revenue for the district in which the return was filed for the taxable year to which the election relates. An election shall be considered as timely filed if it is placed in the mail on or before midnight of August 15, 1954, as shown by the postmark on the envelope containing the election or as shown by other available evidence of the mailing date.

(iv) A consent by a payee shall be filed in the office of the district director of internal revenue for the district in which his return was filed for the year to which the consent relates. A separate writing, signed by the payee, shall be filed for each year for which a consent is made.

(v) Payment by the taxpayer of an amount pursuant to subparagraph (C) of said section 202 (b) (2) shall be made to the district director of internal revenue for the district in which the taxpayer filed his return for the year to which the election relates.

(vi) A copy of the election must be filed with a claim for refund filed on or after the date on which the election is made. Section 202 of the Technical Changes Act of 1953 does not authorize a refund with respect to any taxable year which is barred by any law or rule of law.

(vii) An election which conforms in substance to the provisions of this section shall not be deemed invalid solely because it was filed prior to the date on which the amendment to the regulations in this section was promulgated.

Regulations 118 (26 CFR Part 39) are amended as follows:

PAR. 3. There is inserted immediately preceding § 39.24 (c)–1 the following:

SEC. 202. DEDUCTION OF CERTAIN UNPAID EXPENSES AND INTEREST (TECHNICAL CHANGES ACT OF 1953, APPROVED AUGUST 15, 1953).

(a) *Amendment of section 24 (c).* Paragraph (1) of section 24 (c) (relating to disallowance of certain deductions for expenses incurred and interest accrued) is hereby amended to read as follows:

(1) If within the period consisting of the taxable year of the taxpayer and two and one-half months after the close thereof (A) such expenses or interest are not paid, and (B) the amount thereof is not includible in the gross income of the person to whom the payment is to be made; and

(b) *Effective date.*

(1) * * * the amendment made by subsection (a) shall apply only with respect to taxable years beginning after December 31, 1950.

PAR. 4. Section 39.24 (c)–1 is amended to read as follows:

§ 39.24 (c)–1 *Disallowance of deductions for unpaid expenses and interest*—(a) *In general.* Section 24 (c) provides for the disallowance of a deduction for accrued but unpaid expenses and interest under the circumstances prescribed in paragraphs (1), (2), and (3) of section 24 (c). Unless all the conditions prescribed therein exist, the deduction is not disallowed. The provisions of section 24 (c) do not otherwise affect the general rules governing the allowance of deductions under the accrual method. Hence, if the expenses or interest are paid after the deduction has been disallowed, no deduction would be allowable for the taxable year in which payment is made.

(b) *Example.* The application of section 24 (c) may be illustrated by the following example:

A is the holder and owner of an interest bearing note executed by the M Corporation all of the stock of which is owned by him. A and the M Corporation make their income tax returns on the basis of a calendar year, but the M Corporation makes its returns on the accrual basis and A makes his returns on the cash receipts and disbursements basis. The M Corporation does not pay any interest on such note during the calendar year 1952 or within two and one-half months after the close thereof, but claims a deduction for the year 1952 with respect to the interest accruing on the note in that year. A, being on the cash receipts and disbursements basis, such interest is not includible in his gross income for the year 1952 or within two and one-half months thereafter. By the application of section 24 (c), no deduction for such interest is allowable in computing the net income of the M Corporation for the year 1952. However, if the interest payment had been made available to A on January 15, 1953, and the amount thereof was therefore includible in the gross income of A at that time, a deduction by M Corporation for the interest accrued for 1952 would not be disallowed under the section, since the condition of section 24 (c) (1) (B) (that the amount be not includible in the gross income of the payee during 1952 or the first two and one-half months of 1953) would not be satisfied. If the amount is actually paid before two and one-half months after the close of the taxable year, or if for tax purposes, it is to be treated by the payee, as constructively received within that period, section 24 (c) does not disallow the deduction. For examples of constructive receipt of items of gross income, see § 39.42–3.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 918]

[Docket No. AO 219–A3]

HANDLING OF MILK IN MEMPHIS, TENNESSEE, MARETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Memphis, Tennessee, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C. not later than the close of business the 7th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the following findings and conclusions were formulated, was held at Memphis, Tennessee, on December 17, 18, 19 and 21, 1953, pursuant to notice thereof which was issued on November 25, 1953 (18 F. R. 7643).

The material issues of record related to:

1. The expansion of the marketing area to include all of Shelby county, Tennessee, and the city of West Memphis, Arkansas;

2. A change in the producer definition so that milk received at a fluid milk plant from any dairy farmer, which milk is eligible for sale as Class I milk in the marketing area would be priced under the order;

3. A change in the definition of fluid milk plant to include any milk distributing plant which disposes of at least 1 percent of its Class I milk to outlets located in the marketing area, and supply plants furnishing a substantial share of their milk to such distributing plants;

4. The inclusion in the order of specific language concerning the method to be used in accounting for skim milk sold in concentrated form;

5. The method to be used in the classification of inventories;

6. The inclusion of a price reflecting the value of milk used in cheese making as an additional alternative in calculating the basic formula price;

7. A revision in the basic utilization percentages and rates of price change used in the supply-demand adjustment;

8. A change in the bracket ranges used for determining the Class I price to bring about more gradual price changes;

9. The level of the Class II price;

10. The butterfat differentials used in adjusting the Class I and Class II prices;

11. The question of which plants and which milk would be eligible to receive the location adjustment credit;

12. A modification in the methods used for calculating equalization payments to prorate utilization of milk in different classes between producer members of cooperative associations and nonmembers; and

13. Miscellaneous administrative provisions.

Findings and conclusions. The findings and conclusions with respect to the material issues herein decided, all of which are based on the evidence introduced at the hearing and the record thereof, are as follows:

1. The marketing area should be enlarged to include all of Shelby county, Tennessee, and to include the city of West Memphis in Arkansas.

The record shows that marketing conditions are similar throughout the proposed area and that the areas to be added are now served primarily by handlers subject to the order. The West Memphis portion of the market has developed rapidly during recent years. Population data show that the city has more than tripled in size since 1940. Much of this increase represents transfer in population from Memphis occasioned by the increase of suburbanization of the market and facilitated by the completion of a new bridge across the Mississippi River.

Until the latter part of 1952 this portion of the market was served exclusively by regulated handlers. Since that time, unpriced milk has begun to enter the market and has displaced an important share of the business of some regulated distributors. While the record indicates that base and excess prices paid producers by plants distributing this unpriced milk were not materially different from prices paid by regulated handlers, the unpriced milk was not purchased on a utilization basis. It is not possible to determine whether producers were paid a price for such milk which reflects its value for Class I use.

The quality of milk distributed in West Memphis is comparable to that distributed in the present marketing area. The city of West Memphis is under the jurisdiction of the Arkansas State Health Department. This department and the health authority of the city of Little Rock inspect the producers and plants supplying the unpriced milk sold in West Memphis. Regulations and enforcement thereof are on a comparable level with those in effect in the cities of Memphis and Jackson.

All of the milk sold in West Memphis by regulated handlers, which constitutes a substantial majority of the Class I sales in this area, is in the current of interstate commerce.

Ninety percent or more of the Class I milk distributed in Shelby county, Tennessee, except Memphis, comes from regulated plants. Three plants not under Order No. 18 distributed milk in this area during 1953. One additional plant which sells milk there is subject to Federal Order No. 77, regulating the handling of milk in the Paducah, Kentucky, marketing area.

Much of the populated area of Shelby county outside Memphis is part of the natural trade territory of the Memphis market. Commerce between Memphis and adjacent portions of Shelby county is such that the two areas should be considered part of the same market.

Health regulations in Shelby county are under the jurisdiction and enforcement of the Memphis City Health Department. The record indicates that the standards, degree of enforcement and quality of milk required to be distributed in Shelby county are equivalent to the standards applied in the present market area. The Millington Naval Base, which would be included in the marketing area pursuant to this decision, is under the jurisdiction of the health officer at the base. The record indicates that the quality of milk required by such authority is comparable to the quality of that distributed in the areas surrounding the base.

The milk supplied into Shelby county from the Paducah market is subject to the classification and pricing provisions of the Paducah order. Milk distributed by one of the distributors who is located in Covington, Tennessee, is paid for on a utilization basis and at prices comparable to those provided under the Memphis order. Milk may be and has been distributed in this area from unregulated sources and plants which do not pay for milk on a utilization basis.

The milk supplied into Shelby county from the Paducah handler is all in the current of interstate commerce. The milk from the Covington handler comes in part, particularly during the winter months, in bulk form from the out-of-State sources to the north. Other plants located in Conway, Arkansas, and Cape Girardeau, Missouri, distributed milk in Shelby county last year.

Inclusion of this enlarged area as part of the regulated market will insure against the displacement of producer milk by virtue of temporary advantage which other plants may obtain by not

meeting the standards of classified pricing provided under the Memphis order. This will tend to stabilize marketing conditions in these areas and place all milk distributors on an equal footing in competing for further business in the area. It will also assure producers supplying such milk of returns equal to those provided under the minimum prices of the order.

2. The producer definition should be amended so that the milk of any Grade A dairyman delivering to a fluid milk plant will be fully subject to the classification and pricing provisions of the order.

The order now provides that only milk produced by dairymen holding permits issued by the Memphis or Jackson health authorities and received by handlers under the order will be priced.

At the time the order was originally promulgated, the practices in the market were such that only plants which were receiving milk from producers holding permits issued by the appropriate health authorities were allowed to distribute milk in the market. Since that time, approval has been extended by the city of Memphis to plants in Arkansas which are under the inspection of the Little Rock and the State of Arkansas health authorities. The record indicates that inspection by a duly constituted health authority enforcing acceptable standards may now be accepted by the Memphis City Health Department with only occasional spot checks on the quality of the milk and the facilities through which it is handled. Producers supplying such plants are not required to hold Memphis City Health Department permits. Under the present order, milk so distributed in Memphis from such a plant is unpriced.

The record indicates that about 35 percent of the milk of an unregulated distributor is now being sold as Class I milk in Memphis. The volume of this milk is sufficiently important that it has been an important competitive factor in the market.

It is concluded, therefore, that the producer definition should be modified so that milk of Grade A quality received from producers at any fluid milk plant and distributed in the marketing area will be fully subject to the pricing provisions of the order.

3. The definition of a fluid milk plant should be amended to provide for two categories of such plants, namely distributing plants and supply plants.

All distributing plants should be fully subject to the classification and pricing provisions of the order if they dispose of 5 percent or more of their Class I sales to outlets (other than fluid milk plants) located in the marketing area. Included as part or all of the 5 percent may be sales through vendors or plant stores. It is necessary in order to stabilize marketing conditions in the market to provide that no plant may distribute as unpriced milk a substantial quantity of milk in competition with milk priced under the order. At the present time, one plant is distributing about one-third of its milk as unpriced milk in the marketing area. These sales have displaced sales of producer milk. The proposed definition of a fluid milk plant will help insure that displacement of milk may not be brought about with milk for which producers have not been paid at a full utilization value.

A 5 percent exemption should be provided, however, so that a plant from which only minor quantities of milk are distributed in the marketing area will not come under full regulation. It is concluded that the volume of milk represented by 5 percent of the Class I sales of any unregulated handler who might conceivably distribute milk in the marketing area would not be sufficient to disturb the competitive structure in the market. A larger percentage of the sales of such a handler might present an unstabilizing influence and the provisions of the attached order would present adequate justification for bringing such a handler under the pricing provisions of the order.

The record indicates that one of the major distributors who sells fluid milk throughout a large portion of the State of Arkansas does distribute some milk in West Memphis. Sales in the latter area represent a small proportion of such distributor's business. It is concluded that it would be inappropriate to regulate such a distributor with respect to his entire business, most of which is in competition with other unregulated distributors, if his sales in West Memphis amount to less than 5 percent of his total Class I business.

A plant which is not a fluid milk plant is not subject to the transfer provisions of the order. The determination as to the total Class I sales of such plant, in ascertaining whether or not it has 5 percent of its Class I sales in the area, should be based therefore on the form in which skim milk and butterfat is moved from the plant.

The definition of a fluid milk plant should include also those supply plants which furnish milk to distributing plants qualifying under the first portion of the definition. Furthermore, such supply plants must receive milk from producers who hold permits issued by a health authority having jurisdiction in the marketing area. This will insure that under present circumstances plants primarily in the business of supplying milk to Memphis distributing plants will be fully regulated.

On the other hand, plants furnishing only incidental or supplemental supplies would not be regulated. Considerable volumes of supplemental milk have been required in recent years to supply Memphis and Jackson Class I sales during months of short production. It might represent an unnecessary hardship to the market and interfere with the acquisition of needed supplemental supplies if the plants furnishing such milk were brought under the regulation of the Memphis order. The record does not indicate that producer milk has been displaced with unpriced milk obtained from such supply plants, or that the dairy farmers supplying such milk are not receiving the equivalent of Class I prices under the order for incidental or supplemental milk. A large share of the supplemental milk brought into the Memphis market comes from plants regulated pursuant to other Federal orders. Such milk would not in any case be subject to the pricing provisions of the Memphis order.

A definition of an approved plant should be included in the order to bring under the definition all plants selling Class I milk in the marketing area. An approved plant should be defined as a fluid milk plant or a plant from which Class I milk is sold to outlets located in the marketing area. Any person operating an approved plant should be defined as a handler and be subject to the reporting provisions of the order.

4. The order should be clarified with respect to the accounting procedure to be applied to condensed or concentrated nonfat milk solids classified as Class I milk.

The volume of skim milk used or disposed of as Class I milk products which contain condensed or concentrated nonfat milk solids in any form should be considered to be an amount equivalent to the volume of skim milk required to produce the nonfat solids contained in such products. The primary Class I milk products which would be affected by such accounting procedure under the Memphis order are buttermilk and low fat milk drinks.

Nonfat milk solids used to produce Class I milk products for sale in the Memphis market must come from Grade A sources. This is true whether or not such solids come from producers or from unregulated sources. It is also true regardless of the form in which such nonfat milk solids may be received. For this reason, fortified products or products containing added nonfat milk solids should continue to be considered as Class I milk. No question was raised at the hearing as to the propriety of such classification.

Buttermilk or low fat milk drinks are sometimes fortified by the addition of extra solids in order to improve their quality and acceptability to consumers. Increased content of nonfat milk solids improves the salability and value of such product.

The additional value of such products should be reflected back to producers to the extent that such solids or an equivalent volume of solids were provided by producers. The rate of return for such solids, and therefore the price under the order, should be the same for each pound of nonfat milk solids disposed of in a Class I product regardless of the actual form in which it may be marketed to consumers. No reason is recognized why one portion of the nonfat solids contained in fortified Class I milk products is different from any other portion with respect to cost of production, quality standards, need for regularity of supply, or value to consumers.

The pricing provisions of the order are designed to encourage production of adequate quantities of pure and wholesome milk for all Class I uses. The price required to insure such supplies of nonfat milk solids should be adequate to insure supplies of such solids for any Class I use. Solids used in fortified products should therefore be priced at the full Class I rate. In the absence of specific language in the order, the question may be raised whether the accounting system to be used in charging for nonfat solids in Class I could result in charges for skim milk only on the basis of the actual hundredweight of Class I milk disposed of, with no recognition of the actual nonfat solids content of such product.

The order provides that prices for Class I milk will be adjusted according to the actual butterfat content of the product. The amended order, as herein provided, would bring about a similar adjustment in price according to the nonfat milk solids content of the product.

No basis was suggested whereby it would be possible to adjust prices for nonfat solids content on a basis of an actual measurement of such content as is now done in connection with the butterfat differential provision of the order. As an alternative, to accomplish such an adjustment it is considered necessary to make an adjustment in the pounds of skim milk considered to have been disposed of when a Class I product is disposed of in a form of a product from which part of the original water content has been removed and not replaced. Such adjustment should be made on the basis of a determination of unconcentrated skim milk, disregarding any plant loss which may be involved, that would be required to produce the nonfat milk solids content in the end product.

This adjustment should be made without regard to the source of the milk solids used in Class I. The relationship between other source milk and producer milk now provided in the order with respect to allocation and classification should be the same regardless of the form in which the milk solids are obtained or utilized. Other source concentrated skim milk products utilized in a plant should be considered as receipt of the equivalent volume of skim milk which would be required in the production of such products.

In order to maintain a uniform accounting method, the volume of skim milk considered to have been received in concentrated form should be the same whether its ultimate disposition is as Class I or Class II milk. Such accounting system will have no effect on the classification of other souce milk used in Class II.

5. The order language should be clarified with respect to the classification and allocation of milk and milk products on hand at the beginning and end of the month.

The record indicates that more specific language should be included in the order with respect to (i) the products that should be considered as "inventory," (ii) the classification and allocation of butterfat and skim milk on hand at the end and the beginning of the month, and (iii) changes in inventory values as a result of the seasonal change in the Class I price differential.

The present method of considering bulk milk and cream and other Class I products on hand at the beginning and end of the month as inventory and classifying inventory in Class I should be continued. This procedure should be clarified by including inventory on hand at the end of the month in the definition of Class I milk and including a step in the allocation provision for subtracting beginning inventory from Class I milk.

Skim milk and butterfat which is used to produce or is disposed of as Class II milk is accounted for at the time of such use or disposition. It is not necessary, therefore, to include in the inventory account the Class II manufactured products on hand at the beginning or end of the month. Handlers are required to keep stock records of such products to facilitate the market administrator's auditing program. The accounting and reclassification procedures of the order may be simplified, however, by redefining other source milk to include skim milk and butterfat contained in all manufactured products which are reprocessed or used by the handler to produce another product. Such manufactured products include those originally manufactured by the handler, as well as products purchased from other handlers or from unregulated sources. By considering such products as other source milk receipts at the time they are reprocessed, and by subtracting receipts of other source milk from the available Class II utilization in the allocation procedure, current receipts of producer milk retain their priority on current sales of Class I milk.

In classifying inventories as Class I milk some safeguard should be provided to prevent any handler from obtaining supplies of producer milk at a lower cost than other handlers, through undue increases in inventory at the end of August just prior to the 40-cent seasonal increase in the Class I differential. Any gains experienced by a handler on such price increases may be offset in part, however, by losses on inventory at the end of February. The Class I differential is decreased 40 cents per hundredweight on March 1 of each year. Therefore, a safeguard against unfair gains may be provided by including a provision in § 918.70 ("Computation of Value of Milk") which requires an addition, in the month of September of each year, of an amount equal to 40 cents per hundredweight for any increase in ending inventory in August over the ending inventory of the preceding February. Under this provision a handler who had no inventory, or was not subject to regulation in the previous March would be charged 40 cents per hundredweight on all inventory of Class I milk carried from August to September.

Similar safeguards should be afforded current receipts of producer milk in any month during which a handler is subject to the regulation after having been unregulated during the previous month. This may be accomplished by adding to the pool value of such handler's producer milk, in the month when he becomes subject to regulation, an amount equal to the difference between the Class I and the Class II price on any decrease in inventory from the beginning to the end of such month. By following this procedure, current receipts of producer milk are assured full priority on Class I sales during the current month, and equity of cost is assured among handlers on all producer milk which is disposed of as Class I milk during such month.

6. A new formula to represent the general level of the value of milk used for cheese-making should be incorporated into the order as part of the basic formula price.

The basic formula price is now determined by using the higher of the prices calculated on the basis of a formula which reflects the value of milk used for butter and nonfat dry milk solids and the average of prices paid by 15 Midwestern condenseries. Two of the major outlets for manufacturing milk are represented by these two alternative prices. Inclusion of the formula herein recommended will provide for the reflection of the value of milk for cheese, the third major outlet for manufacturing grade milk.

The Class I price differential provided in the order is designed to provide the premium over manufacturing grade milk necessary to insure the market of an adequate supply of pure and wholesome milk for fluid use. It is necessary that this premium be added to the value of milk for the highest priced manufacturing outlet in order to avoid impairment of the differential. If one outlet for manufacturing milk were to yield a higher return to farmers than other outlets and such higher return were not reflected in increased Class I prices, the incentive to producers for producing milk for the fluid market as compared to manufacturing milk would be reduced. Supplies of milk for the fluid market might suffer as a result.

The record discloses that cheese manufacturing is one of the primary outlets for ungraded milk in the Memphis milkshed. It is considered appropriate, therefore, that the value for cheese-making be part of the basic formula under the order.

The cheese formula herein recommended provides an estimate of the value of milk for cheese manufacture on the basis of the monthly price for cheddar cheese in primary markets in Wisconsin, and the price of 92-score butter in Chicago. The 92-score butter price at Chicago is widely recognized and is now used for various purposes in the order. The price quotation for cheese in the primary markets of Wisconsin is based on a substantially larger volume of trading than other available cheese quotations. The price data for this quotation are gathered and reported by the official price reporting service of the Department of Agriculture. Fluctuations in these quotations reflect actual changes in rate of return to plants for a large share of the cheese produced in the State of Wisconsin.

Coupled with the yield factors for cheese and whey fat, and making allowance herein found appropriate, the above quotations have, in the past, produced an estimated price which was in close alignment with the prices actually paid farmers by Wisconsin cheese plants. The pay prices used for this comparison are those reported by the Agricultural Marketing Service.

Since the purchases of milk for cheese is highly competitive in the State of Wisconsin, the changes in value of milk

for cheese-making can be expected to be reflected more promptly in the cheese factory pay prices in that State than in less competitive areas. A substantial proportion of the cheese manufactured in the country is made in Wisconsin and quotations of prices received for cheese by Wisconsin plants are considered to be an adequate sample to reflect changes in the market value of cheese.

Use of Wisconsin prices for cheese and use of a formula based on prices paid farmers by Wisconsin cheese plants are considered appropriate also because most of the condenseries whose pay prices are included as one of the other basic formula factors are located in Wisconsin.

7. The basic utilization percentages in the supply-demand provision should be adjusted so they will not result in a lowering of Class I prices while the volume of producer milk is less than the market requires to keep Class I outlets supplied.

The schedule of utilization percentages which became effective November 1953 provides that the Class I price will be increased in the month of January if the supply of producer milk in October and November is less than 100 percent of Class I sales for the same months. These are the months when supplies of producer milk are at their lowest level in relation to Class I sales. Minimum utilization percentages below which Class I prices will be increased are varied upward from this point for other months according to the normal seasonal variations in the percentage of producer milk utilized in Class I milk.

Reductions in the Class I price are brought about whenever the volume of producer milk is more than 105 percent of Class I sales in October and November. Seasonal increases are reflected for other months in the maximum utilization percentage above which prices will be decreased.

Producer representatives stated that such reductions in price may be unwarranted. It was contended that the market is still short of milk when supplies are somewhat above the 105 percent level. Evidence was presented for the hearing record to show that other source fluid milk has been required by Memphis handlers in considerable volume in some months when milk shipments by producer members of the major cooperative association exceeded 105 percent of the Class I sales of such association for the month. This is to be explained in part because of fluctuations in production or sales during the month. While supplies of producer milk may have been adequate or more than adequate at one time in the month, they may have fallen short of requirements at another. Total supplies of milk (including other source milk) have exceeded 110 percent of Class I sales during some months when the market was short of producer milk.

Since the supply-demand provision of the order is based on two-month averages, it may bring about price reductions when substantial imports are required.

It is concluded, therefore, that the maximum percentage of 105 in the base utilization range for October and November should be amended to become 110 percent. The percentages for other months should be increased accordingly.

This change will make it unlikely that the Class I prices to producers will be decreased unless producers are expanding their production beyond the level which is necessary to keep Class I outlets fully supplied. Some price decreases could still result under this amendment even though minor quantities of milk were required to be imported. These should not be serious, however, and would come about only when production or consumption changes materially during a two-month base period.

It was contended at the hearing that both the upper and lower limits of the base utilization range should be increased. Producer representatives stated that the Class I price should be increased whenever production falls below 110 percent of Class I sales in the months of lowest production with corresponding increases in other months. Such a change would result in an increase in the Class I price of 10 to 40 cents over what it would otherwise be.

The hearing record does not warrant such an increase at this time. It was not shown that present prices will not result in adequate milk production over a period of time, or that the market is capable of handling efficiently all the Class II milk which might be forthcoming if the Class I price were increased. Percent of producer milk in Class II increased in 1952 over 1951, and was somewhat higher in the first seven months of 1953 than during similar months of 1952. Premiums over order prices were paid producers during the first part of this period, but not during 1953. In addition, the record discloses that an additional handler receiving milk from more than 100 producers not formerly supplying the Memphis market has recently started serving the market.

A serious drought was experienced in the milkshed during the latter part of 1953. Milk production fell off and Class I prices were increased under the supply-demand provision. No conclusion can be drawn on the basis of this period as to what long-term level of milk production may be expected with present prices by the producers who would be subject to the amended order herewith provided.

It is concluded, therefore, that no change should be made in the supply-demand provision of the order which would bring about earlier increases in the Class I price than now provided.

It was proposed at the hearing that the rate of price adjustment under the supply-demand provision be increased somewhat as milk supplies exceed or fall short of desirable levels. The proposal called for a greater rate of price increase or decrease in March and September than the order now provides. It was contended that the months proposed to be changed belong more appropriately, from the standpoint of supply conditions, to the month groups with higher rates of change. In order to make an adequate price adjustment in line with such supply conditions, and to offset to a limited extent the reduced sensitivity in the supply-demand adjustment which would result from the amendments heretofore proposed, it is concluded that the rate of price adjustment should be increased one cent for each point variation in the utilization percentage for the months of March and September.

8. The bracket ranges used in determining the Class I price should be eliminated and a stated differential provided in the order. It was contended on the hearing record that the 40 cent steps now called for under the order are too large. Such abrupt changes as have taken place in the past under the order call for too great an adjustment on the part of producers at one time.

The proposal originally submitted by the Mid-South Milk Producers Association would call for 20-cent steps and a somewhat lower average premium over the basic formula price. This proposal was amended at the hearing in such a way that it might result in an average increase in Class I prices over a period of time. For reasons stated heretofore, no changes in the Class I price, except those previously recommended, appear justified at this time. It is concluded, however, that more gradual Class I price changes would be desirable. For this reason the brackets should be eliminated and Class I differentials set at the midpoints of the present bracket ranges. This will eliminate the 20-cent steps as proposed. However, the Class I price may change in smaller steps than this because of the operation of the supply-demand adjustment. It is considered unnecessary, therefore, to try to preserve any bracket changes in the Class I price.

9. Under the present order the Class II price is determined by averaging the price paid farmers for ungraded milk at seven listed manufacturing plants. Four of these are condenseries and three are cheese plants. Of the three cheese plants, two have suspended operations and no longer buy milk from farmers. Thus, the Class II price is now determined by five manufacturing plants, four of which are condenseries.

It was proposed that two other cheese plants be substituted for the two plants which have discontinued operations. The Armour Cheese Plant, New Albany, Miss., and the Kraft Foods Plant at Corinth, Miss., were suggested for this purpose. The record shows that it is appropriate to provide a Class II price which reflects the competitive level of prices for manufacturing milk in this general area. The substitution of the two proposed plants will broaden the price determining base and more nearly reflect competitive manufacturing prices than the five plants presently employed. The proposal should be adopted.

The record also shows that, during the flush production season of 1953, handlers were unable to use the entire output of producer milk in Class II operations conducted in their plants. Substantial volumes of producer milk were transferred or diverted to nearby cheese plants for processing. A substantial proportion of this milk was transferred to one of the cheese plants now listed in the order and located at Olive Branch, Miss., eighteen miles from Memphis. This is the nearest, and the principal, outlet for seasonal reserve milk from this market. During April 1953 more than 60 percent of the total market volume of milk used in manufactured products was diverted to cheese plants. The corresponding figures for other months were—March 38 percent, May 45 percent, and June 17 percent. Prices paid by this plant for milk have been lower than the Class II prices under the order. The record shows that prior to the drought in the latter part of 1953 the level of production from local producers increased substantially. With the increase in milk production prevailing generally, the seasonal reserve supply of milk in the Memphis market during the Spring of 1954, which may have to be moved to cheese plants, may be even greater than during 1953. In order to promote more orderly marketing of such reserve supplies it is concluded that milk used in the production of cheddar cheese, from the effective date of this amendment through July 1954, should be priced at the average price paid by the three cheese plants which are proposed for use in determining the regular Class II price.

10. The butterfat differentials used in adjusting Class I and Class II milk prices should be reduced.

At present the Class I and Class II prices are subject to butterfat differentials, determined by multiplying the Chicago 92-score butter price by 0.125 and 0.120, respectively. It was proposed that the Class I differential be reduced to 0.120 for all months and the Class II differential reduced to 0.115 during the months of April through June of each year.

Data with respect to the Memphis market, since the order became effective, show that the average butterfat test of Class I milk has declined from 3.9 percent in 1951 to 3.7 percent in 1953. According to records of the proponent cooperative association, the average test of producer milk has shown a slight downward trend from an average of 4.4 early in 1940 to 4.2 percent during the past few years. The present butterfat differential to producers is slightly less than 0.110 times the price of butter.

Nevertheless, the butterfat contained in total receipts of producer milk has exceeded total Class I utilization of butterfat in each month since the order has been in effect. In contrast, the skim milk contained in producer milk has been insufficient to supply Class I requirements for several months in each year. The adoption of a lower butterfat differential for Class I milk will tend to encourage greater use of butterfat by handlers in their Class I operations and bring about a closer balance between producer receipts and Class I utilization of butterfat.

The present Class II butterfat differential of 0.120 times the price of butter has overstated the value of butterfat in Class II milk. When the value of four pounds of butterfat has been subtracted from the Class II price it has resulted in a negative value for skim milk in Class II milk during several months of 1953. A reduction of the Class II butterfat differential from 0.120 to 0.115 will bring about a more reasonable allocation of the Class II milk price between the skim milk and butterfat components. A somewhat lower differential should be provided during April, May, and June than in other months. This is the season of the year when the greatest quantity of reserve milk must be used by handlers for Class II products or diverted to manufacturing plants. A lower differential is necessary at this time to enable handlers to dispose of seasonal surpluses.

It is concluded, therefore, that the Class I butterfat differential should be 0.120 and the Class II differential 0.115 except during the months of April, May, and June, when such ratio should be 0.110 times the price of butter.

11. The location differential provision with respect to Class I milk should not be amended to make them dependent upon the type of plant where the milk is received or the form in which the milk may be moved. It was contended on the hearing record that the f. o. b. market Class I price should apply to all fluid milk distributing plants regardless of their location.

The Class I price under the Memphis order is established at a level which is intended to reflect the price necessary to yield a sufficient supply of pure and wholesome milk for the Memphis market. The price quoted reflects the value of such milk f. o. b. Memphis. Milk produced at a distance from the center of consumption in the regulated market is worth less than the Class I price, so far as the market is concerned, by the amount of the cost involved in transporting such milk to the market center. Provision is made in the order, therefore, that if the handler receives Class I milk at a distance from the market, he may reduce the price paid producers for such milk by an amount which is related to the cost of hauling such milk by an efficient means to the market.

Once the value of the milk to the Memphis market has been established on the basis of its distance from the market, the Class I price fixed under the order at such location should be the same for all persons who buy Class I milk at that location, regardless of how the milk may be moved, or where or to whom it may be marketed.

Since the milk is being priced under the order only in relation to the regulated market, values of individual lots of milk for sale to alternative markets must be ignored. If any milk at any location has a greater value for sale in another market than it has for sale in Memphis, reliance must be placed on the price competition from such market to bring about the sale of milk to the most advantageous outlet. The general level of Class I prices under the Memphis order must reflect overall competition but cannot be subject to individually tailored price adjustments in different portions of the potential supply area. It would be impossible to price milk under the Memphis order at any location in relation to its value for sale to the many other markets to which it might be sold.

The purpose of the pricing provisions of the Memphis order is not to price milk for such markets but only for the regulated market. To price milk on the basis of the type of plant which receives the milk, or the form in which milk is moved, or the location to which marketed outside the regulated area would result in a cost inequity as among handlers for milk in relation to the marketing area. The provisions herein recommended will result in an equality of minimum cost for Class I milk for all handlers in view of the cost of hauling such milk to market. Milk purchased at a distance from the market cannot be sold in the market without incurring costs of movement for all milk so marketed. The rate of location differential allowed in the order represents an equitable allowance to reflect costs of hauling bulk tank milk.

Producer representatives from the Jackson, Tennessee, portion of the marketing area contended that that section of the market should not be subject to a location differential. Milk is not ordinarily moved from Jackson to Memphis and, therefore, no such transportation cost is involved. Said representatives did contend, however, that the Class I price should be less in Jackson by approximately the amount of the present location differential, since Class I milk in that market is worth less than in Memphis because of the competitive conditions that have prevailed in the area. An f. o. b. Memphis price, it was contended, would place Jackson producers and handlers in an unsound situation.

As stated heretofore, the location differential provisions of the order do not contemplate that the Class I milk so priced will necessarily be transported to the central market. They merely establish the pattern of minimum pricing levels to be charged Order No. 18 handlers for milk at the various distances in relation to the central market in Memphis. To make the changes as proposed by the Jackson producers would merely accomplish an unnecessary change in terminology of the order.

The order should be amended to specify which milk shall be assigned to Class I milk (and therefore subject to a location differential) when milk is moved between fluid milk plants.

The order presently provides that the same minimum price shall be paid for Class II milk wherever it may be received. There is little, if any, difference in the value of milk for manufacturing in the various locations of the milkshed which may be attributed to its location with respect to the market.

Under the present provisions of the order all handlers are charged the same price for the Class II milk they receive, and are then free to market such milk through whatever movements or dispositions they find most advantageous to themselves. Producers are not expected to bear any of the costs associated with the methods by which the various handlers market such milk.

In case a handler receives milk at a fluid milk plant located some distance from the market, such handler should be expected either to leave such milk in the country for processing, or if he finds it preferable to transport such milk to the city for Class II use, the cost of such haul should not be charged against the producer's price for the milk.

Therefore, an amendment is provided in the attached order which would assign any milk brought to a plant in Memphis

from a plant in the areas where location differentials apply, to any Class II use in the Memphis plant. This will allow a handler to recover transportation costs on necessary movements of Class I milk, and will encourage efficiency in the marketing of Class II milk.

12. The method used for calculating equalization payments for pro-rating the utilization of milk between producer members of cooperative associations and non-members should be modified.

The present method of determining each handler's base and excess price for producer milk during March through August provides for an adjustment when the association handles more than its pro-rata share of any reserve milk supply in Class II milk. This adjustment is intended to equalize the prices received for milk by members of an association and non-member producers. The present order (§ 918.72 (c)) does not accomplish full equalization of returns as intended. This can be remedied by dividing the adjustment provided under the present order by the proportion of the handler's total receipts of producer milk received from non-member producers during the month. The record indicates that the entire provision should be rewritten for clarification and changed to accomplish its intended purpose.

13. A number of miscellaneous changes of an administrative nature are required in order to effectuate the changes in regulation found necessary in this decision. These changes involve primarily the definitions and reporting provisions of the order.

Pursuant to this decision, an approved plant which disposes of less than 5 percent of its Class I milk in the marketing area would not be fully regulated. Such plant should submit regular monthly reports, however, which will permit determination of its status under the order. Also, the plant should be subject to the administrative assessment on that milk distributed in the marketing area. This will help defray the costs of administering the order with respect to such plant. Also, it will mean that all Class I milk disposed of in the marketing area by all handlers will be subject to such assessment.

As a conforming change, all Class II products used or reprocessed in the plant out of inventory or from other handlers or from any other source are designated as other source milk. This will facilitate reporting and accounting and classification of inventories.

All Class I milk products transferred between fluid milk plants would be subject to reporting and to reclassification under the transfer rules. This will avoid unnecessary accounting, but will provide adequate safeguards to insure the proper classification of producer milk.

Pursuant to this decision, members of cooperative associations which do not pay producers may become subject to the order. Changes in order language provided herewith would assure proper treatment of such producers and associations.

The entire order has been redrafted, including the proposed amendments, so that the various changes herein found necessary may be more readily appraised in relation to the overall order.

Rulings on proposed findings and conclusions. Written arguments and proposed findings and conclusions submitted on behalf of interested persons concerning issues on which decision is herein recommended were considered, along with the evidence in the record, in making the findings and reaching the conclusions herein set forth. To the extent that the proposed findings and conclusions differ from the findings and conclusions contained herein, the specific or implied requests to make such findings are denied because of the reasons stated in support of the findings and conclusions in this decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, as amended. The following order, as amended, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the following order, as amended:

DEFINITIONS

§ 918.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 918.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the power or to perform the duties of the said Secretary of Agriculture.

§ 918.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 918.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 918.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congres of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 918.6 *Memphis, Tennessee, marketing area.* "Memphis, Tennessee, marketing area," hereinafter called the "marketing area", means all the territory within the boundaries of the following political subdivisons: Shelby County and the city of Jackson, both in Tennessee and the city of West Memphis in Arkansas.

§ 918.7 *Fluid milk plant.* "Fluid milk plant" means (a) any plant from which not less than 5.0 percent of the Class I milk of such plant is disposed of during the month on routes (including sales through vendors or plant stores) to retail or wholesale outlets (except other fluid milk plants) located in the marketing area, or (b) any plant receiving milk from farmers holding dairy farm permits or ratings issued by a health authority having jurisdiction in the marketing area, and from which milk, skim milk or cream is moved during the month to a plant qualified pursuant to paragraph (a) of this section.

§ 918.8 *Approved plant.* "Approved plant" means a fluid milk plant or any plant from which Class I milk is disposed of during the month on routes (including sales through vendors or plant stores) to retail or wholesale outlets (except fluid milk plants) located in the marketing area.

§ 918.9 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing or bottling plant other than a fluid milk plant.

§ 918.10 *Handler.* "Handler" means (a) any person in his capacity as the operator of an approved plant, or (b) any cooperative association with respect to milk of its producer members diverted by it from a fluid milk plant to a nonfluid milk plant for the account of such cooperative association.

§ 918.11 *Producer.* "Producer" means any person except a producer-handler who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority which milk is (a) received at a fluid milk plant or (b) diverted from a fluid milk plant to a nonfluid milk plant for the account of a handler: *Provided*, That milk so diverted shall be deemed to have been received by the diverting handler at the location of the plant from which it was diverted.

§ 918.12 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer and received at the fluid milk plant directly from producers, or diverted pursuant to § 918.11.

§ 918.13 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of products designated as Class I milk pursuant to § 918.41 (a) (1) except (1) such products received from other fluid milk plants or (2) producer milk; and

(b) Products from any source (including those produced by the handler) designated as Class II milk pursuant to § 918.41 (b) (1) which are reprocessed or converted to another product during the month.

§ 918.14 *Producer-handler.* "Producer-handler" means any person who operates an approved plant from which Class I milk is disposed of in the marketing area but who receives no milk from other dairy farmers.

§ 918.15 *Chicago butter price.* "Chicago buter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

MARKET ADMINISTRATOR

§ 918.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 918.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 918.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 918.97 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 918.96, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 918.30 and 918.31 or payments pursuant to § 918.90;

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing on or before the 6th day of each month, the minimum price for Class I milk computed pursuant to § 918.51 (a) and the Class I butterfat differential computed pursuant to § 918.52 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 918.51 (b) and the Class II butterfat differential computed pursuant to § 918.52 (b), both for the previous month;

(j) Notify each handler in writing on or before the 11th day of each month the amount of the net obligation of such handler for milk received from producers during the previous month. Such notification shall show the amount and the value of milk in each class, the amount and the value of overage, and the amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months;

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate and notify each handler in writing:

(1) On or before the 13th day after the end of each of the months of September through February, the uniform price and the location differential for each handler computed pursuant to §§ 918.71 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92, and

(2) On or before the 13th day after the end of each of the months of March through August, the uniform prices for base milk and for excess milk and the location differential for each handler computed pursuant to §§ 918.72 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92; and

(l) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 918.30 *Reports of receipts and utilization.* On or before the 8th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator for each of his approved plants for such month as follows:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in products designated as Class I milk pursuant to § 918.41 (a) (1) received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of Class I milk on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 918.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 8th day after the end of the month, for each of his fluid milk plants the correct name and address or appropriate identification of each producer, the total pounds of milk received from each producer, the number of days on which milk was received from each producer, the amount of any deductions authorized in writing by the producer to be made in making payments to such producer, and the average butterfat content of the milk received from each producer.

(2) Such other information with respect to the utilization of butterfat and skim milk as the market administrator may prescribe.

§ 918.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled; and

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month.

§ 918.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 918.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month at fluid milk plants and which is required to be reported pursuant to § 918.30 shall be classified by the market administrator pursuant to the provisions of §§ 918.41 through 918.46.

§ 918.41 *Classes of utilization.* Subject to the conditions set forth in §§ 918.43 and 918.44, the class of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (including sour cream) and any mixture in fluid form of skim milk and cream (except eggnog, ice cream mix, and milk or skim milk disposed of and used for livestock feed); (2) contained in inventory of milk and milk products designated as Class I milk pursuant to subparagraph (1) of this paragraph, on hand at the end of the month; and (3) not accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section, (2) disposed of and used for livestock feed, and (3) in shrinkage up to 2 percent of skim milk and butterfat in producer milk and other source milk.

§ 918.42 *Shrinkage.* The market administrator shall allocate shrinkage over receipts at the fluid milk plant(s) of each handler as follows:

(a) Compute the shrinkage of skim milk and butterfat assigned to Class II milk; and

(b) Assign the resulting amounts pro rata to the handler's receipts of skim milk and butterfat, respectively, in producer milk and in other source milk.

§ 918.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect, or if reused in Class I milk after first being classified as Class II milk.

§ 918.44 *Transfers.* Skim milk or butterfat disposed of from a fluid milk plant shall be classified:

(a) As Class I milk if transferred in the form of products designated as Class I milk in § 918.41 (a) (1) to a fluid milk plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in the reports submitted by them to the market administrator pursuant to § 918.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 918.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to producer milk;

(b) As Class I milk if transferred to a producer-handler in the form of products designated as Class I milk in § 918.41 (a) (1);

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonfluid milk plant, unless the following conditions are met:

(1) The transferring handler claims utilization in a product specified in § 918.41 (b);

(2) The operator of the nonfluid milk plant keeps adequate books and records showing the utilization of all skim milk and butterfat received at such plant, and the market administrator is permitted to audit such books and records for the purpose of verification; and

(3) An amount of skim milk and butterfat not less than that so transferred or diverted from fluid milk plants was used during the month in the nonfluid milk plant in the Class II milk product in which utilization was claimed: *Provided*, That skim milk and butterfat so transferred or diverted in excess of such utilization shall be assigned to Class I milk.

§ 918.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the fluid milk plants of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 918.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 918.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 918.42 (b);

(2) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk contained in inventory on hand at the beginning of the month which were classified as Class I milk in the preceding month;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk received from the fluid milk plants of other handlers in the form of products designated as Class I milk in § 918.41 (a) (1), according to its classification as determined pursuant to § 918.44 (a);

(5) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(6) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk allocated to producer milk.

MINIMUM PRICES

§ 918.50 *Basic formula price.* The highest of the prices computed pursuant to paragraphs (a), (b) and (c) of this section and § 918.51 (b), rounded to the nearest whole cent, shall be known as the basic formula price.

(a) To the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the Chicago butter price for the month by 0.6;

(b) The price computed by adding together any plus values computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.8;

(2) Deduct five cents from the simple average as computed by the market administrator of the weighted averages of carlot prices per pound of nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department of Agriculture, and multiply by 7.5.

(c) The price resulting from the following calculations:

(1) Multiply by 8.53 the average of the daily prices per pound of cheese at Wisconsin primary markets ("cheddars," f. o. b. Wisconsin assembly points, cars or truckloads) as reported by the U. S. D. A. during the month;

(2) Add 0.902 times the Chicago butter price for the month;

(3) Subtract 34.3 cents; and

(4) Add an amount computed by multiplying the Chicago butter price for the month by 0.6.

§ 918.51 *Class prices.* Subject to the provisions of §§ 918.52 and 918.53, the minimum prices per hundredweight to be paid by each handler for milk received at his fluid milk plant from producers during the month shall be as follows:

(a) *Class I milk.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, subject to the adjustments provided in subparagraphs (1) and (2) of this paragraph:

(1) Add $1.28 for the months of March through August, and $1.68 for all other months;

(2) Add if the net utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than the base utilization range, an amount determined by multiplying such net utilization percentage by the appropriate rate as follows:

Pricing months:	Rate (cents)
January-March	3
April-June	1
July-August	3
September-December	4

(3) The figure calculated for each month as follows shall be known as the net utilization percentage: Divide the net pounds of Class I milk disposed of from all fluid milk plants for the second and third preceding months into the total volume of producer milk for the same months, multiply by 100, round to the nearest whole percentage number and determine the amount by which such number exceeds the higher figure or is less than the lower figure of the appropriate base utilization range in the following table:

Pricing month	Second and third preceding month	Base utilization range
January	October-November	105-110
February	November-December	101-111
March	December-January	106-116
April	January-February	110-120
May	February-March	112-122
June	March-April	119-129
July	April-May	128-138
August	May-June	128-138
September	June-July	124-134
October	July-August	122-132
November	August-September	115-125
December	September-October	109-116

(b) *Class II milk.* The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Olive Branch Cheese Co., Olive Branch, Miss.
Borden Co., Starkville, Miss.
Carnation Co., Tupelo, Miss.
Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Kosciusko, Miss.
Kraft Foods Co., Corinth, Miss.
Armour Creameries, New Albany, Miss.

§ 918.52 *Butterfat differential to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices calculated pursuant to § 918.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the previous month by 0.12;

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.11 for the months of April through June, and by 0.115 for all other months.

§ 918.53 *Location differentials to handlers.* For that milk which is received from producers at a fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by shortest hard-surfaced highway distance, as determined by the market administrator, and which is transferred in the form of products designated as Class I milk in § 918.41 (a) (1) to another fluid milk plant and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 918.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the fluid milk plant where such milk is received from producers:

Distance from the City Hall in Memphis (miles):	Rate per hundredweight (cents)
40 but less than 50	17
50 but less than 60	18
For each additional 10 miles or fraction thereof	An additional 1 cent

Provided, That for purposes of calculating such location differential, products so designated as Class I milk which are transferred between fluid milk plants shall be assigned to any Class II milk remaining in the transferee-plant after making the calculations prescribed in § 918.46 (a) (1) and (2) and the comparable steps in § 918.46 (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

APPLICATION OF PROVISIONS

§ 918.60 *Producer-handlers.* Sections 918.40 through 918.46, 918.50 through 918.53, 918.70 through 918.72, 918.80 through 918.83, and 918.90 through 918.97 shall not apply to a producer-handler.

§ 918.61 *Plants subject to other Federal orders.* In the case of any fluid milk plant which the Secretary determines disposes of a greater portion of its milk as Class I milk on retail or wholesale routes in another marketing area regulated by another order issued pursuant to the act that is disposed of as Class I milk on retail or wholesale routes (including sales through vendors) in the Memphis marketing area, and which would be subject to the classification and pricing provisions of such order, the provisions of this order shall not apply except as follows: The operator of such plant shall, with respect to the total receipts and utilization of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require, and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICE

§ 918.70 *Net obligation of handlers.* The net obligation of each handler for producer milk received at his fluid milk plants during each month shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price; (b) add together the resulting amounts; (c) add the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price; (d) add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months; (e) from the effective date hereof through July 1954, deduct for each hundredweight of producer milk which was allocated to Class II pursuant to § 918.46 and which was either used in the production of American type cheeses or assigned to such products pursuant to § 918.44 (c), any amount by which the price of Class II milk exceeds the average of the prices reported pursuant to § 918.51 (b) for the plants located at Corinth, New Albany and Olive Branch, Mississippi; and (f) add for each month of September an amount calculated by multiplying by 40 cents the hundred-

weight by which the inventory classified pursuant to § 918.41 (a) (2) for the preceding month exceeds such inventory for the preceding February.

§ 918.71 *Computation of uniform prices for handlers.* For each of the months of September through February, the market administrator shall compute for each handler with respect to his producer milk a uniform price as follows:

(a) Add to the amount computed pursuant to § 918.70 the total of the location differential deduction made pursuant to § 918.93;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price(s) for the preceding month;

(d) Divide the resulting amount by the total hundredweight of producer milk received by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, f. o. b. market.

§ 918.72 *Computation of the uniform price for base milk and for excess milk for handlers.* For each of the months of March through August, the market administrator shall compute for each handler with respect to his producer milk a uniform price for base milk and for excess milk as follows:

(a) Add to the amount computed pursuant to § 918.70 the total of the location differential deductions made pursuant to § 918.93;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Subtract, for each of the months of March through August, any amounts resulting from the following computations for each cooperative association which is a handler pursuant to § 918.10 (b) and from whose producers the handler receives milk:

(1) Compute the percentage which milk received from members of the cooperative association was of total producer milk during the preceding period of September through February;

(2) Compute the percentage which milk received from members of such cooperative association was of total producer milk during the month;

(3) Multiply any amount by which the percentage computed pursuant to subparagraph (1) of this paragraph exceeds the percentage computed pursuant to subparagraph (2) of this paragraph by the total hundredweight of Class I milk allocated to producer milk during the month; and

(4) Multiply this resultant quantity of milk by the difference between the Class I price and the Class II price for the month and divide the resultant figure by the proportion of producer milk which was purchased from producers not members of such cooperative association: *Provided*, That if the combined deductions so calculated for all handlers with respect to the milk of any cooperative association exceed an allowable credit calculated by multiplying the difference between the Class I and Class II prices by the total quantity of Class II milk allocated to all producer members of such cooperative association during the month, such deductions shall be reduced pro rata for each handler to equal such allowable credit:

(d) Add, for each cooperative association which is a handler, the sum of the deductions made for such cooperative association pursuant to paragraph (c) of this section;

(e) Add the amount represented by any deductions made for eliminating fractions of a cent in computing uniform price(s) for the preceding month;

(f) Subject to the conditions set forth in paragraph (g) of this section, compute the value of excess milk received by such handler from producers by multiplying the quantity of such milk by the Class II price;

(g) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (f) of this section from the value obtained pursuant to paragraphs (a) through (e) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of such base milk by the Class I price, such value in excess thereof shall be added to the value computed pursuant to paragraph (f) of this section;

(h) Divide the value obtained pursuant to paragraph (g) of this section by the hundredweight of base milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for base milk of 4.0 percent butterfat content, f. o. b. the market; and

(i) Divide the value obtained pursuant to paragraph (f) of this section by the hundredweight of excess milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for excess milk of 4.0 percent butterfat content.

BASE RATING

§ 918.80 *Determination of daily base of each producer.* For the months of March through August of each year, the daily base of each producer shall be an amount of milk computed by the market administrator by dividing the total pounds of milk received from such producer by handlers during the preceding months of September through February by the total number of days in such period.

§ 918.81 *Determination of monthly base of each producer.* For each of the months of March through August of each year, the monthly base of each producer shall be an amount of milk computed by the market administrator by multiplying the daily base of such producer by the number of days on which milk was received during such month from such producer by a handler.

§ 918.82 *Base rules.* (a) A landlord who rents on a share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the daily base shall be divided between the joint owners according to ownership of the cattle.

(b) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship the base of the landlord and tenant may be combined and may be divided when such relationship is terminated.

(c) The base of a producer may be moved from one handler to another and may be transferred from such producer to another producer.

§ 918.83 *Announcement of daily bases.* On or before March 20 of each year, the market administrator shall notify each producer of his daily base.

PAYMENTS

§ 918.90 *Payments to market administrator.* On or before the 12th day of each month, each handler shall pay to the market administrator an amount equal to such handler's net obligation for the previous month for milk received from producers at his fluid milk plant(s) as determined pursuant to § 918.70, less proper deductions authorized in writing by such producers. The market administrator shall maintain a separate fund into which he shall deposit all payments of handlers received pursuant to this section and out of which he shall make all payments pursuant to § 918.91.

§ 918.91 *Payments to producers.* The market administrator shall pay each producer in the manner prescribed in paragraphs (a) and (b), or (c) of this section for milk received by a handler from such producer: *Provided*, That if such handler has not made full payment for the month pursuant to § 918.90, the market administrator shall reduce uniformly payments to such handler's producers and shall complete such payments after receiving the balance due from such handler.

(a) On or before the 15th day after the end of the months of September through February, the market administrator shall pay each producer for milk received by a handler from such producer during the month an amount computed by multiplying the hundredweight of such milk by not less than the uniform price computed for such handler pursuant to § 918.71, subject to the adjustments specified in §§ 918.92, 918.93, and 918.96, and less proper deductions authorized in writing by such producer.

(b) On or before the 15th day after the end of each of the months of March through August, the market administrator shall pay each producer for milk received by a handler from such producer during the month, subject to proper deductions authorized in writing by such producer and subject to the adjustments specified in §§ 918.92, 918.93 and 918.96, an amount computed as follows:

(1) Multiply the hundredweight of base milk received from such producer by such handler by not less than the uniform price for base milk computed for such handler pursuant to § 918.72;

(2) Multply the hundredweight of excess milk received from such producer by such handler by not less than the uniform price for excess milk computed for such handler pursuant to § 918.72; and

(3) Add together the resulting sums.

(c) In the case of a cooperative association which is authorized by its members to collect payment for milk and which has so requested, the market administrator shall pay, on or before the 2d day prior to the date payments are due pursuant to paragraphs (a) and (b) of this section, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to this section.

§ 918.92 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer pursuant to § 918.91 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate shown in the schedule below, according to the price range within which the Chicago butter price for the month falls:

Butter price range (cents):	Rate (cents)
Not more than 17.500	2
17.50–22.499	2½
22.50–27.499	3
27.50–32.499	3½
32.50–37.499	4
37.50–42.499	4½
42.50–47.499	5
47.50–52.499	5½
52.50–57.499	6
57.50–62.499	6½
62.50–67.499	7
67.50–72.499	7½
72.50–77.499	8
77.50–82.499	8½
82.50–87.499	9
87.50–92.499	9½
92.50 and over	10

§ 918.93 *Location differentials to producers.* In making payment to producers pursuant to § 918.91, the applicable uniform prices to be paid for producer milk received at a fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the fluid milk plant where such milk was received at the following rate:

Distance from the City Hall in Memphis (miles):	Rate per hundredweight (cents)
40 but less than 50	17
50 but less than 60	18
For each 10 miles or fraction thereof	An additional 1 cent.

§ 918.94 *Statement to producers.* In making the payments pursuant to § 918.91, the market administrator shall furnish each producer or cooperative association with a statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The delivery period and the identity of the handler and the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer;

(c) The minimum rates at which payment to the producer or cooperative association is required under the provisions of §§ 918.91, 918.92 and 918.93.

(d) The amount or rates per hundredweight of each deduction, together with a description of the respective deductions; and

(e) The net amount of payment to the producer or cooperative association.

§ 918.95 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due the market administrator from such handler, or due such handler from the market administrator, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 918.96 *Marketing services*—(a) *Deductions.* The market administrator in making payments to producers pursuant to § 918.91 shall (1) deduct 7 cents per hundredweight or such amount not exceeding 7 cents per hundredweight as may be prescribed by the Secretary, with respect to milk (other than milk of a handler's own production) of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association or (2) if so requested by a cooperative association, deduct such amount as may be authorized by the producer members of such association from the payment to be made to such producers for whom the cooperative is performing the services specified in paragraph (b) of this section and pay such amounts to the cooperative association on or before the date for making payment to producers.

(b) *Marketing services to be rendered.* The moneys received by the market administrator pursuant to paragraph (a) (1) of this section shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association.

§ 918.97 *Expense of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator, on or before the 15th day after the end of the month, for such month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all (a) receipts of producer milk including such handler's own production, (b) other source milk received at a fluid milk plant and classified as Class I milk and (c) Class I milk distributed to retail or wholesale outlets (including sales through vendors or plant stores) in the marketing area from a plant other than a fluid milk plant.

§ 918.98 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was re-

ceived if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 918.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 918.101.

§ 918.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision hereof whenever he finds this subpart or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 918.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 918.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 918.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 918.111 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Filed at Washington, D. C., this 25th day of March 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 64]

[Docket No. 10971]

CHARGES FOR GOVERNMENT TELEGRAPH COMMUNICATIONS

TERM

In the matter of charges for United States Government Telegraph Communications, amendment of Part 64 of the Commission's rules and regulations (miscellaneous rules relating to Common Carriers); Docket No. 10971.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend § 64.310 *Term* of Subpart C (United States Government Foreign and Overseas Telegraph Communications), of Part 64 of the Commission's rules and regulations, to read as follows:

§ 64.310 *Term.* The provisions of this subpart shall continue in effect through June 30, 1955, unles changed by order of the Commission.

Reason for change. It is necessary under the applicable cable landing licenses that the Commission act annually and the section in its present form provides that the provisions of Subpart C shall continue in effect through June 30, 1954.

3. No changes are now being proposed in the other provisions of Subpart C

4. The proposed amendment is issued under authority of sections 4 (i) and 601 (b) of the Communications Act of 1934, as amended, and pursuant to the provisions of the permits or licenses granted by the President of the United States, giving the Postmaster General authority to fix rates and charges for United States Government telegraph communications transmitted by any carrier or carriers subject to the terms of such permits or licenses, which authority was transferred to the Commission by section 601 (b) of the Communications Act.

5. Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before April 30, 1954, written data, views or arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within 10 days from the last day for filing said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: March 24, 1954.

Released: March 25, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2231; Filed, Mar. 29, 1954; 8:53 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARKANSAS

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 24, 1954.

An application, number 1814073, for the withdrawal from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, of the lands described below was filed on February 26, 1954, by the Department of the Army, Office of the Chief of Engineers.

The purposes of the proposed withdrawal: Construction, operation and maintenance of the Norfolk Reservoir.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VI, Bureau of Land Management, Department of the Interior at Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

FIFTH PRINCIPAL MERIDIAN

T. 20 N., R. 13 W.,
Sec. 12, SE¼NE¼ and NE¼SE¼.

R. J. MCCORMICK,
Acting Regional Administrator.

SOUTH DAKOTA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 19, 1953.

An application, serial number BLM 036169, for the withdrawal from all forms of appropriation under the public land laws, except mining laws and mineral leasing laws of the lands described below was filed on January 23, 1953, by the Department of Agriculture. The purposes of the proposed withdrawal: Transfer of public lands in South Dakota to Department of Agriculture for administration by the Forest Service.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region III, Bureau of Land Management, Department of the Interior, at Billings, Montana. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

WYOMING

RESTORATION ORDER UNDER FEDERAL POWER ACT

MARCH 19, 1954.

Pursuant to determination DA-127, Wyoming, of the Federal Power Commission issued October 13, 1953, and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to entry under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and provided further that the United States, its permittees or licensees shall not be held liable for any damage to the entryman's workings or improvements resulting from the construction, operation, or maintenance of hydroelectric power facilities authorized by the United States.

SIXTH PRINCIPAL MERIDIAN

T. 55 N., R. 94 W.:
Sec. 4: Lot 7,
5: SE¼SE¼,
8: NE¼NE¼,
9: Lots 2 and 3.

The areas described aggregate 211.62 acres.

The topography of the land is gently rolling, and the vegetative cover is of a desert type consisting principally of saltbrush, sagebrush, needle-and-thread grass and blue-bunch wheat grass.

The Yellowtail Reservoir as presently proposed for construction by the Bureau of Reclamation will inundate a small area in the southeast corner of Lot 7, Sec. 4, and therefore will be required by the Bureau of Reclamation. This lot is classified as primarily valuable and suitable for use in connection with the development program of the Bureau of Reclamation and is proposed for withdrawal for such purposes.

No applications for these lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land laws unless the lands have already been classified as valuable or suitable for such type of application,

or shall be so classified upon consideration of an application.

The land described shall be subject to application by the State of Wyoming for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right of way for public highways or as a source of materials for the construction and maintenance of such highways, subject to section 24 of the Federal Power Act as amended.

This order shall not otherwise affect the status of the land until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time the land shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. Sec. 279–284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager of the Land and Survey Office, Cheyenne, Wyoming.

MAX CAPLAN,
Acting Regional Administrator.

[F. R. Doc. 54-2214; Filed, Mar. 29, 1954; 8:49 a. m.]

[Wyoming O22477]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MARCH 19, 1954.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

SIXTH PRINCIPAL MERIDIAN

T. 14 N., R. 114 W.;
Sec. 36. SW¼.

The area described aggregates 160 acres.

The lands are rolling to steep in topography, and the soil is sandy and gravelly with some clay. Sustained cultivation of the land is prohibited due to the rough topography and unfavorable soil. The lands are entirely surrounded by other public land, and Sage Creek, a perennial stream, flows through the land in a southwesterly to northeasterly direction. The lands afford access to Sage Creek for stock watering purposes. The natural drift of livestock to and from seasonal ranges is along Sage Creek. The land is primarily suited for grazing use, access to Sage Creek for stock water and stock trailing purposes.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90 day preference filing period of veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Information showing the periods during which and conditions under which veterans and others may file application for these lands may be obtained on request from the Manager of the Land and Survey Office, Cheyenne, Wyoming.

MAX CAPLAN,
Acting Regional Administrator.

Office of the Secretary

OUTER CONTINENTAL SHELF

GEOLOGICAL AND GEOPHYSICAL EXPLORATIONS

Pursuant to the notice issued by the Secretary of the Interior on September 17, 1953, concerning geological and geophysical explorations in the outer Continental Shelf (18 F. R. 5667), a cooperative agreement has been entered into with the Louisiana Wild Life and Fisheries Commission covering the protection and conservation of aquatic life. In accordance with the provisions of the said notice as supplemented by the cooperative agreement, any person, as defined in section 2 (d) of the Outer Continental Shelf Lands Act of August 7, 1953 (67 Stat. 462), is hereby authorized to conduct geological and geophysical explorations in that part of the outer Continental Shelf seaward of the submerged lands of the State of Louisiana upon condition (1) that his operations shall be confined to such area or areas as may be designated and approved by the Regional Oil and Gas Supervisor of the United States Geological Survey, (2) that he has obtained appropriate permission for such explorations from the Corps of Engineers, Department of the Army, and (3) that, for the protection and conservation of aquatic life, he files with the said Regional Oil and Gas Supervisor and with the Louisiana Wild Life and Fisheries Commission his stipulation agreeing to comply with the requirements of the regulations of the said Commission governing the methods and inspection of and restrictions upon geological and geophysical explorations in the submerged lands of the State of Louisiana, which regulations are hereby adopted as the regulations of the Secretary of the Interior applicable to that part of the outer Continental Shelf seaward of the submerged lands of the State of Louisiana.

The enforcement of the regulations hereby adopted is delegated to the Regional Oil and Gas Supervisor of the United States Geological Survey, and he may accept the assistance of the State of Louisiana in the enforcement of the said regulations. This general authorization to conduct geological and geophysical explorations is subject to termination upon not less than 60 days' notice published in the FEDERAL REGISTER, and the authorization to conduct such explorations may be terminated as to any person upon reasonable notice.

Dated: March 23, 1954.

DOUGLAS MCKAY,
Secretary of the Interior

[F. R. Doc. 54-2215; Filed, Mar. 29, 1954; 8:49 a. m.]

DEPARTMENT OF COMMERCE

Office of the Secretary

[Dept. Order 46 (Amended)]

DIRECTOR OF OFFICE OF FACILITIES OPERATIONS AND MANAGEMENT AND HEADS OF CERTAIN PRIMARY ORGANIZATION UNITS

DELEGATION OF CONTRACTING AUTHORITY

SECTION 1. *Purpose.* The purpose of this order is to delegate contracting authority to the Director of the Office of Facilities Operations and Management and to the heads of certain primary organization units of the Department of Commerce and to provide for the redelegation of such authority.

SEC. 2. *Delegation.* .01 Pursuant to the provisions of section 161 R. S. (5 U. S. C. 22), and Reorganization Plan No. 5 of 1950, the Director of the Office of Facilities Operations and Management for those primary organization units served by the Office of Facilities Operations and Management (which include the Office of the Secretary, Office of Business Economics, Business and Defense Services Administration and the Bureau of Foreign Commerce) and the head of each other primary organization unit of the Department of Commerce are hereby authorized, subject to provisions of applicable laws and regulations, to approve and execute:

(1) Advertised contracts and accompanying bonds, including annual bid bonds;

(2) Any contract which is supplemental to an advertised contract; and

(3) Negotiated contracts and accompanying bonds, including annual bid bonds, or any contract supplemental thereto. (For the purpose of this order, a negotiated contract is one entered into without advertising, whether or not it falls within any of the exceptions mentioned in R. S. 3709 (41 U. S. C. 5).)

.02 Any contract and supplement thereto and amendments thereof for services by a management or any other consulting firm shall be approved by the Assistant Secretary of Commerce for Administration, regardless of amount, prior to execution.

.03 The authority delegated by section 2.01 of this order shall not include authority to execute negotiated contracts under Executive Order No. 10210 of February 2, 1951, unless and until appropriate regulations relating thereto are issued by the Secretary.

.04 The Director of the Office of Facilities Operations and Management and the heads of primary organization units delegated authority under section 2.01 of this order may redelegate such authority whenever they deem it necessary or desirable.

SEC. 3 *Services of the Office of the General Counsel.* .01 Primary organization units other than the Civil Aeronautics Administration, Bureau of Public Roads, and the Maritime Administration shall submit (a) any advertised contract and accompanying bonds, including annual bid bonds, in excess of $25,000, (b) any contract in excess of $10,000 which is supplemental to an advertised contract, and (c) any negotiated contract and accompanying bonds, including annual bid bonds, in excess of $500 or any contract supplemental thereto to the Office of the General Counsel for legal clearance prior to approval and execution.

.02 The services of the Office of the General Counsel shall continue to be available to all primary units of the Department for legal advice on matters pertaining to contracts, supplements thereto, and bonds. Any such instruments involving unusual circumstances, regardless of the amount involved, shall be submitted to this Office for approval as to legal form and effect.

SEC. 4 *Effect on other orders.* This order supersedes Department Order No. 46 (Amended) of August 16, 1951 (16 F. R. 8298), and Amendment 1 thereto of August 13, 1953 (18 F. R. 4895). Any other orders or parts of orders the provisions of which are inconsistent or in conflict with the provisions of this order are hereby amended or superseded accordingly.

Effective date: March 16, 1954.

SINCLAIR WEEKS,
Secretary of Commerce.

[F. R. Doc. 54-2219; Filed, Mar. 29, 1954; 8:50 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended June 2, 1952, 17 F. R. 3818).

Alabama Textile Products Corp., Panama City, Fla., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (shirts).

Alabama Textile Products Corp., Brantley, Ala., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (shirts).

Alabama Textile Products Corp., Andalusia, Ala., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (shirts, work pants, etc.).

Altoona Factories, Inc., 1715 Eleventh Avenue, Altoona, Pa., effective 3–25–54 to 3–24–55; 10 learners for normal labor turnover purposes (hunting coats, pants and vests).

The Andala Co., Andalusia, Ala., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts and pants).

Barbizon of Utah, Inc., 150 West Twelfth N. Provo, Utah, effective 4–10–54 to 4–9–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' lingerie).

Brook Manufacturing Co., Inc., First and Miles Streets, Old Forge, Pa., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's trousers).

Burlington Manufacturing Co., Concordia, Mo., effective 3–30–54 to 3–29–55; 10 learners for normal labor turnover purposes (pants, shirts and jackets).

Dickson-Jenkins Manufacturing Co., 202 St. Louis, Fort Worth, Tex., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (pants, shirts, jackets, etc).

Edgefield Shirt Co., Inc., Swainsboro, Ga., effective 4–1–54 to 3–31–55; 5 learners for normal labor turnover purposes (work shirts).

El-Jay Dress Manufacturing, Inc., Main Street, Childs, Pa., effective 3–18–54 to 3–17–55; 6 learners for normal labor turnover purposes (ladies' dresses).

Elloree Garment Corp., Elloree, S. C., effective 3–19–54 to 3–18–55; 10 learners for normal labor turnover purposes (night gowns and pajamas).

Enterprise Manufacturing Co., Enterprise, Ala., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (shirts).

Glen of Michigan, Div., Rhea Manufacturing Co., 77 Hancock St., Manistee, Michigan, effective 3–18–54 to 3–17–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (learners are not authorized to be employed at subminimum wage rates in the production of skirts) (dresses, blouses, etc.).

The Hercules Trouser Co., Manchester, Ohio, effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' pants).

Humberland Dress Co., 31 North Spruce Street, Mount Carmel, Pa., effective 3–23–54 to 3–22–55; 10 learners for normal labor turnover purposes (children's dresses).

The Jay Garment Co., Brookville, Ind., effective 4–1–54 to 3–31–55; 10 learners for normal labor turnover purposes (children's overalls).

The Jay Garment Co., Portland, Ind., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's work clothing).

K & K Novelty Co., 882 Market Street, Kingston, Pa., effective 3–19–54 to 3–18–55; 5 learners for normal labor turnover purposes (learners are not authorized to be employed at subminimum wage rates in the production of skirts) (ladies' dresses and blouses).

A. Lore, Inc., 53 Pike Street, Port Jervis, N. Y., effective 3–18–54 to 3–17–55; 5 learners for normal labor turnover purposes (children's underwear).

McNeer Dillon Co., 550 South Center, 433½ Western Avenue, 739 Shelton Avenue, Statesville, N. C., effective 3–18–54 to 3–17–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (shirts).

New England Shirt Co., Inc., 7 Montgomery Street, Danbury, Conn., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal turnover purposes (shirts).

Regal Mfg. Co., 3915 Main Street, Dallas, Tex., effective 3–16–54 to 3–15–55; 5 learners for normal labor turnover purposes (service uniforms).

Sancar Corp., 28 West Rock Street, Harrisonburg, Va., effective 3–28–54 to 3–27–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear).

Semco, Inc., 145 Maxwell Avenue, Greenwood, S. C., effective 3–17–54 to 3–16–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

The Shirtcraft Co., Inc., Lurgan Street, Shippensburg, Pa., effective 3–18–54 to 3–17–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's dress and sport shirts).

The Solomon Co., Leeds, Ala., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' dress trousers and jackets).

Strutwear, Inc., Glencoe, Minn., effective 3–23–54 to 3–22–55; 7 learners for normal labor turnover purposes in the production of women's blouses and women's lingerie from purchased woven fabric (women's blouses and lingerie).

Sun Garment Co., Twelfth and Penn Streets, St. Joseph, Mo., effective 3–23–54 to 3–22–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (shirts).

Triple A Trouser Manufacturing Co., 1431 Capouse Avenue, Scranton, Pa., effective 3–25–54 to 3–24–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (trousers).

Troy Textiles, Inc., Troy, Ala., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

United Pants Co., Inc., Shoemaker Street, Swoyerville, Pa., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (pants and jackets).

United Pants Co., Inc., 222–228 Beade Street, Plymouth, Pa., effective 4–1–54 to 3–31–55; 10 percent of the total number of factory production workers for normal labor turnover purposes (pants).

The Warner Brothers Co., Thomasville, Ga., effective 4-1-54 to 3-31-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (corsets and brassieres).

Cigar Industry Learner Regulations (29 CFR 522.201 to 522.211, as amended October 27, 1952, 17 F. R. 8633).

Budd Cigar Co., 309 Sixth Avenue, Dothan, Ala., effective 4-1-54 to 9-30-54; 140 learners for expansion purposes. Cigar machine operating, 320 hours; Cigar packing (cigars retailing for 6c or less), 160 hours; Machine stripping, 160 hours; each 65c an hour.

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended July 13, 1953, 18 F. R. 3292).

Wells Lamont Corp., Mount Vernon, Tex., effective 3-17-54 to 3-16-55; 10 learners for normal labor turnover purposes (leather work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as amended November 19, 1951, 16 F. R. 10733).

Bachelors' Friend Hosiery Co., 1200 West Market Street, York, Pa., effective 3-23-54 to 3-22-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Murray Hosiery Mills Co., Murray, Ky., effective 3-16-54 to 3-15-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952, 16 F. R. 12866).

Burlington Mfg. Co., Inc., 130 South Street, Waymart, Pa., effective 3-23-54 to 3-22-55; 5 percent of the total number of factory production workers for normal labor turnover purposes (children's polo shirts).

Emkay Mfg. Co., 205 West Sixth Street, West Wyoming, Pa., effective 3-19-54 to 3-18-55; 5 percent of the total number of factory production workers for normal labor turnover purposes (swimsuits, girdles and brassieres).

Hamburg Knitting Mills, Inc., Hamburg, Pa., effective 4-1-54 to 3-31-55; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies', men's and children's underwear).

Holeproof Hosiery Co., Luxite Division, Cullman, Ala., effective 4-4-54 to 4-3-55; 5 percent of the total number of factory production workers for normal labor turnover purposes (women's underwear and sleepwear).

Strutwear, Inc., Glencoe, Minn., effective 3-23-54 to 3-22-55; 3 learners for normal labor turnover purposes in the production of women's lingerie from purchased knit fabric (women's lingerie).

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260, as amended March 17, 1952, 17 F. R. 1500).

Diane Footwear, Inc., 92 South Empire Street, Wilkes-Barre, Pa., effective 3-19-54 to 3-18-55; 10 percent of the number of productive factory workers in the plant for normal labor turnover purposes.

Penn Footwear Co., Corner Line and Grove Streets, Nanticoke, Pa., effective 3-19-54 to 3-18-55; 10 learners for normal labor turnover purposes.

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Airflex, Inc., Military Road, K 11 H 7, Bayamon, P. R., effective 3-15-54 to 9-14-54; 24 learners. Assembly operations and polishing, 160 hours at 45¢ an hour (metal expansion watch bands).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER, pursuant to the provisions of Part 522.

Signed at Washington, D. C. this 22d day of March 1954.

MILTON BROOKE,
Authorized Representative of the Administrator.

CIVIL AERONAUTICS BOARD

[Docket No. 6078]

AIR AMERICA, INC., ET AL.; COMPLIANCE PROCEEDING

NOTICE OF ORAL ARGUMENT

In the matter of a complaint against Air America, Inc., and certain allegedly associated companies, including Air America Agency Corporation, Air America Agency, Inc., Airline Reservations, Inc. (New York), Airline Reservations, Inc. (Illinois), and Airline Tickets, Inc., filed by American Airlines, Inc., and charging aforesaid respondents, together and severally, with violations of section 411 of the Civil Aeronautics Act of 1938, as amended, and with violations of § 291.1 (a) of the Board's Economic Regulations.

Notice is hereby given pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on April 20, 1954, at 10:00 a.m., (e. s. t.), in Room 5042, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before the Board.

Dated at Washington, D. C., March 24, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F. R. Doc. 54-2205; Filed, Mar. 29, 1954; 8:48 a. m.]

DEPARTMENT OF AGRICULTURE

Office of the Secretary

[Memorandum No. 1346]

ASSIGNMENT OF DEFENSE MOBILIZATION FUNCTIONS WITHIN THE U. S. DEPARTMENT OF AGRICULTURE AND RELATED DELEGATIONS OF AUTHORITY

A. *Purpose.* The purpose of this memorandum is to assign responsibility and to delegate authority within the U. S. Department of Agriculture for the administration of designated defense mobilization functions assigned or delegated to the Secretary of Agriculture or the Department in Executive orders and defense mobilization or other directives under the Defense Production Act of 1950 as amended, the Universal Military Training and Service Act, the National Security Act, the Export Control Act, and the Strategic and Critical Materials Stock Piling Act.

B. *Explanation of attached schedule.* The attached schedule, which is a part of this memorandum, indicates the assignment of major defense mobilization functions within the U. S. Department of Agriculture. Functions have been decentralized whenever possible, although some central coordination is necessary in order to provide a balanced and integrated program. Responsibility for central liaison and coordination is placed in the Commodity Stabilization Service. Coordinating functions are listed in the right-hand column of the schedule. The remaining functions are listed in the left-hand column together with the name of the responsible Service or other agency. Functions are arranged according to the legal authority under which they are conducted.

C. *Official responsibility.* 1. Acting under general supervision of the appropriate Assistant Secretary or group director, the head of each Service or other agency of the Department designated in the schedule shall see that the defense mobilization functions assigned to his agency are carried out. The necessary authority is hereby delegated to him. He may, at his discretion, reassign or redelegate such responsibility and authority within his agency.

2. Close cooperation will be necessary among all officials of the Department to whom these assignments and delegations are made. It is suggested that the head of each agency named designate an official to serve as liaison on such matters with other agencies so as to facilitate central coordination.

D. *General.* This memorandum supersedes Secretary's Memorandum No. 1270 of September 15, 1950, "Delegation of Functions under the Defense Production Act" [1] as revised on March 9, 1951,[2] and Secretary's Memorandum No. 1283 of February 26, 1951, "Assignment of Manpower Responsibilities." Other documents are superseded to the extent they are inconsistent, but nothing in this memorandum shall affect the validity or force of actions taken under previous assignments of responsibility or delegations of authority relating to defense mobilization functions.

The foregoing provisions constituting Secretary's Memorandum No. 1346 were issued March 3, 1954.

This notice is issued at Washington, D. C., this 23d of March 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[1] 15 F. R. 6424.
[2] 16 F. R. 2446.

DEFENSE MOBILIZATION FUNCTIONS OF THE U. S. DEPARTMENT OF AGRICULTURE

I. FUNCTIONS UNDER DEFENSE PRODUCTION ACT AND EXECUTIVE ORDER 10480 WHICH PERTAIN TO FOOD—INCLUDING RELATED PLANNING FOR VARIOUS STAGES OF MOBILIZATION

A. Food [1] requirements and allocations

Specific functions	Agency assignments	Central coordinating functions—CSS
[illegible] requirements and distribution controls for individual food [illegible] Determining supplies for current period and for stepped-up and [illegible]n (through supply estimates committees). [illegible]ing supplies with requirements (and adjusting requirements if necessary) in current period and for stepped-up and full mobilization, and determining probable deficiencies as a basis for current allocation recommendations or for any expansion of stocks or production which might be needed in relation to stepped-up and full mobilization (through commodity allocation subcommittees or comparable device). Planning stand-by distribution system for stepped-up and full mobilization. Administering food orders as necessary (e. g., foodorder applicable to fruits and vegetables for military procurement).	CSS [2]—Cotton. AMS—Dairy. CSS [2]—Fats and oils. AMS—Fruits and vegetables. CSS [2]—Grain. AMS—Livestock, meat and wool. AMS—Poultry. [illegible] [illegible]	Cooperating with the Office of Defense Mobilization in development of overall assumptions to be used in determining supplies and requirements under stepped-up and full mobilization. Gathering food requirements from civilian, military and foreign claimants in current period, and for stepped-up and full mobilization in accordance with prescribed assumptions. Correlating overall food requirements and supplies currently and for stepped-up and full mobilization. Participating in analysis of requirements and capacity sponsored by the Office of Defense Mobilization. Making recommendations regarding food production and stock levels under conditions of stepped-up and full mobilization. Analyzing and making recommendations regarding current allocations and food orders and following up with approval authority.[3] Providing membership on Interagency Food Committee.
Civilian claimant: Serving as claimant for civilian requirements for current period and stepped-up and full mobilization. Determining arrangements to relate over-all allocations to consumer [illegible] (See V-H below)	AMS [illegible]	(Coordinating functions same as above.)
Foreign claimant: Serving as claimant agent for foreign requirements in current period and stepped-up and full mobilization. Determining shares to be distributed to individual foreign claimants.	FAS [illegible]	

B. Production-procurement programs under section 303 of the Defense Production Act

Program and policy formulation: Formulating production-procurement programs for certification by the Office of Defense Mobilization and approval of Directors of Commodity Credit Corporation. Preparing instructions for guidance of Commodity offices and State and county offices. Formulating policy with respect to disposal of stocks acquired under such programs. Following up to determine results.	CSS [illegible]	Maintaining liaison with the Office of Defense Mobilization regarding program certification. Coordinating Office of Defense Mobilization action with Board of Directors of Commodity Credit Corporation. Providing representation on Interagency Materials Advisory Committee of the Office of Defense Mobilization in order to assist in formulation of overall policy relating to production-procurement functions.
Field operations: Issuing operating instructions to field offices. Carrying out procurement and sales operations for all commodities (through Commodity offices). Applying incentives to encourage expansion of domestic production (through State and county committees).	CSS [illegible]	

C. Non-food materials and facilities essential to production, processing, and distribution of food

[illegible]nts, capacity and distribution actions for individual non-food [illegible] [illegible]mining requirements for current period and under stepped-up [illegible]mobilization and full mobilization. [illegible]ing existing capacity for production and distribution. [illegible]mending necessary facilities expansion programs to produce [illegible]tal requirements in light of any current, stepped-up and [illegible]mobilization deficiencies. [illegible]ing recommendations regarding special tax amortization [illegible]section 302 loan cases for essential facilities. [illegible]ping plans and procedures for domestic distribution control in event of stepped-up or full mobilization. (For farm machinery and equipment, fertilizer, and farm construction materials only.)	CSS—Farm machinery and equipment for all farm commodities. CSS—Fertilizer. CSS—Pesticides. CSS—Farm supplies. CSS—Fuels and energy. CSS—Farm transportation. CSS—[illegible]tion material Food processing machinery; equipment [illegible] and containers and processing materials used in food production, processing and distribution of: AMS—Cotton. AMS—Dairy. CSS—Fats and oils. AMS—Fruits and vegetables. AMS—Grain. AMS—Livestock, meat, and wool. AMS—Poultry. CSS—Sugar. AMS—Tobacco.	Correlating and assembling requirements for current period, stepped-up mobilization, and full mobilization covering all non-food and facility requisites and presenting to the Office of Defense Mobilization or appropriate delegate agencies. Participating in analysis of requirements and capacity sponsored by the Office of Defense Mobilization. Reviewing and approving proposed expansion goals and justifying before the Office of Defense Mobilization or other delegate agencies. Correlating and recommending to the Office of Defense Mobilization tax amortization and Section 302 loan actions. Correlating and approving plans for domestic distribution of farm machinery and equipment, commercial fertilizer and allocation of construction materials under stepped-up and full mobilization. Participating with the Office of Defense Mobilization and other delegate agencies in the development of stand-by basic materials distribution systems and stand-by orders applicable to non-food materials generally as they relate to food requisites. Providing representation on related committees of the Office of Defense Mobilization and appropriate delegate agencies. (Coordinating functions same as above.)
Requirements and capacity for particular types of food processing and distribution facilities (including private storage). Analyzing and determining existing processing and distribution capacity. Determining requirements under stepped-up and full mobilization. Recommending necessary expansion programs in light of possible current period and stepped-up and full mobilization deficiencies. Preparing recommendations regarding specific tax amortization [illegible]section 302 loan cases. Determining requirements for construction materials in stepped-up and full mobilization. [illegible]ring stand-by plans for allocation of construction materials.	AMS—Cotton. AMS—Dairy. CSS—Fats and oils. AMS—Fruits and vegetables. AMS—Grain. AMS—Livestock, meat and wool. AMS—Poultry. CSS—Sugar. AMS—Tobacco. AMS—Distribution facilities through the wholesale level.	

[1] The term "food" is used generally in this schedule as it is defined in Executive Order 10480, namely:
All commodities and products, simple, mixed, or compound, or complements to such commodities or products, that are capable of being eaten or drunk by either human beings or animals, irrespective of other uses to which such commodities or products may be put, at all stages of processing [illegible] the products thereof in vendible form for human or animal consumption. * * * The term "food" shall also include all starches, sugars, vegetable and animal fats and oils, cotton, tobacco, wood, mohair, hemp, flax fiber, and naval stores, but shall not include any such material after it loses its identity as an agricultural commodity or agricultural product.

[2] Commodity Stabilization Service (CSS) will plan stand-by food distribution systems in cooperation with Agricultural Marketing Service (AMS).

[3] Approving or certifying authority will work closely with officials responsible for central coordination.

DEFENSE MOBILIZATION FUNCTIONS OF THE U. S. DEPARTMENT OF AGRICULTURE—Continued

I. FUNCTIONS UNDER DEFENSE PRODUCTION ACT AND EXECUTIVE ORDER 10480 WHICH PERTAIN TO FOOD—INCLUDING RELATED PLANNING FOR VARIOUS STAGES OF MOBILIZATION—continued

C. Non-food materials and facilities essential to production, processing, and distribution of food—Continued

Specific functions	Agency assignments	Central coordinating functions—CSS
Requirements relating to particular types of transportation and warehousing. Determining probable requirements for transportation and warehousing for food in period of stepped-up and full mobilization.	AMS—Cotton. AMS—Dairy. CSS—Fats and oils. AMS—Fruits and vegetables. AMS—Grain. AMS—Livestock, meat and wool. AMS—Poultry. CSS—Sugar. AMS—Tobacco. AMS—Distribution facilities through the wholesale level.	

D. Manpower related to food

On farm Determining relation of food requirements to manpower needs in general farm production in current period, and in stepped-up and full mobilization. Developing recommendations on essential activities and critical occupations.	CSS	Coordinating all manpower activities in USDA. Compiling and submitting production, processing and marketing data and data on manpower implications to manpower agencies as basis for planning current period and stepped-up and full mobilization requirements. Working with manpower agencies in development of programs and policies for current period, and for stepped-up and full mobilization. Cooperating with the Office of Defense Mobilization and Department of Labor in relation to manpower phases of the analysis of requirements and capacity sponsored by the Office of Defense Mobilization. Providing representation on: Interagency Committee on Essential Activities and Critical Occupations—Departments of Commerce and Labor. Special Farm Labor Advisory Committee—Department of Labor. Interdepartmental Committee on International Labor Policy—Department of State.
Food processing and distribution: Determining relation of food requirements to manpower needs in current period and in stepped-up and full mobilization. Developing recommendations on essential activities and critical occupations.	AMS—Cotton. AMS—Dairy. CSS—Fats and oils. AMS—Fruits and vegetables. AMS—Grain. AMS—Livestock, meat, and wool. AMS—Poultry. CSS—Sugar. AMS—Tobacco. AMS—Food distribution generally through wholesale level.	
Manpower research relating to farm matters: Studies relating to on-farm labor saving equipment and practices, farm man-hour requirements and special area surveys.	ARS	
Manpower research relating to marketing: Studies relating to manpower in marketing channels and overall labor studies.	AMS	
Manpower education and training.	Extension Service	

E. General

Representation on Defense Mobilization Board of Office of Defense Mobilization.[6]	Secretary	
Representation on Manpower Policy Committee of Office of Defense Mobilization.[6]	Under Secretary	
Representation on Central Coordinating Committee and Interagency Regional Committees on Defense Mobilization of Office of Defense Mobilization.	CSS	

II. MISCELLANEOUS DEFENSE PRODUCTION ACT FUNCTIONS NOT DIRECTLY RELATED TO FOOD—INCLUDING RELATED PLANNING FOR VARIOUS STAGES OF MOBILIZATION

A. REA borrowers

Requirements for REA borrowers: Estimating electric power requirements for REA borrowers in stepped-up and in full mobilization for submission to claimant agency. Preparing stand-by plans for distribution of construction materials to borrowers.	REA	

B. U. S. Department of Agriculture

Requirements for construction and repair: Estimating construction and repair materials and facilities required by USDA in stepped-up as well as full mobilization for submission to claimant agency.	Office of Plant and Operations	
Requirements for operating equipment and supplies: Estimating operating equipment and supplies required by USDA in stepped-up as well as full mobilization for submission to claimant agency.	Office of Budget and Finance	

C. Forest products

Forest products production Participating with the Office of Defense Mobilization and the Department of Commerce in connection with activities related to production of forest products.	Forest Service	

[6] This representation should be coordinated with defense mobilization work generally through Item 1 of this schedule.

DEFENSE MOBILIZATION FUNCTIONS OF THE U. S. DEPARTMENT OF AGRICULTURE—Continued

III. FUNCTIONS RELATING TO SELECTIVE SERVICE UNDER UNIVERSAL MILITARY TRAINING AND SERVICE ACT

Specific functions	Agency assignments	Central coordinating functions—CSS
[illegible] [illegible]sisting Selective Service in applying farm deferment policies in [illegible]al areas (through State and county committees).	CSS	Assisting Selective Service in working out policies regarding deferments on farm and in the food industry generally. Preparing instructions and procedures for issuance to field offices with respect to USDA participation in Selective Service activities.
[illegible]ocessing and distribution: [illegible]mining relation of Selective Service program to manpower [illegible]ds in food processing and distribution.	AMS—Cotton. AMS—Dairy. CSS—Fats and oils. AMS—Fruits and vegetables. AMS—Grain. AMS—Livestock, meat and wool. AMS—Poultry. CSS—Sugar. AMS—Tobacco. AMS—Food distribution generally through wholesale level.	

IV. FUNCTIONS RELATING TO PLANNING FOR FACILITIES PROTECTION AND POST-ATTACK REHABILITATION UNDER NATIONAL SECURITY ACT

[illegible]s protection and post-attack rehabilitation for particular types [illegible] Determining critical food facilities of national significance and [illegible]veloping criteria for the designation of facilities which are [illegible]itical in local areas. [illegible]eloping and recommending physical protection standards for [illegible]al facilities and food inventories. [illegible]eloping a program of post-attack rehabilitation for food facilities [illegible]which are significant to national food supplies and for categories of [illegible]cilities likely to have local significance. [illegible]sting in carrying out pre-attack actions for physical protection [illegible]d physical rehabilitation. This will involve working directly [illegible]th major food facilities and advising community organizations [illegible]n measures which relate to facilities of local significance.	AMS[5]—Cotton. AMS[5]—Dairy. CSS[5]—Fats and oils. AMS[5]—Fruits and vegetables. AMS[5]—Grain. AMS[5]—Livestock, meat, and wool. AMS[5]—Poultry. CSS[5]—Sugar. AMS[5]—Tobacco. AMS[5]—Food distribution generally through wholesale level.	Correlating work and preparing overall program and reports. Providing representation on Facilities Protection Board and Industrial Defense Committee, both of the Office of Defense Mobilization; also participating as necessary in work of Industry Evaluation Board of the Department of Commerce.

V. FUNCTIONS RELATING TO STABILIZATION PLANNING UNDER NATIONAL SECURITY ACT

A. Price stabilization planning for full mobilization[6]

Price controls for individual commodities: Planning minimum level of control, keeping in mind other USDA program objectives and commodities to be controlled. Planning the point or points in farm-to-market system at which prices should be frozen. Planning price differentials which could be applied under longer range regulation.	CSS—Cotton. AMS—Dairy. CSS—Fats and oils. AMS—Fruits and vegetables. CSS—Grain. AMS—Livestock, meat, and wool. AMS—Poultry. CSS—Sugar. CSS—Tobacco.	Maintaining liaison and coordinating action with the Office of Defense Mobilization.
Intercommodity problems and overall plans: Making recommendations with respect to intercommodity problems in price plans. Planning best type of long-range regulations and relationship to regular price programs of USDA.	CSS	(Coordinating functions same as above.)

B. Consumer rationing[7]

		Consumer rationing planning for full mobilization. Maintaining liaison with the Office of Defense Mobilization.

VI. FUNCTIONS RELATING TO FOOD PROCUREMENT COORDINATION UNDER NATIONAL SECURITY ACT

		Developing overall plan for coordination of all Government food procurement in full mobilization, taking into account relation to allocations, area and timing of purchases and availability of manpower.

VII. FUNCTIONS RELATING TO ASSISTANCE TO INTERNATIONAL ORGANIZATIONS ENGAGED IN MOBILIZATION PLANNING (I. E., NORTH ATLANTIC TREATY ORGANIZATION)

International data, overall reports and liaison: Preparing data relating to international situation. Preparing overall reports and position papers. Maintaining liaison with backstopping group in Department of State. Providing representation on international committees.	FAS	Preparing data and reports relating to domestic mobilization plans.

VIII. FUNCTIONS RELATING TO SECURITY PHASES OF EXPORT CONTROL UNDER EXPORT CONTROL ACT

International data, overall reports and liaison: Determining relation of security export program to international situation. Preparing or reviewing overall reports. Providing representation on Advisory Committee on Export Policy of the Department of Commerce and related committees.	FAS	Determining relation of security export programs to domestic supplies (chiefly supplies of non-food materials).

[5] If a project affects other areas, appropriate assignments will be made to other agencies of USDA.

[6] Wherever price stabilization planning involves technical computations relating to parity prices, it is understood that data will be obtained from the Agricultural Marketing Service.

[7] If planning of consumer food rationing and food procurement coordination becomes more active, it may be necessary to decentralize some of the work following a pattern somewhat similar to that used for price stabilization planning. Rationing planning should also be correlated with civilian requirements planning.

DEFENSE MOBILIZATION FUNCTIONS OF THE U. S. DEPARTMENT OF AGRICULTURE—Continued

IX. FUNCTIONS UNDER STRATEGIC AND CRITICAL MATERIALS STOCK PILING ACT [1]

A. Commodities in which USDA has direct interest (i. e., oils such as castor oil, coconut oil, palm oil, sperm oil; cordage fiber and wool; medicines or insecticides from plant derivatives such as quinine, quinadine, pyrethrum; rubber, tannin)

Specific functions	Agency assignments	Central coordinating functions—CSS
Basic data and expansion of domestic supplies: Participating with representatives of other agencies in preparing basic data sheets which are used in determining stockpile objectives. Determining extent to which domestic supplies can be expanded.	CSS	Insuring consistency of policy followed by USDA representatives. Preparing overall reports.
Research: Conducting research on substitutes, etc.	ARS	
Relation to foreign trade Participating in consideration of stockpile objectives and actions affecting foreign trade.	FAS	
B. Commodities in which USDA has indirect interest (i. e., aluminum, copper, tin, nickel)		
Basic data: Participating in development of basic data sheets to assure that essential agricultural requirements are included in stockpiling objectives.	CSS	Insuring consistency of policy followed by USDA representatives. Preparing overall reports.
C. General		
Representation: Providing representation on Interagency Materials Advisory Committee of the Office of Defense Mobilization with respect to stockpile matters.	CSS	(Coordinating functions same as above.)
X. PROGRESS REPORTING		
Preparing periodic progress reports of defense mobilization functions.	Each agency responsible for specific functions.	Coordinating defense mobilization reporting functions. Preparing overall defense mobilization reports for USDA

The letter designations used in the schedule have the following meaning:

USDA—U. S. Department of Agriculture.
AMS—Agricultural Marketing Service.
ARS—Agricultural Research Service.
CSS—Commodity Stabilization Service.
FAS—Foreign Agricultural Service.
REA—Rural Electrification Administration.

[1] The program by which commodities owned by the Commodity Credit Corporation may be bartered for strategic and critical commodities under Pub. Law 85 of the 81st Cong. also supports objectives of the stockpiling program.

VIRGINIA

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS AND ECONOMIC EMERGENCY LOANS

For the purpose of making loans pursuant to section 2 (a) of Public Law 38, 81st Congress, it is found that in King William County, Virginia, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the delegation of authority from the Administrator, Federal Civil Defense Administration (18 F. R. 4609) and for the purpose of making loans pursuant to section 2 (b) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, it is determined that King William County, Virginia, is within the area affected by the major disaster occasioned by drought determined by the President on September 26, 1953, pursuant to Public Law 875, 81st Congress. It is also determined that an economic disaster exists in said county that has caused a need for agricultural credit that cannot be met for a temporary period from commercial banks, cooperative lending agencies, the Farmers Home Administration under its regular loan programs, or other responsible sources.

After December 31, 1954, loans under section 2 (a) or 2 (b) of Public Law 38, 81st Congress, as amended, will not be made in the above named county except to borrowers who previously received such assistance.

Done at Washington D. C., this 24th day of March 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-2389]

CITY GAS COMPANY OF NEWTON, N. J.
NOTICE OF APPLICATION

MARCH 24, 1954.

Take notice that the City Gas Company of Newton, New Jersey (Applicant), a New Jersey Corporation, with offices in Flemington, New Jersey, filed on March 9, 1954, an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Tennessee Gas Transmission Company (Tennessee) to establish a physical connection of its proposed gas transmission line (Docket No. G-2331) with Applicant's facilities and to sell natural gas to Applicant for local distribution in the Town of Newton, New Jersey, and environs.

Applicant requests delivery of a maximum of 780 Mcf of natural gas per day.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 14th day of April 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2217; Filed, Mar. 29, 1954; 8:49 a. m.]

GENERAL SERVICES ADMINISTRATION

ASSISTANT ADMINISTRATOR

DELEGATION OF AUTHORITY TO PERFORM CERTAIN FUNCTIONS DURING DISABILITY OR ABSENCE OF ADMINISTRATOR

1. Pursuant to the authority vested in me by section 205 (d) of the Federal Property and Administrative Services Act of 1949 (Public Law 152, 81st Congress), as amended, I hereby delegate to the Assistant Administrator full authority to exercise, during any period of (a) disability of the Administrator or (b) absence of the Administrator from the Central Office of the General Services Administration, all of the powers, authorities, and functions vested in me as Administrator of General Services by the Federal Property and Administrative Services Act of 1949, as amended, and any other law, except those powers, authorities, and functions which can only be exercised by the Administrator or the Deputy Administrator of General Services pursuant to the provisions of section 101 (c) and 205 (d) of the Federal Property and Administrative Services Act of 1949, as amended, or pursuant to the provisions of other law.

2. The authority contained herein may not be redelegated.

3. This delegation of authority shall be effective March 24, 1954.

Dated: March 24, 1954.

EDMUND F. MANSURE,
Administrator.

[F. R. Doc. 54-2284; Filed, Mar. 26, 1954; 2:53 p. m.]

DISPOSITION OF WHOLE BLACK PEPPER HELD IN NATIONAL STOCK PILE

Pursuant to the provisions of section 3 (e) of the Strategic and Critical Materials Stock Piling Act, 60 Stat. 596, 50 U. S. C. 98b (e), notice is hereby given of a proposed disposition of approximately 161,617 pounds of whole black pepper now held in the National Stock Pile. The material to be disposed of is no longer needed in the Stock Pile because of a revised determination by the Office of Defense Mobilization, dated February 11, 1954, that by reason of obsolescence pepper is no longer a strategic and critical material within the purview of the above act.

The Office of The Quartermaster General, Department of the Army, which has a continuing requirement for ground black pepper, has expressed itself as interested in acquiring this pepper for the current consumption of the armed forces. Accordingly, it is proposed to transfer the approximately 161,617 pounds of pepper to the Office of The Quartermaster General.

In the event that for any reason the Office of The Quartermaster General is unable to effect this transaction, in whole or in part, within a reasonable time, it is proposed that the remaining pepper shall be disposed of in accordance with the procedures for property utilization and disposal of surplus property established under the regulations issued by General Services Administration pursuant to Title II of the Federal Property and Administrative Services Act of 1949, as amended.

Any transfer authorized hereunder to the Office of The Quartermaster General, Department of the Army, or to any other Federal activity, shall be at the market price at the time of transfer for material of equivalent quality and condition. In the event of the disposition of any of the pepper as surplus, it shall be sold by competitive bid, after advertising, to the highest bidder.

The material will be made available for disposition on and after October 1, 1954. Since the quantity of pepper to be disposed of under this plan represents only a small portion of the normal annual consumption by the armed forces and a very small proportion of the total annual consumption of the country, it is anticipated that the proposed disposition will have no disruptive effect on the market for pepper.

Disposal of the approximately 161,617 pounds of whole black pepper as outlined above has been proposed in order to avoid expensive and costly waste by obsolescence of a material which is subject to slow deterioration, and continuing storage costs.

Dated: March 24, 1954.

EDMUND F. MANSURE,
Administrator.

[Docket Nos. 10965, 10966]

SEATON PUBLISHING CO. AND STRAND AMUSEMENT CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of The Seaton Publishing Company, Hastings, Nebraska, Docket No. 10965, File No. BPCT-1265; Strand Amusement Company, Hastings, Nebraska, Docket No. 10966, File No. BPCT-1272; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of March 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 5 in Hastings, Nebraska; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that The Seaton Publishing Company is legally qualified to construct, own and operate a television broadcast station, and is technically so qualified except as to the matter referred to in issue "4" below; and that the Strand Amusement Company is legally qualified to construct, own and operate a television broadcast station and is technically so qualified except as to the matters referred to in issues "2", "3", and "4" set forth below; and

It further appearing that by letter dated March 17, 1954, the Strand Amusement Company requested a two weeks to thirty-day extension of time within which to reply to the Commission's letter of March 5, 1954; and that the reasons set forth in support of its request do not warrant the granting of said request;

It is ordered, That the request of the Strand Amusement Company for extension of time to reply to the Commission's letter of March 5, 1954, is denied;

It is further ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 23d day of April 1954 in Washington, D. C., upon the following issues:

1. To determine whether The Seaton Publishing Company and the Strand Amusement Company are financially qualified to construct, own and operate their proposed television broadcast stations.

2. To determine the power gain of the antenna system of the Strand Amusement Company and the effect thereof on the calculated effective radiated power.

3. To determine the loss due to the transmission line specified in the application of the Strand Amusement Company and the effect thereof on the calculated effective radiated power.

4. To determine whether the installation of the stations proposed in the above-entitled applications would constitute a hazard to air navigation.

5. To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the

management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

Released: March 25, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2233; Filed, Mar. 29, 1954; 8:54 a. m.]

[Docket Nos. 10967-10970]

COMMUNITY TELEVISION CO. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of M. J. Montesano, J. C. Stiglmeier, C. C. Grimm, G. E. Adema d/b as Community Television Company, Buffalo, New York, Docket No. 10967, File No. BPCT-1793; Great Lakes Television, Inc., Buffalo, New York, Docket No. 10968, File No. BPCT-1812; Leon Wyszatycki, d/b as Greater Erie Broadcasting Company, Buffalo, New York, Docket No. 10969, File No. BPCT-1827; WKBW-TV, Inc., Buffalo, New York, Docket No. 10970, File No. BPCT-1841; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 24th day of March 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 7 in Buffalo, New York; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Community Television Company, Great Lakes Television, Inc. and WKBW-TV, Inc. are legally, financially and technically qualified to construct, own and operate a television broadcast station; and that Greater Erie Broadcasting Company is legally and financially so qualified and is technically so qualified except as to the matter referred to in issue "1" below; and

It further appearing that Great Lakes Television, Inc. proposes an antenna of 1,555 feet above average terrain; that it may be necessary to specify special appropriate hazard markings therefor; and that a grant, if made, of the aforementioned application should be subject to the following condition: "That the obstruction markings shall be in accordance with such hazard markings as the Commission may find necessary and appropriate."

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 23d day of April 1954, in Washington, D. C., upon the following issues:

1. To determine whether the installation of the station proposed by Greater Erie Broadcasting Company in its above-entitled application would constitute a hazard to air navigation.

2. To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: March 25, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Sec. 5a Application 51]

INDIANA MOTOR RATE AND TARIFF BUREAU, INC.

APPLICATION FOR APPROVAL OF AGREEMENT

MARCH 25, 1954

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed March 22, 1954, by: Lawrence W. Cannon, Attorney-in-Fact, Indiana Motor Rate and Tariff Bureau, Inc., 8 East Market St., Indianapolis 4, Ind.

Agreement involved: An agreement between and among common carriers by motor vehicle, members of the Indiana Motor Rate and Tariff Bureau, Inc., relating to tariffs or rates, exceptions to classification ratings, rules, regulations or practices governing the transportation of property in interstate commerce between points in Indiana, and procedures for the joint consideration, initiation and establishment thereof.

The complete application may be inspected at the office of the Commission in Washington, D. C.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the general rules of practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Secretary.

FEDERAL REGISTER

VOLUME 19 NUMBER 62

Washington, Wednesday, March 31, 1954

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 906—MILK IN TULSA-MUSKOGEE, OKLAHOMA, MARKETING AREA

ORDER AMENDING THE ORDER AS AMENDED

§ 906.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Tulsa-Muskogee, Oklahoma, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Tulsa-Muskogee, Oklahoma, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (January 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Tulsa-Muskogee, Oklahoma, marketing area shall be in conformity to and in compliance with the following terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order is hereby further amended as follows:

1. Delete § 906.80 (c) and substitute therefor the following:

§ 906.80 *Time and method of payment.* * * *

(c) (1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual

loss incurred by him because of any improper claim on the part of the cooperative, each handler shall (i) pay to the cooperative association on or before the 13th and 27th day of each month, in lieu of payments pursuant to paragraphs (a) and (b) respectively, of this section an amount equal to the gross sum due for all milk received from certified members, less amounts owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer, (ii) submit to the cooperative association on or before the 10th day of each month written information which shows for each member-producer (*a*) the total pounds of milk received during the preceding month, (*b*) the total pounds of butterfat contained in such milk, (*c*) the number of days on which milk was received, (*d*) for the months of April through June, the amount of base and excess milk received, and (*e*) the amounts withheld by the handler in payment for supplies sold, and (iii) submit to the cooperative association on or before the 25th day of each month written information which shows for each such member-producer the total pounds of milk received during the first 15 days of the current month. The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 25th day of March 1954, to be effective on and after the 1st day of May 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2266; Filed, Mar. 30, 1954; 8:51 a. m.]

PART 913—MILK IN THE GREATER KANSAS CITY MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area, hereinafter referred to as the "order" it is hereby found and determined that the provisions of § 913.71 (c) of the order do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order for the delivery period of April 1954.

It is hereby found and determined that notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impracticable, unnecessary and contrary to the public interest, in that the (1) information upon which this action is based did not become available in sufficient time for such compliance; (2) the issuance of this suspension order effective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for the said marketing area; and (3) this action will affect only seasonality of returns to producers and will in no way affect the obligations of handlers subject to the order. The changes caused by this suspension order do not require of persons affected any preparation prior to its effective date.

It is therefore ordered, That the following provision of the order be and it is hereby suspended with respect to all milk subject to the provisions of the order for the delivery period of April 1954:

1. Section 913.71 (c) in its entirety.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 26th day of March 1954, to be effective April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

AUTHORITY: §§ 922.0 to 922.90 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 922.0 *Findings and determinations—(a) Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, effective thereunder (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Los Angeles, California, from December 7 to December 10, 1953, both dates inclusive, upon a proposed marketing agreement and a proposed marketing order regulating the handling of Valencia oranges grown in Arizona and designated part of California. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order regulates the handling of Valencia oranges grown in the designated production area in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in the proposed marketing agreement upon which a hearing has been held;

(3) The said order is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act;

(4) The said order prescribes such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of Valencia oranges covered thereby; and

(5) All handling of Valencia oranges, as defined herein, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is hereby found that good cause exists for making the provisions of this order effective not later than the time hereinafter specified because the harvesting and marketing of the 1953–54 Valencia orange crop grown in the production area have already begun; and this regulatory program should be made applicable to the handling of the largest practicable portion of such orange crop in order to maximize the benefits that may be derived under the act from such program. Promptly after such effective date, it will be necessary for the industry to elect, pursuant to rules and regulations prescribed by the Secretary, nominees from which the Secretary may select members and alternate members of the Valencia Orange Administrative Committee; and such rules and regulations should be made effective as soon as practicable. Subsequently, and prior to the initial imposition of regulations pursuant to this order, it will be necessary for the Committee and the Secretary to initiate, and complete, various actions of both organizational and regulatory natures, including the formulation and promulgation of the rules and regulations under the program. The time during which such actions will be concluded should be ample to permit growers and handlers to receive such notice thereof as will enable them reasonably and adequately to prepare for operations thereunder. The provisions of the order are well known to the growers and handlers of Valencia oranges, since the public hearing in connection with the order was concluded on December 10, 1953, and the recommended decision and final decision were issued on February 2, 1954 (19 F. R. 695, 801) and February 26, 1954 (19 F. R. 1177, 1325), respectively. Copies of the regulatory provisions of this order were made available to all known interested parties, and compliance with such provisions will not require advance preparation on the part of persons subject thereto which cannot be completed prior to the effective date of regulation pursuant hereto.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping oranges covered by this order) of more than 80 percent of the volume of such oranges covered by this order refused or failed to sign the proposed marketing agreement regulating the handling of Valencia oranges grown in Arizona and designated part of California; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign the proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of the producers of such oranges; and

(3) The issuance of this order is approved or favored by the producers who participated in a referendum on the question of the approval of the order and who, during the determined representative period (February 1, 1953, through January 31, 1954), produced for market at least two-thirds of the volume of Valencia oranges produced for market within Arizona and designated part of California.

It is, therefore, ordered, That, on and after the effective date hereof, the handling of Valencia oranges grown in Arizona and designated part of California shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order; and the terms and conditions of said order are as follows:

DEFINITIONS

§ 922.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be authorized to exercise the powers and perform the duties of the Secretary of Agriculture of the United States.

§ 922.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 922.3 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 922.4 *Production area.* "Production area" means the State of Arizona and that part of the State of California south of the 37th Parallel.

§ 922.5 *Oranges.* "Oranges" means any and all strains of the Valencia variety of oranges grown in the production area.

§ 922.6 *Fiscal year.* "Fiscal year" means the twelve-month period ending October 31 of each year: *Provided, however*, That the initial fiscal year shall begin with the effective date of this part and end October 31, 1954.

§ 922.7 *Marketing year.* "Marketing year" means the twelve-month period ending January 31 of each year.

§ 922.8 *Committee.* "Committee" means the Valencia Orange Administrative Committee established pursuant to § 922.20.

§ 922.9 *Grower.* "Grower" and "producer" are synonymous and mean any person who produces oranges for market.

§ 922.10 *Handler.* "Handler" means any person who handles oranges.

§ 922.11 *Handle.* "Handle" means to buy, sell, consign, transport, or ship oranges (except as a common or contract carrier of oranges owned by another person), or in any other way to place oranges in the current of commerce, between the State of California and any point outside thereof in the continental United States, Alaska, or Canada, or within the State of California, or between the State of Arizona and any point outside thereof in the continental United States, Alaska, or Canada, or within the State of Arizona. The term "handle" does not include (a) the sale of oranges on the tree; (b) the transportation of oranges to a packinghouse for the purpose of having such oranges prepared for market and such preparation for market; (c) the transportation of oranges for storage within the production area under such rules and regulations as the committee, with the approval of the Secretary, may prescribe; or (d) the sale of oranges at retail by a person in his capacity as such retailer.

§ 922.12 *Oranges available for current shipment.* "Oranges available for current shipment" means all oranges as measured by the tree crop.

§ 922.13 *Tree crop.* "Tree crop" means the total quantity of oranges on the trees as determined by the committee.

§ 922.14 *Early maturity oranges.* "Early maturity oranges" means any oranges that have reached maturity, as measured by applicable State laws, in advance of general maturity in the same prorate district.

§ 922.15 *General maturity.* "General maturity" shall have been reached in any prorate district at such time as the committee determines that allotment shall be distributed to all handlers in such prorate district.

§ 922.16 *Box.* "Box" means a standard two-compartment orange box, as defined in section 828.83 of the Agricultural Code of California, of a capacity of approximately 77 pounds of oranges, or such other container and weight as may be established by the committee with the approval of the Secretary, or the equivalent thereof.

§ 922.17 *Central marketing organization.* "Central marketing organization" means any organization which markets oranges for more than one handler pursuant to a written contract between such organization and each such handler.

§ 922.18 *Carload.* "Carload" means a quantity of oranges equivalent to 462 boxes of oranges or such other quantity of oranges as may be established by the committee with the approval of the Secretary.

§ 922.19 *Export.* "Export" means to ship oranges to points outside the continental United States, Canada, and Alaska.

ADMINISTRATIVE BODY

§ 922.20 *Establishment and membership.* There is hereby established a Valencia Orange Administrative Committee consisting of eleven members; for each of whom there shall be an alternate member who shall have the same qualifications as the member for whom each is an alternate. Six of the members and their respective alternates shall be growers who shall not be handlers, or employees of handlers, or employees of central marketing organizations. Four of the members and their respective alternates shall be handlers, or employees of handlers, or employees of central marketing organizations. One member of the committee and the alternate of such member shall be persons possessing the qualifications provided in paragraph (f) of § 922.22. The six members of the committee who shall be growers and who shall not be handlers, or employees of handlers, or employees of central marketing organizations are hereinafter referred to as "grower" members of the committee and the four members who shall be handlers, or employees of handlers, or employees of central marketing organizations are hereinafter referred to as "handler" members of the committee.

§ 922.21 *Term of office.* The term of office of each initial member and alternate member of the committee shall begin with the effective date of this part and shall terminate on January 31, 1956. The term of office of each subsequent member and alternate member of the committee shall be for a period of two marketing years, and such terms shall begin on February 1 of each even-numbered year: *Provided*, That such members and alternates shall serve in such capacities for the portion of the term of office for which they are selected and qualify and until their respective successors are selected and have qualified.

§ 922.22 *Nominations.* (a) The time and manner of nominating members and alternate members of the committee shall be prescribed by the Secretary.

(b) Any cooperative marketing organization, or the growers affiliated therewith, which handled more than 50 percent of the total volume of oranges handled during the marketing year in which nominations for members and alternate members of the committee are submitted (except that the marketing year for initial nominations shall be the year beginning February 1, 1953 and ending January 31, 1954), shall nominate three grower members, three alternate grower members, two handler members, and two alternate handler members.

(c) All cooperative marketing organizations which market oranges and which are not qualified under paragraph (b) of this section, or the growers affiliated therewith, shall nominate two grower members, two alternate grower members, one handler member, and one alternate handler member.

(d) All growers who are not affiliated with a cooperative marketing organization which markets oranges shall nominate one grower member, one alternate grower member, one handler member, and one alternate handler member.

(e) When voting for nominees, each grower shall be entitled to cast one vote which shall be cast on behalf of himself, his agents, subsidiaries, affiliates, and representatives. The votes of cooperative marketing organizations voting pursuant to paragraph (c) of this section shall be weighted in accordance with the volume of oranges handled during the marketing year in which such nominations are made, except that the marketing year for initial nominations shall be the year beginning February 1, 1953, and ending January 31, 1954.

(f) The members of the committee selected by the Secretary pursuant to § 922.23 shall meet on a date designated by the Secretary and, by a concurring vote of at least six members, shall nominate a member and an alternate member of the committee, which persons shall not be growers or handlers, or employees, agents, or representatives of a grower or handler (other than a charitable or educational institution which is a grower or handler), or of a central marketing organization.

§ 922.23 *Selection.* From the nominations made pursuant to § 922.22 (b) or from other qualified growers and handlers the Secretary shall select three grower members of the committee and an alternate to each of such grower members; also two handler members of the committee and an alternate to each of such handler members. From the nominations made pursuant to § 922.22 (c) or from other qualified growers and handlers the Secretary shall select two grower members of the committee and an alternate to each of such grower members; also one handler member of the committee and an alternate to such handler member. From the nominations made pursuant to § 922.22 (d) or from other qualified growers and handlers the Secretary shall select one grower member of the committee and an alternate

to such grower member; also one handler member of the committee and an alternate to such handler member. From the nominations made pursuant to § 922.22 (f) or from other qualified persons the Secretary shall select one member of the committee and an alternate to such member.

§ 922.24 *Failure to nominate.* If nominations are not made within the time and in the manner specified by the Secretary pursuant to § 922.22 (a), the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in § 922.23.

§ 922.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 922.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify or in the event of death, removal, resignation, or disqualification of any member or alternate member of the committee, a successor to the unexpired term of such member or alternate member of the committee shall be selected by the Secretary from nominations made in the manner specified in § 922.22 or from other qualified persons. If the names of nominees to fill any such vacancy are not made available to the Secretary within fifteen days after such vacancy occurs the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in § 922.23.

§ 922.27 *Alternate members.* An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member: *Provided*, That a member may designate an alternate member other than his own alternate member to serve in the place and stead of such member, if the alternate member so designated was selected from the same group which was authorized to nominate the member. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified.

§ 922.28 *Powers.* The Committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make and adopt rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 922.29 *Duties.* The committee shall have the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the compensation and to define the duties of each;

(c) To submit to the Secretary at the beginning of each fiscal year a budget for such fiscal year, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such fiscal year;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare a monthly statement of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a certified public accountant at least once each fiscal year, and at such other times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To provide an adequate system for determining the total quantity of oranges available for current shipment, and to make such determinations, including determinations by grade, size, and maturity conditions, as it may deem necessary, or as may be prescribed by the Secretary, in connection with the administration of this part;

(i) To investigate the growing, handling, and marketing conditions with respect to oranges, and to assemble data in connection therewith;

(j) To submit to the Secretary such available information, including verified reports, as he may request;

(k) To notify producers and handlers of meetings of the committee to consider recommendations for regulation;

(l) To consult with such representatives of growers or groups of growers as may be deemed necessary and to pay the travel expenses incurred by such representatives in attending committee meetings at the request of the committee: *Provided*, That the committee shall not pay the travel expenses of more than three such representatives in connection with any one meeting of the committee;

(m) To investigate compliance with the provisions of this part; and

(n) With the approval of the Secretary, to reapportion the number of grower members or handler members on the Valencia Orange Administrative Committee who are nominated pursuant to paragraphs (c) and (d) of § 922.22. Any such changes shall be based, insofar as practicable, upon the proportionate amount of Valencia oranges handled by the respective types of marketing organizations, provided that each of the grower groups described in paragraphs (c) and (d) of § 922.22 shall be entitled to nominate at least one grower and one handler member together with their respective alternates.

§ 922.30 *Procedure.* (a) A majority of the committee shall constitute a quorum; and any action of the committee shall require at least six concurring votes.

(b) The committee may vote by telegraph, telephone, or other means of communication; and any votes so cast shall be confirmed promptly in writing: *Provided*, That if an assembled meeting is held, all votes shall be cast in person.

§ 922.31 *Expenses and compensation.* The members of the committee, and their respective alternates when acting as members, shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties under this part and shall receive compensation at a rate to be determined by the committee, which rate shall not exceed $10 per day or portion thereof spent in performing such duties.

§ 922.32 *Annual review and meeting.* The committee shall, prior to December 15 of each marketing year, prepare and mail an annual report to the Secretary and to each handler and grower of record. This annual report shall contain at least: (a) A complete review, by prorate districts, of the regulatory operations during the marketing year, as conducted under the marketing policy established pursuant to § 922.50 (a); (b) an appraisal of the effect of such regulatory operations upon the competitive status of the Valencia orange industry; (c) recommendations for changes in the program; and (d) notice of the time and place of an open meeting, to be held prior to January 31, to review the whole record of the operations of this part.

EXPENSES AND ASSESSMENTS

§ 922.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds may be necessary to enable the committee to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal year.

§ 922.41 *Assessments.* (a) Each person who first handles oranges shall, with respect to the oranges so handled by him, pay to the committee, upon demand, such person's pro rata share of the expenses which the Secretary finds are necessary during each fiscal year. Each such person's share of such expenses shall be equal to the ratio between the total quantity of such oranges handled by him as the first handler thereof during the applicable fiscal year, and the total quantity of such oranges so handled by all persons during the same fiscal year. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expense which may be incurred. Such increase shall be applied to all oranges handled during the applicable fiscal year. In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance, and may borrow money in any amount not to exceed 10 percent of the estimated expenses set forth in its budget for the then current fiscal year.

(c) The committee may, with the approval of the Secretary, maintain a suit in its own name, or in the names of its members, to enforce the payment of assessments levied under this section.

§ 922.42 *Accounting.* (a) If, at the end of a fiscal year, the assessments collected are in excess of the expenses incurred, each person entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year. Any handler may demand payment of such a refund, and the refund shall be paid to him: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal year may be applied by the committee at the end of such fiscal year to any outstanding obligations due the committee from such person.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part, and shall be accounted for in the manner provided in this part. The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

REGULATION

§ 922.50 *Marketing policy.* (a) Prior to the recommendation for regulation for each prorate district, the committee shall submit to the Secretary its marketing policy for the ensuing season. Such marketing policy shall contain the following information: (1) The available crop of oranges in the prorate district, including estimated quality and composition of sizes; (2) the estimated utilization of the crop, showing the quantity and percentages of the crop that will be marketed in domestic, export, and by-product channels, together with quantities otherwise to be disposed of; (3) a schedule of estimated weekly shipments to be recommended to the Secretary during the ensuing season; (4) available supplies of competitive oranges in all producing areas of the United States; (5) level and trend of consumer income; (6) estimated supplies of competitive citrus commodities; and (7) any other pertinent factors bearing on the marketing of oranges. In the event that it becomes advisable substantially to modify such marketing policy, the committee shall submit to the Secretary a revised marketing policy setting forth the information as required in this paragraph.

(b) All meetings of the committee held for the purpose of formulating such marketing policies shall be open to growers and handlers. The committee shall give notice to growers by publication of notice of such meetings in such newspapers as they deem appropriate and shall advise all handlers by mail of such meetings.

(c) The committee shall transmit a copy of each marketing policy report or revision thereof to the Secretary and to each grower and handler who files a request therefor. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 922.51 *Recommendations for volume regulation.* (a) The committee may recommend to the Secretary the total quantity of oranges which it deems advisable to be handled during the next succeeding week in each prorate district. If, for any reason, the committee recommends the issuance of volume regulation but fails to recommend to the Secretary the total quantity of oranges which it deems advisable to be handled during the next succeeding week in each prorate district, reports representing the respective views of the committee members with respect to its failure to act shall be submitted to the Secretary.

(b) In making its recommendations, the committee shall give due consideration to the following factors: (1) Market prices for oranges, including market prices by grades and sizes; (2) supply of oranges on track at, and en route to, the principal markets; (3) supply, maturity, and condition of oranges in the area of production, including the grade and size composition thereof; (4) market prices and supplies of citrus fruits from California, Arizona, and competitive producing areas, and supplies of other competitive fruits; (5) trend and level in consumer income; and (6) other relevant factors.

(c) At any time during a week for which the Secretary, pursuant to § 922.52, has fixed the quantity of oranges which may be handled, the committee may recommend to the Secretary that such quantity be increased for such week. Each such recommendation, together with the committee's reasons for such recommendation, shall be submitted promptly to the Secretary.

§ 922.52 *Issuance of volume regulation.* Whenever the Secretary shall find, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of oranges which may be handled in each prorate district during a specified week will tend to effectuate the declared policy of the act, he shall fix such quantity. The quantity so fixed may be increased by the Secretary at any time during such week.

§ 922.53 *Prorate bases.* (a) Each person who has oranges available for current shipment and who desires to handle such oranges, shall submit to the committee, at such time and in such manner as may be designated by the committee, and upon forms made available by it, a written application for a prorate base and for allotments as provided in this part.

(b) Such application shall be substantiated in such manner and shall be supported by such evidence as the committee may require, and shall include at least (1) the name and address of the producer or duly authorized agent, if any, for each grove or portion thereof, the fruit of which is included in the quantity of oranges available for current shipment by the applicant; (2) an accurate description of the location of each such grove or portion thereof, including the number of acres contained therein; and (3) an estimate of the total quantity of oranges available for current shipment by the applicant in terms of the unit of measure designated by the committee.

(c) Such application shall include only such oranges available for current shipment which the applicant controls (1) by a bona fide written contract giving the applicant authority to handle such oranges, or (2) by having legal title or possession thereof, or (3) by having executed a bona fide written agreement to purchase such oranges. If an applicant controls oranges pursuant to subparagraphs (1) or (3) of this paragraph, he shall submit a copy of each type of such contract or agreement to the committee, together with a statement that no other types of contracts or agreements are used, and shall maintain a file of all original contracts evidencing such control which shall be subject to examination by the committee.

(d) If the quantity of oranges available for current shipment by any person is increased or decreased by the acquisition or loss of the control required by paragraph (c) of this section, such person shall submit promptly a report thereon to the committee upon forms made available by it, which report shall be verified in such manner as the committee may require.

(e) If any person gains or loses the control of oranges required by paragraph (c) of this section, there shall be a corresponding increase or decrease in the quantity of oranges available for current shipment by such person. If it is determined by the committee that any person who has lost the control of oranges required by paragraph (c) of this section has handled a quantity of such oranges less than the quantity that could have been handled under the allotments issued thereon, the quantity of oranges available for current shipment by such person shall be adjusted by deducting therefrom, over such period as may be determined by the committee, a quantity of oranges equivalent to the quantity upon which allotments were issued but which were not utilized thereon.

(f) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the factors considered in making the correction. If it is determined that an error, omission, or inaccuracy has resulted in the establishment of a smaller or a larger quantity of oranges available for current shipment than that to which a person was entitled under this part, such quantity shall be increased or decreased, over such period as may be determined by the committee, by an amount necessary to correct the error, omission, or inaccuracy.

(g) Each week during the marketing season when volume regulation is likely to be recommended the committee shall compute, with respect to each prorate district, the total quantity of oranges available for current shipment by each person who has applied for a prorate base and for allotments. On the basis of such computation, the committee shall fix a prorate base for each person who is entitled thereto. Such prorate base shall represent the ratio between the total quantity of oranges available for current shipment in the particular prorate district by such applicant and the total quantity of oranges available for current shipment in such district by all such applicants. The committee shall notify the Secretary of the prorate base fixed for each person and shall notify each such person of the prorate base fixed for him.

§ 922.54 *Allotments.* Whenever the Secretary has fixed the quantity of oranges which may be handled during any week in a prorate district, the committee shall calculate the quantity of oranges which may be handled by each person during such week. The said quantity shall be the allotment of such person and shall be in an amount equivalent to the product of the prorate base for such person and the total quantity of oranges grown in such prorate district and fixed by the Secretary as the total quantity of oranges which may be handled during such week. The committee shall give reasonable notice to each person of the allotment computed for him pursuant to this part.

§ 922.55 *Overshipments.* During any week for which the Secretary has fixed the total quantity of oranges which may be handled, any person who has received an allotment and is not required to reduce the quantity of oranges which he may handle during such week, as provided in this section, or whose total allotment is not required for the repayment of an allotment loan, may handle in addition to his allotment an amount of such oranges equivalent to 10 percent of his allotment or one carload of oranges, whichever is greater. The quantity of oranges so handled in excess of such person's allotment (but not exceeding an amount equivalent to the excess shipments permitted under this section) shall be deducted from such person's allotment for the next week. If such person's allotment for such week is in an amount less than the excess shipments permitted under this section, the remaining quantity shall be deducted from succeeding weekly allotments issued to such person until such excess has been entirely offset: *Provided*, That no overshipment incurred during a marketing year shall be deducted from allotments issued during the following marketing year.

§ 922.56 *Undershipments.* If any person handles during any week a quantity of oranges, covered by a regulation issued pursuant to § 922.52, in an amount less than his allotment of oranges for such week, he may handle, in addition to his allotment for the next week only, a quantity of such oranges equivalent to such undershipment.

§ 922.57 *Allotment loans.* (a) A person to whom allotments have been issued, whether under the provisions of early maturity, short life, or general maturity, may lend such allotments to other persons within the same prorate district to whom allotments have also been issued: *Provided*, That allotments issued under the short life provisions of this part may be loaned only to other persons to whom such allotments have also been issued. Such loans shall be confirmed to the committee by both parties thereto within 48 hours after any such agreement has been entered into, and such agreements shall include a date for the repayment of such allotments to the lender during the then current marketing year. If, on the date of repayment specified in the loan agreement, the borrower has insufficient allotment to repay such loan, he shall repay such loan as soon after the repayment date as he has allotments available to him for that purpose: *Provided*, That no loans made during a marketing year shall be required to be repaid from allotments issued during the following marketing year.

(b) The committee may act on behalf of persons desiring to arrange allotment loans. In each case, the committee shall confirm all such transactions immediately after the completion thereof by memorandum addressed to the parties concerned, which memorandum shall be deemed to satisfy the requirements of paragraph (a) of this section as to a confirmation of the loan agreement to the committee.

(c) An allotment shall be loaned, pursuant to paragraph (a) of this section for use only during the week for which such allotment was issued. Persons securing repayment of an allotment loan may use such allotment only during the week in which the repayment is made.

(d) No allotment which has been loaned may again be loaned by the borrower, or by the lender after the repayment thereof.

§ 922.58 *Assignment of allotment certificates.* In connection with all handling of oranges other than shipments by rail car, each handler who first handles oranges shall at the time of handling issue to the consignee thereof, or his agent, an assignment of allotment certificate covering each quantity of oranges so handled. Such assignment of allotment certificate shall be on such forms and shall be issued in such manner as prescribed by the committee and shall contain such information as the committee may require.

§ 922.59 *Priority of allotments.* During any week in which a person receives an allotment, and has the right to handle a quantity of oranges in addition to the quantity represented by his allotment, by reason of (a) an undershipment of an allotment, pursuant to § 922.56; or (b) the repayment of a loaned allotment, pursuant to § 922.57; or (c) a borrowed allotment, pursuant to § 922.57; and such person handles a quantity of oranges which is less than the total quantity of such oranges which such person may handle during such week, the amount of such oranges handled shall first apply to such person's current weekly allotment (or to that portion which is not used pursuant to § 922.55 or § 922.57). The remainder, if any, shall be applied in the following order; second, to any undershipment of allotments, pursuant to § 922.56; third, to any allotment repaid to him, pursuant to § 922.57; fourth, to any allotment borrowed, pursuant to § 922.57.

§ 922.60 *Early maturity allotments.* Notwithstanding the provisions of § 922.54 the committee shall, prior to the reaching of general maturity, issue special allotments for the handling of early maturity oranges. Handlers controlling early maturity oranges may apply to the committee for such allotments on forms prescribed by the committee and shall furnish to the committee such information as it may require. On the basis of all available information and after consideration of all of the factors enumerated in § 922.51 (b), the committee shall determine the extent to which early maturity allotment shall be granted. Total early maturity allotments approved by the committee for each prorate district shall be distributed to all handlers who qualify therefor in proportion to the quantity requested by each handler in his application: *Provided, however*, That early maturity allotments issued to any handler prior to the reaching of general maturity shall not permit the handling of a larger share of the oranges available for current shipment controlled by such handler than the share of oranges available for current shipment in the prorate district estimated to be allotted to all handlers in the utilization schedule established by the committee at the beginning of the season. Early maturity allotments may be loaned only to handlers to whom early maturity allotments have been granted. Upon the reaching of general maturity, allotments issued for early maturity oranges shall be offset or repaid by reducing the oranges available for current shipment of each handler who has received early maturity allotments by the quantity of oranges for which early maturity allotments were issued him, plus his proportionate share of the quantity of oranges that will be used for by-products and elimination in his prorate district. Such proportionate share shall be based upon the utilization schedule established by the committee at the beginning of the season. The committee shall, with the approval of the Secretary, adopt procedural rules and regulations to effectuate the provisions of this part. Allotments issued and allocated under this section shall be on a prorate district basis.

§ 922.61 *Short life allotments.* Notwithstanding the provisions of § 922.54 the committee shall withhold from the allotment of handlers on a uniform proportionate basis for all handlers, an amount sufficient to permit handlers controlling oranges of short life to handle during the normal marketing period of such short life oranges as large a proportion of oranges as the average which will be handled by all handlers. Handlers controlling oranges of short life may apply for such withheld allotment, and such application shall be made on forms supplied by the committee and shall be accompanied by information necessary to permit the committee to determine the validity of such applicant's claim to allotment. The committee shall determine, on the basis of all available information, the extent to which a handler needs allotment under the provisions of this section and pursuant to such determination shall allocate such allotment to such handler at a uniform weekly rate, insofar as practicable, during the normal marketing period of his short life oranges. Such determination and allotment issued pursuant thereto shall not permit a handler to receive more allotment proportionately than the average allotment to be issued to all handlers of oranges. After a handler of short life oranges has received allotment sufficient to make the total allotment issued to him equal proportionately to the average allotment to be issued to all handlers of oranges, allotment thereafter due such handler of short life oranges shall be allocated to handlers from whom allotment has been withheld. Short life allotments may be used only in the handling of short life oranges. The committee shall, with the approval of the Secretary, adopt procedural rules and regulations to effectuate the provisions of this part. Allotments issued and allocated under this section shall be on a prorate district basis.

§ 922.62 *Information to central marketing organizations.* The committee shall give any central marketing organization, upon its request, the same notice with respect to prorate bases and allotments applicable to each handler for whom it markets oranges as is given to such handler.

§ 922.63 *Recommendations for size regulation.* (a) Whenever the committee finds that the supply and demand conditions for sizes of oranges make it advisable to regulate the handling of sizes of oranges during any period, it shall recommend to the Secretary the sizes of oranges grown in each prorate district which it deems advisable to be handled during said period. The committee shall promptly submit such findings and recommendations, together with supporting information to the Secretary.

(b) In making its recommendations the committee shall give due consideration to the factors referred to in § 922.51 (b).

§ 922.64 *Issuance of size regulation.* Whenever the Secretary shall find, from the findings, recommendations, and information submitted by the committee, or from other available information, that to limit the handling of oranges grown in any prorate district or districts by sizes would tend to effectuate the declared policy of the act, he shall fix the sizes of oranges grown in each such prorate district which may be handled during the specified period. The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give adequate notice thereof to all handlers.

§ 922.65 *Exemptions from size regulation.* In the event the handling of oranges is limited pursuant to § 922.64, the committee shall issue one or more exemption certificates to any producer who furnishes evidence satisfactory to the committee that he will be prevented by reason of such regulation from having as large a proportion of his oranges handled as the average proportion of oranges which may be handled by all other producers in the same prorate district. Such exemption certificate shall permit the respective producer to whom the certificate is issued to handle or have handled a percentage of his oranges equal to the percentage determined as aforesaid. Shipments of oranges under exemption certificates issued pursuant to this section shall be subject to and limited by such regulations as may be effective under § 922.52 at the time of the respective shipment. The committee shall adopt, with the approval of the Secretary, procedural rules by which such exemption certificates will be issued to producers. Such exemption certificates may be transferred to handlers when accompanied by oranges covered by such certificates.

§ 922.66 *Prorate districts.* For purposes of administration of this part and in recognition of the fact that there are general differences in maturity and keeping quality of oranges between certain geographical sections of the production area, the production area shall be divided in three prorate districts as follows:

(a) District 1 shall include that portion of the State of California which is north of the 35th Parallel and south of the 37th Parallel.

(b) District 2 shall include that portion of the State of California which is south of the 35th Parallel, but shall exclude Imperial County and that area in Riverside and San Bernardino counties situated east of a line due north and south through White Water, California.

(c) District 3 shall include the State of Arizona, Imperial County, California, and that area in Riverside and San Bernardino Counties, California, situated south of the 35th Parallel and east of a line due north and south through White Water, California.

§ 922.67 *Oranges not subject to regulation.* Except as otherwise provided in this section, nothing contained in this subpart shall be construed to authorize any limitation of the right of any person to: (a) Handle oranges to charitable institutions for consumption by such institutions or for distribution by relief agencies; (b) handle oranges to commercial processors for processing into products, including juice; (c) export or handle oranges to exporters for export purposes; (d) handle oranges by parcel post or by express; or (e) handle oranges in such minimum quantities or types of shipments as the committee may, with the approval of the Secretary, prescribe. No assessment shall be levied pursuant to § 922.41 on oranges disposed of for any of the purposes specified in this section. The committee shall prescribe, with the approval of the Secretary, such rules, regulations, and safeguards as it may deem necessary to prevent oranges disposed of under the provisions of this section from entering into commercial channels of trade contrary to or in violation of this part.

REPORTS

§ 922.70 *Weekly report.* On or before such day of each week as may be designated by the committee, each handler shall report to the committee, in such manner as may be designated and on forms made available by it, the following information with respect to the total of all oranges disposed of by each such handler during the immediately preceding week: (a) The total quantity handled; (b) the total quantity disposed of for manufacture into by-products, showing the identity of each by-product processor involved and the quantity of each; (c) the total quantity disposed of for export, showing the destination and quantity of each such disposition; (d) the total quantity shipped for disposition to persons on relief, including quantities donated for charitable purposes; (e) the total quantity shipped by parcel post or express, showing the destination and quantity of each such shipment; and (f) the total quantity disposed of otherwise, showing the manner and quantity of each such disposition.

§ 922.71 *Manifest report.* Each handler shall furnish to the committee information regarding the size of oranges in each box handled by such handler and shall mail or deliver such information to said committee or its duly authorized representative within 24 hours after shipment is made in such manner as the committee shall prescribe and upon forms prepared by it.

§ 922.72 *Other reports.* Upon request of the committee, made with the approval of the Secretary, every person subject to regulation under this part shall furnish to the committee, in such manner and at such times as it may prescribe, such other information as will enable the committee to perform its duties under this part.

MISCELLANEOUS PROVISIONS

§ 922.80 *Compliance.* Except as provided in this part, no person shall handle oranges during any week in which a regulation issued by the Secretary pursuant to § 922.52 is in effect, unless such oranges are, or have been, handled pursuant to an allotment therefor, or unless such person is otherwise permitted to handle such oranges under the provisions of this part, and no person shall handle oranges except in conformity with the provisions of this part and the regulations issued under this part.

§ 922.81 *Right of the Secretary.* The members of the committee (including successors and alternates), and all agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing

right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary. If the committee, for any reason, fails to perform its duties or exercise its powers under this part, the Secretary may designate another agency to perform such duties and exercise such powers.

§ 922.82 *Effective time.* The provisions of this part shall become effective at such time as the Secretary may declare above his signature to this part, and shall continue in force until terminated in one of the ways specified in § 922.83.

§ 922.83 *Termination.* (a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) (1) The Secretary shall terminate the provisions of this part at the end of any marketing year, whenever he finds that continuance is not favored by producers; but such termination shall be effective only if announced on or before January 15 of the then current marketing year.

(2) To determine whether continuance is favored by producers, the required percentages set forth in the act with respect to producer approval of the issuance of a marketing order regulating the handling of citrus fruits produced in any area producing what is known as California citrus fruits (approval by three-fourths of the producers who, during a representative period, determined by the Secretary, have been engaged, within the production area in the production of Valencia oranges for market; or by producers who, during such representative period, have produced for market at least two-thirds of the volume of Valencia oranges produced within the production area for market) shall be used. In the event that a referendum is utilized to aid in making this determination, such required percentages for continuance shall be held to be complied with if, of the total number of producers, or the total volume of Valencia oranges produced for market, as the case may be, represented in such referendum, the percentage favoring continuance is equal to or in excess of the percentage required.

(3) The Secretary shall, prior to December 15, 1956, conduct a referendum to ascertain whether continuance of this part is favored by the producers. The Secretary shall conduct such a referendum prior to December 15 of each even-numbered year thereafter.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 922.84 *Proceedings after termination.* (a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and (3) upon the request of the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 922.85 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 922.86 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 922.87 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 922.88 *Derogation.* Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 922.89 *Personal liability.* No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 922.90 *Separability.* If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

Issued at Washington, D. C. this 26th day of March 1954, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

SUBPART—RULES AND REGULATIONS

The order[1] regulating the handling of Valencia oranges grown in Arizona and designated part of California (Order No. 22), filed simultaneously herewith, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), provides in § 922.22 thereof, that the Secretary shall prescribe the time and manner of nominating members and alternate members of the Valencia Orange Administrative Committee, the agency charged with the administration of such order. In order that eligible persons may participate in selecting nominees for member and alternate member positions on the Valencia Orange Administrative Committee, the rules and regulations, hereinafter set forth, governing the procedure to be followed in effecting such nominations, are hereby promulgated:

§ 922.102 *Nomination procedure.* (a) The time of nominating grower and handler members and alternate members of the committee shall be not later than 20 days preceding the date of expiration of the terms of the members and alternate members of the committee, except that the time of nominating the grower and handler initial members and alternate members shall not be later than 30 days after the effective date of this part. The manner of nominating members and alternate members of said committee shall be as follows:

(1) Any cooperative marketing organizantion which handled more than 50 percent of the total volume of Valencia oranges handled during the marketing year in which nominations for members and alternate members of the committee are submitted by such organization shall, by resolution adopted by its board of

[1] See F. R. Doc. 54-2296, *supra*.

directors, nominate members and alternate members as provided in § 922.22 (b).

(2) A meeting shall be held at such time and place as may be designated by the agent of the Secretary, at which all cooperative marketing organizations which market Valencia oranges, and which are not qualified under § 922.22 (b), or the growers affiliated therewith, shall nominate members and alternate members, as provided in § 922.22 (c). The vote of each such organization shall be weighted, as provided in § 922.22 (e), by the quantity of oranges which it handled during the marketing year in which such nominations are made.

(3) Not less than seven meetings shall be held at such times and places throughout the production area as may be designated by the agent of the Secretary, at which growers who are not members of, or affiliated with, the organizations included under subparagraphs (1) and (2) of this paragraph may vote. At each such meeting, the growers present shall nominate not less than one grower member, one alternate grower member, one handler member, and one alternate handler member. The number of ballots to be cast in selecting the nominees at each meeting shall be determined at the respective meeting. All growers voting at any such meeting shall submit their names and addresses to the agent of the Secretary.

(4) The agent of the Secretary shall give adequate notice of each meeting to be held pursuant to this section.

It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of the rules and regulations until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) for the reasons set forth in § 922.0 (b) of said Order No. 22, and to enable eligible persons to participate within the limited time available in the selection of nominees for member and alternate member positions on the committee.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of March 1954, to be, and become effective upon publication in the FEDERAL REGISTER.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[Docket No. AO-166-A18-RO2]

PART 965—MILK IN THE CINCINNATI, OHIO, MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED

§ 965.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 100), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors; insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the order, as amended, effective not later than April 1, 1954. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the orderly marketing of available milk supplies. Accordingly, any further delay in the effective date of this order amending the order, as amended, will seriously impair the orderly marketing of milk produced for the Cincinnati, Ohio, marketing area. The regulatory provisions of this order amending the order, as amended, are such that little or no preparation prior to its effective date will be required of handlers regulated thereunder. Under these circumstances the handlers will be afforded reasonable time for any such preparations as may be necessary. Therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order amending the order, as amended, until at least 30 days after its publication in the FEDERAL REGISTER, and good cause exists, pursuant to section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1001 et seq.) for making this order amending the order, as amended, effective April 1, 1954.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order, as amended, and as hereby further amended, which is marketed within the Cincinnati, Ohio, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (December 1953), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete that portion of § 965.51 (c) which precedes subparagraph (2) thereof and substitute therefor the following:

(c) The price for Class III milk during each of the months of March through August, inclusive, shall be the higher of the prices per hundredweight computed pursuant to subparagraphs (1) and (2) of this paragraph; and the price for Class III milk during each of the months of September through February, inclusive, shall be the higher of such computed prices plus 30 cents:

(1) The price as computed pursuant to § 965.50 (b): *Provided,* That the price per hundredweight for Class III milk during the period ending with August 31, 1954, shall be the higher of the price computed pursuant to subparagraph (2) of this paragraph and a price computed as follows:

(i) Subtract 5.5 cents from the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month for which payment is to be made, multiply by 1.20, and then multiply such result by 3.5;

(ii) From the simple average, as computed by the market administrator, of the weighted average of carlot prices per pound for nonfat dry milk solids, spray and roller process for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the

period from the 26th day of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 6 cents, and multiply the result by 7.7; and

(iii) Deduct 25 cents from the sum of the amounts computed under subdivisions (i) and (ii) of this subparagraph: *Provided*, That the price applicable to milk used to produce ice cream, ice cream mix, eggnog, whipped cream, whipped cream substitutes, and cottage cheese shall be the sum of amounts computed for the month under subdivisions (i) and (ii) of this subparagraph.

2. Delete in § 965.51 (d) the word "July" and substitute therefor the word "August."

3. Delete § 965.52 and substitute therefor the following:

§ 965.52 *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows: For Class I milk and Class II milk, respectively, determine the percent of the alternate basic formula price as computed pursuant to § 965.50 (b) represented by the sum computed pursuant to § 965.50 (b) (1), apply the percentage so determined to the respective Class I and Class II prices for 3.5 percent milk computed pursuant to § 965.51 (a) and (b), and divide by 35 (computed to the nearest hundredth of a cent). For Class III milk and Class IV milk subtract $5.50 from the average price per hundred pounds of butter as described in § 965.51 (c) (1) (i), multiply by 1.20, subtract therefrom the amount per hundredweight computed pursuant to § 965.51 (c) (1) (ii), and divide the result by 1,000: *Provided*, That beginning with September 1, 1954, the butterfat differential for Class III milk shall be computed as follows: Multiply by 1.20 the average price per hundred pounds of 92-score butter as described in § 965.50 (b) (1), subtract therefrom the price per hundredweight computed pursuant to § 965.50 (b) (2), and divide the result by 1000; and beginning with such date the butterfat differential for Class IV milk shall be computed as follows: Subtract $5.00 from the average price per hundred pounds of 92-score butter as described in § 965.50 (b) (1), multiply by 1.20, subtract therefrom the price per hundredweight pursuant to § 965.50 (b) (2), and divide the result by 1,000.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 25th day of March 1954 to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2262; Filed, Mar. 30, 1954; 8:49 a. m.]

PART 968—HANDLING OF MILK IN THE WICHITA, KANSAS, MARKETING AREA

SUBPART—ORDER REGULATING HANDLING

Sec.
968.0 Findings and determinations.

DEFINITIONS

968.1 Act.
968.2 Secretary.
968.3 Wichita, Kansas, marketing area.
968.4 Person.
968.5 Approved dairy farmer.
968.6 Producer.
968.7 Approved plant.
968.8 Pool plant.
968.9 Handler.
968.10 Cooperative association.
968.11 Producer-handler.
968.12 Market administrator.
968.13 Producer milk.
968.14 Other source milk.
968.15 Route.
968.16 Base milk.
968.17 Excess milk.

MARKET ADMINISTRATOR

968.20 Designation.
968.21 Powers.
968.22 Duties.

REPORTS, RECORDS AND FACILITIES

968.30 Periodic reports.
968.31 Payroll reports.
968.32 Reports of producer-handlers.
968.33 Records and facilities.
968.34 Retention of records.

CLASSIFICATION

968.40 Skim milk and butterfat to be classified.
968.41 Classes of utilization.
968.42 Shrinkage.
968.43 Responsibility of handlers and reclassification of milk.
968.44 Transfer.
968.45 Computation of the skim milk and butterfat in each class.
968.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

968.50 Basic formula price to be used in determining Class I prices.
968.51 Class prices.
968.52 Handler butterfat differential.

APPLICATION OF PROVISIONS

968.60 Producer-handlers.
968.61 Handlers subject to other orders.
968.62 Handler operating an approved plant which is not a pool plant.

DETERMINATION OF UNIFORM PRICE TO PRODUCERS

968.70 Net pool obligations of handlers operating pool plants.
968.71 Computation of uniform prices for base milk and excess milk.

PAYMENTS

968.80 Time and method of payment.
968.81 Producer butterfat differential.
968.82 Producer-settlement fund.
968.83 Payments to the producer-settlement fund.
968.84 Payments out of the producer-settlement fund.
968.85 Adjustment of errors in payments.
968.86 Marketing services.
968.87 Expense of administration.
968.88 Termination of obligation.

BASE RATING

968.90 Determination of daily base.
968.91 Base rules.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

968.100 Effective time.
968.101 Suspension or termination.
968.102 Continuing power and duty of the market administrator.
968.103 Liquidation after suspension or termination.

EXCEPTIONS

968.110 Agents.

AUTHORITY: §§ 968.1 to 968.110 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 968.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of this hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Wichita, Kansas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers as defined in this order amending the order, as amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk and its products; and

(5) The necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro-rata share of such expense an amount not to exceed 4 cents per hundredweight with respect to all milk received from approved dairy farmers during the month, which amount shall be determined by the market administrator subject to review by the Secretary.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective not later than April 1, 1954, so as to reflect current marketing conditions. Any delay beyond April 1, 1954, in the effective date of this order amending the order, as amended, would tend to disrupt the orderly marketing of milk for the Wichita, Kansas, marketing area. The provisions of the said amendatory order are known to handlers, the public hearings having been held on October 7-9, 1953 and December 1-3, 1953, the recommended decision having been issued on February 15, 1954 and the final decision having been issued on March 12, 1954. Therefore, rasonable time under the circumstances has been afforded persons affected to prepare for its effective date. The changes effected by this amendatory order will not require extensive preparation or substantial alteration in the methods of their operations. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective April 1, 1954 and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (Sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Wichita, Kansas, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (January 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Wichita, Kansas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended to read as follows:

DEFINITIONS

§ 968.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

§ 968.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 968.3 *Wichita, Kansas, marketing area.* "Wichita, Kansas, marketing area" means all the territory within the corporate limits of the City of Wichita, Kansas, and the territory within Delano, Kechi, Minneha, Riverside, Waco, Gypsum, Park, Payne and Wichita Townships, and the City of Eastborough, all in Sedgwick County, Kansas.

§ 968.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 968.5 *Approved dairy farmer.* "Approved dairy farmer" means any person who holds a currently valid permit or license issued by the Health Department of the City of Wichita or of Sedgwick County for the production of milk to be disposed of as Grade "A" milk, or produces milk acceptable to agencies of the United States Government for fluid consumption in its institutions or bases as Type II, No. 1, or Type III, No. 1 which is received at a plant supplying Class I milk to such an institution or base in the marketing area.

§ 968.6 *Producer.* "Producer" means any approved dairy farmer, other than a producer-handler, whose milk is received at a pool plant or is diverted from a pool plant by the handler who operates such pool plant, or by a cooperative association, to a plant which is not a pool plant for the account of such handler or cooperative association. "Producer" does not mean any approved dairy farmer with respect to milk received by a handler who is partially exempted from the provisions of this order pursuant to § 968.61.

§ 968.7 *Approved plant.* "Approved plant" means any plant (a) approved by the health authorities of the City of Wichita, Kansas, or of Sedgwick County, Kansas, for the handling of milk to be disposed of for fluid consumption as milk in the marketing area at which milk is received from approved dairy farmers, or (b) supplying to any agency of the United States Government located within the marketing area Class I milk products accepted as meeting the requirements of Type II, No. 1 or Type III, No. 1.

§ 968.8 *Pool plant.* "Pool plant" means any approved plant other than that of a producer-handler.

(a) During any of the months of March, April, May, or June within which such plant disposes of as Class I milk an amount equal to 40 percent or more of such plant's total receipts of milk from approved dairy farmers and disposes of as Class I milk on routes in the marketing area an amount equal to 20 percent or more of such plant's total receipts from approved dairy farmers;

(b) During any of the other months within which such plant disposes of as Class I milk an amount equal to 50 percent or more of such plant's total receipts of milk from approved dairy farmers and disposes of as Class I milk on routes in the marketing area an amount equal to 25 percent or more of such plant's total receipts from approved dairy farmers; and

(c) For the purpose of this definition, the following shall apply:

(1) Milk diverted from an approved plant for the account of the handler operating such approved plant shall be considered a receipt at the approved plant from which it was diverted; and

(2) Milk diverted from an approved plant to an unapproved plant for the account of a cooperative association which does not operate a plant shall be deemed to have been received by such cooperative association at a pool plant.

§ 968.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant; and

(b) Any cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 968.10 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper Volstead Act"; and

(b) To have and to be exercising full authority in the sale of milk of its members.

§ 968.11 *Producer-handler.* "Producer-handler" means any approved dairy farmer who operates an approved plant, but who receives no milk from other approved dairy farmers.

§ 968.12 *Market administrator.* "Market administrator" means the person designated pursuant to § 968.20 as the agency for the administration of this part.

§ 968.13 *Producer milk.* "Producer milk" means all skim milk and butterfat produced by a producer, which is received at a pool plant either directly from such producer or from other handlers.

§ 968.14 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 968.15 *Route.* "Route" means any delivery (including delivery by a vendor or a sale from a plant or a plant store) of milk or any milk product classified as Class I milk pursuant to § 968.41 (a), other than a delivery to any milk processing plant.

§ 968.16 *Base milk.* "Base milk" means producer milk received by handlers from a producer which is not in excess of such producer's daily base determined pursuant to § 968.90 multiplied

by the number of days during the month for which milk was received from such producer.

§ 968.17 *Excess milk.* "Excess milk" means producer milk received by handlers from a producer which is in excess of base milk received from such producer during the month.

MARKET ADMINISTRATOR

§ 968.20 *Designation.* The agency for the administration of this part shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at, the discretion of the Secretary.

§ 968.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend to the Secretary amendments thereto.

§ 968.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date upon which he enters upon his duties execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in the amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 968.87 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 968.86) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties.

(e) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor or to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(g) Verify all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who within 10 days after the date upon which he is required to perform such acts, has not:

(1) Made reports pursuant to § 968.30 through § 968.32, or

(2) Made payments pursuant to § 968.80 through § 968.86.

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk computed pursuant to § 968.51 (a) and the Class I butterfat differential pursuant to § 968.52 both for the current month; and the minimum price for Class II milk computed pursuant to § 968.51 (b) and the Class II butterfat differential pursuant to § 968.52 both for the previous month;

(2) On or before the 10th day of each month the uniform price computed pursuant to § 968.71 and the butterfat differential computed pursuant to § 968.81 both for the previous month;

(j) Prepare and disseminate such statistics and information as he deems advisable and as do not reveal confidential information; and

(k) On or before the 12th day of each month report to each cooperative association, which so requests, the percentage utilization of milk received from producers in each class by each handler who in the previous month received milk from members of such cooperative association.

REPORTS, RECORDS AND FACILITIES

§ 968.30 *Periodic reports.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall, with respect to milk or milk products which were received or produced by such handler during such month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The quantities of skim milk and butterfat contained in milk received from each producer or approved dairy farmer, and the number of days for which milk was received from each producer;

(b) The quantities of skim milk and butterfat contained in receipts of milk, and milk products from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat the receipt of which is required to be reported pursuant to this section;

(e) The pounds of skim milk and butterfat contained in all milk, skim milk, and cream and other Class I products on hand at the beginning and at the end of the month;

(f) Such other information with respect to the receipts and use of milk as the market administrator may request, including a separate statement of skim milk and butterfat disposed of as Class I milk on routes within the marketing area.

§ 968.31 *Payroll reports.* On or before the 20th day after the end of each month each handler shall submit to the market administrator his producer payroll for such month which shall show for each producer and each approved dairy farmer:

(a) His total deliveries of base milk and total deliveries of milk in excess of base milk;

(b) The average butterfat content of his milk; and

(c) The net amount of such handler's payments to such producer or approved dairy farmer with the prices, deductions, and charges involved.

§ 968.32 *Reports of producer-handlers.* Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator shall require.

§ 968.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts of producer milk and other source milk and the utilization of such receipts;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and each milk product on hand at the beginning and at the end of each month.

§ 968.34 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year periods, the market administrator notified the handler in writing that the retention of such books and records, or specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 968.40 *Skim milk and butterfat to be classified.* All skim and butterfat received within the month by a handler which is required to be reported pursuant to § 968.30 shall be classified by the market administrator pursuant to the provisions contained in § 968.41 through § 968.46.

§ 968.41 *Classes of utilization.* Subject to conditions set forth in §§ 968.43 and 968.44, classes of utilization shall be:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, yogurt, cream, cultured sour cream, any mixture (except bulk ice cream mix) of cream and milk or skim milk, (2) used to produce concentrated (including frozen) milk, flavored milk or flavored milk drinks disposed of for fluid consumption neither sterilized nor in hermetically sealed cans, (3) skim milk and butterfat used in creaming cottage cheese disposed of as creamed cottage cheese, and (4) all other skim milk and butterfat not specifically accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat: (1) Used to produce butter, cheese (including skim milk used to produce cottage cheese curd, but not including skim milk or butterfat used in creaming cottage cheese disposed of as creamed cottage cheese) plain or sweetened condensed or evaporated milk, spray or roller process nonfat dry milk solids, powdered whole milk, ice cream, ice cream mix, frozen desserts, aerated cream, eggnog, casein or margarine; (2) in cream frozen and stored; (3) used for starter churning, wholesale baking and candy making; (4) disposed of as livestock feed; (5) in skim milk dumped after prior notification to and opportunity for verification by the market administrator; (6) in shrinkage up to 2 percent of producer receipts to be prorated pursuant to § 968.42; (7) in shrinkage of other source milk; and (8) in inventory at the end of the month as milk, skim milk, cream (except frozen) or any product specified in paragraph (a) of this section.

§ 968.42 *Shrinkage.* The market administrator shall prorate shrinkage of skim milk and butterfat classified in Class II milk between the receipts of skim milk and butterfat, respectively, in milk from producers and from other sources. For the purpose of prorating shrinkage of skim milk and butterfat, skim milk and butterfat in milk diverted directly from producers' farms to another handler shall be included as a receipt of the handler to whom such milk and butterfat was diverted, and excluded from receipts of the diverting handler.

§ 968.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if such skim milk or butterfat is later disposed of by such handler or another handler (whether in original or other form) as Class I milk. Any skim milk or butterfat which was classified as Class II in the previous month pursuant to § 968.41 (b) (8) shall be reclassified as Class I milk if it is subtracted in the current month from Class I pursuant to § 968.46 (a) (4), or the corresponding step of § 968.46 (b).

§ 968.44 *Transfers.* Skim milk and butterfat transferred or diverted from an approved plant shall be classified:

(a) At the class mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month which such transaction occurred, otherwise as Class I milk, if transferred or diverted in the form of milk, skim milk or cream to the approved plant of another handler, subject in either event to the following conditions:

(1) The receiving handler has utilization in such class of an equivalent amount of skim milk and butterfat, respectively; and

(2) Such skim milk or butterfat shall be classified so as to allocate to producer milk the greatest possible total Class I utilization in the two plants.

(b) As Class I milk if transferred in the form of milk, skim milk, or cream to a producer-handler.

(c) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located more than 250 miles from the approved plant by the shortest highway distance as determined by the market administrator, except that (1) cream so transferred may be classified as Class II milk if its utilization as Class II milk is established through the operation of another Federal order for another milk marketing area; or (2) cream so transferred with prior notice to the market administrator, and with each container labeled or tagged with a certificate of the transferor that such cream is sold as "Grade C cream for manufacturing only", may be classified as Class II milk, subject to such verification of alternative utilization as the market administrator may make.

(d) As Class I milk, if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant distributing fluid milk or cream and located less than 250 miles from the pool plant from which transferred, unless the market administrator is permitted to audit the records of receipts and utilization at such unapproved plant, in which case the classification of all skim milk and butterfat received at such unapproved plant shall be determined and the skim milk and butterfat transferred from the approved plant shall be allocated to the highest use remaining after subtracting, in series beginning with Class I milk, receipts of skim milk and butterfat at such unapproved plant direct from dairy farmers who the market administrator determines constitute the regular source of supply for fluid usage of such unapproved plant in markets supplied by such plant.

(e) As Class II milk, if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant, located not more than 250 miles from the approved plant, and which does not distribute fluid milk or cream, except that where such unapproved plant is operated by a person who is also a handler or an affiliate of a handler, (1) the market administrator shall be permitted to audit the records of receipts and utilization at such unapproved plant, and (2) to the extent that skim milk or butterfat is disposed of from such unapproved plant to any other milk plant in the form of milk, skim milk or cream, skim milk or butterfat so transferred or diverted to such unapproved plant shall be classified as if moved directly from the approved plant to such other milk plant.

(f) Skim milk or butterfat transferred to a nonpool plant from which fluid milk, skim milk or cream is transferred to a pool plant shall be subject to reclassification to the extent of the amount so transferred from such nonpool plant.

§ 968.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report of receipts and utilization submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and in Class II milk for such handler.

§ 968.46 *Allocation of skim milk and butterfat classified.* After making the computation pursuant to § 968.45 the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 968.41 (b) (6);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from other pool plants in a form other than milk, skim milk or cream according to its classification pursuant to § 968.41;

(3) Subtract from the remaining pounds of skim milk, in series beginning with Class II, the pounds of skim milk in receipts of other source milk;

(4) Subtract from the remaining pounds of skim milk in series beginning with Class II, the pounds of skim milk in inventory at the beginning of the month in the form of milk, skim milk, cream (except frozen) or any product specified in § 968.41 (a);

(5) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of milk, skim milk or cream according to its classification as determined pursuant to § 968.44 (a);

(6) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(7) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 968.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in deter-

mining the price per hundredweight of Class I milk shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department divided by 3.5 and multiplied by 3.8:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month, subtract 3 cents, add 20 percent thereof and multiply by 3.8.

(2) From the simple average, as computed by the market administrator, of the weighted averages of carlot price per pound for nonfat dry milk solids, spray, and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 5.5 cents, multiply by 8.5, and then multiply by 0.962.

§ 968.51 *Class prices.* Subject to the provisions of § 968.52, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The basic formula price for the preceding month plus $1.65.

(b) *Class II milk.* The price per hundredweight shall be:

(1) For the months of March, April, May and June, the average of the prices reported to have been paid or to be paid for ungraded milk of 3.8 percent butterfat content received from farmers during the month at the following plants for which prices have been reported to the market administrator or the United States Department of Agriculture:

Present Operator and Location

Arkansas City Cooperative Milk Association, Arkansas City, Kans.
Bennett Creamery Co., Ottawa, Kans.
Page Milk Co., Coffeyville, Kans.
Pet Milk Co., Iola, Kans.

(2) For all other months, the higher of such price or the average price reported by the United States Department of Agriculture for the current month for milk for manufacturing purposes f. o. b. plant, United States, adjusted to a 3.8 percent butterfat basis by direct ratio.

§ 968.52 *Handler butterfat differential.* If the average butterfat test of Class I milk or Class II milk as calculated pursuant to § 968.46 is more or less than 3.8 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization for each one-tenth of one percent that such average butterfat test is above or below 3.8 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the United States Department of Agriculture during the month specified below by the applicable factor listed, and rounding to the nearest one-tenth cent:

(a) *Class I milk.* Multiply such price for the preceding month by 0.120;

(b) *Class II milk.* Multiply such price for the current month by 0.115.

APPLICATION OF PROVISIONS

§ 968.60 *Producer-handlers.* Sections 968.40 through 968.46, 968.50 through 968.52, 968.61, 968.62, 968.70, 968.71 and 968.80 through 968.88 shall not apply to a producer-handler.

§ 968.61 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this order shall not apply except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) If the price which such handler is required to pay under the other Federal order to which he is subject, for skim milk and butterfat which would be classified as Class I milk under this part is less than the price provided by this part, such handler shall pay to the market administrator for deposit into the producer-settlement fund with respect to all skim milk and butterfat disposed of (except to other handlers) as Class I milk within the marketing area, an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this part and its value as determined pursuant to the other order to which he is subject. Such payments shall be made on or before the 12th day after the end of each delivery period.

§ 968.62 *Handler operating an approved plant which is not a pool plant.* Each handler who operates an approved plant which is not a pool plant during a month, shall in lieu of the payments required pursuant to § 968.80 through § 968.85, pay to the market administrator, for the producer-settlement fund, on or before the 25th day after the end of such month, the amount resulting from the computations of either paragraph (a) or paragraph (b) of this section, whichever is less.

(a) The product of the quantity of milk received by such handler which was disposed of in the marketing area on routes as Class I milk during the month multiplied by the difference between the price for Class I milk pursuant to § 968.51 and the price for Class II milk pursuant to § 968.51 (b),

(b) Any plus amount resulting from the following computation: From an amount equal to the net pool obligation which would be computed pursuant to § 968.70 for such handler for such month if such handler operated a pool plant deduct the gross payments made by such handler to approved dairy farmers for milk received during such month.

§ 968.70 *Net pool obligations of handlers operating pool plants.* The net pool obligation for milk received during each month by each handler from producers at pool plants shall be a sum of money computed as follows:

(a) Multiply the pounds of milk in each class computed pursuant to § 968.46 (c) by the applicable respective class prices (adjusted pursuant to § 968.52) and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 968.46 (a) (7) by the applicable respective class prices;

(c) Add a reclassification charge computed at a rate equal to the difference between the Class I and Class II prices for the current month for skim milk and butterfat in inventory which is subtracted from Class I pursuant to § 968.46 (a) (4) and the corresponding step of § 968.46 (b) which is not in excess of the skim milk and butterfat, respectively, remaining in Class II milk in the previous month pursuant to § 968.46 (a) (5) and the corresponding step of § 968.46 (b).

(d) For any other source skim milk or butterfat subtracted from Class I milk pursuant to § 968.46 (a) (3) and (b), add an amount equal to the difference between the values of such skim milk and butterfat at the Class I price and at the Class II price, unless the handler can prove to the satisfaction of the market administrator that such other source skim milk and butterfat was used only to the extent that producer milk was not available either directly from producers or at the plant of another handler at the Class I price.

§ 968.71 *Computation of uniform prices for base milk and excess milk.* For each month, the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk as follows:

(a) Combine into one total the values computed pursuant to § 968.70 for all handlers who made the reports prescribed in § 968.30 and who made the payments pursuant to § 968.80 and § 968.83 for the preceding month;

(b) Add an amount equal to not less than one-half of the unobligated cash balance in the producer-settlement fund;

(c) Subtract if the average butterfat content of the milk included in these computations is greater than 3.8 percent; or add if such average butterfat content is less than 3.8 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.8 percent by the butterfat differential computed pursuant to § 968.81 and multiplying the resulting figure by the total hundredweight of such milk;

(d) Compute the total value on a 3.8 percent butterfat basis of the excess milk included in these computations by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in these computations by the price of Class II milk of 3.8 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price of Class I milk of 3.8 percent butterfat content and adding together the resulting amounts;

(e) Divide the total value of excess milk obtained in paragraph (d) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 3.8 percent butterfat content received from producers;

(f) Subtract the value of excess milk obtained in paragraph (d) of this section from the value of all milk obtained in paragraph (c) of this section and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(g) Divide the amount obtained in paragraph (f) of this section by the total hundredweight of base milk included in these computations;

(h) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (g) of this section. The resulting figure shall be the uniform price for base milk of 3.8 percent butterfat content received from producers.

PAYMENTS

§ 968.80 *Time and method of payment.* Each handler operating a pool plant shall make payment as follows:

(a) On or before the 12th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform prices computed pursuant to § 968.71 (h) and (e) for such producers deliveries of base milk and excess milk, respectively, adjusted by the butterfat differential computed pursuant to § 968.81, and less the amount of the payment made pursuant to paragraph (b) of this section. If by such date, such handler has not received full payment pursuant to § 968.84 he may reduce his total payments uniformly to all producers by not more than the amount of the reduction in payment by the market administrator. He shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the 27th day of each month, to each producer for whom payment is not made pursuant to paragraph (c) of this section, for milk received from him during the first 15 days of such month, at the approximate value of such milk.

(c) On or before the 11th day after the end of each month and on or before the 24th day of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, to a cooperative association which so requests, for milk which it caused to be delivered to such handler from producers, and for which such association is determined by the market administrator to be authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producers. Such payments due on or before the 11th day after the end of the month shall be accompanied by a statement showing for each producer the items required to be reported pursuant to § 968.31, and payments due on or before the 24th day of the month shall be accompanied by a statement of the amount of money for each producer.

§ 968.81 *Producer butterfat differential.* In making payments pursuant to § 968.80 (a) there shall be added to or subtracted from the uniform prices per hundredweight for each one-tenth of one percent that the average butterfat content is above or below 3.8 percent an amount computed by multiplying by 0.12 the simple average, as computed by the market administrator, of the daily wholesale selling prices per pound (using the mid-point of any range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the United States Department of Agriculture during the month and rounding to the nearest one-tenth cent.

§ 968.82 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 968.83, 968.85, 968.61 and 968.62, and out of which he shall make all payments to handlers pursuant to §§ 968.84 and 968.85: *Provided*, That the market administrator shall offset any such payment due to any handler against payments due from such handler. Immediately after computing the uniform price for each month, the market administrator shall compute the amount by which each handler's net pool obligation is greater or less than the sum obtained by multiplying the hundredweight of milk of producers by the appropriate prices required to be paid producers by handlers pursuant to § 968.80 and adding together the resulting amounts, and shall enter such amount on each handler's account as such handler's pool debit or credit, as the case may be, and render such handler a transcript of his account.

§ 968.83 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay to the market administrator for payment to producers through the producer-settlement fund, the amount by which the net pool obligation of such handler is greater than the sum required to be paid producers by such handler pursuant to § 968.80.

§ 968.84 *Payments out of the producer-settlement fund.* (a) On or before the 12th day after the end of each month, the market administrator shall pay to each handler for payment to producers the amount by which the sum required to be paid producers by such handler pursuant to § 968.80 is greater than the net pool obligation of such handler.

(b) If the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 968.85 *Adjustment of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses error in payments to the producer-settlement fund made pursuant to § 968.83, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billing, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to § 968.84, the market administrator shall, within 5 days make payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer discloses payment to such producer of an amount which is less than is required by this part, the handler shall make up such payment to the producer not later than the time of making payment to producers next following the disclosure.

(b) Whenever verification by the market administrator of the payment by a handler to any producer discloses that solely through error in computation payment to such producer was in an amount more than was required to be paid pursuant to § 968.80, no handler shall be deemed to be in violation of § 968.80 if he reduces his payment to such producer next following discovery of such error by not more than such overpayment.

§ 968.86 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler shall deduct 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, from the payments made to each producer other than himself pursuant to § 968.80 (a) with respect to all milk of such producer received by such handler during the month and shall pay such deductions to the market administrator on or before the 12th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples and tests of milk received from, and to provide market

information to such producers. The market administrator may contract with a cooperative association or cooperative associations for the furnishing of the whole or any part of such services.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make such deductions from the payments to be made directly to producers pursuant to § 968.80 (a) as are authorized by such producers, and, on or before the 12th day after the end of each month, pay over such deductions to the association of which such producers are members. Such payment shall be accompanied by a statement showing for each producer for which such deduction is made the amount of such deduction, the total delivery of milk, and unless otherwise previously provided, the butterfat test.

§ 968.87 *Expense of administration.* As his pro rata share of the expense of the administration of this part, each handler with respect to all milk received from approved dairy farmers during the month, shall pay to the market administrator, on or before the 12th day after the end of such month, an amount not exceeding 4 cents per hundredweight, which amount shall be determined by the market administrator subject to review by the Secretary.

§ 968.88 *Termination of obligation.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representative all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

BASE RATING

§ 968.90 *Determination of daily base.* (a) Through December 31, 1954, the daily average base of each producer who regularly delivered milk to a handler during the months of August through November 1953 shall be that effective for January 1954. Effective January 1, 1955, the daily average base of each producer who regularly delivered milk to a handler for 60 days or more during August through November of the next preceding calendar year shall be computed by the market administrator by dividing the total pounds of milk received by a handler from such producer during such months by the number of days within the period during which such producer made regular deliveries of milk in such months, or 90, whichever is greater.

(b) The daily average base of each producer for whom no daily base may be established pursuant to paragraph (a) of this section shall be computed by the market administrator as follows:

(1) Multiply such producer's daily average deliveries of milk during the current month by the percentage that total deliveries of base milk in the current month by producers for whom daily bases are computed pursuant to paragraph (a) of this section are to total deliveries of milk in the current month by all producers; and

(2) Effective January 1, 1955, for the months of January through July only, divide the result obtained in subparagraph (1) of this paragraph by 2.

§ 968.91 *Base rules.* (a) Any producer who ceases to deliver milk to a handler for a period of more than 30 consecutive days shall forfeit his base. In the event such producer thereafter commences to deliver milk to a handler he shall be allotted a daily base computed in the manner provided in § 968.90 (b).

(b) A landlord who rents on a share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire daily base to the exclusion of the landlord, if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the daily base shall be divided between the joint owners according to ownership of the cattle when such share basis is terminated.

(c) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship the base of each landlord and tenant may be combined and may be divided when such relationship is terminated.

(d) Base may be transferred only under the following conditions: (1) In case of the death of a producer, his base may be transferred to a surviving member or members of his family who carry on the dairy operations, and (2) on the retirement of a producer, his base may be transferred to an immediate member of his family who carries on the dairy operations.

(e) The base of two producers may be combined in the case of forming a partnership, or may be divided in the case of the dissolution of a partnership.

(f) For the purposes of this section and § 968.90 only, the term "producer" shall include any person who has been a producer as defined in § 968.6 but whom the City of Wichita or Sedgwick County has suspended temporarily for failure to produce milk in conformity with the applicable health regulations of the City of Wichita or Sedgwick County, Kansas.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 968.100 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to § 968.101.

§ 968.101 *Suspension or termination.* Any or all of the provisions of this part, or any amendment to this part, may be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary shall give and shall, in any event, terminate whenever the provisions of the act cease to be in effect.

§ 968.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all provisions of this part there are any obligations arising under this part the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until removed, (2) from time to time account for all receipts and disbursements and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct, and (3) if so directed by the Secretary execute assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 968.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

AGENTS

§ 968.110 *Agents.* The Secretary may, by designation, in writing name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 25th day of March 1954, to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2265; Filed, Mar. 30, 1954; 8:51 a. m.]

[Docket No. AO-179-A12]

PART 975—MILK IN THE CLEVELAND, OHIO, MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED

§ 975.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) Findings upon the basis of the hearing record. Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cleveland, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this amendatory order effective on April 1, 1954. Such action is necessary in the public interest in order to reflect current marketing conditions and to facilitate the orderly marketing of milk produced for the Cleveland, Ohio, marketing area. Accordingly, any further delay in the effective date of this order will seriously threaten the orderly marketing of milk in the marketing area. The provisions of this amendatory order are well known to handlers and producers, the public hearing having been convened on February 18, 1954, and a decision containing the terms and provisions of the order having been issued on March 16, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c) Administrative Procedure Act, Public Law 404, 79th Congress, 60 Stat. 237.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations or producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended), of more than 50 percent of the volume of the milk covered by this order amending the order, as amended, which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers, who participated in a referendum on the question of its approval and who, during the determined representative period (January 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Cleveland, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

Amend § 975.63 by adding a paragraph (c) as follows:

(c) If, during any of the months of April, May, or June, 1954, the average (computed to the nearest tenth of a cent) of the basic (or field) prices per hundredweight reported to the market administrator or to the Department of Agriculture to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the plant of the Defiance Milk Products Co. at Defiance, Pet Milk Co. at Coldwater, Nestles Milk Products Co. (uninspected milk price) at Marysville, Fisher Dairy and Cheese Co. at Wapakoneta, and Swift and Co. at Lima, all in Ohio, is less than the price per hundredweight of milk of 3.5 percent butterfat content computed pursuant to paragraphs (a) and (b) of this section (exclusive of the proviso in paragraph (a) of this section), the prices per hundredweight of butterfat computed pursuant to paragraph (a) of this section shall be reduced by an amount obtained by multiplying such difference by 14.28571 and the price per hundredweight of skim milk computed pursuant to paragraph (b) of this section shall be reduced by an amount obtained by multiplying such difference by 0.51813.

Issued at Washington, D. C., this 25th day of March 1954, to be effective on and after the 1st day of April 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2263; Filed, Mar. 30, 1954; 8:50 a. m.]

PART 980—MILK IN THE TOPEKA, KANSAS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended, regulating the handling of milk in the Topeka, Kansas, marketing area, hereinafter referred to as the "order" it is hereby found and determined that the provisions of § 980.70 (b) of the order do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order for the delivery period of April 1954.

It is hereby found and determined that notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impracticable, unnecessary and contrary to the public interest, in that the (1) information upon which this action is based did not become available in sufficient time for such compliance; (2) the issuance of this suspension order effective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for the said marketing area; and (3) this action will affect only seasonality of returns to producers and will in no way affect the obligations of handlers subject to the order. The changes caused by this suspension order do not require of persons affected any preparation prior to its effective date.

It is therefore ordered, That the following provision of the order be and it is hereby suspended with respect to all milk subject to the provisions of the order for the delivery period of April 1954:

1. Section 980.70 (b) in its entirety.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 26th day of March 1954, to be effective April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2301; Filed, Mar. 30, 1954; 8:57 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Interpretation No. 1]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PILOT IN COMMAND

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 26th day of March 1954.

The Board has been asked for an interpretation of the duties, power and responsibilities of a pilot in command as delineated in revised Part 40, which will become effective on April 1, 1954.

"Crew member" is defined in Part 40 as an individual who is assigned by the air carrier for performance of duty in flight. Within the classification of crew members is a "flight crew member" who is defined as "a crew member assigned to duty on an airplane as a pilot or flight engineer".

The pilot in command, by definition, is the pilot designated by the carrier as being responsible for the operation and safety of the airplane during flight time. It is axiomatic that a single individual must have complete control and responsibility for an airplane in flight. One of the functions of command is the power to override the decisions of subordinate crew members. In accordance with the responsibility vested in the pilot in command, § 40.351 (c) states that "The pilot in command shall during flight time be in command of the airplane and crew and shall be responsible for the safety of the passengers, crew members, cargo, and airplane". It should be noted at this point that the only crew member specifically delegated emergency authority in Part 40 is the pilot in command (§ 40.360).

The Board had no desire at the time of the promulgation of revised Part 40 and has no desire now to invade the prerogative of management to apportion the various duties of operating its aircraft among the flight crew members as it may see fit, subject of course, to review by the Administrator of the safety aspects thereof. Indeed, §§ 40.50 and 40.51 (a) (2) provide that the carrier is responsible to prepare and maintain a manual which sets forth the duties and responsibilities of each crew member. However, § 40.51 (a) also provides that nothing in the manual may be contrary to any Federal regulation. It follows, then, that no assignment of duties or responsibilities by an air carrier may in any way derogate from the responsibilities, powers or prerogatives vested by the Board's regulations in the pilot in command.

The Board has been informed that some persons interpret the final sentence of § 40.261 (d) as a limitation on the authority of the pilot in command over a flight engineer unless the pilot in command himself holds a flight engineer certificate. The Board intended, and the regulatory history clearly indicates, that the sentence in question was intended to provide specific authority for a pilot to serve in the capacity of a flight engineer in the event of an emergency without the necessity of holding a flight engineer certificate in addition to his pilot certificate. Conversely, however, if a pilot were scheduled for a flight in the capacity of a flight engineer, he would be required specifically to hold a valid flight engineer certificate (see §§ 40.260-40.263). Further, the definition of "flight engineer" clearly indicates that the flight engineer is subordinate to the pilot in command.

In view of the foregoing, the Board hereby issues the following interpretation, which in accordance with section 3 (a) of the Administrative Procedure Act will be published in the FEDERAL REGISTER and will be incorporated in Part 40 of the Civil Air Regulations, which becomes effective on April 1, 1954.

PILOT IN COMMAND

The Board interprets and construes § 40.351 (c) as conferring on the pilot in command, with respect to matters concerning the operation of the airplane, full control and authority without limitation over all other crew members and their duties during flight time, whether or not he holds a valid certificate authorizing him to perform the duties and functions of such other crew member.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-2302; Filed, Mar. 30, 1954; 8:57 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 28]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.227 *Red civil airway No. 27 (Atlanta, Ga., to Detroit, Mich.)* is amended by changing the portion after the Lexington, Ky., nondirectional radio beacon to read: "Lexington, Ky., nondirectional radio beacon to the intersection of a line bearing 358° True from the Lexington, Ky., nondirectional radio beacon with the east course of the Louisville, Ky., radio range. From the Findlay, Ohio, nondirectional radio beacon via the Toledo, Ohio, radio range station to the intersection of the north course of the Toledo, Ohio, radio range and the west course of the Detroit, Mich., radio range."

2. Section 600.285 is amended to read:

§ 600.285 *Red civil airway No. 85 (Akron, Ohio, to Altoona, Pa.).* From the intersection of the southeast course of the Akron, Ohio, radio range and the northwest course of the Pittsburgh, Pa., radio range via the Butler, Pa., nondirectional radio beacon to the Altoona, Pa., radio range station.

3. Section 600.303 is amended to read:

§ 600.303 *Red civil airway No. 103 (Kenai, Alaska, to Middleton Island, Alaska).* From the Kenai, Alaska, radio range station via the intersection of the southeast course of the Kenai, Alaska, radio range and the southwest course of the Anchorage, Alaska, radio range to the Middleton Island, Alaska, nondirectional radio beacon.

4. Section 600.680 is added to read:

§ 600.680 *Blue civil airway No. 80 (Unalakleet, Alaska, to Moses Point, Alaska).* From the intersection of the northwest course of the Unalakleet, Alaska, radio range and the south course of the Moses Point, Alaska, radio range to the Moses Point, Alaska, radio range station.

5. Section 600.686 is amended to read:

§ 600.686 *Blue civil airway No. 86 (Goshen, Ind., to Fort Wayne, Ind.).* From the intersection of the east course of the Goshen, Ind., radio range and the northwest course of the Fort Wayne, Ind., radio range to the Fort Wayne, Ind., radio range station.

6. Section 600.6023 *VOR civil airway No. 23 (San Diego, Calif., to Bellingham, Wash.)* is amended by changing all before the Fresno, Calif., omnirange station to read: "From the San Diego, Calif., omnirange station via the intersection of the San Diego omnirange 336° True and the Long Beach omnirange 137° True radials to the Long Beach, Calif., omnirange station. From the point of intersection of the Palmdale, Calif., omnirange station 292° True and the Bakersfield omnirange 159° True radials via the Bakersfield, Calif., omnirange station; Fresno, Calif., omnirange station;"

7. Section 600.6064 is amended to read:

§ 600.6064 *VOR civil airway No. 64 (Long Beach, Calif., to Blythe, Calif.).* From the Long Beach, Calif., omnirange station via the Thermal, Calif., omnirange station to the Blythe, Calif., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. April 1, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-2242; Filed, Mar. 30, 1954; 8:45 a. m.]

[Amdt. 28]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.285 is amended by changing caption to read: *"Red civil airway No. 85 control areas (Akron, Ohio, to Altoona, Pa.)."*

2. Section 601.680 is added to read:

§ 601.680 *Blue civil airway No. 80 control areas (Unalakleet, Alaska, to Moses Point, Alaska).* All of Blue civil airway No. 80.

3. Section 601.686 is amended by changing caption to read: *"Blue civil airway No. 86 control areas (Goshen, Ind., to Fort Wayne, Ind.)."*

4. Section 601.1042 *Control area extension (Columbus, Ohio)* is amended by changing the portion bounded "on the west by Red civil airway No. 27" to read: "on the west by VOR civil airway No. 47".

5. Section 601.1067 is amended to read:

§ 601.1067 *Control area extension (Dayton, Ohio).* That airspace within a 15-mile radius of the Dayton, Ohio omnirange station including the airspace within 5 miles either side of the Dayton ILS localizer course extending from the localizer to a point 20 miles southwest of the ILS outer marker.

6. Section 601.1068 is amended to read:

§ 601.1068 *Control area extension (Riverside, Calif.).* That airspace bounded on the east by a line extending between a point at Lat. 33°51'00", Long. 116°50'40" and a point at Lat. 33°45'45", Long. 116°50'00", on the south by VOR civil airway No. 64, on the northwest by VOR civil airway No. 8 and on the north by Green civil airway No. 5, and that airspace bounded by lines beginning at a point at Lat. 33°36'45", Long. 116°48'-40", thence to Lat. 33°30'00", Long. 116°47'55", thence to Lat. 33°30'00", Long. 116°48'40", thence to Lat. 33°12'-00", Long. 116°33'20", thence to Lat. 33°10'25", Long. 116°35'35", thence to Lat. 33°12'00", Long. 116°46'00", thence to Lat. 33°38'45", Long. 117°14'30", thence to point of beginning.

7. Section 601.1089 is amended to read:

§ 601.1089 *Control area extension (Cincinnati, Ohio).* All that airspace within a 15-mile radius of the Cincinnati, Ohio, omnirange station and that airspace northwest of Cincinnati bounded on the north by Red civil airway No. 18, on the east by VOR civil airway No. 47 and on the southwest by the east alternate of VOR civil airway No. 97.

8. Section 601.1139 *Control area extension (Lexington, Ky.)* is amended by deleting the last portion which reads: "and the airspace northwest of Lexington bounded on the east by Red civil airway No. 27, on the south by Red civil airway No. 11 and on the northwest by VOR civil airway No. 5."

9. Section 601.1984 *Five-mile radius zones* is amended by adding the following airport:

Kenai, Alaska: Kenai Airport.

10. Section 601.2091 *Dayton, Ohio, control zone* is amended by deleting the portion which reads: "extending 2 miles either side of the west course of the Dayton radio range from the radio range station to the Verona fan marker,".

11. Section 601.2253 *Kenai, Alaska control zone* is revoked.

12. Section 601.4014 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.)* is amended between Indianapolis, Ind., radio range station and Columbus, Ohio, radio range station to read: "Indianapolis, Ind., radio range station; the intersection of the northeast course of the Indianapolis, Ind., radio range and the northwest course of the Cincinnati, Ohio, radio range; Columbus, Ohio, radio range station;".

13. Section 601.4101 *Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska)* is amended after "Unalakleet, Alaska, radio range station;" by adding the following reporting point: "the intersection of the northwest course of the Unalakleet, Alaska, radio range and the south course of the Moses Point, Alaska, radio range;".

14. Section 601.4208 *Red civil airway No. 8 (Dayton, Ohio to Newark, N. J.)* is amended by deleting the following reporting point: "The intersection of the south course of the Dayton, Ohio radio range and the west course of the Wright-Patterson, Ohio, AFB radio range;".

15. Section 601.4227 *Red civil airway No. 27 (Atlanta, Ga., to Detroit, Mich.)* is amended by deleting the following reporting point: "Dayton, Ohio, radio range station".

16. Section 601.4285 is amended by changing caption to read: *"Red civil airway No. 85 (Akron, Ohio, to Altoona, Pa.)."*

17. Section 601.4680 is added to read:

§ 601.4680 *Blue civil airway No. 80 (Unalakleet, Alaska, to Moses Point, Alaska).* No reporting point designation.

18. Section 601.4686 is amended by changing caption to read: *"Blue civil airway No. 86 (Goshen, Ind., to Fort Wayne, Ind.)."*

19. Section 601.6002 is amended to read:

§ 601.6002 *VOR civil airway No. 2 control areas (Seattle, Wash., to Boston, Mass.).* All of VOR civil airway No. 2 including north and south alternates, excluding the airspace between the south alternate from the Alexandria, Minn., omnirange station to the La Crosse, Wis., omnirange station and the main airway.

20. Section 601.6013 is amended to read:

§ 601.6013 *VOR civil airway No. 13 control areas (Houston, Tex., to Duluth, Minn.).* All of VOR civil airway No. 13 including east and west alternates, excluding the airspace between the west alternate from the Mason City, Iowa, omnirange station to the Minneapolis, Minn., omnirange station and the main airway.

21. Section 601.6064 is amended to read:

§ 601.6064 *VOR civil airway No. 64 control areas (Long Beach, Calif., to Blythe, Calif.).* All of VOR civil airway No. 64.

22. Section 601.7001 *Domestic VOR reporting points* is amended by adding the following reporting points:

Winslow, Ariz., omnirange station.
Prescott, Ariz., omnirange station.
Larry Intersection: The intersection of the Oakland, Calif., omnirange 130° True and the San Francisco, Calif., omnirange 111° True radials.

and by revoking the following reporting points:

Northfield Intersection: The intersection of the Minneapolis, Minn., omnirange 184° True and the Rochester, Minn., omnirange 319° True radials.

Conowingo Intersection: The intersection of the Baltimore, Md., omnirange 036° True and the West Chester, Pa., omnirange 241° True radials.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t., April 1, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-2243; Filed, Mar. 30, 1954; 8:45 a. m.]

[Amdt. 73]

PART 608—DANGER AREAS

ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.27, the Presque Isle, Maine, area (D-80), published on September 7, 1951, in 16 F. R. 9070, amended on October 31, 1951, in 16 F. R. 11068, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at lat. 47°00'00" N, long. 68°25'00" W; SW to lat. 46°10'00" N, long. 68°43'00" W; W to lat. 46°-10'00" N, long. 70°08'00" W; NE to lat. 47°00'00" N, long. 69°35'00" W; thence E to point of beginning," and by changeing the "Designated Altitudes" column to read: "3500' MSL to unlimited."

2. In § 608.52, the Carrington Island, Utah, area (D-256), published on June 3, 1952, in 17 F. R. 4977, is rescinded.

3. In § 608.14, the Antioch area (D-264), published on July 16, 1949, in 14 F. R. 4288, amended on October 14, 1950, in 15 F. R. 6908, and on December 13, 1952, in 17 F. R. 11256, and on November 10, 1953, in 18 F. R. 7056, is rescinded.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on April 9, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[6th Gen. Rev. of Export Regs., Amdt. 83]

PART 384—GENERAL ORDERS

ORDERS MODIFYING VALIDITY OF CERTAIN EXPORT LICENSES

Section 384.8 *Orders modifying validity of certain export licenses* is amended by adding the following paragraph (g):

(g) *Extension of validity period of licenses covering exportations from the Port of New York.* The validity period of any export license, covering an exportation to be made by water from the Port of New York, which expires between March 31, 1954, and the last day of the month during which the work stoppage at the Port of New York terminates is hereby extended to the last day of the month following the month in which the work stoppage terminates.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945; 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

ANTIBIOTICS FOR AGRICULTURAL USE

Under the authority of section 507 (a) and (c) of the Federal Food, Drug, and Cosmetic Act, I find that antibiotic and antibiotic-containing substances intended solely for application to plants for the control of plant diseases and conspicuously so labeled are not subject to the requirements of sections 502 (1) and 507 of the act, with respect to certification of antibiotics, and therefore promulgate the following interpretive regulation relative to such substances:

§ 146.9 *Antibiotics for agricultural use.* An article that contains one or more of the antibiotic substances described in this part and intended solely for application to plants for the control of plant diseases caused by microorganisms and conspicuously so labeled is not subject to the requirements of sections 502 (1) and 507 of the Federal Food, Drug, and Cosmetic Act, if it contains one or more suitable denaturants that make it unfit for drug use; but in no case shall it be exempt from the requirements of sections 502 (1) and 507 of the act if it is represented or intended to be administered to man or other animals for the cure, mitigation, treatment, or prevention of disease or as an animal feed supplement.

Notice and public procedure are not necessary prerequisites to this interpretive regulation.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies secs. 502, 507, 59 Stat. 463, as amended, 67 Stat. 389; 21 U. S. C. 352, 357)

Dated: March 25, 1954.

[SEAL] OVETA CULP HOBBY,
Secretary.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 18—REGULATIONS GOVERNING THE ELECTION OF OFFICERS OF THE OSAGE TRIBE

MISCELLANEOUS AMENDMENTS

§ 18.19 *Manner of counting following the close of polls.* Promptly at one minute past 8:00 o'clock p. m. the Supervisor in the presence of the election board shall open the ballot box and move slide on inside of box closing the opening in which ballots are inserted and thereafter shall immediately and in the presence of said board close and lock the ballot box until the count of the ballot is to be started. The Supervisor shall then in the presence of the election board unlock and open ballot box, after which the count shall be started. The Supervisor and not less than two of the Judges shall remain continuously in the room until the ballots are finally counted. Two Judges shall act as official counters and the Clerks shall each record the vote upon a sheet opposite the name of the respective candidate for which the vote is cast, and shall continue this manner of recording until all votes have been counted. The duties of the remaining officials of the election board will be to assist in the counting and recording of each vote cast correctly and after the ballot has been counted it shall be pierced by a needle and string and after all ballots have been so treated both ends of the string shall be tied and the ballots deposited with the list of names of voters kept by the Clerk during the election in the ballot box which shall then again be locked and the keys retained by the Supervisor. After the ballot box is securely locked the Supervisor shall not again open it, but shall deliver said box in that condition to the Superintendent of the Osage Agency, and the box shall be retained in a safe place by said Superintendent, until opened by order of the Supervisor or the election board in the event a contest is filed. In no event shall the ballots be destroyed for a period of at least 180 days after the election is held.

§ 18.23 *Manner of contesting election.* Any candidate for the office of Principal Chief, Assistant Principal Chief or the Osage Tribal Council may, at any time before noon on Monday next following the Tribal election, file with the Supervisor, or in his absence, the Assistant Supervisor, a challenge of the correctness of the announced results of said Tribal election and request a recount of the ballots and shall accompany his application with the sum of not less than $60.00. It shall then be the duty of the election board or the Supervisor to order said recount and proceed with the same as herein provided.

§ 18.24 *Deposit for expenses.* Said deposits shall be used by the said board to defray the actual expenses of said recount and any balance not so used shall be returned to said contestant.

§ 18.25 *Notice of contest.* It shall be the duty of the Supervisor, or in his absence, the Assistant Supervisor, to serve upon the contestee, or contestees, directly affected by such challenge or contest, a true copy of said written application, the original of which is required to be filed with the Supervisor. Said service shall be made in person, where possible, within twenty-four hours after the filing of said original challenge or contest, and where personal service is impossible within such time, on account of the absence of contestee, or contestees, from Osage County, or for any other reason, it is hereby made the duty of the Supervisor to serve said true copy upon the Superintendent of the Osage Indian Agency, provided that for the purpose of such constructive service, the Superintendent of the Osage Indian Agency is hereby made and constituted the service agent of each and every candidate in all Tribal elections, and by filing petition as a candidate, such candidate shall thereby be presumed conclusively to have accepted the terms and provisions hereof and specifically the constructive service as aforesaid.

(Sec. 7, 45 Stat. 1481)

GLENN L. EMMONS,
Commissioner,
Bureau of Indian Affairs.

MARCH 25, 1954.

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 6066; Regs. 76]

PART 141—SHIPMENT OR DELIVERY OF MANUFACTURED TOBACCO, SNUFF, CIGARS, CIGARETTES, AND CIGARETTE PAPERS OR TUBES, FOR USE AS SEA STORES WITHOUT PAYMENT OF INTERNAL REVENUE TAX

TOBACCO SEA STORES BONDS

In order to establish maximum penal sums for tobacco sea stores bonds, required of manufacturers of tobacco products and cigarette papers and tubes, and proprietors of tobacco sea stores warehouses, Regulations 76 (26 CFR Part 141), but only as prescribed and made applicable to the Internal Revenue Code by Treasury Decision 4885, approved February 11, 1939, are hereby amended as follows:

PARAGRAPH 1. Section 1, act of August 4, 1886, set forth immediately preceding article 3 (26 CFR 141.3) is stricken out, and there is inserted in lieu thereof:

SEC. 2135. INTERNAL REVENUE CODE, EXEMPTION FROM TAX.

(a) *Shipments to foreign countries and possessions of the United States—(1) Manufacturers.* Manufactured tobacco, snuff, cigars or cigarettes may be removed for export to a foreign country or for shipment to a possession of the United States without payment of tax under such rules and regulations and the making of such entries, and the filing of such bonds and bills of lading as the Commissioner, with the approval of the Secretary, shall prescribe.

* * * * * *

(3) *Cigarette papers and tubes.* Under such rules and regulations as the Commissioner with the approval of the Secretary may prescribe, the taxes imposed by subsection (d) of section 2000 shall not apply in respect of cigarette papers or tubes sold for export or for shipment to a possession of the United States and in due course so exported or shipped.

PAR. 2. The second and third sentences of article 3 (a) (26 CFR 141.3 (a)), as amended by Treasury Decision 5205 (8 F. R. 74), are amended to read as follows: "A separate bond must be filed for each such factory from which withdrawals without payment of tax under this part are to be made. The penal sum of the bond must be sufficient to cover the estimated amount of tax which may at any time constitute a charge against the bond: *Provided*, That the penal sum of the bond furnished under this section shall not exceed $100,000 nor be less than $500, in the case of a bond covering withdrawals of cigars and cigarettes, and shall not exceed $25,000 nor be less than $500, in the case of a bond covering withdrawals of tobacco and snuff, or cigarette papers and tubes."

PAR. 3. The fifth and sixth sentences of article 3 (a) (26 CFR 141.3 (a)), as amended by Treasury Decision 5205 (8 F. R. 74), are stricken out and in lieu thereof is added a new sentence reading as follows: "When the limit of liability under a bond given in less than the maximum penal sum has been reached, no further shipments shall be made until the liability has been decreased, as provided in this part, or an additional or strengthening bond, with the same surety as that on the original bond, or a new or superseding bond, is furnished."

PAR. 4. The first sentence of article 12 (26 CFR 141.12), as amended by Treasury Decision 5205 (8 F. R. 74), is amended by striking out the words "and in no case less than $1,000", and inserting in lieu thereof ": *Provided*, That the penal sum of any such bond shall not exceed $200,000 nor be less than $1,000".

PAR. 5. The fourth sentence of article 12 (26 CFR 141.12), as amended by Treasury Decision 5205 (8 F. R. 74), is amended to read as follows: "When the limit of liability under a bond given in less than the maximum penal sum has been reached, no additional shipments shall be received into the warehouse until an additional or strengthening bond, with the same surety as that on the original bond, or a new or superseding bond, is furnished."

Because the amendments made by this Treasury decision are of a liberalizing character, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitations of section 4 (c) of said act.

This Treasury decision shall be effective on the date of its publication in the FEDERAL REGISTER.

(53 Stat. 467; 26 U. S. C. 3791)

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: March 25, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 522—EMPLOYMENT OF LEARNERS

HOSIERY INDUSTRY

On March 9, 1954 (19 F. R. 1322), proposed amendments to the regulations governing the employment of learners in the hosiery industry were published in the FEDERAL REGISTER. Interested persons were given an opportunity to submit data, views or arguments pertaining thereto.

After careful consideration of all the comments received, I have concluded that no changes in the proposed amendments are required. Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended, §§ 522.40 through 522.51 are hereby revised to read as set forth in the FEDERAL REGISTER of March 9, 1954, (19 F. R. 1322) and as shown below:

Sec.
522.40 Issuance of learner certificates in the hosiery industry.
522.41 Number or proportion of learners.
522.42 Learner occupations, learning periods, and subminimum rates.
522.43 Effective period of certificates.
522.44 Cancellation of special learner certificates.
522.45 Applicability of §§ 522.40 to 522.44.
522.46 Applicability of general learner regulations (§§ 522.1 to 522.14).

AUTHORITY: §§ 522.40 to 522.46 issued under sec. 14, 52 Stat. 1068; 29 U. S. C. 214.

§ 522.40 *Issuance of special learner certificates in the hosiery industry.* (a) When necessary in order to prevent the curtailment of opportunities for employment, special certificates authorizing the employment of learners in the occupations and subject to the terms set forth in §§ 522.40 to 522.46 shall be issued to any plant in the hosiery industry making application therefor on forms furnished by the Wage and Hour Division, providing that,

(1) Experienced workers in the occupations named in §§ 522.40 to 522.46 are not available for such employment, except as provided in § 522.42 (d), and that

(2) The issuance of a special certificate will not create unfair competitive labor cost advantages or impair or depress working standards established for experienced workers for work of a like or comparable character in the industry.

(b) Application must be made on the official form furnished by these Divisions and must contain all information re-

quired by the form, including among other things, information concerning efforts made by the applicant to obtain experienced workers, the occupations in which learners are to be employed, the number of learners previously hired, the number of learners requested, their proposed hourly rates and learning periods in number of hours, the number of experienced workers in such occupations and their straight-time average hourly earnings during the last payroll period, the number of plant workers employed during previous periods, and the type of equipment to be used by learners.

§ 522.41 *Number or proportion of learners.* (a) The number of learners which any employer may be authorized to employ by any special certificate issued to meet normal labor turnover needs shall not exceed on any one workday five percent of the total number of productive factory workers in the plant; provided that, in plants employing less than 100 workers, a maximum of 5 learners may be authorized.

(b) Special certificates may be issued to new or expanding plants authorizing the employment of learners in authorized occupations to the extent of need. A "new plant" means a plant which is newly established and is being operated for the first time, or which has not been operated more than 8 months and in which a substantial number of workers must be trained for the manufacture of the products of the plant. An "expanding plant" means a plant which is being expanded by the installation of additional mechanical equipment or other production facilities, by again placing into operation machinery which has been idle for an appreciable period, or by adding an additional shift.

§ 522.42 *Learner occupations, learning periods and subminimum rates.* (a) A person who has had no previous experience in any of the following occupations in the hosiery industry may be employed as a learner in any one of the following occupations for the number of hours and at the subminimum rates set forth below:

(1) *Seamless Branch:*

Learner occupations, learning periods, and subminimum rates
Knitting, transfer top only, 960 hours; looping, 960 hours; pairing, women's nylon only, 960 hours; mending,[1] women's nylon only, 960 hours; 67½ cents, first 480 hours; 72½ cents, remaining 480 hours.
Topping, 480 hours; boarding, 480 hours; folding, women's nylon and rayon, 480 hours; welting, 480 hours; mending, other than women's nylon, 480 hours; pairing, other than women's nylon, 480 hours; 67½ cents per hour.
Knitting, except transfer top, 240 hours; seaming, 240 hours; examining and inspecting, 240 hours; folding, other than women's nylon and rayon, 240 hours; 67½ cents per hour.

(2) *Full-fashioned Branch:*

Pairing, 960 hours; mending,[1] 960 hours; seaming, 960 hours; 70 cents, first 480 hours; 72½ cents, remaining 480 hours.
Folding, 480 hours; 70 cents per hour.
Boarding, examining and inspecting, 240 hours; 70 cents per hour.

(b) If experienced workers are paid on a piece rate basis, learners shall be paid at least the same piece rates as experienced workers employed on similar work in the plant and shall receive earnings based on such piece rates whenever such earnings exceed the subminimum wage rates permitted in the certificate.

(c) A person who has had previous experience or training in the hosiery industry at any time in any authorized learner occupation for less than the authorized learning period may be employed as a learner in the same occupation at the applicable subminimum rates until the number of hours authorized for that occupation are completed.

(d) A worker who has had full training in any authorized learner occupation may be transferred to any other learner occupation for a period not to exceed one-half of the learning period authorized for that occupation at not less than 72½ cents an hour. A worker who has had partial training in any authorized learner occupation may be transferred to any other learner occupation or either: (1) A period not to exceed one-half of the learning period authorized for that occupation, at not less than 72½ cents an hour; or (2) the balance of the number of hours permitted as a learning period for the occupation to which he or she is being transferred, at the applicable subminimum rates set forth in § 522.42 (a): *Provided however,* That (i) no worker may be employed as a learner at learner rates in more than two authorized occupations; (ii) no worker who has completed the authorized learning period in the occupation of pairing may be employed as a learner at learner rates in the occupations of folding or inspecting; and (iii) no worker who has completed the authorized learning period may be employed as a learner at learner rates when transferring from the seamless branch of the hosiery industry to the full-fashioned or from the full-fashioned branch to the seamless, if the worker is employed in the same occupation as that in which he or she has been previously employed.

§ 522.43 *Effective period of certificates.* (a) Special certificates issued to meet labor turnover needs shall be effective for a period not longer than one year.

(b) Special certificates issued to new or expanding plants shall be effective for a period not longer than six months.

§ 522.44 *Cancellation of special learner certificates.* (a) The Administrator or his authorized representative may cancel any certificate for cause. A certificate may be canceled (1) as of the date of issuance, if it is found that the applicant set forth any fact or facts in the application which he knew or had reasonable cause to believe to be false; (2) as of the date of violation, if it is found that any of its terms have been violated; or (3) prospectively, if it is found that the conditions of employment of the learner have changed or that the purposes for which the certificate was originally issued no longer obtain.

(b) Except in cases of wilfulness or those in which the public interest requires otherwise, before any special certificate for the employment of a learner will be canceled, facts or conduct which may warrant such action will be called to the attention of the employer in writing and he shall be afforded an opportunity to demonstrate or achieve compliance with all lawful requirements.

§ 522.45 *Applicability of §§ 522.40 to 522.44.* (a) For purposes of §§ 522.40 to 522.44, the "hosiery industry" is defined as follows: The manufacture or processing of hosiery including, among other processes, the knitting, dyeing, clocking, and all phases of finishing hosiery, but not including the manufacture or processing of yarn or thread.

(b) Sections 522.40 to 522.44 do not apply to Puerto Rico or the Virgin Islands.

§ 522.46 *Applicability of general learner regulations* (§§ 522.1 to 522.14). The employment of learners pursuant to the provisions of §§ 522.40 through 522.45 shall be subject to all provisions of the general regulations governing the employment of learners (§§ 522.1 to 522.14), except to the extent to which any provision of such general regulations is inconsistent with any provision of §§ 522.40 through 522.45.

The above revisions shall become effective May 3, 1954.

Signed at Washington, D. C., this 26th day of March 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 54-2288; Filed, Mar. 30, 1954; 8:54 a. m.]

[1] For purposes of §§ 522.40 to 522.46, this occupation is defined as the process of hand-mending hosiery, either in the greige or finished condition, excluding snagging or scratching performed as a full-time and continuous process, and excluding the operation of various types of mending machines, such as Vitos, Vanitas, Stelos or Marvel, except where the operation of such machines is incidental to the hand-mending operation and the use of such machinery is an adjunct to the hand-mending process.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter D—Military Reservations and National Cemeteries

PART 555—MOTION PICTURE SERVICE

ADMISSION CHARGES

Section 555.5 is rescinded and the following substituted therefor:

§ 555.5 *Admission charges.* (a) The basic charges for admission to Army and Air Force theaters operated under §§ 555.1–555.7 are 25 cents, tax included where applicable, for adults, and 18 cents, tax included where applicable, for children under 12 years of age. If considered advisable by the installation commander, and the seating capacity of the theater permits, children under 6 years of age may be admitted free of charge.

(b) An admission rate higher than the basic rate (not to exceed 50 cents) may be announced for special attractions. When such special attractions are scheduled, the Army Air Force Motion Picture Service will give appropriate advance notification to the installation commander and the Joint Welfare Board.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 34—CLASSIFICATION AND RATES OF POSTAGE

PART 84—PAYMENT OF CERTIFICATES AND INTEREST

MISCELLANEOUS AMENDMENTS

a. In § 34.52 *Sample copies mailed as second-class matter* make the following changes:

1. Amend paragraph (d) to read as follows:

(d) *Limit of weight each year.* Sample copies may be mailed at the second-class pound rates at any time during a calendar year to the extent of 10 percent of the total estimated weight of copies to be mailed to subscribers during the calendar year. Sample copies mailed in excess of the 10-percent limit shall be charged with postage at the transient second-class rate prescribed by § 34.42. Excess sample copies accepted under deposits as provided for by § 34.30 while an application for second-class entry is pending shall be charged with postage at the transient second-class rate when the application is approved.

2. Rescind paragraph (e).

3. Redesignate paragraphs (f), (g), and (h) as paragraphs (e), (f), and (g), respectively.

(R. S. 161, 396; ch. 73, 23 Stat. 40, as amended; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 287)

b. In § 84.6 *Payment of accounts of deceased or incompetent depositors* make the following changes:

1. Amend paragraph (a) to read as follows:

(a) *Specific authority required except when deceased depositor's account is $20 or less.* Payment of the amount on deposit, or any part thereof, to the credit of a deceased, insane, or otherwise legally incompetent depositor shall not be made until specific authority therefor has first been obtained from the Assistant Postmaster General, Bureau of Finance, except when the amount on deposit to the credit of a deceased depositor is $20 or less. After the death of a depositor his account shall not be increased by further deposits.

2. Amend the first sentence of paragraph (e) (1) to read as follows: "If the depositor dies intestate; the amount on deposit is more than $20 and is such that not more than $500 will be available for distribution after allowing for payment of preferred claims; or the laws of the State in which the money is deposited provide, either specifically or by court decision, for the payment of a larger amount without administration, the postmaster shall obtain an application for payment on Form PS 114 from one of the next of kin or the person who paid the funeral expenses."

3. Redesignate paragraphs (f), (g), (h), (i), and (j) as paragraphs (g), (h), (i), (j), and (k), respectively, and insert new paragraph (f) to read as follows:

(f) *Accounts of $20 or less.* A postmaster having an account of $20 or less belonging to a deceased depositor is authorized to pay the account without reference to the Assistant Postmaster General, Bureau of Finance, under the following circumstances:

(1) To an administrator or executor upon evidence of his authority and submission of his written request.

(2) To an entitled distributee or legatee on behalf of other distributees or legatees under a decree of distribution upon evidence thereof and submission of his written request.

(3) To the surviving spouse, a child, or a parent, in the order named, or in the absence of any one of these, a brother or sister, if no administration on the depositor's estate has been asked for or granted, upon the applicant's written statement and request.

(4) To the undertaker or other preferred creditor in the absence of administration or next of kin on submission of the unpaid funeral bill signed by the undertaker or signed statement covering the amount of the claim.

4. In redesignated paragraph (k) *Authority for payment to be attached to certificates* add the following sentence: "For accounts of $20 or less the written request of the payee, with the endorsement of the postmaster stating the amount of the deposit, shall be affixed to the certificates."

(R. S. 161, 396; sec. 10, 37 Stat. 559; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 29 U. S. C. 768)

[SEAL] ABE MCGREGOR GOFF,
Solicitor.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 947]

NEW MEXICO

TRANSFER OF LANDS FROM CARSON NATIONAL FOREST TO THE SANTA FE NATIONAL FOREST

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473) and pursuant to Executive Order No. 10355 of May 26, 1952, and upon the recommendation of the Secretary of Agriculture, it is ordered as follows:

The following-described lands within the exterior boundaries of the Carson National Forest are hereby transferred to the Santa Fe National Forest, effective July 1, 1954.

NEW MEXICO PRINCIPAL MERIDAN

T. 25 N., R. 2 E.,
Secs. 2 and 11;
Sec. 12, W½;
Sec. 13, W½, SE¼;
Secs. 14, 23, 24, 25, and 36.
T. 26 N., R. 2 E.,
Secs. 26 and 35.
T. 24 N., R. 3 E., unsurveyed,
Sec. 3, W¼;
Secs. 4, 5 and 6;
Secs. 8 to 15, inclusive;
Sec. 24.
T. 25 N., R. 3 E.,
Secs. 30 and 31.
T. 24 N., R. 4 E.,
Sec. 7;
Sec. 8, W½;
Secs. 17, 18 and 19.

The exterior boundaries of the forests involved are hereby adjusted in accordance with the transfers made by this order, and any transferred land now having a national-forest status shall become a part of the forest to which it is transferred.

This order shall not be construed as giving a national-forest status, to any lands which do not now have such status, or as changing the status of any lands which now have a national-forest status.

ORME LEWIS,
Assistant Secretary of the Interior.

MARCH 25, 1954.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 205—REPORTS OF MOTOR CARRIERS

ANNUAL REPORTS OF CARRIERS OF PROPERTY OTHER THAN CLASS I CARRIERS

At a session of the Interstate Commerce Commission, Division 1, held in its office in Washington, D. C., on the 6th day of January A. D. 1954.

The matter of annual reports from Motor Carriers of Property other than Class I carriers being under consideration, and it appearing that the changes in existing regulations to be effectuated by this order are only minor changes with respect to the data to be furnished and that public rule-making procedures are unnecessary.

It is ordered, That the order dated March 12, 1953, in the matter of annual reports from Motor Carriers of Property other than Class I (49 CFR 205.3) be, and it is hereby modified with respect to annual reports for the year ended December 31, 1953, and subsequent years, as follows:

§ 205.3 *Annual reports of carriers of property other than Class I carriers.* Each Common and Contract Motor Carrier of Property other than Class I Carriers (§ 181.02–1 of this subchapter) shall file an annual report for the year ending December 31, 1953, and for each succeeding year until further order, in accordance with Motor Carrier Annual Report Form B which is hereby approved and made a part of this section[1]. The annual report shall be filed in the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington, D. C., on or before April 30 of the year following the one to which it relates.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 563, as amended; 49 U. S. C. 320)

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54–2280; Filed, Mar. 30, 1954; 8:53 a. m.]

PART 205—REPORTS OF MOTOR CARRIERS

ANNUAL REPORTS OF CARRIERS OF PASSENGERS OTHER THAN CLASS I CARRIERS

At a session of the Interstate Commerce Commission, Division 1, held in its office in Washington, D. C., on the 6th day of January A. D. 1954.

The matter of annual reports from Motor Carriers of Passengers other than Class I carriers being under consideration, and it appearing that the changes in existing regulations to be effectuated by this order are only minor changes with respect to the data to be furnished and that public rule-making procedures are unnecessary.

It is ordered, That the order dated March 12, 1953, in the matter of annual reports from Motor Carriers of Passengers other than Class I (49 CFR 205.4) be, and it is hereby modified with respect to annual reports for the year ended December 31, 1953, and subsequent years, as follows:

§ 205.4 *Annual reports of carriers of passengers other than Class I carriers.* Each Common and Contract Motor Carrier of Passengers other than Class I Carriers (§ 181.02–1 of this subchapter) shall file an annual report for the year ending December 31, 1953, and for each succeeding year until further order, in accordance with Motor Carrier Annual Report Form C which is hereby approved and made a part of this section.[1] The annual report shall be filed in the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington, D. C., on or before April 30 of the year following the one to which it relates.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 563, as amended; 49 U. S. C. 320)

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54–2281; Filed, Mar. 30, 1954; 8:53 a. m.]

[Ex Parte No. MC–43]

PART 207—LEASE AND INTERCHANGE OF VEHICLES

[illegible]

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 23d day of March A. D. 1954.

Upon consideration of the record in the above-entitled proceeding, and of petition of Refrigerated Transport Co., Inc., Watkins Motor Lines, Inc., C. E. McBride, doing business as Colonial Fast Freight, Belford Trucking Co., Inc., Alterman Transport Lines, Clay Hyder Trucking Lines, Tompkins Motor Lines, Inc., Arctic Express, Inc., Seaboard Food Express, Bonney Motor Express, Inc., Frigidways, Inc., Frozen Food Express, and C & D Transportation Co., dated February 2, 1954, for exemption of all carriers of commodities requiring refrigeration from § 207.5 (c) of the leasing rules; and good cause appearing therefor;

It is ordered, That on and after the date of this order and until March 1, 1955, authorized common carriers, holding certificates of public convenience and necessity from this Commission authorizing the transportation, in interstate or foreign commerce over irregular routes, of perishable commodities in refrigerated equipment be, and they are hereby, exempted from complying with the provisions of § 207.5 (c) of the rules and regulations prescribed in the above-entitled proceeding;

It is further ordered, That the said § 207.5 (c) of the rules and regulations prescribed in the above-entitled proceeding, except insofar as it relates to the inspection of equipment, be, and it is hereby, reopened for further hearing at a time and place to be hereafter fixed;

It is further ordered, That the said petition, insofar as it seeks relief from § 207.4 (a) (3) of the rules and regulations prescribed in the above-entitled proceeding, be, and it is hereby, denied, for the reason that our notice of March 4, 1954, provides for further hearing on April 14, 1954, solely with respect to that section;

And it is further ordered, That this order shall be effective as of the date hereof.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304)

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54–2278; Filed, Mar. 30, 1954; 8:52 a. m.]

PROPOSED RULE MAKING

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 207]

[Ex Parte No. MC–43]

LEASE AND INTERCHANGE OF VEHICLES

MOTOR CARRIERS; AUGMENTING EQUIPMENT

In the matters of (1) determining the manner in which evidence shall be presented at the further hearing in this proceeding; (2) the order of presentation of testimony; (3) special rules directing the interchange of prepared testimony prior to the hearing, and (4) reassigning the proceeding for further hearing.

It appearing, that this proceeding has been reopened for further hearing solely with respect to:

1. Those provisions of § 207.4 (a) (3) of the rules and regulations prescribed by the Commission's order of May 8, 1951, as heretofore modified, which require that any contract, lease or other arrangement for the use of equipment shall specify a period of not less than 30 days.

2. The following proviso of § 207.4 (a) (5) of said rules and regulations: "*Provided, however*, That such compensation shall not be computed on the basis of any division or percentage of any applicable rate or rates on any commodity or commodities transported in said vehicle or on a division or percentage of any revenue earned by said vehicle during the period for which the lease is effective."

and that in order to afford the fullest opportunity to be heard to all interested parties and to conserve the time of the parties and the Commission it is desirable in the public interest that all direct testimony of every witness shall be reduced to writing and served on the parties in advance of the hearing; that the order in which testimony shall be received and cross-examination conducted thereon be prescribed in advance of the hearing; that this procedure is authorized by section 7 (c) of the Administrative Procedure Act, and that the interests of the parties will not be prejudiced thereby; and that in order to comply with the hereinafter prescribed special rules it is necessary to postpone the further hearing now assigned on the 14th day of April A. D. 1954, at 9:30 o'clock a. m., United States standard time, at Washington, D. C.;

It is ordered, That the further hearing in the above-entitled proceeding, now assigned for April 14, 1954, at 9:30 o'clock a. m., United States standard time, at Washington, D. C., before Examiner Henry C. Lawton be, and the same is hereby, postponed to June 14, 1954, at 9.30 o'clock a. m., eastern daylight saving time, at the office of the Interstate Commerce Commission, Washington, D. C., before Examiner Henry C. Lawton;

It is further ordered, That the following special rules shall be applicable to the further hearing in this proceeding:

1. *Appearances and testimony.* Any person intending to appear in a representative capacity at the further hearing herein shall so advise the Commission by letter to the Secretary on or before April 12, 1954. Such letter shall indicate on whose behalf the appearance will be made and whether testimony in written form will be offered, and if so, the witness by whom the testimony will be offered, to which of the two provisions the testimony is intended to relate, and whether it will be offered in support of, or in opposition to, the elimination or modification of such provision. Such letter shall also indicate whether the person so appearing desires to receive a list of the appearances and witnesses. Such list will be furnished by the Commission to the parties requesting the same. Except for good cause shown, only parties notifying the Commission of their intended appearance as provided in this rule shall participate in the further hearing and be deemed parties to the further hearing.

2. *Request for prepared testimony.* Any party who has complied with rule 1 hereof, and desires to receive a copy of the prepared testimony of any witness shall so advise the party on whose behalf the witness is to testify by letter on or before April 26, 1954, and shall mail a copy of such letter to the Secretary of the Commission.

3. *Interchange of prepared testimony.* The direct testimony of every witness shall be prepared in writing and verified. The prepared statement shall conform to the general rules of practice as to style, mimeographing, printing, verification, etc. It shall be restricted to facts of which the witness has personal knowledge and as to which he is prepared to stand cross-examination, and shall not contain conjectures or conclusions of the witness, or irrelevant, immaterial or argumentative matter. Upon the timely request of any party, as provided in Rule 2 hereof, the party intending to offer such prepared testimony at the hearing, shall furnish a copy thereof to the party requesting the same, on or before May 10, 1954, and at the same time shall mail a copy to the presiding examiner, in care of the Interstate Commerce Commission at Washington, D. C. The original and verified copy of such prepared testimony together with a certification that it has been furnished to the parties requesting it, shall be tendered for the record at the further hearing by the party on whose behalf it is offered.

4. *Cross-examination on prepared testimony.* Any party to the proceeding, who desires to cross-examine any witness on any prepared testimony, shall advise the party who has indicated an intention of offering such testimony, by letter on or before May 24, 1954, and at the same time shall mail a copy of such letter to the Secretary of the Commission. No verified statement as to which cross-examination has been requested will be received in evidence unless the witness making the statement is available for cross-examination at the further hearing, or the request for such cross-examination is withdrawn by the party making it. Subject to objection thereto for cause, prepared and verified statements of testimony will be received in evidence.

5. *Oral evidence.* Implementing oral evidence in order to correct errors, or to supply inadvertent omissions in prepared statements is permissible, in the discretion of the presiding examiner, but evidence in chief not previously prepared in writing and interchanged as herein provided will not be admitted unless good cause therefor shall be shown at the hearing.

6. *Order of presentation of testimony.* Upon compliance by the parties with rules 1 to 4, inclusive hereof, the Commission by appropriate notice to the parties will specify, so far as practicable, the dates on which, and the order in which, prepared statements will be considered and received and cross-examination conducted at the further hearing, beginning June 14, 1954.

7. *Additional hearings.* Hearings at places other than Washington, D. C., may be later assigned, if found necessary.

8. *Hearing date change.* If the hearing date should be changed the requirements of these rules shall apply in connection with the new hearing date, and new dates for compliance with the rules may be specified.

Dated at Washington, D. C., this 24th day of March A. D. 1954.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 907]

[Docket No. AO–212–A7]

MILK IN MILWAUKEE, WISCONSIN, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER NOW IN EFFECT REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Milwaukee, Wisconsin, on March 16, 1954, pursuant to notice thereof which was issued on March 9, 1954 (19 F. R. 1395).

The material issues of record related to:

(1) Whether certain price adjustments should apply to Class III, or Class IV milk, or portions thereof; and

(2) The need for immediate change in the order provisions with respect to issue No. 1.

Findings and conclusions. The following findings and conclusions on the material issues are based upon evidence contained in the record of the hearing.

(1) The Class IV formula price should be reduced 10 cents per hundredweight for the months of April, May and June, 1954.

Proposals were made by handlers which would have the general effect of reducing the price for milk in various manufacturing uses. One proposal would apply a 30-cent per hundredweight handling credit to any increase in April, May, and June, 1954, of the volume of Class IV milk over the same month last year, to the extent such increase is not attributable to shift of utilization from Class III. Another proposal would classify milk used for butter, cheese and livestock feed in Class III instead of Class IV, and would change the price provisions for Class III milk by removing the alternative use of the Class IV price if it is higher than the Class III price.

The conditions complained of as the basis for such proposals related to the increased volume of milk delivered by producers for this market, and difficulty in finding manufacturing outlets for the excess over needs for the fluid market.

Handlers in the Milwaukee market generally do not have facilities for manufacturing milk in excess of needs for the fluid market. Generally such excess is diverted to non-handler manufacturing plants.

Receipts of milk from producers have been, during the last 12 months of record, at a higher level than at any prior time since the order was established in 1950. In February 1954, receipts were about 8.5 percent more than a year earlier. Utilization in Class I and Class II has not increased as much as receipts, and accordingly the proportion in Classes

III and IV has grown. In February 1954, the volume of milk accounted for in Class III and IV (after reconciliation) was about 54 percent more than in February 1953. In February 1954, such utilization (after reconciliation) amounted to about 7.3 million pounds of milk equivalent, or about 18.6 percent of receipts.

Testimony of handlers indicated that the sharp increase in production throughout the milkshed has made it difficult to find outlets for milk in manufacturing uses at the Class IV price. Condensery paying prices are currently lower than the Class IV price and accordingly operators of manufacturing plants may be expected to be reluctant to take on increased supplies of milk at the Class IV price while other source milk is available at the lower price. The condensery paying price used in the order was in February 1954, 15.5 cents lower than the Class IV price.

In view of marketing conditions as shown on this record, some price adjustment with respect to milk used in Class IV is needed for the orderly marketing of the increase in milk production for this market. It is questionable whether a price adjustment on only the increased volume in certain uses as compared to last year could be made to apply equitably. A flat adjustment of the Class IV price would not be subject to this objection. A deduction of 10 cents per hundredweight from the Class IV formula price would be the same as the simultaneous adjustment proposed in a decision on the order regulating the handling of milk in Chicago on the basis of similar conditions in that market, and would thus tend to preserve alignment of prices in these two markets. It is concluded on the basis of this record that such adjustment would aid materially in the orderly marketing of surplus milk in this market, and is more appropriate than other methods of adjustment proposed at the hearing.

It is concluded that this price adjustment should apply only during the months of April, May, and June, 1954. This record deals primarily with an emergency situation and is not an adequate basis for more permanent changes proposed with respect to prices and classification.

The Class IV price serves as an alternate price for a portion of Class III milk. The adjusted Class IV formula price, as herein proposed for April, May and June this year, would similarly be the alternate price for such Class III milk if it is higher than the Class III prices. The provisions for the basic formula price should be modified so that this temporary change in the Class IV price does not affect the basic formula price.

(2) The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto.

The conditions complained of are such that it is urgent that remedial action be taken not later than April 1, 1954, or as soon thereafter as possible. In accordance with the findings and conclusions under issue No. 1, it is necessary to make the proposed amendment effective at the same time as a similar amendment to the order regulating the handling of milk in the Chicago, Illinois, marketing area. Delay beyond the minimum time required to make the order set forth below effective would defeat the purpose of such amendment. The time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereto, would reduce the effectiveness of such relief and would tend to prevent the effectuation of the declared policy of the act. The record shows that interested parties did not enter any objection to the omission of the recommended decision and filing of exceptions thereto.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the proposed marketing agreement in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of January 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Rulings on proposed findings and conclusions. Briefs were filed which contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 26th day of March 1954.

[SEAL] JOHN H DAVIS,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 907.51 (d) change the period at the end of the sentence to a comma and add the following: "except for the months of April, May, and June of 1954, deduct 10 cents from the price computed pursuant to § 907.50 (c)."

[F. R. Doc. 54-2297; Filed, Mar. 30, 1954; 8:56 a. m.]

[7 CFR Part 925]

[Docket No. AO-226-A3-RO1]

HANDLING OF MILK IN THE PUGET SOUND, WASHINGTON, MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Seattle, Washington, on August 10–11, 1953, pursuant to notice thereof issued on July 23, 1953 (18 F. R. 4381) and reopened on February 10, 1954, pursuant to notice thereof issued on February 1, 1954 (19 F. R. 653).

Preliminary statement. The major issues presented on the record of the hearing were concerned with the following:

1. The application of producer bases and to the rule governing transfers of such bases.

2. Modification of the definition of "handler" to include bargaining cooperatives which do not operate plants.

3. Revision of location adjustments applicable to Class I milk and deliveries of base milk.

4. A proposed expansion of the "marketing area," as defined in the order.

5. Revision of the method of computing the price differential for butterfat in Class I milk.

6. Modification of the provisions under which milk is moved between plants by transfer and diversion.

7. The proposed use of price estimates as the basis of settlement with producers for milk.

8. Revision of the application of the location adjustment on certain Class II milk in District No. 1 of the marketing area.

9. Revision of the method of computing, for classification and pricing purposes, the volume of condensed skim milk, nonfat dry milk solids, or other products condensed from skim milk utilized in Class I milk products.

10. Revision of the definition of "producer-handler."

11. Clarification of the location adjustment on certain Class II milk as to its application to milk used in the manufacture of various types of cheese.

12. Review of the provisions which require payments on "other source milk" used by handlers as Class I milk at a rate equal to the difference between the Class I and Class II prices.

13. Clarification of the provisions under which marketing service deductions are made from payments due producers.

14. Several proposed changes in other provisions for the purpose of clarification and to improve administrative procedures.

Findings and conclusions with respect to all issues except issues Nos. 3 and 6 were completely reported in two decisions of the Secretary issued on September 10, 1953 and January 22, 1954. Following issuance of a recommended decision on December 3, 1953 proponents requested that a final decision on issue No. 3 dealing with the revision of location adjustments applicable to Class I milk and to the uniform prices to producers, and that part of issue No. 6 concerning proposed revisions in the definition of producer milk, be deferred pending a reopening of the public hearing for the purpose of receiving supplemental evidence thereon. In light of this request the public hearing was reopened on February 10, 1954 for the purpose of receiving further evidence on these matters.

Rulings on proposed findings and conclusions. Only one brief on the record was filed on behalf of producers or handlers. Such brief contained proposed findings and conclusions with respect to the issue under consideration herein. To the extent that the findings and conclusions of this decision are at variance with such proposed findings and conclusions, the request to make such findings and conclusions is hereby denied.

Findings and conclusions. The following findings and conclusions on the issue decided herein are hereby made upon the basis of the record of the hearing:

(1) Current provisions for price adjustments, based on the location of the regulated plant where producer milk is first received, should be revised by (a) designating a new district within the marketing area to be known as "District No. 4" and (b) by adjusting location differentials applicable to the prices of Class I milk and base milk to reflect economies in receiving and transportation which bulk farm tank pickup have effected.

Under the present order provisions District 2 of the marketing area is comprised of Skagit and Whatcom Counties. Producer associations proposed that Skagit County be removed from such district and be established separately as "District No. 4." Such redesignation would be made for the purpose of applying a location adjustment for plants located in Skagit County different from that applicable at plants in Whatcom County which presently constitutes the remainder of present District No. 2. Producer proponents further proposed that the present 40 cent per hundredweight location adjustment applicable to Whatcom County since December 1, 1952 be reduced to 30 cents and that the adjustment applicable to the nearby proposed District No. 4 be established at 20 cents per hundredweight. The location adjustments herein proposed would establish the differentials for Whatcom and Skagit Counties in accordance with proponents proposals. In addition adjustments applicable to other parts of the milkshed would be adjusted to reflect economies in handling effected by the development of farm tank pickup.

Present location adjustments were established on the basis of a system of handling and transporting milk under which milk is delivered from farm to country plants in cans; is weighed, tested, precooled and assembled in large quantities at the receiving plant prior to shipment in "over-the-road" tank trucks to District 1 plants. The rapid growth of the farm tank method of collecting and transporting milk has effected substantial economies in the cost of collecting and delivering milk direct from the farm to District 1 plants. It has become practical, from a cost standpoint, for farm tankers, which carry the equivalent of 250–300 ten gallon cans of milk, to deliver milk directly to city plants in Seattle or to other cities in District No. 1. As a result regulated plants located outside District No. 1 are being by-passed by farm hauling routes which move milk directly from farms to fluid milk plants within District No. 1.

The cost of moving producer milk from the outlying districts to plants in District No. 1 exceeds the cost of delivery to such plants from farms located in District No. 1. The purpose of the location adjustments is to reflect the additional costs of services to the outlying producers as compared to the near-in producers. At the time of the hearing in March 1952 most milk in the outlying districts was received at country plants prior to shipment to District 1. The total value of services performed on milk received from producers in District 2, as shown by the record, was about 63.5 cents per hundredweight, including country plant transportation of 28.5 cents; country plants handling of 10 cents; and country plant to District 1 plant transportation of 25 cents. The cost of performing such services for milk received from producers in District 1 was 22.7

cents. The additional cost of performing services for milk received in District 2 was about 40.8 cents per hundredweight (63.5¢ less 22.7¢), and a location allowance for District 2 was established at 40 cents per hundredweight as a reasonable measure of the cost of the additional services on milk received in District 2. For the same reasons a like allowance was established for District 3.

While there have been no changes in the filed rates for hauling milk by common carrier in cans from farms in District No. 1 to Seattle, the applicable rate per hundredweight of milk in bulk tank trucks is now the same as the published can rate (for approximately 82.5 lbs.). Economies in bulk tank hauling are substantiated by hauling rates presently being negotiated by cooperatives in District No. 1 and by actual hauling cost figures introduced in the record by these same cooperatives. Whereas the average hauling cost per can established on the record of the original hearing was approximately 22.7 cents it now appears that actual average costs per hundredweight for hauling milk in District 1 ranges from about 17.7 to 20.7 cents.

Milk moving directly from farms in Skagit County (proposed District No. 4) to city plants now moves exclusively by farm tank method. The greater hauling distance, and added cost of hauling direct to the city in small farm tank pickup trucks or of hauling such milk to central collecting points for transfer into larger "over-the-road tankers" for delivery to city plants, results in substantially higher hauling costs for milk from this area than from District No. 1. Notwithstanding, such costs are far below the 63.5 cents per hundredweight computed from the record of the hearing held in March 1952 as the then prevailing cost of handling and hauling milk from District 2.

With the growth of the farm tank system of delivery an active competition for milk supplies has developed between operators of farm tank pick-up routes which extend into Skagit County from District 1 plants and the Skagit County association. Milk is being hauled from Skagit County farms to Seattle on farm tank pick-up routes at a cost to the producer ranging from 37.5 to 39 cents per hundredweight, approximately 20 cents over similar costs for District No. 1. The growth of the farm tank system also has reduced the cost of moving milk from farms to the Burlington plant of the Skagit County association so that milk now can be delivered from farms to the plant, reloaded and shipped to Seattle in over-the-road tank trucks at a total cost of approximately 38 cents per hundredweight.

In Whatcom County insufficient progress had been made in converting from can shipments to farm tank pickup at the time of the August 1953 hearing to justify a change in the present 40 cent location adjustment. While substantial milk was being delivered by tank direct from the farm to Whatcom County plants the relative distance to Seattle did not appear to lend itself to consideration of direct deliveries from farm to District No. 1 plants and it was considered unlikely that any further significant changes in farm delivery methods would occur in the near future.

During the subsequent months Whatcom County, like Skagit County, has progressed rapidly in its changeover from can handling to farm tanks and direct bulk tank shipments now represent the most economical method of handling milk. Well in excess of 50 percent of all producer milk is Whatcom County is presently handled through bulk farm tanks and one handler has initiated direct tank deliveries from farms in Whatcom County to Everett city plants.

A commercial hauler has indicated a willingness to haul milk directly from Whatcom County farms to Seattle plants by tank for 46.4 cents which when added to incidental and overhead costs of the association for handling such milk in the amount of an estimated 7 cents gives an overall cost estimate of 53.4 cents. The association testified that it can perform this type of handling with its own equipment for an overall cost of 49.3 cents per hundredweight, approximately 30 cents over the cost of hauling for District No. 1. As further conversions to farm tanks occur more economical handling likely will result. Accordingly, it appears that a differential 10 cents in excess of that for Skagit County adjustment would be appropriate for Whatcom County. This aligns favorably with a filed hauling rate of 11 cents per hundredweight for typical shipments (in excess of 26,500 pounds) transported between the Linden plant in Whatcom County and the Burlington plant in Skagit County.

Producers associations active in District No. 3 and on the Olympic Peninsula contend that local hauling conditions in those areas are different from those in either Skagit or Whatcom Counties and that while some substantial changeover from can hauling, to farm tank pickup has occurred in each area it is unlikely that a significant additional transition will occur in the near future.

The present location adjustment for District No. 3 as set forth in the order is 40 cents. The producer association in District No. 3 contends that unless this present differential is maintained it is unlikely that their milk will be made available for fluid use in District No. 1. In support of their position they submitted figures showing an overall cost of 72 cents per hundredweight to deliver milk from the farm in District No. 3, put the milk through the receiving plant, and transport it to fluid milk plants in District No. 1.

The plant through which the milk of these producers passes en route to District No. 1 plants is a pasteurizing and bottling plant and therefore is not primarily engaged in receiving and collecting milk supplies for District No. 1 outlets. Only a relatively small proportion of the total plant supply of milk is transhipped to District No. 1. It is apparent that the facilities would be maintained and operated without substantial change even if no milk were moved through to District No. 1 plants. Accordingly, it is doubtful that more than a small proportion of the plant handling charge of 16 cents, which the producer association has included in arriving at its overall cost of 72 cents per hundredweight, should be a consideration in establishing a location adjustment for District No. 3. If such plant handling charge is excluded entirely the overall cost of moving milk from the farm in District No. 3 to fluid milk plants in District No. 1 is reduced to 56 cents per hundredweight. This compares with an average hauling charge for District No. 1 of slightly under 20 cents, as previously stated. It may be noted in this connection that the cost of moving milk from alternative sources outside District No. 1 to Tacoma and to other towns in the southern portion of District No. 1 approximates 40 cents. Since milk moving from District No. 3 is largely disposed of to plants in the southern portion of District No. 1 at a cost approximating 40 cents per hundredweight more than the cost of obtaining milk from producers within District No. 1, it is concluded that no change should be made at this time in the location adjustment effective for District No. 3.

Farm tank pickup on the Olympic Peninsula has developed more rapidly than in District No. 3. The record indicates that more than 50 percent of the milk in this area is presently marketed through farm tank pickup. A substantial volume of milk now moves directly from farms to Seattle plants by this method at a cost of 63 cents (plus tax) per hundredweight. The producer association operating a receiving plant on the peninsula states, however, that it cannot attain maximum efficiency in farm to market tanking at this time because economies of time and hauling space require that the farm tank pickup trucks stop at their receiving plant to supplement their loads with can-received milk. They therefore contend that handling costs are not significantly reduced and that plant operating and can-handling costs continue to be properly included in a location adjustment for the peninsula.

Since such association maintains no processing facilities on the peninsula virtually all of the milk moves to Seattle and adjacent areas. It may be noted from the record that a substantially greater proportion of the producer milk from this area moves for classification as Class I milk, subject to the handler location adjustment, than is true for the market generally. Also, the location adjustment for the peninsula is higher than for any other segment of the supply area. Since the respective rates of the handler Class I location adjustments are equivalent to those of the producer location adjustments on base milk, and since the aggregate volume of base milk of the producers delivering to the subject plant on the peninsula is less, on an annual basis, than the volume of milk moving from the area on which handler Class I location adjustments are allowed, returns to all producers in the market are directly affected by the amount of the adjustment allowed to move milk from this area to Seattle. While it is undoubtedly true that the producers' association has not been able to attain maximum efficiency in the handling of member milk at such plant the fact that the rate established does tend to reduce the returns to all producers on the market should not be disregarded. In the interest of producers generally location adjustments applicable to any given area should be based upon the costs at which milk from that area may be moved most efficiently to the central portion of the market. Unless rates are so adjusted handlers are under no pressure to maintain maximum efficiencies of operation in the hauling of producer milk. In view of the very substantial transition from can shipment to tank hauling which has occurred on the peninsula, it is concluded that the location adjustment for plants in Clallam and Jefferson Counties should be established on the basis of direct farm tank hauling costs as in the case of Districts Nos. 2 and 4. Since this cost is shown to be approximately 65 cents, or 45 cents in excess of hauling costs within District No. 1, it is concluded that a reduction in the location adjustment from 50 to 45 cents per hundredweight is appropriate at this time for any plant in Clallam County or Jefferson County.

(2) The present order provisions should be revised to require the application of the handler and producer location differentials on the basis of the location of the plant where the milk is physically received from producers. Exception should be made, however, to permit milk, received at a plant(s) in one price district on at least 60 percent of the days of delivery during the month, to be priced during the entire month as if received in such district. Further exception should be made to expedite the handling of milk during the flush months of production by permitting milk of a producer which is regularly received in one price district during the short production months to be priced in such district during the following months of April through June even though diverted or transferred to a plant in another price district for processing during such months.

Under the present order provisions a handler may divert producer milk from his pool plant to a nonpool plant. Such milk is deemed to have been received, and is priced as if received, at the plant from which it was diverted. Similarly, milk frequently is transferred between handlers without being physically received at the plant of the handler responsible for accounting and payment. Under these two types of transaction it has been possible for a handler to assign producers to a particular regulated plant and then to divert, or so transfer, a portion of, or all, the milk of such producers to a plant in another district where, by virtue of the location adjustment provisions, a lower price level prevails under the order. In this circumstance the producers involved are paid on the basis of the price level of the higher-priced district.

Under these provisions milk which never was intended to be utilized to fulfill District No. 1 fluid requirements, and with respect to which no transportation cost to such district was incurred, can be "diverted" or "transferred" at the will of the handler for indefinite periods of time. For example, for accounting and payment purposes such milk may be regarded as received at a District No. 1 plant where no location adjustment is deductible, and may be priced as District No. 1 milk, although the milk actually was received and utilized in another district where lower prices obtain. Thus, a handler may draw from the pool sufficient money to pay the producers of such milk a higher minimum price than that applicable under the order for the area where such milk actually was received. In addition such provisions make possible a significant gain to the handler from hauling allowances customarily paid by producers.

Cooperative associations of producers, representing a substantial proportion of all producers on the market, contend that the practice of diverting milk to non-pool plants results in an inequitable distribution of pool monies among producers. They proposed that except during the flush months of April through June, producer milk diverted from any fluid milk plant or country plant to any non-pool plant located in a district different from that in which the transferor plant is located be restricted to the milk of those producers whose milk was received at the latter plant on at least 20 days during the month of diversion. It was proposed further that during the months of April, May, and June the physical shipment to the original plant not be required if the milk of the particular producers involved was actually received at such plant during a specified minimum period in the short production season.

Adoption of the proponents' proposal without certain modifications would either (1) force a substantial uneconomic movement of producer milk or (2) cause a considerable number of dairy farmers, whose milk is presently handled by diversion, to lose their status as producers. Further, no provision is made in the proposal to limit the present practice of "transfer without prior receipt" between regulated plants which may as readily result in inequities of pricing, based on the relative values of the services required to move the milk to the principal consuming centers from various supply points, as the movements to non-pool plants covered by the proposal.

Provisions for the diversion of milk from a regulated to an unregulated plant without forcing the producers involved to lose their status as producers was adopted in the original order primarily to minimize the hauling necessary to move milk into manufacturing channels when the regulated plant lacks adequate manufacturing facilities to handle reserve milk supplies. Location adjustments have been established under the order to reflect reasonable returns to the entire group of producers based on the relative values of the services required in moving milk to the principal markets covered by the order, and any marketing practices which jeopardize the proper distribution of returns tend to undermine the effectiveness of the order.

No changes should be made in the order provisions at this time which would jeopardize the status of producers on the market whose milk may be diverted currently to a non-pool plant. However, the practices of diversion and transfer without prior receipt which have been followed in the market, should not be permitted to affect the distribution of monies to producers in a manner other than that intended under the location adjustment provisions. This problem can be met by applying handler and producer location differentials in the manner outlined below on the basis of the location of the plant of actual physical receipt, whether a regulated or an un-regulated plant. Under such a provision any handler could continue to move milk in the manner which is most economical to his particular operations However, producers generally would have assurance that all milk will be priced at the location of the plant of normal receipt.

Because fluid milk plants in District No. 1 operate only six days a week and adequate processing facilities are not locally available in District No. 1, it is generally necessary to hold back in other districts on weekends milk which customarily moves to fluid plants in District No. 1. Likewise, it is necessary to move milk produced within District No. 1 to processing plants located in proposed District No. 4 or in other districts. It is not intended in such circumstances that the producers involved should be penalized by application of location differentials to their milk. Therefore, it is provided that producer milk which moves to a plant(s) in District No. 1 on at least 60 percent of the days of delivery during the month shall be priced during the entire month on the basis of the prices applicable to such district. While diversions involving any two plants, both of which are entirely outside District No. 1 do not appear frequent, a similar application of adjustments should apply whenever such milk movements do occur.

Milk from certain locations may move regularly during much of the year to fluid milk plants in District No. 1 for fluid use and yet during the months of flush production may not be needed there. In the latter months it is retained in its originating district or is diverted elsewhere outside District No. 1 for processing into milk products. Milk which has demonstrated a bonafide association with a particular district, and is regularly needed for fluid use during much of the year in such district, should be priced during the flush production months as though actually received at a plant in such district. It is further provided, therefore, that milk which is received at a plant(s) in one district on at least 60 percent of the days of delivery during the August-December period (also the base-forming period) need not be received at a plant in such district during the months of April, May, and June to be priced at such location.

In the case of a producer entering the market after the month of August in any year, whose milk cannot qualify for diversion during April-June on the basis of the conditions outlined in the preceding paragraph, it is provided that delivery on not less than 60 percent of the period from the date of his initial shipment through March 31 shall con-

stitute the basis of qualification for diversion during April, May, and June.

Since under the proposed changes milk would be priced during the flush production months at the point of usual receipt during the previous short production season, any application of this provision during the following flush production months would of necessity be retroactive. It is concluded therefore that the effective date of this particular amendment should be delayed until August 1, 1954, the first shipping month for qualification for the succeeding April-June period.

Producer proponents contend that certain producers whose farms are located in District No. 1, and who in past years were associated with now defunct District No. 1 plants, should continue to have their milk priced as if received in District No. 1 even though such milk is regularly received at plants in proposed District No. 4 by diversion from a District No. 1 plant. Proponents state in support of their position that the milk in question is available at all times if wanted by handlers for use in District No. 1. The record indicates that such milk seldom moves from the farms to a District No. 1 plant for use in such district. It is delivered regularly to a Skagit County (District No. 4) plant for manufacturing purposes. Frequently milk from Whatcom County (District No. 2) is tanked a much greater distance to District No. 1 plants for Class I use while at the same time the subject milk is diverted to District No. 4 for manufacturing purposes. Consideration was given at the hearing to the possible reestablishment of the boundary separating District No. 1 and the new District No. 4, to determine whether a relocated boundary would conform more realistically to the actual direction of the movement of milk from farms to plants in such districts and would provide a solution to the pricing problem involved. However, no practical basis for relocating the district boundary may be developed from the evidence. There was no indication that any revision of such boundary presently foreseeable by proponents would not create a similar problem. It appears that while the particular producers referred to were once directly associated with a plant operation located in District No. 1, changing conditions affecting the costs of moving milk have removed the location advantage such producers previously enjoyed. As costs of moving milk to the populus communities of the marketing area may be further reduced through greater transportation efficiencies, it must be expected that the location advantage currently enjoyed by District No. 1 producers generally will diminish accordingly, and, in this circumstance, the type of problem now encountered by producers at the northern edge of District No. 1 may expand to other portions of the district.

(3) The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Assistant Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto, on the above issue.

The conditions complained of are such that it is urgent that remedial action be taken as soon as possible. Delay beyond the minimum time required to make the attached order effective would defeat the purpose of such amendment. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereto, would make such relief ineffective and therefore should be eliminated in this instance. The notice of hearing stated that consideration would be given to the question of whether economic and marketing conditions require emergency action with respect to any or all amendments deemed necessary as the result of the hearing. Action under the procedure described above was requested by proponents at the hearing. No opposition was registered at the hearing to either the objectives of the proposal or the use of such emergency promulgation procedure.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of January 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Puget Sound, Washington, marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Puget Sound, Washington, Marketing Area," and "Order Amending the Order, as amended, Regulating the Handling of Milk in the Puget Sound, Washington, Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 25th day of March 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Puget Sound, Washington, Marketing Area

§ 925.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto, and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Puget Sound, Washington, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete the last two sentences in § 925.6 (definition of "marketing area") and substitute therefor the following: "'District No. 1' of the marketing area shall include that part of the marketing area lying within the counties of King, Pierce, Snohomish, Thurston, and Grays Harbor. 'District No. 2' of the marketing area shall include that part of the marketing area lying within Whatcom County. 'District No. 3' of the marketing area shall include that part of the marketing area lying within the counties of Lewis and Pacific, and 'District No. 4' of the marketing area shall include that part of the marketing area lying within Skagit County."

2. Delete § 925.13 and substitute therefor the following:

§ 925.13 *Producer milk.* "Producer milk" or "milk received from producers" means milk qualified as described in § 925.12 and either received directly from a farm at a fluid milk plant or country plant or caused to be diverted by a handler for his account from such plant to a non-pool plant: *Provided*, That prior to August 1, 1954, milk so diverted shall be deemed to have been received by the diverting handler at the plant from which it was diverted: *And provided further*, That on and after August 1, 1954, any such milk either diverted to a nonpool plant or transferred pursuant to § 925.44 (a) (5) or (b) (5) shall be deemed to have been received by the diverting (or transferor) handler at the plant from which it was diverted (or so transferred), except that the application of §§ 925.53 and 925.81 to any such milk shall be made on the basis of the location of the plant of actual physical receipt, subject to the following conditions:

(a) Producer milk which is physically received from a farm at a plant(s) in one price district on not less than 60 percent of the days of its delivery during the month shall be priced as if received in such price district during the entire month;

(b) Producer milk which (1) was qualified under paragraph (a) of this section in one price district in each month during any August-December period, or (2) was not qualified under subparagraph (1) of this paragraph but which was delivered to a plant(s) in one price district on not less than 60 percent of the days of delivery from the date of first delivery of such milk through March 31, shall be priced during the next following April-June period as if received in such price district; and

(c) For purposes of applying the provisions of paragraphs (a) and (b) of this section in the case of a producer on every-other-day delivery, the days of non-delivery shall be considered as days of delivery.

3. Delete the language of § 925.44 through paragraph (a) (3) and substitute therefor the following:

§ 925.44 *Interplant movements.* Skim milk and butterfat transferred as any item specified in § 925.41 (a) (1) from a fluid milk plant or country plant to another plant shall be assigned (separately) to each class, in the following manner:

(a) From a country plant or fluid milk plant to a fluid milk plant: As Class I milk to the extent Class I milk is available at the transferee plant, subject to the following provisions:

(1) In the event the quantity transferred exceeds the total of receipts from producers and other handlers at the transferor plant, such excess shall be assigned last to the Class I available at the transferee plant;

(2) If more than one transferor plant is involved, the available Class I milk shall be assigned to the transferor plants in the following order:

(i) To fluid milk plants located in District No. 1;

(ii) To country plants located in District No. 1 or in the counties of Kitsap and Mason;

(iii) To fluid milk plants located in District No. 4;

(iv) To country plants located in District No. 4;

(v) To fluid milk plants located in District No. 2;

(vi) To country plants located in District No. 2;

(vii) To fluid milk plants not located in District No. 1, District No. 4, District No. 2, or the countries of Kitsap and Mason;

(viii) To country plants not located in District No. 1, District No. 4, District No. 2, or the counties of Kitsap and Mason;

(3) If Class I is not available in amounts equal to the sum of the quantities to be assigned pursuant to subparagraph (2) of this paragraph, the transferee handler may designate, within each of the eight categories of plants listed in such subparagraph, the plant(s) to which the available Class I milk shall be assigned.

4. Delete the language of § 925.44 (b) (2) and (3) and substitute therefor the following:

(2) If more than one transferor plant is involved, the available Class II milk shall be assigned to the transferor plant in the following order:

(i) To country plants not located in District No. 1, District No. 4, District No. 2, or the counties of Kitsap and Mason;

(ii) To fluid milk plants not located in District No. 1, District No. 4, District No. 2, or the counties of Kitsap and Mason;

(iii) To country plants in District No. 2;

(iv) To fluid milk plants in District No. 2;

(v) To country plants in District No. 4;

(vi) To fluid milk plants in District No. 4;

(vii) To country plants located in District No. 1 or in the counties of Kitsap and Mason; and

(viii) To fluid milk plants located in District No. 1 or in the counties of Kitsap and Mason.

(3) If Class II milk is not available in amounts equal to the sum of the quantities to be assigned pursuant to subparagraph (2) of this paragraph, the transferee handler may designate, within each of the eight categories of plants listed in such subparagraph, the plant(s) to which the available Class II milk shall be assigned.

5. Delete § 925.53 and substitute therefor the following:

§ 925.53 *Location adjustments to handlers on Class I milk.* In computing the value of each handler's milk pursuant to § 925.70 the following location adjustments shall be credited with respect to each hundredweight of skim milk and butterfat, respectively, in producer milk received (including milk diverted or transferred without prior physical receipt in accordance with the provisions of § 925.13) at a plant not located in District No. 1 or in the counties of Kitsap and Mason and classified as Class I milk: 45 cents at any plant located in Clallam or Jefferson Counties; 30 cents at any plant located in District No. 2; 20 cents at any plant located in District No. 4; and 40 cents at any other plant located outside of District No. 1 and the counties of Kitsap and Mason.

6. Delete § 925.70 (a) (6) and (b) and substitute therefor the following:

(6) Add, with respect to other source milk (including overage allocated to other source milk) received at each fluid milk plant and country plant of such handler in excess of the total volume of his Class II milk (except allowable shrinkage) at such plant, an amount computed by multiplying the hundredweight of such other source milk by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and in the case of a fluid milk plant or country plant not located in District No. 1 or in the counties of Kitsap or Mason, such difference shall be reduced as follows: 45 cents at any such plant located in Clallam or Jefferson Counties, 30 cents at any plant located in District No. 2, 20 cents at any plant located in District No. 4, and 40 cents at any other plant located outside of District No. 1 or the counties of Kitsap or Mason.

(b) The value of milk of each handler at any plant where only other source milk was received and from which, during the month, some other source milk was disposed of within the marketing area as Class I milk pursuant to § 925.41 (a) (1) shall be a sum of money computed by the market administrator by multiplying the hundredweight of such other source milk so disposed of by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials pro-

vided in § 925.52 (based on the butterfat test of such other source milk), and, in the event disposition within the marketing area was restricted to Districts Nos. 2, 3, or 4, such difference shall be reduced by 30 cents, 40 cents and 20 cents per hundredweight, respectively.

7. Delete the present text of § 925.81 through paragraph (a) and substitute therefor the following:

§ 925.81 *Location adjustment to producers.* In making payments to producers pursuant to § 925.80 (a) (1) and subject to the application of § 925.13 the following adjustments for location are applicable:

(a) Deductions may be made per hundredweight of base milk received from producers as follows: 45 cents at plants located in Clallam and Jefferson Counties, 30 cents at plants located in District No. 2, 20 cents at plants located in District No. 4, and 40 cents at other plants located outside of District No. 1 and the counties of Kitsap and Mason.

ORDER OF THE SECRETARY DIRECTING THAT REFERENDUM BE CONDUCTED AMONG PRODUCERS SUPPLYING MILK IN THE PUGET SOUND, WASHINGTON, MARKETING AREA, AND DESIGNATION OF AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area) who, during the month of January 1954 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

Nicholas L. Keyock is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177).

[F. R. Doc. 54-2261; Filed, Mar. 30, 1954; 8:49 a. m.]

[7 CFR Part 941]

[Docket No. AO-101-A17]

MILK IN CHICAGO, ILLINOIS, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER IN EFFECT REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Chicago, Illinois, on March 15, 1954, pursuant to notice thereof which was issued on March 8, 1954 (19 F. R. 1371).

The material issues of record related to:

(1) Whether certain price adjustments should apply in the case of Class III (a), or Class IV milk, or portions thereof, during the months of April, May and June, 1954.

(2) Whether the surplus milk manufacturing area should be temporarily enlarged.

(3) The need for immediate change in order provisions with respect to these issues.

Findings and conclusions. The following findings and conclusions on the material issues are based upon evidence contained in the record of the hearing.

(1) The Class IV formula price should be reduced 10 cents per hundredweight for the months of April, May and June, 1954.

A 30-cents per hundredweight handling credit was proposed to be allowed to handlers during April, May and June, 1954, on the increased volume of Class IV milk over the same month last year, insofar as such increased volume is not attributable to shifting of utilization from Class III or III (a), such calculation to be based on volumes after reconciliation. This proposal was made by a producer organization with limited handling facilities for surplus milk utilization, and was supported by a group of handlers. Some handlers proposed also a similar handling credit to apply to increased volume in Class III (a). Such handling credits were proposed as inducements to handlers to accept the increased volume of producer milk in view of extraordinary costs or possible loss involved.

Other representatives of producer organizations which operate plants with Class III (a) and Class IV milk utilization confirmed the seriousness of the situation but questioned the proposed changes in order provisions. One objection raised was that the handling credit would not provide uniform pricing to handlers. It was also pointed out, that in some areas of the milkshed the uniform price is currently lower than the Class IV price. A reduction in the uniform price such as is likely to result from the proposed handling allowance credits might increase the difficulties of some plants in these areas.

The considerable increase in production of milk for this market since late 1952 has been accompanied by relatively small increase in Class I utilization. Class II utilization has shown a downward trend in recent years. As a result, a greater quantity and proportion of producer milk deliveries are utilized in classes III and IV. In February 1954, utilization in these classes, including III (a), was about 24 percent greater than in February 1953.

Representatives of producer organizations and handlers testified that this year some difficulty is being experienced in disposing of the increase in production at prices which enable them to return the Class IV price to producers. One factor is the cost of handling diverted milk, and another is the unwillingness of manufacturing operators to take milk at the Class IV price plus any expense involved in delivery to the manufacturing plant.

Because of the general increase in production throughout the milkshed, some of the facilities usually relied upon for disposal of milk in manufacturing uses are not available for the additional quantities of milk handlers have for these uses this year. Some additional difficulty may be expected in diverting milk to facilities where it might be used as Class IV milk, since the price paid by condenseries is currently lower than the Class IV price. In February, the condensery paying price used in the order was 21.5 cents per hundredweight less than the Class IV price. In view of this difference, manufacturing plant operators may be expected to be reluctant to take on increased supplies of milk at the Class IV price while other source milk is available at the lower price.

Under these circumstances some price adjustment with respect to milk used in Class IV is needed for the orderly marketing of the increase in milk production for this market. It is questionable whether a price adjustment on only the increased volume in certain uses as compared to last year could be made to apply equitably. A flat adjustment of the Class IV price would not be subject to this objection. A temporary deduction of 10 cents from the formula price would result in about the same total effect on the cost of milk to handlers as the proposed adjustment applying to only the increase in Class IV milk over last year. Based on price relationships in recent months, this may not result in a price as low as the price for Class III (a) milk. It is not possible to estimate reliably what this corresponding price relationship would be in the coming spring months, but such adjustment would appear likely to result in a closer alignment than without such adjustment.

The Class IV price serves as an alternate price for a portion of Class III milk. The adjusted Class IV price as herein proposed for April, May and June this year, would similarly be the alternate price for such Class III milk if it is higher than the Class III price. The provisions for the basis formula price should be modified so that this temporary adjustment of the Class IV price will not affect the basic formula price.

2. The counties of Boone, Grant and Knox, all in Indiana, should be included in the surplus milk manufacturing area for the months of April, May and June of 1954. Inclusion of these counties was requested by handlers who are encountering difficulty in providing or finding outlets for surplus milk. It was indicated on the record that in these localities manufacturing capacity is available for handling some of the increased volume of milk expected to be produced for this market during spring months of this year. If these counties were included in the area designated as the surplus milk manufacturing area, milk moved to plants located therein could be classified as Class III, III (a) or IV, depending on utilization. Inasmuch as there are many indications in the record of difficulty experienced by handlers in finding facilities able to handle additional quantities of milk and operators willing to accept such additional milk, it is concluded that these counties should be included in the designated area.

3. The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto.

The conditions complained of are such that it is urgent that remedial action be taken not later than April 1, 1954 or as soon thereafter as possible. Delay beyond the minimum time required to make the amending order set forth below effective would defeat the purpose of such amendment. The time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereto, would reduce the effectiveness of such relief and would tend to prevent the effectuation of the declared policy of the act. The record shows that interested parties did not enter any objection to omission of the recommended decision and opportunity to file exceptions thereto.

Rulings on proposed findings and conclusions. Briefs were filed which contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

General findings. (a) The proposed marketing agreements and the orders as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing areas, and the minimum prices specified in the proposed marketing agreements and in the orders, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(c) The proposed marketing agreements and the orders, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in the marketing agreements upon which a hearing has been held.

Determination of representative period. The month of January 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Chicago, Illinois, marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreements and orders. Annexed hereto and made a part hereof are documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Chicago, Illinois Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreements, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreements are identical with those contained in the respective orders, as amended, and as hereby proposed to be further amended by the attached orders which will be published with this decision.

This decision filed at Washington, D. C., this 26th day of March 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area*

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendment thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Chicago, Illinois marketing area shall be in conformity to and compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 941.50 change the period at the end of the sentence to a comma and add: "except that for each of the delivery periods of May, June, and July of 1954, the basic formula price shall not be less than the price for Class IV milk as computed by the market administrator pursuant to § 941.52 (d) for the delivery period next preceding plus 10 cents."

2. In § 941.52 (d) add a subparagraph (4) as follows:

(4) For the delivery periods of April, May, and June of 1954, subtract 10 cents from the result pursuant to subparagraph (3) of this paragraph.

3. In § 941.40 (b) insert the county names "Boone, Grant, Knox," after the county of Wabash in Indiana.

[F. R. Doc. 54-2298; Filed, Mar. 30, 1954; 8:56 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[7 CFR Part 943]

[Docket No. AO-231-A-4]

HANDLING OF MILK IN THE NORTH TEXAS, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.),

and the applicable rules of practice and procedure as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Dallas, Texas, on January 26–27, 1954, pursuant to notice thereof which was issued on January 11, 1954, and published in the FEDERAL REGISTER on January 15, 1954 (19 F. R. 272) upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the North Texas marketing area.

A portion of the issues considered at this hearing was the subject of a decision issued on February 26, 1954 (19 F. R. 1183) and an order amending the order as amended issued on February 26, 1954 (19 F. R. 1205).

Upon the basis of the evidence introduced at the hearing and the record thereof the Deputy Administrator, Agricultural Marketing Service, on March 2, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision and opportunity to file written exceptions on the remaining issues, which was published in the FEDERAL REGISTER on March 5, 1954 (19 F. R. 1250).

Within the period reserved for exceptions, the producers associations and certain handlers filed exceptions to certain of the findings, conclusions and actions recommended by the Deputy Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions and actions decided upon are at variance with the exceptions, such exceptions are overruled.

The material issues of record are concerned with the following:

1. A revision in the method of pricing of Class II milk,
2. The elimination of the administrative assessment on milk diverted to unapproved plants, and
3. The classification of ungraded milk for certain uses.

Findings and conclusions. The following findings and conclusions are based upon the evidence introduced at the hearing and the record thereof:

1. *Pricing Class II milk.* The alternative formula for determining the Class II price on the basis of butter and nonfat dry milk solids prices should be reduced 16 cents per hundredweight of milk containing 4 percent of butterfat for each of the months of July 1954 through March 1955. The price of milk disposed of for use in the manufacture of cheddar cheese during April, May, June, and July 1954, should be computed by multiplying the price of cheese at Wisconsin assembly points by 8.0. The butterfat differential for Class II milk should be reduced from 0.115 to 0.108 times the price of butter for each of the months of April 1954 through June 1955.

Producer milk supplies are now about adequate to meet market requirements for Class I milk at all seasons of the year. The number of producers supplying the market increased substantially from the time the order was promulgated in October 1951 until the middle of 1953. Since that time, producer numbers have remained relatively stable. Receipts of producer milk during the last quarter of 1953 increased approximately 15 percent over the corresponding period of 1952 and 38 percent over 1951. This increase indicates that the Class II price in the past has not discouraged handlers from developing adequate supplies of producer milk.

The record indicates, however, that the present Class II pricing arrangement is not promoting the usage of reserve supplies of producer milk in the manufacturing operations usually conducted by handlers in conjunction with their fluid operations. Not all handlers have the necessary equipment to process the entire reserve supplies of milk that normally accompany a fluid milk operation. Milk for all Class II uses however can not be priced to handlers so that each handler can be assured of a profit in handling it. Handlers, who lack facilities or who receive milk in excess of their capacity, must procure their fluid milk supply in competition with handlers who are able to process or dispose of reserve supplies. Furthermore, the pricing arrangement for Class II milk should not result in handlers soliciting for additional supplies or retaining sources of supply of producer milk in excess of their normal reserve requirements throughout the year solely for manufacturing purposes.

With the increase in the receipts of producer milk, the total volume of Class II milk at approved plants during 1953 was about 65 percent greater than in 1952. If market supplies are maintained at a level to supply the year around Class I sales, the volume of Class II milk can be expected to continue at about 1953 levels. The record shows that difficulty was encountered in disposing of reserve milk supplies during 1953. The proportion of total producer receipts classified as Class II milk for the year 1953 however was less than 20 percent. It ranged from 7.2 percent in October to 29.8 percent in April.

During each of the years of 1952 and 1953 over 85 percent of the total volume of Class II milk was utilized at approved plants in frozen desserts, condensed milk or skim milk, or cottage cheese or was transferred or diverted from approved plants to unapproved plants in the form of milk, skim milk, or cream. From 1952 to 1953 utilization in each of these four major outlets increased as follows: frozen desserts, 28 percent; condensed milk or skim milk, 36 percent; cottage cheese, 27 percent; and milk, skim milk, or cream transferred or diverted to unapproved plants, 335 percent. This shows that the utilization of Class II milk at approved plants increased at a much smaller rate than the rate at which the total volume of Class II milk increased. Accordingly, a greatly increased disposition of Class II milk to unapproved plants has been necessary.

In 1953 almost one-fourth of the total volume of Class II milk at approved plants was other source milk received in forms other than milk. While these Class II other source milk products were being received at approved plants, large volumes of milk, cream, or skim milk were at the same time being disposed of by approved plants through transfer or diversion to unapproved plants. Thus, the problem of finding outlets for Class II milk was aggravated by some of the handlers who acquired other source milk for uses which otherwise represented outlets for Class II producer milk.

During 1953 the prices paid for milk at the three manufacturing plants, which are used as a basis for the Class II price in April, May, and June, and as an alternative basis during the other months of the year, declined considerably in relation to the butter-nonfat dry milk solids formula. In 1952 the three-plant price averaged about 13 cents per hundredweight higher than the butter-nonfat dry milk solids formula price whereas in 1953, the three-plant price averaged 25 cents lower. From 1952 to 1953 the three-plant price declined about 38 cents in relation to the butter and nonfat dry milk solids prices. The butter-nonfat dry milk solids formula was higher than the three-plant price in every month of 1953 except January. These changed relationships have aggravated the problem of pricing Class II milk under the order.

Ice cream is a desirable outlet for Class II producer milk because ice cream sales are seasonally high at about the same time of the year that supplies of producer milk are greatest. A substantial portion of the ice cream sold in the marketing area is manufactured and distributed by operators of unapproved plants. Reserve supplies of producer milk or ice cream ingredients made by approved plants cannot be disposed of to such unapproved plants unless they are available at prices that are competitive with prices for ingredients from other sources. Class II milk should be priced, therefore, at a level which will result in a cost for ice cream ingredients that is competitive with costs of ingredients from other sources. Using this criterion, it appears that during the latter part of 1953, ice cream ingredients were available from unregulated sources at prices reflecting a value for milk at somewhat less than the Class II price; therefore some reduction from the level of the Class II prices during that period appears appropriate.

Proposals were considered to price Class II milk on the basis of prices paid for milk at manufacturing plants located in or near the milkshed throughout the year. As previously stated above, prices paid for milk at these plants has declined substantially in the last year in relation to butter and nonfat dry milk solids prices. The reasons for this decline are not apparent, and the extent to which this changed relationship should influence Class II prices is not discernible. The lowering of Class II prices at all seasons of the year to the full extent of this decline is not necessary. This decline may be accompanied by larger profit margins, which if allowed handlers, might cause them to obtain supplies of producer milk solely for manufacturing purposes. Normal seasonal reserve supplies have some value to a handler in addition to their intrinsic value as milk

products. This is due to the fact that the producers of such milk will be needed, and they will be available, in the short production season to meet fluid milk requirements. It is concluded that a reduction in the butter-nonfat dry milk solids formula price of 16 cents per hundredweight of milk containing 4 percent of butterfat will result in an appropriate level of Class II prices through March 1955 and will promote greater utilization of reserve supplies of producer milk by regulated handlers. In the event the butter and nonfat dry milk solids formula prices decline in relation to local manufacturing plant prices, then the three plant price should be used as a basis for the Class II price as it now is.

Proposals to include additional plants along with the three whose prices are averaged and used as a basis for the Class II price should be denied. All of the plants suggested or proposed as possible additions pay generally lower prices than the three now used. Any addition of other plants would tend to reduce the Class II price below the competitive price being paid by local plants for ungraded milk. The need for a reduction in prices to this extent was not shown. Nor was it shown that the addition of other plants would result in more timely changes in the Class II price.

The average butterfat content of Class II producer milk has been considerably above 4 percent. In 1953, it ranged from 4.713 percent in April to 10.721 percent in October; therefore the Class II butterfat differential has a significant effect on the handlers' cost of Class II milk. A comparison of butter prices with prices at which cream has been available from competitive sources indicates that a butterfat differential of 0.108 times the price of butter would closely reflect this relationship. It is therefore concluded that the Class II butterfat differential should be the price of butter times 0.108 through June 1955.

In the few weeks immediately preceding the hearing producer milk supplies had increased considerably—apparently more than the usual seasonal increase during that period. It cannot be determined at this time whether this represents a new trend in increased supplies of producer milk or a changed seasonal pattern or merely a short term shift in production. If this increase continues into the months of heavy production in 1954, the problems of disposing of the seasonal reserve supplies will be further complicated and the need for disposing of milk to unapproved plants will be that much greater. With the limited existing outlets to unapproved plants, it might become necessary to move substantial volumes of producer milk to cheddar cheese plants. Returns available for milk disposed of to local cheese plants have been considerably lower than for milk disposed of to most other manufacturing outlets. Therefore, a special price for any milk which may be used to produce cheese is necessary to promote the orderly marketing of seasonal reserve milk during the flush production season of 1954. This special price should be applicable only during the flush production months of 1954 because it cannot yet be determined that similar problems will recur in subsequent years. The problems of disposing of Class II milk can be expected to be greatest, during April through July. It is concluded, therefore, on the basis of this record, that the special pricing of milk used for cheese be applicable only during April, May, June, and July 1954.

The price of Class II milk disposed of during this four-month period for use in the manufacture of Cheddar cheese should be priced on the basis of cheese prices. The value of milk for cheese has a close relationship to the price of cheese. The price paid for Cheddar cheese at Wisconsin primary markets is considered representative of changes in the price of cheese. A comparison of this cheese price with prices paid for milk by plants engaged in manufacturing cheese in this area indicates the value of milk for cheese to be about 8.0 times the price of cheese. It is concluded that milk for use in Cheddar cheese should be priced on the basis of this relationship.

A number of uncertainties existing at the time of the hearing contribute greatly to the difficulty of determining an appropriate level of Class II prices. Two mentioned earlier in this decision concern (1) the future relationship between prices paid for milk by local manufacturing plants and butter and nonfat dry milk solids prices, and (2) the volume of Class II producer milk during the next few months. Others include the effect of the change in the level of Government support prices for manufactured milk products on prices of milk and dairy product prices locally; the ability and willingness of handlers to utilize increased quantities of producer milk in Class II operations; the progress made on plans to expand local manufacturing facilities; and the extent to which Class II milk and milk products can be disposed of to existing unapproved plants. In view of the uncertainties, it is concluded that changes in Class II pricing to reflect current conditions should be temporary. Use of the lower butter-nonfat dry milk solids formula price through March 1955 and the lower Class II butterfat differential through June 1955 will continue the level of Class II prices herein concluded to be appropriate, through the 1955 season of high production. It will be desirable after time has resolved some of these uncertainties to reconsider the problem of pricing reserve milk at a hearing late in 1954 or early in 1955.

2. *Expense of administration.* The proposal to make the administration assessment inapplicable to producer milk diverted to an unapproved plant should be denied. It cannot be concluded from the record that the proposal, if adopted, would result in a more equitable distribution of the expenses of administration among handlers. To some degree, the problems sought to be corrected by this proposal are pricing problems and to that extent, have been considered in arriving at the conclusions contained herein concerning pricing.

3. *Classification of ungraded milk for certain uses.* A proposal to classify as Class II milk, ungraded milk or skim milk disposed of by handlers for use in oleomargarine or mellorine should be adopted. Ungraded milk disposed of from an approved plant for such purposes is presently classified as Class I milk during each of the months of September through February and as Class II milk during the other months.

At least one handler receives both graded and ungraded milk at his approved plant, as defined in the order. Separate facilities for receiving and processing both graded and ungraded milk are maintained in the same building. Such handlers are required to report their total receipts and utilization of all milk received at their approved plants. The provisions of the order for allocating milk from sources other than producers, to the various dispositions of the approved plant, are such that producer milk is given priority of allocation to all Class I dispositions from such plant. Any ungraded milk or skim milk, received at an approved plant and disposed of for the manufacture of oleomargarine or mellorine is classified as Class I milk during the months of September through February. This higher classification assigned to such usage for ungraded milk accrues to the benefit of producers. Inasmuch as ungraded milk received at unapproved plants is available as a source of supply for these products, the higher classification assigned to ungraded milk (for similar disposition) which is received at approved plants places a handler at a competitive disadvantage in supplying these outlets. The adoption of this proposal will remove this disadvantage.

General findings. (a) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the North Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. Delete paragraph (b) of § 943.51 and substitute therefor the following:

(b) *Class II milk.* For each of the months of April, May and June, the price computed pursuant to § 943.50 (c), rounded to the nearest one-tenth cent; for each of the months of July 1954 through March 1955, the price computed pursuant to § 943.50 (b) less 16 cents or the price computed pursuant to § 943.50 (c), whichever is higher, rounded to the nearest one-tenth cent; and for each of the other months of the year, the price computed pursuant to § 943.50 (b) or the price computed pursuant to § 943.50 (c), whichever is higher, rounded to the nearest one-tenth cent: *Provided*, That for each of the months of April, May, June, and July 1954, the minimum price per hundredweight for Class II milk disposed of for use in Cheddar cheese shall be computed by multiplying the simple average of the daily prices paid per pound, using the midpoint of any price range as one price, for Wisconsin State Brand Cheddars in cars or truckloads, f. o. b. Wisconsin assembly points, as reported by the Department for the trading days during such month, by 8.0.

2. Amend § 943.52 (b) to read as follows:

(b) *Class II milk.* For each of the months of April 1954 through June 1955, multiply such price for the current month by 1.08 and for each month after June 1955, multiply such price for the current month by 1.15.

3. Delete paragraph (b) (2) of § 943.41 and substitute therefor the following:

(2) Disposed of (i) as bulk milk or skim milk during the months of March through August, (ii) as bulk cream during any month, and (iii) as ungraded bulk milk or skim milk during any month, to commercial bakeries or food product manufacturing plants (other than dairy plants) which do not dispose of milk for fluid consumption. *Provided*, That the amount of skim milk or butterfat so classified pursuant to subdivision (iii) of this subparagraph shall not exceed the butterfat and skim milk contained in ungraded milk received by such handler from dairy farmers during the month.

[7 CFR Part 988]

[Docket No. AO 195-A6]

Handling of Milk in the Knoxville, Tennessee, Marketing Area

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and to Order, as Amended

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Farragut Hotel, 530 South Gay Street, Knoxville, Tennessee, beginning at 10:00 a. m., April 15, 1954, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Knoxville, Tennessee, marketing area (7 CFR 988 et seq.). These proposed amendments have not received the approval of the Secretary of Agriculture.

Proposal No. 2, relative to the enlargement of the marketing area, raises the issue as to whether the provisions of the present order would tend to effectuate the declared policy of the act if applied to the marketing area as proposed to be extended, or if not, what modifications of the classification, pricing (including differentials) and payment provisions of the order, as amended, are appropriate to effectuate the declared policy of the act.

Amendments to the order, as amended, regulating the handling of milk in the Knoxville, Tennessee, milk marketing area were proposed as follows:

By R. T. Cochran on behalf of handlers regulated by Order No. 88:

1. Add the following proviso to § 988.51 (b): "*Provided*, That from the effective date hereof the price per hundredweight for all producer milk received at a fluid milk plant that is used to produce butter, or is transferred by a handler, including a cooperative association as a handler, and used to produce any item other than those as set forth in § 988.41 (a) (1) shall be the price computed above less the appropriate amount that will effectuate the orderly marketing of such milk."

2. Delete § 988.5, and substitute therefor:

§ 988.5 *Knoxville, Tennessee, Marketing area.* "Knoxville, Tennessee, marketing area" called the "marketing area" in this subpart means the territories within the counties of Knox, Blount, Anderson, Campbell, and Jefferson, all in Tennessee, including but not being limited to all municipal corporations in said counties.

By the Knoxville Milk Producers Association:

3. Amend § 988.61 by deleting (b) and substituting therefor the following:

(b) An entire base may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice: *Provided*, That if a base is held jointly and such joint holding is terminated any portion of such base may be transferred as indicated by the joint holders.

By the Dairy Division, Agricultural Marketing Service:

4. Make such changes as may be required to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order now in effect may be procured from the Market Administrator, 205 Flatiron Building, 705 Broadway NE., Knoxville, Tennessee, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: March 26, 1954.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Department Order 150-35]

Commissioner of Internal Revenue

Delegation of Authority Respecting Certain Tax Returns

By virtue of the authority vested in me as Secretary of the Treasury by Reorganization Plan No. 26 of 1950, there are hereby conferred and imposed upon the Commissioner of Internal Revenue the functions of the Secretary of the Treasury prescribed by sections 463C.32 and 463C.33 (a) of Treasury Decision 4929, approved by the President on August 28, 1939, as amended by Treasury Decision 4991, approved on July 20, 1940 (C. B. 1939-2, 91, C. B. 1940-2, 92; 26 CFR 458.65, 458.66 (a)), with respect to permission to the head of a bureau or office of the Treasury Department, not a part of the Internal Revenue Service, or an employee in such bureau or office, or to the head of an executive department (other than the Treasury Department) or any other establishment in the Executive Branch of the United States Government, or an officer or employee in such department or establishment, to inspect a return made under the Internal Revenue Code to which Treasury Decision 4929, as amended, applies. The functions herein conferred and imposed upon the Commissioner of Internal Revenue may be exercised by any officer or employee of the Internal Revenue Service who is so authorized by the Commissioner, under such rules as may be prescribed by him.

[SEAL] M. B. FOLSOM, *Acting Secretary of the Treasury.*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Alaska

Notice of Proposed Withdrawal and Reservation of Lands

An application, serial number Anchorage 025198, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on August 11, 1953, by Department of the Army.

The purposes of the proposed withdrawal: A recreation and training site.

For a period of 60 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VII, Bureau of Land Management, Department of the Interior at Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

A parcel of land located on the south shore of Lake Louise, approximately 140 miles northeast of Anchorage, more particularly described as follows:

Beginning at a point on the mean high water line of Lake Louise at approximate Latitude 62°16'55" North and Longitude 146°31'10" West; thence north 2117 feet, more or less, to the mean high water line of a small promontory extending into Lake Louise; thence in a generally southeasterly direction along said high water line to the east end of the aforementioned promontory; thence continuing along the mean high water line in a generally southwesterly direction to the point of beginning, containing approximately 29.50 acres.

LOWELL M. PUCKETT, *Regional Administrator.*

Colorado

Restoration Order No. 19 (R-IV) Under Federal Power Act

MARCH 19, 1954.

Pursuant to determination No. DA-328-Colorado dated November 10, 1952, of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (2) (4) of the Director, Bureau of Land Management, approved August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn or reserved for power purposes pursuant to Power Site Reserves No. 116 dated February 18, 1910, and No. 253 dated March 23, 1912, are hereby opened to disposition under the applicable public-land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended:

SIXTH PRINCIPAL MERIDIAN

T 4 S., R. 83 W.
Sec. 17, Lots 1, 3, and 4
Sec. 18, Lots 7 and 9.

These lands are primarily valuable for grazing, and it is unlikely that they can be classified for disposal under the homestead, desert-land, or small tract laws.

The lands described shall be subject to application by the State of Colorado for a period of ninety days from the date of publication of this order in the FEDERAL REGISTER for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways, as provided by section 24 of the Federal Power Act, as amended.

This order shall not otherwise become effective to change the status of such land until 10:00 a. m. on the 91st day after the date of publication. At that time the above-described land in DA-328 shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Bureau of Land Management, Land and Survey Office, 437 Post Office Building, Denver, Colorado.

RALPH J. MITCHELL, *Acting Regional Administrator.*

Montana Grazing District No. 1 (Malta)

Federal Range Code for Grazing Districts; Notice of Range Improvement Fee

MARCH 24, 1954.

Pursuant to the authority delegated to me by Order No. 2583 of August 16, 1950, of the Secretary of the Interior, and in accordance with the provisions of § 161.8 (b), and note, of the Federal Range Code for Grazing Districts (43 CFR Part 161), and upon the recommendation of the District Advisory Board, notice is hereby given that for a period of three years commencing with the 1954 grazing season and terminating at the end of the 1956 grazing season, the range improvement fee per animal unit month to be charged in portions of Montana Grazing District No. 1, hereafter described, will be 15 cents per animal unit month for each month of the grazing period covered by the license or permit, i. e., at the rate of 15 cents per head per month for cattle and horses and 3 cents per head per month for sheep and goats, all animals being over six months of age.

The Federal range to which this range improvement fee will apply is described as follows:

That portion of Phillips and Blaine Counties within the following described line: Starting at the NW corner of sec. 27, T. 25 N., R. 22 E., M. P. M.; thence east on the section line to the NE corner of sec. 27; thence south on the section line to the SE corner of sec. 27; thence east along the section lines to the NE corner of sec. 36, T. 25 N., R. 22 E.; thence east along the section line to the NE corner of sec. 31, T. 25 N., R. 23 E.; thence south to the SE corner of sec. 31; thence east along the township line to the NW corner of sec. 3, T. 24 N., R. 23 E.; thence south along the section line to the SW corner of sec. 3; thence east to the SE corner of sec. 3; thence north to the NW corner of the $SW\frac{1}{4}SW\frac{1}{4}$ of sec. 2; thence east to the NE corner of the $SE\frac{1}{4}SE\frac{1}{4}$ of sec. 1, T. 24 N., R. 23 E.; thence south along the range line to the SW corner of sec. 6, T. 24 N., R. 24 E.; thence east to the SE corner of sec. 6; thence south to the SW corner of the $SW\frac{1}{4}NW\frac{1}{4}$ of sec. 8; thence east to the NE corner of the $NW\frac{1}{4}SE\frac{1}{4}$ of sec. 8; thence south to the NW corner of the $NE\frac{1}{4}NE\frac{1}{4}$; section 17; thence east to the NW corner of sec. 16; thence south along the section line to the SW corner of sec. 16; thence west to the NW corner of the $NE\frac{1}{4}NE\frac{1}{4}$, sec. 20; thence south to the SW corner of the $SE\frac{1}{4}SE\frac{1}{4}$, sec. 20; thence east to the NW corner of sec. 27; thence south to the SW corner of the $SW\frac{1}{4}NW\frac{1}{4}$, sec. 27; thence east to the SE corner of $SE\frac{1}{4}NE\frac{1}{4}$, sec. 25, T. 24 N. R. 24 E.; thence east to the SE corner of the $SE\frac{1}{4}NE\frac{1}{4}$, sec. 30, T. 24 N., R. 25 E.; thence north to the NE corner of sec. 30; thence east along the section line to the SE corner of sec. 23; thence north to NW corner of sec. 24; thence east to the NE corner, sec. 24, T. 24 N., R. 25 E.; thence south to the SW corner of sec. 19, T. 24 N., R. 26 E.; thence east to the NW corner of the $NE\frac{1}{4}NE\frac{1}{4}$, sec. 30; thence south to the SW corner of the $NE\frac{1}{4}NE\frac{1}{4}$, sec. 31; thence east to the NW corner of the $SE\frac{1}{4}NW\frac{1}{4}$, sec. 32; thence south to the SW corner of the $SE\frac{1}{4}SW\frac{1}{4}$, sec. 32, T. 24 N., R. 26 E.; thence east to the NE corner of lot 2, sec. 6, T. 23 N., R. 26 E.; thence south to the SE corner of the $SW\frac{1}{4}NE\frac{1}{4}$, sec. 7; thence west to the SW corner of the $SW\frac{1}{4}NE\frac{1}{4}$, sec. 7; thence south to the SW corner of the $SW\frac{1}{4}SE\frac{1}{4}$, sec. 7; thence west to the NE corner of the $NW\frac{1}{4}NW\frac{1}{4}$, sec. 18; thence south to the SE corner of the $SW\frac{1}{4}SW\frac{1}{4}$, sec. 18; thence east to the NE corner of the $NE\frac{1}{4}NW\frac{1}{4}$, sec. 19; thence south to the SE corner of the $NE\frac{1}{4}NW\frac{1}{4}$, sec. 19; thence east to the SE corner of the $NW\frac{1}{4}NW\frac{1}{4}$, sec. 20; thence north to the NW corner of the $NE\frac{1}{4}NW\frac{1}{4}$, sec. 20; thence east to the SE corner of the $SE\frac{1}{4}SW\frac{1}{4}$, sec. 17; thence north to the NW corner of the $NW\frac{1}{4}SE\frac{1}{4}$, sec. 17; thence east to the NW corner of the $NW\frac{1}{4}SW\frac{1}{4}$, sec. 16; thence north to the NW corner, sec. 16; thence east to the NE corner of sec. 15; thence north to the NW corner, sec. 2, T. 23 N., R. 26 E.; thence north to the SW corner, sec. 24, T. 24 N., R. 26 E.; thence west to the SW corner, sec. 22; thence north to the NW corner, sec. 3, T. 24 N., R. 26 E.; thence north to Fort Belknap Indian Reservation Boundary at the NW corner of sec. 33, T. 25 N., R. 26 E.; thence northeasterly along the reservation line to the NW corner of the $NW\frac{1}{4}NE\frac{1}{4}$, sec. 35, T. 27 N., R. 26 E.; thence east to the NE corner of sec. 36, T. 27 N., R. 26 E.; thence south to the SW corner of sec. 6, T. 26 N., R. 27 E.; thence east to the NE corner of sec. 8; thence south to the SE corner of sec. 8; thence east to the NE corner of the $NW\frac{1}{4}NW\frac{1}{4}$, sec. 15; thence south to the SE corner of the $NW\frac{1}{4}NW\frac{1}{4}$, sec. 15; thence west to the SW corner of the $NW\frac{1}{4}NW\frac{1}{4}$, sec. 15; thence south to the SE corner, sec.

28; thence west to the NW corner, sec. 32, T. 26 N., R. 27 E.; thence south to the SE corner, sec. 18, T. 25 N., R. 27 E.; thence east to the SE corner, sec. 16; thence south to the SE corner, sec. 21; thence east to the SE corner, sec. 24, T. 25 N., R. 27 E.; thence east to the NE corner, sec. 30, T. 25 N., R. 28 E.; thence south to the SE corner, sec. 31, T. 25 N., R. 28 E.; thence east to the NE corner of lot 2, sec. 5, T. 24 N., R. 28 E.; thence south to the SE corner of the SW¼SE¼, sec. 17; thence east to the NE corner of the NW¼NW¼, sec. 21; thence south to the SE corner of the SW¼SW¼, sec. 21; thence east to the NW corner, sec. 26; thence south to the NE corner of the SE¼SE¼, sec. 27; thence east to the NE corner of the SE¼SE¼, sec. 25, T. 24 N., R. 28 E.; thence south to the SW corner of lot 5, sec. 6, T. 23 N., R. 29 E.; thence east to the NE corner of the NE¼SW¼, sec. 4; thence south to the NE corner of the NE¼NW¼, sec. 16; thence west to the NW corner, sec. 16; thence south to the SW corner, sec. 16; thence east to the NE corner of the NW¼NW¼, sec. 21; thence south to the SE corner of the SW¼SW¼, sec. 21; thence west to the SW corner, sec. 21; thence north to the NE corner of the NE¼SE¼, sec. 20; thence west to the NE corner of the NE¼SE¼, sec. 19; thence north to the NE corner, sec. 19, T. 23 N., R. 29 E.; thence west to the NE corner of the NW¼NE¼, sec. 23, T. 23 N., R. 28 E.; thence south to the SW corner of the SE¼SE¼, sec. 35, T. 23 N., R. 28 E.; thence east to the NW corner, sec. 1, T. 22 N., R. 28 E.; thence south to the SW corner, sec. 1; thence west to the NW corner of the NE¼NE¼, sec. 11; thence south to the SW corner of the SE¼SE¼, sec. 11; thence east to the NE corner, sec. 14; thence south to the SW corner, sec. 13; thence east to the SE corner, sec. 13, T. 22 N., R. 28 E.; thence east to the NW corner of the NE¼NE¼, sec. 21, T. 22 N., R. 29 E.; thence south to the SW corner of the SE¼SE¼, sec. 21; thence west to the NE corner of the NW¼NW¼, sec. 30; thence south to the SE corner of the SW¼SW¼, sec. 30, T. 22 N., R. 29 E., thence west to the NE corner, sec. 36, T. 22 N., R. 28 E.; thence south to the SE corner of lot 1, sec. 1, T. 21 N., R. 28 E.; thence west to the SW corner of lot 4; thence south to the SW corner of the SW¼NW¼, sec. 1; thence west to Fort Peck Lake at the SW corner of the SE¼NW¼, sec. 2, T. 21 N., R. 28 E.; thence west up the Missouri River to the SW corner of lot 21, sec. 6, T. 23 N., R. 22 E.; thence east to the SE corner of lot 17, sec. 5; thence north to the NE corner of lot 2, sec. 5, T. 23 N., R. 22 E.; thence north to the NW corner, sec. 33, T. 24 N., R. 22 E.; thence north to the NW corner, sec. 4, T. 24 N., R. 22 E.; thence north to the NW corner, sec. 28, T. 25 N., R. 22 E.; thence east to the NW corner, sec. 27, T. 25 N., R. 22 E., the starting place.

EDWARD WOOZLEY,
Director.

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 22, 1954.

An application, serial number Idaho 04381, for the withdrawal from all forms of appropriation under the public land laws, except as noted below of the lands described below was filed on December 16, 1952, by Corps of Engineers, U. S. Army.

The purposes of the proposed withdrawal: Lucky Peak Reservoir Dam Project.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior, at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

T. 2 N., R. 3 E., B. M., Idaho,
Sec. 11, Lots 5 and 9, NW¼SW¼, SE¼SW¼;
Sec. 12, Lot 5, NE¼SE¼;
Sec. 13, NW¼;
Sec. 14, NE¼.
T. 2 N., R. 4 E., B. M.,
Sec. 4, W½W½SW¼SW¼;
Sec. 5, Lots 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11, N½SE¼, SE¼SE¼;
Sec. 6, Lots 6, 8, 9 and 10, S½S½NE¼, NW¼SE¼, S½NE¼SW¼;
Sec. 7, NE¼NE¼.
T. 3 N., R. 4 E., B. M.,
Sec. 8, NE¼NE¼, E½NW¼NE¼;
Sec. 9, S½NE¼NW¼, NW¼NW¼, W½SW¼;
Sec. 11, Lots 1, 2, 3, 4, pors. 5, 6 and 7, NW¼SW¼;
Sec. 12, Lots 1, 2, and 3, S½SW¼NW¼, W½W½SE¼SW¼, S½W½W½NE¼SW¼;
Sec. 14, Lots 2, 3, 4, 5 and 6;
Sec. 15, Lots 1, 2, 3, 7, 8 and 9;
Sec. 17, NW¼SE¼;
Sec. 21, Lots 4, 5 and 8, SE¼NW¼;
Sec. 22, N½SW¼NE¼;
Sec. 28, Lots 1, 4 and 5, NE¼NE¼, SW¼NE¼, NE¼SW¼;
Sec. 29, Lot 3;
Sec. 31, E½SE¼NE¼, E½NE¼SE¼, NE¼SE¼SE¼;
Sec. 32, Lots 1, 4, 5, 6, 8, 9 and 10.

The areas described aggregate 2650.23 acres.

Portions of the lands described are within the Boise National Forest and within Reclamation withdrawals. The proposed withdrawal order will provide that as to the lands within the National Forest, the withdrawal will take precedence, but the lands will otherwise remain subject to administration for National Forest purposes, and as to the vacant public domain lands, the withdrawal will be subject to the administration of the lands by the Bureau of Land Management for grazing purposes until such time as the lands are required in connection with the operation of the reservoir.

JAMES F. DOYLE,
Acting Regional Administrator.

Office of the Secretary

PRAIRIE ISLAND INDIAN RESERVATION

FEDERAL INDIAN LIQUOR LAWS

Pursuant to the act of August 15, 1953 (Pub. Law 277, 83d Cong., 1st Sess.), I certify that the following ordinance relating to the application of the Federal Indian liquor laws on the Prairie Island Indian Reservation was duly adopted by the Prairie Island Indian Community of Minnesota which has jurisdiction over the area of Indian country included in the resolution:

Whereas Public Law 277, 83d Congress, approved August 15, 1953, provides that sections 1154, 1156, 3113, 3488 and 3618 of title 18, United States Code, commonly referred to as the Federal Indian liquor law, shall not apply to any act or transaction within any area of Indian country provided such act or transaction is in conformity with both the laws of the State in which such act or transaction occurs and with an ordinance duly adopted by the tribe having jurisdiction over such area of Indian country, certified by the Secretary of the Interior, and published in the FEDERAL REGISTER.

Therefore, be it resolved that the introduction, sale or possession of intoxicating beverages shall be lawful within the Indian country under the jurisdiction of the Prairie Island Indian Community, provided, that such introduction, sale or possession is in conformity with the laws of Minnesota

Be it further resolved that any tribal laws, resolutions or ordinances heretofore enacted which prohibit the sale, introduction or possession of intoxicating beverages are hereby repealed.

ORME LEWIS,
Assistant Secretary of the Interior.

MARCH 25, 1954.

DEPARTMENT OF COMMERCE

Federal Maritime Board

MEMBER LINES OF GULF/MEDITERRANEAN PORTS CONFERENCE ET AL.

NOTICE OF AGREEMENTS FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. section 814.

(1) Agreement No. 134–19, between the Member Lines of the Gulf Mediterranean Ports Conference, modifies the basic agreement of that Conference (No. 134) to provide that the Executive Secretary of the Conference shall also be the Chairman and preside at all meetings, except in instances where a conference member shall be designated to serve as Chairman of the meeting.

(2) Agreement No. 140–16, between the Member Lines of the Gulf/French Atlantic Hamburg Range Freight Conference, modifies the basic agreement of that Conference (No. 140–1) to provide that the Executive Secretary of the Conference shall also be the Chairman and preside at all meetings, except in instances where a conference member shall be designated to serve as Chairman of the meeting.

(3) Agreement No. 161–19, between the Member Lines of the Gulf/United Kingdom Conference, modifies the basic agreement of that Conference (No. 161) to provide that the Executive Secretary of the Conference shall also be the Chairman and preside at all meetings, except in instances where a conference member shall be designated to serve as Chairman of the meeting.

(4) Agreement No. 5400–2, between the Member Lines of the Gulf Scandinavian and Baltic Sea Ports Conference, modifies the basic agreement of that Conference (No. 5400) to provide for the appointment of an Executive Secretary who shall also be the Chairman of the Conference and preside at all meetings of the Conference, except in instances where a member shall be designated as Chairman to preside at the meeting.

(5) Agreement No. 6400–7, between the Member Lines of the Pacific Coast River Plate Brazil Conference, modifies the basic agreement of that Conference (No. 6400) to include a provision enabling the members to establish conditions governing the payment of brokerage.

(6) Agreement No. 7780–2, between the member Lines of the Gulf South and East African Conference, modifies the basic agreement of that Conference (No. 7780) to provide for the appointment of an Executive Secretary, who shall also be the Chairman of the Conference and preside at all meetings of the Conference, except in instances where the Conference shall designate a member to serve as Chairman of the meeting.

(7) Agreement No. 7964, between Alcoa Steamship Company, Inc., and Osaka Shosen Kaisha, Ltd., covers the transportation of cargo under through bills of lading from the Philippine Islands, Hong Kong, and Japan to Puerto Rico, with transhipment at New York, Baltimore or Norfolk.

(8) Agreement No. 7971, between Black Diamond Steamship Corp., and Alcoa Steamship Company, Inc., covers the transportation of general cargo under through bills of lading from Holland, Belgium and Germany to Puerto Rico, with transhipment at New York, Baltimore or Norfolk. Agreement No. 7971 supersedes and cancels Agreement No. 7924.

(9) Agreement No. 7792–A, between Flota Mercante Grancolombiana, S. A., Compania Colombiana De Navegacion Maritima, Compania Sud Americana De Vapores, Grace Line Inc., Gulf and South American Steamship Co., Inc., Lykes Bros. Steamship Co., Inc., United Fruit Company, Rederiet Ocean a/s (J. Lauritzen, Managing Owners) and West Coast Line, Inc., has the effect of extending the terms and conditions of Agreement No. 7792 to the period from December 20, 1953, to December 31, 1953, both dates inclusive. Agreement No. 7792 provided that Flota Mercante Grancolombiana S. A. would be entitled to carry a minimum of 35 percent of the coffee moving on vessels of the parties from Colombia to New York, New Orleans and Houston and provided for compensatory payments to that line should its carryings fall below the specified minimum. Agreement No. 7792–A further provides that any payments due Flota Mercante Grancolombiana, S. A., for the additional period will be in accordance with the terms and conditions as set forth in Agreement No. 7795.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: March 26, 1954.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-6551]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

MARCH 24, 1954.

Take notice that on March 24, 1954, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Montana-Dakota Utilities Co., a corporation organized under the laws of the State of Delaware and doing business in the States of Minnesota, Montana, North Dakota, South Dakota and Wyoming, with its principal business office in Minneapolis, Minnesota, seeking an order authorizing the issuance of $10,000,000 of Promissory Notes to be due on or before June 1, 1955 and to bear interest at the prime commercial bank rate or rates in effect at the date or dates of their respective issue. Applicant proposes to issue said notes payable to the National City Bank of New York, dated as of the dates of their respective issue, due not more than one year after the dates of their respective issue. The Northwestern National Bank of Minneapolis will have a 25 percent participation in each note and the First National Bank of Minneapolis will have a 15 percent participation in each note; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application, should on or before the 14th day of April 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2250; Filed, Mar. 30, 1954; 8:47 a. m.]

[Projects Nos. 1971, 2132, 2133]

IDAHO POWER CO.

ORDER UPON MOTION APPEALING PRESIDING EXAMINER'S RULING ON RECESS

Upon motion made by counsel for Lewis County Public Utility District, et al., interveners in these proceedings for a recess of the public hearing until May 10, 1954, the Presiding Examiner on March 5, 1954, recessed the hearing to reconvene on April 7, 1954.

On March 9, 1954, counsel for Lewis County Public Utility District, et al., interveners, filed a motion appealing the Presiding Examiner's ruling upon the motion for recess. In the motion the interveners requested that the Commission order a recess of two months beginning from the date of such order and set forth reasons in support of the motion.

The Commission finds: It is not inconsistent with the public interest to extend the recess granted by the Presiding Examiner as hereinafter provided.

The Commission orders: The public hearing in the above-designated matters, which was recessed by the Presiding Examiner on March 5, 1954, to reconvene on April 7, 1954, shall reconvene at 10:00 a. m. on May 10, 1954, in the Hearing Room of the Commission at 441 G Street NW., Washington, D. C.

Adopted: March 24, 1954.

Issued: March 25, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2251; Filed, Mar. 30, 1954; 8:47 a. m.]

[Docket Nos. G-2306, G-2311, G-2327, G-2328]

AMERICAN LOUISIANA PIPE LINE CO. ET AL.

ORDER EXTENDING PERIOD OF RECESS ALLOWED BY PRESIDING EXAMINER

In the matters of American Louisiana Pipe Line Company, Docket No. G-2306; Texas Gas Transmission Corporation, Docket No. G-2311; Michigan-Wisconsin Pipe Line Company, Docket No. G-2327; Michigan Consolidated Gas Company, Docket No. G-2328.

The Examiner presiding at the hearing in the above-docketed matters on March 15, 1954, upon completion of the taking of direct testimony concerning the matters and issues as limited by the Commission's order issued February 8, 1954, adjourned such hearing until March 29, 1954, for the purpose of permitting preparation of cross-examination. Prior to such adjournment, Staff Counsel had moved on the record that the hearing be adjourned to April 19, 1954. This motion was denied by the Presiding Examiner.

Staff Counsel, on March 16, 1954, filed with the Commission a motion for an extension of the period of the recess and appeal from the ruling of the Presiding Examiner denying the motion made upon the record for an adjournment to April 19, 1954. Concurrences in Staff Coun-

sel's motion and appeal have been filed by Panhandle Eastern Pipe Line Company and, jointly, by National Coal Association, United Mine Workers of America, Fuels Research Council, Inc., Anthracite Institute and Chesapeake and Ohio Railway Company. Answers and objections to the aforesaid motion and appeal have been filed by Milwaukee Gas Light Company, Wisconsin Natural Gas Company and Wisconsin Michigan Power Company (jointly), and American Louisiana Pipe Line Company, Michigan-Wisconsin Pipe Line Company and Michigan Consolidated Gas Company (jointly).

Upon consideration of the motion and appeal of Staff Counsel, the concurrences therein and the answers and objections thereto, the Commission finds that good cause exists for extending the period of the adjournment of the hearing to April 12, 1954.

The Commission orders:

(A) The ruling of the Presiding Examiner made on March 15, 1954, adjourning the hearing in the above-styled matters until March 29, 1954, be and the same is hereby vacated.

(B) The hearing in these proceedings be reconvened on April 12, 1954, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

Adopted: March 24, 1954.

Issued: March 25, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-2252; Filed, Mar. 30, 1954; 8:47 a. m.]

[Docket No. G-1915]

SOUTH GEORGIA NATURAL GAS CO.

ORDER POSTPONING HEARING

The Commission, upon consideration of the record and pleadings in this matter, issued its order on November 13, 1953, reopening these proceedings to permit each of the parties to introduce further evidence on all issues respecting South Georgia Natural Gas Company's (South Georgia) application for a certificate of public convenience and necessity. In its order the Commission directed that the reopened proceedings commence on January 18, 1954.

By order issued December 18, 1953, the Commission granted South Georgia's motion for continuance of the reopened proceeding until March 29, 1964

On March 11, 1954, South Georgia filed a second motion requesting further continuance of this proceeding until May 17, 1954, or such other date as the Commission may consider appropriate, and extension of date for serving copies of its testimony and exhibits until May 3, 1954.

South Georgia avers that it needs additional time to prepare its final estimates and data. It also indicates that its presentation of evidence in the reopened proceedings may relate to substantial changes in operations, facilities and customers, not included in the original application and hearings. However, no amendment to the existing application has been filed.

The Commission finds: It is appropriate that a continuance of hearing in this reopened proceeding be granted as hereinafter provided.

The Commission orders:

(A) The hearing in this proceeding, reopened by our order issued November 13, 1953, be convened on May 24, 1954, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C.: *Provided however*, That South Georgia's evidence of record in that reopened proceeding shall constitute a full and complete presentation of all pertinent facts and data necessary for a determination of its application.

(B) South Georgia, on or before May 3, 1954, shall serve upon all parties copies of the testimony and exhibits it proposes to offer at the reopened proceedings, including five (5) copies upon Commission Staff Counsel: *Provided*, That, to the extent that South Georgia relies on oral testimony, exhibits and other matter heretofore received in this docket or in any connected proceeding as relevant and material to the reopened proceeding, it shall specify with particularity such oral testimony, exhibits and other matters.

(C) In all other respects the order issued November 13, 1953, in this matter, shall remain in full force and effect.

Adopted: March 24, 1954.

Issued: March 25, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-2350]

SOUTHERN NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application, filed January 13, 1954, and supplement thereto filed January 20, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities, insofar as the interstate operation thereof is concerned, as described in said application, be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on January 29, 1954 (19 F. R. 520-521).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 19, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D .C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: March 24, 1954.

Issued: March 25, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-2369]

IROQUOIS GAS CORP.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application, filed February 12, 1954, pursuant to section 7 of the Natural Gas Act, to construct and operate certain transmission facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on February 27, 1954 (19 F. R. 1132).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 19, 1954, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: March 24, 1954.

Issued: March 25, 1954.

By the Commission.

FEDERAL TRADE COMMISSION

[File No. 21-461]

CORSET, BRASSIERE, AND ALLIED PRODUCTS INDUSTRY

NOTICE OF HOLDING OF TRADE PRACTICE CONFERENCE

In the matter of trade practice conference proceedings for the Corset, Brassiere, and Allied Products Industry; File No. 21-461.

Notice is hereby given that a trade practice conference for the Corset, Brassiere, and Allied Products Industry will be held by the Federal Trade Commission in the Hotel New Yorker, Eighth Avenue and Thirty-fourth Street, New York City, on April 22, 1954, commencing at 10 a. m., e. s. t.

The purpose of the conference is to afford all industry members an opportunity to propose, consider, and recommend for Commission approval a comprehensive set of trade practice rules for the industry. Such rules are to be directed to the elimination and prevention of unfair methods of competition and other unlawful trade practices or abuses within the jurisdiction of the Commission, and to the maintenance of high standards of fair competition for protection of the industry and the public.

Products of the industry covered under the rules are corsets, brassieres, girdles, combinations, garter belts, bust pads, and related foundation garments. All persons, firms, corporations, and organizations engaged in the importation, production, and marketing at all levels of distribution of the industry products are cordially invited to attend and participate in the scheduled trade practice conference.

By direction of the Commission.

Issued: March 26, 1954.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 70-3127, 70-3128]

DUQUESNE LIGHT CO. AND STANDARD POWER AND LIGHT CORP.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO FEES AND EXPENSES OF COUNSEL AND ACCOUNTANTS

MARCH 25, 1954.

In the matter of Duquesne Light Company, File No. 70-3127; Standard Power and Light Corporation, File No. 70-3128.

The Commission by orders dated September 8, 1953 and November 30, 1953, having granted and permitted to become effective amended applications-declarations filed pursuant to the Public Utility Holding Company Act of 1935 ("act") by Duquesne Light Company, a public utility subsidiary of Standard Gas and Electric Company and Standard Power and Light Corporation, both registered holding companies, and by Standard Power, regarding (a) the issue and sale by Duquesne, pursuant to Rule U-50, of 150,000 additional shares of Common Stock, par value $10 per share; 100,000 shares of 4.20 percent Preferred Stock, par value $50 per share; and $12,000,000 principal amount of 3⅝ Percent First Mortgage Bonds, Series due September 1, 1983; and (b) the sale by Standard Power, pursuant to Rule U-50, of 34,739 shares of the outstanding Common Stock of Duquesne, owned by Standard Power, simultaneously with the proposed sale by Duquesne of additional shares of its Common Stock;

The Commission in its aforesaid orders dated September 8, 1953, and November 30, 1953, having reserved jurisdiction over, among other things, all fees and expenses incurred in connection with the issue and sale of said common stock, preferred stock, and bonds;

The Commission in its orders dated November 13, 1953, and January 29, 1954, having released jurisdiction with respect to the aforesaid fees and expenses, other than fees and expenses for accounting and legal services;

The record now having been completed with respect to the fees and expenses for accounting and legal services incurred in connection with the issue and sale of the securities hereinbefore described, and it appearing that the fees and expenses to be paid by Standard Power aggregate $2,982, including a counsel fee of $2,500 payable to Reed, Smith, Shaw & McClay, plus expenses of $237, and an accountant's fee, inclusive of expenses, of $245 payable to Haskins & Sells; it further appearing that the fees and expenses to be paid by Duquesne aggregate $36,144, including a counsel fee to Reed, Smith, Shaw, & McClay of $26,000 plus expenses of $4,312 and an accountant's fee, inclusive of expenses, of $5,832 payable to Haskins & Sells; and it further appearing that the fee and expenses of counsel for the underwriters amount to $19,500 and $1,825.50, respectively, and are payable by the purchasers of such securities to Cahill, Gordon, Zachry & Reindel;

It appearing to the Commission that said accounting and legal fees and expenses are not unreasonable, and that the jurisdiction heretofore reserved with respect thereto should be released:

It is ordered, That the jurisdiction heretofore reserved with respect to accounting and legal fees and expenses be, and the same hereby is, released, effective forthwith.

By the Commission.

[File No. 70-3167]

CITIES SERVICE CO. ET AL.

ORDER CONSENTING TO WITHDRAWAL OF APPLICATION-DECLARATION

MARCH 25, 1954.

In the matter of Cities Service Company, the Gas Service Company, Gas Advisers, Inc., File No. 70-3167.

Cities Service Company, a registered holding company, and its subsidiaries, the Gas Service Company and Gas Advisers, Inc., having filed an application-declaration which, as amended, proposed, among other things, the sale by Cities Service Company of 1,500,000 shares of the capital stock of the Gas Service Company, being all of the shares of such stock outstanding, to Missouri Public Service Company pursuant to a contract entered into as a result of private negotiation; and

Applicants-declarants having now requested that said application-declaration be withdrawn, stating that the contract with Missouri Public Service Company expired on February 25, 1954, that Cities Service Company desires to proceed with the sale of the stock of the Gas Service Company pursuant to the competitive bidding requirements of Rule U-50, and is concurrently filing a new application-declaration requesting, among other things, an order which would permit Cities Service Company to sell at competitive bidding such shares to underwriters for public offering:

It is ordered, That said application-declaration be, and the same hereby is, considered as withdrawn.

By the Commission.

[File No. 70-3213]

NORTHERN PENNSYLVANIA POWER CO.

ORDER GRANTING AUTHORITY TO ISSUE SHORT-TERM NOTES IN EXCESS OF FIVE PERCENT LIMITATION

MARCH 25, 1954.

Northern Pennsylvania Power Company ("Applicant"), an electric utility subsidiary of General Public Utilities Corporation, a registered holding company, having filed an application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act"), regarding a proposed transaction, which is summarized as follows:

Applicant proposes to issue and sell to one or more commercial banks its unsecured promissory notes in an aggregate principal amount outstanding at any one time (including notes issued to refund the unsecured promissory notes of the company now outstanding in the aggregate principal amount of $1,100,000) of not to exceed $2,000,000. Such notes will be issued from time to time but no such note will be issued later than December 31, 1954. Each such note will mature not more than nine months after the issue thereof. The prime interest rate for commercial borrowing at the date of the application was 3¼ percent per annum. The interest rate to be borne by each note issued will be the interest rate which is the prime interest rate for commercial borrowing at the time of the issue of such note.

Proceeds of the notes will be used for construction purposes or to repay notes issued for such purposes or to reimburse

the company's treasury for construction expenditures.

It is stated that no State or Federal Commission, other than this Commission, has jurisdiction over the proposed transactions.

Applicant's expenses, including legal fees, are estimated at $100.

It is requested that the Commission's order be made effective upon issuance.

Due notice having been given of the filing of the application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that the application should be granted:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said application be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

HOUSING AND HOME FINANCE AGENCY

Federal Housing Administration

2¾ PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES E

NOTICE OF CALL FOR PARTIAL REDEMPTION BEFORE MATURITY

MARCH 29, 1954.

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U. S. C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2¾ percent Mutual Mortgage Insurance Fund Debentures, Series E, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on July 1, 1954, on which date interest on such debentures shall cease:

2¾ PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES E

Denomination:	Serial numbers (all numbers inclusive)
$50	327 to 934
$100	1,293 to 1,527
	2,101 to 2,495
$500	383 to 606
	649 to 651
$1,000	1,099 to 1,288
	2,150 to 2,440
$5,000	493 to 678
	805 to 806
$10,000	138 to 177

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after April 1, 1954. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after April 1, 1954, and provision will be made for the payment of final interest due on July 1, 1954, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from April 1, 1954 to June 30, 1954, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after July 1, 1954, or for purchase prior to that date will be given by the Secretary of the Treasury.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from April 1, 1954 to June 30, 1954, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after July 1, 1954, or for purchase prior to that date will be given by the Secretary of the Treasury.

GUY T. O. HOLLYDAY, *Commissioner.*

Approved: March 29, 1954.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29048]

SUGAR FROM CALIFORNIA TO EAST ST. LOUIS, ILL.

APPLICATION FOR RELIEF

MARCH 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Sugar, beet or cane, carloads.

From: Points in California.

To: East St. Louis, Ill.

Grounds for relief: Rail competition, circuity, market competition, and to maintain grouping.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. 1561, supp. 8.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing,

upon a request filed within that period, may be held subsequently.

By the Commission.

BOARDS, WALL OR INSULATING, FROM PENSACOLA, FLA., TO DOTHAN, ALA.

APPLICATION FOR RELIEF

MARCH 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Atlantic Coast Line Railroad Company and Louisville and Nashville Railroad Company.

Commodities involved: Boards, wall or insulating, viz.: fibreboard, pulpboard or strawboard, etc., carloads.

From: Pensacola, Fla.

To: Dothan, Ala.

Grounds for relief: Competition with rail carriers, circuitous routes and additional route.

Schedules filed containing proposed rates: W. P. Emerson, Jr., Agent, I. C. C. No. 418, supp. 31.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

CAUSTIC SODA FROM BATON ROUGE AND NORTH BATON ROUGE, LA., TO BOGALUSA, LA.

APPLICATION FOR RELIEF

MARCH 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Caustic soda, liquid, in tank-car loads.

From: Baton Rouge and North Baton Rouge, La.

To: Bogalusa, La.

Grounds for relief: Competition with rail carriers, competition with motor carriers and to meet intrastate rates.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1400, supp. 15.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

Green civil airways 1791, 2228, 2489
Red civil airways 1791, 2229, 2490
Direct routes; United States 1792
VOR civil airways 1792, 2230, 2241, 2491
Approach procedures, instrument, standard (including ceiling and visibility minimums for take-off and landing at particular airports):
Automatic direction finding procedures 1870
1923, 2058, 2123, 2311, 2346, 2466
Ground controlled approach procedures 1875
1926, 2061, 2127, 2350
Instrument landing system procedures 1871,
1925, 2059, 2124, 2312, 2348, 2466
Radio range:
High frequency range procedures 2311
Low frequency range procedures 1867
1922, 2057, 2122, 2309, 2344, 2464
Very high frequency omnirange procedures 1876
1877, 2060, 2126, 2314, 2350, 2467, 2468
Organization and functions; revision 2098
Air Navigation Development Board 2107
Field offices, functions and locations of 2100
Introduction 2098
Organization and functions 2098
Security control of air traffic; certain flights entering United States from Canada, redesignation of ADIZ boundaries and exceptions for 2012

CIVIL AERONAUTICS BOARD:
Accidents, aircraft, and overdue aircraft:
Delegation of certain accident investigation functions to Administrator of Civil Aeronautics 2133
Investigation of accidents occurring at or near certain cities, etc.:
Midland, Texas 2132
Wright, Wyoming 2132, 2504
Air agencies; certificates and ratings. *See* Certificates and ratings.
Air carriers:
Accidents, aircraft, and overdue aircraft, investigation of. *See* Accidents.
Irregular. *See* Irregular air carrier and off-route rules.
Scheduled. *See* Scheduled air carriers.
Air traffic rules:
Definitions:
Airspace reservation 1796
Over-the-top 2096
Prohibited area 1796
Restricted area 1796
General flight rules (GFR):
Avoidance of prohibited and restricted areas 1796
Designation of restricted areas 1796
High density air traffic zone, experimental, in Washington, D. C. area; authority respecting, proposed special regulation 2430
Visual flight rules (VFR); ceiling and distance from clouds, over-the-top flight 2096
Airmen; certificates and ratings. *See* Certificates and ratings.
Airplane airworthiness. *See* Airworthiness.

CIVIL AERONAUTICS BOARD—Continued Page

Airworthiness; requirements for various types of aircraft or equipment:
Aircraft equipment:
Engine
Applicability, editorial changes 2253
Certification:
Applicable regulations, designation and recording of 2253
Type certificate 2253
Type design, changes in 2253
Turbine engines, block tests; endurance test 2253
Propeller:
Airworthiness, design and construction, reversible propellers 2254
Applicability, editorial changes 2254
Certification:
Applicable regulations; designation and recording of 2254
Type certificate 2254
Type design, changes in 2254
Aircraft other than airplanes. *See* Glider airworthiness, *and* Rotorcraft airworthiness.
Airplane:
Acrobatic category airplane. *See* Normal, utility, and acrobatic categories.
Normal, utility, and acrobatic categories:
Applicability, editorial changes 2248
Certification:
Applicable regulations; designation and recording of 2248
Type certificate 2248, 2249
Type design, changes in 2249
Design and construction; emergency provisions, fire precautions, for combustion heaters 2249
Equipment, lights; flashing rates of position lights 2201
Restricted category aircraft, miscellaneous interpretations and policies, editorial changes 1791
Transport categories:
Applicability, editorial changes 2249
Certification:
Applicable regulations; designation and recording of 2249, 2250
Propeller feathering installations, automatic, approval of 1817
Type certificate 2250
Type design, changes in 2250
Design and construction:
Emergency provisions; emergency evacuation, editorial changes 2250
Personnel accommodations:
Controls, editorial changes 2250
Pilots compartment 2250
Equipment:
Equipment, systems, and installations; power supply 2250
Powerplant instruments, editorial changes 2250
Flight; performance:
Accelerate—stop distance, approval of automatic propeller feathering installations for use in establishing 1818
Engine power corrections 1817
Flaps in take-off position climb, approval of automatic propeller feathering installations for use in establishing 1818
Landings, downwind 1818
Take-off path, approval of automatic propeller feathering installations for use in establishing 1818
Operating limitations and information, automatic propeller feathering 1818
Powerplant installation:
Engines, approval of automatic propeller feathering system 1818
Propeller reversing system 2250
Trust Territory of the Pacific Islands, operation of airplanes by Transocean Air Lines in, waiver of certain provisions respecting three Grumman SA 16A airplanes owned by Interior Department (SR-403) 1917
Utility category airplanes. *See* Normal, utility, and acrobatic categories.

CIVIL AERONAUTICS BOARD—Continued Page

Airworthiness; requirements for various types of aircraft or equipment—Continued
- Glider airworthiness:
  - Applicability, editorial changes 2250
  - Certification:
    - Applicable regulations; designation and recording of 2251
    - Type certificate 2251
    - Type design, changes in 2251
- Rotorcraft airworthiness:
  - Applicability, editorial changes 2252
  - Certification:
    - Applicable regulations; designation and recording of 2252
    - Type certificates 2252
    - Type design, changes in 2252
  - Equipment, lights; flashing rates for position lights 2301
  - Flight, general; rotor limitations and pitch settings 2252
  - Powerplant installation; rotor drive system and control mechanism endurance tests 2252

Certificates and ratings:
- Air agencies (schools, etc.):
  - Airman agency (ground schools and flying schools) certificates:
    - Certificate; application, duration, etc.; revision 2448
    - Curriculum changes; revision 2449
    - Flying school requirements and curriculum; revision 2444, 2463
    - Graduation certificates; revision 2449
    - Ground school and curriculum; revision 2443
    - Inspection; revision 2449
    - Location, change of; revision 2449
    - Maintenance of certificating qualifications; revision 2449
    - Quality of instructions; revision 2449
    - Records; revision 2449
    - Student examinations; revision 2449
  - Repair station (domestic) certificates; penetrant type inspection procedures 2519
- Airmen; pilot certificates:
  - Aircraft rating competence 2387
  - Certification rules; application for, knowledge, identification card, etc 2389
  - Commercial pilot rating; physical standards, knowledge, experience, skill, etc 2386
  - Examinations, physical, flight tests, etc 2390
  - Flight instructor rating for powered aircraft 2387
  - Instrument ratings 2388
  - Pilot certificate and ratings; issuance, experience requirements, physical standards, etc 2385
  - Private pilot rating; language limitations, physical standards, etc 2385
  - Student pilot certificate; age, physical standards, etc 2385

Certification, identification, and marking of aircraft and related products; type certificates, production inspection system 2454

Equipment, aircraft:
- Airworthiness requirements. *See* Airworthiness.
- Maintenance, repair, and alteration. *See* Maintenance, repair, and alteration.

Glider airworthiness. *See* Airworthiness.

Hearings, investigations, etc.:
- Accident, aircraft, and missing aircraft; investigations. *See* Accidents.
- Companies and cases, list of, *see list at end of this agency.*

Irregular air carrier and off-route rules:
- C-46 type aircraft used in carriage of passenger for remuneration or hire; weight limitations, extension of date for application of transport category performance requirements (SR-391C) 1920
- Nontransport category airplanes used in passenger operations to be certificated in transport category, extension of date requiring 1920
- Operating limitations for large passenger-carrying airplanes:
  - Aircraft not certificated in transport category; en route limitations on multi-engine aircraft with maximum allowable take-off weights below 12,500 pounds 2051
  - Beech AT-11 aircraft, proposed rule making 2095

CIVIL AERONAUTICS BOARD—Continued Page

Irregular air carrier and off-route rules—Continued
- Operating limitations for large passenger-carrying airplanes—Continued
  - Transport category airplanes:
    - Deviations, data, temperature accountability, etc 2168
    - En route limitations:
      - Two engines inoperative 2255
      - Where special air navigational facilities exist 2170
    - Landing distance limitations, airport of destination 2170
    - Take-off limitations to provide for engine failure 2169
    - Weight limitations 2168
- Resort Airlines, Inc; special authorization, extension of, proposed 2317
- Trust Territory of the Pacific, operation of airplanes by Transocean Air Lines in; waiver of certain provisions respecting three Grumman SA 16A airplanes owned by Interior Department (SR-403) 1917

Maintenance, repair, and alteration of airframes, powerplants, propellers, and appliances; performance rules, for bolts, screws, and miscellaneous fasteners 1950

Repair of airframes, powerplants, propellers, etc. *See* Maintenance, repair, and alteration

Rotorcraft airworthiness. *See* Airworthiness.

Scheduled air carriers:
- Interstate air carrier certification and operation rules:
  - Airmen regulations:
    - Airmen and crew member, proposed rule making 1933
    - Flight crew and dispatcher, proposed rule making 1935
    - Training program, proposed rule making 1933
  - Airplane performance operating limitations, transport category; en route limitations, two engines inoperative 2251
  - Instruments and equipment, all operations; chop marks on airplane exteriors, extension of effective date of requirement for 1920
  - Manual requirements; contents of manual, procedures for continuance of flight with inoperative and unserviceable equipment, deletion 1950
- Operations outside continental limits of United States:
  - Pan American Grace Airways, Inc., special authorization respecting pilot flight time limitations for certain flights, special regulation, proposed 2129
- Passenger operation rules:
  - Aircraft requirements; en route limitations, airplane with four or more engines, two engines inoperative 2255
  - Operations manual, copies of 2441
- Resort Airlines, Inc.; special authorization, extension of, proposed 2317

Hearings, investigations, etc.:
- Aero Finance Corp 1964
- Air America, Inc 2132
- Air America Agency, Inc 2132

CIVIL DEFENSE PRE-EMERGENCY TRAINING PROGRAMS, State and local, participation in by Government employees (Executive Order 10529) 2397

CIVIL SERVICE COMMISSION:

Appointment to positions excepted from competitive service. *See* Exceptions from competitive service

Civil defense pre-emergency training programs, State and local, compensation and travel allowances for Government employees participating in (Executive Order 10529) 2397

Exceptions from competitive service, Civil Service Rule VI:
- Schedule A; positions other than confidential or policy-determining for which examination is not practicable:
  - Agencies with positions added to Schedule A:
    - Agriculture Department 2461
    - Farmers Home Administration 2461
    - Federal Communications Commission 2137
    - Health, Education, and Welfare 1945
    - Public Health Service 1945
    - Securities and Exchange Commission 1945
    - Veterans' Administration 1810
    - War Claims Commission 2384
  - Agencies with positions removed from Schedule A:
    - Central Intelligence Agency 2402
    - Civil Aeronautics Board 1787
    - Executive Office of President 2402
    - Federal Communications Commission 2137
    - Freedmen's Hospital 1945
    - Health, Education, and Welfare Department 1945, 2461
    - Home Loan Bank Board 2384
    - Housing and Home Finance Agency 2384
    - Immigration and Naturalization Service 2402
    - Justice Department 2402
    - National Capital Park and Planning Commission 2402
    - National Security Council 2402
    - President's Committee on Religious and Moral Welfare and Character Guidance in Armed Forces 2402
    - Public Health Service 1945
    - Securities and Exchange Commission 1945
    - Tax Court of United States 1810
    - Treasury Department 1928
- Schedule B, positions other than confidential or policy-determining for which competitive examination is not practicable; agency with positions removed from Schedule B, Justice Department 2402
- Schedule C; confidential or policy-determining positions:
  - Agencies with positions added to Schedule C:
    - Air Force Department 2505
    - Army Department 1945, 2115
    - Bonneville Power Administration 2051
    - Business and Defense Services Administration 1947
    - Commerce Department 1947, 2461
    - Education, Office of 2245
    - Farm Credit Administration 2115
    - Federal Communications Commission 2137
    - Foreign Commerce Bureau 2461
    - Foreign Operations Administration 1947

CIVIL SERVICE COMMISSION—Continued Page

Exceptions from competitive service, Civil Service Rule VI—Continued
- Schedule C; confidential or policy-determining positions—Continued
  - Agencies with positions added to Schedule C—Continued
    - Health, Education and Welfare Department 2245, 2461
    - Home Loan Bank Board 2384

    - Census Bureau 1945
    - Coast and Geodetic Survey 1945
    - Commerce Department 1945
    - Maritime Administration 1945

Foreign and territorial duty of Federal personnel, territorial post differentials and cost-of-living allowances:
- Cost-of-living allowances; Puerto Rico and Virgin Islands, 25 percent 1861
- Post differentials; Puerto Rico and Virgin Islands, revocation 1861

Hospitals, Government:
- Exclusion from provisions of Federal Employees Pay Act and Classification Act:
  - Medical intern, student (clinical clerk); Army Department 2462
  - Medical therapy student positions, auxiliary; Health, Education and Welfare Department 2402
- Stipends, maximum:
  - Medical intern, student (clinical clerk); Army Department 2463
  - Medical resident, Glenn Dale Hospital, Government of District of Columbia 2221
  - Medical therapy student positions, auxiliary; Health, Education and Welfare Department 2402
  - Nurse, student; Government of District of Columbia 2221

Pay regulations:
- Civil defense pre-emergency training programs, State and local, compensation and travel allowances for Government employees participating in (Executive Order 10529) 2397

Government hospitals, stipends for trainees. *See* Hospitals, Government.

Territorial duty of Federal personnel. *See* Foreign and territorial duty of Federal personnel.

Training programs, civil defense pre-emergency. *See* Civil defense pre-emergency training programs.

COAST GUARD:

Cadets, Coast Guard. *See* Coast Guard military personnel.

Coast Guard military personnel; Coast Guard cadets, physical standards (hearing) 2259

Explosives or other dangerous articles or substances and combustible liquids on board vessels, transportation or stowage; military explosives on board vessels, detailed regulations regarding 1975

Comparison of old section numbers with new section numbers 1977

Military explosives, transportation or stowage on board vessels. *See* Explosives.

Military personnel. *See* Coast Guard military personnel.

Procurement regulations; procedures for purchasing, general provisions:
- Exchange of materials:
  - Applying proceeds of sale to purchase of replacement; revocation 2141
  - Funds, availability of; revocation 2141
  - Personal property, exchange or sale of, and application of proceeds to purchase of similar items 2140

COAST GUARD—Continued — Page
Procurement regulations; procedures for purchasing, general provisions—Continued
Special procurement instructions for designated items (office labor-saving devices, new electric fans, new refrigerators, new water coolers, gasoline and lubricating oil) 2141

COMMERCE DEPARTMENT:
See Business and Defense Services Administration.

Civil Aeronautics Board.
Foreign Commerce Bureau.
Maritime Administration.
Maritime Board, Federal.
Public Roads Bureau.
Appeals Board; case involving suspension of export license privileges of Oscar Brunoni 2033
Charges for certifications or validations and affixing Department seal 1909

COMMITTEES:
Hearing Officers Committee; hearing respecting appointment and status of hearing officers 2396
Senate committee authorized to inspect tax returns. *See* Internal Revenue Service.
Special Livestock Loan Committees, temporary. *See* Agriculture Department.

COMMODITY CREDIT CORPORATION:
Barley:
Loan and purchase agreement program, 1954; warehouse charges 2337
Reseal loan program, 1953 crop 2071
Butterfat. *See* Dairy products.
Corn, price support program, 1954; definition of underplanted corn acreage 1812
Dairy products; price support program for milk and butterfat (April 1, 1954–March 31, 1955) 2383
Flaxseed; reseal loan program, 1953 crop 2078
Food commodities acquired through price support operations, disposal of; sales of certain commodities at fixed prices, 1954:
Domestic price list; April 2195, 2378
Export price list; April 2195, 2378
Grain sorghums; price support program, 1954 2117, 2203
Gum. *See* Naval stores.
Honey; price support program, 1954 1863
Milk. *See* Dairy products.
Naval stores, gum; price support loan program, 1954 1926
Oats:
Loan and purchase agreement program, 1954; warehouse charges 2337
Reseal loan program, 1953 crop 2075
Rye:
Loan and purchase agreement program, 1954 1810
Reseal loan program, 1953 crop 2077
Tobacco; loan program, 1953, Maryland tobacco, type 32, advance schedule 2121
Wheat; reseal loan program, 1953 crop 2074
Wool, price support program, 1953; wool handler's nonrecourse loan notes maturing April 30, 1954, notice of final date for redemption of shorn wool under program 2503

COMMODITY STABILIZATION SERVICE. *See* Agriculture Department.

CONTRACT SETTLEMENT OFFICE (former); regulations respecting preservation of contract records. *See* General Services Administration.

CUSTOMS BUREAU:
Air commerce regulations; documents for entry, crew and passenger manifests 2257
Asphalt sheets and ebon putty; prospective change in tariff classification 2145
Customs warehouses and control of merchandise therein; classes of customs warehouses, correction 2203
Great Britain, silk and silk articles imported from; countervailing duties 2405
Liquidation of duties:
Classification, asphalt sheets and ebon putty; prospective change in tariff classification 2145
Countervailing duties for certain articles; Great Britain, silk and silk articles 2405
Rye, rye flour, and rye meal, import quota on (Proclamation 3048) 1807

CUSTOMS BUREAU—Continued — Page
Silk and silk articles imported from Great Britain; countervailing duties 2405
Vessels in foreign and domestic trades:
Arrival and entry of vessels, request for overtime services 1820
Landing and delivery of cargo:
Lay order may permit merchandise to remain on pier beyond fifth working day 1820
Permits and special licenses for unlading and lading; request for overtime services 1820

D

DEFENSE DEPARTMENT:
See Air Force Department.
Army Department.
Navy Department.
Authority, delegations of, by Secretary:
To Assistant Secretary of Defense for Properties and Installations; application of certain statutory limitations on unit costs for construction of warehousing, barracks and bachelor officer quarters 2522
To Secretaries of Army, Navy, and Air Force:
Active service, authority to order members and units of reserve components into; expiration of prior orders respecting 2522
Claims against United States under section 517 of Mutual Security Act of 1951, settlement of 2523
To Secretary of Army; settlement of claims arising from activities in United States, its territories and possessions of forces and civilian components of other NATO nations 2236
Claims against United States, authority respecting settlement of. *See* Authority.
Construction, certain, authority delegation of Assistant Secretary respecting. *See* Authority.
Industrial security manual for safeguarding classified information. *See* Security.
Information, classified, safeguarding of. *See* Security.
NATO nations, forces and civilian components of; authority delegation to Secretary of Army respecting settlement of claims arising from activities in United States, its territories and possessions. 2236
School-construction assistance in areas affected by Federal activities; information regarding in-migration of military personnel to be furnished Secretary of Labor in connection with (Executive Order 10524) 1809
Security, industrial; manual for safeguarding classified information 2205
Access 2209
Control of areas 2209
Cryptographic information 2210
General; scope, definitions, etc 2205
Graphic arts 2211
Handling of classified information 2207
Subcontractors, vendors, and suppliers 2210
Visitors 2210

DEFENSE MINERALS EXPLORATION ADMINISTRATION:
Authority, delegation of, by Secretary of Interior:
Acting Administrator, designation of certain officials to serve as 2503
Defense functions relating to metals and minerals, authority of Director relating to 2503

DEFENSE MOBILIZATION, OFFICE OF:
Expansion goals, issuance of accelerated tax amortization certificates under section 124A of Internal Revenue Code in connection with; areas of production:
List I, closed areas for which no certificates will be issued; nitrogen, addition 1929
List III, open areas for which certificates will be issued; nitrogen, deletion 1929
School-construction assistance in areas affected by Federal activities; recommendations respecting to be made by Director (Executive Order 10524) 1809
Voluntary plans, agreements, programs, and participating companies in connection with defense production; foreign petroleum supply 2278

DEFENSE SOLID FUELS ADMINISTRATION: — Page
Authority, delegation of, from Secretary of Interior:
Acting Administrator; designation of Industrial Specialist (Industry Finance) to serve as 2503
Defense functions relating to solid fuels, authority relating to 2503

E

EDUCATION, OFFICE OF:
Construction of schools and school facilities in areas affected by Federal activities; deficiency of appropriations and filing dates:
Determination made for fiscal year 1955 of insufficiency of available funds 2212
Final date for filing applications 2212

EMPLOYMENT SECURITY BUREAU:
Authority, delegation of, from Assistant Secretary of Labor for Employment and Manpower to Director respecting certain functions relating to immigrant labor 2109
Redelegation to Assistant Director 2109

ENGINEERS, CORPS OF; DEPARTMENT OF THE ARMY:
Bridge regulations:
New York, Tonawanda Inner Harbor (Little River); New York Central Railroad Company bridge 2211
Virginia, Chesapeake Bay, waterways discharging into; Nansemond River, Western Branch, Department of Highways bridge at Reid's Ferry 2143
Fees for licensing and related activities, revised schedule 2236
Navigation regulations:
Minnesota; Duluth-Superior Harbor, bridge regulations 2351
Virginia, Elizabeth River, Southern Branch; naval restricted areas 2232
Wisconsin; Duluth-Superior Harbor, bridge regulations 2351

F

FARMER COOPERATIVE SERVICE. *See* Agriculture Department.

FARMERS HOME ADMINISTRATION:
Farm ownership loans, basic regulations; loan limitations, average values of farms and investment limits for purposes of Title I of Bankhead-Jones Farm Tenant Act:
California 2115
Delaware 2115
Florida 2115
Idaho 2115
Kansas 2115
Nebraska 2116
New Jersey 2117
Puerto Rico 2441
Vermont 2116
Virgin Islands 2117
Virginia 2116

FEDERAL CIVIL DEFENSE ADMINISTRATION:
Authority, delegation of, to Secretary of Agriculture to certify certain political subdivisions in areas determined to be major disaster areas under Public Law 875, 81st Congress 2148
Organizational statement:
See also Authority.
Functions of Administrator respecting major disasters 2108
Organization, central and field 2108
Pre-emergency training programs, State and local, participation in by Government employees (Executive Order 10529) 2397

FEDERAL COMMUNICATIONS COMMISSION:
Accounts, of telephone and telegraph companies. *See* Telephone and telegraph companies.
Alaska, radio stations in (other than amateur and broadcast):
Fixed public service, frequencies for short distance communication between non-Government stations; use of 3261 kc in lieu of 3265 kc, proposed rule making 1796

FEDERAL COMMUNICATIONS COMMISSION—Con. — Page
Alaska, radio stations in (other than amateur and broadcast)—Continued
Public coastal service, frequencies for communication with ships in Alaskan waters; use of 3261 kc in lieu of 3265 kc, proposed rule making 1796
Shipboard stations, frequencies for telephone communication between ships and with coastal harbor stations; use of 3261 kc in lieu of 3265 kc, proposed rule making 1796
Amateur radio service; portable and mobile amateur stations, requirements for operations of, outside continental limits of United States, its territories and possessions, operation in frequency band 21.0–21.45 mc 2144
Automobile emergency radio service. *See* Land transportation radio services.
Canada, assignment of frequencies to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement 1916
Commercial radio operators; proposed rule making:
Eligibility for new license; application for temporary limited radio-telegraphy second-class operator license, provisions respecting, deletion 2319
Examinations:
Renewal service requirements; temporary limited radiotelegraph second-class operator license not renewable 2319
Requirements; temporary limited radiotelegraph second-class operator license, deletion 2319
Licenses, operator, classes of; temporary limited radiotelegraph second-class operator license, discontinuance of issuance of, and validity of outstanding licenses 2319
Common carrier regulations for telephone and telegraph companies. *See* Telephone and telegraph companies.
Cuba, assignment of frequencies to broadcast stations in; new stations, changes, and deletions in accordance with North American Regional Broadcasting Agreement 2328, 2524
Emergency radio service, automobile. *See* Land transportation radio services.
Epilation equipment. *See* Industrial, scientific, and medical service.
FM broadcast stations. *See* Radio broadcast services.

40–42 mc 2052
40.68 mc 2053
1300–1700 mc 2052
Services and stations:
Alaska; stations in 1796
Amateur radio service 2144
Canada; broadcast stations in 1916
Cuba; broadcast stations 2328, 2524
FM broadcast stations, Class B; revised tentative allocations plan, amendments, proposed 2145, 2192
Industrial radio services 1961, 2053
Land transportation radio services 2053
Maritime radio services 2143, 2192, 2463, 2472, 2480, 2522

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Frequencies and channels, allocation and use of—Continued
Services and stations—Continued
Mexico; broadcast stations 2525
Standard broadcast stations 2315
Television broadcast stations 1910, 1954, 1961, 2143
Frequency allocations and radio treaty matters, allocation, assignment and use of radio frequencies; table of frequency allocations:
Frequency band 40–42 mc; use of 40.68 mc for transmission of hydrological and meteorological data by non-Government fixed stations in Pennsylvania and West Virginia 2053
Frequency band 1300–1700 mc; editorial amendment 2051
Radiopositioning stations, land and mobile; developmental use of frequency bands 10–14 kc and 90–110 kc on secondary basis with radionavigation service 1961
Hearings, orders, etc.; list of names of companies and stations, *see list at end of this agency.*
Heating equipment. *See* Industrial, scientific, and medical service.
Highway truck radio service. *See* Land transportation radio services.
Hydrological data; use of 40.68 mc frequency for transmission of, by certain stations in specified areas 2053
Industrial radio services:
See also Industrial, scientific, and medical service.
Forest products radio service:
Base, mobile, and operational fixed stations, frequencies available for; use of frequency 27.255 mc on shared basis with other services 2053
Operational fixed stations; frequencies available for transmitting hydrological and meteorological data, use of 40.68 mc by stations in Pennsylvania and West Virginia 2053
Motion picture radio service; base, mobile, and operational fixed stations, frequencies available for, use of frequency 27.255 mc on shared basis with other services 2053
Petroleum radio service:
Base, mobile, and operational fixed stations, frequencies available for; use of 27.255 mc on shared basis with other services 2053
Operational fixed stations; frequencies available for transmitting hydrological or meteorological data, use of 40.68 mc by stations in Pennsylvania and West Virginia 2053
Power radio service:
Base, mobile, and operational fixed stations, frequencies available for; use of frequency 27.255 mc on shared basis with other services 2053
Operational fixed stations; frequencies available for transmitting hydrological or meteorological data, use of 40.68 mc by stations in Pennsylvania and West Virginia 2053
Relay press radio service; base, mobile, and operational fixed stations, frequencies available for, use of frequency 27.255 mc on shared basis with other services 2053
Special industrial radio service:
Base, mobile, and operational fixed stations, frequencies available for; use of frequency 27.255 mc on shared basis with other services 2053
Operational fixed stations; frequencies available for transmitting hydrological or meteorological data, use of 40.68 mc in Pennsylvania and West Virginia 2053
Industrial, scientific, and medical service:
Epilation equipment; applicability of regulations to 2316
Heating equipment, electronic, etc., unauthorized operation of, by various companies, hearings respecting 1799, 2038, 2277
Operation for which license is required; existing equipment, applicability of regulations to short-wave epilation equipment 2316
Intercity bus radio service. *See* Land transportation radio services.

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Land transportation radio services:
Automobile emergency radio service; base, mobile, and operational fixed stations, frequencies available for, use of frequency 27.255 mc 2053
Highway truck radio service; base, mobile, and operational fixed stations, frequencies available for, use of 27.255 mc frequency 2053
Intercity bus radio service; frequencies available for base, mobile, and operational fixed stations, use of 27.255 mc frequency 2053
Railroad radio service:
Base, mobile and operational fixed stations, frequencies available for; use of frequency 27.255 mc 2053
Fixed stations, operational, frequencies available for transmitting hydrological or meteorological data; use of frequency 40.68 mc by stations in Pennsylvania and West Virginia 2053
Taxicab radio service; base, mobile, and operational fixed stations, frequencies available for, use of frequency 27.255 mc 2053
Urban transit radio service; base, mobile, and operational fixed stations, frequencies available for, use of frequency 27.255 mc 2053
Maritime radio services:
Land stations, coastal:
In Alaska. *See* Alaska, *above.*
Telephony, use of:
By limited coast stations; supplemental eligibility requirements for licenses, maritime mobile service not open to public correspondence, clarification of provisions respecting, extension of time to file comments in proposed rule making 2522
By public coast stations, list of frequencies; unavailability of 4162.5 kc after August 1, 1954 2463
Changes in frequency assignments of coast and ship stations within 4000–18,000 kc band; Mississippi River system areas 2463, 2480
Mobile maritime service; use of frequencies, etc. 2144, 2522
Shipboard stations:
Alaska, stations in. *See* Alaska, *above.*
Compulsory shipboard radio installations, inspection; periodic certification of condition of required ship radio facilities, withdrawal of proposed provisions respecting, and termination of proceedings 2318
Radiotelephony, use of:
Changes in frequency assignments of ship and coast stations within 4000–18,000 kc band; Mississippi River system areas 2463
Modification of licenses of certain ship stations 2480
Frequencies assignable:
Assignment and use of specific carrier frequencies, subject to express limitations and conditions:
Mississippi River and connecting inland waters (except Great Lakes); use of frequency 4372.4 kc after September 1, 1954 2463
Ship transmitters operating on 2738 kc, requirements respecting certification of harmonic suppression capabilities of; extension of time to file comments in proposed rule making 2192
List of frequencies; limitation note respecting use of 4162.5 kc 2463
Ship stations operating on frequencies not open to public correspondence, eligibility for licenses; use of assigned frequencies for operational purposes only, extension of time to file comments in proposed rule making 2522
Station requirements, general:
Antenna requirements; ship stations operating on frequencies below 25 mc, proposed rule making 2472
Operating controls, ship stations using multichannel installation for telegraphy; effective date of requirements with respect to mobile service frequencies in bands 4000–23,000 kc and radio channels in frequency band 2065–2107 kc, extension of 2144

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
Technical requirements, standard; authorized transmitter-power, minimum required, on frequencies between 2000–25,000 kc, proposed rule making 2472
United States passenger vessels of less than 100 gross tons, navigating between Virginia and New York; exemption from certain radio installation requirements 2435
Meteorological data; use of 40.68 mc frequency for transmission of, by certain stations in specified areas 2053
Mexico, assignment of frequencies or channels to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement 2525
Mobile stations and services. *See under specific services.*
Motion picture radio service. *See* Industrial radio service.
North American Regional Broadcasting Agreement; lists of changes in assignments for stations in various countries:
Canada 1916
Cuba 2328, 2524
Mexico 2525
Operators, commercial radio. *See* Commercial radio operators.
Organization, records, inspection of; petitions for changes in regulations and related documents, public inspection of 2328
Petroleum radio service. *See* Industrial radio services.
Power radio service. *See* Industrial radio services.
Press radio service, relay. *See* Industrial radio service.
Radiation devices, restricted and incidental, proposed rule making 2319
General provisions; operation, definitions, statement of basis and purpose 2320
Operation for which license is required 2322
Operation of restricted radiation devices that require certification 2321
Radio broadcast services:
FM broadcast stations; revised tentative allocation plan for channels allocated to Class B stations, amendments, proposed rule making 2145, 2192
Standard broadcast stations:
Frequency allocations by classes of stations; clear channels, Class I and II stations:
Authorized channels; addition and use of 1540 kc 2316
Class II stations, operation affecting Bahama Islands, on 1540 kc, deletion of provisions respecting 2316
Standards of Good Engineering Practice; skywave transmissions, scheduling of oral argument in proposed rule making 2472
Television broadcast stations, rules governing:
Affiliation agreements; territorial exclusivity, proposed rule making 1961
Channel utilization; table of assignments:
Additions to table; Florida, Havana, Channel 2, extension of time to file comments in proposed rule making 1961
Changes, deletions, etc., affecting channel assignments in listed States:
See also Addition of listed localities to table.
California 2143
South Dakota 1954
Washington; extension of time to file comments with respect to proposed change in Channel 31 1910
Operating requirements, general; affiliation agreements, territorial exclusivity, proposed rule making 1961
Radiolocation service; frequencies for use of radiopositioning stations on secondary basis with radio-navigation service, proposed 1961
Radiotelegraphy, use of. *See* Telephone and telegraph companies.
Radiotelephony, use of, by land and shipboard stations. *See* Maritime radio services.
Railroad radio service. *See* Land transportation radio services.

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Relay press radio service. *See* Industrial radio services.

Taxicab radio service. *See* Land transportation radio services.
Telephone and telegraph companies, common carrier regulations:
Accounts, uniform system of; proposed rule making:
Class A and Class B telephone companies; operating expenses, relief and pensions:
Accrual plan of accounting, charging of pension payments to employees retired before adoption of plan, deletion 1962
Actuarial liability, unfunded, interest charges on, segregation of accounts respecting 1962
Item list; additions:
Cost of providing workmen's compensation 1962
Payments for supplementary or special pensions 1962
Pension costs, inclusion of amounts for, in accounts for pensions to certain regularly retired employees 1962
Ocean-cable carriers. *See* Wire-telegraph.
Radiotelegraph carriers:
Depreciation accounting; computation of depreciation rates, use of total-life depreciation method required, with certain exceptions 1962
Operating-expense accounts, prescribed accounts, general expenses:
Insurance account, inclusions in; insurance premiums paid, certain, deletion 1962
Relief and pensions:
Accrual plan of accounting, charging of pension payments to employees retired before adoption of plan, deletion 1962
Actuarial liability, unfunded, interest charges on, segregation of accounts respecting 1962
Item list; additions:
Cost of providing workmen's compensation 1962
Payments for supplementary or special pensions 1962
Pension costs, inclusion of amounts for, in accounts for pensions to certain regularly retired employees 1962
Wire-telegraph and ocean-cable carriers:
Balance-sheet accounts, prescribed accounts, provisions for future settlements; self-carried insurance account credited with amounts charged to "relief and pensions", under certain conditions 1962
Depreciation accounting:
Computation of depreciation rates; use of total-life depreciation method required, with certain exceptions 1962
Depreciation charges; accrued depreciation account, limitation of amount of, with respect to depreciation-allowance requirement, deletion 1962
Operating-expense accounts, prescribed accounts, general expenses:
Injuries and damages; change in references 1962
Insurance; change in reference 1962
Legal services; change in references 1962
Relief and pensions:
Accrual plan of accounting, charging of pension payments to employees retired before adoption of plan, deletion 1962
Actuarial liability, unfunded, interest charges on, segregation of accounts respecting 1962
Item list; additions:
Cost of providing workmen's compensation 1962
Payments for supplementary or special pensions 1962
